CHAPTER 2

STATE BOARD OF TAX REVIEW—CONDUCT OF APPEALS AND RULES OF PRACTICE AND PROCEDURE

DIVISION I APPELLATE CASES

GENERAL RULES OF PRACTICE AND PROCEDURE FOR FINAL CONTESTED CASE DECISIONS OF OR ATTRIBUTABLE TO THE DIRECTOR OF REVENUE

- 2.1(421,17A) Definitions
- 2.2(421,17A) Appeal and jurisdiction
- 2.3(421,17A) Form of appeal
- 2.4(421,17A) Certification by director
- 2.5(421,17A) Motions
- 2.6(421,17A) Answer
- 2.7(421,17A) Docketing
- 2.8(421,17A) Filing of papers
- 2.9(421,17A) Hearing an appeal
- 2.10(17A,421) Appearances by appellant
- 2.11(421,17A) Authority of state board to issue procedural orders
- 2.12(421,17A) Continuances
- 2.13(17A,421) Place of hearing
- 2.14(17A,421) Members participating
- 2.15(17A,421) Presiding officer
- 2.16(17A,421) Appeals of state board decisions

DIVISION II ORIGINAL JURISDICTION

RULES GOVERNING CONTESTED CASE PROCEEDINGS IN WHICH THE STATE BOARD HAS ORIGINAL JURISDICTION TO COMMENCE A CONTESTED CASE PROCEEDING

- 2.17(421,17A) Applicability and scope
- 2.18(17A) Definitions
- 2.19(421,17A) Time requirements
- 2.20(421,17A) Notice of appeal
- 2.21(421,17A) Form of appeal
- 2.22(421,17A) Certification by director
- 2.23(421,17A) Answer
- 2.24(421,17A) Docketing
- 2.25(421,17A) Appearances by appellant
- 2.26(421,17A) Place of hearing
- 2.27(421,17A) Transcript of hearing
- 2.28(421,17A) Requests for contested case proceeding
- 2.29(421,17A) Notice of hearing
- 2.30(17A) Presiding officer

2.31(421,17A)	Transfer of case for hearing or appeal
2.32(421,17A)	Waiver of procedures
2.33(421,17A)	Telephone proceedings
2.34(17A,421)	Disqualifications of a presiding officer
2.35(421,17A)	Consolidation and severance
2.36(17A)	Service and filing of pleadings and other papers
2.37(421,17A)	Discovery
2.38(421,17A)	Subpoenas
2.39(421,17A)	Motions
2.40(421,17A)	Prehearing conference
2.41(421,17A)	Continuances
2.42(17A)	Withdrawals
2.43(421,17A)	Intervention
2.44(421,17A)	Hearing procedures
2.45(421,17A)	Evidence
2.46(421,17A)	Default or dismissal
2.47(421,17A)	Ex parte communication
2.48(421,17A)	Recording costs
2.49(421,17A)	Interlocutory appeals
2.50(421,17A)	Final decision
2.51(421,17A)	Applications for rehearing
2.52(421,17A)	Stays of agency and board actions
2.53(421,17A)	No factual dispute contested case
2.54(421,17A)	Appeal and review of a state board decision

CHAPTER 3

VOLUNTARY DISCLOSURE PROGRAM

3.1(421,422,423)	Voluntary disclosure program
------------------	------------------------------

CHAPTER 4

MULTILEVEL MARKETER AGREEMENTS

4.1(421)	Multilevel marketers—in general
----------	---------------------------------

CHAPTER 5

PUBLIC RECORDS AND FAIR INFORMATION PRACTICES

(Uniform Rules)

5.1(17A,22)	Definitions
5.3(17A,22)	Requests for access to records
5.6(17A,22)	Procedure by which additions, dissents, or objections may be entered into certain records
5.9(17A,22)	Disclosures without the consent of the subject
5.10(17A,22)	Routine use
5.11(17A,22)	Consensual disclosure of confidential records
5.12(17A,22)	Release to subject
5.13(17A,22)	Availability of records
5.14(17A,22)	Personally identifiable information
5.15(17A,22)	Other groups of records
5.16(17A,22)	Applicability

TITLE I
ADMINISTRATIONCHAPTER 6
ORGANIZATION, PUBLIC INSPECTION

- 6.1(17A) Establishment, organization, general course and method of operations, methods by which and location where the public may obtain information or make submissions or requests
- 6.2(17A) Public inspection
- 6.3(17A) Examination of records
- 6.4(17A) Copies of proposed rules
- 6.5(17A) Regulatory analysis procedures
- 6.6(422) Retention of records and returns by the department
- 6.7(68B) Consent to sell
- 6.8(421) Tax return extension in disaster areas

CHAPTER 7
PRACTICE AND PROCEDURE BEFORE THE DEPARTMENT OF REVENUE

- 7.1(421,17A) Applicability and scope of rules
- 7.2(421,17A) Definitions
- 7.3(17A) Business hours
- 7.4(17A) Computation of time, filing of documents
- 7.5(17A) Form and style of papers
- 7.6(17A) Persons authorized to represent themselves or others
- 7.7(17A) Resolution of tax liability
- 7.8(17A) Protest
- 7.9(17A) Identifying details
- 7.10(17A) Docket
- 7.11(17A) Informal procedures and dismissals of protests
- 7.12(17A) Answer
- 7.13(17A) Subpoenas
- 7.14(17A) Commencement of contested case proceedings
- 7.15(17A) Discovery
- 7.16(17A) Prehearing conference
- 7.17(17A) Contested case proceedings
- 7.18(17A) Interventions
- 7.19(17A) Record and transcript
- 7.20(17A) Application for rehearing
- 7.21(17A) Service
- 7.22(17A) Ex parte communications and disqualification
- 7.23(17A) Licenses
- 7.24(17A) Declaratory order—in general
- 7.25(17A) Department procedure for rule making
- 7.26(17A) Public inquiries on rule making and the rule-making records
- 7.27(17A) Criticism of rules
- 7.28(17A) Waiver or variance of certain department rules
- 7.29(17A) Petition for rule making
- 7.30(9C,91C) Procedure for nonlocal business entity bond forfeitures
- 7.31(421) Abatement of unpaid tax
- 7.32(421) Time and place of taxpayer interviews
- 7.33(421) Mailing to the last-known address

- 7.34(421) Power of attorney
 7.35(421) Taxpayer designation of tax type and period to which voluntary payments are to be applied

CHAPTER 8
 FORMS AND COMMUNICATIONS

- 8.1(17A) Definitions
 8.2(17A) Official forms
 8.3(17A) Substitution of official forms
 8.4(17A) Description of forms
 8.5(422) Electronic filing of Iowa income tax returns

CHAPTER 9
 FILING AND EXTENSION OF TAX LIENS
 AND CHARGING OFF UNCOLLECTIBLE TAX ACCOUNTS

- 9.1(422,423) Definitions
 9.2(422,423) Lien attaches
 9.3(422,423) Purpose of filing
 9.4(422,423) Place of filing
 9.5(422,423) Time of filing
 9.6(422,423) Period of lien
 9.7(422,423) Fees

CHAPTER 10
 INTEREST, PENALTY, EXCEPTIONS TO PENALTY, AND JEOPARDY ASSESSMENTS

- 10.1(421) Definitions
 10.2(421) Interest
 10.3(422,423,450,452A) Interest on refunds and unpaid tax
 10.4(421) Frivolous return penalty
 10.5(421) Improper receipt of credit or refund
 10.6(421) Penalties
 10.7(421) Waiver of penalty—definitions
 10.8(421) Penalty exceptions
 10.9(421) Notice of penalty exception for one late return in a three-year period
 10.10 to 10.19 Reserved

RETAIL SALES

- 10.20 to 10.29 Reserved

USE

- 10.30 to 10.39 Reserved

INDIVIDUAL INCOME

- 10.40 to 10.49 Reserved

WITHHOLDING

- 10.50 to 10.55 Reserved

CORPORATE

- 10.56 to 10.65 Reserved

FINANCIAL INSTITUTIONS

- 10.66 to 10.70 Reserved

MOTOR FUEL

10.71(452A) Penalty and enforcement provisions
 10.72(452A) Interest
 10.73 to 10.75 Reserved

CIGARETTES AND TOBACCO

10.76(453A) Penalties
 10.77(453A) Interest
 10.78 Reserved
 10.79(453A) Request for statutory exception to penalty
 10.80 to 10.84 Reserved

INHERITANCE

10.85 to 10.89 Reserved

IOWA ESTATE

10.90 to 10.95 Reserved

GENERATION SKIPPING

10.96 to 10.100 Reserved

FIDUCIARY INCOME

10.101 to 10.109 Reserved

HOTEL AND MOTEL

10.110 to 10.114 Reserved

ALL TAXES

JEOPARDY ASSESSMENTS

10.116(422,453B) Jeopardy assessments
 10.117(422,453B) Procedure for posting bond
 10.118(422,453B) Time limits
 10.119(422,453B) Amount of bond
 10.120(422,453B) Posting of bond
 10.121(422,453B) Order
 10.122(422,453B) Director's order
 10.123(422,453B) Type of bond
 10.124(422,453B) Form of surety bond
 10.125(422,453B) Duration of the bond
 10.126(422,453B) Exoneration of the bond

TITLE II
EXCISECHAPTER 11
ADMINISTRATION

11.1(422,423) Definitions
 11.2(422,423) Statute of limitations
 11.3(422,423) Credentials and receipts
 11.4(422,423) Retailers required to keep records
 11.5(422,423) Audit of records
 11.6(422,423) Billings
 11.7(422,423) Collections
 11.8(422,423) No property exempt from distress and sale

- 11.9(422,423) Information confidential
- 11.10(423) Bonding procedure

CHAPTER 12

FILING RETURNS, PAYMENT OF TAX, PENALTY AND INTEREST

- 12.1(422) Returns and payment of tax
- 12.2(422,423) Remittances
- 12.3(422) Permits and negotiated rate agreements
- 12.4(422) Nonpermit holders
- 12.5(422,423) Regular permit holders responsible for collection of tax
- 12.6(422,423) Sale of business
- 12.7(422) Bankruptcy, insolvency or assignment for benefit of creditors
- 12.8(422) Vending machines and other coin-operated devices
- 12.9(422) Claim for refund of tax
- 12.10(423) Audit limitation for certain services
- 12.11 Reserved
- 12.12(422) Extension of time for filing
- 12.13(422) Determination of filing status
- 12.14(422,423) Immediate successor liability for unpaid tax
- 12.15(422,423) Officers and partners—personal liability for unpaid tax
- 12.16(422) Show sponsor liability
- 12.17(422) Purchaser liability for unpaid sales tax
- 12.18(423) Biodiesel production refund
- 12.19(15) Sales and use tax refund for eligible businesses

CHAPTER 13

PERMITS

- 13.1(422) Retail sales tax permit required
- 13.2(422) Application for permit
- 13.3(422) Permit not transferable—sale of business
- 13.4(422) Permit—consolidated return optional
- 13.5(422) Retailers operating a temporary business
- 13.6(422) Reinstatement of canceled permit
- 13.7(422) Reinstatement of revoked permit
- 13.8(422) Withdrawal of permit
- 13.9(422) Loss or destruction of permit
- 13.10(422) Change of location
- 13.11(422) Change of ownership
- 13.12(422) Permit posting
- 13.13(422) Trustees, receivers, executors and administrators
- 13.14(422) Vending machines and other coin-operated devices
- 13.15(422) Other amusements
- 13.16(422) Substantially delinquent tax—denial of permit
- 13.17(422) Substantially delinquent tax—revocation of permit

CHAPTER 14

COMPUTATION OF TAX

- 14.1(422) Tax not to be included in price
- 14.2(422,423,77GA, ch1130) Retail bracket system for state sales and local option sales and service tax
- 14.3(422,423) Taxation of transactions due to rate change

CHAPTER 15

DETERMINATION OF A SALE AND SALE PRICE

15.1(422)	Conditional sales to be included in gross sales
15.2(422,423)	Repossessed goods

42.53(15)	Workforce housing tax incentives program
42.54(404A,422)	Historic preservation and cultural and entertainment district tax credit for projects with Part 2 applications approved on or after July 1, 2014, and agreements entered into on or after July 1, 2014

CHAPTER 43 ASSESSMENTS AND REFUNDS

43.1(422)	Notice of discrepancies
43.2(422)	Notice of assessment, supplemental assessments and refund adjustments
43.3(422)	Overpayments of tax
43.4(68A,422,456A)	Optional designations of funds by taxpayer
43.5(422)	Abatement of tax
43.6 and 43.7	Reserved
43.8(422)	Livestock production credit refunds for corporate taxpayers and individual taxpayers

CHAPTER 44 PENALTY AND INTEREST

44.1(422)	Penalty
44.2(422)	Computation of interest on unpaid tax
44.3(422)	Computation of interest on refunds resulting from net operating losses
44.4(422)	Computation of interest on overpayments

CHAPTER 45 PARTNERSHIPS

45.1(422)	General rule
45.2(422)	Partnership returns
45.3(422)	Contents of partnership return
45.4(422)	Distribution and taxation of partnership income

CHAPTER 46 WITHHOLDING

46.1(422)	Who must withhold
46.2(422)	Computation of amount withheld
46.3(422)	Forms, returns and reports
46.4(422)	Withholding on nonresidents
46.5(422)	Penalty and interest
46.6(422)	Withholding tax credit to workforce development fund
46.7(422)	ACE training program credits from withholding

- 46.8(260E) New job tax credit from withholding
 46.9(15) Supplemental new jobs credit from withholding and alternative credit for housing
 assistance programs
 46.10(403) Targeted jobs withholding tax credit

CHAPTER 47
 Reserved

CHAPTER 48
 COMPOSITE RETURNS

- 48.1(422) Composite returns
 48.2(422) Definitions
 48.3(422) Filing requirements
 48.4 Reserved
 48.5(422) Composite return required by director
 48.6(422) Determination of composite Iowa income
 48.7(422) Determination of composite Iowa tax
 48.8(422) Estimated tax
 48.9(422) Time and place for filing

CHAPTER 49
 ESTIMATED INCOME TAX FOR INDIVIDUALS

- 49.1(422) Who must pay estimated income tax
 49.2(422) Time for filing and payment of tax
 49.3(422) Estimated tax for nonresidents
 49.4(422) Special estimated tax periods
 49.5(422) Reporting forms
 49.6(422) Penalty—underpayment of estimated tax
 49.7(422) Estimated tax carryforwards and how the carryforward amounts are affected under
 different circumstances

CHAPTER 50
 APPORTIONMENT OF INCOME FOR RESIDENT
 SHAREHOLDERS OF S CORPORATIONS

- 50.1(422) Apportionment of income for resident shareholders of S corporations
 50.2 Reserved
 50.3(422) Distributions
 50.4(422) Computation of net S corporation income
 50.5(422) Computation of federal tax on S corporation income
 50.6(422) Income allocable to Iowa
 50.7(422) Credit for taxes paid to another state
 50.8 and 50.9 Reserved
 50.10(422) Example for tax periods beginning on or after January 1, 2002

TITLE VI
 CORPORATION

CHAPTER 51
 ADMINISTRATION

- 51.1(422) Definitions
 51.2(422) Statutes of limitation
 51.3(422) Retention of records
 51.4(422) Cancellation of authority to do business
 51.5(422) Authority for deductions

51.6(422)	Jeopardy assessments

51.8(422)	Power of attorney
51.9(422)	Delegation of authority to audit and examine

CHAPTER 52
FILING RETURNS, PAYMENT OF TAX,
PENALTY AND INTEREST, AND TAX CREDITS

52.1(422)	Who must file
52.2(422)	Time and place for filing return
52.3(422)	Form for filing
52.4(422)	Payment of tax
52.5(422)	Minimum tax
52.6(422)	Motor fuel credit
52.7(422)	Research activities credit
52.8(422)	New jobs credit
52.9	Reserved
52.10(15)	New jobs and income program tax credits
52.11(422)	Refunds and overpayments
52.12(422)	Deduction of credits
52.13(422)	Livestock production credits
52.14(15E)	Enterprise zone tax credits
52.15(15E)	Eligible housing business tax credit
52.16(422)	Franchise tax credit
52.17(422)	Assistive device tax credit
52.18(404A,422)	Historic preservation and cultural and entertainment district tax credit for projects with Part 2 applications approved and tax credits reserved prior to July 1, 2014
52.19(422)	Ethanol blended gasoline tax credit
52.20(15E)	Eligible development business investment tax credit
52.21(15E,422)	Venture capital credits
52.22(15)	New capital investment program tax credits
52.23(15E,422)	Endow Iowa tax credit
52.24(422)	Soy-based cutting tool oil tax credit
52.25(15I,422)	Wage-benefits tax credit
52.26(422,476B)	Wind energy production tax credit
52.27(422,476C)	Renewable energy tax credit
52.28(15)	High quality job creation program
52.29(15E,422)	Economic development region revolving fund tax credit
52.30(422)	E-85 gasoline promotion tax credit
52.31(422)	Biodiesel blended fuel tax credit
52.32(422)	Soy-based transformer fluid tax credit
52.33(16,422)	Agricultural assets transfer tax credit and custom farming contract tax credit
52.34(15,422)	Film qualified expenditure tax credit
52.35(15,422)	Film investment tax credit
52.36(422)	Ethanol promotion tax credit
52.37(422)	Charitable conservation contribution tax credit
52.38(422)	School tuition organization tax credit
52.39(15,422)	Redevelopment tax credit
52.40(15)	High quality jobs program
52.41(15)	Aggregate tax credit limit for certain economic development programs
52.42(16,422)	Disaster recovery housing project tax credit
52.43(422)	E-15 plus gasoline promotion tax credit

- 52.44(422) Solar energy system tax credit
- 52.45(422,85GA,SF452) From farm to food donation tax credit
- 52.46(15) Workforce housing tax incentives program
- 52.47(404A,422) Historic preservation and cultural and entertainment district tax credit for projects with Part 2 applications approved on or after July 1, 2014, and agreements entered into on or after July 1, 2014

CHAPTER 53

DETERMINATION OF NET INCOME

- 53.1(422) Computation of net income for corporations
- 53.2(422) Net operating loss carrybacks and carryovers
- 53.3(422) Capital loss carryback
- 53.4(422) Net operating and capital loss carrybacks and carryovers
- 53.5(422) Interest and dividends from federal securities
- 53.6(422) Interest and dividends from foreign securities, and securities of state and their political subdivisions
- 53.7(422) Safe harbor leases
- 53.8(422) Additions to federal taxable income
- 53.9(422) Gains and losses on property acquired before January 1, 1934
- 53.10(422) Work opportunity tax credit and alcohol and cellulosic biofuel fuels credit
- 53.11(422) Additional deduction for wages paid or accrued for work done in Iowa by certain individuals
- 53.12(422) Federal income tax deduction
- 53.13(422) Iowa income taxes and Iowa tax refund
- 53.14(422) Method of accounting, accounting period
- 53.15(422) Consolidated returns
- 53.16(422) Federal rulings and regulations
- 53.17(422) Depreciation of speculative shell buildings
- 53.18(422) Deduction of multipurpose vehicle registration fee
- 53.19(422) Deduction of foreign dividends
- 53.20(422) Employer social security credit for tips
- 53.21(422) Deduction for contributions made to the endowment fund of the Iowa educational savings plan trust
- 53.22(422) Additional first-year depreciation allowance
- 53.23(422) Section 179 expensing
- 53.24(422) Exclusion of ordinary or capital gain income realized as a result of involuntary conversion of property due to eminent domain
- 53.25(422) Exclusion of income from sale, rental or furnishing of tangible personal property or services directly related to production of film, television, or video projects
- 53.26(422) Exclusion of biodiesel production refund

CHAPTER 54

ALLOCATION AND APPORTIONMENT

- 54.1(422) Basis of corporate tax
- 54.2(422) Allocation or apportionment of investment income
- 54.3(422) Application of related expense to allocable interest, dividends, rents and royalties—tax periods beginning on or after January 1, 1978
- 54.4(422) Net gains and losses from the sale of assets
- 54.5(422) Where income is derived from the manufacture or sale of tangible personal property
- 54.6(422) Apportionment of income derived from business other than the manufacture or sale of tangible personal property

- 54.7(422) Apportionment of income of transportation, communications, and certain public utilities corporations
- 54.8(422) Apportionment of income derived from more than one business activity carried on within a single corporate structure
- 54.9(422) Allocation and apportionment of income in special cases

CHAPTER 55

ASSESSMENTS, REFUNDS, APPEALS

- 55.1(422) Notice of discrepancies
- 55.2(422) Notice of assessment
- 55.3(422) Refund of overpaid tax
- 55.4(421) Abatement of tax
- 55.5(422) Protests

CHAPTER 56

ESTIMATED TAX FOR CORPORATIONS

- 56.1(422) Who must pay estimated tax
- 56.2(422) Time for filing and payment of tax
- 56.3(422) Special estimate periods
- 56.4(422) Reporting forms
- 56.5(422) Penalties
- 56.6(422) Overpayment of estimated tax

TITLE VII

73.25(425)	Common law marriage
73.26	Reserved
73.27(425)	Special assessment credit
73.28(425)	Credit applied
73.29(425)	Deceased claimant

73.30(425)	Audit of claim
73.31(425)	Extension of time for filing a claim
73.32(425)	Annual adjustment factor
73.33(425)	Proration of claims
73.34(425)	Unreasonable hardship

CHAPTER 74

MOBILE, MODULAR, AND MANUFACTURED HOME TAX

74.1(435)	Definitions
74.2(435)	Movement of home to another county
74.3(435)	Sale of home
74.4(435)	Reduced tax rate
74.5(435)	Taxation—real estate
74.6(435)	Taxation—square footage
74.7(435)	Audit by department of revenue
74.8(435)	Collection of tax

CHAPTER 75

PROPERTY TAX ADMINISTRATION

75.1(441)	Tax year
75.2(445)	Partial payment of tax
75.3(445)	When delinquent
75.4(446)	Payment of subsequent year taxes by purchaser
75.5(428,433,434,437,437A,438,85GA,SF451)	Central assessment confidentiality
75.6(446)	Tax sale
75.7(445)	Refund of tax
75.8(614)	Delinquent property taxes

CHAPTER 76

DETERMINATION OF VALUE OF RAILROAD COMPANIES

76.1(434)	Definitions of terms
76.2(434)	Filing of annual reports
76.3(434)	Comparable sales
76.4(434)	Stock and debt approach to unit value
76.5(434)	Income capitalization approach to unit value
76.6(434)	Cost approach to unit value
76.7(434)	Correlation
76.8(434)	Allocation of unit value to state
76.9(434)	Exclusions

CHAPTER 77

DETERMINATION OF VALUE OF UTILITY COMPANIES

77.1(428,433,437,438)	Definition of terms
77.2(428,433,437,438)	Filing of annual reports
77.3(428,433,437,438)	Comparable sales
77.4(428,433,437,438)	Stock and debt approach to unit value
77.5(428,433,437,438)	Income capitalization approach to unit value
77.6(428,433,437,438)	Cost approach to unit value
77.7(428,433,437,438)	Correlation
77.8(428,433,437,438)	Allocation of unit value to state

CHAPTER 78
REPLACEMENT TAX AND STATEWIDE PROPERTY
TAX ON RATE-REGULATED WATER UTILITIES

REPLACEMENT TAX

- 78.1(85GA,SF451) Who must file return
- 78.2(85GA,SF451) Time and place for filing return
- 78.3(85GA,SF451) Form for filing
- 78.4(85GA,SF451) Payment of tax
- 78.5(85GA,SF451) Statute of limitations
- 78.6(85GA,SF451) Billings
- 78.7(85GA,SF451) Refunds
- 78.8(85GA,SF451) Abatement of tax
- 78.9(85GA,SF451) Taxpayers required to keep records
- 78.10(85GA,SF451) Credentials
- 78.11(85GA,SF451) Audit of records
- 78.12(85GA,SF451) Information confidential

STATEWIDE PROPERTY TAX

- 78.13(85GA,SF451) Who must file return
- 78.14(85GA,SF451) Time and place for filing return
- 78.15(85GA,SF451) Form for filing
- 78.16(85GA,SF451) Payment of tax
- 78.17(85GA,SF451) Statute of limitations
- 78.18(85GA,SF451) Billings
- 78.19(85GA,SF451) Refunds
- 78.20(85GA,SF451) Abatement of tax
- 78.21(85GA,SF451) Taxpayers required to keep records
- 78.22(85GA,SF451) Credentials
- 78.23(85GA,SF451) Audit of records

CHAPTER 79

REAL ESTATE TRANSFER TAX AND DECLARATIONS OF VALUE

- 79.1(428A) Real estate transfer tax: Responsibility of county recorders
- 79.2(428A) Taxable status of real estate transfers
- 79.3(428A) Declarations of value: Responsibility of county recorders and city and county assessors
- 79.4(428A) Certain transfers of agricultural realty
- 79.5(428A) Form completion and filing requirements
- 79.6(428A) Public access to declarations of value

CHAPTER 80

PROPERTY TAX CREDITS AND EXEMPTIONS

- 80.1(425) Homestead tax credit
- 80.2(22,35,426A) Military service tax exemption
- 80.3(427) Pollution control and recycling property tax exemption
- 80.4(427) Low-rent housing for the elderly and persons with disabilities
- 80.5(427) Speculative shell buildings
- 80.6(427B) Industrial property tax exemption
- 80.7(427B) Assessment of computers and industrial machinery and equipment
- 80.8(404) Urban revitalization partial exemption
- 80.9(427C,441) Forest and fruit-tree reservations
- 80.10(427B) Underground storage tanks
- 80.11(425A) Family farm tax credit

80.12(427)	Methane gas conversion property
80.13(427B,476B)	Wind energy conversion property
80.14(427)	Mobile home park storm shelter
80.15(427)	Barn and one-room schoolhouse preservation
80.16(426)	Agricultural land tax credit
80.17(427)	Indian housing property
80.18(427)	Property used in value-added agricultural product operations
80.19(427)	Dwelling unit property within certain cities
80.20(427)	Nursing facilities
80.21(368)	Annexation of property by a city
80.22(427)	Port authority
80.23(427A)	Concrete batch plants and hot mix asphalt facilities
80.24(427)	Airport property
80.25(427A)	Car wash equipment
80.26(427)	Web search portal and data center business property
80.27(427)	Privately owned libraries and art galleries
80.28(404B)	Disaster revitalization area
80.29(427)	Geothermal heating and cooling systems installed on property classified as residential
80.30(426C)	Business property tax credit
80.31 to 80.48	Reserved
80.49(441)	Commercial and industrial property tax replacement—county replacement claims
80.50(427,441)	Responsibility of local assessors
80.51(441)	Responsibility of local boards of review
80.52(427)	Responsibility of director of revenue
80.53(427)	Application for exemption
80.54(427)	Partial exemptions
80.55(427,441)	Taxable status of property
80.56(427)	Abatement of taxes

TITLE X
CIGARETTES AND TOBACCO

CHAPTER 81
ADMINISTRATION

81.1(453A)	Definitions
81.2(453A)	Credentials and receipts
81.3(453A)	Examination of records
81.4(453A)	Records
81.5(453A)	Form of invoice
81.6(453A)	Audit of records—cost, supplemental assessments and refund adjustments
81.7(453A)	Bonds
81.8(98)	Penalties
81.9(98)	Interest
81.10(98)	Waiver of penalty or interest
81.11(453A)	Appeal—practice and procedure before the department
81.12(453A)	Permit—license revocation
81.13(453A)	Permit applications and denials
81.14(453A)	Confidential information
81.15(98)	Request for waiver of penalty
81.16(453A)	Inventory tax

CHAPTER 82
CIGARETTE TAX

82.1(453A)	Permits required
82.2(453A)	Partial year permits—payment—refund—exchange
82.3(453A)	Bond requirements
82.4(453A)	Cigarette tax—attachment—exemption—exclusivity of tax
82.5(453A)	Cigarette tax stamps
82.6(453A)	Banks authorized to sell stamps—requirements—restrictions
82.7(453A)	Purchase of cigarette tax stamps—discount
82.8(453A)	Affixing stamps
82.9(453A)	Reports
82.10(453A)	Manufacturer's samples
82.11(453A)	Refund of tax—unused and destroyed stamps

CHAPTER 83
TOBACCO TAX

83.1(453A)	Licenses
83.2(453A)	Distributor bond
83.3(453A)	Tax on tobacco products
83.4(453A)	Tax on little cigars
83.5(453A)	Distributor discount
83.6(453A)	Distributor returns
83.7(453A)	Consumer's return
83.8(453A)	Transporter's report
83.9(453A)	Free samples
83.10(453A)	Credits and refunds of taxes
83.11(453A)	Sales exempt from tax
83.12(81GA,HF339)	Retail permits required
83.13(81GA,HF339)	Permit issuance fee
83.14(81GA,HF339)	Refunds of permit fee
83.15(81GA,HF339)	Application for permit
83.16(81GA,HF339)	Records and reports
83.17(81GA,HF339)	Penalties

CHAPTER 84
UNFAIR CIGARETTE SALES

84.1(421B)	Definitions
84.2(421B)	Minimum price
84.3(421B)	Combination sales
84.4(421B)	Retail redemption of coupons
84.5(421B)	Exempt sales
84.6(421B)	Notification of manufacturer's price increase
84.7(421B)	Permit revocation

CHAPTER 85
TOBACCO MASTER SETTLEMENT AGREEMENT

DIVISION I
TOBACCO MASTER SETTLEMENT AGREEMENT

85.1(453C)	National uniform tobacco settlement
85.2(453C)	Definitions
85.3(453C)	Report required
85.4(453C)	Report information
85.5(453C)	Record-keeping requirement

85.6(453C) Confidentiality
85.7 to 85.20 Reserved

DIVISION II
TOBACCO PRODUCT MANUFACTURERS' OBLIGATIONS AND PROCEDURES

85.21(80GA,SF375) Definitions
85.22(80GA,SF375) Directory of tobacco product manufacturers

TITLE XI
INHERITANCE, ESTATE, GENERATION SKIPPING, AND FIDUCIARY INCOME TAX

CHAPTER 86
INHERITANCE TAX

86.1(450) Administration
86.2(450) Inheritance tax returns and payment of tax
86.3(450) Audits, assessments and refunds
86.4(450) Appeals
86.5(450) Gross estate
86.6(450) The net estate
86.7(450) Life estate, remainder and annuity tables—in general
86.8(450B) Special use valuation
86.9(450) Market value in the ordinary course of trade
86.10(450) Alternate valuation date
86.11(450) Valuation—special problem areas
86.12(450) The inheritance tax clearance
86.13(450) No lien on the surviving spouse's share of the estate
86.14(450) Computation of shares
86.15(450) Applicability

CHAPTER 87
IOWA ESTATE TAX

87.1(451) Administration
87.2(451) Confidential and nonconfidential information
87.3(451) Tax imposed, tax returns, and tax due
87.4(451) Audits, assessments and refunds
87.5(451) Appeals
87.6(451) Applicable rules

CHAPTER 88
GENERATION SKIPPING TRANSFER TAX

88.1(450A) Administration
88.2(450A) Confidential and nonconfidential information
88.3(450A) Tax imposed, tax due and tax returns
88.4(450A) Audits, assessments and refunds
88.5(450A) Appeals
88.6(450A) Generation skipping transfers prior to Public Law 99-514
88.7(421) Applicability

CHAPTER 89
FIDUCIARY INCOME TAX

89.1(422) Administration
89.2(422) Confidentiality
89.3(422) Situs of trusts
89.4(422) Fiduciary returns and payment of the tax
89.5(422) Extension of time to file and pay the tax

89.6(422)	Penalties
89.7(422)	Interest or refunds on net operating loss carrybacks
89.8(422)	Reportable income and deductions
89.9(422)	Audits, assessments and refunds

TITLE XIX

STREAMLINED SALES AND USE TAX RULES

CHAPTER 211

DEFINITIONS

- 211.1(423) Definitions

CHAPTER 212

ELEMENTS INCLUDED IN AND EXCLUDED
FROM A TAXABLE SALE AND SALES PRICE

- 212.1(423) Tax not to be included in price
- 212.2(423) Finance charge
- 212.3(423) Retailers' discounts, trade discounts, rebates and coupons
- 212.4(423) Excise tax included in and excluded from sales price
- 212.5(423) Trade-ins
- 212.6(423) Installation charges when tangible personal property is sold at retail
- 212.7(423) Service charge and gratuity
- 212.8(423) Payment from a third party

CHAPTER 213

MISCELLANEOUS TAXABLE SALES

- 213.1(423) Tax imposed
- 213.2(423) Athletic events
- 213.3(423) Conditional sales contracts
- 213.4(423) The sales price of sales of butane, propane and other like gases in cylinder drums, etc.
- 213.5(423) Antiques, curios, old coins, collector's postage stamps, and currency exchanged for greater than face value
- 213.6(423) Communication services furnished by hotel to its guests
- 213.7(423) Consignment sales
- 213.8(423) Electrotypes, types, zinc etchings, halftones, stereotypes, color process plates, wood mounts and art productions
- 213.9(423) Explosives used in mines, quarries and elsewhere
- 213.10(423) Sales on layaway
- 213.11(423) Memorial stones
- 213.12(423) Creditors and trustees
- 213.13(423) Sale of pets
- 213.14(423) Redemption of meal tickets, coupon books and merchandise cards as a taxable sale
- 213.15(423) Rental of personal property in connection with the operation of amusements
- 213.16(423) Repossessed goods
- 213.17(423) Sales of signs at retail
- 213.18(423) Tangible personal property made to order
- 213.19(423) Used or secondhand tangible personal property
- 213.20(423) Carpeting and other floor coverings
- 213.21(423) Goods damaged in transit
- 213.22(423) Snowmobiles, motorboats, and certain other vehicles
- 213.23(423) Photographers and photostaters

- 213.24(423) Sale, transfer or exchange of tangible personal property or taxable enumerated services between affiliated corporations
- 213.25(423) Urban transit systems

CHAPTER 214

MISCELLANEOUS NONTAXABLE TRANSACTIONS

- 214.1(423) Corporate mergers which do not involve taxable sales of tangible personal property or services
- 214.2(423) Sales of prepaid merchandise cards
- 214.3(423) Demurrage charges
- 214.4(423) Beverage container deposits
- 214.5(423) Exempt sales by excursion boat licensees
- 214.6(423) Advertising agencies, commercial artists and designers as an agent or as a nonagent of a client

CHAPTER 1
STATE BOARD OF TAX REVIEW—ADMINISTRATION
[Prior to 12/17/86, Revenue Department[730]]

701—1.1(17A,421) Establishment, membership and location of the state board of tax review. By an Act of the Sixty-second General Assembly (1967 Iowa Acts, chapter 342), the state board of tax review (state board) was established within the department of revenue. The state board consists of three members who are appointed by the governor and subject to confirmation by the senate. The board also has a secretary who assists in administrative tasks and serves the board. One of the three members is selected as the chairperson of the state board, and it is the chairperson's duty to call and chair meetings. The members shall serve staggered terms and each member shall serve a six-year term. A member shall not be permitted a successive term.

The state board determines when it should convene to discuss or conduct hearings regarding matters that are appealed to the board. The office of the state board is maintained in the department of revenue, and its mailing address is State Board of Tax Review, Department of Revenue, Hoover State Office Building, Fourth Floor, 1305 E. Walnut Street, Des Moines, Iowa 50319.

701—1.2(421,17A) Powers and duties of the state board. The state board's powers and duties include, but may not be limited to, the following:

1. Reviewing matters appealed to the state board from the department of revenue or by an affected taxpayer;
2. Reviewing matters of original jurisdiction and matters on the board's own motion as set out in Iowa Code section 421.1(4);
3. Determining and adopting policies that are authorized by law and that are necessary for the more efficient operation of any phases of tax review;
4. Advising and counseling the director of revenue concerning tax laws and regulations;
5. Preparing and submitting to each regular session of the general assembly a report containing recommendations regarding new laws, the amendment of current law, or review for repeal of laws;
6. Reviewing and recommending appropriate action regarding petitions of interested persons to amend or rescind the procedural or administrative rules that govern the state board which are limited to 701—Chapters 1 and 2.

701—1.3(421,17A) Powers and duties not subject to the jurisdiction of the state board. The state board shall not consider or review either of the following items:

1.3(1) Declaratory orders. The state board shall not consider or rule on petitions for declaratory orders as to the applicability of any statutory provision, rule or other written statement of law or policy, decision, or order. Upon request, the state board may review a ruling of the department of revenue concerning the appropriate action regarding the petition.

1.3(2) Petitions for rule making. The state board will not consider any petitions of interested persons requesting the promulgation, amendment or rescission of any substantive tax rule. Petitions regarding these topics should be submitted to the department of revenue. The board shall review and recommend appropriate action regarding petitions of interested persons to amend or rescind the procedural or administrative rules that govern the state board which are limited to 701—Chapters 1 and 2.

These rules are intended to implement Iowa Code chapter 17A.

CHAPTER 2
STATE BOARD OF TAX REVIEW—CONDUCT OF APPEALS AND
RULES OF PRACTICE AND PROCEDURE
[Prior to 12/17/86, Revenue Department[730]]

DIVISION I
APPELLATE CASES

GENERAL RULES OF PRACTICE AND PROCEDURE FOR FINAL CONTESTED CASE DECISIONS OF
OR ATTRIBUTABLE TO THE DIRECTOR OF REVENUE

701—2.1(421,17A) Definitions. For the purposes of these rules, the following definitions shall apply:
“Board” or “state board” means the state board of tax review as created by chapter 342 of the Acts of the Sixty-second General Assembly and governed by Iowa Code chapter 17A and section 421.1.

“Department” means the Iowa department of revenue.

“Director” means the director of the Iowa department of revenue.

“Secretary” means the secretary for the state board of tax review.

701—2.2(421,17A) Appeal and jurisdiction.

2.2(1) Jurisdiction. Jurisdiction is conferred upon the state board by the giving of written notice to the department within 30 days of the rendering of the decision, order, or directive, which is a final agency action from which such appeal is taken. The appellant may appeal the entire decision or order issued by the director or the appellant may appeal only certain issues set forth in the review by the director. In cases in which the state board does not have original jurisdiction, the state board has the power to review all of the original issues raised by the parties in the contested case, even if the issues were not appealed or subject to cross-appeal by the parties.

2.2(2) Notice of appeal. The notice of appeal must be proper in format and content as set forth in 701—2.3(421,17A), which governs the notice of appeal.

Notice of appeal may be given by certified mail, return receipt requested, addressed to the department of revenue to the attention of the director, or by service on the director as provided by the Iowa Rules of Civil Procedure. The mailing address for the notice of appeal is Secretary for the State Board, Director’s Office, State Board of Tax Review, Hoover State Office Building, 1305 East Walnut Street, Fourth Floor, Des Moines, Iowa 50319.

Proof that the notice of appeal was filed with the state board shall be made by executing an affidavit of mailing signed by the appellant or the appellant’s duly authorized representative, with return receipt and a copy of the notice attached. The affidavit shall state that the notice of appeal was mailed to the secretary for the state board indicating the mailing address that was used, or the affidavit shall state that the filing of the notice of appeal was conducted by in-person delivery to the secretary for the state board with a file-stamped copy of the notice having been received and attached to the affidavit.

2.2(3) Scheduling of case briefs and arguments. The state board will determine the briefing and argument schedule for the matter on appeal. The state board may resolve the appeal based on the briefs or provide an opportunity for oral argument. The state board may amend a scheduling notice that was issued by the state board. The state board may amend the notice on the board’s own motion or after consideration of a petition requesting such a modification from any of the parties involved in the appeal.

701—2.3(421,17A) Form of appeal. The written notice of appeal shall contain a caption in the following form:

BEFORE THE STATE BOARD OF TAX REVIEW
HOOVER STATE OFFICE BUILDING
DES MOINES, IOWA

IN THE MATTER OF _____
(state taxpayer’s name, address and
designate type of proceeding, e.g., income
tax refund claim)

NOTICE OF APPEAL
DOCKET NO.
(Docket No. is assigned by Board)

The notice of appeal shall substantially state in separate numbered paragraphs the following:

1. The appellant's name and legal residence;
2. The date on which the director's decision, order or directive was issued;
3. The amount of assessment or refund denial, nature of tax, year or other period, date of assessment or refund denial, and approximate amount of total tax liability in controversy;
4. A clear and concise assignment of each and every error;
5. A clear and concise statement of the facts upon which the affected taxpayer relies as sustaining the assignment of error;
6. The relief requested;
7. The signature of affected taxpayer or counsel, together with address to which all subsequent correspondence, notice or papers shall be served or mailed.

The notice of appeal must be signed by the appealing party or a representative of that party and contain a certificate of service.

701—2.4(421,17A) Certification by director. Within 30 days after notice of appeal is given, the director shall certify to the board all records; documents; reports; audits; a copy of the decision, order or directive from which appeal is taken; and all other pertinent information.

701—2.5(421,17A) Motions. All motions shall be in writing and shall be filed with the secretary for the state board within 30 days after the filing of the attached pleading and shall contain the reasons and grounds supporting the motion. The state board shall act upon such motions as justice may require. Motions based on matters which do not appear of record shall be supported by affidavit.

701—2.6(421,17A) Answer. An answer shall be filed with the secretary for the state board within 30 days after the filing of pleading responded to, unless attacked by motion as provided in rule 701—2.5(421,17A), and then the answer shall be filed within 30 days after the date on which the state board issues a ruling on the motion.

701—2.7(421,17A) Docketing. Appeals shall be assigned consecutive docket numbers. Records must be maintained by the secretary for the state board consisting of the case name and the corresponding docket number assigned to the case. The records of each case shall also include each action and each act done, with the proper dates as follows:

1. The title of the appeal;
2. Brief statement of the type of tax, year or other period, date of assessment, refund denial, and the amount involved including tax, penalty, interest and costs;
3. The manner and time of service of notice of appeal;
4. The appearance of all parties;
5. Notice of hearing, together with manner and time of service; and
6. The decision of the state board or other disposition of the case and the date.

701—2.8(421,17A) Filing of papers. After proof of notice has been filed, all motions, pleadings, briefs, and other papers to be filed shall be filed in quadruplicate with the secretary for the state board who shall send copies to members of the state board and to all other parties of record, unless represented by counsel of record, then to such counsel.

701—2.9(421,17A) Hearing an appeal. In the event that the case consists of a review by the state board of a decision of or attributable to the director in a contested case proceeding, the state board will consider only those issues or selected issues actually presented at the contested case proceeding where such issues were of the type which by statute were entrusted to the director for determination. Further, when reviewing the decision of or attributable to the director on these issues presented at the contested case proceeding, the board shall not hear any further evidence with respect to those issues, but the board shall afford each party an opportunity to present briefs and oral arguments.

701—2.10(17A,421) Appearances by appellant. Any appellant may appear in person or, in the case of corporations, partnerships or other associations, by their duly authorized representative, or by an attorney-at-law or a certified public accountant authorized to practice in the state of Iowa.

701—2.11(421,17A) Authority of state board to issue procedural orders. The state board or a member of the state board may issue preliminary orders regarding procedural matters. The secretary for the state board shall immediately mail a copy of any such preliminary order entered under this rule to the two members of the board who did not participate in the order. All orders entered under this rule shall become the action of the board unless the members of the board who did not participate in the order notify the secretary of their objection within five days of their receipt of the order. If the members of the board who did not participate in the order timely object, then the order shall be null and void. The secretary shall notify the parties of the order entered under this rule, when it becomes the order of the board. The chairperson, or other member designated by the chairperson, may grant a continuance of the hearing on appeal for “good cause” even though there is insufficient time before the scheduled hearing for other members of the board to object to the continuance.

701—2.12(421,17A) Continuances. Any hearing may be continued for “good cause.” Requests for continuance prior to the hearing shall be in writing and promptly filed with the state board immediately upon “the cause” becoming known.

701—2.13(17A,421) Place of hearing. Unless otherwise designated by the state board, the hearing shall be held in the office of the State Board of Tax Review, Hoover State Office Building, Fourth Floor, 1305 E. Walnut Street, Des Moines, Iowa 50319.

701—2.14(17A,421) Members participating. All appeals shall be heard by a minimum of two members of the state board. Orders and decisions shall be signed by one member of the board and shall name participating members. Decisions shall affirm, modify, remand, or reverse the decision, order, or directive from which an appeal was made. A majority decision by the state board shall govern and control. Written dissenting decisions may be filed.

701—2.15(17A,421) Presiding officer. The chairperson of the state board or a designated member shall preside at the hearing.

701—2.16(17A,421) Appeals of state board decisions. Prior to July 1, 2004, only a taxpayer could seek judicial review by the state board of a decision or order previously issued by the director. However, effective for state board decisions issued on or after July 1, 2004, either the department or the taxpayer may seek judicial review of a decision or order rendered by the state board. The department or taxpayer may seek judicial review of the entire decision or order of the state board or may seek judicial review of only certain issues contained in the decision or order of the state board.

DIVISION II
ORIGINAL JURISDICTION

RULES GOVERNING CONTESTED CASE PROCEEDINGS
IN WHICH THE STATE BOARD HAS ORIGINAL JURISDICTION
TO COMMENCE A CONTESTED CASE PROCEEDING

701—2.17(421,17A) Applicability and scope. The rules set forth under division II govern the proceedings for all cases in which the state board has original jurisdiction to commence a contested case proceeding.

701—2.18(17A) Definitions. For the purposes of division II, the following definitions shall apply:
“Board” or “state board” means the state board of tax review created by Iowa Code section 421.1.

“*Contested case*” means a proceeding defined by Iowa Code section 17A.2(5), over which the state board of tax review has original jurisdiction to commence a contested case proceeding, and includes any matter defined as a no factual dispute contested case pursuant to Iowa Code section 17A.10A.

“*Department*” means the department of revenue.

“*Department of inspections and appeals*” means the Iowa department of inspections and appeals which was created and is governed by Iowa Code chapter 10A.

“*Director*” means the director of the department of revenue or the director’s authorized representative.

“*Division of administrative hearings*” means the division of the department of inspections and appeals responsible for holding contested case proceedings pursuant to Iowa Code chapter 10A.

“*Issuance*” means the date of mailing of a decision or order or date of delivery if service is by other means, unless another date is specified in the order.

“*Party*” means each person or agency named or admitted as a party or properly seeking and entitled as of right to be admitted as a party.

“*Person*” means any individual; estate; trust; fiduciary; partnership including limited liability partnership; corporation including limited liability corporation; association; governmental subdivision; public or private organization of any character; or any other individual or entity allowed by definition under the law of another agency involved in the proceedings under this division.

“*Presiding officer*” means the members of the state board officiating over the contested case proceedings or, if the state board exercises its discretion and the notice of appeal is transferred from the state board to the department of inspections and appeals, then “presiding officer” means an administrative law judge employed by the division of administrative hearings of the department of inspections and appeals.

“*Proposed decision*” means the presiding officer’s recommended findings of fact, conclusions of law, decision, and order in a contested case.

701—2.19(421,17A) Time requirements. Time shall be computed as provided in Iowa Code section 4.1(34), “Time—legal holidays.”

701—2.20(421,17A) Notice of appeal. Jurisdiction is conferred upon the state board by the giving of written notice to the department within 30 days of the rendering of the decision, order, or directive from which such appeal is taken. However, the state board does not have jurisdiction with regard to a final equalization notice issued pursuant to Iowa Code section 441.49, unless written notice is given within 10 days of the date of the order in accordance with rule 701—71.15(441).

Notice of appeal to the state board may be given by certified mail, return receipt requested, and addressed to the department of revenue to the attention of the director at Iowa Department of Revenue, Hoover State Office Building, Fourth Floor, 1305 E. Walnut Street, Des Moines, Iowa 50319, or by service on the director as provided by the Iowa Rules of Civil Procedure.

Notice shall be proved by affidavit of mailing signed by the appellant or the appellant’s duly authorized representative, with return receipt and a copy of the notice attached, filed with the secretary, or by filing with the secretary a copy of the notice of appeal with return of service attached.

701—2.21(421,17A) Form of appeal. The written notice of appeal shall contain a caption in the following form:

BEFORE THE STATE BOARD OF TAX REVIEW HOOVER STATE OFFICE BUILDING DES MOINES, IOWA		
IN THE MATTER OF _____ (state taxpayer’s name, address and designate type of proceeding, e.g., income tax refund claim)	}	NOTICE OF APPEAL DOCKET NO. (Docket No. is assigned by Board)

The notice of appeal shall substantially state in separate numbered paragraphs the following:

1. The appellant's name and legal residence;
2. The date appellant received the director's decision, order, or directive;
3. The amount of assessment or refund at issue, nature of tax, year or other period, date of assessment or refund denial, and approximate amount of total tax liability in controversy;
4. A clear and concise assignment of each and every error;
5. A clear and concise statement of the facts upon which the affected taxpayer relies as sustaining the assignment of error;
6. The relief requested; and
7. The signature of affected taxpayer or counsel, together with address to which all subsequent correspondence, notice or papers shall be served or mailed.

701—2.22(421,17A) Certification by director. Within 30 days after notice of appeal is given, the director shall certify to the board all records; documents; reports; audits; a copy of the decision, order, or directive from which appeal is taken; and all other pertinent information.

701—2.23(421,17A) Answer. An answer shall be filed with the secretary for the state board within 30 days after the filing of pleading responded to, unless attacked by motion as provided in rule 701—2.5(421,17A). If a motion is filed attacking the pleadings as provided in 701—2.5(421,17A), then the answer shall be filed within 30 days after the date on which the board issues a ruling on the motion.

701—2.24(421,17A) Docketing. Appeals shall be assigned consecutive docket numbers. Records must be maintained by the secretary for the state board consisting of the case name and the corresponding docket number assigned to the case. The records of each case shall also include each action and each act done, with the proper dates as follows:

1. The title of the appeal;
2. Brief statement of the type of tax, year or other period, date of assessment, and the amount involved including tax, penalty, interest and costs;
3. The manner and time of service of notice of appeal;
4. The appearance of all parties;
5. Notice of hearing, together with manner and time of service; and
6. The decision of the state board or other disposition of the case and the date.

701—2.25(421,17A) Appearances by appellant. Any appellant may appear in person or, in the case of corporations, partnerships or other associations, by their duly authorized representative, or by an attorney-at-law or a certified public accountant authorized to practice in the state of Iowa.

701—2.26(421,17A) Place of hearing. Unless otherwise designated by the state board, the hearing shall be held in the office of the State Board of Tax Review, Hoover State Office Building, Fourth Floor, 1305 E. Walnut Street, Des Moines, Iowa 50319.

701—2.27(421,17A) Transcript of hearing. Hearings shall be tape-recorded. Any party may provide a certified court reporter at the party's own expense. Any party may request that a transcription of the tape-recorded hearing be composed. The department reserves the right to impose a charge for transcription services.

701—2.28(421,17A) Requests for contested case proceeding. Any party may request commencement of a contested case proceeding by filing a written request for such a proceeding after the notice of appeal and an answer have been filed.

701—2.29(421,17A) Notice of hearing.

2.29(1) Delivery. Delivery of the notice of hearing constitutes the commencement of the contested case proceeding. Delivery may be executed by:

- a. Personal service as provided in the Iowa Rules of Civil Procedure;

- b. Certified mail, return receipt requested;
- c. First-class mail; or
- d. Publication, as provided in the Iowa Rules of Civil Procedure.

2.29(2) Contents. The notice of hearing shall contain the following information:

- a. A statement of the time, place, and nature of the hearing;
- b. A statement of legal authority and jurisdiction under which the hearing is to be held;
- c. A reference to the particular sections of the statutes and rules involved;
- d. A short and plain statement of the matters asserted. If the state board or other party is unable to state the matters in detail at the time the notice is served, the initial notice may be limited to a statement of the issues involved. Thereafter, upon application, a more definite and detailed statement shall be furnished;
- e. Identification of all parties including the name, address and telephone number of the parties' representatives where known;
- f. Reference to the procedural rules governing conduct of the contested case proceeding;
- g. Identification of the presiding officer, if known. If the identity of the presiding officer is not known, a description of who will serve as presiding officer;
- h. Notification of the time period in which a party may request that the presiding officer be an administrative law judge; and
- i. Whether the state board on its own motion has decided to transfer the case to the division of administrative hearings.

701—2.30(17A) Presiding officer.

2.30(1) Request. Any party who wishes to request that the presiding officer assigned to render a proposed decision be an administrative law judge employed by the department of inspections and appeals must file a written request within 30 days after service of a request for commencement of a contested case proceeding as provided in 701—2.28(421,17A).

2.30(2) Denial of request. The state board may deny the request only upon a finding that one or more of the following apply:

- a. There is a compelling need to expedite issuance of a final decision in order to protect the public health, safety, or welfare;
- b. An administrative law judge with the qualifications identified in subrule 2.30(4) is unavailable to hear the case within a reasonable time;
- c. The case involves significant policy issues of first impression that are inextricably intertwined with the factual issues presented;
- d. The demeanor of the witnesses is likely to be dispositive in resolving the disputed factual issues;
- e. Funds are unavailable to pay the costs of an administrative law judge and an interagency appeal;
- f. The request was not timely filed;
- g. The request is not consistent with a specified statute; or
- h. The state board based on its discretion may wish to retain the case due to the subject matter of the case or issues involved in the case.

2.30(3) Ruling on request. The state board shall issue a written ruling specifying the grounds for its decision within 30 days after a request for an administrative law judge is filed. If the ruling is contingent upon the availability of an administrative law judge with the qualifications identified in 2.30(4), the parties shall be notified at least 10 days prior to the hearing if a qualified administrative law judge will not be available.

2.30(4) Qualifications of the administrative law judge. An administrative law judge assigned to act as a presiding officer in a case in which the state board has original jurisdiction shall have the following technical expertise unless waived by the state board: The administrative law judge must be an attorney licensed to practice law in the state of Iowa and, based on the discretion of the state board, possess sufficient technical expertise in the area of taxation and related matters to be capable of rendering a fair and competent decision in such cases.

2.30(5) *Appeal of proposed decision by the administrative law judge.* Except as provided otherwise by another provision of law, all rulings by an administrative law judge acting as presiding officer are subject to appeal to the state board. A party must seek any available appeal in order to exhaust adequate administrative remedies.

2.30(6) *Review of interagency appeals.* Unless otherwise provided by law, members of the state board, when reviewing a proposed decision upon interagency appeal, shall have the powers which apply to presiding officers.

701—2.31(421,17A) Transfer of case for hearing or appeal. The secretary for the state board shall transfer the case file to the division of administrative hearings within 30 days of the date of a determination by the state board that the case should be transferred. The parties to the case shall be notified at least 10 days prior to the hearing if a qualified administrative law judge will be available.

The administrative hearings division shall, upon issuance of a proposed decision, promptly forward the record of the contested case proceeding and all other papers associated with the case to the state board, if no timely motion to vacate under rule 701—2.46(421,17A) is filed. If such a motion is filed, the record shall be promptly forwarded after the motion to vacate is denied or a proposed decision is rendered on the merits.

701—2.32(421,17A) Waiver of procedures. Unless otherwise precluded by law, the parties in a contested case proceeding may waive any provision of division II. However, the state board in its discretion may refuse to give effect to such a waiver when it deems the waiver to be inconsistent with the public interest.

701—2.33(421,17A) Telephone proceedings. The presiding officer may resolve preliminary procedural motions by telephone conference in which all parties have an opportunity to participate. Other telephone proceedings may be held with the consent of all parties. The presiding officer will determine the location of the parties and witnesses for telephone hearings. The convenience of the witnesses or parties, as well as the nature of the case, will be considered when location is chosen.

701—2.34(17A,421) Disqualifications of a presiding officer.

2.34(1) A presiding officer or other person shall withdraw from participation in the making of any proposed or final decision in a contested case if that person:

- a. Has a personal bias or prejudice concerning a party or a representative of a party;
- b. Has personally investigated, prosecuted, or advocated in connection with that case, the specific controversy underlying that case, or another pending factually related contested case, or a pending factually related controversy that may culminate in a contested case involving the same parties;
- c. Is subject to the authority, direction, or discretion of any person who has personally investigated, prosecuted, or advocated in connection with that contested case, the specific controversy underlying that contested case, or a pending factually related contested case or controversy involving the same parties;
- d. Has acted as counsel to any person who is a private party to that proceeding within the past two years;
- e. Has a personal financial interest in the outcome of the case or any other significant personal interest that could be substantially affected by the outcome of the case;
- f. Has a spouse or relative within the third degree of relationship who: (1) is a party to the case, or an officer, director or trustee of a party; (2) is a lawyer in the case; (3) is known to have an interest that could be substantially affected by the outcome of the case; or (4) is likely to be a material witness in the case; or
- g. Has any other legally sufficient cause to withdraw from participation in the decision making in that case.

2.34(2) Personally investigated. The term “personally investigated” means taking affirmative steps to interview witnesses directly or to obtain documents or other information directly. The term “personally investigated” does not include general direction and supervision of assigned investigators,

unsolicited receipt of information which is relayed to assigned investigators, review of another person's investigative work product in the course of determining whether there is probable cause to initiate a proceeding, or exposure to factual information while performing other functions of the state board, including fact gathering for purposes other than investigation of the matter which culminates in a contested case. Factual information relevant to the merits of a contested case received by a person who later serves as presiding officer or a member of the state board shall be disclosed if required by Iowa Code section 17A.11 and the rules set forth in this division.

2.34(3) Withdrawal. In a situation where a presiding officer or other person knows of information which might reasonably be deemed to be a basis for disqualification and decides voluntary withdrawal is unnecessary, that person shall submit the relevant information for the record by affidavit and shall provide for the record a statement of the reasons for the determination that withdrawal is unnecessary.

2.34(4) Motion for disqualification. If a party asserts disqualification on any appropriate ground, including those listed in subrule 2.34(1), the party shall file a motion supported by an affidavit pursuant to Iowa Code section 17A.11. The motion must be filed as soon as practicable after the reason alleged in the motion becomes known to the party. If, during the course of the hearing, a party first becomes aware of evidence of bias or other grounds for disqualification, the party may move for disqualification, but must establish the grounds by the introduction of evidence into the record.

If the presiding officer determines that disqualification is appropriate, the presiding officer or other person shall withdraw. If the presiding officer determines that withdrawal is not required, the presiding officer shall enter an order to that effect. A party asserting disqualification may seek an interlocutory appeal and a stay as provided under the rules of this division.

701—2.35(421,17A) Consolidation and severance.

2.35(1) Consolidation. The presiding officer may consolidate any or all matters at issue in two or more contested case proceedings where: (a) the matters at issue involve common parties or common questions of fact or law; (b) consolidation would expedite and simplify consideration of the issues involved; and (c) consolidation would not adversely affect the rights of any of the parties to those proceedings.

2.35(2) Severance. The presiding officer may, for good cause shown, order any contested case proceedings or portions of the proceedings severed.

701—2.36(17A) Service and filing of pleadings and other papers.

2.36(1) When service is required. Except where otherwise provided by law, every pleading, motion, document, or other paper filed in a contested case proceeding and every paper relating to discovery in such a proceeding shall be served upon each of the parties of record to the proceeding simultaneously with their filing. Except for the original notice of hearing and an application for rehearing as provided in Iowa Code section 17A.16(2), the party filing a document is responsible for service on all parties.

2.36(2) Service—how made. Service upon a party represented by an attorney shall be made upon the attorney unless otherwise ordered. Service is made by in-person delivery or by mailing a copy to the person's last-known address. Service by mail is complete upon mailing, except where otherwise specifically provided by statute, rule, or order.

2.36(3) Filing—when required. All pleadings, motions, documents or other papers in a contested case proceeding shall be filed with the Secretary for the State Board of Tax Review, Hoover State Office Building, Fourth Floor, 1305 E. Walnut Street, Des Moines, Iowa 50319. All pleadings, motions, documents or other papers that are required to be served upon a party shall be filed simultaneously with the state board at the address for the secretary for the state board as previously stated. Thereafter, once an administrative law judge becomes a presiding officer, such papers will be filed with that administrative law judge.

2.36(4) Filing—when made. Except where otherwise provided by law, a document is deemed filed with the state board or an administrative law judge if one of the following has occurred:

a. At the time it is delivered to the secretary for the state board at the Hoover State Office Building, Fourth Floor, 1305 E. Walnut Street, Des Moines, Iowa 50319, or to the address for the administrative law judge;

b. When delivered to an established courier service for immediate delivery to the Secretary for the State Board, Hoover State Office Building, Fourth Floor, 1305 E. Walnut Street, Des Moines, Iowa 50319, or to the address of the administrative law judge; or

c. When mailed by first-class mail or state interoffice mail to the secretary for the state board at the address indicated above or to the address of the administrative law judge, so long as there is proof of mailing.

2.36(5) Proof of mailing. Proof of mailing includes either: a legible United States Postal Service postmark on the envelope, a certificate of service, a notarized affidavit, or a certification in substantially the following form:

I certify under penalty of perjury and pursuant to the laws of Iowa that, on (date of mailing), I mailed copies of (describe document) addressed to the (agency office and address) and to the names and addresses of the parties listed below by depositing the same in (a United States post office mailbox with correct postage properly affixed or state interoffice mail).

(Date)

(Signature)

701—2.37(421,17A) Discovery.

2.37(1) Discovery procedure. Discovery procedures applicable in civil actions are applicable in contested cases. Unless lengthened or shortened by these rules or by order of the presiding officer, time periods for compliance with discovery shall be as provided in the Iowa Rules of Civil Procedure.

2.37(2) Discovery motions. Any motion relating to discovery shall allege that the moving party has previously made a good-faith attempt to resolve the discovery issues involved with the opposing party. Motions in regard to discovery shall be ruled upon by the presiding officer. Opposing parties shall be afforded the opportunity to respond within ten days of the filing of the motion unless the time is shortened as provided in subrule 2.37(1). The presiding officer may rule on the basis of the written motion and any response, or may order written or oral arguments on the motion.

2.37(3) Admissibility of evidence. Evidence obtained in discovery may be used in the contested case proceeding if that evidence would otherwise be admissible in that proceeding.

701—2.38(421,17A) Subpoenas.

2.38(1) Issuance.

a. A subpoena shall be issued to a party on request. Such a request must be in writing. In the absence of good cause for permitting later action, a request for a subpoena must be received at least three days before the scheduled hearing. The request shall include the name, address, and telephone number of the requesting party.

b. Except to the extent otherwise provided by law, parties are responsible for service of their own subpoenas and payment of witness fees and mileage expenses.

2.38(2) Motion to quash or modify. The presiding officer may quash or modify a subpoena for any lawful reason upon motion in accordance with the Iowa Rules of Civil Procedure. A motion to quash or modify a subpoena shall be set for argument promptly.

701—2.39(421,17A) Motions.

2.39(1) Form. No technical form for motions is required. However, prehearing motions must be in writing, state the grounds for relief, and state the relief sought.

2.39(2) Response. Any party may file a written response to a motion within ten days after the motion is served, unless the time period is extended or shortened by rules of the agency or the presiding officer. The presiding officer may consider a failure to respond within the required time period in ruling on a motion.

2.39(3) Oral argument. The presiding officer may schedule oral argument on any motion.

2.39(4) *Deadline.* Motions pertaining to the hearing, except motions for summary judgment, must be filed and served at least ten days prior to the date of hearing unless there is good cause for permitting later action or the time for such action is lengthened or shortened by rule of the state board or an order of the presiding officer.

2.39(5) *Motions for summary judgment.* Motions for summary judgment shall comply with requirements of Iowa Rule of Civil Procedure 1.981 and shall be subject to disposition according to the requirements of that rule to the extent such requirements are not inconsistent with the provisions of this rule or any other provision of law governing the procedure in contested cases.

Motions for summary judgment must be filed and served at least 45 days prior to the scheduled hearing date, or other time period determined by the presiding officer. Any party resisting the motion shall file and serve a resistance within 15 days, unless otherwise ordered by the presiding officer, from the date a copy of the motion was served. The time fixed for hearing or written submission shall be not less than 30 days after the filing of the motion, unless a shorter time is ordered by the presiding officer. A summary judgment order rendered on all issues in a contested case is subject to appeal or rehearing pursuant to these rules.

701—2.40(421,17A) Prehearing conference.

2.40(1) *Request.* Any party may request a prehearing conference. A written request for prehearing conference or an order for prehearing conference on the presiding officer's own motion shall be filed not less than seven days prior to the hearing date. A prehearing conference shall not be scheduled less than three business days prior to the hearing date.

Written notice of the prehearing conference shall be given by the state board to all parties. For good cause, the presiding officer may permit variances from this rule.

2.40(2) *Prehearing information.* Each party shall bring to the prehearing conference the following:

- a. A final list of the witnesses who the party anticipates will testify at hearing. Witnesses not listed may be excluded from testifying unless there was good cause for the failure to include their names;
- b. A final list of exhibits which the party anticipates will be introduced at hearing. Exhibits other than rebuttal exhibits that are not listed may be excluded from admission into evidence unless there was good cause for the failure to include them; and
- c. Witness or exhibit lists may be amended subsequent to the prehearing conference within the time limits established by the presiding officer at the prehearing conference. Any such amendments must be served on all parties.

2.40(3) *Permissible prehearing conference actions.* In addition to the requirements of subrule 2.40(2), the parties at a prehearing conference may:

- a. Enter into stipulations of law or fact;
- b. Enter into stipulations on the admissibility of exhibits;
- c. Identify matters which the parties intend to request be officially noticed;
- d. Enter into stipulations for waiver of any provision of law; and
- e. Consider any additional matters which will expedite the hearing.

2.40(4) *Telephone.* Prehearing conferences shall be conducted by telephone unless otherwise ordered. Parties shall exchange and receive witness and exhibit lists in advance of a telephone prehearing conference.

701—2.41(421,17A) Continuances. Unless otherwise provided, applications for continuances shall be made to the presiding officer.

2.41(1) *Application.* A written application for a continuance shall:

- a. Be made at the earliest possible time and no less than seven days before the hearing except in case of unanticipated emergencies;
- b. State the specific reasons for the request; and
- c. Be signed by the requesting party or the party's representative.

An oral application for a continuance may be made if the presiding officer waives the requirement for a written motion. However, a party making such an oral application for a continuance must confirm that

request by written application within five days after the oral request unless that requirement is waived by the presiding officer. No application for continuance shall be made or granted without notice to all parties except in an emergency where notice is not feasible.

2.41(2) *Factors in determining a continuance.* In determining whether to grant a continuance, the presiding officer may consider:

- a. Prior continuances;
- b. The interests of all parties;
- c. The likelihood of informal settlement;
- d. The existence of an emergency;
- e. Any objection;
- f. Any applicable time requirements;
- g. The existence of a conflict in the schedules of counsel, parties, or witnesses;
- h. The timeliness of the request; and
- i. Other relevant factors.

The presiding officer may require documentation of any grounds for continuance.

701—2.42(17A) *Withdrawals.* A party requesting a contested case proceeding may withdraw that request prior to the hearing. Unless otherwise provided, a withdrawal shall be with prejudice.

701—2.43(421,17A) *Intervention.*

2.43(1) *Motion.* A motion for leave to intervene in a contested case proceeding shall state the grounds for the proposed intervention, the position and interest of the proposed intervenor, and the possible impact of intervention on the proceeding. A proposed answer or petition in intervention shall be attached to the motion. Any party may file a response within 14 days of service of the motion to intervene unless the time period is extended or shortened by the presiding officer.

2.43(2) *When filed.* Motion for leave to intervene shall be filed as early in the proceeding as possible to avoid adverse impact on existing parties or the conduct of the proceeding. Unless otherwise ordered, a motion for leave to intervene shall be filed before the prehearing conference, if any, or at least 30 days before the date scheduled for hearing. Any later motion must contain a statement of good cause for the failure to file in a timely manner. Unless inequitable or unjust, an intervenor shall be bound by any agreement, arrangement, or other matter previously raised in the case. Requests by untimely intervenors for continuances which would delay the proceeding will ordinarily be denied.

2.43(3) *Grounds for intervention.* The movant shall demonstrate that: (a) intervention would not unduly prolong the proceedings or otherwise prejudice the rights of existing parties; (b) the movant is likely to be aggrieved or adversely affected by a final order in the proceeding; and (c) the interests of the movant are not adequately represented by existing parties.

2.43(4) *Effect of intervention.* If appropriate, the presiding officer may order consolidation of the petitions and briefs of different parties whose interests are aligned with each other and limit the number of representatives allowed to participate actively in the proceedings. A person granted leave to intervene is a party to the proceeding. The order granting intervention may restrict the issues that may be raised by the intervenor or otherwise condition the intervenor's participation in the proceeding.

701—2.44(421,17A) *Hearing procedures.*

2.44(1) *Authority of presiding officer.* The presiding officer presides at the hearing, and may rule on motions, require briefs, issue a decision, and issue such orders and rulings as will ensure the orderly conduct of the proceedings.

2.44(2) *Objections.* All objections shall be timely made and stated on the record.

2.44(3) *Representation.* Parties have the right to participate or to be represented in all hearings or prehearing conferences related to their case. Partnerships, corporations, or associations may be represented by any member, officer, director, or duly authorized agent. Any party may be represented by an attorney or another person authorized by law.

2.44(4) *Participation in hearing.* Subject to terms and conditions prescribed by the presiding officer, parties have the right to introduce evidence on issues of material fact, cross-examine witnesses present at the hearing as necessary for a full and true disclosure of the facts, present evidence in rebuttal, and submit briefs and engage in oral argument.

2.44(5) *Decorum.* The presiding officer shall maintain the decorum of the hearing and may refuse to admit or may expel anyone whose conduct is disorderly.

2.44(6) *Sequestration.* Witnesses may be sequestered during the hearing.

2.44(7) *Conduct of the hearing.* The presiding officer shall conduct the hearing in the following manner:

a. The presiding officer shall give an opening statement briefly describing the nature of the proceedings;

b. The parties shall be given an opportunity to present opening statements;

c. Parties present their cases in the sequence determined by the presiding officer;

d. Each witness shall be sworn or affirmed by the presiding officer or the court reporter and shall be subject to examination and cross-examination. The presiding officer may limit questioning in a manner consistent with law; and

e. When all parties and witnesses have been heard, parties may be given the opportunity to present final arguments.

701—2.45(421,17A) Evidence.

2.45(1) *Admissibility.* The presiding officer shall rule on admissibility of evidence and may, where appropriate, take official notice of facts in accordance with all applicable requirements of law.

2.45(2) *Stipulations.* Stipulation of facts is encouraged. The presiding officer may make a decision based on stipulated facts.

2.45(3) *Scope of admissible evidence.* Evidence in the proceeding shall be confined to the issues about which the parties received notice prior to the hearing unless the parties waive their right to such notice or the presiding officer determines that good cause justifies expansion of the issues. If the presiding officer decides to admit evidence on issues outside the scope of the notice over the objection of a party who did not have actual notice of those issues, that party, upon timely request, shall receive a continuance sufficient to amend pleadings and to prepare on the additional issue.

2.45(4) *Exhibits.* The party seeking admission of an exhibit must provide opposing parties with an opportunity to examine the exhibit prior to the ruling on its admissibility. Copies of documents should normally be provided to opposing parties.

All exhibits admitted into evidence shall be appropriately marked and be made part of the record.

2.45(5) *Objection.* Any party may object to specific evidence or may request limits on the scope of any examination or cross-examination. Such an objection shall be accompanied by a brief statement of the grounds upon which it is based. The objection, the ruling on the objection, and the reasons for the ruling shall be noted in the record. The presiding officer may rule on the objection at the time it is made or may reserve a ruling until the written decision.

2.45(6) *Offer of proof.* Whenever evidence is ruled inadmissible, the party offering that evidence may submit an offer of proof on the record. The party making the offer of proof for excluded oral testimony shall briefly summarize the testimony or, with permission of the presiding officer, present the testimony. If the excluded evidence consists of a document or exhibit, it shall be marked as part of an offer of proof and inserted in the record.

701—2.46(421,17A) Default or dismissal.

2.46(1) Grounds. If a party fails to appear or participate in a contested case proceeding after proper service of notice, the presiding officer may, if no adjournment is granted, enter a default decision or proceed with the hearing and render a decision in the absence of the party.

2.46(2) Moving for default. Where appropriate and not contrary to law, any party may move for default against a party who has failed to file a required pleading, has failed to pursue, or has failed to appear after proper service.

2.46(3) Default decisions or decisions rendered on the merits after a party has failed to appear or participate in a contested case proceeding become final agency action unless, within 15 days after the date of notification or mailing of the decision, a motion to vacate is filed and served on all parties or an appeal of a decision on the merits is timely initiated. A motion to vacate must state all facts relied upon by the moving party which establish that good cause existed for that party's failure to appear or participate at the contested case proceeding. Each fact so stated must be substantiated by at least one sworn affidavit of a person with personal knowledge of each such fact, which affidavit(s) must be attached to the motion.

2.46(4) The time for further appeal of a decision for which a timely motion to vacate has been filed is stayed pending a decision of the motion to vacate.

2.46(5) Properly substantiated and timely filed motions to vacate shall be granted only for good cause shown. The burden of proof as to good cause is on the moving party. Adverse parties shall have ten days to respond to a motion to vacate. Adverse parties shall be allowed to conduct discovery as to the issue of good cause and to present evidence on the issue prior to a decision on the motion if a request to do so is included in that party's response.

2.46(6) "Good cause" for purposes of this rule shall have the same meaning as "good cause" as interpreted in the case of *Purethane, Inc. v. Iowa State Board of Tax Review*, 498 N.W.2d 706 (Iowa 1993).

2.46(7) A decision denying a motion to vacate is subject to further appeal within the time limit allowed for further appeal of a decision on the merits in the contested case proceeding. A decision granting a motion to vacate is subject to interlocutory appeal by the adverse party.

2.46(8) If a motion to vacate is granted and no timely interlocutory appeal has been taken, the presiding officer shall issue another notice of hearing and the contested case shall proceed accordingly.

2.46(9) A default decision may award any relief consistent with the request for relief made in the pleadings and embraced in the issues.

2.46(10) A default decision may provide either that the default decision is to be stayed pending a timely motion to vacate or that the default decision is to take effect immediately, subject to a request for stay.

701—2.47(421,17A) Ex parte communication.

2.47(1) Prohibited communications. Unless required for the disposition of ex parte matters specifically authorized by statute, following the issuance of the notice of hearing, there shall be no communication, directly or indirectly, between the presiding officer and any party or representative of any party or any other person with a direct or indirect interest in such a case in connection with any issue of fact or law in the case except upon notice and opportunity for all parties to participate. This does not prohibit persons jointly assigned such tasks from communicating with each other. Nothing in this provision is intended to preclude the presiding officer from communicating with members of the state board. Nothing in this provision is intended to preclude the presiding officer from seeking the advice or help of persons other than those with a personal interest in, or those engaged in personally investigating, prosecuting, or advocating in, either the case under consideration or a pending factually related case involving the same parties. Any communication received by the presiding officer from those persons cannot directly or indirectly communicate any ex parte communications the receipt of which is prohibited under the Iowa Rules of Civil Procedure and the Code of Ethics. In addition, any communication received by the presiding officer cannot furnish, augment, diminish, or modify the evidence in the record.

2.47(2) Prohibitions on ex parte communications commence with the issuance of the notice of hearing in a contested case and continue for as long as the case is pending.

2.47(3) Written, oral, or other forms of communication are "ex parte" if made without notice and opportunity for all parties to participate.

2.47(4) To avoid prohibited ex parte communications, notice must be given in a manner reasonably calculated to give all parties a fair opportunity to participate. Notice of written communications shall be provided to all parties or their representatives and may be supplemented by telephone, facsimile,

electronic mail or other means of notification. Where permitted, oral communications may be initiated through a telephone conference call including all parties or their representatives.

2.47(5) Persons who jointly act as presiding officer in a pending contested case may communicate with each other without notice or opportunity for parties to participate.

2.47(6) Other persons may be present in deliberations or otherwise advise the presiding officer without notice or opportunity for parties to participate as long as they are not disqualified from participating in the making of a proposed or final decision under any provision of law and they comply with subrule 2.47(2).

2.47(7) Communications with the presiding officer involving uncontested scheduling or procedural matters do not require notice or opportunity for parties to participate. Parties should notify other parties prior to initiating such contact with the presiding officer when feasible, and shall notify other parties when seeking to continue hearings or other deadlines.

2.47(8) Disclosure of prohibited communications. A presiding officer who receives a prohibited ex parte communication during the period in which a contested case is pending must initially determine if the effect of the communication is so prejudicial that the presiding officer should be disqualified. If the presiding officer determines that disqualification is warranted, a copy of any prohibited written communication, all written responses to the communication, a written summary stating the substance of any prohibited oral or other communication not available in written form for disclosure, all responses made, and the identity of each person from whom the presiding officer received a prohibited ex parte communication shall be submitted for inclusion in the record under seal by protective order, or disclosed if an appropriate order is made. If the presiding officer determines that disqualification is not warranted, such documents shall be submitted for inclusion in the record and served on all parties. Any party desiring to rebut the prohibited communication must be allowed the opportunity to do so upon written request filed within ten days after notice of the communication.

2.47(9) Promptly after being assigned to serve as presiding officer at any stage in a contested case proceeding, a presiding officer shall disclose to all parties material factual information received through ex parte communication prior to such assignment unless the factual information has already been or shortly will be disclosed pursuant to Iowa Code section 17A.13 or through discovery. Factual information contained in an investigative report or similar document need not be separately disclosed by the presiding officer as long as such documents have been or will shortly be provided to the parties.

2.47(10) The presiding officer may render a proposed or final decision imposing appropriate sanctions for violations of this rule including default, a decision against the offending party, censure, or suspension or revocation of the privilege to practice before the state board. Violation of ex parte communication prohibitions by state board personnel shall be reported to the secretary for the State Board of Tax Review, Hoover State Office Building, Fourth Floor, 1305 E. Walnut Street, Des Moines, Iowa 50319, for possible sanctions, including censure, suspension, dismissal, or other disciplinary action.

701—2.48(421,17A) Recording costs. Upon request, the state board shall provide a copy of the whole or any portion of the record at cost. The cost of preparing a copy of the record or of transcribing the hearing record shall be paid by the requesting party.

Parties who request that a hearing be recorded by certified shorthand reporters rather than by electronic means shall bear the cost of that recordation, unless otherwise provided by law.

701—2.49(421,17A) Interlocutory appeals. Upon written request of a party or on its own motion, the state board may review an interlocutory order of a presiding officer. In determining whether to do so, the state board shall weigh the extent to which its granting the interlocutory appeal would expedite final resolution of the case and the extent to which review of that interlocutory order by the state board at the time it reviews the proposed decision of the presiding officer would provide an adequate remedy. Any request for interlocutory review must be filed within 14 days of issuance of the challenged order, but no later than the time for compliance with the order or the date of hearing, whichever is first.

701—2.50(421,17A) Final decision.

2.50(1) When the state board presides over the reception of evidence at the hearing, its decision is a final decision.

2.50(2) When the state board does not preside at the reception of evidence, the presiding officer shall make a proposed decision. The proposed decision becomes the final decision of the state board without further proceedings unless there is a timely motion to vacate under rule 701—2.46(421,17A), or an appeal to, or review on motion of, the state board within the time provided in rule 701—2.51(421,17A).

701—2.51(421,17A) Applications for rehearing.

2.51(1) *Who may file.* Any party to a contested case proceeding may file an application for rehearing from a final order.

2.51(2) *Content of application.* The application for rehearing shall state on whose behalf it is filed, the specific grounds for rehearing, and the relief sought. In addition, the application shall state whether the applicant desires reconsideration of all or part of the decision on the existing record and whether, on the basis of the grounds enumerated in subrule 2.51(3), the applicant requests an opportunity to submit additional evidence.

2.51(3) *Time of filing.* The application for rehearing shall be filed with the state board within 30 days after issuance of the final decision.

2.51(4) *Notice to other parties.* A copy of the application shall be timely mailed by the applicant to all parties of record that are joining in the application for rehearing. If the application does not contain a certificate of service, the state board shall serve copies on all parties.

2.51(5) *Disposition.* Any application for a rehearing shall be deemed denied unless the agency grants the application within 30 days after its filing.

701—2.52(421,17A) Stays of agency and board actions.

2.52(1) *When available.* Any party to a contested case proceeding may petition the state board for a stay or other temporary remedies pending judicial review of all or part of that proceeding. The petition for a stay shall state the reasons justifying a stay or other temporary remedy.

2.52(2) *When granted.* In determining whether to grant a stay, the state board shall consider the factors listed in Iowa Code section 17A.19(5).

2.52(3) *Vacation.* A stay may be vacated by the state board upon application of the department or any other party.

701—2.53(421,17A) No factual dispute contested case. If the parties agree that no dispute of material fact exists as to a matter that would be a contested case if such a dispute of fact existed, the parties may present all relevant admissible evidence either by stipulation or otherwise as agreed by the parties, without necessity for the production of evidence at an evidentiary hearing. If such agreement is reached, a jointly submitted schedule detailing the method and timetable for submission of the record, briefs, and oral argument should be submitted to the state board for approval as soon as practicable. If the parties cannot agree, any party may file and serve a motion for summary judgment pursuant to the rules governing such motions.

701—2.54(421,17A) Appeal and review of a state board decision. Either party may appeal a final decision issued by the state board. An appeal from a final state board decision is termed “judicial review of an agency decision,” which is governed by Iowa Code section 17A.19.

These rules are intended to implement Iowa Code chapter 17A and Iowa Code sections 421.1, 421.2 and 441.49.

CHAPTER 3
VOLUNTARY DISCLOSURE PROGRAM

701—3.1(421,422,423) Voluntary disclosure program.

3.1(1) *Scope of the voluntary disclosure program.* Any person who is subject to Iowa tax or tax collection responsibilities may be eligible for the voluntary disclosure program. Being subject to Iowa tax may occur when a person has Iowa source income or has representatives or other presence in Iowa. Certain activities by such persons may create Iowa tax return filing requirements for Iowa source income, as defined in subrule 3.1(3), not previously reported. In addition, activities may also result in tax liabilities that are past due and owing.

3.1(2) *Purpose of the voluntary disclosure program.* The purpose of the voluntary disclosure program is to encourage unregistered business entities and persons to voluntarily contact the department regarding unreported Iowa source income. The person or the person's representative may initially contact the department on an anonymous basis. Anonymity of the taxpayer can be maintained until the voluntary disclosure agreement is executed by the taxpayer and the department. The voluntary disclosure program may be used by the department and the taxpayer to report previous periods of Iowa source income and to settle outstanding tax, penalty and interest liabilities, but it must also ensure future tax compliance by the taxpayer.

3.1(3) *Type of taxes eligible.* Only taxes, penalties and interest related to Iowa source income are eligible for settlement under the voluntary disclosure program. For purposes of this rule, "Iowa source income" means the tax base and the tax collection responsibility for the following enumerated taxes: corporate income tax, franchise tax, fiduciary income tax, withholding income tax, individual income tax, local option school district income surtax, state sales tax, state use tax, motor fuel taxes, cigarette and tobacco taxes, and local option taxes.

3.1(4) *Eligibility of the taxpayer.* The department has discretion to determine who is eligible for participation in the voluntary disclosure program. In making the determination, the department may consider the following factors:

- a. The person must be subject to Iowa tax on Iowa source income or have Iowa tax collection responsibilities and must have tax due;
- b. The person must not currently be under audit or examination by the department or under criminal investigation by the department;
- c. The person must not have had any prior contact with the department or a representative of the department which could lead to audit or assessment associated with the tax types or tax periods sought to be addressed under the program;
- d. The type and extent of activities resulting in Iowa source income;
- e. Failure to report the Iowa source income or pay any liability was not due to fraud, intentional misrepresentation, an intent to evade tax, or willful disregard of Iowa tax laws; and
- f. Any other factors which are relevant to the particular situation.

3.1(5) *Application to participate in the voluntary disclosure program.*

a. To apply for the voluntary disclosure program, the person or the person's representative must submit a written application to the Nonfiler Unit, Compliance Division, Iowa Department of Revenue, P.O. Box 10456, Des Moines, Iowa 50306-0456. To be valid, an application must include the following:

- (1) The types of taxes involved;
 - (2) Separate statements evidencing compliance with each of the eligibility requirements set forth in subrule 3.1(4);
 - (3) A complete and accurate description of the person's activities resulting in Iowa source income, the source of the Iowa source income or Iowa tax collection responsibilities, the type and dates, if available, of the activities in Iowa, a description of the product or service sold in Iowa, and the number of activity occurrences in Iowa per year or whether the activities in Iowa per year were continuous;
 - (4) The reason for noncompliance with Iowa tax law;
 - (5) An estimation of the amount of unpaid Iowa tax by the tax type and applicable tax period(s);
- and

(6) Any other matters which are relevant to the particular situation.

b. The department reserves the right to request additional information that the department determines is necessary to determine or approximate the liability due, and to determine the applicant's eligibility, the accuracy of information presented and statements asserted by the applicant, and the terms of the voluntary disclosure agreement.

3.1(6) *Acceptance or rejection of an application for the voluntary disclosure program.* The department has the discretion to determine if an applicant meets all of the requirements for the voluntary disclosure program. The department will notify an applicant in writing regarding whether the applicant's application for participation in the program is accepted or rejected. Rejection of an application prior to the execution of an agreement may be based on the applicant's ineligibility; the applicant's noncompliance in submitting information, documents, evidence, or returns within the time period as requested by the department; misrepresentation of a material fact by the applicant or the applicant's representative; or the department's determination that the matter may be best handled by using other means of administration.

3.1(7) *Terms of the voluntary disclosure agreement.*

a. *Discretion.* The department has the discretion to settle all outstanding Iowa source income tax, penalty and interest liabilities of the eligible applicant. Settlement terms are on a case-by-case basis. The existence of the voluntary disclosure agreement and the terms of the agreement are to be held confidential by all parties to the agreement. Items considered by the department in determining the settlement terms include: the type of tax; the tax periods at issue; the reason for noncompliance; whether the tax is a trust fund tax; the types of activities resulting in the Iowa source income; the frequency of the activities that resulted in the Iowa source income; and any other matters which are relevant to the particular situation.

b. *Maximum scope of audit.* If a taxpayer initiates the contact with the department and is eligible for the voluntary disclosure program and complies with the agreement terms, the maximum prior years for which the department will generally audit and pursue settlement and collection will be five years, absent an intent to defraud, the making of material misrepresentations of fact, or an intent to evade tax.

c. *Future filing requirements.* All voluntary disclosure agreements must require that the applicant file future Iowa tax returns, unless the activity by the applicant resulting in the Iowa source income has changed or there has been a change in the law, rules, or court cases which dictate a different result.

d. *Audit and assessment rights.* The department reserves the right to audit all returns, spreadsheets or other documents submitted by the applicant or a third party to verify the facts and whether the terms of the voluntary disclosure agreement have been met. The department may audit information submitted by the applicant at any time within the allowed statutory limitation period. The department may also assess any tax, penalty, and interest found to be due in addition to the amount of original tax reported. The statute of limitations for assessment and statute of limitations for refunds begin to run as provided by law.

3.1(8) *Commencement of the voluntary disclosure agreement.* The voluntary agreement commences on the date of the execution of the voluntary disclosure agreement. Execution of the agreement is complete when the agreement is executed by the taxpayer and the department's authorized personnel. Prior to the execution of the voluntary disclosure agreement by the taxpayer and the department, the taxpayer is not protected from the department's regular audit process if the identity of the taxpayer, as an applicant, is unknown to the department. However, if the department has knowledge of the taxpayer's identity, as an applicant, the department will not take audit action against the taxpayer during the voluntary disclosure process. However, if a voluntary disclosure agreement is not reached, the department may assess tax, penalty and interest as provided by law at the time the identity of the applicant becomes known to the department.

3.1(9) *Voiding a voluntary disclosure agreement.*

a. *Authority.* The department also has the authority to declare a voluntary disclosure agreement null and void subsequent to the execution of the agreement. The department may void the contractual agreement if the department determines that a misrepresentation of a material fact was made by the person or a third party representing the person to the department. The department may also void a voluntary disclosure agreement if the department determines any of the following has occurred:

- (1) The person does not submit information requested by the department within the time period specified by the department, including any extensions granted by the department;
- (2) The person fails to file future Iowa returns as agreed to in the voluntary disclosure agreement;
- (3) The person does not pay the agreed settlement liability within the time period designated by the department, including any extensions of time that may be granted by the department;
- (4) The person does not remit all taxes imposed upon or collected by the person for all subsequent tax periods and all tax types that are subject to the voluntary disclosure agreement;
- (5) The person fails to prospectively comply with Iowa tax law. Whether the person has failed to prospectively comply with Iowa tax law is determined by the department on a case-by-case basis;
- (6) The person, based on a determination by the department, materially understates the person's tax liability; or
- (7) The person has made a material breach of the terms of the voluntary disclosure agreement.

b. Audit rights. Voiding of the agreement results in nonenforceability of the agreement by the applicant and allows the department to proceed to assess tax, penalty and interest for that person's Iowa source income or tax collection responsibilities for all periods within the statute of limitations. The department reserves the right to audit all returns, spreadsheets or other documents submitted by the applicant or a third party and to make an assessment for all tax, penalty and interest owed, if the applicant is justifiably rejected for the voluntary disclosure program or the agreement between the person and the department is declared by the department to be null and void. If the voluntary disclosure agreement is voided or the application for the program is rejected and the department issues an assessment, the taxpayer may protest the assessment pursuant to 701—Chapter 7 and raise the issue of the propriety of voiding the voluntary disclosure agreement or rejecting the application. If the department does not issue an assessment, but does reject the application or voids the agreement, such action is not subject to appeal under 701—Chapter 7, but is considered to be “other agency action” as set forth in Iowa Code section 17A.19(3). See *Purethane Inc. v. Iowa State Board of Tax Review*, 498 N.W.2d 706 (Iowa 1993).

3.1(10) Partnerships, partners, “S” corporations, shareholders in “S” corporations, trusts, and trust beneficiaries. Once the department has initiated an audit or investigation of any type of partnership, partners of the partnership, “S” corporations, a shareholder in an “S” corporation, a trust, or trust beneficiaries, the department is deemed to have initiated an audit or investigation of the entity and of all those who receive Iowa source income from or have an interest in such an entity for purposes of eligibility under subrule 3.1(4) for participation in the voluntary disclosure program.

3.1(11) Transfer or assignment. The terms of the voluntary disclosure agreement are valid and enforceable by and against all parties, including their transferees and assignees.

3.1(12) Confidentiality. The terms of each voluntary disclosure contract are determined on a case-by-case basis. Except as may be specifically required by law or preexisting written agreement, the existence of a voluntary disclosure agreement and the terms of the voluntary disclosure agreement are to be held confidential by the parties to the voluntary disclosure agreement, their representatives, transferees, and assignees. Disclosure of the existence of a voluntary disclosure agreement or the terms of such an agreement in a manner contrary to this rule may result in the agreement being declared null and void at the discretion of the nondisclosing party.

This rule is intended to implement Iowa Code section 421.17.

CHAPTER 4
MULTILEVEL MARKETER AGREEMENTS

701—4.1(421) Multilevel marketers—in general. Multilevel marketer companies may enter into a written contract with the department to collect and remit state and local option sales taxes on sales of tangible personal property to independent distributors for resale and remit the taxes directly to the department. To be eligible for the multilevel marketer’s program, the company must meet certain eligibility requirements and agree to certain terms in the multilevel marketer agreement as set forth in 701—subrules 4.1(3) and 4.1(4). All written contacts with the department should be sent to Nonfiler Unit, Compliance Division, Iowa Department of Revenue, P.O. Box 10456, Des Moines, Iowa 50306-0456.

4.1(1) Definitions. The following definitions of terms are applicable to this chapter:

“*Independent distributor*” means a seller who purchases products for resale to an Iowa consumer based on a price suggested by a multilevel marketer.

“*Multilevel marketer*” means a wholesaler that sells tangible personal property for resale via a network of independent distributors who then sell the property to the ultimate consumers located in Iowa at a retail price suggested by the multilevel marketer.

“*Sales tax*” or “*sales taxes*” for the purpose of this rule means Iowa state sales tax, including local option sales and service taxes, and state use tax. To determine if local option sales and service taxes are due, see 701—107.2(422B), 701—107.3(422B), and 701—108.3(422E).

4.1(2) Collection of tax. Iowa state sales tax is to be collected on the wholesale or retail selling price if delivery of the multilevel marketer’s tangible personal property occurs in Iowa or the property is used in Iowa (see subparagraph 4.1(4)“a”(1) for further details). In addition, local option sales tax is due on the sale if delivery of the tangible personal property to the consumer occurs within a local option tax jurisdiction. See information and examples illustrating delivery and taxation in 701—107.2(422B), 701—107.3(422B), and 701—108.3(422E).

4.1(3) Eligibility requirements. To be eligible for a multilevel marketer agreement as a multilevel marketer, the following criteria must be met:

- a. Tangible personal property is sold by the multilevel marketer to an independent distributor for resale to an Iowa end user or for a distributor’s personal use.
- b. Unless authorized by the department, the multilevel marketer must not have been previously required to be registered to remit sales tax.
- c. The multilevel marketer must have contacted the department with a request to collect and remit sales taxes directly to the department on sales made by an independent distributor.
- d. The multilevel marketer must not be under audit or examination by the department on the effective date of the agreement.

The department has full discretion to determine if a multilevel marketer meets the eligibility requirements for a multilevel marketer agreement. The department can request any and all information and documentation necessary to determine whether eligibility requirements are met. Failure to timely submit information and documents requested by the department will result in the department’s refusal to enter into an agreement with the multilevel marketer.

4.1(4) Terms of the multilevel marketer agreement. The multilevel marketer agreement will become effective on the date an authorized representative of the multilevel marketer executes the agreement. Unless terminated in accordance with subrule 4.1(5), the multilevel marketer agreement remains in effect as long as the multilevel marketer has an independent distributor making sales in Iowa. Terms of agreements are based on results of negotiations between the multilevel marketer and the department. However, the following general terms must be in each multilevel marketer agreement:

- a. The multilevel marketer agrees to the following terms:
 - (1) The multilevel marketer agrees to collect tax on the following three types of sales, excluding sales properly exempt from tax and evidenced by a valid exemption certificate:
 1. The multilevel marketer agrees to collect sales tax from the independent distributors based on the suggested retail price of its product;

2. If the multilevel marketer allows independent distributors to purchase its product at a wholesale price for the distributor's personal use, then the multilevel marketer agrees to collect sales tax on sales which are based on the wholesale price to the independent Iowa distributor, unless the department waives this requirement; and

3. The multilevel marketer agrees to collect sales tax on all retail sales by the multilevel marketer to consumers that are subject to sales tax;

(2) The multilevel marketer will timely remit sales tax on transactions described in subparagraph 4.1(4)“a”(1);

(3) The multilevel marketer will maintain records to establish the accuracy of the sales tax returns within the applicable statutes of limitation;

(4) The multilevel marketer agrees that the sales tax shall be added to the retail price charged to the consumer, as required by Iowa Code section 422.48;

(5) The multilevel marketer agrees to be subject to audit and to pay any tax, penalty, and interest that are ultimately found to be legally due and that were required to be collected by the multilevel marketer under Iowa law, these rules and the multilevel marketer agreement;

(6) The multilevel marketer agrees to abide by the rules in 701—Chapter 4; and

(7) The multilevel marketer agrees to register for an Iowa retailer's use tax permit.

b. The department agrees to the following terms:

(1) The department will not audit, assess or demand payment of sales tax, penalty or interest from the multilevel marketer for any tax periods ending before the effective date of the multilevel marketer agreement, unless the multilevel marketer had a permit registration with the department prior to the effective date of this multilevel marketing agreement. If a multilevel marketer had a permit registration with the department prior to the effective date of this multilevel marketing agreement, the department may audit, assess, refund, or demand payment of tax, penalty, and interest from the multilevel marketer for any of those previous tax periods within the applicable statute of limitation.

(2) Unless required for transactions outside the multilevel marketer agreement, the department will not require the multilevel marketer to retroactively register for an Iowa sales tax permit or file Iowa sales tax returns for periods ending on or before the effective date of this agreement.

(3) The department agrees to allow a deduction from taxable sales reported by the multilevel marketer for merchandise returned by an independent distributor for which tax has already been paid to the department and for which the multilevel marketer, via the distributor, has allowed a credit or refund of the tax to the consumer.

c. Other general agreement terms:

(1) The multilevel marketer agreement is binding upon all parties, including their successors and assignees; and

(2) The terms, provisions, interpretations and enforcement of the multilevel marketer agreement are to be governed by the laws of the state of Iowa.

d. Refunds. Refunds for any overpayment of taxes paid by a consumer as a result of a multilevel marketer agreement should be claimed on the proper Iowa refund claim form as designated by the director.

Under this agreement, if the retail sale is made by an Iowa retailer to an out-of-state consumer, the multilevel marketer agrees to forego any claim for refund of tax which was paid on such sale.

4.1(5) Termination of a multilevel marketer agreement. If any of the following events occur, an executed multilevel marketer agreement may be declared null and void:

a. Termination of a multilevel marketer agreement at the department's discretion.

(1) The multilevel marketer has misrepresented any material fact regarding its activities, operations, tax liabilities, or eligibility under the agreement.

(2) It is determined by the department that the multilevel marketer had been notified that it was to be or was under audit by the department prior to the time the multilevel marketer executed the multilevel marketer agreement.

b. Termination of a multilevel marketer agreement by mutual agreement of the parties.

(1) Change occurs in law that impacts the tax liability subject to the multilevel marketer agreement.

(2) Collection and remittance of sales tax as required under the agreement are more feasible by other means.

Written notice of termination will be promptly given by the department in the event of termination under paragraph 4.1(5) “a.” To accommodate the time necessary to effectuate changes by the multilevel marketer and the department, the effective date of the termination of the multilevel marketer agreement shall be 60 days from the date of the notice of the written termination, unless a request for additional time is made by the multilevel marketer and the request is granted by the department.

4.1(6) *Liability of independent distributors.* After execution of a multilevel marketer agreement, an independent distributor must collect, report, and remit to the department, unless remitted to the multilevel marketer, any and all sales taxes that the independent distributor is required to collect, report, and remit that exceed the amount of tax that the independent distributor has previously remitted to the multilevel marketer company. If such excess tax is remitted to the multilevel marketer, the multilevel marketer shall report and remit the tax to the department.

EXAMPLE 1. An independent distributor purchased products from the multilevel marketer at the wholesale price because the distributor thought that the product would be for the personal use of the distributor. The distributor paid Iowa tax based on the wholesale price to the multilevel marketer and the multilevel marketer remitted the tax to the state of Iowa. Subsequently, the distributor resold the product to an Iowa customer at a retail price, which is greater than the wholesale price. The distributor is required to charge Iowa tax on the retail price. The distributor is also required to report and remit directly to the department or the multilevel marketer the difference between the tax previously paid on the wholesale price and the tax collected on the retail price from the Iowa customer.

EXAMPLE 2. An independent distributor purchased products from a multilevel marketer for resale at the retail price suggested by the multilevel marketer. Tax was collected by the multilevel marketer from the independent distributor on the suggested retail price of the products and remitted to the department by the multilevel marketer. The independent distributor subsequently sold the product to an Iowa customer for a price greater than the suggested retail price. The independent distributor is required to charge Iowa tax on the full sale price. The independent distributor is also required to report and remit directly to the department or to the multilevel marketer the difference between the tax previously paid on the suggested retail price and the tax collected on the price charged the Iowa customer.

If an independent distributor makes sales that are exempt from sales taxes, then the independent distributor must obtain a valid exemption certificate from the purchaser to evidence the transaction and provide a copy of the completed exemption certificate to the multilevel marketer who has the multilevel marketer agreement with the department.

4.1(7) *Legislative changes.* All multilevel marketer agreements are subject to all applicable legislative enactments which are made subsequent to the agreement and which impact the agreement.

These rules are intended to implement Iowa Code sections 421.5 and 421.17.

CHAPTER 5
PUBLIC RECORDS AND FAIR INFORMATION PRACTICES

The Iowa department of revenue adopts, with the following exceptions and amendments, rules of the Governor's Task Force on Uniform Rules of Agency Procedure relating to public records and fair information practices which are printed in the first volume of the Iowa Administrative Code. Uniform Rules X.1(17A,22) to X.8(17A,22) appear as rules 701—5.1(17A,22) to 701—5.8(17A,22). The following rules in this chapter may reference rules that have not been adopted and, therefore, the text of such rules is not set forth in this chapter. Reference to these types of rules is only for the purpose of reference and is not intended for the purpose of adopting the referenced rules in their entirety.

701—5.1(17A,22) Definitions. As used in this chapter:

“Agency.” In lieu of “(official or body issuing these rules)” insert “department of revenue.”

701—5.3(17A,22) Requests for access to records.

5.3(1) Location of record. In lieu of “(insert agency head)” insert “director”. In lieu of “(insert agency name and address)” insert “Iowa Department of Revenue, Taxpayer Services, Box 10457, Des Moines, Iowa 50306”.

5.3(2) Office hours. In lieu of “(insert customary office hours and, if agency does not have customary office hours of at least thirty hours per week, insert hours specified in Iowa Code section 22.4)” insert “8 a.m. to 4:30 p.m. daily excluding Saturdays, Sundays, and legal holidays”.

5.3(7) Fees.

c. Supervisory fee. In lieu of “(specify time period)” insert “one-half hour”. In lieu of “(An agency wishing to deal with search fees authorized by law should do so here.)” insert “An hourly fee may be charged for actual agency expenses in searching for requested records when the time required for searching for a combination of searching, supervision and copying is in excess of one-half hour.”

701—5.6(17A,22) Procedure by which additions, dissents, or objections may be entered into certain records. Strike the words “or to (designate office)”.

701—5.9(17A,22) Disclosures without the consent of the subject.

5.9(1) Open records are routinely disclosed without the consent of the subject.

5.9(2) To the extent allowed by law, disclosure of confidential records may occur without the consent of the subject. Following are instances where disclosure, if lawful, will generally occur without notice to the subject:

- a.* For a routine use as defined in subrule 5.10(1) or in any notice for a particular record system.
- b.* To a recipient who has provided the agency with advance written assurance that the record will be used solely as a statistical research or reporting record, provided that the record is transferred in a form that does not identify the subject.
- c.* To another government agency or to an instrumentality of any governmental jurisdiction within or under the control of the United States for a civil or criminal law enforcement activity if the activity is authorized by law, and if an authorized representative of such government agency or instrumentality has submitted a written request to the agency specifying the record desired and the law enforcement activity for which the record is sought.
- d.* To an individual pursuant to a showing of compelling circumstances affecting the health or safety of any individual if a notice of the disclosure is transmitted to the last-known address of the subject.
- e.* To the legislative services agency.
- f.* Disclosures in the course of employee disciplinary proceedings.
- g.* In response to a court order or subpoena.

701—5.10(17A,22) Routine use.

5.10(1) Defined. “Routine use” means the disclosure of a record without the consent of the subject or subjects, for a purpose which is compatible with the purpose for which the record was collected. It includes disclosures required to be made by statute other than the public records laws, Iowa Code chapter 22.

5.10(2) To the extent allowed by law, the following uses are considered routine uses of all agency records:

a. Disclosure to those officers, employees, and agents of the agency who have a need for the record in the performance of their duties. The custodian of the record may upon request of any officer or employee, or on the custodian’s own initiative, determine what constitutes legitimate need to use confidential records.

b. Disclosure of information indicating an apparent violation of the law to appropriate law enforcement authorities for investigation and possible criminal prosecution, civil court action, or regulatory order.

c. Disclosure to the department of inspections and appeals for matters in which it is performing services or functions on behalf of the agency.

d. Transfers of information within the agency, to other state agencies, or to local units of government as appropriate to administer the program for which the information is collected.

e. Information released to staff of federal and state entities for audit purposes for purposes of determining whether the agency is operating a program lawfully.

f. Any disclosure specifically authorized by the statute under which the record was collected or maintained.

701—5.11(17A,22) Consensual disclosure of confidential records.

5.11(1) *Consent to disclosure by a subject individual.* To the extent permitted by law, the subject may consent in writing to agency disclosure of confidential records as provided in rule 701—5.7(17A,22).

5.11(2) *Complaints to public officials.* A letter from the subject of a confidential record to a public official which seeks the official’s intervention on behalf of the subject in a matter that involves the agency may to the extent permitted by law be treated as an authorization to release sufficient information about the subject to the official to resolve the matter.

701—5.12(17A,22) Release to subject.

5.12(1) The subject of a confidential record may file a written request to review confidential records about that person as provided in rule 701—5.6(17A,22). However, the agency need not release the following records to the subject:

a. The identity of a person providing information to the agency need not be disclosed directly or indirectly to the subject of the information when the information is authorized to be held confidential pursuant to Iowa Code section 22.7(18) or other provision of law.

b. Records need not be disclosed to the subject when they are the work product of an attorney or are otherwise privileged.

c. Peace officer’s investigative reports may be withheld from the subject, except as required by Iowa Code. (See Iowa Code section 22.7(5).)

d. As otherwise authorized by law.

5.12(2) Where a record has multiple subjects with interest in the confidentiality of the record, the agency may take reasonable steps to protect confidential information relating to another subject.

701—5.13(17A,22) Availability of records.

5.13(1) *General.* Agency records are open for public inspection and copying unless otherwise provided by rule or law.

5.13(2) *Confidential records.* The following records may be withheld from public inspection. Records are listed by category, according to the legal basis for withholding them from public inspection.

a. Sealed bids received prior to the time set for public opening of bids. (Iowa Code section 72.3.)

- b.* Records which are exempt from disclosure under Iowa Code section 22.7.
- c.* Minutes of closed meetings of a government body (Iowa Code section 21.5(4)).
- d.* Identifying details in final orders, decisions and opinions to the extent required to prevent a clearly unwarranted invasion of personal privacy or trade secrets under Iowa Code section 17A.3(1)“*d.*”
- e.* Those portions of agency staff manuals, instructions or other statements issued which set forth criteria or guidelines to be used by agency staff in auditing, in making inspections, in settling commercial disputes or negotiating commercial arrangements, or in the selection or handling of cases, such as operational tactics or allowable tolerances or criteria for the defense, prosecution or settlement of cases, when disclosure of these statements would:
 - (1) Enable law violators to avoid detection;
 - (2) Facilitate disregard of requirements imposed by law; or
 - (3) Give a clearly improper advantage to persons who are in an adverse position to the agency. (See Iowa Code sections 17A.2 and 17A.3.)
- f.* Records which constitute attorney work product, attorney-client communications, or which are otherwise privileged. Attorney work product is confidential under Iowa Code sections 22.7(4), 622.10 and 622.11, Iowa R.C.P. 122(c), Fed. R. Civ. P. 26(b)(3), and case law. Attorney-client communications are confidential under Iowa Code sections 622.10 and 622.11, the rules of evidence, the Code of Professional Responsibility, and case law.
- g.* Corporate income return systems, corporate income tax field and office audit systems, related field collections system, and corporate tax error resolution system (Iowa Code section 422.20).
- h.* Individual and fiduciary income returns, individual and fiduciary income tax field and office audit systems, and related field collections system (Iowa Code section 422.20, 422.72, and 450.68).
- i.* Individual income tax withholding system, IA-W4 system, declaration of estimated tax, and withholding penalty waiver systems (Iowa Code sections 422.20 and 422.72).
- j.* Penalty waiver, abatement, and settlement systems (Iowa Code sections 421.5, 422.20, and 422.72).
- k.* Franchise tax returns, audit and collection systems (Iowa Code section 422.72).
- l.* Sales and use tax returns, field and office audit and collections systems, sales tax refund examination system, industrial machinery, equipment, and computer refund systems, and sales and use tax penalty waiver systems (Iowa Code section 422.72).
- m.* Motor vehicle fuel, railway fuel tax, and special fuel tax return and error resolution systems, and related field and office audit and collection systems (Iowa Code section 452A.63).
- n.* Inheritance tax and qualified use inheritance tax returns, related field and office audit systems, and related field collections system (Iowa Code sections 450.68 and 450B.7).
- o.* Federal and state exchange of information systems (Iowa Code sections 422.20(2) and 422.72).
- p.* Cigarette and tobacco tax systems with related office and field audit and field collections systems (Iowa Code section 22.7(6)).
- q.* Property assessor and deputy assessor examination records systems (Iowa Code section 441.5).
- r.* Central property tax assessments systems (Iowa Code sections 422.20 and 22.7(6)).
- s.* Elderly credit mobile home system (Iowa Code section 425.28).
- t.* Iowa disabled and senior citizen property tax and special assessment credit systems (Iowa Code section 425.28).
- u.* Local option sales and services tax system (Iowa Code section 422.72).
- v.* New job tax credit system (Iowa Code section 422.20).
- w.* Corporate and franchise estimated tax systems (Iowa Code section 422.20).
- x.* Hotel and motel tax system (Iowa Code section 422.72).
- y.* The work product portion of the hearing officer case files (Iowa Code subsection 22.7(4)).
- z.* Permit application and maintenance systems (Iowa Code sections 22.7(6), 452A.63, 422.20, and 422.72).
- aa.* Taxpayer contact systems (Iowa Code subsection 22.7(18) and any relevant tax confidentiality sections).

bb. Centralized payroll and department personnel and payroll systems to the extent covered (Iowa Code subsection 22.7(11)).

cc. Rescinded **ARC 1545C**, IAB 7/23/14, effective 8/27/14.

dd. Any other records made confidential by law.

5.13(3) Authority to release confidential records. The agency may have discretion to disclose some confidential records which are exempt from disclosure under Iowa Code section 22.7 or other law. Any person may request permission to inspect records withheld from inspection under a statute which authorizes limited or discretionary disclosure as provided in rule 5.4(17A,22). If the agency initially determines that it will release such records, the agency may where appropriate notify interested parties and withhold the records from inspection as provided in subrule 5.4(3).

This rule is intended to implement Iowa Code sections 421.17 and 422.72 and chapters 450, 450A, 450B, and 451 and 2003 Iowa Acts, chapter 178, sections 66through 121.
[ARC 1545C, IAB 7/23/14, effective 8/27/14]

701—5.14(17A,22) Personally identifiable information. This rule describes the nature and extent of personally identifiable information which is collected, maintained, and retrieved by the agency by personal identifier in record systems as defined in rule 701—5.1(17A,22).

5.14(1) Retrieval. Personal identifiers may be used to retrieve information from any of the systems of records that the agency maintains that contain personally identifiable information.

5.14(2) Means of storage. Paper, microfilm, microfiche, and various electronic means of storage are used to store records containing personally identifiable information.

5.14(3) Comparison. Electronic or manual data processing may be used to match, to collate, or to compare personally identifiable information in one system with personally identifiable information in another system of records or with personally identifiable information within the same system.

5.14(4) Comparison with data from outside the agency. Personally identifiable information in systems of records maintained by the agency may be compared with information from outside the agency when specified by law. This comparison is allowed in situations including:

- a.* Determination of any offset of a debtor's income tax refund or rebate for child support recovery or foster care recovery (2003 Iowa Acts, House File 534, section 86);
- b.* Collection of taxes by collection agencies (Iowa Code subsection 421.17(22));
- c.* Calculation of any offset against an income tax refund or rebate for default on a guaranteed student loan (2003 Iowa Acts, House File 534, section 86);
- d.* Offset from any tax refund or rebate for any liability owed a state agency (2003 Iowa Acts, House File 534, section 86);
- e.* Offset for any debt which is in the form of a liquidated sum due, owing, and payable to the clerk of district court as a criminal fine, civil penalty surcharge, or court costs (2003 Iowa Acts, House File 534, section 86).

5.14(5) Nature and extent. All of the record systems listed in subrule 5.14(6) contain personally identifiable information concerning matters such as income, property holdings or exchanges, financial transactions, and demographic information such as address and number of dependents.

5.14(6) Records systems with personally identifiable retrieval. The agency maintains the systems of records which contain personally identifiable information as enumerated in the following list. Confidential information as described in subrule 5.13(2) is contained in systems described in the following lettered paragraphs of subrule 5.14(6): "*b*" through "*l*," "*n*," "*o*," "*q*," "*s*," through "*v*," and "*x*" through "*mm*." The legal authority for the collection of the information is listed with the description of the system.

- a.* Board of tax review agendas, minutes, and presentation materials (Iowa Code section 421.1);
- b.* Centralized payroll and accounting systems (Iowa Code sections 7A.1, 7A.27, 19A.11, 421.17, 421.32, and 421.40);
- c.* Corporate income returns, corporate income tax field and office audit systems, related field collections system, and corporate tax error resolution (Iowa Code sections 422.33, 422.41, and 422.85);

- d.* Individual income returns, individual income tax field and office audit systems, and related field collections system (Iowa Code sections 422.5, 422.13, and 422.14);
- e.* Individual income tax withholding system, IA-W4 system, declaration of estimated tax, and withholding penalty waiver systems (Iowa Code sections 422.15 and 422.16);
- f.* Penalty waiver, abatement, and settlement systems (Iowa Code sections 422.25 and 422.28);
- g.* Franchise tax returns and audit and collection systems (Iowa Code sections 422.60, 422.66, and 422.85);
- h.* Sales and use tax returns, field and office audit and collection systems, sales tax refund examinations system, and sales and use tax penalty waivers systems (Iowa Code sections 422.43, 422.54, and 423.2);
- i.* Motor vehicle fuel tax return and error resolution systems, and related field audit and collection systems (Iowa Code chapter 452A);
- j.* Inheritance tax and qualified use inheritance tax systems, related field and office audit systems, and related field collections systems (Iowa Code sections 450.66, 450.67, 450.71, 450.81, 450.88, 450.94, 450.97, and 450B.7);
- k.* Federal and state exchange of information systems for tax administration (Iowa Code sections 422.20 and 422.72);
- l.* Cigarette and tobacco tax systems with related office and field audit and field collections system (Iowa Code chapter 453A);
- m.* Hearing officer case files (Iowa Code sections 17A.11 to 17A.18);
- n.* Property assessor assistance, provisional assessor training, and property assessor and deputy assessor examinations (Iowa Code sections 421.25, 441.5, and 441.8);
- o.* Annual assessment sales ratio study system (Iowa Code section 428A.1);
- p.* Declaration of value system (Iowa Code section 428A.1);
- q.* Central property tax assessments (Iowa Code sections 433.1, 433.2, 434.1, 434.6, 434.7, 434.8, 434.9, 434.10, 434.11, 434.14, 437.2, 437.4, 438.3, 438.4, 438.6, and 438.12);
- r.* Real estate transfer tax system (Iowa Code section 428A.1);
- s.* Elderly credit mobile home system (Iowa Code section 435.22);
- t.* Elderly credit special assessment system and Iowa disabled and senior citizen property tax and rent reimbursement credit system (Iowa Code sections 425.25, 425.26, and 425.27);
- u.* Equalization of property appraisals system (Iowa Code subsection 421.17(2));
- v.* Police officers' and firefighters' retirement system (Iowa Code section 411.20);
- w.* Tax policy and interpretation and final orders, decision, and opinion files (Iowa Code section 17A.3);
- x.* Equipment and security inventory systems (Iowa Code sections 7A.30 and 421.17(1));
- y.* Mailing systems for tax forms and newsletters (Iowa Code subsection 421.17(1));
- z.* Permit applications and maintenance systems (Iowa Code subsection 421.17(1));
- aa.* Taxpayer contact systems (Iowa Code subsection 421.17(1));
- bb.* Department personnel, budget, and payroll systems (Iowa Code sections 7A.1, 19A.9(13), 421.17(1), 421.32, and 421.40);
- cc.* Local option sales and services tax system (Iowa Code section 422B.9);
- dd.* Corporate and franchise estimated tax (Iowa Code section 422.85);
- ee.* New jobs tax credit system (Iowa Code subsection 422.33(7));
- ff.* Hotel and motel tax system (Iowa Code section 422A.1);
- gg.* Industrial machinery, equipment, and computers refund system (Iowa Code section 422.47A);
- hh.* Express company tax system (Iowa Code sections 436.3, 436.4, 436.6, and 436.9);
- ii.* Farm machinery and equipment refund system (Iowa Code section 422.47B);
- jj.* Litigation file systems (Iowa Code subsection 421.17(1));
- kk.* Criminal investigation and charge systems (Iowa Code subsection 421.17(1)).

701—5.15(17A,22) Other groups of records. This rule describes groups of records maintained by the agency other than record systems as defined in rule 5.1(17A,22). These records are routinely available to the public. However, the agency's files of these records may contain confidential information as discussed in rule 5.13(17A,22). The records listed may contain information about individuals.

1. Administrative records. This includes documents concerning budget, property inventory, purchasing, yearly reports, office policies for employees, time sheets, printing and supply requisitions. (See Iowa Code subsection 421.17(1).)

2. Publications. The agency receives a number of books, periodicals, newsletters, government documents, etc. These materials would generally be open to the public but may be protected by copyright law. (See Iowa Code subsection 421.17(1).)

3. Office publications. This agency issues a variety of materials including newsletters, brochures, and pamphlets, press releases, and statistical reports. (See Iowa Code subsection 421.17(1).)

4. Rule-making records. Public documents generated during the promulgation of agency rules, including notices and public comments, are available for public inspection. (See Iowa Code subsection 421.17(1).)

5. Office manuals. Information in office manuals may be confidential under Iowa Code subsection 17A.2(7), paragraph "f," or other applicable provision of law.

6. Legal library (Iowa Code subsection 421.17(1)).

7. Legislation monitoring system (Iowa Code subsection 421.17(1)).

8. All other records that are not exempt from disclosure by law.

701—5.16(17A,22) Applicability. This chapter does not:

1. Require the agency to index or retrieve records which contain information about individuals by that person's name or other personal identifier.

2. Make available to the general public records which would otherwise not be available under the public records law, Iowa Code chapter 22.

3. Govern the maintenance or disclosure of, notification of or access to, records in possession of the agency which are governed by regulations of another agency.

4. Apply to grantees, including local governments or subdivisions thereof, administering state-funded programs, unless otherwise provided by law or agreement.

5. Make available records compiled by the agency in reasonable anticipation of court litigation or formal administrative proceedings. The availability of such records to the general public or to any subject individual or party to such litigation or proceedings shall be governed by applicable legal and constitutional principles, statutes, rules of discovery, evidentiary privileges and applicable regulations of the agency.

This rule is intended to implement Iowa Code chapter 22.

TITLE I
ADMINISTRATION
CHAPTER 6
ORGANIZATION, PUBLIC INSPECTION
[Prior to 10/7/87, see Revenue Department[730] Ch 6]

701—6.1(17A) Establishment, organization, general course and method of operations, methods by which and location where the public may obtain information or make submissions or requests.

6.1(1) *Establishment of the department.* By an Act of the general assembly (chapter 1245, Acts of the 71st GA), a department of revenue and finance was created in lieu of three separate state agencies. The department is administered by the director with a three-member state board of tax review established within the department for administrative and budgetary purposes. As to the organization and functions of the state board of tax review, see rules contained in 701—Chapters 1 to 5.

Effective July 1, 2003, the Iowa department of revenue and finance is titled the Iowa department of revenue.

The department of revenue in recognizing its responsibilities has adopted the following creed to guide and lend direction to its endeavors:

“The Department of Revenue is dedicated to serving the citizens of Iowa and other public officials, while performing the following mission:

“Collect all taxes due, which any person may be required by law to pay, but no more.

“In carrying out this mission the department resolves to provide the best service possible in a cordial and helpful manner and to provide maximum opportunity and incentive for the professional growth and development of all our employees.”

The office of the department is maintained at the seat of government in the Hoover State Office Building, 1305 East Walnut Street, P.O. Box 10460, Des Moines, Iowa 50306.

6.1(2) *Organization of the department.* The department consists of the office of the director; the following divisions: property tax, tax policy and communications, internal services, tax management, research and analysis, process improvement and innovation; and the state board of tax review. For ease of administration, the director has organized the department’s divisions in some instances into bureaus, sections, subsections and units.

a. The office of the director. The office of the director consists of the director and the following areas within this office: strategic planning and public/private partnership. The essential functions of the director’s office include:

- (1) Overall management of the agency and review of protest and revocation cases on appeal.
- (2) Strategic planning and coordination of the future operations and goals of the department.
- (3) Providing financial checks and balances within the department.
- (4) Public/private partnership provides for a working relationship between the public sector and private sector.

b. Divisions.

(1) Property tax division. The property tax division provides technical assistance and training to local assessing jurisdictions, ensures equal assessment of property, and is responsible for determining valuation for railroads, electric, water, and pipeline companies.

(2) Tax management division. The tax management division includes the processing services section, the compliance services section and the collection services section. The essential functions of the tax management division include:

1. Functions performed by the processing services section, including registration of taxpayers, deposit of tax revenue, processing of tax returns, records management and mail services;

2. Functions performed by the compliance services section, including office examination of returns, identification of nonfilers and underreporters of income, assessment, and review and approval of refund claims. The compliance services section also performs field audits and is responsible for audits for criminal prosecution; and

3. Functions performed by the collection services section, which is responsible for the timely collection of past-due tax liabilities, as well as collection activities for the judicial branch of state government and for other state agencies and local governments.

(3) Tax policy and communications division. The tax policy and communications division consists of audit services, taxpayer services, and policy. The essential functions of the tax policy and communications division include:

1. Functions performed by the audit services section, which develops and reviews audit programs and completed audits, manuals, and guidelines for auditors, and which coordinates the administrative process of protests and protest resolution and includes the clerk of the hearings section;

2. Functions performed by the taxpayer services section, which is responsible for responding to inquiries from the public, practitioners and other agencies, drafting brochures and graphics, completing returns, maintaining the department's library and Web page, and coordinating public education by the department; and

3. Functions performed by the tax policy section, which is responsible for the interpretation of legislation, statutes and cases, developing and maintaining rules for the department and monitoring tax-related issues considered by the general assembly and the United States Congress. This section also drafts declaratory orders, offers technical advice and completes studies and reports.

(4) Internal services division. The essential functions of the internal services division include:

1. Functions performed by the central accounting team, which include operating budget development, maintenance and reporting; and

2. Functions performed by the employee resource team, which governs personnel activities, payroll, benefits, quality of the environment and customer service.

(5) Research and analysis division. The essential functions of the research and analysis division include:

1. Functions performed by the research and program analysis section, which provides research on tax issues, compiles statistical tax data, undertakes tax credit tracking and analysis, projects state receipts and refunds, and evaluates the fiscal impact of tax legislation and policies on the state budget; and

2. Functions performed by the performance analysis section, which develops and maintains performance measures for the department to align the department's resources, systems, and employees to meet strategic goals and priorities.

(6) Process improvement and innovation division. The essential functions of the process improvement and innovation division include:

1. Functions performed by the application development section, including system analysis, programming, database administration and support, in coordination with the information technology enterprise of the department of administrative services;

2. Functions performed by the technical planning and support section, including providing technical support to the department on software and hardware issues, in coordination with the information technology enterprise of the department of administrative services; and

3. Functions performed by the process improvement section, including identifying, analyzing, and improving existing processes within the department.

6.1(3) *Methods by which and location where the public may obtain information or make submissions or requests.* The department of revenue maintains its principal office in the Hoover State Office Building, 1305 East Walnut Street, P.O. Box 10460, Des Moines, Iowa 50306.

a. Principal office. Members of the public wishing to obtain information or make submissions or requests on any matters may do so at the department's principal office. Applications for permits or licenses may be obtained and submitted at the principal office, and any assistance needed in filling out the applications will be provided if the taxpayer so desires. Requests for confidential information should be submitted to the director, and the appropriate form will be provided and should be filled out and submitted to the director. Members of the public wishing to inspect information required to be made available to members of the public may do so in the director's office.

b. Regional offices. Regional offices do not have facilities for making available all matters that are available for public inspection under 701—6.2(17A). The regional offices and auditors do have copies

of all rules and will make them available to the public. Members of the public needing forms or needing assistance in filling out forms are encouraged to contact the principal office.

This rule is intended to implement Iowa Code sections 421.1, 421.2, 421.9, 421.14, 421.17, 422.1 and 422.72.

[ARC 9875B, IAB 11/30/11, effective 1/4/12; ARC 1303C, IAB 2/5/14, effective 3/12/14]

701—6.2(17A) Public inspection. Effective July 1, 1975, Iowa Code section 17A.3(1)“c” and “d” provides that the department shall index and make available for public inspection certain information. Pursuant to this requirement the department shall:

1. Make available for public inspection all rules;
2. Make available for public inspection and index by subject all written statements of law or policy, or interpretations formulated, adopted, or used by the department in the discharge of its functions;
3. Make available for public inspection and index by name and subject all final orders, decisions and opinions.

Section 17A.3(1)“c” and “d” also excepts certain matters from the public inspection requirement:

Except as provided by constitution or statute, or in the use of discovery or in criminal cases, the department shall not be required to make available for public inspection those portions of its staff manuals, instructions or other statements issued by the department which set forth criteria or guidelines to be used by its staff in auditing, in making inspections, in settling commercial disputes or negotiating commercial arrangements, or in the selection or handling of cases such as operational tactics or allowable tolerances or criteria for the defense, prosecution, or settlement of cases, when the disclosure of such statements would: (1) enable law violators to avoid detection; or (2) facilitate disregard of requirements imposed by law; or (3) give a clearly improper advantage to persons who are in an adverse position to the state.

Identifying details which would clearly warrant an invasion of personal privacy or trade secrets will be deleted from any final order, decision or opinion which is made available for public inspection upon a proper showing by the person requesting such deletion as provided in rule 701—7.9(17A).

Furthermore, the department shall not make available for public inspection or disclose information deemed confidential under Iowa Code sections 422.20 and 422.72.

Unless otherwise provided by statute, by rule or upon a showing of good cause by the person filing a document, all information contained in any petition or pleading shall be made available for public inspection.

All information accorded public inspection treatment shall be made available for inspection in the office of the Policy Section, Policy and Communications Division, Department of Revenue, Hoover State Office Building, P.O. Box 10457, Des Moines, Iowa 50306, during established office hours.

This rule is intended to implement Iowa Code chapter 17A.

[ARC 9875B, IAB 11/30/11, effective 1/4/12; ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—6.3(17A) Examination of records. Situations may occur that give rise to the need for state officials, other officers, agents or employees of the state, or other persons based on a court subpoena to review tax returns or information belonging to the department in order to fulfill duties and responsibilities or to assist in an investigation. However, there are guidelines that govern such reviews, which are as follows:

6.3(1) Upon the express written approval of the director of revenue or administrator of the compliance division, officers or employees of the state of Iowa may examine state tax returns and information belonging to the department to the extent required as part of their official duties and responsibilities. Written approval will be granted in those situations where the officers or employees of the state of Iowa have (1) statutory authority to obtain information from the department of revenue and (2) the information obtained is used for tax administration purposes. Where information is obtained from the department of revenue on a regular basis, the director of revenue may enter into a formal agreement with the state agency or state official who is requesting the information. The agreement will cover the conditions and procedures under which specific information will be released. The following

persons do not need written approval from the director of revenue or the administrator of the compliance division to examine state information and returns:

1. Assistant attorneys general assigned to the department of revenue.
2. Local officials acting as representatives of the state in connection with the collection of taxes or in connection with legal proceedings relating to the enforcement of tax laws.
3. The child support recovery unit of the department of human services and other state agencies and subdivisions of the state that are set forth in Iowa Code section 422.17 as amended by 1999 Iowa Acts, chapter 152, section 1, to secure a taxpayer's name and address per the terms of an interagency agreement. (Also see Iowa Code section 252B.9)
4. Workforce development department per the terms of an interagency agreement.
5. The legislative services agency regarding sample individual income tax information to be used for statistical purposes. (Also see Iowa Code section 422.72(1).)
6. The auditor of state, to the extent that the information is necessary to complete the annual audit of the department as required by Iowa Code section 11.2. (Also see Iowa Code section 422.72(1).)

Tax information and returns will not be released to officers and employees of the state who do not meet the requirements set forth above. (See Letter Opinions, November 25, 1981, Richards to Bair, Director of Revenue, and March 4, 1982, Richards to Johnson, Auditor, and Bair, Director of Revenue.)

The director may disclose state tax information, including return information, to tax officials of another state or the United States government for tax administration purposes provided that a reciprocal agreement exists which has laws that are as strict as the laws of Iowa protecting the confidentiality of returns and information.

6.3(2) The director of revenue must provide state tax returns and return information in response to a subpoena issued by the court based on Iowa R. Crim. P. 2.5 commanding the appearance before the attorney general or an assistant attorney general if the subpoena is accompanied by affidavits from such person and from a sworn peace officer member of the department of public safety affirming that the information is necessary for the investigation of a felony violation of Iowa Code chapter 124, "Controlled Substances," or 706B, "Money Laundering." Affidavits accompanying the subpoenas and the information provided by the director of revenue must remain a confidential record and may only be disseminated to a prosecutor, peace officer involved in the investigation, or to the taxpayer who filed the information. In addition, the court in connection with the filing of criminal charges or institution of a forfeiture action may also receive such confidential information.

A person who knowingly files a false affidavit with the director to secure information or who divulges information received under this rule in any manner prohibited by this rule commits a serious misdemeanor.

This rule is intended to implement Iowa Code sections 252B.9, 421.18, 421.19, 422.20, 422.72, and 452A.63.

701—6.4(17A) Copies of proposed rules. A trade or occupational association which has registered its name and address with the department of revenue may receive, by mail, copies of proposed rules. Registration of the association's name and address with the department is accomplished by written notification to the Administrator, Policy and Communications Division, Department of Revenue, Hoover State Office Building, P.O. Box 10457, Des Moines, Iowa 50306. In the written notification, the association must designate, by reference to rule 701—7.1(421,17A), the type of proposed rules and the number of copies of each rule it wishes to receive. If the association wishes to receive copies of proposed rules not enumerated in rule 701—7.1(421,17A), it may make a blanket written request at the time of registration or at any time prior to the adoption of such rules. A charge of 20 cents per single-sided page shall be charged to cover the actual cost of providing each copy of the proposed rule. In the event the actual cost exceeds 20 cents for a single-sided page, it will be billed accordingly.

This rule does not prevent an association which has registered with the department in accordance with this rule from changing its designation of types of proposed rules or number of copies of proposed rules which the association desires to receive. If an association makes such changed designation, it must

do so by written notification to the Administrator, Policy and Communications Division, Department of Revenue, Hoover State Office Building, P.O. Box 10457, Des Moines, Iowa 50319.

This rule is intended to implement Iowa Code section 17A.4.
[ARC 9875B, IAB 11/30/11, effective 1/4/12; ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—6.5(17A) Regulatory analysis procedures. Any small business as defined in Iowa Code section 17A.4A or organization of small businesses which has registered its name and address with the department of revenue shall receive by mail a copy or copies of any proposed rule which may have an impact on small business. Registration of the business's or organization's name and address with the department is accomplished by written notification to the Policy Section, Policy and Communications Division, Department of Revenue, Hoover State Office Building, P.O. Box 10457, Des Moines, Iowa 50306. In the written notification, the business or organization must state that it wishes to receive copies of rules which may have an impact on small business, the number of copies of each rule it wishes to receive, and must also designate, by reference to rule 701—7.1(421,17A), the types of proposed rules it wishes to receive. If the small business or organization of small businesses wishes to receive copies of proposed rules not enumerated in rule 701—7.1(421,17A), it may make a blanket written request at the time of registration or at any time prior to the adoption of the rules. A charge of 20 cents per single-sided page shall be imposed to cover the actual cost of providing each copy of the proposed rule. In the event the actual cost exceeds 20 cents for a single-sided page, it will be billed accordingly.

The administrative rules review committee, the administrative rules coordinator, at least 25 persons signing that request who qualify as a small business, or an organization representing at least 25 such persons may request issuance of a regulatory analysis by writing to the Policy Section, Policy and Communications Division, Department of Revenue, Hoover State Office Building, P.O. Box 10457, Des Moines, Iowa 50319. The request shall contain the following information: the name of the persons qualified as a small business and the name of the small business or the name of the organization as stated in its request for registration and an address; if a registered organization is requesting the analysis, a statement that the registered organization represents at least 25 persons; the proposed rule or portion of the proposed rule for which a regulatory analysis is requested; the factual situation which gives rise to the business's or organization's difficulties with the proposed rule; any of the methods for reducing the impact of the proposed rule on small business contained in Iowa Code section 17A.4A which may be particularly applicable to the circumstances; the name, address and telephone number of any person or persons knowledgeable regarding the difficulties which the proposed rule poses for small business and other information as the business or organization may deem relevant.

This rule is intended to implement Iowa Code section 17A.4A.
[ARC 9875B, IAB 11/30/11, effective 1/4/12; ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—6.6(422) Retention of records and returns by the department. The director may destroy any records, returns, reports or communications of a taxpayer after they have been in the custody of the department for three years, or at such later time when the statute of limitations for audit of the returns or reports has expired. The director may destroy any records, returns, reports or communications of a taxpayer before they have been in the custody of the department for three years provided that the amount of tax and penalty due has been finally determined.

This rule is intended to implement Iowa Code section 422.68.

701—6.7(68B) Consent to sell. In addition to being subject to any other restrictions in outside employment, self-employment or related activities imposed by law, an official of the department of revenue may only sell, either directly or indirectly, any goods or services to individuals, associations, or corporations subject to the authority of the department of revenue when granted permission subsequent to completion and approval of an Iowa department of revenue application to engage in outside employment. The application to engage in outside employment must be approved by the official's immediate supervisor, division administrator, and the administration division administrator. Approval to sell may only be granted when conditions listed in Iowa Code section 68B.4 are met.

This rule is intended to implement Iowa Code section 68B.4.

701—6.8(421) Tax return extension in disaster areas. If a natural disaster is declared by the governor in any area of the state, the director may extend for a period of up to one year the due date for the filing of any tax return and may suspend any associated penalty or interest that would accrue during that period of time for any affected taxpayer whose principal residence or business is located in the covered area if the director determines it necessary for the efficient administration of the tax laws of this state. The director will notify the public of any possible extensions of tax filings as well as possible suspensions of penalty and interest. Notification will be made through different means available to the director including, but not limited to, press releases, media information, and the department's Web site. Persons eligible for extension shall notify the director that they qualify and shall include a notation of the reason for the extension request on the tax return.

This rule is intended to implement 2008 Iowa Acts, Senate File 2400.

CHAPTER 7
PRACTICE AND PROCEDURE BEFORE THE DEPARTMENT OF REVENUE
[Prior to 12/17/86, Revenue Department[730]]

701—7.1(421,17A) Applicability and scope of rules. These rules pertain to practice and procedure and are designed to implement the requirements of the Act and aid in the effective and efficient administration and enforcement of the tax laws of this state and other activities of the department. These rules shall govern the practice, procedure and conduct of the informal proceedings, contested case proceedings, licensing, rule making, and declaratory orders involving taxation and other areas within the department's jurisdiction, which includes the following:

1. Sales and use tax—Iowa Code chapter 423;
2. Individual and fiduciary income tax—Iowa Code sections 422.4 to 422.31 and 422.110 to 422.112;
3. Franchise tax—Iowa Code sections 422.60 to 422.66;
4. Corporate income tax—Iowa Code sections 422.32 to 422.41 and 422.110 to 422.112;
5. Withholding tax—Iowa Code sections 422.16 and 422.17;
6. Estimated tax—Iowa Code sections 422.16, 422.17 and 422.85 to 422.92;
7. Motor fuel tax—Iowa Code chapter 452A;
8. Property tax—Iowa Code chapters 421, 425 to 428A and 433 to 441;
9. Cigarette and tobacco tax—Iowa Code chapters 421B and 453A;
10. Inheritance tax and qualified use inheritance tax—Iowa Code chapters 450 and 450B;
11. Local option taxes—Iowa Code chapter 423B;
12. Hotel and motel tax—Iowa Code chapter 423A;
13. Drug excise tax—Iowa Code chapter 453B;
14. Automobile rental excise tax—Iowa Code chapter 423C;
15. Environmental protection charge—Iowa Code chapter 424;
16. Replacement taxes—Iowa Code chapter 437A;
17. Statewide property tax—Iowa Code chapter 437A;
18. Equipment tax—Iowa Code chapter 423D;
19. Other taxes and activities as may be assigned to the department from time to time; and
20. The taxpayer's bill of rights—Iowa Code section 421.60.

As the purpose of these rules is to facilitate business and advance justice, any rule contained herein, pursuant to statutory authority, may be suspended or waived by the department to prevent undue hardship in any particular instance or to prevent surprise or injustice.

This rule is intended to implement Iowa Code chapter 17A.

[ARC 0251C, IAB 8/8/12, effective 9/12/12; ARC 1545C, IAB 7/23/14, effective 8/27/14]

701—7.2(421,17A) Definitions. These definitions apply to this chapter, unless the text otherwise states to the contrary:

“Act” means the Iowa administrative procedure Act.

“Affiliate or subsidiary of an entity dominant in its field of operation” means an entity which is at least 20 percent owned by an entity that is dominant in its field of operation, or by a partner, officer, director, majority stockholder or the equivalent, of an entity dominant in that field of operation.

“Agency” means each board, commission, department, officer, or other administrative office or unit of the state.

“Clerk of the hearings section” means the clerk of the hearings section of the department.

“Contested case” means a proceeding, including licensing, in which the legal rights, duties or privileges of a party are required by constitution or statute to be determined by an agency after an opportunity for an evidentiary hearing. This term also includes any matter defined as a no factual dispute contested case as provided in Iowa Code section 17A.10A.

“Declaratory order” means an order issued pursuant to Iowa Code section 17A.9.

“Department” means the Iowa department of revenue.

“Department of inspections and appeals” means the state department created by Iowa Code chapter 10A.

“Director” means the director of the department or the director’s authorized representative.

“Division of administrative hearings” means the division of the department of inspections and appeals responsible for holding contested case proceedings pursuant to Iowa Code chapter 10A.

“Dominant in its field of operation” means having more than 20 full-time equivalent positions and more than \$1 million in annual gross revenues.

“Entity” means any taxpayer other than an individual or sole proprietorship.

“Intervene” means to file with the department a petition requesting that the petitioner be allowed to intervene in the proceedings for a declaratory order currently under the department’s consideration.

“Issuance” means the date of mailing of a decision or order or date of delivery if service is by other means unless another date is specified in the order.

“Last-known address” does not necessarily mean the taxpayer’s actual address but instead means the last address that the taxpayer makes known to the department by tax type. Thus, for instance, receipt by the department of a taxpayer’s change of address from a third person not authorized to act on behalf of the taxpayer (e.g., an employer who had filed a Form W-2 showing a new taxpayer address) is not notice to the department of a change of address of the taxpayer. However, the filing by the taxpayer of a tax return for a year subsequent to the year for which a notice is required would be notification to the department of a change of address, provided a reasonable amount of time is allowed to process such information and transfer it to the department’s central computer system. Taxpayers should be aware of their need to update their address with the department in order to receive refunds of tax and notices of assessments and denial of a claim for refund. When such a notice is sent to a “taxpayer’s last-known address,” the notice is legally effective even if the taxpayer never receives it.

“License” means the whole or a part of any permit, certificate, approval, registration, charter, or similar form of permission required by statute.

“Licensing” means the department process respecting the grant, denial, renewal, revocation, suspension, annulment, withdrawal, or amendment of a license.

“Motion” has the same meaning as the term is defined in Iowa R. Civ. P. 1.431.

“Party” means each person or agency named or admitted as a party, or properly seeking and entitled as of right to be admitted as a party, including intervenors.

“Person” means any individual; estate; trust; fiduciary; partnership, including limited liability partnership; corporation, including limited liability corporation; association; governmental subdivision; or public or private organization of any character or any other person covered by the Act other than an agency.

“Petition” means application for declaratory order, request to intervene in a declaratory order under consideration, application for initiation of proceedings to adopt, amend or repeal a rule or document filed in licensing.

“Pleadings” means protest, answer, reply or other similar document filed in a contested case proceeding, including contested cases involving no factual dispute.

“Presiding officer” means the person designated to preside over a proceeding involving the department. A presiding officer of a contested case involving the department will be either the director or a qualified administrative law judge appointed, pursuant to Iowa Code chapter 17A, by the division of administrative hearings established pursuant to Iowa Code section 10A.801. In cases in which the department is not a party, at the director’s discretion, the presiding officer may be the director or the director’s designee. The presiding officer of an administrative appeal is the director of the department.

“Proceeding” means informal, formal and contested case proceedings.

“Proposed decision” means the presiding officer’s recommended findings of fact, conclusions of law, decision, and order in a contested case in which the director did not preside.

“Protester” means any person entitled to file a protest which may culminate in a contested case proceeding.

“Provision of law” means the whole or part of the Constitution of the United States of America or the Constitution of the State of Iowa, or of any federal or state statute, court rule, executive order of the governor, or rule of the department.

“Review unit” means the unit composed of department employees designated by the director and of the attorney general’s staff who have been assigned to review protests filed by taxpayers.

“Rule” means a department statement of general applicability that implements, interprets, or prescribes law or policy, or that describes the organization, procedure, or practice requirements of the department. Notwithstanding any other statute, the term includes an executive order or directive of the governor which creates an agency or establishes a program or which transfers a program between agencies established by statute or rule. The term includes the amendment or repeal of an existing rule, but does not include the excluded items set forth in Iowa Code section 17A.2(11).

“Small business” means any entity including, but not limited to, an individual, partnership, corporation, joint venture, association, or cooperative. A small business is not an affiliate of an entity dominant in its field of operation. A small business has either 20 or fewer full-time equivalent positions or less than \$1 million in annual gross revenues in the preceding fiscal year.

“Taxpayer interview” means any in-person contact between an employee of the department and a taxpayer or a taxpayer’s representative which has been initiated by a department employee.

“Taxpayer’s representative” or *“authorized taxpayer’s representative”* means an individual authorized to practice before the department under rule 701—7.6(17A); an individual who has been named as an authorized representative on a fiduciary return of income form filed under Iowa Code section 422.14, or a tax return filed under Iowa Code chapter 450, “Inheritance Tax,” or chapter 450B, “Qualified Inheritance Tax”; or for proceedings before the department, any other individual the taxpayer designates who is named on a valid power of attorney if appearing on behalf of another.

Unless otherwise specifically stated, the terms used in these rules promulgated by the department shall have the meanings defined by the Act.

This rule is intended to implement Iowa Code chapter 17A.

[ARC 0251C, IAB 8/8/12, effective 9/12/12; ARC 1545C, IAB 7/23/14, effective 8/27/14]

701—7.3(17A) Business hours. The principal office of the department in the Hoover State Office Building in Des Moines, Iowa, shall be open between the hours of 8 a.m. and 4:30 p.m. each weekday, except Saturdays, Sundays and legal holidays as prescribed in Iowa Code section 4.1(34), for the purpose of receiving protests, pleadings, petitions, motions, or requests for public information or copies of official documents or for the opportunity to inspect public records.

7.3(1) All documents or papers required to be filed with the department by these rules shall be filed with the designated clerk of the hearings section in the principal office of the department in the Hoover State Office Building, Des Moines, Iowa 50319. Requests for public information or copies of official documents or for the opportunity to inspect public records shall be made in the director’s office at the department’s principal office.

7.3(2) All documents or papers filed with an administrative law judge appointed by the division of administrative hearings to be a presiding officer shall be filed with the Department of Inspections and Appeals, Administrative Hearings Division, Third Floor, Wallace State Office Building, Des Moines, Iowa 50319.

This rule is intended to implement Iowa Code chapter 17A.

[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—7.4(17A) Computation of time, filing of documents. In computing any period of time prescribed or allowed by these rules or by an applicable statute, the day of the act, event or default from which the designated period of time begins to run shall not be included. The last day of the period so computed shall be included, unless it is a Saturday, Sunday or legal holiday, in which event the period runs until the end of the next day which is not a Saturday, Sunday or legal holiday. Legal holidays are prescribed in Iowa Code section 4.1(34).

7.4(1) All documents or papers required to be filed with the department shall be considered as timely filed if they are either received by the department’s principal office or are postmarked for delivery to

the department's principal office within time limits as prescribed by law or by rules or orders of the department.

7.4(2) In all cases where the time for the filing of a protest or the performance of any other act shall be fixed by law, the time so fixed by law shall prevail over the time fixed in these rules.

This rule is intended to implement Iowa Code chapter 17A.
[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—7.5(17A) Form and style of papers. All pleadings, petitions, briefs and motions or other documents filed with the department shall be typewritten, shall have a proper caption, and shall have a signature and copies as herein provided or as specified in some other rule.

7.5(1) Papers shall be typed on only one side of plain white paper. Pleadings, petitions, motions, orders and any other papers allowed or required to be filed by these rules may be on any size paper. Citations should be underscored.

7.5(2) The proper caption shall be placed in full upon the first paper filed.

7.5(3) The signature of the petitioner, party, or authorized representative shall be subscribed in writing to the original of all pleadings, petitions, briefs or motions and shall be an individual's and not a firm's name except that the signature of a corporation shall be the name of the corporation by one of its active officers. The name and mailing address of the party or the party's representative actually signing shall be typed or printed immediately beneath the written signature. The signature shall constitute a certification that the signer has read the document; that to the best of the signer's knowledge, information and belief, every statement contained in the document is true and no such statement is misleading.

a. A taxpayer or the taxpayer's representative using e-mail or other electronic means to submit an income tax return, a sales tax or use tax return, a return for any other tax administered by the department, an application for a sales tax permit or other permit, a deposit form for remitting withholding tax or other taxes administered by the department, or any other document to the department may use an electronic signature or a signature designated by the department in lieu of a handwritten signature. To the extent that a taxpayer or the taxpayer's representative submits to the department a tax return, deposit document, application or other document by e-mail or other electronic means with an electronic signature or signature designated by the department, the taxpayer should include in the record of the document the taxpayer's federal identification number so that the taxpayer's identity is established. For purposes of this rule, "electronic signature" means an electronic sound, symbol, or process attached to or logically associated with a tax return, deposit document, or other document filed with the department and executed or adopted by a person with the intent to sign the return, deposit document, or other document filed with the department. For purposes of this rule, "signature designated by the department" means a symbol or other information that is provided by the department to the taxpayer or the taxpayer's representative and is to serve instead of the handwritten signature of the taxpayer.

b. In a situation where the taxpayer or the taxpayer's representative has submitted a return or other document to the department by e-mail, the taxpayer should include the taxpayer's e-mail address in the record of the document. However, notwithstanding the above information, a taxpayer may not submit a tax return or other document to the department with an electronic signature when a handwritten signature is required with the return or document by federal or state law.

7.5(4) Every pleading (other than protest) or motion or brief shall bear proof of service upon the opposing party as provided by the Iowa Rules of Civil Procedure.

7.5(5) Except as otherwise provided in these rules or ordered by the department, an original copy only of every pleading, brief, motion or petition shall be filed.

7.5(6) All copies shall be clear and legible but may be on any weight of paper.

7.5(7) Upon motion of an opposing party or on its own motion, the department may, in its discretion, if a person or party has failed to comply with this rule, require such person or party to follow the

provisions of this rule and may point out the defects and details needed to comply with the rule prior to the filing of the rule.

This rule is intended to implement Iowa Code chapters 17A and 554D and section 421.17.
[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—7.6(17A) Persons authorized to represent themselves or others. Due to the complex questions involved and the technical aspects of taxation, persons are encouraged to seek the aid, advice, assistance and counsel of practicing attorneys and certified public accountants.

7.6(1) The right to represent one's self or others in connection with any proceeding before the department or administrative hearings division shall be limited to the following classes of persons:

- a. Taxpayers who are natural persons representing themselves;
- b. Attorneys duly qualified and entitled to practice in the courts of the state of Iowa;
- c. Attorneys who are entitled to practice before the highest court of record of any other state and who have complied with Iowa Ct. R. 31.14;
- d. Accountants who are authorized, permitted, or licensed under Iowa Code chapter 542;
- e. Duly authorized directors or officers of corporations representing the corporation of which they are respectively a director or officer, excluding attorneys who are acting in the capacity of a director or officer of a corporation and who have not met the requirements of paragraph 7.6(1) "c" above;
- f. Partners representing their partnership;
- g. Fiduciaries;
- h. Government officials authorized by law; and
- i. Enrolled agents, currently enrolled under 31 CFR §10.6 for practice before the Internal Revenue Service, representing a taxpayer in proceedings under division II of Iowa Code chapter 422.

7.6(2) No person who has served as an official or employee of the department shall within a period of two years after the termination of such service or employment appear before the department or receive compensation for any services rendered on behalf of any person, firm, corporation, or association in relation to any case, proceeding, or application with respect to which the person was directly concerned and in which the person personally participated during the period of service or employment.

7.6(3) Any person appearing in any proceeding involving the department, regardless of whether the department is a party, must have on file with the department a valid Iowa power of attorney.

This rule is intended to implement Iowa Code chapter 17A.
[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—7.7(17A) Resolution of tax liability. Unless a proper protest has been filed as provided hereinafter, persons interested in any tax liability, refund claim, licensing or any other tax matters shall discuss the resolution of such matters with appropriate personnel.

In the event that a proper protest has been filed as provided hereinafter, the appropriate department personnel, when authorized by the review unit, shall have the authority to discuss the resolution of any matter in the protest either with the protester or the protester's representative. The appropriate personnel shall report their activities in this regard to the review unit, and the unit shall be authorized to approve or reject any recommendations made by the appropriate personnel to resolve a protest.

This rule is intended to implement Iowa Code chapter 17A.
[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—7.8(17A) Protest. Any person wishing to contest an assessment, denial of refund claim, or any other department action, except licensing, which may culminate in a contested case proceeding shall file a protest, in writing, with the department within the time prescribed by the applicable statute or rule for filing notice of application to the director for a hearing. The protest must either be delivered to the department by electronic means or by United States Postal Service or a common carrier, by ordinary, certified, or registered mail, directed to the attention of the clerk of the hearings section at P.O. Box 14457, Des Moines, Iowa 50306, or be personally delivered to the clerk of the hearings section or served on the clerk of the hearings section by personal service during business hours. For the purpose of mailing, a protest is considered filed on the date of the postmark. If a postmark date is not present on the mailed

article, then the date of receipt of protest will be considered the date of mailing. Any document, including a protest, is considered filed on the date personal service or personal delivery to the office of the clerk of the hearings section for the department is made. See Iowa Code section 622.105 for the evidence necessary to establish proof of mailing.

7.8(1) The period for appealing department action relating to refund claims is the same statutory period as that for contesting an assessment. Failure to timely file a written protest will be construed as a waiver of opposition to the matter involved unless, on the director's own motion, pursuant to statutory authority, the powers of abatement or settlement are exercised. The review unit created within the department by the director to review protests as provided in rule 701—7.11(17A) may seek dismissal of protests which are not in the proper form as provided by this rule. See subrule 7.11(2) for dismissals.

7.8(2) If the department has not granted or denied a filed refund claim within six months of the filing of the claim, the refund claimant may file a protest. Even though a protest is so filed, the department is entitled to examine and inspect the refund claimant's records to verify the refund claim.

7.8(3) Notwithstanding the above, the taxpayer who fails to timely protest an assessment may contest the assessment by paying the whole assessed tax, interest, and penalty and by filing a refund claim within the time period provided by law for filing such claim. However, in the event that such assessment involves divisible taxes which are not timely protested, namely, an assessment which is divisible into a tax on each transaction or event, the taxpayer may contest the assessment by paying a portion of the assessment and filing a refund claim within the time period provided by law. In this latter instance, the portion paid must represent any undisputed portion of the assessment and must also represent the liability on a transaction or event for which, if the taxpayer is successful in contesting the portion paid, the unpaid portion of the assessment would be canceled. *Flora v. United States*, 362 U.S. 145, 4 L.Ed. 2d 623, 80 S.Ct.630 (1960); *Higginbotham v. United States*, 556 F.2d 1173 (4th Cir. 1977); *Steele v. United States*, 280 F.2d 89 (8th Cir. 1960); *Stern v. United States*, 563 F. Supp. 484 (D. Nev. 1983); *Drake v. United States*, 355 F. Supp. 710 (E.D. Mo. 1973). Any such protest filed is limited to the issues covered by the amounts paid for which a refund was requested and denied by the department. Thereafter, if the department does not grant or deny the refund within six months of the filing of the refund claim or if the department denies the refund, the taxpayer may file a protest as authorized by this rule.

7.8(4) All of the taxes administered and collected by the department can be divisible taxes, except individual income tax, fiduciary income tax, corporation income tax, franchise tax, and statewide property tax. The following noninclusive examples illustrate the application of the divisible tax concept.

EXAMPLE A. As a responsible party, X is assessed withholding income taxes, penalty and interest on eight employees. X fails to timely protest the assessment. X contends that X is not a responsible party. If X is a responsible party, X is required to make monthly deposits of the withholding taxes. In this situation, the withholding taxes are divisible. Therefore, X may pay an amount of tax, penalty and interest attributable to one employee for one month and file a refund claim within the time period provided by law since, if X is successful on the refund claim, the remaining unpaid portion of the assessment would be canceled.

EXAMPLE B. Y is assessed sales tax, interest, and penalty for electricity purchased and used to power a piece of machinery in Y's manufacturing plant. Y fails to timely protest the assessment. Y was billed monthly for electricity by the power company to which Y had given an exemption certificate. Y contends that the particular piece of machinery is used directly in processing tangible personal property for sale and that, therefore, all of the electricity is exempt from sales tax. In this situation, the sales tax is divisible. Therefore, Y may pay an amount of tax, penalty and interest attributable to one month's electrical usage in that machinery and file a refund claim within the time period provided by law since, if Y is successful on the refund claim, the remaining unpaid portion of the assessment would be canceled.

7.8(5) The protest shall be brought by and in the name of the interested or affected person or by and in the full descriptive name of the fiduciary legally entitled to institute a proceeding on behalf of the person or by an intervenor in contested case proceedings. In the event of a variance in the name set forth in the protest and the correct name, a statement of the reason for the discrepancy shall be set forth in the protest.

7.8(6) The protest shall contain a caption in the following form:

BEFORE THE DEPARTMENT OF REVENUE
HOOVER STATE OFFICE BUILDING
DES MOINES, IOWA

IN THE MATTER OF _____ (state taxpayer's name and address and designate type of proceeding, e.g., income tax refund claim)	* * * *	PROTEST Docket No. _____ (filled in by Department)
---	------------------	--

7.8(7) The protest shall substantially state in separate numbered paragraphs the following:

- a. Proper allegations showing:
 - (1) Date of assessment;
 - (2) Date of refund denial;
 - (3) Whether the protester failed to timely appeal the assessment and, if so, the date of payment and the date of filing of the refund claim;
 - (4) Whether the protest involves the appeal of a refund claim after six months from the date of filing the refund claim because the department failed to deny the claim;
 - (5) The assessment, refund claim, and refund denial, copies of which shall be attached;
 - (6) Other items that the protester wishes to bring to the attention of the department; and
 - (7) A request for attorney fees, if applicable.
- b. The type of tax, the taxable period or periods involved and the amount in controversy.
- c. Each error alleged to have been committed, listed in a separate paragraph. For each error listed, an explanation of the error and all relevant facts related to the error shall be provided.
- d. Reference to any particular statute or statutes and any rule or rules involved, if known.
- e. Description of records or documents which were not available or were not presented to department personnel prior to the filing of the protest, if any. Copies of any records or documents that were not previously presented to the department shall be provided.
- f. Any other matters deemed relevant and not covered in the above paragraphs.
- g. The desire of the protester to waive informal or contested case proceedings if waiver is desired. Unless the protester so indicates a waiver, informal procedures will be initiated.
- h. A statement setting forth the relief sought by the protester.
- i. The signature of the protester or that of the protester's representative, the addresses of the protester and of the protester's representative, and the telephone number of the protester or the protester's representative. A copy of the power of attorney for the protester's representative shall be attached.

7.8(8) An original and two copies of the protest shall be filed with the clerk of the hearings section. Upon receipt of the protest, the clerk of the hearings section shall register receipt of the protest, docket the protest, and assign a number to the case. The assigned number shall be placed on all subsequent pleadings filed in the case.

7.8(9) The protester may amend the protest at any time prior to the commencement of the evidentiary hearing. The department may request that the protester amend the protest for purposes of clarification.

7.8(10) Upon the filing of an answer or if a demand for contested case is made by the protester, the clerk of the hearings section will transfer the protest file to the division of administrative hearings within 30 days of the date of the filing of the answer or the demand for contested case, unless the director determines not to transfer the case. If a party objects to a determination under rule 701—7.17(17A), the transfer, if any, would be made after the director makes a ruling on the objection.

7.8(11) Denial of renewal of vehicle registration or denial of issuance or renewal, or suspension, of a driver's license.

- a. A person who has had an application for renewal of vehicle registration denied, has been denied the issuance of a driver's license or the renewal of a driver's license, or has had a driver's license

suspended may file a protest with the clerk of the hearings section if the denial of the issuance or renewal or the suspension is because the person owes delinquent taxes.

b. The issues raised in a protest by the person, which are limited to a mistake of fact, may include but are not limited to:

- (1) The person has the same name as the obligor but is not the correct obligor;
- (2) The amount in question has been paid; or
- (3) The person has made arrangements with the department to pay the amount.

This rule is intended to implement Iowa Code chapter 17A.

[ARC 0251C, IAB 8/8/12, effective 9/12/12; ARC 1303C, IAB 2/5/14, effective 3/12/14]

701—7.9(17A) Identifying details.

7.9(1) Any person may file a motion to delete identifying details concerning the person from any document relating to any proceeding as defined in rule 701—7.2(421,17A) prior to disclosure to members of the public. Such a motion must be filed with the clerk of the hearings section if the motion is filed prior to the commencement of a contested case, which is before the notice for hearing is issued. If the motion is filed during a contested case proceeding pending before an administrative law judge and before the administrative law judge has entered a proposed decision on the case or has entered a closing order, the motion must be filed with and ruled upon by the administrative law judge. Otherwise, the motion must be filed with the clerk of the hearings section and ruled upon by the director. The motion shall be filed simultaneously with the presentation of the privacy or trade secret information under circumstances whereby the information may be disclosed to the public and before the issuance of any opinion, order or decision.

7.9(2) If the motion concerns information which is not a part of a contested case, the motion shall be in the form of a request to delete identifying details; if part of a contested case, the motion shall be in the form of a motion to delete identifying details. All motions to delete identifying details shall conform to subrule 7.17(5).

a. The motion shall contain the following:

(1) The name of the person requesting deletion and the docket number of the proceeding, if applicable;

(2) The legal basis for the motion for deletion, which is either that release of the material would be a clearly unwarranted invasion of personal privacy or the material is a trade secret. A corporation may not claim an unwarranted invasion of privacy;

(3) A precise description of the document, report, or other material in the possession of the department from which the deletion is sought and a precise description of the information to be deleted. If deletion is sought from more than one document, each document and the materials sought to be deleted from it shall be listed in separate paragraphs. Also contained in each separate paragraph shall be a statement of the legal basis for the deletion requested in that paragraph, which is that release of the material sought to be deleted is a clearly unwarranted invasion of privacy or the material is a trade secret and the material serves no public purpose.

b. An affidavit in support of deletion must accompany each motion. The affidavit must be sworn to by a person familiar with the facts asserted within it and shall contain a clear and concise explanation of the facts justifying deletion, not merely the legal basis for deletion or conclusionary allegations.

c. All affidavits shall contain a general and truthful statement that the information sought to be deleted is not available to the public from any source or combination of sources, direct or indirect, and a general statement that the release would serve no public purpose.

d. The burden of showing that deletion is justified shall be on the movant. The burden is not carried by mere conclusionary statements or allegations, for example, that the release of the material would be a clearly unwarranted invasion of personal privacy or that the material is a trade secret.

e. That the matter sought to be deleted is part of the pleadings, motions, evidence, and the record in a contested case proceeding otherwise open for public inspection and that the matter would otherwise constitute confidential tax information shall not be grounds for deletion (1992 Op. IA Att’y Gen. 1).

f. The ruling on the motion shall be strictly limited to the facts and legal bases presented by the movant, and the ruling shall not be based upon any facts or legal bases not presented by the movant.

This rule is intended to implement Iowa Code chapter 17A.
[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—7.10(17A) Docket. The clerk of the hearings section shall maintain a docket of all proceedings, and each of the proceedings shall be assigned a number. Every matter coming within the purview of these rules shall be assigned a docket number which shall be the official number for the purposes of identification. Upon receipt of a protest, a petition for declaratory order or a petition to initiate rule-making proceedings, the proceeding will be docketed and assigned a number, and the parties notified thereof. The number shall be placed by the parties on all papers thereafter filed in the proceeding. After the transfer of a case to the division of administrative hearings for contested case proceedings, that division may assign a docket number to the case and, in that event, the docket number shall be placed by the parties on all papers thereafter filed in the proceeding.

This rule is intended to implement Iowa Code chapter 17A.
[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—7.11(17A) Informal procedures and dismissals of protests.

7.11(1) Informal procedures. Persons are encouraged to utilize the informal procedures provided herein so that a settlement may be reached between the parties without the necessity of initiating contested case proceedings. Therefore, unless the protester indicates a desire to waive the informal procedures in the protest or the department waives informal procedures upon notification to the protester, such informal procedures will be initiated as herein provided upon the filing of a proper protest.

a. Review unit. A review unit is created within the department and, subject to the control of the director, the unit will:

- (1) Review and evaluate the validity of all protests made by taxpayers from the department action.
- (2) Determine the correct amount of tax owing or refund due.
- (3) Determine the best method of resolving the dispute between the protester and the department.
- (4) Take further action regarding the protest, including any additions and deletions to the audit, as may be warranted by the circumstances to resolve the protest, including a request for an informal conference.

(5) Determine whether the protest complies with rule 701—7.8(17A) and request any amendments to the protest or additional information.

b. The review unit may concede any items contained in the protest which it determines should not be controverted by the department. If the protester has not waived informal procedures, the review unit may request that the protester and the protester's representative, if any, attend an informal conference with the review unit to explore the possibility of reaching a settlement without the necessity of initiating contested case proceedings or of narrowing the issues presented in the protest if no settlement can be made. The review unit may request clarification of the issues from the protester or further information from the protester or third persons.

c. Findings dealing with the issues raised in the protest may be issued unless the issues may be more expeditiously determined in another manner or it is determined that findings are unnecessary. The protester will be notified of the decision on the issues in controversy.

d. Nothing herein will prevent the review unit and the protester from mutually agreeing on the manner in which the protest will be informally reviewed.

e. Settlements. If a settlement is reached during informal procedures, the clerk of the hearings section must be notified. A closing order stating that a settlement was reached by the parties and that the case is terminated shall be issued by the director and served upon all parties.

7.11(2) Dismissal of protests.

a. Whether informal procedures have been waived or not, the failure of the protester to timely file a protest or to pursue the protest may be grounds for dismissal of the protest by the director or the director's designee. If the protest is so dismissed, the protester may file an application for reinstatement of the protest for good cause as provided in paragraph 7.11(2) "c." Such application must be filed within

30 days of the date of the dismissal notice. Thereafter, the procedure in paragraph 7.11(2) “c” should be followed. If informal procedures have not been waived, the failure of the protester to present evidence or information requested by the review unit shall constitute grounds for the director or the director’s designee to dismiss the protest. For purposes of this subrule, an evasive or incomplete response will be treated as a failure to present evidence or information. The failure of the protester to file a protest in the format required by rule 701—7.8(17A) may be grounds for dismissal of the protest by the director or the director’s designee.

b. If the department seeks to have the protest dismissed, the review unit shall file a motion to dismiss with the clerk of the hearings section and serve a copy of the motion on the protester. The protester may file a resistance to the motion within 20 days of the date of service of the motion. If no resistance is so filed, the director or the director’s designee shall immediately enter an order dismissing the protest. If a resistance is filed, the review unit has 10 days from the date of the filing of the resistance to decide whether to withdraw its motion and so notify the protester and the clerk of the hearings section. If no such notice is issued by the review unit within the 10-day period, the protest file will be transferred to the division of administrative hearings, which shall issue a notice for a contested case proceeding on the motion as prescribed by rule 701—7.14(17A), except that the issue of the contested case proceeding shall be limited to the question of whether the protest shall be dismissed. Thereafter, rule 701—7.17(17A) pertaining to contested case proceedings shall apply in such dismissal proceedings.

c. If a motion to dismiss is filed and is unresisted, a protest so dismissed may be reinstated by the director or the director’s designee for good cause as interpreted by the Iowa supreme court in the case of *Purethane, Inc. v. Iowa State Board of Tax Review*, 498 N.W.2d 706 (Iowa 1993) if an application for reinstatement is filed with the clerk of the hearings section within 30 days of the date the protest was dismissed. The application shall set forth all reasons and facts upon which the protester relies in seeking reinstatement of the protest. The review unit shall review the application and notify the protester whether the application is granted or denied. If the review unit denies the application to reinstate the protest, the protester has 30 days from the date the application for reinstatement was denied in which to request, in writing, a formal hearing on the reinstatement. When a written request for formal hearing is received, the protest file will be transferred to the division of administrative hearings, which shall issue a notice as prescribed in rule 701—7.14(17A), except that the issue of the contested case proceeding shall be limited to the question of whether the protest shall be reinstated. Thereafter, rule 701—7.17(17A) pertaining to contested case proceedings shall apply in such reinstatement proceedings.

d. Once contested case proceedings have been commenced, whether informal proceedings have been waived or not, it shall be grounds for a motion to dismiss that a protester has either failed to diligently pursue the protest or refuses to comply with requests for discovery set forth in rule 701—7.15(17A). Such a motion must be filed with the presiding officer.

e. Notwithstanding other provisions of this subrule, if the director finds that a protest is not timely filed, including a failure within a reasonable time to file a protest in proper form after notice to the protester by the hearings section, the director, without the filing of a motion to dismiss, may dismiss the protest and shall notify the protester that the protest has been dismissed. With respect to a protest so dismissed, thereafter the provisions of paragraph 7.11(2) “c” shall apply.

This rule is intended to implement Iowa Code section 17A.10.
[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—7.12(17A) Answer. The department may, in lieu of findings, file an answer to the protest. When findings are issued, the department will file an answer within 30 days of receipt of written notification from the protester stating disagreement with the findings. The answer shall be filed with the clerk of the hearings section.

7.12(1) In the event that the protester does not so respond in writing to the findings issued on matters covered by paragraph 7.11(1) “c” within 30 days after being notified, the department may seek dismissal of the protest pursuant to subrule 7.11(2).

7.12(2) The answer of the department shall be drawn in a manner as provided by the Iowa Rules of Civil Procedure for answers filed in Iowa district courts.

7.12(3) Each paragraph contained in the answer shall be numbered or lettered to correspond, where possible, with the paragraphs of the protest. An original copy only of the answer shall be filed with the clerk of the hearings section for the department and shall be signed by the department's counsel or representative.

7.12(4) The department shall forthwith serve a copy of the answer upon the representative of record or, if there is no representative of record, then upon the protester and shall file proof of service with the clerk of the hearings section at the time of filing of the answer. The department may amend its answer at any time prior to the commencement of the evidentiary hearing.

7.12(5) The provisions of rule 701—7.12(17A) shall be considered as a part of the informal procedures since a contested case proceeding, at the time of the filing of the answer, has not yet commenced. However, an answer shall be filed pursuant to this rule whether or not informal procedures have been waived by the protester or the department.

7.12(6) Notwithstanding subrules 7.12(1) through 7.12(5), if a taxpayer makes a written demand for a contested case proceeding, as authorized by rule 701—7.14(17A), after a period of six months from the filing of a proper protest, the department shall file its answer within 30 days after receipt of the demand. If the department fails to file its answer within this 30-day period, interest shall be suspended, if the protest involves an assessment, from the time that the department was required to answer until the date that the department files its answer and, if the protest involves a refund, interest shall accrue on the refund at double the rate from the time the department was required to answer until the date that the department files its answer.

7.12(7) The department's answer may contain a statement setting forth whether the case should be transferred to the division of administrative hearings or the director should retain the case for hearing.

7.12(8) The department's answer should set forth the basis for retention of the case by the director as provided in subrule 7.17(1). If the answer fails to allege that the case should be retained by the director, the case should be transferred to the division of administrative hearings for contested case proceedings, unless the director determines on the director's own motion that the case should be retained by the director.

This rule is intended to implement Iowa Code chapter 17A and section 421.60.
[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—7.13(17A) Subpoenas. Prior to the commencement of a contested case, the department shall have the authority to subpoena books, papers, and records and shall have all other subpoena powers conferred upon it by law. Subpoenas in this case shall be issued by the director or the director's designee. Once a contested case is commenced, subpoenas must be issued by the presiding officer.

This rule is intended to implement Iowa Code section 17A.13.
[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—7.14(17A) Commencement of contested case proceedings. A demand or request by the protester for the commencement of contested case proceedings must be in writing and filed with the clerk of the hearings section by electronic means, by mail via the United States Postal Service or common carrier by ordinary, certified, or registered mail in care of the clerk of the hearings section, or by personal service on the office of the clerk of the hearings section during business hours. The demand or request is considered filed on the date of the postmark. If the demand or request does not indicate a postmark date, then the date of receipt or the date personal service is made is considered the date of filing. See Iowa Code section 622.105 for the evidence necessary to establish proof of mailing.

7.14(1) At the request of a party or the presiding officer made prior to the issuance of the hearing notice, the presiding officer shall hold a telephone conference with the parties for the purpose of selecting a mutually agreeable hearing date, which date shall be the hearing date contained in the hearing notice. The notice shall be issued within one week after the mutually agreeable hearing date is selected.

7.14(2) Contested case proceedings will be commenced by the presiding officer by delivery of notice by ordinary mail directed to the parties after a demand or request is made (a) by the protester and the filing of the answer, if one is required, which demand or request may include a date to be set for the

hearing, or (b) upon filing of the answer, if a request or demand for contested case proceedings has not been made by the protester. The notice will be given by the presiding officer.

7.14(3) The presiding officer may grant a continuance of the hearing. Any change in the date of the hearing shall be set by the presiding officer. Either party may apply to the presiding officer for a specific date for the hearing. The notice shall include:

- a.* A statement of the time (which shall allow for a reasonable time to conduct discovery), place and nature of the hearing;
- b.* A statement of the legal authority and jurisdiction under which the hearing is held;
- c.* A reference to the particular sections of the statutes and rules involved; and
- d.* A short and plain statement of the matters asserted, including the issues.

7.14(4) After the delivery of the notice commencing the contested case proceedings, the parties may file further pleadings or amendments to pleadings as they desire. However, any pleading or amendment thereto which is filed within seven days prior to the date scheduled for the hearing or filed on the date of the hearing shall constitute good cause for the party adversely affected by the pleading or amendment to seek and obtain a continuance.

This rule is intended to implement Iowa Code section 17A.12.
[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—7.15(17A) Discovery. The rules of the supreme court of the state of Iowa applicable in civil proceedings with respect to depositions upon oral examination or written questions; written interrogatories; production of documents or things or permission to enter upon land or other property, for inspection and other purposes; physical and mental examinations; and requests for admission shall apply to discovery procedures in contested case proceedings. Disputes concerning discovery shall be resolved by the presiding officer. If necessary a hearing shall be scheduled, with reasonable notice to the parties, and, upon hearing, an appropriate order shall be issued by the presiding officer.

7.15(1) When the department relies on a witness in a contested case, whether or not the witness is a departmental employee, who has made prior statements or reports with respect to the subject matter of the witness' testimony, the department shall, on request, make such statements or reports available to a party for use on cross-examination unless those statements or reports are otherwise expressly exempt from disclosure by constitution or statute. Identifiable departmental records that are relevant to disputed material facts involved in a contested case shall, upon request, promptly be made available to the party unless the requested records are expressly exempt from disclosure by constitution or statute.

7.15(2) Evidence obtained in such discovery may be used in contested case proceedings if that evidence would otherwise be admissible in the contested case proceeding.

This rule is intended to implement Iowa Code chapter 17A.
[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—7.16(17A) Prehearing conference.

7.16(1) Upon the motion of the presiding officer, or upon the written request of a party, the presiding officer shall direct the parties to appear at a specified time and place before the presiding officer for a prehearing conference to consider:

- a.* The possibility or desirability of waiving any provisions of the Act relating to contested case proceedings by written stipulation representing an informed mutual consent;
- b.* The necessity or desirability of setting a new date for hearing;
- c.* The simplification of issues;
- d.* The necessity or desirability of amending the pleadings either for the purpose of clarification, amplification or limitation;
- e.* The possibility of agreeing to the admission of facts, documents or records not controverted, to avoid unnecessary introduction of proof;
- f.* The procedure at the hearing;
- g.* Limiting the number of witnesses;
- h.* The names and identification of witnesses and the facts each party will attempt to prove at the hearing;

- i.* Conduct or schedule of discovery; and
- j.* Such other matters as may aid, expedite or simplify the disposition of the proceeding.

7.16(2) Any action taken at the prehearing conference shall be recorded in an appropriate order, unless the parties enter upon a written stipulation as to such matters or agree to a statement thereof made on the record by the presiding officer.

7.16(3) When an order is issued at the termination of the prehearing conference, a reasonable time shall be allowed for the parties to present objections on the grounds that the order does not fully or correctly embody the agreements at such conference. Thereafter, the terms of the order or modification thereof shall determine the subsequent course of the proceedings relative to matters the order includes, unless modified to prevent manifest injustice.

7.16(4) If either party to the contested case proceeding fails to appear at the prehearing conference, fails to request a continuance, or fails to submit evidence or arguments which the party wishes to be considered in lieu of appearance, the opposing party may move for dismissal. The motion shall be made in accordance with subrule 7.17(5).

This rule is intended to implement Iowa Code section 17A.12.
[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—7.17(17A) Contested case proceedings.

7.17(1) Evidentiary hearing. Unless the parties to a contested case proceeding have, by written stipulation representing an informed mutual consent, waived the provisions of the Act relating to such proceedings, contested case proceedings shall be initiated and culminate in an evidentiary hearing open to the public.

a. Evidentiary hearings in which the presiding officer is an administrative law judge employed by the division of administrative hearings shall be held at the location designated in the notice of evidentiary hearing. Generally, the location for evidentiary hearings in such cases will be at the principal office of the Department of Inspections and Appeals, Administrative Hearings Division, Third Floor, Wallace State Office Building, Des Moines, Iowa 50319.

b. If the director retains a contested case, the location for the evidentiary hearing will generally be at the main office of the department at the Hoover State Office Building, Fourth Floor, Des Moines, Iowa 50309. However, the department retains the discretion to change the location of the evidentiary hearing if necessary. The location of the evidentiary hearing will be designated in the notice of hearing issued by the director.

7.17(2) Determination of presiding officer. If the director retains a contested case for evidentiary hearing and the department is a party, the initial presiding officer will be the director. If the department is not a party to the contested case retained by the director, the presiding officer may be the director or the director's designee. Upon determining that a case will be retained and not transferred to the division of administrative hearings, the director shall issue to the parties written notification of the determination which states the basis for retaining the case for evidentiary hearing.

a. The director may determine to retain a contested case for evidentiary hearing and decision upon the filing by the department of its answer under rule 701—7.12(17A). If the answer failed to allege that the case should be retained by the director and the case was transferred to the division of administrative hearings for contested case proceedings, either party may, within a reasonable time after the issuance of the hearing notice provided in rule 701—7.14(17A), make application to the director to recall and retain the case for hearing and decision. Any such application shall be served upon the assigned administrative law judge or presiding officer.

b. A protester may file a written objection to the director's determination to retain the case for evidentiary hearing and may request that the contested case be heard by an administrative law judge or presiding officer and request a hearing on the objection. Such an objection must be filed with the clerk of the hearings section within 20 days of the notice issued by the director of the director's determination to retain the case. The director may retain the case only upon a finding that one or more of the following apply:

- (1) There is a compelling need to expedite issuance of a final decision in order to protect the public health, safety and welfare;
- (2) A qualified administrative law judge is unavailable to hear the case within a reasonable time;
- (3) The case involves significant policy issues of first impression that are inextricably intertwined with the factual issues presented;
- (4) The demeanor of the witnesses is likely to be dispositive in resolving the disputed factual issues;
- (5) The case involves an issue or issues the resolution of which would create important precedent;
- (6) The case involves complex or extraordinary questions of law or fact;
- (7) The case involves issues or questions of law or fact that, based on the director's discretion, should be retained by the director;
- (8) Funds are unavailable to pay the costs of an administrative law judge and an interagency appeal;
- (9) The request was not timely filed;
- (10) The request is not consistent with a specified statute; and
- (11) Assignment of an administrative law judge will result in lengthening the time for issuance of a proposed decision, after the case is submitted, beyond a reasonable time as provided in subrule 7.17(8).

In making this determination, the director shall consider whether the assigned administrative law judge has a current backlog of submitted cases for which decisions have not been issued for one year after submission.

c. The director shall issue a written ruling specifying the grounds for the decision within 20 days after a request for an administrative law judge is filed. If a party objects to the director's determination to retain a case for evidentiary hearing, transfer of the protest file, if any, will be made after the director makes a final determination on the objection. If the ruling is contingent upon the availability of a qualified administrative law judge, the parties shall be notified at least ten days prior to the hearing whether a qualified administrative law judge will be available.

d. If there is no factual conflict or credibility of evidence offered in issue, either party, after the contested case has been heard and a proposed decision is pending with a presiding officer other than the director for at least one year, may make application to the director to transfer the case to the director for decision. In addition, if the aforementioned criteria exist, the director, on the director's own motion, may issue a notice to the parties of the director's intention to transfer the case to the director for decision. The opposing party may file, within 20 days after service of such application or notice by the director, a resistance setting forth in detail why the case should not be transferred. If the director approves the transfer of the case, the director shall issue a final contested case decision. The director or a party may request that the parties be allowed to submit proposed findings of fact and conclusions of law.

e. The director has the right to require that any presiding officer, other than the director, be a licensed attorney in the state of Iowa, unless the contested case only involves licensing. In addition, any presiding officer must possess, upon determination by the director, sufficient technical expertise and experience in the areas of taxation and presiding over proceedings to effectively determine the issues involved in the proceeding.

f. Except as provided otherwise by another provision of law, all rulings by an administrative law judge acting as presiding officer are subject to appeal to the director.

7.17(3) Conduct of proceedings.

a. A proceeding shall be conducted by a presiding officer who shall:

- (1) Open the record and receive appearances;
- (2) Administer oaths and issue subpoenas;
- (3) Enter the notice of hearing into the record;
- (4) Receive testimony and exhibits presented by the parties;
- (5) In the presiding officer's discretion, interrogate witnesses;
- (6) Rule on objections and motions;
- (7) Close the hearing; and
- (8) Issue an order containing findings of fact and conclusions of law.

b. The presiding officer may resolve preliminary procedural motions by telephone conference in which all parties have an opportunity to participate. Other telephone proceedings may be held with the

consent of all parties. The presiding officer will determine the location of the parties and witnesses for telephone hearing. The convenience of the witnesses or parties, as well as the nature of the case, will be considered when location is chosen. Parties shall be notified at least 30 days in advance of the date and place of the hearing.

c. Evidentiary proceedings shall be oral and open to the public and shall be recorded either by electronic means or by certified shorthand reporters. Parties requesting that the hearing be recorded by certified shorthand reporters shall bear the appropriate costs. The record of the oral proceedings or the transcription thereof shall be filed with and maintained by the department for at least five years from the date of the decision. An opportunity shall be afforded to the parties to respond and present evidence and argument on all issues involved and to be represented by counsel at their own expense. Unless otherwise directed by the presiding officer, evidence will be received in the following order: (1) protester, (2) intervenor (if applicable), (3) department, (4) rebuttal by protester, (5) oral argument by parties (if necessary).

d. If the protester or the department appears without counsel or other representative who can reasonably be expected to be familiar with these rules, the presiding officer shall explain to the parties the rules of practice and procedure and generally conduct a hearing in a less formal manner than that used when the parties have such representatives appearing upon the parties' behalf. It should be the purpose of the presiding officer to assist any party appearing without such representative to the extent necessary to allow the party to fairly present evidence, testimony, and arguments on the issues. The presiding officer shall take whatever steps may be necessary and proper to ensure that all evidence having probative value is presented and that each party is accorded a fair hearing.

e. If the parties have mutually agreed to waive the provisions of the Act in regard to contested case proceedings, the hearing will be conducted in a less formal manner than when an evidentiary hearing is conducted.

f. If a party fails to appear in a contested case proceeding after proper service of notice, the presiding officer may, upon the presiding officer's own motion or upon the motion of the party who has appeared, adjourn the hearing, enter a default decision, or proceed with the hearing and make a decision on the merits in the absence of the party.

g. Contemptuous conduct by any person appearing at a hearing shall be grounds for the person's exclusion from the hearing by the presiding officer.

h. A stipulation by the parties of the issues or a statement of the issues in the notice commencing the contested case cannot be changed by the presiding officer without the consent of the parties. The presiding officer shall not, on the presiding officer's own motion, change or modify the issues agreed upon by the parties. Notwithstanding the provisions of this paragraph, a party, within a reasonable time prior to the hearing, may request that a new issue be addressed in the proceedings, except that the request cannot be made after the parties have stipulated to the issues.

7.17(4) Rules of evidence. In evaluating evidence, the department's experience, technical competence, and specialized knowledge may be utilized.

a. *Oath.* All testimony presented before the presiding officer shall be given under oath, which the presiding officer has authority to administer.

b. *Production of evidence and testimony.* The presiding officer may issue subpoenas to a party on request, as permitted by law, compelling the attendance of witnesses and the production of books, papers, records, or other real evidence.

c. *Subpoena.* When a subpoena is desired after the commencement of a contested case proceeding, the proper party shall indicate to the presiding officer the name of the case, the docket number, and the last-known addresses of the witnesses to be called. If evidence other than oral testimony is required, each item to be produced must be adequately described. When properly prepared by the presiding officer, the subpoena will be returned to the requesting party for service. Service may be made in any manner allowed by law before the hearing date of the case which the witness is required to attend. No costs for serving a subpoena will be allowed if the subpoena is served by any person other than the sheriff. Subpoenas requested for discovery purposes shall be issued by the presiding officer.

d. *Admissibility of evidence.*

(1) Evidence having probative value. Although the presiding officer is not bound to follow the technical common law rules of evidence, a finding shall be based upon the kind of evidence on which reasonably prudent persons are accustomed to rely for the conduct of their serious affairs, and may be based upon such evidence even if it would be inadmissible in a jury trial. Therefore, the presiding officer may admit and give probative effect to evidence on which reasonably prudent persons are accustomed to rely for the conduct of their serious affairs. Irrelevant, immaterial, or unduly repetitious evidence shall be excluded. The presiding officer shall give effect to the rules of privilege recognized by law. Evidence not provided to a requesting party through discovery shall not be admissible at the hearing. Subject to these requirements, when a hearing will be expedited and the interests of the parties will not be prejudiced, substantially any part of the evidence may be required to be submitted in verified written form by the presiding officer.

Objections to evidentiary offers may be made at the hearing, and the presiding officer's ruling thereon shall be noted in the record.

(2) Evidence of a federal determination. Evidence of a federal determination such as a treasury department ruling, regulation or determination letter, a federal court decision or an Internal Revenue Service assessment relating to issues raised in the proceeding shall be admissible, and the protester shall be presumed to have conceded the accuracy of the federal determination unless the protester specifically states wherein it is erroneous.

(3) Copies of evidence. A copy of any book, record, paper or document may be offered directly in evidence in lieu of the original, if the original is not readily available or if there is no objection. Upon request, the parties shall be given an opportunity to compare the copy with the original, if available.

(4) Stipulations. Approval of the presiding officer is not required for stipulations of the parties to be used in contested case proceedings. In the event the parties file a stipulation in the proceedings, the stipulation shall be binding on the parties and the presiding officer.

e. Exhibits.

(1) Identification of exhibits. Exhibits which are offered by protesters and attached to a stipulation or entered in evidence shall be numbered serially, i.e., 1, 2, 3, etc.; whereas, exhibits offered by the department shall be lettered serially, i.e., A, B, C, etc.; and those offered jointly shall be numbered and lettered, i.e., 1-A, 2-B, 3-C, etc.

(2) Disposition of exhibits. After an order has become final, either party desiring the return, at the party's expense, of any exhibit belonging to the party shall make application in writing to the clerk of the hearings section within 30 days suggesting a practical manner of delivery; otherwise, exhibits may be disposed of as the clerk of the hearings section deems advisable.

f. Official notice. The presiding officer may take official notice of all facts of which judicial notice may be taken. Parties shall be notified at the earliest practicable time, either before or during the hearing, or by reference in preliminary reports, preliminary decisions or otherwise, of the facts proposed to be noticed and their source, including any staff memoranda or data. The parties shall be afforded an opportunity to contest such facts prior to the issuance of the decision in the contested case proceeding unless the presiding officer determines as a part of the record or decision that fairness to the parties does not require an opportunity to contest such facts.

g. Evidence outside the record. Except as provided by these rules, the presiding officer shall not consider factual information or evidence in the determination of any proceeding unless the same shall have been offered and made a part of the record in the proceeding.

h. Presentation of evidence and testimony. In any hearing, each party thereto shall have the right to present evidence and testimony of witnesses and to cross-examine any witness who testifies on behalf of an adverse party. A person whose testimony has been submitted in written form shall, if available, also be subject to cross-examination by an adverse party. Opportunity shall be afforded each party for re-direct examination and re-cross-examination and to present evidence and testimony as rebuttal to evidence presented by another party, except that unduly repetitious evidence shall be excluded.

i. Offer of proof. An offer of proof may be made through the witness or by statement of counsel. The party objecting may cross-examine the witness without waiving any objection.

7.17(5) Motions.

a. After commencement of contested case proceedings, appropriate motions may be filed by any party with the presiding officer when facts requiring such motion come to the knowledge of the party. All motions shall state the relief sought and the grounds upon which the motions are based.

b. Motions made prior to a hearing shall be in writing and a copy thereof served on all parties and attorneys of record. Such motions shall be ruled on by the presiding officer. The presiding officer shall rule on the motion by issuing an order. A copy of the order containing the ruling on the motion shall be mailed to the parties and authorized representatives. A motion may be made orally during the course of a hearing; however, the presiding officer may request that the motion be reduced to writing and filed with the presiding officer.

c. To avoid a hearing on a motion, it is advisable to secure the consent of the opposing party prior to filing the motion. If consent of the opposing party to the motion is not obtained, a hearing on the motion may be scheduled and the parties notified. The burden will be on the party filing the motion to show good cause why the motion should be granted.

d. The party making the motion may affix thereto such affidavits as are deemed essential to the disposition of the motion, which shall be served with the motion and to which the opposing party may reply with counter affidavits.

e. Types of motions. Types of motions include, but are not limited to:

(1) Motion for continuance. Motions for continuance should be filed no later than ten days before the scheduled date of the contested case hearing unless the grounds for the motion are first known to the moving party within ten days of the hearing, in which case the motion shall be promptly filed and shall set forth why it could not be filed at least ten days prior to the hearing. Grounds for motion for continuance include, but are not limited to, the unavailability of a party, a party's representative or a witness, the incompleteness of discovery, and the possibility of settlement of the case.

(2) Motion for dismissal.

(3) Motion for summary judgment.

(4) Motion to delete identifying details in the decision.

(5) Motion for default.

(6) Motion to vacate default.

f. Hearing on motions. Motions subsequent to the commencement of a contested case proceeding shall be determined by the presiding officer.

g. Summary judgment procedure. Summary judgment may be obtained under the following conditions and circumstances:

(1) A party may, after a reasonable time to complete discovery, after completion of discovery, or by agreement of the parties, move, with or without supporting affidavits, for a summary judgment in the party's favor upon all or any part of a party's claim or defense.

(2) The motion shall be filed not less than 45 days prior to the date the case is set for hearing, unless otherwise ordered by the presiding officer. Any party resisting the motion shall file within 30 days from the time of service of the motion a resistance; statement of disputed facts, if any; and memorandum of authorities supporting the resistance. If affidavits supporting the resistance are filed, they must be filed with the resistance. The time fixed for hearing or normal submission on the motion shall be not less than 35 days after the filing of the motion, unless another time is ordered by the presiding officer. The judgment sought shall be rendered forthwith if the pleadings, depositions, answers to interrogatories, and admissions on file, together with the affidavits, if any, show that there is no genuine issue as to any material fact and that the moving party is entitled to a judgment as a matter of law.

(3) Upon any motion for summary judgment pursuant to this rule, there shall be affixed to the motion a separate, short, and concise statement of the material facts as to which the moving party contends there is no genuine issue to be tried, including specific reference to those parts of the pleadings, depositions, answers to interrogatories, admissions on file, and affidavits which support such contentions and a memorandum of authorities.

(4) Supporting and opposing affidavits shall set forth such facts as would be admissible in evidence and shall show affirmatively that the affiant is competent to testify to the matters stated therein.

The presiding officer may permit affidavits to be supplemented or opposed by depositions, answers to interrogatories, further affidavits, or oral testimony. When a motion for summary judgment is made and supported as provided in this rule, an adverse party may not rest upon the mere allegations or denials of the party's pleading, but the party's response must set forth specific facts, by affidavits or as otherwise provided in this rule, showing that there is a genuine issue for hearing. If the party does not so respond, summary judgment, if appropriate, shall be entered against the party.

(5) If, on motion under this rule, judgment is not rendered upon the whole case or for all the relief asked and a hearing is necessary, the presiding officer at the hearing of the motion, by examining the pleadings and the evidence before the presiding officer and by interrogating counsel, shall, if practicable, ascertain what material facts exist without substantial controversy and what material facts are actually, and in good faith, controverted. The presiding officer shall thereupon make an order specifying the facts that appear without substantial controversy, including the extent to which the amount or other relief is not in controversy, and directing such further proceedings in the action as are just. Upon the hearing of the contested case, the facts so specified shall be deemed established, and the hearing shall be conducted accordingly.

(6) Should it appear from the affidavits of a party opposing the motion that the party cannot for reasons stated present, by affidavit, facts essential to justify the party's opposition, the presiding officer may refuse the application for judgment, may order a continuance to permit affidavits to be obtained, may order depositions be taken or discovery be completed, or may make any other order appropriate.

(7) An order on summary judgment that disposes of less than the entire case is appealable to the director at the same time that the proposed order is appealable pursuant to subrule 7.17(8).

7.17(6) Briefs and oral argument.

a. At any time, upon the request of any party or in the presiding officer's discretion, the presiding officer may require the filing of briefs on any of the issues before the presiding officer prior to or at the time of hearing, or at a subsequent time. At the hearing, the parties should be prepared to make oral arguments as to the facts and law at the conclusion of the hearing if the presiding officer so directs.

b. An original copy only of all briefs shall be filed. Filed briefs shall conform to the requirements of rule 701—7.5(17A).

c. If the parties agree on a schedule for submission of briefs, the schedule shall be binding on the parties and the presiding officer except that, for good cause shown, the time may be extended upon application of a party.

7.17(7) Defaults. If a party fails to appear or participate in a contested case proceeding after proper service of notice, the presiding officer may, if no adjournment is granted, enter a default decision or proceed with the hearing and render a decision in the absence of the party.

a. Where appropriate and not contrary to law, any party may move for default against a party who has failed to file a required pleading or has failed to appear after proper service.

b. A default decision or a decision rendered on the merits after a party failed to appear or participate in a contested case proceeding becomes a final department action unless, within 15 days after the date of notification or mailing of the decision, a motion to vacate is filed and served on all parties or an appeal of a decision on the merits is timely initiated within the time provided in subrule 7.17(8). A motion to vacate must state all facts relied upon by the moving party which establish that good cause existed for that party's failure to appear or participate at the contested case proceeding. Each fact so stated must be substantiated by at least one sworn affidavit of a person with personal knowledge of each such fact, and such affidavit(s) must be attached to the motion.

c. The time for further appeal of a decision for which a timely motion to vacate has been filed is stayed pending a decision on the motion to vacate.

d. Properly substantiated and timely filed motions to vacate shall be granted only for good cause shown. The burden of proof as to good cause is on the moving party. Adverse parties shall have ten days to respond to a motion to vacate. Adverse parties shall be allowed to conduct discovery as to the issue of good cause and to present evidence on the issue prior to a decision on the motion, if a request to do so is included in that party's response.

e. “Good cause” for purposes of this rule shall have the same meaning as “good cause” as interpreted in the case of *Purethane, Inc. v. Iowa State Board of Tax Review*, 498 N.W.2d 706 (Iowa 1993).

f. A decision denying a motion to vacate is subject to further appeal within the time limit allowed for further appeal of a decision on the merits in the contested case proceeding. A decision granting a motion to vacate is subject to interlocutory appeal by the adverse party as provided in subrule 7.17(13).

g. If a motion to vacate is granted and no timely interlocutory appeal has been taken, the presiding officer shall issue another notice of hearing and the contested case shall proceed accordingly.

h. A default decision may award any relief consistent with the request for relief by the party in whose favor the default decision is made and embraced in the contested case issues; but unless the defaulting party has appeared, the relief awarded cannot exceed the relief demanded.

i. A default decision may provide either that the default decision is to be stayed pending a timely motion to vacate or that the default decision is to take effect immediately, subject to a request for a stay.

7.17(8) Orders.

a. At the conclusion of the hearing, the presiding officer, in the presiding officer’s discretion, may request the parties to submit proposed findings of fact and conclusions of law. Upon the request of any party, the presiding officer shall allow the parties an opportunity to submit proposed findings of fact and conclusions of law. In addition to or in lieu of the filing of briefs, upon the request of all of the parties waiving any contrary contested case provisions of law or of these rules, the presiding officer shall allow the parties to submit proposed findings of fact and conclusions of law, and the presiding officer may sign and adopt as the decision or proposed decision one of such proposed findings of fact and conclusions of law without any changes.

b. The decision in a contested case is an order which shall be in writing or stated in the record. The order shall include findings of fact prepared by the person presiding at the hearing, unless the person is unavailable, and based solely on the evidence in the record and on matters officially noticed in the record, and shall include conclusions of law. The findings of fact and conclusions of law shall be separately stated. If a party has submitted proposed findings of fact, the order shall include a ruling upon each proposed finding. Each conclusion of law shall be supported by cited authority or by a reasoned opinion. The decision must include an explanation of why the relevant evidence in the record supports each material finding of fact. If the issue of reasonable litigation costs was held in abeyance pending the outcome of the substantive issues in the contested case and the proposed order decides substantive issues in favor of the protester, the proposed order shall include a notice of time and place for a hearing on the issue of whether reasonable litigation costs shall be awarded and on the issue of the amount of such award, unless the parties agree otherwise. All decisions and orders in a contested case proceeding shall be based solely on the legal bases and arguments presented by the parties. In the event that the presiding officer believes that a legal basis or argument for a decision or order exists, but has not been presented by the parties, the presiding officer shall notify the parties and give them an opportunity to file a brief that addresses such legal basis or argument.

c. When a motion has been made to delete identifying details in an order on the basis of personal privacy or trade secrets, the justification for such deletion or refusal to delete shall be made by the moving party and shall appear in the order.

d. When the director initially presides at a hearing or considers decisions on appeal from or review of a proposed decision by the presiding officer other than the director, the order becomes the final order of the department for purposes of judicial review or rehearing unless there is an appeal to or review on motion of a second agency within the time provided by statute or rule. When a presiding officer other than the director presides at the hearing, the order becomes the final order of the department for purposes of judicial review or rehearing unless there is an appeal to or review on motion of the director within 30 days of the date of the order, including Saturdays, Sundays, and legal holidays, or 10 days, excluding Saturdays, Sundays, and legal holidays, for a revocation order pursuant to rule 701—7.23(17A). However, if the contested case proceeding involves a question of an award of reasonable litigation costs, the proposed order on the substantive issues shall not be appealable to or reviewable by the director on the director’s motion until the issuance of a proposed order on the

reasonable litigation costs. If there is no such appeal or review within 30 days or 10 days, whichever is applicable, from the date of the proposed order on reasonable litigation costs, both the proposed order on the substantive issues and the proposed order on the reasonable litigation costs become the final orders of the department for purposes of judicial review or rehearing. On an appeal from, review of, or application for rehearing concerning the presiding officer's order, the director has all the power which the director would initially have had in making the decision; however, the director will consider only those issues or selected issues presented at the hearing before the presiding officer or any issues of fact or law raised independently by the presiding officer, including the propriety of and the authority for raising issues. The parties will be notified of those issues which will be considered by the director.

e. Notwithstanding the provisions of this rule, where a presiding officer other than the director issues an interlocutory decision or ruling which does not dispose of all the issues, except reasonable litigation costs, in the contested case proceeding, the party adversely affected by the interlocutory decision or ruling may apply to the director within 20 days (10 days for a revocation proceeding) of the date of issuance of the interlocutory decision or ruling to grant an appeal in advance of the proposed decision. The application shall be served on the parties and the presiding officer. The party opposing the application shall file any resistance within 15 days of the service of the application unless, for good cause, the director extends the time for such filing. The director, in the exercise of discretion, may grant the application on finding that such interlocutory decision or ruling involves substantial rights and will materially affect the proposed decision and that a determination of its correctness before hearing on the merits will better serve the interests of justice. The order of the director granting the appeal may be on terms setting forth the course of proceedings on appeal, including advancing the appeal for prompt submission, and the order shall stay further proceedings below. The presiding officer, at the request of the director, shall promptly forward to the director all or a portion of the file or record in the contested case proceeding.

f. In the event of an appeal to or review of the proposed order by the director, the administrative hearings division shall be promptly notified of the appeal or review by the director. The administrative hearings division shall, upon such notice, promptly forward the record of the contested case proceeding and all other papers associated with the case to the director.

g. A decision by the director may reverse or modify any finding of fact if a preponderance of the evidence will support a determination to reverse or modify such a finding of fact, or may reverse or modify any conclusion of law that the director finds to be in error.

h. Orders will be issued within a reasonable time after termination of the hearing. Parties shall be promptly notified of each order by delivery to them of a copy of the order by personal service, regular mail, certified mail, return receipt requested, or any other method to which the parties may agree. For example, a copy of the order can be submitted by electronic mail if both parties agree.

i. A cross-appeal may be taken within the 30-day period for taking an appeal to the director or in any event within 5 days after the appeal to the director is taken. If a cross-appeal is taken from a revocation order pursuant to rule 701—7.23(17A), the cross-appeal may be taken within the 10-day period for taking an appeal to the director or in any event within 5 days after the appeal to the director is taken.

j. Upon issuance of a closing order or the proposed decision by a presiding officer other than the director, such presiding officer no longer has jurisdiction over the contested case. Thereafter, any further proceedings associated with or related to the contested case must occur before the director.

7.17(9) Stays.

a. During the pendency of judicial review of the final contested case order of the department, the party seeking judicial review may file with the director an application for a stay. The application shall set forth in detail the reasons why the applicant is entitled to a stay and shall specifically address the following four factors:

- (1) The extent to which the applicant is likely to prevail when the court finally disposes of the matter;
- (2) The extent to which the applicant will suffer irreparable injury if the stay is not granted;

(3) The extent to which the granting of a stay to the applicant will substantially harm the other parties to the proceedings; and

(4) The extent to which the public interest relied on by the department is sufficient to justify the department's actions in the circumstances.

b. The director shall consider and balance the previously mentioned four factors and may consult with department personnel and the department's representatives in the judicial review proceeding. The director shall expeditiously grant or deny the stay.

7.17(10) Expedited cases—when applicable. In case a protest is filed where the case is not of precedential value and the parties desire a prompt resolution of the dispute, the department and the protester may agree to have the case designated as an expedited case.

a. Agreement. The department and the protester shall execute an agreement to have the case treated as an expedited case. In this case, discovery is waived. The provisions of this agreement shall constitute a waiver of the rights set forth in Iowa Code chapter 17A for contested case proceedings. Within 30 days of written notice to the clerk of the hearings section sent by the parties stating that an agreement to expedite the case has been executed, the clerk of the hearings section must transfer the protest file to the division of administrative hearings.

b. Finality of decision. A decision entered in an expedited case proceeding shall not be reviewed by the director, state board of tax review, or any other court, and shall not be treated as a precedent for any other case.

c. Discontinuance of proceedings. Any time prior to a decision's being rendered, the taxpayer or the department may request that expedited case proceedings be discontinued if there are reasonable grounds to believe that the issues in dispute would be of precedential value.

d. Procedure. Upon return of an executed agreement for this procedure, the department shall within 14 days file its answer to the protest. The case shall be docketed for hearing as promptly as the presiding officer can reasonably hear the matter.

7.17(11) Burden of proof. The burden of proof with respect to assessments or denials of refunds in contested case proceedings is as follows:

a. The department must carry the burden of proof by clear and convincing evidence as to the issue of fraud with intent to evade tax.

b. The burden of proof is on the department for any tax periods for which the assessment was not made within six years after the return became due, excluding any extension of time for filing such return, except where the department's assessment is the result of the final disposition of a matter between the taxpayer and the Internal Revenue Service or where the taxpayer and the department signed a waiver of the statute of limitations to assess.

c. The burden of proof is on the department as to any new matter or affirmative defense raised by the department. "New matter" means an adjustment not set forth in the computation of the tax in the assessment or refund denial, as distinguished from a new reason for the assessment or refund denial. "Affirmative defense" is a defense resting on facts not necessary to support the taxpayer's case.

d. In all instances where the burden of proof is not expressly placed upon the department by this subrule, the burden of proof is upon the protester.

7.17(12) Costs.

a. A prevailing taxpayer in a contested case proceeding related to the determination, collection, or refund of a tax, penalty, or interest may be awarded by the department reasonable litigation costs incurred subsequent to the issuance of the notice of assessment or refund denial that are based upon the following:

(1) The reasonable expenses of expert witnesses.

(2) The reasonable costs of studies, reports, and tests.

(3) The reasonable fees of independent attorneys or independent accountants retained by the taxpayer. No such award is authorized for accountants or attorneys who represent themselves or who are employees of the taxpayer.

b. An award for reasonable litigation costs shall not exceed \$25,000 per case.

c. No award shall be made for any portion of the proceeding which has been unreasonably protracted by the taxpayer.

d. For purposes of this subrule, “prevailing taxpayer” means a taxpayer who establishes that the position of the department in the contested case proceeding was not substantially justified and who has substantially prevailed with respect to the amount in controversy, or has substantially prevailed with respect to the most significant issue or set of issues presented. If the position of the department in issuance of the assessment or refund denial was not substantially justified and if the matter is resolved or conceded before the contested case proceeding is commenced, there cannot be an award for reasonable litigation costs.

e. The definition of “prevailing taxpayer” is taken from the definition of “prevailing party” in 26 U.S.C. §7430. Therefore, federal cases determining whether the Internal Revenue Service’s position was substantially justified will be considered in the determination of whether a taxpayer is entitled to an award of reasonable litigation costs to the extent that 26 U.S.C. §7430 is consistent with Iowa Code section 421.60(4).

f. The taxpayer has the burden of establishing the unreasonableness of the department’s position.

g. Once a contested case has commenced, a concession by the department of its position or a settlement of the case either prior to the evidentiary hearing or any order issued does not, per se, either authorize an award of reasonable litigation costs or preclude such award.

h. If the department relied upon information provided or action conducted by federal, state, or local officials or law enforcement agencies with respect to the tax imposed by Iowa Code chapter 453B, an award for reasonable litigation costs shall not be made in a contested case proceeding involving the determination, collection, or refund of that tax.

i. The taxpayer who seeks an award of reasonable litigation costs must specifically request such award in the protest, or the request for award will not be considered.

j. A request for an award of reasonable litigation costs shall be held in abeyance until the concession or settlement of the contested case proceeding, or the issuance of a proposed order in the contested case proceeding, unless the parties agree otherwise.

k. At the hearing held for the purpose of deciding whether an award for reasonable litigation costs should be awarded, consideration shall be given to the following points:

- (1) Whether the department’s position was substantially justified;
- (2) Whether the protester is the prevailing taxpayer;
- (3) The burden is upon the protester to establish how the alleged reasonable litigation costs were incurred. This requires a detailed accounting of the nature of each cost, the amount of each cost, and to whom the cost was paid or owed;
- (4) Whether alleged litigation costs are reasonable or necessary;
- (5) Whether the protester has met the protester’s burden of demonstrating all of these points.

7.17(13) Interlocutory appeals.

a. Upon written request of a party or on the director’s own motion, the director may review an interlocutory order of the presiding officer. In determining whether to do so, the director shall weigh the extent to which granting the interlocutory appeal would expedite final resolution of the case and the extent to which review of that interlocutory order by the director at the time of the review of the proposed decision of the presiding officer would provide an adequate remedy. Any request for interlocutory review must be filed within 14 days of issuance of the challenged order, but no later than the time for compliance with the order or the date of hearing, whichever is first.

b. Interlocutory appeals do not apply to licensing.

7.17(14) Consolidation and severance.

a. Consolidation. The presiding officer may consolidate any or all matters at issue in two or more contested case proceedings where:

- (1) The matters at issue involve common parties or common questions of fact or law;
- (2) Consolidation would expedite and simplify consideration of the issues involved; and
- (3) Consolidation would not adversely affect the rights of any of the parties to those proceedings.

b. Severance. The presiding officer may, for good cause shown, order any contested case proceedings or portions thereof severed.

c. Since stipulations are encouraged, it is expected and anticipated that the parties proceeding to a hearing will stipulate to evidence to the fullest extent to which complete or qualified agreement can be reached including all material facts that are not, or should not be, fairly in dispute.

d. Without the necessity of proceeding to an evidentiary hearing in a contested case, the parties may agree in writing to informally dispose of the case by stipulation, agreed settlement, or consent order or by another method agreed upon. If such informal disposition is utilized, the parties shall so indicate to the presiding officer that the case has been settled. Upon request, the presiding officer shall issue a closing order to reflect such a disposition. The contested case is terminated upon issuance of a closing order.

e. Unless otherwise precluded by law, the parties in a contested case proceeding may mutually agree to waive any provision under this rule governing contested case proceedings.

This rule is intended to implement Iowa Code sections 17A.12, 17A.14, 17A.15, 421.60 and 452A.68.

[ARC 0251C, IAB 8/8/12, effective 9/12/12; ARC 1303C, IAB 2/5/14, effective 3/12/14]

701—7.18(17A) Interventions. Interventions shall be governed by the Iowa rules of civil procedure.

This rule is intended to implement Iowa Code chapter 17A.

[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—7.19(17A) Record and transcript.

7.19(1) The record in a contested case shall include:

- a.* All pleadings, motions and rulings;
- b.* All evidence received or considered and all other submissions;
- c.* A statement of all matters officially noticed;
- d.* All questions and offers of proof, objections, and rulings thereon;
- e.* All proposed findings and exceptions;
- f.* All orders of the presiding officer; and
- g.* The order of the director on appeal or review.

7.19(2) Oral hearings regarding proceedings on appeal to or considered on motion of the director which are recorded by electronic means shall not be transcribed for the record of such appeal or review unless a party, by written notice, or the director, orally or in writing, requests such transcription. Such a request must be filed with the clerk of the hearings section who will be responsible for making the transcript. A transcription will be made only of that portion of the oral hearing relevant to the appeal or review, if so requested and if no objection is made by any other party to the proceeding or the director. Upon request, the department shall provide a copy of the whole record or any portion of the record at cost. The cost of preparing a copy of the record or of transcribing the hearing record shall be paid by the requesting party.

7.19(3) Parties who request that a hearing be recorded by certified shorthand reporters rather than by electronic means shall bear the cost of that recordation, unless otherwise provided by law.

7.19(4) Upon issuance of a proposed decision which leaves no issues open for further consideration or upon issuance of a closing order, the administrative hearings division shall promptly forward the record of a contested case proceeding to the director. However, the administrative hearings division may keep the tapes of any evidentiary proceeding in case a transcript of the proceeding is required and, if one is required, the administrative hearings division shall make the transcription and promptly forward the tapes and the transcription to the director.

This rule is intended to implement Iowa Code section 17A.12.

[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—7.20(17A) Application for rehearing. Any party to a contested case may file an application with the director for a rehearing in the contested case, stating the specific grounds therefor and the relief sought. The application must be filed within 20 days after the final order is issued. See subrule 7.17(8)

as to when a proposed order becomes a final order. A copy of such application shall be timely mailed by the applicant to all parties in conformity with rule 701—7.21(17A). The director shall have 20 days from the filing of the application for rehearing to grant or deny the application. If the application for rehearing is granted, a notice will be served on the parties stating the time and place of the rehearing. An application for rehearing shall be deemed denied if not granted by the director within 20 days after filing.

7.20(1) The application for rehearing shall contain a caption in the following form:

BEFORE THE DEPARTMENT OF REVENUE
HOOVER STATE OFFICE BUILDING
DES MOINES, IOWA

IN THE MATTER OF _____	*	
(state taxpayer's name and address and	*	APPLICATION FOR REHEARING
designate type of proceeding, e.g., income tax	*	Docket No. _____
refund claim)	*	
	*	

7.20(2) The application for rehearing shall substantially state in separate numbered paragraphs the following:

- a. Clear and concise statements of the reasons for requesting a rehearing and each and every error which the party alleges to have been committed during the contested case proceedings;
- b. Clear and concise statements of all relevant facts upon which the party relies;
- c. Reference to any particular statute or statutes and any rule or rules involved;
- d. The signature of the party or that of the party's representative, the address of the party or of the party's representative, and the telephone number of the party or the party's representative.

7.20(3) No applications for rehearing shall be filed with or entertained by an administrative law judge.

This rule is intended to implement Iowa Code section 17A.16.
[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—7.21(17A) Service. All papers or documents required by this chapter to be filed with the department or the presiding officer and served upon the opposing party or other person shall be served by ordinary mail unless another rule specifically refers to another method. All notices required by this chapter to be served on parties or persons by the department or presiding officer shall be served by ordinary mail unless another rule specifically refers to another method.

This rule is intended to implement Iowa Code chapter 17A.
[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—7.22(17A) Ex parte communications and disqualification.

7.22(1) Ex parte communication. A party that has knowledge of a prohibited communication by any party or presiding officer should file a copy of the written prohibited communication or a written summary of the prohibited oral communication with the clerk of the hearings section. The clerk of the hearings section will transfer to the presiding officer the filed copy of the prohibited communication.

a. *Prohibited communications.* Unless required for the disposition of ex parte matters specifically authorized by statute, following issuance of the notice of hearing, there shall be no communication, directly or indirectly, between the presiding officer and any party or representative of any party or any other person with a direct or indirect interest in such case in connection with any issue of fact or law in the case except upon notice and opportunity for all parties to participate. This does not prohibit persons jointly assigned such tasks from communicating with each other. Nothing in this provision is intended to preclude the presiding officer from communicating with members of the department or seeking the advice or help of persons other than those with a personal interest in, or those engaged in personally investigating as defined in this rule, prosecuting, or advocating in, either the case under consideration

or a pending factually related case involving the same parties as long as those persons do not directly or indirectly communicate to the presiding officer any ex parte communications they have received of a type that the presiding officer would be prohibited from receiving or that furnish, augment, diminish, or modify the evidence in the record. Prohibitions on ex parte communications commence with the issuance of the notice of hearing in a contested case and continue for as long as the case is pending.

b. "Ex parte" communication defined. Written, oral or other forms of communication are "ex parte" if made without notice and opportunity for all parties to participate.

c. How to avoid prohibited communications. To avoid prohibited ex parte communications, notice must be given in a manner reasonably calculated to give all parties a fair opportunity to participate. Notice of written communications shall be provided in compliance with this chapter and may be supplemented by telephone, facsimile, electronic mail or other means of notification. Where permitted, oral communications may be initiated through conference telephone calls including all parties or their representatives.

d. Joint presiding officers. Persons who jointly act as presiding officer in a pending contested case may communicate with each other without notice or opportunity for parties to participate.

e. Advice to presiding officer. Persons may be present in deliberations or otherwise advise the presiding officer without notice or opportunity for parties to participate as long as the parties are not disqualified from participating in the making of a proposed or final decision under any provision of law and the parties comply with these rules.

f. Procedural communications. Communications with the presiding officer involving uncontested scheduling or procedural matters do not require notice or opportunity for parties to participate. Parties should notify other parties prior to initiating such contact with the presiding officer when feasible and shall notify other parties when seeking to continue hearings or other deadlines.

g. Disclosure of prohibited communications. A presiding officer who receives a prohibited ex parte communication during the pendency of a contested case must initially determine if the effect of the communication is so prejudicial that the presiding officer should be disqualified. If the presiding officer determines that disqualification is warranted, a copy of any prohibited written communication, all written responses to the communication, a written summary stating the substance of any prohibited oral or other communication not available in written form for disclosure, all responses made, and the identity of each person from whom the presiding officer received a prohibited ex parte communication, shall be submitted for inclusion in the record under seal by protective order. If the presiding officer determines that disqualification is not warranted, such documents shall be submitted for inclusion in the record and served on all parties. Any party desiring to rebut the prohibited communication must be allowed the opportunity to do so upon written request filed within ten days after notice of the communication.

h. Disclosure by presiding officer. Promptly after being assigned to serve as presiding officer at any stage in a contested case proceeding, a presiding officer shall disclose to all parties material factual information received through ex parte communication prior to such assignment unless the factual information has already been or shortly will be disclosed pursuant to Iowa Code section 17A.13(2) or through discovery. Factual information contained in an investigative report or similar document need not be separately disclosed by the presiding officer as long as such documents have been or will shortly be provided to the parties.

i. Sanction. The presiding officer may render a proposed or final decision imposing appropriate sanctions for violations of this rule, including default, a decision against the offending party, censure, suspension, or revocation of the privilege to practice before the department or the administrative hearings division. Violation of ex parte communication prohibitions by department personnel or their representatives shall be reported to the clerk of the hearings section for possible sanctions including censure, suspension, dismissal, or other disciplinary action.

7.22(2) Disqualification of a presiding officer. Request for disqualification of a presiding officer must be filed in the form of a motion supported by an affidavit asserting an appropriate ground for disqualification. A substitute presiding officer may be appointed by the division of administrative hearings if the disqualified presiding officer is an administrative law judge. If the disqualified presiding officer is the director, the governor must appoint a substitute presiding officer.

a. Grounds for disqualification. A presiding officer or other person shall withdraw from participation in the making of any proposed or final decision in a contested case if that person:

- (1) Has a personal bias or prejudice concerning a party or a representative of a party;
- (2) Has personally investigated, prosecuted or advocated in connection with that case the specific controversy underlying that case, another pending factually related contested case, or a pending factually related controversy that may culminate in a contested case involving the same parties;
- (3) Is subject to the authority, direction or discretion of any person who has personally investigated, prosecuted or advocated in connection with that contested case the specific controversy underlying that contested case or a pending factually related contested case or controversy involving the same parties;
- (4) Has acted as counsel to any person who is a private party to that proceeding within the past two years;
- (5) Has a personal financial interest in the outcome of the case or any other significant personal interest that could be substantially affected by the outcome of the case;
- (6) Has a spouse or relative within the third degree of relationship that:
 1. Is a party to the case or an officer, director or trustee of a party to the case;
 2. Is a lawyer in the case;
 3. Is known to have an interest that could be substantially affected by the outcome of the case; or
 4. Is likely to be a material witness in the case; or
- (7) Has any other legally sufficient cause to withdraw from participation in the decision making in that case.

b. “Personally investigated” means taking affirmative steps to interview witnesses directly or to obtain documents or other information directly. The term “personally investigated” does not include general direction and supervision of assigned investigators, unsolicited receipt of information which is relayed to assigned investigators, review of another person’s investigative work product in the course of determining whether there is probable cause to initiate a proceeding, or exposure to factual information while performing other department functions, including fact gathering for purposes other than investigation of the matter which culminates in a contested case. Factual information relevant to the merits of a contested case received by a person who later serves as presiding officer in that case shall be disclosed if required by Iowa Code section 17A.17 and these rules.

c. Disqualification and the record. In a situation where a presiding officer or other person knows of information which might reasonably be deemed to be a basis for disqualification and decides voluntary withdrawal is unnecessary, that person shall submit the relevant information for the record by affidavit and shall provide for the record a statement of the reasons for the determination that withdrawal is unnecessary.

d. Motion asserting disqualification.

(1) If a party asserts disqualification on any appropriate ground, the party shall file a motion supported by an affidavit pursuant to Iowa Code section 17A.17. The motion must be filed as soon as practicable after the reason alleged in the motion becomes known to the party. If, during the course of the hearing, a party first becomes aware of evidence of bias or other grounds for disqualification, the party may move for disqualification but must establish the grounds by the introduction of evidence into the record.

(2) If the presiding officer determines that disqualification is appropriate, the presiding officer or other person shall withdraw. If the presiding officer determines that withdrawal is not required, the presiding officer shall enter an order to that effect. A party asserting disqualification may seek an interlocutory appeal and seek a stay as provided under this chapter.

This rule is intended to implement Iowa Code section 17A.17.
[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—7.23(17A) Licenses.

7.23(1) *Denial of license; refusal to renew license.*

a. When the department is required by constitution or statute to provide notice and an opportunity for an evidentiary hearing prior to the refusal or denial of a license, a notice, as prescribed in rule

701—7.14(17A), shall be served by the department upon the licensee or applicant. Prior to the refusal or denial of a license, the department shall give 30 days’ written notice to the applicant or licensee in which to appear at a hearing to show cause why a license should not be refused or denied. In addition to the requirements of rule 701—7.14(17A), the notice shall contain a statement of facts or conduct and the provisions of law which warrant the denial of the license or the refusal to renew a license. If the licensee so desires, the licensee may file a petition as provided in subrule 7.23(3) with the presiding officer within 30 days prior to the hearing. The department may, in its discretion, file an answer to a petition filed by the licensee prior to the hearing. Thereafter, rule 701—7.17(17A) governing contested case proceedings shall apply.

b. When a licensee has made timely and sufficient application for the renewal of a license or a new license with reference to any activity of a continuing nature, the existing license does not expire until the application has been finally determined by the department, and in case the application is denied or the terms of the new license limited, until the last date for seeking judicial review of the department’s order or a later date fixed by order of the department or the reviewing court. See rule 481—100.2(99B) regarding gambling license applications.

7.23(2) Revocation of license.

a. The department shall not revoke, suspend, annul or withdraw any license until written notice is served by personal service or restricted certified mail pursuant to rule 701—7.14(17A) within the time prescribed by the applicable statute and the licensee whose license is to be revoked, suspended, annulled, or withdrawn, is given an opportunity to show at an evidentiary hearing conducted pursuant to rule 701—7.17(17A) compliance with all lawful requirements for the retention of the license. However, in the case of the revocation, suspension, annulment, or withdrawal of a sales or use tax permit, written notice will be served pursuant to rule 701—7.14(17A) only if the permit holder requests that this be done following notification, by ordinary mail, of the director’s intent to revoke, suspend, annul, or withdraw the permit. In addition to the requirements of rule 701—7.14(17A), the notice shall contain a statement of facts or conduct and the provisions of law which warrant the revocation, suspension, annulment, or withdrawal of the license. A licensee whose license may be revoked, suspended, annulled, or withdrawn, may file a petition as provided in subrule 7.23(3) with the clerk of the hearings section prior to the hearing. The department may, in its discretion, file an answer to a petition filed by the licensee prior to the hearing. Thereafter, rule 701—7.17(17A) governing contested case proceedings shall apply.

b. Notwithstanding paragraph 7.23(2)“a,” if the department finds that public health, safety, or welfare imperatively requires emergency action and the department incorporates a finding to that effect in an order to the licensee, summary suspension of a license shall be ordered pending proceedings for revocation as provided herein. These proceedings shall be promptly instituted and determined. When a summary suspension as provided herein is ordered, a notice of the time, place and nature of the evidentiary hearing shall be attached to the order.

7.23(3) Petition. When a person desires to file a petition as provided in subrules 7.23(1) and 7.23(2), the petition to be filed shall contain a caption in the following form:

BEFORE THE DEPARTMENT OF REVENUE
HOOVER STATE OFFICE BUILDING
DES MOINES, IOWA

IN THE MATTER OF _____	*	PETITION
(state taxpayer’s name and address, and type of license)	*	Docket No. _____
	*	(filled in by Department)
	*	

The petition shall substantially state in separate numbered paragraphs the following:

- a. The full name and address of the petitioner;
- b. Reference to the type of license and the relevant statutory authority;
- c. Clear, concise and complete statements of all relevant facts showing why petitioner’s license should not be revoked, refused, or denied;
- d. Whether a similar license has previously been issued to or held by petitioner or revoked and if revoked the reasons therefor; and
- e. The signature of the petitioner or petitioner’s representative, the address of petitioner and of the petitioner’s representative, and the telephone number of petitioner or petitioner’s representative.

This rule is intended to implement Iowa Code section 17A.18.
 [ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—7.24(17A) Declaratory order—in general. Any oral or written advice or opinion rendered to members of the public by department personnel not pursuant to a petition for declaratory order is not binding upon the department. However, department personnel, including field personnel, ordinarily will discuss substantive tax issues with members of the public or their representatives prior to the receipt of a petition for a declaratory order, but such oral or written opinions or advice are not binding on the department. This should not be construed as preventing members of the public or their representatives from inquiring whether the department will issue a declaratory order on a particular question. In these cases, however, the name of the taxpayer shall be disclosed. The department will also discuss questions relating to certain procedural matters such as, for example, submittal of a request for a declaratory order or submittal of a petition to initiate rule-making procedures. Members of the public may, of course, seek oral technical assistance from a departmental employee in regard to the proper preparation of a return or report required to be filed with the department. Such oral advice is advisory only, and the department is not bound to recognize the advice in the examination of the return, report or records.

7.24(1) Petition for declaratory order.

a. Any person may file with the Clerk of the Hearings Section, Department of Revenue, Fourth Floor, Hoover State Office Building, Des Moines, Iowa 50319, a petition seeking a declaratory order as to the applicability to specified circumstances of a statute, rule, or order within the primary jurisdiction of the department. A petition is deemed filed when it is received by the clerk of the hearings section. The clerk of the hearings section shall provide the petitioner with a file-stamped copy of the petition if the petitioner provides the clerk of the hearings section an extra copy for this purpose. The petition must be typewritten or legibly handwritten in ink and must substantially conform to the following form:

DEPARTMENT OF REVENUE		
Petition by (Name of Petitioner)	*	PETITION FOR
for a Declaratory Order on (Cite	*	DECLARATORY ORDER
provisions of law involved).	*	Docket No. _____
	*	

- b. The petition must provide the following information:
 - (1) A clear and concise statement of all relevant facts on which the order is requested;
 - (2) A citation and the relevant language of the specific statutes, rules, policies, decisions, or orders, whose applicability is questioned, and any other relevant law;
 - (3) The questions the petitioner wants answered, stated clearly and concisely;
 - (4) The answers to the questions desired by the petitioner and a summary of the reasons urged by the petitioner in support of those answers;
 - (5) The reasons for requesting the declaratory order and disclosure of the petitioner’s interest in the outcome;
 - (6) A statement indicating whether the petitioner is currently a party to another proceeding involving the questions at issue and whether, to the petitioner’s knowledge, those questions have been decided by, are pending determination by, or are under investigation by, any governmental entity;

(7) The names and addresses of other persons, or a description of any class of persons, known by petitioner to be affected by, or interested in, the questions presented in the petition;

(8) Any request by petitioner for a meeting provided for by this rule; and

(9) Whether the petitioner is presently under audit by the department.

c. The petition must be dated and signed by the petitioner or the petitioner’s representative. It must also include the name, mailing address, and telephone number of the petitioner and of the petitioner’s representative and a statement indicating the person to whom communications concerning the petition should be directed.

7.24(2) Notice of petition. Within 15 days after receipt of a petition for a declaratory order, the clerk of the hearings section shall give notice of the petition to all persons not served by the petitioner to whom notice is required by any provision of law. The clerk of the hearings section may also give notice to any other persons.

7.24(3) Intervention.

a. Persons who qualify under any applicable provision of law as an intervenor and who file a petition for intervention within 20 days of the filing of a petition for declaratory order, shall be allowed to intervene in a proceeding for a declaratory order.

b. Any person who files a petition for intervention at any time prior to the issuance of an order may be allowed to intervene in a proceeding for a declaratory order at the discretion of the department.

c. A petition for intervention shall be filed with the Clerk of the Hearings Section, Department of Revenue, Fourth Floor, Hoover State Office Building, Des Moines, Iowa 50319. Such a petition is deemed filed when it is received by the clerk of the hearings section. The clerk of the hearings section will provide the petitioner with a file-stamped copy of the petition for intervention if the petitioner provides an extra copy for this purpose. A petition for intervention must be typewritten or legibly handwritten in ink and must substantially conform to the following form:

DEPARTMENT OF REVENUE

Petition by (Name of Original	*	PETITION FOR
Petitioner) for a Declaratory Order	*	INTERVENTION
on (Cite provisions of law cited in	*	Docket No. _____
original Petition).	*	

d. The petition for intervention must provide the following information:

(1) Facts supporting the intervenor’s standing and qualifications for intervention;

(2) The answers urged by the intervenor to the question or questions presented and a summary of the reasons urged in support of those answers;

(3) Reasons for requesting intervention and disclosure of the intervenor’s interest in the outcome;

(4) A statement indicating whether the intervenor is currently a party to any proceeding involving the questions at issue and whether, to the intervenor’s knowledge, those questions have been decided by, are pending determination by, or are under investigation by, any governmental entity;

(5) The names and addresses of any additional persons, or a description of any additional class of persons, known by the intervenor to be affected by, or interested in, the questions presented;

(6) Whether the intervenor consents to be bound by the determination of the matters presented in the declaratory order proceeding;

(7) Whether the intervenor is presently under audit by the department; and

(8) Consent of the intervenor to be bound by the declaratory order.

e. The petition must be dated and signed by the intervenor or the intervenor’s representative. It must also include the name, mailing address, and telephone number of the intervenor and of the intervenor’s representative and a statement indicating the person to whom communications should be directed.

f. For a petition for intervention to be allowed, the petitioner must have consented to be bound by the declaratory order and the petitioner must have standing regarding the issues raised in the petition for declaratory order. The petition for intervention must not correct facts that are in the petition for declaratory order or raise any additional facts. To have standing, the intervenor must have a legally protectible and tangible interest at stake in the petition for declaratory order under consideration by the director for which the party wishes to petition to intervene. Black's Law Dictionary, Centennial Edition, p. 1405, citing *Guidry v. Roberts*, 331 So. 44, 50 (La.App.). Based on Iowa case law, the department may refuse to entertain a petition from one whose rights will not be invaded or infringed. *Bowers v. Bailey*, 237 Iowa 295, 21 N.W.2d 773 (1946). The department may, by rule, impose a requirement of standing upon those that seek a declaratory order at least to the extent of requiring that they be potentially aggrieved or adversely affected by the department action or failure to act. Bonfield, "The Iowa Administrative Procedure Act, Background, Construction, Applicability and Public Access to Agency Law, The Rule-making Process," 60 Iowa Law Review 731, 805 (1975). The department adopts this requirement of standing for those seeking a petition for a declaratory order and those seeking to intervene in a petition for a declaratory order.

g. An association or a representative group is not considered to be an entity qualifying for filing a petition requesting a declaratory order on behalf of all of the association or group members. Each member of an association may not be similarly situated or represented by the factual scenario set forth in such a petition.

h. If a party seeks to have an issue determined by declaratory order, but the facts are different from those in a petition for declaratory order that is currently under consideration by the director, the interested party should not petition as an intervenor in the petition for declaratory order currently under the director's consideration. Instead, the party should file a separate petition for a declaratory order, and the petition should include all of the relevant facts. The director may deny a petition for intervention without denying the underlying petition for declaratory order that is involved.

7.24(4) Briefs. The petitioner or any intervenor may file a brief in support of the position urged. The department may request a brief from the petitioner, any intervenor, or any other person concerning the questions raised in the petition.

7.24(5) Inquiries. Inquiries concerning the status of a declaratory order proceeding may be made to the Policy and Communications Division, Department of Revenue, Fourth Floor, Hoover State Office Building, Des Moines, Iowa 50319.

7.24(6) Service and filing of petitions and other papers.

a. When service required. Except where otherwise provided by law, every petition for declaratory order, petition for intervention, brief, or other paper filed in a proceeding for a declaratory order shall be served upon each of the parties of record to the proceeding, and on all other persons identified in the petition for declaratory order or petition for intervention as affected by or interested in the questions presented, simultaneously with its filing. The party filing a document is responsible for service on all parties and other affected or interested persons.

b. Filing—when required. All petitions for declaratory orders, petitions for intervention, briefs, or other papers in a proceeding for a declaratory order shall be filed with the Clerk of the Hearings Section, Department of Revenue, Hoover State Office Building, Fourth Floor, Des Moines, Iowa 50319. All petitions, briefs, or other papers that are required to be served upon a party shall be filed simultaneously with the department.

c. Method of service, time of filing, and proof of mailing. Method of service, time of filing, and proof of mailing shall be as provided in rules 701—7.8(17A) and 701—7.21(17A).

7.24(7) Department consideration. Upon request by petitioner in the petition, the department may schedule a brief and informal meeting between the original petitioner, all intervenors, and the department, a member of the department, or a member of the staff of the department to discuss the questions raised. The department may solicit comments or information from any person on the questions raised. Also, comments or information on the questions raised may be submitted to the department by any person.

7.24(8) Action on petition.

a. Within 30 days after receipt of a petition for a declaratory order, the director shall take action on the petition.

b. The date of issuance of an order or of a refusal to issue an order is as defined in rule 701—7.2(17A).

7.24(9) Refusal to issue order.

a. The department shall not issue a declaratory order where prohibited by Iowa Code section 17A.9 and may refuse to issue a declaratory order on some or all questions raised for the following reasons:

- (1) The petition does not substantially comply with the required form;
- (2) The petition does not contain facts sufficient to demonstrate that the petitioner will be aggrieved or adversely affected by the failure of the department to issue an order;
- (3) The department does not have jurisdiction over the questions presented in the petition;
- (4) The questions presented by the petition are also presented in a current rule making, contested case, or other department or judicial proceeding that may definitively resolve them;
- (5) The questions presented by the petition would more properly be resolved in a different type of proceeding or by another body with jurisdiction over the matter;
- (6) The facts or questions presented in the petition are unclear, overbroad, insufficient, or otherwise inappropriate as a basis upon which to issue an order;
- (7) There is no need to issue an order because the questions raised in the petition have been settled due to a change in circumstances;
- (8) The petition is not based upon facts calculated to aid in the planning of future conduct but is, instead, based solely upon prior conduct, in an effort to establish the effect of that conduct or to challenge a department decision already made;
- (9) The petition requests a declaratory order that would necessarily determine the legal rights, duties, or responsibilities of other persons who have not joined in the petition, intervened separately, or filed a similar petition and whose position on the questions presented may fairly be presumed to be adverse to that of petitioner;
- (10) The petitioner requests the department to determine whether a statute is unconstitutional on its face; or
- (11) The petition requests a declaratory order on an issue presently under investigation or audit or in rule-making proceedings or in litigation in a contested case or court proceedings.

b. A refusal to issue a declaratory order must indicate the specific grounds for the refusal and constitutes final department action on the petition.

c. Refusal to issue a declaratory order pursuant to this rule does not preclude the filing of a new petition that seeks to eliminate the grounds for the department's refusal to issue an order.

7.24(10) Contents of declaratory order; effective date.

a. In addition to the order itself, a declaratory order must contain the date of its issuance, the name of petitioner and all intervenors, the specific statutes, rules, policies, decisions, or orders involved, the particular facts upon which it is based, and the reasons for its conclusion.

b. A declaratory order is effective on the date of issuance.

7.24(11) Copies of orders. A copy of all orders issued in response to a petition for a declaratory order shall be mailed promptly to the original petitioner and all intervenors.

7.24(12) Effect of a declaratory order. A declaratory order has the same status and binding effect as a final order issued in a contested case proceeding. A declaratory order is binding on the department, the petitioner, and any intervenors. As to all other persons, a declaratory order serves only as precedent and is not binding on the department. The issuance of a declaratory order constitutes final department action on the petition. A declaratory order, once issued, will not be withdrawn at the request of the petitioner.

7.24(13) Prejudice or no consent. The department will not issue a declaratory order that would substantially prejudice the rights of a person who would be a necessary party and who does not consent in writing to the determination of the matter by a declaratory order proceeding.

This rule is intended to implement Iowa Code section 17A.9.

[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—7.25(17A) Department procedure for rule making.

7.25(1) The department hereby adopts and incorporates by reference the following Uniform Rules on Agency Procedure for Rule Making, which may be found on the general assembly's Web site at <https://www.legis.iowa.gov/DOCS/Rules/Current/UniformRules.pdf> and which are printed in the first volume of the Iowa Administrative Code, with the additions, changes, and deletions to those rules listed below:

X.2(17A) Advice on possible rules before notice of proposed rule adoption.

X.4(1) Notice of proposed rule making—contents.

X.4(3) Copies of notices. In addition to the text of this subrule, the department adds that the payment for the subscription and the subscription term is one year.

X.5(17A) Public participation. In addition to the text of this rule, the department adds that written submissions should be submitted to the Administrator of the Policy and Communications Division, Department of Revenue, Hoover State Office Building, Fourth Floor, Des Moines, Iowa 50319. Also, any requests for special requirements concerning accessibility are to be made to the Clerk of the Hearings Section, Department of Revenue, Hoover State Office Building, Fourth Floor, Des Moines, Iowa 50319; telephone (515)281-3204.

X.6(17A) Regulatory analysis. In addition to the text of this rule, the department adds that small businesses or organizations of small businesses may register on the department's small business impact list by making a written application to the Administrator of the Policy and Communications Division, Department of Revenue, Hoover State Office Building, Fourth Floor, Des Moines, Iowa 50319.

X.7(17A,25B) Fiscal impact statement.

X.8(17A) Time and manner of rule adoption.

X.9(17A) Variance between adopted rule and published notice of proposed rule adoption.

X.10(17A) Exemptions from public rule-making procedures. In addition to the text of this rule, the department adds that exempt categories are generally limited to rules for nonsubstantive changes to a rule, such as rules for correcting grammar, spelling or punctuation in an existing or proposed rule.

X.11(17A) Concise statement of reasons. In addition to the text of this rule, the department adds that a request for a concise statement of reasons for a rule must be submitted to the Administrator of the Policy and Communications Division, Department of Revenue, Hoover State Office Building, Fourth Floor, Des Moines, Iowa 50319.

X.12(1) Contents, style, and form of rule—contents.

X.12(4) Contents, style, and form of rule—style and form.

X.14(17A) Filing of rules.

X.15(17A) Effectiveness of rules prior to publication.

X.16(17A) General statement of policy.

X.17(17A) Review by agency of rules.

7.25(2) The department hereby states that the following cited Uniform Rules on Agency Procedure for Rule Making are not adopted by the department:

X.1(17A) Applicability.

X.3(17A) Public rule-making docket.

X.4(2) Notice of proposed rule making—incorporation by reference.

X.12(2) Contents, style, and form of rule—incorporation by reference.

X.12(3) Contents, style, and form of rule—references to materials not published in full.

X.13(17A) Agency rule-making record.

This rule is intended to implement Iowa Code chapter 17A.

[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—7.26(17A) Public inquiries on rule making and the rule-making records. The department maintains records of information obtained and all actions taken and criticisms received regarding any rule within the past five years. The department also keeps a record of the status of every rule within the rule-making procedure. Inquiries concerning the status of rule making may be made by contacting the Administrator of the Policy and Communications Division, Department of Revenue, Hoover State

Office Building, Fourth Floor, Des Moines, Iowa 50319. For additional information regarding criticism of rules, see rule 701—7.27(17A).

This rule is intended to implement Iowa Code section 17A.3.
[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—7.27(17A) Criticism of rules. The Administrator of the Policy and Communications Division, Department of Revenue, Hoover State Office Building, Fourth Floor, Des Moines, Iowa 50319, is designated as the office where interested persons may submit by electronic means or by mail criticisms, requests for waivers, or comments regarding a rule. A criticism of a specific rule must be more than a mere lack of understanding of a rule or a dislike of the rule. To constitute a criticism of a rule, the criticism must be in writing, indicate it is a criticism of a specific rule, and have a valid legal basis for support. All requests for waivers, comments, or criticisms received on any rule will be kept in a separate record for a period of five years by the department.

This rule is intended to implement Iowa Code sections 17A.7 and 421.60.
[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—7.28(17A) Waiver or variance of certain department rules. All discretionary rules or discretionary provisions in a rule over which the department has jurisdiction, in whole or in part, may be subject to waiver or variance. See subrules 7.28(3) and 7.28(4).

7.28(1) Definitions. The following terms apply to the interpretation and application of this rule:

“Discretionary rule” or *“discretionary provisions in a rule”* means rules or provisions in rules resulting from a delegation by the legislature to the department to create a binding rule to govern a given issue or area. The department is not interpreting any statutory provision of the law promulgated by the legislature in a discretionary rule. Instead, a discretionary rule is authorized by the legislature when the legislature has delegated the creation of binding rules to the department and the contents of such rules are at the discretion of the department. A rule that contains both discretionary and interpretive provisions is deemed to be a discretionary rule to the extent of the discretionary provisions in the rule.

“Interpretive rules” or *“interpretive provisions in rules”* means rules or provisions in rules which define the meaning of a statute or other provision of law or precedent where the department does not possess the delegated authority to bind the courts to any extent with its definition.

“Waiver or variance” means an agency action which suspends, in whole or in part, the requirements or provisions of a rule as applied to an identified person on the basis of the particular circumstances of that person.

7.28(2) Scope of rule.

a. This rule creates generally applicable standards and a generally applicable process for granting individual waivers or variances from the discretionary rules or discretionary provisions in rules adopted by the department in situations where no other specifically applicable law provides for waivers or variances. To the extent another more specific provision of law purports to govern the issuance of a waiver or variance from a particular rule, the more specific waiver or variance provision shall supersede this rule with respect to any waiver or variance from that rule.

b. The waiver or variance provisions set forth in this rule do not apply to rules over which the department does not have jurisdiction or when issuance of the waiver or variance would be inconsistent with any applicable statute, constitutional provision or other provision of law.

7.28(3) Applicability of this rule.

a. This rule applies only to waiver or variance of those departmental rules that are within the exclusive rule-making authority of the department. This rule shall not apply to interpretive rules that merely interpret or construe the meaning of a statute, or other provision of law or precedent, if the department does not possess statutory authority to bind a court, to any extent, with its interpretation or construction. Thus, this waiver or variance rule applies to discretionary rules and discretionary provisions in rules, and not to interpretive rules.

b. The application of this rule is strictly limited to petitions for waiver or variance filed outside of a contested case proceeding. Petitions for waiver or variance from a discretionary rule or discretionary provisions in a rule filed after the commencement of a contested case as provided in rule 701—7.14(17A)

will be treated as an issue of the contested case to be determined by the presiding officer of the contested case.

7.28(4) Authority to grant a waiver or variance. The director may not issue a waiver or variance under this rule unless:

- a. The legislature has delegated authority sufficient to justify the action; and
- b. The waiver or variance is consistent with statutes and other provisions of law. No waiver or variance from any mandatory requirement imposed by statute may be granted under this rule.

7.28(5) Criteria for waiver or variance. In response to a petition, the director may, in the director's sole discretion, issue an order granting a waiver or variance from a discretionary rule or a discretionary provision in a rule adopted by the department, in whole or in part, as applied to the circumstances of a specified person, if the director finds that the waiver or variance is consistent with subrules 7.28(3) and 7.28(4) and if all of the following criteria are also met:

- a. The waiver or variance would not prejudice the substantial legal rights of any person;
- b. The rule or provisions of the rule are not specifically mandated by statute or another provision of law;
- c. The application of the rule or rule provision would result in an undue hardship or injustice to the petitioner; and
- d. Substantially equal protection of public health, safety, and welfare will be afforded by means other than that prescribed in the rule or rule provision for which the waiver or variance is requested.

7.28(6) Director's discretion. The final decision to grant or deny a waiver or variance shall be vested in the director. This decision shall be made at the sole discretion of the director based upon consideration of relevant facts.

7.28(7) Burden of persuasion. The burden of persuasion shall be on the petitioner to demonstrate by clear and convincing evidence that the director should exercise discretion to grant the petitioner a waiver or variance based upon the criteria contained in subrule 7.28(5).

7.28(8) Contents of petition.

- a. A petition for waiver or variance must be in the following format:

IOWA DEPARTMENT OF REVENUE		
Name of Petitioner	*	PETITION FOR
Address of Petitioner	*	WAIVER
Type of Tax at Issue	*	Docket No. _____
	*	

- b. A petition for waiver or variance must contain all of the following, where applicable and known to the petitioner:

- (1) The name, address, telephone number, and case number or state identification number of the entity or person for whom a waiver or variance is being requested;
- (2) A description and citation of the specific rule or rule provisions from which a waiver or variance is being requested;
- (3) The specific waiver or variance requested, including a description of the precise scope and operative period for which the petitioner wants the waiver or variance to extend;
- (4) The relevant facts that the petitioner believes would justify a waiver or variance. This statement shall include a signed statement from the petitioner attesting to the accuracy of the facts represented in the petition, and a statement of reasons that the petitioner believes will justify a waiver or variance;
- (5) A complete history of any prior contacts between the petitioner and the department relating to the activity affected by the proposed waiver or variance, including audits, notices of assessment, refund claims, contested case hearings, or investigative reports relating to the activity within the last five years;
- (6) Any information known to the petitioner relating to the department's treatment of similar cases;

(7) The name, address, and telephone number of any public agency or political subdivision which might be affected by the granting of a waiver or variance;

(8) The name, address, and telephone number of any person or entity that would be adversely affected by the granting of the waiver or variance;

(9) The name, address, and telephone number of any person with knowledge of the relevant facts relating to the proposed waiver or variance;

(10) Signed releases of information authorizing persons with knowledge of relevant facts to furnish the department with information relating to the waiver or variance;

(11) If the petitioner seeks to have identifying details deleted, which deletion is authorized by statute, such details must be listed with the statutory authority for the deletion; and

(12) Signature by the petitioner at the conclusion of the petition attesting to the accuracy and truthfulness of the information set forth in the petition.

7.28(9) *Filing of petition.* A petition for waiver or variance must be filed with the Clerk of the Hearings Section, Department of Revenue, Hoover State Office Building, Fourth Floor, Des Moines, Iowa 50319.

7.28(10) *Additional information.* Prior to issuing an order granting or denying a waiver or variance, the director may request additional information from the petitioner relating to the petition and surrounding circumstances. The director may, on the director's own motion, or at the petitioner's request, schedule a telephonic or in-person meeting between the petitioner or the petitioner's representative, or both, and the director to discuss the petition and surrounding circumstances.

7.28(11) *Notice of petition for waiver or variance.* The petitioner shall provide, within 30 days of filing the petition for waiver or variance, a notice consisting of a concise summary of the contents of the petition for waiver or variance and stating that the petition is pending. Such notice shall be mailed by the petitioner to all persons entitled to such notice. Such persons to whom notice must be mailed include, but are not limited to, the director and all parties to the petition for waiver or variance, or the parties' representatives. The petitioner must then file written notice with the clerk of the hearings section (address indicated above) attesting that the notice has been mailed. The names, addresses and telephone numbers of the persons to whom the notices were mailed shall be included in the filed written notice. The department has the discretion to give such notice to persons other than those persons notified by the petitioner.

7.28(12) *Ruling on a petition for waiver or variance.* An order granting or denying a waiver or variance must conform to the following:

a. An order granting or denying a waiver or variance shall be in writing and shall contain a reference to the particular person and rule or rule provision to which the order pertains, a statement of the relevant facts and reasons upon which the action is based, and a description of the narrow and precise scope and operative time period of a waiver or variance, if one is issued.

b. If a petition requested the deletion of identifying details, then the order must either redact the details prior to the placement of the order in the public record file referenced in subrule 7.28(17) or set forth the grounds for denying the deletion of identifying details as requested.

c. Conditions. The director may condition the grant of a waiver or variance on any conditions which the director deems to be reasonable and appropriate in order to protect the public health, safety and welfare.

7.28(13) *Time period for waiver or variance; extension.* Unless otherwise provided, an order granting a petition for waiver or variance will be effective for 12 months from the date the order granting the waiver or variance is issued. Renewal of a granted waiver or variance is not automatic. To renew the waiver or variance beyond the 12-month period, the petitioner must file a new petition requesting a waiver or variance. The renewal petition will be governed by the provisions in this rule and must be filed prior to the expiration date of the previously issued waiver or variance or extension of waiver or variance. Even if the order granting the waiver or variance was issued in a contested case proceeding, any request for an extension shall be filed with and acted upon by the director. However, renewal petitions must request an extension of a previously issued waiver or variance. Granting the

extension of the waiver or variance is at the director's sole discretion and must be based upon whether the factors set out in subrules 7.28(4) and 7.28(5) remain valid.

7.28(14) *Time for ruling.* The director shall grant or deny a petition for waiver or variance as soon as practicable but, in any event, shall do so within 120 days of its receipt, unless the petitioner agrees in writing to a later date or the director indicates in a written order that it is impracticable to issue the order within the 120-day period.

7.28(15) *When deemed denied.* Failure of the director to grant or deny a waiver or variance within the 120-day or the extended time period shall be deemed a denial of that petition.

7.28(16) *Service of orders.* Within seven days of its issuance, any order issued under this rule shall be transmitted to the petitioner or the person to whom the order pertains and to any other person entitled to such notice by any provision of law.

7.28(17) *Record keeping.* The department is required to maintain a record of all petitions for waiver or variance and rulings granting or denying petitions for waiver or variance.

a. Petitions for waiver or variance. The department shall maintain a record of all petitions for waiver or variance available for public inspection. Such records will be indexed and filed and made available for public inspection at the office of the clerk of the hearings section at the address set forth in subrule 7.28(9).

b. Report of orders granting or denying a waiver or variance. All orders granting or denying a waiver or variance shall be summarized in a semiannual report to be drafted by the department and submitted to the administrative rules coordinator and the administrative rules review committee.

7.28(18) *Cancellation of waiver or variance.* A waiver or variance issued pursuant to this rule may be withdrawn, canceled, or modified if, after appropriate notice, the director issues an order finding any of the following:

a. The person who obtained the waiver or variance order withheld or misrepresented material facts relevant to the propriety or desirability of the waiver or variance; or

b. The alternative means for ensuring that public health, safety, and welfare will be adequately protected after issuance of the waiver or variance order have been demonstrated to be insufficient, and no other means exist to protect the substantial legal rights of any person; or

c. The person who obtained the waiver or variance has failed to comply with all of the conditions in the waiver or variance order.

7.28(19) *Violations.* A violation of a condition in a waiver or variance order shall be treated as a violation of the particular rule or rule provision for which the waiver or variance was granted. As a result, the recipient of a waiver or variance under this rule who violates a condition of the waiver or variance may be subject to the same remedies or penalties as a person who violates the rule or rule provision at issue.

7.28(20) *Defense.* After an order granting a waiver or variance is issued, the order shall constitute a defense, within the terms and the specific facts indicated therein, for the person to whom the order pertains in any proceeding in which the rule in question is sought to be invoked, unless subrules 7.28(18) and 7.28(19) are applicable.

7.28(21) *Hearing and appeals.*

a. Appeals from a decision granting or denying a waiver or variance in a contested case proceeding shall be in accordance with the rules governing hearings and appeals from decisions in contested cases. These appeals shall be taken within 30 days of the issuance of the ruling granting or denying the waiver or variance request, unless a different time is provided by rule or statute, such as provided in the area of license revocation (see rule 701—7.23(17A)).

b. The provisions of Iowa Code sections 17A.10 to 17A.18A and rule 701—7.17(17A) regarding contested case proceedings shall apply to any petition for waiver or variance of a rule or provisions in a rule filed within a contested case proceeding. A petition for waiver or variance of a provision in a rule outside of a contested case proceeding will not be considered under the statutes or rule 701—7.17(17A).

Instead, the director’s decision on the petition for waiver or variance is considered to be “other agency action.”

This rule is intended to implement Iowa Code section 17A.9A.
 [ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—7.29(17A) Petition for rule making.

7.29(1) Form of petition.

a. Any person or agency may file a petition for rule making at the Office of the Director, Department of Revenue, Hoover State Office Building, Fourth Floor, 1305 East Walnut Street, Des Moines, Iowa 50319. A petition is deemed filed when it is received by the director. The department will provide the petitioner with a file-stamped copy of the petition if the petitioner provides the department an extra copy for this purpose. The petition must be typewritten or legibly handwritten in ink and must substantially conform to the following form:

DEPARTMENT OF REVENUE		
Petition by (Name of Petitioner)	*	PETITION FOR
for the (adoption, amendment, or	*	RULE MAKING
repeal) of rules relating to (state	*	
subject matter).	*	

b. The petition must provide the following information:

- (1) A statement of the specific rule-making action sought by the petitioner including the text or a summary of the contents of the proposed rule or amendment to a rule and, if it is a petition to amend or repeal a rule, a citation and the relevant language to the particular portion or portions of the rule proposed to be amended or repealed.
- (2) A citation to any law deemed relevant to the department’s authority to take the action urged or to the desirability of that action.
- (3) A brief summary of the petitioner’s arguments in support of the action urged in the petition.
- (4) A brief summary of any data supporting the action urged in the petition.
- (5) The names and addresses of other persons, or a description of any class of persons, known by the petitioner to be affected by or interested in the proposed action which is the subject of the petition.
- (6) Any request by the petitioner for a meeting.
- (7) Any other matters deemed relevant that are not covered by the above requirements.

7.29(2) Form signed and dated. The petition must be signed and dated by the petitioner or the petitioner’s representative. It must also include the name, mailing address, telephone number and, if requested, the e-mail address of the petitioner and of the petitioner’s representative and a statement indicating the person to whom communications concerning the petition should be directed.

7.29(3) Denial by department. The department may deny a petition because it does not substantially conform to the required form or because all the required information has not been provided.

7.29(4) Briefs. The petitioner may attach a brief to the petition in support of the action urged in the petition. The department may request a brief from the petitioner or from any other person concerning the substance of the petition.

7.29(5) Status of petition. Inquiries concerning the status of a petition for rule making may be made to the Office of the Director, Department of Revenue, Hoover State Office Building, Fourth Floor, 1305 East Walnut Street, Des Moines, Iowa 50319.

7.29(6) Informal meeting. If requested in the petition by the petitioner, the department may schedule an informal meeting between the petitioner and the department, or a member of the staff of the department, to discuss the petition. The department may request that the petitioner submit additional information or argument concerning the petition. The department may also solicit comments from any person on the substance of the petition. Also, comments on the substance of the petition may be submitted to the department by any person.

7.29(7) Action required. Within 60 days after the filing of the petition, or within an extended period as agreed to by the petitioner, the department must, in writing, either: (a) deny the petition and notify the petitioner of the department's action and the specific grounds for the denial; or (b) grant the petition and notify the petitioner that the department has instituted rule-making proceedings on the subject of the petition. The petitioner shall be deemed notified of the denial of the petition or the granting of the petition on the date that the department mails or delivers the required notification to the petitioner.

7.29(8) New petition. Denial of a petition because the petition does not substantially conform to the required form does not preclude the filing of a new petition on the same subject when the new petition contains the required information that was the basis for the original denial.

This rule is intended to implement Iowa Code chapter 17A.
[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—7.30(9C,91C) Procedure for nonlocal business entity bond forfeitures. Upon the failure of a transient merchant or an out-of-state contractor to pay any taxes payable, the amount of bond posted with the secretary of state by the transient merchant or out-of-state contractor necessary to pay the tax shall be forfeited. The following subrules shall govern the procedure for that forfeiture.

7.30(1) Definitions.

a. "Nonlocal business entity" is either an out-of-state contractor or a transient merchant as those terms are defined in paragraphs 7.30(1)"b" and "f."

b. "Out-of-state contractor" means a general contractor, subcontractor, architect, engineer, or other person who contracts to perform in this state construction or installation of structures or other buildings or any other work covered by Iowa Code chapter 103A and whose principal place of business is outside Iowa.

c. "Taxes payable by a transient merchant" refers to all taxes administered by the department, and penalties, interest, and fees which the department has previously determined to be due by assessment or due as a result of an appeal from an assessment.

d. "Taxes payable by an out-of-state contractor" means tax, penalty, interest, and fees which the department, another state agency, or a subdivision of the state, has determined to be due by assessment or due as a result of an appeal from an assessment. The tax assessed must accrue as the result of a contract to perform work covered by Iowa Code chapter 103A.

e. "Taxes payable" means any amount referred to in paragraphs 7.30(1)"c" and "d" above.

f. "Transient merchant" shall be defined, for the purposes of this rule, as that term is defined in Iowa Code section 9C.1.

7.30(2) Increases in existing bonds. If an out-of-state contractor has on file with the secretary of state a bond for any particular contract and for that particular contract the contractor has tax due and owing but unpaid and this tax is greater than the amount of the bond, the department shall require the out-of-state contractor to increase the bond on file with the secretary of state in an amount sufficient to pay tax liabilities which will become due and owing under the contract in the future.

7.30(3) Responsibility for notification. Concerning taxes which are payable by an out-of-state contractor but which are not administered by the department of revenue, it shall be the duty of the department or subdivision of Iowa state government to which the taxes are owed to notify the department of revenue of the taxes payable by the out-of-state contractor in order to institute bond forfeiture proceedings or an increase in the amount of the bond which the out-of-state contractor must post.

7.30(4) Initial notification. After it is determined that a bond ought to be forfeited, notice of this intent shall be sent to the nonlocal business entity and its surety of record, if any. Notice sent to the nonlocal business entity or its surety shall be sent to the last-known address as reflected in the records of the secretary of state. The notice sent to an out-of-state contractor shall also be mailed to the contractor's registered agent for service of process, if any, within Iowa. This notice may be sent by ordinary mail. The notice shall state the intent to demand forfeiture of the nonlocal business entity's bond, the amount of bond to be forfeited, the nature of the taxes alleged to be payable, the period for which these taxes are due, and the department or subdivision of Iowa to which the taxes are payable. The notice shall also state the statutory authority for the forfeiture and the right to a hearing upon timely application.

7.30(5) *Protest of bond forfeiture.* The application of a nonlocal business entity for a hearing shall be written and substantially in the form set out for protests of other departmental action in rule 701—7.8(17A). The caption of the application shall be basically in the form set out in subrule 7.8(6) except the type of proceeding shall be designated as a bond forfeiture collection. The body of the application for hearing must substantially resemble the body of the protest described in subrule 7.8(7). However, referring to paragraph 7.8(7)“a,” the nonlocal business entity shall state the date of the notice described in subrule 7.30(4). With regard to paragraph 7.8(7)“c,” in the case of a tax payable which is not administered by the department, the errors alleged may be errors on the part of other departments or subdivisions of the state of Iowa. The application for hearing shall be filed with the department’s administrative law judge in the manner described in rule 701—7.8(17A). The docketing of an application for hearing shall follow the procedure for the docketing of a protest under that rule.

7.30(6) *Prehearing, hearing and rehearing procedures.* The following rules are applicable to preliminary and contested case proceedings under this rule: 701—7.3(17A) to 701—7.7(17A), 701—7.9(17A) to 701—7.13(17A), and 701—7.15(17A) to 701—7.22(17A).

7.30(7) *Sureties and state departments other than revenue.*

a. A surety shall not have standing to contest the amount of any tax payable.

b. If there exist taxes payable by an out-of-state contractor and these taxes are payable to a department or subdivision of state government other than the department of revenue, that department or subdivision shall be the real party in interest to any proceeding conducted under this rule, and it shall be the responsibility of that department or subdivision to provide its own representation and otherwise bear the expenses of representation.

This rule is intended to implement Iowa Code sections 9C.4 and 91C.7.
[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—7.31(421) Abatement of unpaid tax. For assessment notices issued on or after January 1, 1995, if the statutory period for appeal has expired, the director may abate any portion of unpaid tax, penalties or interest which the director determines is erroneous, illegal, or excessive. The authority of the director to settle doubtful and disputed claims for taxes or tax refunds or tax liability of doubtful collectability is not covered by this rule.

7.31(1) *Assessments qualifying for abatement.* To be subject to an abatement, an assessment or a portion of an assessment for which abatement is sought must not have been paid and must have exceeded the amount due as provided by the Iowa Code and the administrative rules issued by the department interpreting the Iowa Code. If a taxpayer fails to timely appeal an assessment that is based on the Iowa Code or the department’s administrative rules interpreting the Iowa Code within the statutory period, then the taxpayer cannot request an abatement of the assessment or a portion thereof.

7.31(2) *Procedures for requesting abatement.* The taxpayer must make a written request to the director for abatement of that portion of the assessment that is alleged to be erroneous, illegal, or excessive. A request for abatement must contain:

a. The taxpayer’s name and address, social security number, federal identification number, or any permit number issued by the department;

b. A statement on the type of proceeding, e.g., individual income tax or request for abatement; and

c. The following information:

(1) The type of tax, the taxable period or periods involved, and the amount of tax that was excessive or erroneously or illegally assessed;

(2) Clear and concise statements of each and every error which the taxpayer alleges to have been committed by the director in the notice of assessment and which causes the assessment to be erroneous, illegal, or excessive. Each assignment of error must be separately numbered;

(3) Clear and concise statements of all relevant facts upon which the taxpayer relies (documents verifying the correct amount of tax liability must be attached to the request);

(4) Reference to any particular statute or statutes and any rule or rules involved, if known;

(5) The signature of the taxpayer or that of the taxpayer's representative and the addresses of the taxpayer and the taxpayer's representative;

(6) Description of records or documents which were not available or were not presented to department personnel prior to the filing of this request, if any (copies of any records or documents that were not previously presented to the department must be provided with the request); and

(7) Any other matters deemed relevant and not covered in the above subparagraphs.

This rule is intended to implement Iowa Code section 421.60.
[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—7.32(421) Time and place of taxpayer interviews. The time and place of taxpayer interviews are to be fixed by an employee of the department, and employees of the department are to endeavor to schedule a time and place that are reasonable under the circumstances.

7.32(1) Time of taxpayer interviews. The department will schedule the day(s) for a taxpayer interview during a normally scheduled workday(s) of the department, during the department's normal business hours. The department will schedule taxpayer interviews throughout the year without regard to seasonal fluctuations in the business of particular taxpayers or their representatives. The department will, however, work with taxpayers or their representatives to try to minimize any adverse effects in scheduling the date and time of a taxpayer interview.

7.32(2) Type of taxpayer interview.

a. The department will determine whether a taxpayer interview will be an office interview (i.e., an interview conducted at a department office) or a field interview (i.e., an interview conducted at the taxpayer's place of business or residence, or some other location that is not a department office) based on which form of interview will be more conducive to effective and efficient tax administration.

b. The department will grant a request to hold an office interview at a location other than a department office in case of a clear need, such as when it would be unreasonably difficult for the taxpayer to travel to a department office because of the taxpayer's advanced age or infirm physical condition or when the taxpayer's books, records, and source documents are too cumbersome for the taxpayer to bring to a department office.

7.32(3) Place of taxpayer interview. The department will make an initial determination of the place for an interview, including the department regional office to which an interview will be assigned, based on the address shown on the return for the tax period to be examined. Requests by taxpayers to transfer the place of interview will be resolved on a case-by-case basis, using the criteria set forth in paragraph 7.32(3) "c."

a. Office taxpayer interviews. An office interview of an individual or sole proprietorship generally is based on the residence of the individual taxpayer. An office interview of a taxpayer which is an entity generally is based on the location where the taxpayer entity's original books, records, and source documents are maintained.

b. Field taxpayer interviews. A field interview generally will take place at the location where the taxpayer's original books, records, and source documents pertinent to the interview are maintained. In the case of a sole proprietorship or taxpayer entity, this usually will be the taxpayer's principal place of business. If an interview is scheduled by the department at the taxpayer's place of business, which is a small business and the taxpayer represents to the department in writing that conducting the interview at the place of business would essentially require the business to close or would unduly disrupt business operations, the department upon verification will change the place of interview.

c. Requests by taxpayers to change place of interview. The department will consider, on a case-by-case basis, written requests by taxpayers or their representatives to change the place that the department has set for an interview. In considering these requests, the department will take into account the following factors:

- (1) The location of the taxpayer's current residence;
- (2) The location of the taxpayer's current principal place of business;
- (3) The location where the taxpayer's books, records, and source documents are maintained;
- (4) The location at which the department can perform the interview most efficiently;

(5) The department resources available at the location to which the taxpayer has requested a transfer; and

(6) Other factors which indicate that conducting the interview at a particular location could pose undue inconvenience to the taxpayer.

d. Granting of requests to change place of interview. A request by a taxpayer to transfer the place of interview generally will be granted under the following circumstances:

(1) If the current residence of the taxpayer in the case of an individual or sole proprietorship, or the location where the taxpayer's books, records, and source documents are maintained, in the case of a taxpayer entity, is closer to a different department office than the office where the interview has been scheduled, the department normally will agree to transfer the interview to the closer department office.

(2) If a taxpayer does not reside at the residence where an interview has been scheduled, the department will agree to transfer the examination to the taxpayer's current residence.

(3) If, in the case of an individual, a sole proprietorship, or a taxpayer entity, the taxpayer's books, records, and source documents are maintained at a location other than the location where the interview has been scheduled, the department will agree to transfer the interview to the location where the taxpayer's books, records, and source documents are maintained.

(4) The location of the place of business of a taxpayer's representative generally will not be considered in determining the place for an interview. However, the department in its sole discretion may determine, based on the factors described in paragraph 7.32(3) "c," to transfer the place of interview to the representative's office.

(5) If any applicable period of limitations of assessment and collection provided in the Iowa Code will expire within 13 months from the date of a taxpayer's request to transfer the place of interview, the department may require, as a condition to the transfer, that the taxpayer agree in writing to extend the limitations period up to one year.

(6) The department is not required to transfer an interview to an office that does not have adequate resources to conduct the interview.

(7) Notwithstanding any other provision of this rule, employees of the department may decline to conduct an interview at a particular location if it appears that the possibility of physical danger may exist at that location. In these circumstances, the department may transfer an interview to a department office and take any other steps reasonably necessary to protect its employees.

(8) Nothing in this rule shall be interpreted as precluding the department from initiating the transfer of an interview if the transfer would promote the effective and efficient conduct of the interview. Should a taxpayer request that such a transfer not be made, the department will consider the request according to the principles and criteria set forth in paragraph 7.32(3) "c."

(9) Regardless of where an examination takes place, the department may visit the taxpayer's place of business or residence to establish facts that can only be established by direct visit, such as inventory or asset verification. The department generally will visit for these purposes on a normal workday of the department during the department's normal business hours.

7.32(4) Audio recordings of taxpayer interviews.

a. A taxpayer is permitted, upon advance notice to the department, to make an audio recording of any interview of the taxpayer by the department relating to the determination or collection of any tax. The recording of the interview is at the taxpayer's own expense and must be with the taxpayer's own equipment.

b. Requests by taxpayers to make audio recordings must be addressed to the department employee who is conducting the interview and must be received by no later than ten calendar days before the interview. If ten calendar days' advance notice is not given, the department may, in its discretion, conduct the interview as scheduled or set a new date.

c. The department employee conducting the interview will approve the request to record the interview if:

- (1) The taxpayer (or representative) supplies the recording equipment;
- (2) The department may produce its own recording of the proceedings;
- (3) The recording takes place in a suitable location; and

(4) All participants in the proceedings other than department personnel consent to the making of the audio recording, and all participants identify themselves and their role in the proceedings.

d. A department employee is also authorized to record any taxpayer interview, if the taxpayer receives prior notice of the recording and is provided with a transcript or a copy of the recording upon the taxpayer's request.

e. Requests by taxpayers (or their representatives) for a copy or transcript of an audio recording produced by the department must be addressed to the employee conducting the interview and must be received by the department no later than 30 calendar days after the date of the recording. The taxpayer must pay the costs of duplication or transcription.

f. At the beginning of the recording of an interview, the department employee conducting the interview must state the employee's name, the date, the time, the place, and the purpose of the interview. At the end of the interview, the department employee will state that the interview has been completed and that the recording has ended.

g. When written records are presented or discussed during the interview being recorded, they must be described in sufficient detail to make the audio recording a meaningful record when matched with the other documentation contained in the case file.

This rule is intended to implement Iowa Code section 421.60.
[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—7.33(421) Mailing to the last-known address.

7.33(1) If the department fails to mail a notice of assessment to the taxpayer's last-known address or fails to personally deliver the notice to the taxpayer, interest is waived for the month the failure occurs through the month of correct mailing or personal delivery.

a. In addition, if the department fails to mail a notice of assessment or denial of a claim for refund to the taxpayer's last-known address or fails to personally deliver the notice to a taxpayer and, if applicable, to the taxpayer's authorized representative, the time period to appeal the notice of assessment or a denial of a claim for refund is suspended until the notice or claim denial is correctly mailed or personally delivered or for a period not to exceed one year, whichever is the lesser period.

b. Collection activities, except when a jeopardy situation exists, shall be suspended and the statute of limitations for assessment and collection of the tax shall be tolled during the period in which interest is waived.

7.33(2) The department will make the determination of the taxpayer's last-known address on a tax-type-by-tax-type basis. However, a notice of assessment or refund claim denial will be considered to be mailed to the last-known address if it is mailed to an address used for another tax type. A notice of assessment mailed to one of two addresses used by a taxpayer was sufficient. Langdon P. Marvin, Jr., 40 TC 982; Jack Massengale, TC Memo 1968-64.

7.33(3) The last-known address is the address used on the most recent filed and processed return. The following principles, established by case law, for the Internal Revenue Service (IRS) also will be applied in determining the taxpayer's last-known address for purposes of this rule.

a. Although the taxpayer filed a tax return showing a new address, the IRS had not processed the return sufficiently for the new address to be available by computer to the IRS agent who sent the notice of deficiency. Before a change of address is considered available, a reasonable amount of time must be allowed to process and transfer information to the IRS's central computer system. *Diane Williams v. Commissioner of Internal Revenue*, U.S. Court of Appeals, 9th Circuit; 935 F. 2d 1066.

b. If the department knows the taxpayer has moved but does not know the new mailing address, the prior mailing address is the proper place to send a deficiency notice. *Kaestner v. Schmidt*, 473 F. 2d 1294; *Kohn vs. U.S. et al.*, 56 AFTR 2d 85-6147.

c. Knowledge acquired by a collection agent regarding the taxpayer's address in an unrelated investigation was not required to be imputed to the examination division responsible for mailing a notice of deficiency. *Wise v. Commissioner*, 688 F. Supp. 1164.

d. However, information acquired by the department in a related investigation of the taxpayer is binding upon the department, e.g., where the taxpayer files a power of attorney showing a change of address.

7.33(4) Procedures for notifying the department of a change in taxpayer's address. The department generally will use the address on the most recent filed and properly processed return by tax type as the address of record for all notices of assessment and denial of claims for refund. If a taxpayer no longer wishes the address of record to be the address on the most recently filed return, the taxpayer must give clear and concise written notification of a change in address to the department. Notifications of a change in address should be addressed to: Changes in Name or Address, Iowa Department of Revenue, P.O. Box 10465, Des Moines, Iowa 50306.

a. If after a joint return or married filing separately on a combined return is filed either taxpayer establishes a separate residence, each taxpayer should send clear and concise written notification of a current address to the department.

b. If a department employee contacts a taxpayer in connection with the filing of a return or an adjustment to a taxpayer's return, the taxpayer may provide clear and concise written notification of a change of address to the department employee who initiated the contact.

c. A taxpayer should notify the U.S. Postal Service facility serving the taxpayer's old address of the taxpayer's new address in order that mail from the department can be forwarded to the new address. However, notification to the U.S. Postal Service does not constitute the clear and concise written notification that is required to change a taxpayer's address of record with the department.

This rule is intended to implement Iowa Code section 421.60.
[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—7.34(421) Power of attorney. No attorney, accountant, or other representative will be recognized as representing any taxpayer in regard to any claim, appeal, or other matter relating to the tax liability of such taxpayer in any hearing before or conference with the department, or any member or agent thereof, unless there is first filed with the department a written authorization.

7.34(1) A power of attorney is required by the department when the taxpayer wishes to authorize an individual to perform one or more of the following acts on behalf of the taxpayer:

a. To receive copies of any notices or documents sent by the department, its representatives or its attorneys.

b. To receive, but not to endorse and collect, checks in payment of any refund of Iowa taxes, penalties, or interest.

c. To execute waivers (including offers of waivers) of restrictions on assessment or collection of deficiencies in tax and waivers of notice of disallowance of a claim for credit or refund.

d. To execute consents extending the statutory period for assessment or collection of taxes.

e. To fully represent the taxpayer(s) in any hearing, determination, final or otherwise, or appeal.

f. To enter into any compromise with the director's office.

g. To execute any release from liability required by the department prerequisite to divulging otherwise confidential information concerning the taxpayer(s).

h. Other acts as stipulated by the taxpayer.

7.34(2) A power of attorney or any supplemental notification intended to be utilized as a power of attorney must contain the following information to be valid:

a. Name and address of the taxpayer;

b. Identification number of the taxpayer (i.e., social security number, federal identification number, or any state-issued tax identification number relative to matters covered by the power of attorney);

c. Name, mailing address, and PTIN (preparer's tax identification number), FEIN (federal employer identification number) or SSN (social security number) of the representative;

d. Description of the matter(s) for which representation is authorized which, if applicable, must include:

(1) The type of tax(es) involved;

(2) The specific year(s) or period(s) involved; and

(3) In estate matters, decedent's date of death; and

e. A clear expression of the taxpayer's intention concerning the scope of authority granted to the recognized representative(s) as provided in subrule 7.34(1).

7.34(3) A power of attorney may not be used for tax periods that end more than three years after the date on which the power of attorney is received by the department. A power of attorney may concern an unlimited number of tax periods which have ended prior to the date on which the power of attorney is received by the department; however, each tax period must be separately stated.

7.34(4) The individual who must execute a power of attorney depends on the type of taxpayer involved as follows:

a. *Individual taxpayer.* In matters involving an individual taxpayer, a power of attorney must be signed by the individual.

b. *Husband and wife.* In matters involving a joint return or married taxpayers who have elected to file separately on a combined return in which both husband and wife are to be represented by the same representative(s), the power of attorney must be executed by both husband and wife. In any matters concerning a joint return or married taxpayers who have elected to file separately on a combined return in which both husband and wife are not to be represented by the same representative(s), the power of attorney must be executed by the spouse who is to be represented. However, the recognized representative of such spouse cannot perform any act with respect to a tax matter that the spouse represented cannot perform alone.

c. *Corporation.* In the case of a corporation, a power of attorney must be executed by an officer of the corporation having authority to legally bind the corporation, which must certify that the officer has such authority.

d. *Association.* In the case of an association, a power of attorney must be executed by an officer of the association having authority to legally bind the association, which must certify that the officer has such authority.

e. *Partnership.* In the case of a partnership, a power of attorney must be executed by all partners, or if executed in the name of the partnership, by the partner or partners duly authorized to act for the partnership, which must certify that the partner(s) has such authority.

7.34(5) A power of attorney is not needed for individuals who have been named as an authorized representative on a fiduciary return of income filed under Iowa Code section 422.14 or a tax return filed under Iowa Code chapter 450.

7.34(6) A new power of attorney for a particular tax type(s) and tax period(s) revokes a prior power of attorney for that tax type(s) and tax period(s) unless the taxpayer has indicated on the power of attorney form that a prior power of attorney is to remain in effect. For a previously designated representative to remain as the taxpayer's representative when a subsequent power of attorney form is filed, the taxpayer must attach a copy of the previously submitted power of attorney form which designates the representative that the taxpayer wishes to retain. To revoke a designated power of attorney without appointing a new power of attorney, see subrule 7.34(7).

EXAMPLE A. A taxpayer executes a power of attorney for the taxpayer's accountant to represent the taxpayer during an audit of the taxpayer's books and records. After the department issues a notice of assessment, the taxpayer wishes to have the taxpayer's attorney-at-law as an authorized representative in addition to the taxpayer's accountant. The taxpayer may use one of two options to designate the accountant and the attorney-at-law as the taxpayer's representatives: (1) The taxpayer may complete and submit to the department a new power of attorney, Form IA2848 or federal Form 2848, designating both the accountant and the attorney-at-law as the taxpayer's authorized representatives (by submittal of a new power of attorney form, the prior power of attorney designations are revoked, leaving only the subsequent new power of attorney form effective); or (2) the taxpayer may properly complete a new power of attorney form by including the designated attorney-at-law's name, address, PTIN, FEIN or SSN, tax type(s) and tax period(s) on the first page and checking the appropriate box on page 2 of Form IA2848 or page 2 of federal Form 2848. In addition, to retain the accountant as the taxpayer's

representative, the taxpayer must also attach to the new completed power of attorney form a copy of the previously submitted power of attorney form designating the accountant as the taxpayer's representative.

EXAMPLE B. A taxpayer wishes to designate an additional power of attorney and retain a prior power of attorney. However, the taxpayer does not wish to utilize a Form IA2848 or a federal Form 2848. In this situation, the taxpayer must send written notification to the department designating the new power of attorney's name, address, PTIN, SSN or FEIN, the tax type(s), the tax period(s) of representation and the name, address, and PTIN, SSN or FEIN of the previously designated power of attorney that the taxpayer seeks to retain for that tax period.

In each of the foregoing examples, the original power of attorney will continue to automatically receive the notices concerning the specified tax matter, unless such authority is explicitly revoked by the taxpayer. Also see subrule 7.34(13) regarding notices.

7.34(7) By filing a statement of revocation with the department, a taxpayer may revoke a power of attorney without authorizing a new representative. The statement of revocation must indicate that the authority of the previous power of attorney is revoked and must be signed by the taxpayer. Also, the name and address of each representative whose authority is revoked must be listed (or a copy of the power of attorney must be attached).

7.34(8) By filing a statement with the department, a representative may withdraw from representation in a matter in which a power of attorney has been filed. The statement must be signed by the representative and must identify the name and address of the taxpayer(s) and the matter(s) from which the representative is withdrawing.

7.34(9) A properly completed Iowa power of attorney, Form IA2848, or a properly designated federal form as described in this subrule, satisfies the requirements of this rule. In addition to the Iowa power of attorney, Form IA2848, the department can accept Internal Revenue Service Form 2848, if references to the "Internal Revenue Service" are crossed out and "Iowa Department of Revenue" is inserted in lieu thereof, as long as such a form contains specific designation by the taxpayer for the state-related taxes at issue. Designation must include, but is not limited to, name, address, PTIN, SSN or FEIN of the representative, the tax type(s) and tax period(s). In addition, the department will accept any other document which satisfies the requirements of this rule.

7.34(10) The department will not recognize as a valid power of attorney a power of attorney form attached to a tax return filed with the department except in the instance of a form attached to a fiduciary return of income form or an inheritance tax return.

7.34(11) The department will accept either the original, an electronically scanned and transmitted power of attorney form, or a copy of a power of attorney. A copy of a power of attorney received by facsimile transmission (fax) will be accepted. All copies, facsimiles and electronically scanned and transmitted power of attorney forms must include a valid signature of the taxpayer to be represented.

7.34(12) If an individual desires to represent a taxpayer through correspondence with the department, the individual must submit a power of attorney even though no personal appearance is contemplated.

7.34(13) Any notice or other written communication (or copy thereof) required or permitted to be given to the taxpayer in any matter before the department must be given to the taxpayer and, unless restricted by the taxpayer, to the taxpayer's first designated power of attorney who is representing the taxpayer for the tax type(s) and tax period(s) contained in the notice. Due to limitations of the department's automated systems, it is the general practice of the department to limit distribution of copies of documents by the department to the taxpayer's first designated power of attorney. Determination of the first designated power of attorney will be based on the earliest execution date of the power of attorney and the first name designated on a power of attorney form listing more than one designated representative.

7.34(14) Information from power of attorney forms, including the representative's PTIN, SSN or FEIN, is utilized by department personnel to:

a. Determine whether a representative is authorized to receive or inspect confidential tax information;

b. Determine whether the representative is authorized to perform the acts set forth in subrule 7.34(1);

c. Send copies of computer-generated notices and communications to the representative as authorized by the taxpayer; and

d. Ensure that the taxpayer's representative receives all notices and communications authorized by the taxpayer, but that notices and communications are not sent to a representative with the same or similar name.

This rule is intended to implement Iowa Code section 421.60.
[ARC 0251C, IAB 8/8/12, effective 9/12/12; ARC 1545C, IAB 7/23/14, effective 8/27/14]

701—7.35(421) Taxpayer designation of tax type and period to which voluntary payments are to be applied.

7.35(1) A taxpayer may designate in separate written instructions accompanying the payment the type of tax and tax periods to which any voluntary payment is to be applied. The taxpayer may not designate the application of payments which are the result of enforced collection.

7.35(2) Enforced collection includes, but is not limited to, garnishment of wages, bank accounts, or payments due the taxpayer, or seizure of assets.

This rule is intended to implement Iowa Code section 421.60.

CHAPTER 8
FORMS AND COMMUNICATIONS
[Prior to 12/17/86, Revenue Department[730]]

701—8.1(17A) Definitions. For the purposes of these rules the following definitions apply, unless the context otherwise requires:

“*Communication*” means any method of transfer of data, information, or money by any conduit or mechanism.

“*Department*” means the Iowa department of revenue.

“*Director*” means the director of the department of revenue.

“*Form*” means any overall physical arrangement and general layout of communications, using any method of communication, related to tax or other administration and prescribed by the director or otherwise required by law.

“*Person*” means any individual, corporation, limited liability company, government or governmental subdivision or agency, business trust, estate, trust, partnership or association, or any other legal entity.

“*Return*” means any form required for tax administration from any person to the department.

This rule is intended to implement Iowa Code paragraph 17A.3(1) “b.”

701—8.2(17A) Official forms. The department and the director have developed and provide or prescribe many official forms designed to help persons exercise their rights and discharge their duties under the tax laws and rules, to explain tax laws and rules, to assist in the administration of tax laws and rules, and to assist in general financial administration. Communications with the department, for which official forms have been created, shall be carried out using those forms or approved substitutes. Each direction of every instruction contained within or accompanying official forms shall be followed, and each question within or accompanying every form shall be answered as if the instructions and forms were contained in these rules.

Copies of all official forms, instructions and communication formats may be obtained from the Iowa Department of Revenue, Policy and Communications Division, Hoover State Office Building, P.O. Box 10457, Des Moines, Iowa 50306; by telephoning (800)367-3388 or (515)281-3114 (for large orders of forms: (800)532-1531); by faxing (515)242-6040 or on the department’s Web site at www.iowa.gov/tax.

8.2(1) Nature of official forms. Most, but not all, official forms are on paper. As prescribed by the director, communication means other than paper documents may be used for official forms.

8.2(2) Mailing addresses. The following post office box numbers should be used when corresponding with the department. All addresses are completed: Des Moines, Iowa 50306.

<u>Box Number</u>	<u>Addressee</u>
1792	Motor Vehicle Fuel Tax Returns
9187	Individual Income Tax Returns
10330	Central Collections Unit
10411	Withholding Tax Payments Verified Summary of Payments
10412	Sales and Use Tax Returns and Payments
10413	Franchise Tax Returns and Estimated Payments

<u>Box Number</u>	<u>Addressee</u>
10455	Insurance Premiums Tax Household Hazardous Materials Environmental Protection Charge
10456	Tax Management Division, Compliance Services Income Tax
10457	Policy and Communications Division
10459	Property Tax Rent Reimbursement Claims
10460	Internal Services Division Process Improvement and Innovation Division
10465	Tax Management Division, Business and Excise Tax
10466	Individual and Corporation Income Tax Estimated Payments
10467	Fiduciary and Inheritance Tax
10468	Corporation Income Tax Returns
10469	Property Tax
10470	Registration Services
10471	Accounts Receivable
10472	Cigarette and Tobacco Tax
10486	Property Assessment Appeal Board
14454	Tax Management Division, Field Audit
14457	Audit Services Section Hearings Section
14461	Research and Analysis Division

This rule is intended to implement Iowa Code paragraph 17A.3(1) "b."
 [ARC 9875B, IAB 11/30/11, effective 1/4/12; ARC 0398C, IAB 10/17/12, effective 11/21/12; ARC 1303C, IAB 2/5/14, effective 3/12/14]

701—8.3(17A) Substitution of official forms. This rule is to provide guidance for the use of other than official forms, whether they are on paper, are computer-generated, or are created using other media for communication. Approval shall be obtained prior to use of computer forms, replacement forms, reproduced forms, facsimile forms, or any other forms not provided by the department. The director reserves the right to make changes to forms when needed without prior notification to users of forms. The director also reserves the right to require use of official forms in communications with the department concerning tax administration or other matters.

8.3(1) Types of substitute forms. Many types of forms may, upon approval, be substituted for official forms. Descriptions of a partial list follow.

a. Reproduced forms. Reproduction (photocopy reprinting) of Iowa tax forms may be accomplished without prior approval of the department provided the following conditions are met:

(1) There is no variation from the official copy or format provided by the department, including reduction and enlargement or other format specification.

(2) Reprinting, copying, or reproduction of the form is not prohibited by another rule within this chapter.

(3) Reprinting or reproduction of the form does not vary from criteria stated elsewhere in this chapter.

b. Replacement forms. Replacement forms are forms which are produced by imagery or otherwise replicated using the department official form as a model. These forms may include facsimiles of department forms that have been modified by the addition of line enlargements, copy deletion, or any other modifications.

c. Computer-generated forms. Computer-generated forms are forms that are created in their entirety, including layout, by the computer. These forms must be a facsimile of the official form that it is meant to replace.

d. Federal forms. Federal forms, or their alternates, do not require prior approval for use provided the form is approved for federal use and Iowa tax instructions or other administrative instructions authorize or require the use of federal forms in lieu of official Iowa forms.

e. Removable media and electronic reporting. Any removable media, such as compact discs, or any electronic transmission in other than official form requires prior approval of the department. No prior approval is necessary for submission of compact discs for certain information reporting when they are submitted in accordance with the department policy. To obtain additional information regarding the submitting of magnetic tapes, diskettes or other electronic reporting, please contact the Technology and Information Management Division, P.O. Box 10460, Des Moines, Iowa 50306.

8.3(2) Approval of substitute forms. Prior approval of substitute forms may be obtained by writing Iowa Department of Revenue, Substitute Forms, 1305 East Walnut Street, Des Moines, Iowa 50319, or by a PDF submission via e-mail to IDRSubForms@iowa.gov. PDF submissions via e-mail to the department of approval requests are acceptable in limited circumstances. Normally, approval will be granted for use of substitute forms for one year only. Those forms listed on the substitute forms checklist should be submitted for approval. If doubt exists about the need for approval of a particular substitute form, the form should be submitted for consideration.

8.3(3) Failure to obtain required approval. Forms filed with the department that are not official or approved may be returned at the discretion of the director.

8.3(4) Forms that may not be reproduced. Certain forms supplied by the department shall not be duplicated or reproduced because of special processing requirements for the forms. These forms will normally have an optical scan line with special characters or print to ensure that automated processing equipment accurately credits the proper accounts. Exceptions to allow reproduction may occur on a limited basis with the consent of the department. The requestor must demonstrate compatibility with and meet all requirements and standards of the department to ensure proper and accurate processing of the form by the department. The department, at its option, may provide an explanation as to why a form is not acceptable, but is not required to do so. Forms that may not be reproduced, except as provided for above, include department-generated accounts receivable notices.

8.3(5) General information. The following general information is applicable to all reproduced, replacement, or computer-generated forms:

a. Paper. Paper must be of at least equal quality to stock used by the department for official forms. Carbon-bonded paper is prohibited for all forms. Colored paper should be used for all forms substituting for official paper forms unless paper used is of the identical color of an official paper form.

b. Ink and imaging material. Black ink or black imaging material should be used in the printing or duplication of all substitute forms on paper.

c. Size. Paper forms must be the same size as the official form.

d. Legibility. All forms must have a high standard of legibility.

e. Distinctive markings and symbols. Some official forms contain distinctive symbols. These symbols must be reproduced on other than official forms.

f. Labels. Preprinted labels furnished by the department should be affixed to returns submitted to the department.

g. Accuracy of reproduction. Forms submitted for approval should be a facsimile of the official form. No variation from the official form will be allowed for forms which are identified as returns.

This rule is intended to implement Iowa Code paragraph 17A.3(1) "b."
[ARC 9875B, IAB 11/30/11, effective 1/4/12; ARC 0398C, IAB 10/17/12, effective 11/21/12]

701—8.4(17A) Description of forms. Forms prescribed by the director can be divided into those required for the administration of various taxes and those required for administrative systems other than tax-related.

8.4(1) Tax forms. Taxes administered by the department that require forms are listed in the following lettered paragraphs:

a. Corporate income return systems include forms designed by the department as well as forms used in federal tax administration. Approved substitute forms may be used for returns.

b. Corporate income tax field and office audit systems, related field collections systems, and the corporate tax error resolution system have forms designed by the department. Approved substitute forms may be used.

c. Franchise tax returns include forms designed by the department as well as forms used in federal tax administration. Approved substitute forms may be used for returns.

d. Franchise audit and collection systems have forms designed by the department. Approved substitute forms may be used.

e. Corporate and franchise estimated tax systems have forms designed by the department. Approved substitute forms may be used.

f. Individual and fiduciary income returns include forms designed by the department as well as forms used in federal tax administration. Approved substitute forms may be used for returns.

g. Individual and fiduciary income tax field and office audit systems and related field collections systems have forms designed by the department. Approved substitutes may be used.

h. New jobs tax credit system has forms designed by the department. Approved substitute forms may be used.

i. Individual income tax withholding payment voucher systems have forms designed by the department. Approved substitute forms may be used.

j. IA-W4 system, declaration of estimated tax, and withholding penalty waiver systems have forms designed by the department. Approved substitutes may be used.

k. Sales and use tax returns and payment voucher systems have forms designed by the department. Approved substitute forms may be used in limited situations.

l. Local option sales and services tax and hotel/motel tax systems have forms designed by the department. Approved substitute forms may be used in limited situations.

m. Field and office audit and collections systems for sales and use tax, sales tax refund examination system, industrial machinery, equipment, and computer refund systems, and sales and use tax penalty waiver systems have forms designed by the department. Approved substitute forms may be used.

n. Motor fuel tax returns systems have forms designed by the department. Approved substitute forms may be used.

o. Special fuel tax returns systems have forms designed by the department. Approved substitute forms may be used.

p. Motor fuel tax and special fuel tax error resolution systems and related field and office audit and collection systems have forms designed by the department. Approved substitute forms may be used.

q. Inheritance and qualified use inheritance tax returns systems have forms designed by the department. Approved substitute forms may be used.

r. Inheritance and qualified use inheritance tax field and office audit systems and related field collections systems have forms designed by the department. Approved substitute forms may be used.

- s. Cigarette and tobacco tax systems with related office and field audit and field collection systems have forms designed by the department. Approved substitute forms may be used.
- t. Property assessor and deputy assessor examination records systems have forms designed by the department. Approved substitute forms may be used.
- u. Central property tax assessments system has forms designed by the department. Approved substitute forms may be used.
- v. Elderly credit mobile home, Iowa disabled and senior citizen property tax, and special assessment credit systems have forms designed by the department. Approved substitute forms may be used.
- w. Environmental protection charge systems have forms designed by the department. Approved substitute forms may be used.
- x. Excise tax on unlawful dealing in certain substances system has forms designed by the department. Approved substitute forms may be used.
- y. Taxpayer contact systems have forms designed by the department. Approved substitute forms may be used.
- z. Federal and state exchange of information systems have forms designed by the department as well as others. Approved substitute forms may be used.
- aa. Accounts receivable notices system has forms designed by the department. No substitute forms may be used.
- bb. The department shall provide the taxpayer a statement of the rights of a taxpayer and obligations of the department during an audit, procedures by which a taxpayer may appeal an adverse decision of the department, and procedures which the department uses to enforce the tax laws. No substitute form may be used.

8.4(2) Other forms. Rescinded IAB 4/14/04, effective 5/19/04.

This rule is intended to implement Iowa Code paragraph 17A.3(1) “b” and sections 421.7 and 422.21. [ARC 9875B, IAB 11/30/11, effective 1/4/12; ARC 1545C, IAB 7/23/14, effective 8/27/14]

701—8.5(422) Electronic filing of Iowa income tax returns. Electronic filing allows individuals and businesses that meet department criteria to file their Iowa income tax returns electronically. All information is electronically transmitted. Nothing is submitted on paper unless specifically requested by the department. A taxpayer’s electronic Iowa return will include the same information as if the taxpayer had filed a paper return.

There is no statutory requirement that taxpayers file their Iowa income tax returns electronically. Taxpayers also have the option to file by paper.

8.5(1) Definitions. For the purpose of this rule, the following definitions apply, unless the context otherwise requires:

“*Acknowledgment*” means a report generated by the department and sent electronically to a transmitter via the IRS indicating the department’s acceptance or rejection of an electronic submission.

“*Declaration for e-File Return form*” means a taxpayer declaration form that authenticates the electronic tax return, authorizes its transmission, and consents to the financial transaction order as designated using the financial institution information provided.

“*Department*” means the Iowa department of revenue.

“*Direct debit*” means an order for electronic withdrawal of funds from a taxpayer’s financial institution account for payment to the Iowa department of revenue.

“*Direct deposit*” means an order for electronic transfer of a refund into a taxpayer’s financial institution account.

“*E-file provider*” means a firm that is assigned an Electronic Filing Identification Number (EFIN) by the IRS to assume any one or more of the following IRS e-file provider roles: electronic return originator, intermediate service provider, transmitter, software developer, or reporting agent.

“*Electronic filing*” means a paperless filing of the Iowa income tax return, order for financial transaction, or both by way of the IRS e-file program, also known as federal/state electronic filing (ELF/MeF).

“*Electronic return originator (ERO)*” means an authorized IRS e-file provider that originates the electronic submission by any one of the following methods: electronically sending an electronic tax return to a Transmitter that will transmit the electronic tax return to the IRS, directly transmitting the electronic tax return to the IRS, or providing the electronic tax return to an Intermediate Service Provider for processing prior to transmission to the IRS.

“*Intermediate service provider*” means the firm that assists with processing submission information between the ERO (or the taxpayer in the case of online filing) and a Transmitter.

“*Online filing*” means the process for taxpayers to self-prepare returns by entering return data directly into commercially available software, software downloaded from an Internet site and prepared off-line, or through an online Internet site.

“*Origination of an electronic return*” means the action by an ERO of electronically sending the return directly to an Intermediate Service Provider, a Transmitter, or the IRS.

“*Reporting agent*” means a firm that originates the electronic submission of certain returns for its clients or transmits the returns to the IRS in accordance with the IRS electronic filing procedures, or both.

“*Self-select PIN signature alternative*” means the taxpayer electronically signs the return with a personal identification number (PIN). The PIN is any five numbers (except all zeros) that taxpayers choose to enter as their electronic signature.

“*Software developer*” means an approved IRS e-file provider that develops software according to IRS and Iowa specifications for the purposes of formatting electronic returns, transmitting electronic returns directly to the IRS, or both. A software developer may sell its software.

“*Stockpiling*” means collecting returns from taxpayers or from other e-file providers and waiting more than three calendar days after receiving the information necessary for transmission to transmit the returns to the department.

“*Transmitter*” means a firm that transmits electronic tax return information directly to the IRS and routes electronic acknowledgments from the IRS (and the states) to the firm originating the electronic return.

8.5(2) *Completion and documentation of the electronic return.*

a. All monetary amounts on the prepared return must be in whole dollars. The electronic submission must match the prepared return. The taxpayer(s) must declare the authenticity of the electronic return before it is transmitted. The department has adopted the self-select PIN signature alternative as implemented by the IRS. If the ERO elects not to use the taxpayer self-select PIN signature alternative, the Declaration for e-File Return form must be completed and signed by the preparer, ERO, and taxpayer(s). If the ERO makes changes to the electronic return after the Declaration for e-File Return form has been signed by the taxpayer(s), a new Declaration for e-File Return form must be completed and signed by the taxpayer(s) before the return is transmitted.

b. The ERO must provide the taxpayer a copy of all information to be filed. The taxpayer and ERO must retain all tax documentation for three years. The Declaration for e-File Return form and accompanying schedules are to be furnished to the department only when specifically requested.

8.5(3) *Direct deposit and direct debit.*

a. Taxpayers designating direct deposit of the Iowa refund or direct debit of payment remitted to the department on electronically filed returns must provide proof of account ownership to the ERO. The department is not responsible for the misapplication of a direct deposit refund or direct debit payment caused by error, negligence, or wrongdoing on the part of the taxpayer, e-file provider, financial institution or any agent of the above.

b. Once the return has been transmitted, the financial order may not be altered. The department may, when processing procedures allow, grant a taxpayer’s timely request to revoke the financial order. A direct deposit or direct debit order will be disregarded by the department if the electronic submission is rejected for any reason as indicated in the acknowledgment.

c. The department may, when processing procedures require, convert a direct deposit order to a paper check. If a refund is deposited into an incorrect bank account, the department will issue a paper refund check once the funds are returned by the financial institution.

d. Funds will be withdrawn from the account specified in the direct debit order no sooner than the date specified by the taxpayer. This date must occur no later than the due date when the due date has not yet elapsed. This date must specify immediate payment when the due date has already elapsed. This date will be superseded by the electronic postmark date when the date occurs prior to the electronic postmark date. The direct debit payment within the electronic submission accepted by the department that is postmarked on or before the payment due date is considered timely, provided that the direct debit payment is honored by the financial institution.

8.5(4) *Software approval.* Software developers that want to develop electronic submission formatting software for e-filing Iowa returns shall register their respective software products annually with the department. The department publishes specifications, test packages, and testing procedures. Software must pass transmission tests before the department will approve it for electronic filing of Iowa income tax returns. The department will define the test period annually.

8.5(5) *ERO acceptance to participate.* Once accepted by the IRS as an ERO for a specific tax type, the ERO is automatically accepted to e-file Iowa returns of that tax type, provided that the department offers the tax type for e-file.

8.5(6) *Suspension of an e-file provider from participation in the Iowa electronic filing program.*

a. The department may immediately suspend, without notice, an e-file provider from the Iowa electronic filing program. In most cases, a suspension is effective as of the date of the letter informing the e-file provider of the suspension. Before suspending an e-file provider, the department may issue a warning letter describing specific corrective action required to correct deviations set forth in paragraph 8.5(6) "*b.*" An e-file provider will be automatically prohibited from participating in the Iowa electronic filing program if denied participation in, or suspended from, the federal electronic filing program.

b. An e-file provider that is eligible to participate in the federal electronic filing program may be suspended from the Iowa electronic filing program if any of the following conditions occur. The list is for illustrative purposes only and is not deemed to be all-inclusive.

- (1) Deterioration in the format of electronic returns transmitted.
- (2) Unacceptable cumulative error or rejection rate or failure to correct errors resulting from the transmission of electronic returns.
- (3) Untimely received, illegible, incomplete, missing, or unapproved substitute Declaration for e-File Return forms when requested by the department.
- (4) Stockpiling returns at any time while participating in the Iowa electronic filing program.
- (5) Failure on the part of the transmitter to retrieve acknowledgments within two working days of the department's providing them.
- (6) Failure on the part of the transmitter to initiate the communication of acknowledgments to the ERO within two working days of the department's providing them.
- (7) Significant complaints about the e-file provider.
- (8) Failure on the part of the e-file provider to cooperate with the department's efforts to monitor e-file providers, investigate electronic filing abuse, and investigate the possible filing of fraudulent returns.
- (9) Submitting the electronic return with information that is not identical to information on the Declaration for e-File Return form.
- (10) Transmitting the electronic return with software not approved by the department for use in the Iowa electronic filing program for the given tax type and tax period.
- (11) Failure on the part of the e-file provider to provide W-2s, 1099s, or out-of-state tax returns when requested by the department.

8.5(7) *Administrative procedure for denial of participation or suspension of participation.*

a. When a firm has requested participation in the Iowa electronic filing program but there is reason to deny the request, the department shall send a letter to the firm advising that entry into the program has been denied. When an e-file provider is a participant in the Iowa electronic filing program but is to be suspended from the program for any condition described in subrule 8.5(6), the department will send a letter to notify the e-file provider about its suspension from the program.

b. When the firm either disagrees with the denial of participation letter or the suspension from participation letter, the firm must file a written protest to the department within 60 days of the date of the denial letter or the suspension letter. The written protest must be filed pursuant to rule 701—7.8(17A). During the administrative review process, the denial of the firm’s participation in or the suspension of the firm from the Iowa electronic filing program shall remain in effect.

This rule is intended to implement Iowa Code sections 422.21 and 422.68.

CHAPTER 9
FILING AND EXTENSION OF TAX LIENS
AND CHARGING OFF UNCOLLECTIBLE TAX ACCOUNTS
[Prior to 12/17/86, Revenue Department[730]]

701—9.1(422,423) Definitions. As used in the rules contained herein the following definitions apply unless the context otherwise requires:

“*Assessment issued*” means the most recent assessment in point of time for tax due from the taxpayer for the tax type and tax period.

“*Charging off*” means deleting an unpaid tax account from records of the department but may not include filing a release of the lien with the office of the recorder in which filed.

“*Defunct corporation*” means a corporation that has dissolved or ceased to exist with no assets remaining.

“*Department*” means the Iowa department of revenue.

“*Director*” means the director of the department or the director’s authorized representative.

“*Lien*” means the claim against personal or real property provided by Iowa Code section 422.26, other Code sections making reference to sections 422.26 and 424.11.

“*Recorder*” means the county recorder of any county in the state of Iowa.

“*Taxes*” means all taxes or charges administered by the department, which include but are not limited to individual income, fiduciary withholding, corporate income, franchise, sales, use, hotel/motel, railroad fuel, equipment car, motor vehicle fuel taxes and the environmental protection charge imposed upon petroleum diminution due and payable to the state of Iowa.

701—9.2(422,423) Lien attaches. If tax is unpaid, a lien shall attach at the time the tax became due and payable.

701—9.3(422,423) Purpose of filing. The notice of lien is filed with the county recorder to establish a priority interest in assets of the taxpayer for unpaid tax, penalty, and interest and to provide constructive notice of an unpaid tax liability as a matter of public record.

701—9.4(422,423) Place of filing. A notice of lien may be filed in the office of the recorder in the county of the taxpayer’s last-known address, as well as with the recorder in any other county in the state of Iowa in which the taxpayer is known to own property.

701—9.5(422,423) Time of filing. A notice of lien will be filed after failure of taxpayer to protest the notice of assessment or to pay the full amount of the assessment within the time periods provided by law. In case a return is not timely filed, or is received without a remittance, or an unhonored check is submitted, or in case a jeopardy assessment is made, a lien may be filed at the time the notice of assessment is issued. Notwithstanding a timely protest of the assessment by the taxpayer, a notice of tax lien may be filed if the director has reason to believe that collection of the taxes may be jeopardized by delay.

701—9.6(422,423) Period of lien. A lien continues in effect for ten years from the date the last assessment in point of time is issued unless extended, released, or discharged as hereinafter provided. Liens attaching prior to January 1, 1969, expire on January 1, 1979, unless extended, released, or discharged as hereinafter provided.

9.6(1) A lien may be extended by the director for an additional ten years, from the expiration date of the original lien or prior extension, with no limit on the number of extensions, by filing a written notice of extension with the recorder of the county where the lien was filed. The extension notice shall be made within ten years from the date the last assessment in point of time is issued or within ten years of a prior extension.

9.6(2) A lien will be released by the director when payment of the tax, penalty, interest and costs is made. The release shall be evidenced by a satisfaction of the tax liability filed by the director with the

recorder and the proper entry of the satisfaction on the index of the notice of lien on file in the office of the recorder. The satisfaction of the tax, penalty, interest and costs will be filed immediately only if payment is made by cash, cashier's check, or similar guarantee of funds.

9.6(3) The director may charge off any account before the lien has lapsed if it meets one or more of the following criteria:

- a.* The taxpayer is deceased and there are no assets in the estate or there are no assets available for the payment of taxes under Iowa Code section 633.425.
- b.* The taxpayer is a defunct corporation.
- c.* The taxpayer is found not to have been properly notified by assessment notice of a tax due for a period outside the statute of limitations for assessment.
- d.* The taxpayer is retired because of age or total disability (see 701—73.12(425) for definition) with income such that it would cause the taxpayer undue financial hardship if the department enforced collection of past due taxes. The director may require an income statement, net worth statement or other evidence to determine when collection of tax would be a hardship on a taxpayer.
- e.* The taxpayer has unpaid tax amounting to less than \$50.
- f.* The taxpayer cannot be found, after diligent inquiry, and has no property upon which the lien can attach.
- g.* The taxpayer is insolvent with no property, real or personal, upon which the lien can attach.

A lien may be released by the director, as provided in subrule 9.6(2), when an account is charged off under “*c*,” “*d*,” “*e*,” “*f*,” or “*g*” above.

9.6(4) Liens filed without date of assessment. Notices of liens filed or extensions of liens filed, securing tax, penalty, interest, and fees remaining due and payable on January 1, 1990, and for periods thereafter without the date of the last assessment in point of time, expire ten years from the date the lien attaches, or at the expiration of the most recent ten-year extension, unless the notice of the lien or notice of the extension is refiled to include the date of the last assessment in point of time, in which case the date of the assessment controls the expiration date.

This rule is intended to implement Iowa Code section 422.26.

701—9.7(422,423) Fees. Any fee charged by the recorder for recording a lien or a lien extension will be paid by the department, with the cost added to the unpaid liability of the taxpayer.

These rules are intended to implement Iowa Code section 422.26 and chapter 424.

CHAPTER 10

INTEREST, PENALTY, EXCEPTIONS TO PENALTY, AND JEOPARDY ASSESSMENTS

[Prior to 12/17/86, Revenue Department[730]]

Rules 701—10.20(421) to 701—10.111(422A) are excerpted from 701—Chs 12, 30, 44, 46, 52, 58, 63, 81, 86, 88, 89, 104, IAB 1/23/91

701—10.1(421) Definitions. As used in the rules contained herein, the following definitions apply unless the context otherwise requires:

10.1(1) “*Department*” means the department of revenue.

10.1(2) “*Director*” means the director of the department or authorized representative.

10.1(3) “*Taxes*” means all taxes and charges arising under Title X of the Iowa Code, which include but are not limited to individual income, withholding, corporate income, franchise, sales, use, hotel/motel, railroad fuel, equipment car, replacement tax, statewide property tax, motor vehicle fuel, and inheritance taxes and the environmental protection charge imposed upon petroleum diminution due and payable to the state of Iowa.

[ARC 1545C, IAB 7/23/14, effective 8/27/14]

701—10.2(421) Interest. Except where a different rate of interest is provided by Title X of the Iowa Code, the rate of interest on interest-bearing taxes and interest-bearing refunds arising under Title X is fixed for each calendar year by the director. In addition to any penalty computed, there shall be added interest as provided by law from the original due date of the return. Any portion of the tax imposed by statute which has been erroneously refunded and is recoverable by the department shall bear interest as provided in Iowa Code section 421.7, subsection 2, from the date of payment of the refund, considering each fraction of a month as an entire month. Interest which is not judgment interest is not payable on sales and use tax, local option tax, and hotel and motel tax refunds. *Herman M. Brown v. Johnson*, 248 Iowa 1143, 82 N.W.2d 134 (1957); *United Telephone Co. v. Iowa Department of Revenue*, 365 N.W.2d 647 (Iowa 1985). However, interest which is not judgment interest accrues on such refunds on or after January 1, 1995, and is payable on sales and use tax, local option tax and hotel and motel tax refunds on or after January 1, 1995.

10.2(1) Calendar year 1982. The rate of interest upon all unpaid taxes which are due as of January 1, 1982, will be 17 percent per annum (1.4% per month). This interest rate will accrue on taxes which were due and unpaid as of, or after, January 1, 1982. In addition, this interest rate will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before, on, or after January 1, 1982. This interest rate of 17 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 1982.

EXAMPLES:

1. The taxpayer, X corporation, owes corporate income taxes assessed to it for the year 1975. The assessment was made by the department in 1977. On January 1, 1982, that assessment had not been paid. The rate of interest on the unpaid tax assessed has accrued at the rate of 9 percent per annum (0.75% per month) through December 31, 1981. Commencing on January 1, 1982, the rate of interest on the unpaid tax will thereafter accrue at the rate of 17 percent per annum for 1982 (1.4% per month). If the tax liability is not paid in 1982, the rate of interest will then accrue in 1983 in accordance with the rate fixed by the director as set forth in Iowa Code section 421.7.

2. The taxpayer, Y, owes retail sales taxes assessed to it for the audit period January 1, 1979, through December 31, 1982. The assessment is made on March 1, 1983. For the tax periods in which the tax became due prior to January 1, 1982, the interest rate on such unpaid sales taxes accrued at 9 percent per annum (0.75% per month). Commencing on January 1, 1982, the entire unpaid portion of the tax assessed which was delinquent at that time will begin to accrue interest at the rate of 17 percent per annum. Those portions of the tax assessed first becoming delinquent in 1982 will bear interest at the rate of 17 percent per annum (1.4% per month). In the event that any portion of the tax assessed remains unpaid on January 1, 1983, the rate of interest will then accrue in 1983 in accordance with the rate fixed by the director as set forth in Iowa Code section 421.7.

3. The taxpayer, Z, files a refund claim for 1978 individual income taxes in March 1982. The refund claim is allowed in May 1982, and is paid. Z is entitled to receive interest at the rate of 9 percent

per annum (0.75% per month) upon the refunded tax accruing through December 31, 1981, and is entitled to interest at the rate of 17 percent per annum (1.4% per month) upon such tax from January 1, 1982, until the refund is paid.

4. A's 1981 individual income tax liability becomes delinquent on May 1, 1982. A owes interest, commencing on May 1, 1982, at the rate of 17 percent per annum (1.4% per month). In the event that A does not pay the liability in 1982, the rate of interest will then accrue in 1983 in accordance with the rate fixed by the director as set forth in Iowa Code section 421.7.

5. Decedent died December 15, 1976. The inheritance tax was due 12 months after death, or December 15, 1977. Prior to the due date, the estate was granted an extension of time, until September 1, 1978, to file the return and pay the tax due. The tax, however, was paid March 15, 1982. Interest accrues on the unpaid tax during the period of the extension of time (December 15, 1977, to September 1, 1978) at the rate of 6 percent per annum. Interest accrues on the delinquent tax from September 1, 1978, through December 31, 1981, at the rate of 8 percent per annum. Interest accrues on the delinquent tax from January 1, 1982, to the date of payment on March 15, 1982, at the rate of 17 percent per annum.

6. B files a refund for sales taxes paid for the periods January 1, 1979, through December 31, 1982, in March 1983. The refund is allowed in May 1983. Since no interest is payable on sales tax refunds, B is not entitled to any interest. *Herman M. Brown Co. v. Johnson*, 248 Iowa 1143 (1957). However, interest accrues and is payable on and after January 1, 1995.

The examples set forth in these rules are not meant to be all-inclusive. In addition, other rules set forth the precise circumstance when interest begins to accrue and whether interest accrues for each month or fraction of a month or annually as provided by law. Interest accrues as provided by law, regardless of whether the department has made a formal assessment of tax.

10.2(2) Calendar year 1983. The rate of interest upon all unpaid taxes which are due as of January 1, 1983, will be 14 percent per annum (1.2% per month). This interest rate will accrue on taxes which were due and unpaid as of, or after January 1, 1983. In addition, this interest rate will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before, on, or after January 1, 1983. This interest rate of 14 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 1983.

10.2(3) Calendar year 1984. The rate of interest upon all unpaid taxes which are due as of January 1, 1984, will be 9 percent per annum (0.8% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after, January 1, 1984. In addition, this interest rate will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before, on, or after January 1, 1984. This interest rate of 9 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 1984.

10.2(4) Calendar year 1985. The rate of interest upon all unpaid taxes which are due as of January 1, 1985, will be 10 percent per annum (0.8% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after, January 1, 1985. In addition, this interest rate will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before, on, or after January 1, 1985. This interest rate of 10 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 1985.

10.2(5) Calendar year 1986. The interest upon all unpaid taxes which are due as of January 1, 1986, will be 9 percent per annum (0.8% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after, January 1, 1986. In addition, this interest rate will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before, on, or after January 1, 1986. This interest rate of 9 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 1986.

10.2(6) Calendar year 1987. The interest upon all unpaid taxes which are due as of January 1, 1987, will be 9 percent per annum (0.8% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after January 1, 1987. In addition, this interest rate will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before, on, or after January 1, 1987. This interest rate of 9 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 1987.

10.2(7) *Calendar year 1988.* The interest upon all unpaid taxes which are due as of January 1, 1988, will be 8 percent per annum (0.7% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after January 1, 1988. In addition, this interest rate will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before, on, or after January 1, 1988. This interest rate of 8 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 1988.

10.2(8) *Calendar year 1989.* The interest upon all unpaid taxes which are due as of January 1, 1989, will be 9 percent per annum (0.8% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after January 1, 1989. In addition, this interest rate will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before, on, or after January 1, 1989. This interest rate of 9 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 1989.

10.2(9) *Calendar year 1990.* The interest upon all unpaid taxes which are due as of January 1, 1990, will be 11 percent per annum (0.9% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after January 1, 1990. In addition, this interest rate will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before, on, or after January 1, 1990. This interest rate of 11 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 1990.

10.2(10) *Calendar year 1991.* The interest upon all unpaid taxes which are due as of January 1, 1991, will be 12 percent per annum (1.0% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after, January 1, 1991. In addition, this interest rate will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before, on, or after January 1, 1991. This interest rate of 12 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 1991.

10.2(11) *Calendar year 1992.* The interest upon all unpaid taxes which are due as of January 1, 1992, will be 11 percent per annum (0.9% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after, January 1, 1992. In addition, this interest rate will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before, on, or after January 1, 1992. This interest rate of 11 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 1992.

10.2(12) *Calendar year 1993.* The interest upon all unpaid taxes which are due as of January 1, 1993, will be 9 percent per annum (0.8% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after, January 1, 1993. In addition, this interest rate will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before, on, or after January 1, 1993. This interest rate of 9 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 1993.

10.2(13) *Calendar year 1994.* The interest upon all unpaid taxes which are due as of January 1, 1994, will be 8 percent per annum (0.7% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after, January 1, 1994. In addition, this interest rate will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before, on, or after January 1, 1994. This interest rate of 8 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 1994.

10.2(14) *Calendar year 1995.* The interest upon all unpaid taxes which are due as of January 1, 1995, will be 9 percent per annum (0.8% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after, January 1, 1995. In addition, this interest rate will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before, on, or after January 1, 1995. This interest rate of 9 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 1995.

10.2(15) *Calendar year 1996.* The interest upon all unpaid taxes which are due as of January 1, 1996, will be 11 percent per annum (0.9% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after, January 1, 1996. In addition, this interest rate will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before, on, or after

January 1, 1996. This interest rate of 11 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 1996.

10.2(16) *Calendar year 1997.* The interest rate upon all unpaid taxes which are due as of January 1, 1997, will be 10 percent per annum (0.8% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after, January 1, 1997. In addition, this interest rate will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before or after January 1, 1997. This interest rate of 10 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 1997.

10.2(17) *Calendar year 1998.* The interest rate upon all unpaid taxes which are due as of January 1, 1998, will be 10 percent per annum (0.8% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after, January 1, 1998. In addition, this interest rate will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before or after January 1, 1998. This interest rate of 10 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 1998.

10.2(18) *Calendar year 1999.* The interest rate upon all unpaid taxes which are due as of January 1, 1999, will be 10 percent per annum (0.8% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after, January 1, 1999. In addition, this interest rate will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before or after January 1, 1999. This interest rate of 10 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 1999.

10.2(19) *Calendar year 2000.* The interest rate upon all unpaid taxes which are due as of January 1, 2000, will be 10 percent per annum (0.8% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after, January 1, 2000. In addition, this interest rate will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before or after January 1, 2000. This interest rate of 10 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 2000.

10.2(20) *Calendar year 2001.* The interest rate upon all unpaid taxes which are due as of January 1, 2001, will be 11 percent per annum (0.9% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after, January 1, 2001. In addition, this interest rate will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before or after January 1, 2001. This interest rate of 11 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 2001.

10.2(21) *Calendar year 2002.* The interest rate upon all unpaid taxes which are due as of January 1, 2002, will be 10 percent per annum (0.8% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after, January 1, 2002. In addition, this interest rate will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before or after January 1, 2002. This interest rate of 10 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 2002.

10.2(22) *Calendar year 2003.* The interest rate upon all unpaid taxes which are due as of January 1, 2003, will be 7 percent per annum (0.6% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after, January 1, 2003. In addition, this interest will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before or after January 1, 2003. This interest rate of 7 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 2003.

10.2(23) *Calendar year 2004.* The interest rate upon all unpaid taxes which are due as of January 1, 2004, will be 6 percent per annum (0.5% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after, January 1, 2004. In addition, this interest will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before or after January 1, 2004. This interest rate of 6 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 2004.

10.2(24) *Calendar year 2005.* The interest rate upon all unpaid taxes which are due as of January 1, 2005, will be 6 percent per annum (0.5% per month). This interest rate will accrue on taxes which are

due and unpaid as of, or after, January 1, 2005. In addition, this interest will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before or after January 1, 2005. This interest rate of 6 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 2005.

10.2(25) Calendar year 2006. The interest rate upon all unpaid taxes which are due as of January 1, 2006, will be 8 percent per annum (0.7% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after, January 1, 2006. In addition, this interest will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before or after January 1, 2006. This interest rate of 8 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 2006.

10.2(26) Calendar year 2007. The interest rate upon all unpaid taxes which are due as of January 1, 2007, will be 10 percent per annum (0.8% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after, January 1, 2007. In addition, this interest will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before or after January 1, 2007. This interest rate of 10 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 2007.

10.2(27) Calendar year 2008. The interest rate upon all unpaid taxes which are due as of January 1, 2008, will be 10 percent per annum (0.8% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after, January 1, 2008. In addition, this interest will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before or after January 1, 2008. This interest rate of 10 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 2008.

10.2(28) Calendar year 2009. The interest rate upon all unpaid taxes which are due as of January 1, 2009, will be 8 percent per annum (0.7% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after, January 1, 2009. In addition, this interest will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before or after January 1, 2009. This interest rate of 8 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 2009.

10.2(29) Calendar year 2010. The interest rate upon all unpaid taxes which are due as of January 1, 2010, will be 5 percent per annum (0.4% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after, January 1, 2010. In addition, this interest will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before or after January 1, 2010. This interest rate of 5 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 2010.

10.2(30) Calendar year 2011. The interest rate upon all unpaid taxes which are due as of January 1, 2011, will be 5 percent per annum (0.4% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after, January 1, 2011. In addition, this interest will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before or after January 1, 2011. This interest rate of 5 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 2011.

10.2(31) Calendar year 2012. The interest rate upon all unpaid taxes which are due as of January 1, 2012, will be 5 percent per annum (0.4% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after, January 1, 2012. In addition, this interest will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before or after January 1, 2012. This interest rate of 5 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 2012.

10.2(32) Calendar year 2013. The interest rate upon all unpaid taxes which are due as of January 1, 2013, will be 5 percent per annum (0.4% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after, January 1, 2013. In addition, this interest will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before or after January 1, 2013. This interest rate of 5 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 2013.

10.2(33) Calendar year 2014. The interest rate upon all unpaid taxes which are due as of January 1, 2014, will be 5 percent per annum (0.4% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after, January 1, 2014. In addition, this interest will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before or after January 1, 2014. This interest rate of 5 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 2014.

10.2(34) Calendar year 2015. The interest rate upon all unpaid taxes which are due as of January 1, 2015, will be 5 percent per annum (0.4% per month). This interest rate will accrue on taxes which are due and unpaid as of, or after, January 1, 2015. In addition, this interest will accrue on tax refunds which by law accrue interest, regardless of whether the tax to be refunded is due before or after January 1, 2015. This interest rate of 5 percent per annum, whether for unpaid taxes or tax refunds, will commence to accrue in 2015.

This rule is intended to implement Iowa Code section 421.7.

[ARC 8551B, IAB 2/24/10, effective 3/31/10; ARC 9308B, IAB 12/29/10, effective 2/2/11; ARC 9966B, IAB 1/11/12, effective 2/15/12; ARC 0557C, IAB 1/9/13, effective 2/13/13; ARC 1250C, IAB 12/25/13, effective 1/29/14; ARC 1767C, IAB 12/10/14, effective 1/14/15]

701—10.3(422,423,450,452A) Interest on refunds and unpaid tax.

10.3(1) Interest on refunds. For those taxes on which interest accrues on refunds under Iowa Code sections 422.25(3), 422.28, 450.94, and 452A.65, interest shall accrue through the month in which the refund is mailed to the taxpayer and no further interest will accrue unless the department did not use the most current address as shown on the latest return or refund claim filed with the department.

10.3(2) Interest on unpaid tax. Interest due on unpaid tax is not a penalty, but rather it is compensation to the government for the period the government was deprived of the use of money. Therefore, interest due cannot be waived. *Vick v. Phinney*, 414 F.2d 444, 448 (5th CA 1969); *Time, Inc. v. United States*, 226 F.Supp. 680, 686 (S.D. N.Y. 1964); *In Re Jeffco Power Systems*, Dep't of Revenue Hearing Officer decision, Docket No. 77-9-6A-A (1978); *Waterloo Courier, Inc. v. Iowa Department of Revenue and Finance*, Case No. LACV081252, Black Hawk County District Court, December 30, 1999.

This rule is intended to implement Iowa Code sections 422.25(3), 422.28, 423.47, 450.94 and 452A.65.

[ARC 7761B, IAB 5/6/09, effective 6/10/09]

701—10.4(421) Frivolous return penalty. A \$500 civil penalty is imposed on the return of a taxpayer that is considered to be a "frivolous return." A "frivolous return" is: (1) A return which lacks sufficient information from which the substantial correctness of the amount of tax liability can be determined or contains information that on its face indicates that the amount of tax shown is substantially incorrect, or (2) a return which reflects a position of law which is frivolous or is intended to delay or impede the administration of the tax laws of this state.

If the frivolous return penalty is applicable, the penalty will be imposed in addition to any other penalty which has been assessed. If the frivolous return penalty is relevant, the penalty may be imposed even under circumstances when it is determined that there is no tax liability on the return.

The frivolous return penalty is virtually identical to the penalty for frivolous income tax returns which is authorized in Section 6702 of the Internal Revenue Code. The department will follow federal guidelines and court cases when determining whether or not the frivolous return penalty should be imposed.

The frivolous return penalty may be imposed on all returns filed with the department and not just individual income tax returns. The penalty may be imposed on an amended return as well as an original return. The penalty may be imposed on each return filed with the department.

10.4(1) Nonexclusive examples of circumstances under which the frivolous return penalty may be imposed. The following are examples of returns filed in circumstances under which the frivolous return penalty may be imposed:

a. A return claiming a deduction against income or a credit against tax liability which is clearly not allowed such as a “war,” “religious,” “conscientious objector” deduction or tax credit.

b. A blank or partially completed return that was prepared on the theory that filing a complete return and providing required financial data would violate the Fifth Amendment privilege against self-incrimination or other rights guaranteed by the Constitution.

c. An unsigned return where the taxpayer refused to sign because the signature requirement was “incomprehensible or unconstitutional” or the taxpayer was not liable for state tax since the taxpayer had not signed the return.

d. A return which contained personal and financial information on the proper lines but where the words “true, correct and complete” were crossed out above the taxpayer’s signature and where the taxpayer claimed the taxpayer’s income was not legal tender and was exempt from tax.

e. A return where the taxpayer claimed that income was not “constructively received” and the taxpayer was the nominee-agent for a trust.

f. A return with clearly inconsistent information such as when 99 exemptions were claimed but only several dependents were shown.

g. A document filed for refund of taxes erroneously collected with the contention that the document was not a return and that no wage income was earned. This was inconsistent with attached W-2 Forms reporting wages.

10.4(2) *Nonexclusive examples where the frivolous return penalty is not applicable.* The following examples illustrate situations where the frivolous return penalty would not be applicable:

a. A return which includes a deduction, credit, or other item which may constitute a valid item of dispute between the taxpayer and the department.

b. A return which includes innocent or inadvertent mathematical or clerical errors, such as an error in addition, subtraction, multiplication, or division or the incorrect use of a table provided by the department.

c. A return which includes a statement of protest or objection, provided the return contains all required information.

d. A return which shows the correct amount of tax due, but the tax due is not paid.

This rule is intended to implement Iowa Code section 421.8.

701—10.5(421) Improper receipt of credit or refund. A person who makes an erroneous application for refund or credit shall be liable for any overpayment received plus interest at the rate in effect under Iowa Code section 421.7, subsection 2. In addition, a person who willfully makes a false or frivolous application for refund or credit with the intent to evade tax or with the intent to receive a refund or credit to which the person is not entitled is guilty of a fraudulent practice and is liable for a penalty equal to 75 percent of the refund or credit claimed.

This rule is intended to implement Iowa Code section 421.27 as amended by 2010 Iowa Acts, House File 2531, section 124.

[ARC 9103B, IAB 9/22/10, effective 10/27/10]

PENALTY FOR TAX PERIOD BEGINNING AFTER JANUARY 1, 1991

701—10.6(421) Penalties. A penalty shall be assessed upon all tax and deposits due under the following circumstances:

1. For failure to timely file a return or deposit form there is a 10 percent penalty. This penalty, once imposed, will be assessed on all subsequent amounts due or required to be shown due on the return or deposit form.

EXAMPLE: The taxpayer fails to timely file a return and fails to timely pay the tax due. The department will assess a 10 percent penalty for failure to timely file the return but will not assess a 5 percent penalty for failure to timely pay. The department subsequently audits the untimely filed return and determines additional tax is due. The department shall assess a 10 percent penalty on the additional tax found due by an audit.

2. For failure to timely pay the tax due on a return or deposit form, there is a 5 percent penalty.
3. For a deficiency of tax due on a return or deposit form found during an audit, there is a 5 percent penalty. For purposes of this penalty, the audit deficiency shall be assessed only when there is a timely filed return or deposit form.

Audit deficiency occurs when the department determines additional tax is due.

4. For willful failure to file a return or deposit form with the intent to evade tax, or in the case of willfully filing a false return or deposit form with the intent to evade tax, there is a 75 percent penalty.

The penalty rates are uniform for all taxes and deposits due under this chapter.

The penalty for failure to timely file will take precedence over the penalty for failure to timely pay or an audit deficiency when more than one penalty is applicable.

5. Examples to illustrate the computation of penalty for tax periods beginning on or after January 1, 1991.

The following are examples to illustrate the computation of penalties imposed under rule 701—10.7(421). For purposes of these examples, interest has been computed at the rate of 12 percent per year or 1 percent per month. The tax due amounts are assumed to be the total amounts required to be shown due when considering whether the failure to pay penalty should be assessed on the basis that less than 90 percent of the tax was paid.

Example (a) — Failure to File

- a. Tax due is \$100.
- b. Return filed 3 months and 10 days after the due date.
- c. \$100 paid with the return.

The calculation for additional tax due is shown below:

Tax	\$100
Penalty	10 (10% failure to timely file)
Interest	4 (4 months interest)
Total	<u>\$114</u>
Less payment	100
Additional tax due	<u>\$ 14</u>

Example (b) — Failure to Pay

- a. Tax due is \$100.
- b. Return is timely filed.
- c. \$0 paid.

The calculation for the total amount due 5 months after the due date is shown below:

Tax	\$100
Penalty	5
Interest	5 (5 months interest)
Total	<u>\$110</u>

Example (c) — Failure to File and Failure to Pay

- a. Tax due is \$100.
- b. Return is filed 2 months and 10 days after the due date.
- c. \$0 paid.

The calculation for the total amount due 3 months after the due date is shown below:

Tax	\$100
Penalty	10 (10% for failure to file)
Interest	<u>3</u> (3 months interest)
Total due in 3rd month	\$113

Example (d) — Audit on Timely Filed Return

- \$100 in additional tax found due.
- Timely filed return.
- Audit completed 8 months after the due date of the return.
- Return showed \$100 as the computed tax, which was paid with the return.

The calculation for the total amount due is shown below:

Computed tax after audit	\$200
Less tax paid with return	<u>100</u>
Additional tax due	\$100
Penalty	5 (5% for audit deficiency)
Interest	<u>8</u> (8 months interest)
Total due	\$113

Example (e) — Audit on Late Return Granted an Exception From Failure to File

- Tax due is \$100.
- Return filed 3 months and 10 days after the due date.
- \$100 paid with the return.
- Taxpayer is granted an exception from penalty for failure to file. (Return is then considered timely filed.)
- Audit completed 8 months after the due date of the return. \$100 additional tax found due.
- Return showed \$100 as the computed tax which was paid with the return.

The computation for the total amount due is shown below:

Computed tax after audit	\$200
Less tax paid with return	<u>100</u>
Additional tax due	\$100
Penalty	5 (5% for audit deficiency. No penalty for failure to file.)
Interest	<u>8</u> (8 months interest)
Total due	\$113

Example (f) — Audit on Late Filed Return No Pay Return

- \$100 claimed as tax on the return.
- \$100 in additional tax found due.
- Return filed 3 months and 10 days after the due date.
- Audit completed 8 months after the due date.

The computation for the total amount due is shown below:

Computed tax after audit	\$200
Penalty	20 (10% for failure to file)
Interest	<u>16</u> (8 months interest)
Total due	\$236

701—10.7(421) Waiver of penalty—definitions. A penalty, if assessed, shall be waived by the department upon a showing of the circumstances stated below.

10.7(1) For purposes of these rules, the following definitions apply:

“Act of God” means an unusual and extraordinary manifestation of nature which could not reasonably be anticipated or foreseen and cannot be prevented by human care, skill, or foresight. There is a rebuttable presumption that an “act of God” that precedes the due date of the return or form by 30 days is not an act of God for purposes of an exception to penalty.

“Immediate family” includes the spouse, children, or parents of the taxpayer. There is a rebuttable presumption that relatives of the taxpayer beyond the relation of spouse, children, or parents of the taxpayer are not within the taxpayer’s immediate family for purposes of the waiver exceptions.

“Sanctioned self-audit program” means an audit performed by the taxpayer with forms provided by the department as a result of contact by the department to the taxpayer prior to voluntary filing or payment of the tax. Filing voluntarily without contact by the department does not constitute a sanctioned self-audit.

“Serious, long-term illness or hospitalization” means an illness or hospitalization, documented by written evidence, which precedes the due date of the return or form by no later than 30 days and continues through the due date of the return or form and interferes with the timely filing of the return or form. There is a rebuttable presumption that an illness or hospitalization that precedes the due date of the return or form by more than 30 days is not an illness or hospitalization for purposes of an exception to penalty. The taxpayer will be provided an automatic extension of 30 days from the date the return or form is originally due or the termination of the serious, long-term illness or hospitalization whichever is later without incurring penalty. The taxpayer has the burden of proof on whether or not a serious, long-term illness or hospitalization has occurred.

“Substantial authority” means the weight of authorities for the tax treatment of an item is substantial in relation to the weight of authorities supporting contrary positions.

In determining whether there is substantial authority, only the following will be considered authority: applicable provisions of Iowa statutes; the Internal Revenue Code; Iowa administrative rules construing those statutes; court cases; administrative rulings; legal periodicals; department newsletters and tax return and deposit form instruction booklets; tax treaties and regulations; and legislative intent as reflected in committee reports.

Conclusions reached in treaties, legal opinions rendered by other tax professionals, descriptions of statutes prepared by legislative staff, legal counsel memoranda, and proposed rules and regulations are not authority.

There is substantial authority for the tax treatment of an item if there is substantial authority at the time the return containing the item is due to be filed or there was substantial authority on the last day of the taxable year to which the return relates.

The taxpayer must notify the department at the time the return, deposit form, or payment is originally due of the substantial authority the taxpayer is relying upon for not filing the return or deposit form or paying the tax due.

10.7(2) Reserved.

701—10.8(421) Penalty exceptions. Under certain circumstances the penalty for failure to timely file a return or deposit, failure to timely pay the tax shown due, or the tax required to be shown due with the filing of a return or a deposit form, or failure to pay following an audit by the department is waived.

When an exception is granted under subrule 10.9(1), the return or deposit form is considered timely filed for purposes of nonimposition of penalty only.

10.8(1) For failure to timely file a return or deposit form, the 10 percent penalty is waived upon a showing of the following exceptions:

a. At least 90 percent of the tax required to be shown due has been paid by the due date of the tax return or deposit form.

b. One late return allowed. A taxpayer required to file a return or deposit form quarterly, monthly, or semimonthly is allowed one untimely filed return or deposit form within a three-year period. The use by the taxpayer of any other penalty exception under this subrule will not count as a late return or deposit form for purposes of this subrule.

The exception for one late return in a three-year period is determined on the basis of the tax period for which the return or form is due and not the date on which the return is filed.

c. Death of a taxpayer, member of the immediate family of the taxpayer, or death of the person directly responsible for filing the return and paying the tax, when the death interferes with timely filing. There is a rebuttable presumption that a death which occurs more than 30 days before the original date the return or form is due does not interfere with timely filing.

d. The onset of serious, long-term illness or hospitalization of the taxpayer, a member of the taxpayer's immediate family, or the person directly responsible for filing the return and paying the tax.

e. Destruction of records by fire, flood, or act of God.

f. The taxpayer presents proof that the taxpayer at the due date of the return, deposit form, or payment relied upon applicable, documented, written advice made specifically to the taxpayer, the taxpayer's preparer, or to an association representative of the taxpayer from the department, state department of transportation, county treasurer, or federal Internal Revenue Service. The advice should be relevant to the agency offering the advice and not beyond the scope of the agency's area of expertise and knowledge. The advice must be current and not superseded by a court decision, ruling of a quasi-judicial body such as an administrative law judge, the director, or the state board of tax review, or by the adoption, amendment, or repeal of a rule or law.

g. Reliance upon the results of a previous audit was a direct cause for failure to file or pay where the previous audit expressly and clearly addressed the issue and the previous audit results have not been superseded by a court decision or by adoption, amendment, or repeal of a rule or law.

h. The taxpayer presents documented proof of substantial authority to rely upon a particular position or upon proof that all facts and circumstances are disclosed on a return or deposit form. Mathematical, computation, or transposition errors are not considered as facts and circumstances disclosed on a return or deposit form. These types of errors will not be considered as penalty exceptions.

i. The return, deposit form, or payment is timely, but erroneously, mailed with adequate postage to the Internal Revenue Service, another state agency, or a local government agency and the taxpayer provides proof of timely mailing with adequate postage. The taxpayer must provide competent evidence of the mailing as stated in Iowa Code section 622.105.

j. The tax has been paid by the wrong licensee and the payments were timely remitted to the department for one or more tax periods prior to notification by the department.

k. The failure to file was discovered through a sanctioned self-audit program conducted by the department.

l. Effective for estates with disclaimers filed on or after July 1, 2007, penalty will not be imposed for a late-filed Iowa inheritance tax return if the sole reason for the late-filed inheritance tax return is due to a beneficiary's decision to disclaim property or disclaim an interest in property from the estate. However, for the penalty to be waived, the Iowa inheritance tax return must be filed and all tax must be paid to the department within the later of nine months from the date of death or 60 days from the delivery or filing date of the disclaimer pursuant to Iowa Code section 633E.12.

10.8(2) For failure to timely pay the tax due on a return or deposit form, the 5 percent penalty is waived upon a showing of the following exceptions:

a. At least 90 percent of the tax required to be shown due has been paid by the due date of the tax return or deposit form.

b. The taxpayer voluntarily files an amended return and pays all tax shown to be due on the return prior to any contact by the department, except under a sanctioned self-audit program conducted by the department.

c. The taxpayer provides written notification to the department of a federal audit while it is in progress and voluntarily files an amended return which includes a copy of the federal document showing the final disposition or final federal adjustments within 60 days of the final disposition of the federal government's audit.

d. The taxpayer presents proof that the taxpayer relied upon applicable, documented, written advice specifically made to the taxpayer, to the taxpayer's preparer, or to an association representative of the taxpayer from the department, state department of transportation, county treasurer, or federal

Internal Revenue Service, whichever is appropriate, that has not been superseded by a court decision, ruling by a quasi-judicial body, or the adoption, amendment, or repeal of a rule or law.

e. Reliance upon results in a previous audit was a direct cause for the failure to pay the tax required to be shown due where the previous audit expressly and clearly addressed the issue and the previous audit results have not been superseded by a court decision, or the adoption, amendment, or repeal of a rule or law.

f. The taxpayer presents documented proof of substantial authority to rely upon a particular position or upon proof that all facts and circumstances are disclosed on a return or deposit form. Mathematical, computation, or transposition errors are not considered as facts and circumstances disclosed on a return or deposit form. These types of errors will not be considered as penalty exceptions.

g. The return, deposit form, or payment is timely, but erroneously, mailed with adequate postage to the Internal Revenue Service, another state agency, or a local government agency and the taxpayer provides proof of timely mailing with adequate postage. The taxpayer must provide competent evidence of the mailing as stated in Iowa Code section 622.105.

h. The tax has been paid by the wrong licensee and the payments were timely remitted to the department for one or more tax periods prior to notification by the department.

i. Effective for estates with disclaimers filed on or after July 1, 2007, penalty will not be imposed for failure to pay Iowa inheritance tax if the sole reason for the failure to pay Iowa inheritance tax is due to a beneficiary's decision to disclaim property or disclaim an interest in property from the estate. However, for the penalty to be waived, the Iowa inheritance tax return must be filed and all tax must be paid to the department within the later of nine months from the date of death or 60 days from the filing date of the disclaimer pursuant to Iowa Code section 633E.12.

10.8(3) For a deficiency of tax due on a return or deposit form found during an audit, the 5 percent penalty is waived under the following exceptions:

a. At least 90 percent of the tax required to be shown due has been paid by the due date.

b. The taxpayer presents proof that the taxpayer relied upon applicable, documented, written advice specifically made to the taxpayer, to the taxpayer's preparer, or to an association representative of the taxpayer from the department, state department of transportation, county treasurer, or federal Internal Revenue Service, whichever is appropriate, that has not been superseded by a court decision, ruling by a quasi-judicial body, or the adoption, amendment, or repeal of a rule or law.

c. Reliance upon results in a previous audit was a direct cause for the failure to pay the tax shown due or required to be shown due where the previous audit expressly and clearly addressed the issue and the previous audit results have not been superseded by a court decision, or the adoption, amendment, or repeal of a rule or law.

d. The taxpayer presents documented proof of substantial authority to rely upon a particular position or upon proof that all facts and circumstances are disclosed on a return or deposit form. Mathematical, computation, or transposition errors are not considered as facts and circumstances disclosed on a return or deposit form. These types of errors will not be considered as penalty exceptions. [ARC 7761B, IAB 5/6/09, effective 6/10/09]

701—10.9(421) Notice of penalty exception for one late return in a three-year period. The penalty exception for one late return in a three-year period will automatically be applied to a return or deposit form by the department if the taxpayer is eligible for the exception.

The exception for one late return in a three-year period is applied to the returns or deposit forms in the order they are processed and not in the order which the returns or deposit forms should have been filed.

701—10.10 to 10.19 Reserved.

MOTOR FUEL

[Prior to 1/23/91, see 701—63.8(324) and 63.10(324)]

701—10.71(452A) Penalty and enforcement provisions.

10.71(1) *Illegal use of dyed fuel.*

a. The illegal use of dyed fuel in the supply tank of a motor vehicle shall result in a civil penalty assessed against the owner or operator of the motor vehicle as follows:

- (1) A \$500 penalty for the first violation.
- (2) A \$1,000 penalty for a second violation within three years of the first violation.
- (3) A \$2,000 penalty for third and subsequent violations within three years of the first violation.

b. For the purposes of this subrule, if multiple vehicles are discovered to be in violation of this subrule during one inspection, each vehicle is considered a separate first violation. For example, if three vehicles are discovered to be in violation during one inspection, the result is three \$500 penalties or \$1,500. On the other hand, if three vehicles owned by the same taxpayer are discovered to be in violation during three separate inspections, the first inspection would result in a \$500 penalty, the second inspection would result in a \$1,000 penalty, and the third inspection would result in a \$2,000 penalty. If one vehicle is discovered to be in violation during the first inspection, resulting in a \$500 penalty, but two vehicles are discovered to be in violation in a second inspection, the result of the second inspection would be two \$1,000 penalties, or \$2,000 total.

10.71(2) *Illegal importation of untaxed fuel.* A person who illegally imports motor fuel or undyed special fuel without a valid importer's license or supplier's license shall be assessed a civil penalty as stated below. However, the owner or operator of the importing vehicle shall not be guilty of violating the illegal import provision if it is shown by the owner or operator that the owner or operator reasonably did not know or reasonably should not have known of the illegal importation.

a. For a first violation, the importing vehicle shall be detained and a penalty of \$4,000 shall be paid before the vehicle will be released. The owner or operator of the importing vehicle or the owner of the fuel may be held liable for payment of the penalty.

b. For a second violation, the importing vehicle shall be detained and a penalty of \$10,000 shall be paid before the vehicle will be released. The owner or operator of the importing vehicle or the owner of the fuel may be held liable to pay the penalty.

c. For third and subsequent violations, the importing vehicle and the fuel shall be seized and a penalty of \$20,000 shall be paid before the vehicle will be released. The owner or operator of the importing vehicle or the owner of the fuel may be held liable to pay the penalty.

d. If the owner or operator of the importing vehicle or the owner of the fuel fails to pay the tax and penalty for a first or second offense, the importing vehicle and the fuel may be seized. The Iowa department of revenue, the Iowa department of transportation, or any peace officer, at the request of either department, may seize the vehicle and the fuel.

e. If the operator or owner of the importing vehicle or the owner of the fuel moves the vehicle or the fuel after the vehicle has been detained and a sticker has been placed on the vehicle stating that "this vehicle cannot be moved until the tax, penalty, and interest have been paid to the department of revenue," an additional penalty of \$10,000 shall be assessed against the operator or owner of the importing vehicle or the owner of the fuel.

10.71(3) *Improper receipt of fuel credit or refund.* If a person files an incorrect refund claim, in addition to the amount of the excess claim, a penalty of 10 percent shall be added to the amount by which the amount claimed and refunded exceeds the amount actually due and shall be paid to the department. If a person knowingly files a fraudulent refund claim with the intent to evade the tax, the penalty shall be 75 percent in lieu of the 10 percent. The person shall also pay interest on the excess refunded at the rate per month specified in Iowa Code section 421.7, counting each fraction of a month as an entire month, computed from the date the refund was issued to the date the excess refund is repaid to the state.

10.71(4) *Illegal heating of fuel.* The deliberate heating of taxable motor fuel or special fuel by dealers prior to consumer sale is a simple misdemeanor.

10.71(5) *Prevention of inspection.* The Iowa department of revenue or the Iowa department of transportation may conduct inspections for coloration, markers, and shipping papers at any place where taxable fuel is or may be loaded into transport vehicles, produced, or stored. Any attempts by a person to prevent, stop, or delay an inspection of fuel or shipping papers by authorized personnel shall be subject to a civil penalty of not more than \$2,000 per occurrence. Any law enforcement officer requested by the Iowa department of revenue or Iowa department of transportation may physically inspect, examine, or otherwise search any tank, fuel supply tank of a vehicle, reservoir, or other container that can or may be used for the production, storage, or transportation of any type of fuel.

10.71(6) Failure to conspicuously label a fuel pump. A retailer who does not conspicuously label a pump or other delivery facility as required by the Internal Revenue Service, that dispenses dyed diesel fuel so as to notify customers that it contains dyed fuel, shall pay to the department of revenue a penalty of \$100 per occurrence.

10.71(7) False or fraudulent return. Any person, including an officer of a corporation or a manager of a limited liability company, who is required to make, render, sign, or verify any report or return required by this chapter and who makes a false or fraudulent report, or who fails to file a report or return with the intent to evade the tax, shall be guilty of a fraudulent practice. Any person who aids, abets, or assists another person in making any false or fraudulent return or false statement in any return with the intent to evade payment of tax shall be guilty of a fraudulent practice.

10.71(8) Violation of a distributor's and dealer's right to blend conventional blendstock for oxygenate blending, gasoline, or diesel fuel and biofuel. A refiner, supplier, terminal operator, or terminal owner, as defined in Iowa Code section 452A.2, who violates a distributor's or dealer's right to blend conventional blendstock for oxygenate blending, gasoline, or diesel fuel and biofuel, as described in Iowa Code section 452A.6A, is subject to a civil penalty.

a. Suspected violations should be reported to the motor fuel examination section of the department. Supporting documentation should be provided.

b. The department will investigate to determine whether a violation has occurred.

c. If the department determines that a violation has occurred, a civil penalty of \$10,000 per violation will be assessed against the violator. Each day that a violation continues is a separate violation.

For more information on the blending rights of distributors and dealers, see 701—68.19(452A).

This rule is intended to implement Iowa Code sections 452A.2, 452A.6A and 452A.74A.

[ARC 8225B, IAB 10/7/09, effective 11/11/09; ARC 1442C, IAB 4/30/14, effective 6/4/14]

701—10.72(452A) Interest. Interest, based on the tax due, shall be assessed against the taxpayer for each month such tax remains unpaid. The interest shall accrue from the date the return was required to be filed. Each fraction of a month shall be considered a full month for the computation of interest. See rule 701—10.2(421) for the statutory interest rate commencing on or after January 1, 1982.

Refunds on reports or returns filed on or after July 1, 1997, will accrue interest beginning on the first day of the second calendar month following the date of payment or the date the return was filed or due to be filed, whichever is later, at the rate in effect under Iowa Code section 421.7, counting each fraction of a month as an entire month. Claims for refund filed under Iowa Code sections 452A.17 and 452A.21 will accrue interest beginning with the first day of the second calendar month following the date the refund claim is received by the department. See rule 701—10.3(422,450,452A).

This rule is intended to implement Iowa Code section 452A.65.

[ARC 1303C, IAB 2/5/14, effective 3/12/14]

701—10.73 to 10.75 Reserved.

CIGARETTES AND TOBACCO

[Prior to 1/23/91, see 701—81.8(98), 81.9(98), and 81.15(98)]

701—10.76(453A) Penalties.

10.76(1) Cigarettes. The following is a list of offenses which subject the violator to a penalty:

1. The failure of a permit holder to maintain proper records;
2. The sale of taxable cigarettes without a permit;
3. The filing of a late, false or incomplete report with the intent to evade tax by a cigarette distributor, distributing agent or wholesaler;
4. Acting as a distributing agent without a valid permit; and
5. A violation of any provision of Iowa Code chapter 453A or these rules.

Penalties for these offenses are as follows:

- A \$200 penalty for the first violation.
- A \$500 penalty for a second violation within three years of the first violation.

- A \$1,000 penalty for a third or subsequent violation within three years of the first violation. Penalties for possession of unstamped cigarettes are as follows:
 - A \$200 penalty for the first violation if a person is in possession of more than 40 but not more than 400 unstamped cigarettes.
 - A \$500 penalty for the first violation if a person is in possession of more than 400 but not more than 2,000 unstamped cigarettes.
 - A \$1,000 penalty for the first violation if a person is in possession of more than 2,000 unstamped cigarettes for violations occurring prior to July 1, 2004. A \$25 per pack penalty for the first violation if a person is in possession of more than 2,000 unstamped cigarettes for violations occurring on or after July 1, 2004.
 - For a second violation within three years of the first violation, the penalty is \$400 if a person is in possession of more than 40 but not more than 400 unstamped cigarettes; \$1,000 if a person is in possession of more than 400 but not more than 2,000 unstamped cigarettes; and \$2,000 if a person is in possession of more than 2,000 unstamped cigarettes for violations occurring prior to July 1, 2004. A \$35 per pack penalty applies if a person is in possession of more than 2,000 unstamped cigarettes for violations occurring on or after July 1, 2004.
 - For a third or subsequent violation within three years of the first violation, the penalty is \$600 if a person is in possession of more than 40 but not more than 400 unstamped cigarettes; \$1,500 if a person is in possession of more than 400 but not more than 2,000 unstamped cigarettes; and \$3,000 if a person is in possession of more than 2,000 unstamped cigarettes for violations occurring prior to July 1, 2004. A \$45 per pack penalty applies if a person is in possession of more than 2,000 unstamped cigarettes for violations occurring on or after July 1, 2004.

See rule 701—10.6(421) for penalties related to failure to timely file a return, failure to timely pay the tax due, audit deficiency, and willful failure to file a return with the intent to evade the tax. If, upon audit, it is determined that any person has failed to pay at least 90 percent of the tax imposed by Iowa Code chapter 453A, division I, which failure was not the result of a violation enumerated above, a penalty of 5 percent of the tax deficiency shall be imposed. This penalty is not subject to waiver for reasonable cause.

See rule 701—10.8(421) for statutory exceptions to penalty.

10.76(2) Tobacco.

See rule 701—10.6(421) for penalties related to failure to timely file a return, failure to timely pay the tax due, audit deficiency, and willful failure to file a return with the intent to evade the tax.

See rule 701—10.8(421) for statutory exceptions to penalty.

This rule is intended to implement Iowa Code sections 453A.28, 453A.31 and 453A.46 as amended by 2004 Iowa Acts, Senate File 2296.

701—10.77(453A) Interest.

10.77(1) Cigarettes. There shall be assessed interest at the rate established by rule 701—10.2(421) from the due date of the tax to the date of payment counting each fraction of a month as an entire month. For the purpose of computing the due date of any unpaid tax, a FIFO inventory method shall be used for cigarettes and stamps. See rule 701—10.6(421) for examples of penalty and interest.

10.77(2) Tobacco. The interest rate on delinquent tobacco tax is the rate established by rule 701—10.2(421) counting each fraction of a month as an entire month. If an assessment for taxes due is not allocated to any given month, the interest shall accrue from the date of assessment. See rule 701—10.6(421) for examples of penalty and interest.

This rule is intended to implement Iowa Code sections 453A.28 and 453A.46.

701—10.78(453A) Waiver of penalty or interest. Rescinded IAB 11/10/04, effective 12/15/04.

701—10.79(453A) Request for statutory exception to penalty. Any taxpayer who believes there is a good reason to object to any penalty imposed by the department for failure to timely file returns or pay the tax may submit a request for exception seeking that the penalty be waived. The request must be in

the form of a letter or affidavit and must contain all facts alleged by the taxpayer and a reason for why the taxpayer qualifies for the exceptions. See rule 701—10.8(421).

This rule is intended to implement Iowa Code sections 453A.31 and 453A.46.

701—10.80 to 10.84 Reserved.

701—10.112 to 10.114 Reserved.

ALL TAXES

701—10.115(421) Application of payments to penalty, interest, and then tax due for payments made on or after January 1, 1995, unless otherwise designated by the taxpayer. The department will not reapply prior payments made by the taxpayer to penalty or interest determined to be due after the date of

those prior payments. However, the department will apply payments to penalty and interest which were due at the time the payment was made.

Example (a) — Delinquent Return

- a. Tax due is \$1,000.
- b. Return filed two months late.
- c. \$1,000 paid with the return.
- d. The department bills the additional tax in the third month after the due date. The taxpayer pays the assessment in the third month.

The computation of additional tax is shown below:

Tax	\$1,000.00	
Penalty	100.00	(10% failure to file penalty)
Interest	14.00	(2 months interest)
Total	<u>\$1,114.00</u>	
Less payment	1,000.00	
Additional tax due	<u>\$ 114.00</u>	
Interest	.80	(1 month interest)
Total due	<u>\$ 114.80</u>	

Two years after the due date, the Internal Revenue Service conducts an audit and increases the taxpayer's taxable income. The department redetermines the taxpayer's liability 26 months after the due date as follows:

Tax as redetermined by the department	\$1,100.00	
Less paid with return	<u>1,000.00</u>	
Additional tax	\$ 100.00	
Penalty	10.00	(10% failure to file penalty)
Interest	18.20	(26 months interest)
Total due	<u>\$ 128.20</u>	

Example (b) — Timely Filed No Remit

- a. Tax due is \$1,000.
- b. Return timely filed.
- c. \$0 paid.

The calculation for the total amount due five months after the due date is shown below:

Tax	\$1,000.00	
Penalty	50.00	(5% failure to pay penalty)
Interest	35.00	(5 months interest)
Total due	<u>\$1,085.00</u>	

The department bills the additional tax in the fifth month after the due date and the taxpayer pays the additional amount in the eighth month after the due date. The payment is applied as follows:

Tax	\$1,000.00	
Penalty	50.00	(5% failure to pay penalty)
Interest	56.00	(8 months interest)
Total due	\$1,106.00	
Amount paid	\$1,085.00	

Balance tax due \$21.00 subject to interest until paid.

The balance due was not paid.

Three years after the due date the taxpayer forwards a copy of an Internal Revenue Service audit which increases the taxpayer's income to the department. The department recomputes the taxpayer's liability as follows:

Tax as redetermined by the department	\$1,200.00	
Less paid per prior audit	979.00	
Balance due	\$ 221.00	(includes the balance due of \$21)
Penalty	10.00	(5% failure to pay penalty on \$200, the \$21.00 already bears penalty)
Interest	54.52	(36 months interest on \$200 and 28 months interest on \$21)
Total due	\$ 285.52	

10.115(1) Refunds. In those instances where an audit reduced the amount of tax, penalty, and interest due over the amount paid, the department will reapply payments so that amount refunded is tax on which interest will accrue as set forth in the Iowa Code.

10.115(2) Partial payments made after notices of assessments are issued. Where partial payments are made after a notice of assessment is issued, the department will reapply payments to penalty, interest, and then to tax due until the entire assessed amount is paid. See *Ashland Oil Inc. v. Iowa Department of Revenue and Finance*, 452 N.W.2d 162 (Iowa 1990). If penalty, interest, and tax are due and owing for more than one tax period, any payment must be applied first to the penalty, then the interest, then the tax for the oldest tax period, then to the penalty, interest, and tax to the next oldest tax period, and so on until the payment is exhausted.

Where there are both agreed- and unagreed-to items as a result of an examination, the taxpayer and the department may agree to apply payments to the penalty, interest, and then to tax due on the agreed-to items of the examination when all of the penalty, interest, and tax on the agreed-to items are paid. In these instances, subsequent payments will not be applied to penalty and interest accrued on the agreed-to items of the examination.

This rule is intended to implement Iowa Code section 422.25(4).
[ARC 7761B, IAB 5/6/09, effective 6/10/09]

JEOPARDY ASSESSMENTS

701—10.116(422,453B) Jeopardy assessments. A jeopardy assessment may be made where a return has been filed and the director believes for any reason that assessment or collection of the tax will be jeopardized by delay, or where a taxpayer fails to file a return, whether or not formally called upon to file a return. In addition, all assessments made pursuant to Iowa Code chapter 453B are jeopardy assessments. The department is authorized to estimate the applicable tax base and the tax upon the basis of available information, add penalty and interest, and demand immediate payment.

A jeopardy assessment is due and payable when the notice of the assessment is served upon the taxpayer. Proceedings to enforce the payment of the assessment by seizure or sale of any property of the taxpayer may be instituted immediately.

This rule is intended to implement Iowa Code sections 422.30 and 453B.9.

701—10.117(422,453B) Procedure for posting bond. In the event a taxpayer seeks to post a bond in lieu of summary collection of a jeopardy assessment, pending final determination of the amount of tax legally due, an original and four copies of a separate written bond application conspicuously titled “Jeopardy Assessment Bond Request” must be filed with the clerk of the hearings section for the department. Thereafter, if the taxpayer and the department agree on an appropriate bond, the clerk of the hearings section for the department shall be notified and the bond shall be approved by the clerk of the hearings section for the department.

If the clerk of the hearings section for the department has not been notified that an agreement on the bond has been reached within ten days after the date upon which the bond request was filed, the clerk of the hearings section for the department shall transfer the file to the director who shall promptly schedule a hearing on the bond request with written notice to be given the taxpayer and the department at least ten days prior to the hearing.

This rule is intended to implement Iowa Code chapter 17A as amended by 1998 Iowa Acts, chapter 1202, and sections 422.30 and 453B.9.

701—10.118(422,453B) Time limits. Bond requests may be made anytime after a timely protest to the jeopardy assessment has been filed with the clerk of the hearings section for the department, except that any bond request whereby the taxpayer seeks to postpone a scheduled sale of assets seized by or on behalf of the department must be filed with the clerk of the hearings section for the department no later than ten days from the date on which notice of the sale was mailed to, or otherwise served upon, the taxpayer. Portions of an assessment which are undisputed must be paid in full at the time a bond request is filed.

This rule is intended to implement Iowa Code chapter 17A as amended by 1998 Iowa Acts, chapter 1202, and sections 422.30 and 453B.9.

701—10.119(422,453B) Amount of bond. In the event no agreement on the bond is reached, bonds must be posted in an amount to be determined by the director consistent with the following:

10.119(1) If property has been seized or a lien has been filed and the taxpayer seeks only to postpone the sale of property, pending final determination of the amount of tax legally due, the bond shall be in an amount equal to the expected depreciation loss, storage cost, insurance costs and any and all other costs associated with the distraint and storage of the property pending such final determination.

10.119(2) If property has been seized or a lien has been filed and the taxpayer seeks to prevent the sale of property and to have the property returned for the taxpayer’s own use, pending final determination of the amount of tax legally due, the bond shall be in an amount equal to the sale price the department can reasonably expect to realize on any property seized plus all costs related to the distraint and storage of the property.

10.119(3) If a taxpayer seeks to prevent the department from seizing property or placing a lien upon property, pending final determination of the amount of tax legally due, the bond shall be in an amount equal to the total amount of the department’s assessment including interest to the date of the bond.

Bonds may not be required in excess of double the amount of the department’s jeopardy assessment.

This rule is intended to implement Iowa Code chapter 17A as amended by 1998 Iowa Acts, chapter 1202, and sections 422.30 and 453B.9.

701—10.120(422,453B) Posting of bond. If the taxpayer fails to post the bond as agreed upon within 15 days from the date the bond is approved by the clerk of the hearings section for the department, no bond will be allowed and the director shall dismiss the bond request. If no agreement was reached and a bond order is issued by the director, the taxpayer has ten days to post the bond. If the bond is not posted within the ten-day period, the director shall dismiss the bond request.

This rule is intended to implement Iowa Code chapter 17A as amended by 1998 Iowa Acts, chapter 1202, and sections 422.30 and 453B.9.

701—10.121(422,453B) Order. The director’s order shall be in writing and shall include findings of fact based solely on the evidence in the record and on matters officially noticed in the record and shall include

conclusions of law. The findings of fact and conclusions of law shall be separately stated. Findings of fact shall be prefaced by a concise and explicit statement of underlying facts supporting the findings. Each conclusion of law shall be supported by cited authority or by a reasoned opinion.

Orders will be issued within a reasonable time after termination of the hearing. Parties shall be promptly notified of each order by delivery to them of a copy of the order by personal service or by ordinary mail.

This rule is intended to implement Iowa Code chapter 17A as amended by 1998 Iowa Acts, chapter 1202, and sections 422.30 and 453B.9.

701—10.122(422,453B) Director’s order. The director’s order constitutes the final order of the department for purposes of judicial review. Parties shall be promptly notified of the director’s order by delivery to them of a copy of the order by personal service or by ordinary mail.

This rule is intended to implement Iowa Code chapter 17A as amended by 1998 Iowa Acts, chapter 1202, and sections 422.30 and 453B.9.

701—10.123(422,453B) Type of bond. The bond shall be payable to the department for the use of the state of Iowa and shall be conditioned upon the full payment of the tax, penalty, interest, or fees that are found to be due which remain unpaid upon the resolution of the contested case proceedings up to the amount of the bond. Upon application of the taxpayer or the department, the director may, upon hearing, fix a greater or lesser amount to reflect changed circumstances, but only after ten days’ prior notice is given to the department or the taxpayer as the case may be.

A personal bond, without a surety, is only permitted if the taxpayer posts with the clerk of the hearings section for the department, cash, a cashier’s check, a certificate of deposit, or other marketable securities which are approved by the director with a readily ascertainable value which is equal in value to the total amount of the bond required. If a surety bond is posted, the surety on the bond may be either personal or corporate. The provisions of Iowa Code chapter 636 relating to personal and corporate sureties shall govern to the extent not inconsistent with the provisions of this subrule.

This rule is intended to implement Iowa Code chapter 17A as amended by 1998 Iowa Acts, chapter 1202, and sections 422.30 and 453B.9.

701—10.124(422,453B) Form of surety bond. The surety bond posted shall be in substantially the following form:

BEFORE THE IOWA STATE DEPARTMENT OF REVENUE
HOOVER STATE OFFICE BUILDING
DES MOINES, IOWA

IN THE MATTER OF	*	
	*	
(Taxpayer’s Name, Address and	*	<u>SURETY BOND</u>
designate proceeding, e.g.,	*	
income, sales, etc.)	*	DOCKET NO.
	*	

KNOW ALL PERSONS BY THESE PRESENTS:

That we _____ (taxpayer) _____ as principal, and _____ (surety) _____, as surety, of the county of _____, and State of Iowa, are held and firmly bound unto the Iowa Department of Revenue for the use of the State of Iowa, in the sum of \$ _____ dollars, lawful money of the United States, for the payment of which sum we jointly and severally bind ourselves, our heirs, devisees, successors and assigns firmly by these presents. The condition of the foregoing obligations are, that, whereas the above-named principal has protested an assessment of tax, penalty, interest,

or fees or any combination of them, made by the Iowa Department of Revenue, now if the principal _____ shall promptly pay the amount of the assessed tax, penalty, interest or fees found to be due upon the resolution of the contested case proceedings, then this bond shall be void, otherwise to remain in full force and effect.

Dated this _____ day of _____, _____.

Principal

Surety

Subscribed and sworn to before me the undersigned Notary Public this _____ day of _____, _____.

(Seal)

Notary Public in and
for the State of Iowa

701—10.125(422,453B) Duration of the bond. The bond shall remain in full force and effect until the conditions of the bond have been fulfilled or until the bond is otherwise exonerated as provided by law.

This rule is intended to implement Iowa Code sections 422.30 and 453B.9.

701—10.126(422,453B) Exoneration of the bond. Upon conclusion of the contested case administrative proceedings, the bond shall be exonerated by the director when any of the following events occur: upon full payment of the tax, penalty, interest, costs or fees found to be due; upon filing a bond for the purposes of judicial review which bond is sufficient to secure the unpaid tax penalty, interest, costs and fees; or if no additional tax, penalty, interest, costs or fees are found to be due that have not been previously paid, upon entry of a final unappealable order which resolves the underlying protest.

This rule is intended to implement Iowa Code chapter 17A as amended by 1998 Iowa Acts, chapter 1202, and sections 422.30 and 453B.9.

TITLE II
EXCISECHAPTER 11
ADMINISTRATION

[Prior to 12/17/86, Revenue Department[730]]

701—11.1(422,423) Definitions. When the word “department” appears in this chapter it means the “Iowa Department of Revenue”; the word “director” means the “director of revenue”; the word “tax” means the “tax upon retail sales or use of tangible personal property or taxable services.”

This rule is intended to implement Iowa Code sections 422.3 and 422.68(1).

701—11.2(422,423) Statute of limitations. On and after July 1, 1987, the period for the department’s examination and determination of the correct amount of tax is unlimited in the following circumstances:

1. When a return has been filed, if the return was false or fraudulent and made with the intent to evade tax, or

2. If there has been a failure to file a return.

11.2(1) Varying periods of limitation. In all circumstances other than those described in the introductory paragraph of this rule, the department has the following limited amounts of time to examine a return, determine sales or use tax due, and give notice of assessment to the taxpayer:

a. For returns filed for quarterly periods beginning before January 1, 2000, five years.

b. For returns filed for quarterly periods beginning on or after January 1, 2000, and before January 1, 2001, four years.

c. For returns filed for quarterly periods beginning on or after January 1, 2001, three years.

For agreements entered into on and after July 1, 1992, the applicable period of limitation can be extended by the taxpayer’s signing a waiver on a form provided by the department.

11.2(2) One-year statute of limitations. Whenever books and records are examined by an employee designated by the director of the department of revenue, whether to verify a return or claim for refund or in making an audit, then an assessment must be issued within one year from the date of the completion of the examination. If not, the period for which the books and records were examined becomes closed and no assessment can be made. In no case is the one-year period of limitation an extension of or in addition to the periods of limitation described in subrule 11.2(1) above. *The Maytag Company v. Iowa State Tax Commission*, Equity No. 76-130-26112, Jasper County District Court, March 1, 1966.

EXAMPLE: An employee of the department examines the books and records of the taxpayer for the period of taxpayer’s returns filed on April 30, 1973, to April 30, 1977. The examination is completed on February 3, 1978. The notice of assessment must be given on or before April 30, 1978, in order to include the earliest tax return period above. If the notice of assessment is given on February 2, 1979, it is within the one-year period, but it would not be timely for purposes of the periods April 30, 1973, to December 31, 1973, although the subsequent periods beginning January 1, 1974, to April 30, 1977, could be included.

EXAMPLE: An employee of the department examines a taxpayer’s books and records located in Davenport for the returns filed on April 30, 1974, to April 30, 1977. The examination is completed on February 2, 1978. However, the taxpayer’s books and records for the same period located in Des Moines have not been examined. The one-year limitation period with reference to the Davenport books and records commences on February 2, 1978. However, the one-year period concerning the Des Moines books and records has not commenced.

This rule is intended to implement Iowa Code subsections 422.54(1), 422.54(2), and 422.70(1) as amended by 1999 Iowa Acts, chapter 156.

701—11.3(422,423) Credentials and receipts. Employees of the department have official credentials, and the taxpayer should require proof of the identity of persons claiming to represent the department. No charges shall be made nor gratuities of any kind accepted by an employee of the department for assistance given in or out of the office of the department.

All employees authorized to collect money are supplied with official receipt forms. When cash is paid to an employee, the taxpayer should require the employee to issue an official receipt. Such receipt shall show the taxpayer's name, address and permit number; the purpose for the payment; and the amount of the payment. The taxpayer should retain all receipts, and only official receipts for payment will be recognized by the department.

This rule is intended to implement Iowa Code sections 422.68(1), 422.71 and 423.23.

701—11.4(422,423) Retailers required to keep records.

11.4(1) *Records required.* The records required in this rule must be made available for examination upon request by the director or the director's authorized representative. The records must include the normal books of account ordinarily maintained by a person engaged in the activity in question and include all bills, receipts, invoices, cash register tapes, or other documents of original entry supporting the entries in the books of account as well as all schedules or working papers used in connection with the preparation of tax returns. In addition to the above, the following more specific records requirements apply:

- a. A daily record of the amount of all cash and time payments and credit sales.
- b. A record of the amount of all merchandise purchased and of all services performed for a retailer, including all bills of lading, invoices and copies of purchase orders.
- c. A record of all deductions and exemptions taken in filing a sales or use tax return.
- d. A true and complete inventory of the value of the stock on hand taken at least once a year. This includes an inventory of merchandise accepted as partial payment of the sales price on new merchandise.
- e. An accurate record of all services performed, including materials purchased for use in performing these services.
- f. Exemption certificates which are evidence of exempt sales must be executed or be in effect at or near (within 30 days of sale) the time of the sale. See 701—subrule 15.3(2).

11.4(2) *Microfilm and related record systems.* Microfilm, microfiche, COM (computer on machine), and other related reduction in storage systems will be referred to as "microfilm" in this rule.

Microfilm reproductions of general books of account, such as a cash book, journals, voucher registers, ledgers, etc., are not acceptable other than those maintained as specified by the Internal Revenue Service under Revenue Procedure 81-46, Section 5. Microfilm reproductions of supporting records of detail, i.e., sales invoices, purchase invoices, credit memoranda, etc., may be allowed providing all the following conditions are met and accepted by the taxpayer.

- a. Appropriate facilities are provided to ensure the preservation and readability of the films for periods required.
- b. Microfilm rolls are indexed, cross-referenced, labeled to show beginning and ending numbers or beginning and ending alphabetical listing of documents included, and are systematically filed.
- c. The taxpayer agrees to provide transcripts of any information contained on microfilm which may be required for purposes of verification of tax liability.
- d. Proper facilities are provided for the ready inspection and location of the particular records, including modern projectors for viewing and for the copying of records.
- e. Any audit of "detail" on microfilm may be subject to sample audit procedures, to be determined at the discretion of the director or a designated representative.
- f. A posting reference must be on each invoice.
- g. Credit memoranda must carry a reference to the document evidencing the original transaction.
- h. Documents necessary to support claimed exemptions from tax liability, such as bills of lading and purchase orders, must be maintained in an order by which they readily can be related to the transaction for which exemption is sought.

11.4(3) *Automatic data processing records.* Automatic data processing is defined in this rule as including electronic data processing (EDP) and will be referred to as ADP.

- a. An ADP tax accounting system must have built into its program a method of producing visible and legible records which will provide the necessary information for verification of the taxpayer's tax liability.

b. ADP records must provide an opportunity to trace any transaction back to the original source or forwarded to a final total. If detail printouts are not made of transactions at the time they are processed, then the system must have the ability to reconstruct these transactions.

c. A general ledger with source references will be produced as hard copy to coincide with financial reports of tax reporting periods. In cases where subsidiary ledgers are used to support the general ledger accounts, the subsidiary ledgers should also be produced periodically.

d. Supporting documents and audit trail. The audit trail should be designed so that the details underlying the summary accounting data may be identified and made available to the director or a designated representative upon request. The system should be so designed that the supporting documents, i.e., sales invoices, purchase invoices, credit memoranda, etc., are readily available. (An audit trail is defined as the condition of having sufficient documentary evidence to trace an item from source (invoice, check, etc.) to a financial statement or tax return; or the reverse; that is, to have an auditable system.)

e. Program documentation. A description of the ADP portion of the accounting program should be available. The statements and illustrations as to the scope of operations should be sufficiently detailed to indicate:

- (1) The application being performed.
- (2) The procedure employed in each application (which, for example, might be supported by flow charts, block diagrams or other satisfactory description of the input or output procedures).
- (3) The controls used to ensure accurate and reliable processing. Program and system changes, together with their effective dates, should be noted in order to preserve an accurate chronological record.

11.4(4) *Electronic data interchange or EDI technology.* The purpose of this subrule is to adopt the “Model Recordkeeping and Retention Regulation” report as promulgated by the Federation of Tax Administrators’ Steering Committee Task Force on EDI Audit and Legal Issues for Tax Administration (March 1996). This subrule defines the requirements imposed on taxpayers for the maintenance and retention of books, records, and other sources of information under Iowa Code sections 422.50, 422A.1, and 423.21. It is also the purpose of this subrule to address these requirements where all or part of the taxpayer’s records are received, created, maintained, or generated through various computer, electronic, and imaging processes and systems. A taxpayer must maintain all records that are necessary for determination of the correct tax liability as set forth in this subrule and the other subrules within rule 701—11.4(422,423). All required records must be made available on request by the department or its authorized representatives as provided in Iowa Code sections 422.50 and 423.21. If a taxpayer retains records required to be retained under this subrule in both machine-sensible and hard-copy formats, the taxpayer must make the records available to the department in machine-sensible format upon request of the department. Nothing in this subrule will be construed to prohibit a taxpayer from demonstrating tax compliance with traditional hard-copy documents or reproductions thereof, in whole or in part, whether or not the taxpayer also has retained or has the capability to retain records on electronic or other storage media in accordance with this subrule. However, as previously stated, this will not relieve a taxpayer of the obligation to comply with making records available to the department.

a. Definitions. The following definitions are applicable to this subrule:

“*Database management system*” means a software system that controls, relates, retrieves, and provides accessibility to data stored in a database.

“*Electronic data interchange*” or “*EDI technology*” means the computer-to-computer exchange of business transactions in a standardized, structured electronic format.

“*Hard copy*” means any documents, records, reports, or other data printed on paper.

“*Machine-sensible record*” means a collection of related information in an electronic format. Machine-sensible records do not include hard-copy records that are created or recorded on paper or stored in or by an imaging system such as microfilm, microfiche, or storage-only imaging systems.

“*Storage-only imaging system*” means a system of computer hardware and software that provides for the storage, retention, and retrieval of documents originally created on paper. It does not include any system, or part of a system, that manipulates or processes any information or data contained on the document in any manner other than to reproduce the document in hard copy or as an optical image.

“*Taxpayer*” as used in this subrule means any person, business, corporation, fiduciary, or other entity that is required to file a return with the department of revenue.

b. Record-keeping requirements—machine-sensible records. A taxpayer that maintains and retains books, records, and other sources of information in the form of machine-sensible records must comply with the following:

(1) General requirements. A taxpayer must comply with the following general requirements regarding the retention of machine-sensible records:

1. Machine-sensible records used to establish tax compliance must contain sufficient transaction-level detail information so that the details underlying the machine-sensible records can be identified and made available to the department upon request. A taxpayer has discretion to discard duplicated records and redundant information provided its responsibilities under this regulation are met.

2. At the time of an examination, the retained records must be capable of being retrieved and converted to a standard record format. The term “standard record format” does not mean that every taxpayer must keep records in an identical manner. Instead, it requires that if a taxpayer utilizes a code system to identify elements of information in each record when creating and maintaining records, the taxpayer is required to maintain a record of the meaning of each code and any code changes so the department may effectively review the taxpayer’s records.

3. Taxpayers are not required to construct machine-sensible records other than those created in the ordinary course of business. A taxpayer that does not create the electronic equivalent of a traditional paper document in the ordinary course of business is not required to construct a traditional paper document for tax purposes.

(2) Electronic data interchange requirements. A taxpayer must comply with the following requirements for records received through electronic data interchange:

1. Where a taxpayer uses an electronic data interchange process and technology, the level of record detail, in combination with other records related to the transactions, must be equivalent to that contained in an acceptable paper record. For example, for sales tax purposes the retained records should contain the following minimal information: vendor name, invoice date, product description, quantity purchased, price, amount of tax, indication of tax status, and shipping details. Codes may be used to identify some or all of the data elements, provided that the taxpayer provides a method which allows the department to interpret the coded information.

2. The taxpayer may capture the information necessary to satisfy the requirements set forth in the preceding paragraph at any level within the accounting system and need not retain the original EDI transaction records provided that the audit trail, authenticity, and integrity of the retained records can be established. For example, a taxpayer using electronic data interchange technology receives electronic invoices from its suppliers. The taxpayer decides to retain the invoice data from completed and verified EDI transactions in its accounts payable system rather than to retain the EDI transactions themselves. Since neither the EDI transaction nor the accounts payable system captures information from the invoice pertaining to product description and vendor name (i.e., they contain only codes for that information), the taxpayer also retains the other records such as its vendor master file and product code description lists and makes them available to the department. In this example, the taxpayer need not retain its original EDI transaction for tax purposes.

(3) Electronic data processing systems requirements. The requirements for an electronic data processing accounting system should be similar to that of a manual accounting system, in that an adequately designed accounting system should incorporate methods and records that will satisfy the requirements of this regulation. In addition, pursuant to Iowa Code sections 421.9, 422.15, 422.36, 422.50, 422.59, 422A.1, and 423.21, the department must have access to the taxpayer’s EDI processing, accounting, or other systems for the purposes of verifying or evaluating the integrity and reliability of those systems to provide accurate and complete records.

(4) Business process information. To verify the accuracy of the records being retained, the taxpayer must comply with the following:

1. Upon the request of the department, the taxpayer shall provide a description of the business process that created the retained records. The description must include the relationship between the

records and the tax documents prepared by the taxpayer and the measures employed to ensure the integrity of the records.

2. The taxpayer must be capable of demonstrating the following:

- The functions being performed as they relate to the flow of data through the system;
- The internal controls used to ensure accurate and reliable processing; and
- The internal controls used to prevent unauthorized addition to, alteration of, or deletion of retained records.

3. The following specific documentation is required for machine-sensible records retained pursuant to this regulation:

- Record formats or layouts;
- Field definitions (including a record of any changes in the system or codes with the meaning of all codes used to represent information);
- File descriptions (e.g., data set name); and
- Detailed charts of accounts and account descriptions.

c. Record maintenance requirements. The department recommends, but does not require, that taxpayers refer to the National Archives and Record Administration's (NARA) standards for guidance on the maintenance and storage of electronic records such as the labeling of records, the location and security of the storage environment, the creation of backup copies, and the use of periodic testing to confirm the continued integrity of the records. (The NARA standards may be found at 36 Code of Federal Regulations, Part 1234, July 1, 1995, Edition.) The taxpayer's computer hardware or software must accommodate the extraction and conversion of retained machine-sensible records.

d. Access to machine-sensible records. If a taxpayer retains records required to be retained under this regulation in both machine-sensible and hard-copy formats, the taxpayer must make the records available to the department in machine-sensible format upon the request of the department.

(1) The manner in which the department is provided access to machine-sensible records may be satisfied through a variety of means that must take into account a taxpayer's facts and circumstances through consultation with the taxpayer.

(2) Access will be provided in one or more of the following manners:

1. The taxpayer may arrange to provide the department with the hardware, software, and personnel resources to access the machine-sensible records.

2. The taxpayer may arrange for a third party to provide the hardware, software, and personnel resources necessary to access the machine-sensible records.

3. The taxpayer may convert the machine-sensible records to a standard record format specified by the department, including copies of files, on magnetic medium that is agreed to by the department.

4. The taxpayer and the department may agree on other means of providing access to the machine-sensible records.

e. Taxpayer's responsibility and discretionary authority. In conjunction with meeting the requirements of paragraph "b" of this subrule, a taxpayer may create files solely for the use of the department. For example, if a database management system is used, it is consistent with this subrule for the taxpayer to create and retain a file that contains the transaction-level detail from the database management system and that meets the requirements of paragraph "b" of this subrule. The taxpayer should document the process that created the separate file to show the relationship between that file and the original records. A taxpayer may contract with a third party to provide custodial or management services of the records. Such a contract will not relieve the taxpayer of its responsibilities under this rule.

f. Alternative storage media. For purposes of storage and retention, taxpayers may convert hard-copy documents received or produced in the normal course of business and required to be retained under this rule to microfilm, microfiche, or other storage-only imaging systems and may discard the original hard-copy documents, provided the rules governing alternative storage media are met. For details regarding alternative storage, see subrule 11.4(2), "Microfilm and related record systems."

g. Effect on hard-copy record-keeping requirements. Except as otherwise provided, the provisions of this subrule do not relieve taxpayers of the responsibility to retain hard-copy records that are created

or received in the ordinary course of business as required by existing law and rules. Hard-copy records may be retained on alternative storage media as indicated in paragraph “f” above and subrule 11.4(2).

If hard-copy records are not produced or received in the ordinary course of transacting business (e.g., when the taxpayer uses electronic data interchange technology), hard-copy records need not be created.

Hard-copy records generated at the time of transaction using a credit or debit card must be retained unless all the details necessary to determine correct tax liability relating to the transaction are subsequently received and retained by the taxpayer in accordance with this regulation. Such details include those listed in 11.4(4) “b”(2)“1.”

Computer printouts that are created for validation, control, or other temporary purposes need not be retained.

Nothing in this rule will prevent the department from requesting hard-copy printouts in lieu of retained machine-sensible records at the time of examination.

11.4(5) Preservation of records. The records required in this rule shall be preserved for a period of five years and open for examination by the department during this period of time. *McCarville v. Ream*, 247 Iowa, 72 N.W.2d 476 (1956).

The department shall be able to examine the records of a taxpayer for a period of years as is necessary to adequately determine if tax is due in the case of a false or fraudulent return made with the intent to evade tax or in the case of a failure to file a return.

If a tax liability has been assessed and an appeal is pending to the department, state board of tax review or district or supreme court, books, papers, records, memoranda or documents specified in this rule which relate to the period covered by the assessment shall be preserved until the final disposition of the appeal.

If the requirements of this rule are not met, the records will be considered inadequate and the department will compute the tax liability as authorized in Iowa Code section 422.54.

This rule is intended to implement Iowa Code sections 422.47, 422.50, 422.54, 423.16 and 423.21.

701—11.5(422,423) Audit of records. The department shall have the right and duty to examine or cause to be examined the books, papers, records, memoranda or documents of a taxpayer for the purpose of verifying the correctness of a return filed or estimating the tax liability of any taxpayer. The right to examine records includes the right to examine copies of the taxpayer’s state and federal income tax returns. When a taxpayer fails or refuses to produce the records for examination when requested by the department, the director shall have authority to require, by a subpoena, the attendance of the taxpayer and any other witness(es) whom the department deems necessary or expedient to examine and compel the taxpayer and witness(es) to produce books, papers, records, memoranda or documents relating in any manner to sales and use tax.

The department shall have the legal obligation to inform the taxpayer when an examination of the taxpayer’s books, papers, records, memoranda, or documents has been completed and the amount of tax liability, if any, due upon completion of the audit. Tax liability includes the amount of tax, interest, penalty and fees which may be due.

This rule is intended to implement Iowa Code sections 422.50, 422.70, 423.21, and 423.23.

701—11.6(422,423) Billings.

11.6(1) Notice of adjustments.

a. An agent, auditor, clerk, or employee of the department, designated by the director to examine returns and make audits, who discovers discrepancies in returns or learns that gross receipts, gross purchases, or services subject to sales and use tax may not have been listed, in whole or in part, or that no return was filed when one was due, is authorized to notify the person of this discovery by ordinary mail. This notice is not an assessment. It informs the person what amount would be due if the information discovered is correct.

b. Right of person upon receipt of notice of adjustment. A person who has received notice of an adjustment in connection with a return may pay the additional amount stated to be due. If payment is made, and the person wishes to contest the matter, they should then file a claim for refund. However,

payment will not be required until an assessment has been made (although interest will continue to accrue if payment is not made). If no payment is made, the person may discuss with the agent, auditor, clerk, or employee who notified them of the discrepancy, either in person or through correspondence, all matters of fact and law which may be relevant to the situation. This person may also ask for a conference with the Audit and Compliance Division, Des Moines, Iowa. Documents and records supporting the person's position may be required.

c. Power of agent, auditor or employee to compromise tax claim. No employee of the department has the power to compromise any tax claims. The power of the agent, auditor, clerk or employee who notified the person of the discrepancy is limited to the determination of the correct amount of tax.

11.6(2) Notice of assessment. If, after following the procedure outlined in subrule 11.6(1), paragraph "b," no agreement is reached and the person does not pay the amount determined to be correct, a notice of the amount of tax due shall be sent to the person responsible for paying the tax. This notice of assessment shall bear the signature of the director and will be sent by mail.

If the notice of assessment is timely protested according to the provisions of rule 701—7.8(17A), proceedings to collect the tax will not be commenced until the protest is ultimately determined, unless the department has reason to believe that a delay caused by the appeal proceedings will result in an irrevocable loss of tax ultimately found to be due and owing the state of Iowa. The department will consider a protest to be timely if filed no later than 60 days following the date of the assessment notice or, if the taxpayer fails to timely appeal a notice of assessment, the taxpayer may make payment pursuant to rule 701—7.8(17A) and file a refund claim within the period provided by law for filing such claims.

11.6(3) Supplemental assessments and refund adjustments. The department may, at any time within the period prescribed for assessment or refund adjustment, make a supplemental assessment or refund adjustment whenever it is ascertained that any assessment or refund adjustment is imperfect or incomplete in any respect.

If an assessment or refund adjustment is appealed (protested under rule 701—7.8(17A)) and is resolved whether by informal proceedings or by adjudication, the department and the taxpayer are precluded from making a supplemental assessment or refund adjustment concerning the same issue involved in the appeal for the same tax period unless there is a showing of mathematical or clerical error or a showing of fraud or misrepresentation.

This rule is intended to implement Iowa Code sections 422.54(1), 422.54(2), 422.57(1), 422.57(2), 422.70, 423.21 and 423.23.

[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—11.7(422,423) Collections. If the director determines it expedient or advisable, the director may enforce the collection of the tax liability which has been determined to be due. In the action, the attorney general shall appear for the department and have the assistance of the county attorney in the county in which the action is pending.

The remedies for the enforcement and collection of sales and use tax are cumulative, and action taken by the department or attorney general shall not be construed to be an election on the part of the state or any of its officers to pursue any remedy to the exclusion of any other remedy.

This rule is intended to implement Iowa Code sections 422.26, 422.56, and 423.17.

701—11.8(422,423) No property exempt from distress and sale. By reference, Iowa Code section 422.56 makes section 422.26 a part of the sales and use tax law and provides that said section shall apply in respect to a sales and use tax liability determined to be due by the department. The department shall proceed to collect the tax liability after the same has become delinquent; but no property of the taxpayer shall be exempt from the payment of said tax.

This rule is intended to implement Iowa Code sections 422.26, 422.56, and 423.17.

701—11.9(422,423) Information confidential. When requested to do so by any person having a legitimate interest in such information, the department shall, after being presented with sufficient proof of the entire situation, disclose to the person the amount of unpaid taxes due by a taxpayer. The person

shall provide the department with sufficient proof consisting of all relevant facts and the reason or reasons for seeking information as to the amount of unpaid taxes due by the taxpayer. The information sought shall not be disclosed if the department determines that the person requesting information does not have a legitimate interest. Examples of those who might seek information on a taxpayer are persons from whom a taxpayer is seeking credit, or with whom the taxpayer is negotiating the sale of any personal property.

Upon request, the department may disclose to any person whether or not a taxpayer has a sales tax permit because the law requires the taxpayer's permit to be conspicuously posted at all times in the taxpayer's place of business, thus becoming public information.

All other information obtained by employees of the department in the performance of their official duties is confidential and cannot be disclosed. See rule 701—6.3(17A).

This rule is intended to implement Iowa Code sections 422.56, 422.72, and 423.23.

701—11.10(423) Bonding procedure. The director may, when necessary and advisable in order to secure the collection of the tax, require any person subject to the tax to file with the department a bond in an amount as the director may fix, or in lieu of the bond, securities approved by the director in an amount as the director may prescribe. Pursuant to the statutory authorization in Iowa Code section 423.35, the director has determined that the following procedures will be instituted with regard to bonds:

11.10(1) When required.

a. Classes of business. When the director determines, based on departmental records, other state or federal agency statistics or current economic conditions, that certain segments of the business community are experiencing above average financial failures such that the collection of the tax might be jeopardized, a bond or security may be required from every retailer operating a business within this class unless it is shown to the director's satisfaction that a particular retailer within a designated class is solvent and that the retailer previously timely remitted the tax. If the director selects certain classes of business for posting a bond or security, rule making will be initiated to reflect a listing of the classes in the rules.

b. New applications for sales tax permits. Notwithstanding the provisions of paragraph "a" above, an applicant for a new sales tax permit may be required to post a bond or security if (1) it is determined upon a complete investigation of the applicant's financial status that the applicant would be unable to timely remit the tax, or (2) the new applicant held a permit for a prior business and the remittance record of the tax under the prior permit falls within one of the conditions in paragraph "c" below, or (3) the department experienced collection problems while the applicant was engaged in business under the prior permit, or (4) the applicant is substantially similar to a person who would have been required to post a bond under the guidelines as set forth in paragraph "c" or the person had a previous sales tax permit which has been revoked. The applicant is "substantially similar" to the extent that said applicant is owned or controlled by persons who owned or controlled the previous permit holder. For example, X, a corporation, had a previous sales tax permit revoked. X is dissolved and its shareholders create a new corporation, Y, which applies for a sales tax permit. The persons or stockholders who controlled X now control Y. Therefore, Y will be requested to post a bond or security.

c. Existing permit holders. Existing permit holders may be required to post a bond or security under the following circumstances:

(1) When they have had one or more delinquencies in remitting the sales tax or filing timely returns during the last 24 months if filing returns on an annual basis.

(2) When they have had two or more delinquencies in remitting the sales tax or filing timely returns during the last 24 months if filing returns on a quarterly basis.

(3) When they have had four or more delinquencies in remitting the sales tax or filing timely deposits or returns during the last 24 months if filing returns on a monthly basis.

(4) When they have had eight or more delinquencies during the last 24 months if filing returns on a semimonthly basis.

The simultaneous late filing of the return and the late payment of the tax will count as one delinquency. See rule 701—13.7(422). However, the late filing of the return or the late payment of the tax will not

count as a delinquency if the permit holder can satisfy one of the conditions set forth in Iowa Code section 421.27.

d. Return of bond. If a permit holder has been required to post a bond or security or if an applicant for a permit has been required to post a bond or security, upon the filing of the bond or security if the permit holder maintains a good filing record for a period of two years, the permit holder may request that the department return the bond or security. The department may elect to return the bond without a request from the permit holder.

e. Applying bond. The department may apply a bond to any existing tax liability of the permit holder at its discretion.

11.10(2) Type of security or bond. When it is determined that a permit holder or applicant for a sales tax permit is required to post collateral to secure the collection of the sales tax, the following types of collateral will be considered as sufficient: cash, surety bonds, securities or certificates of deposit. “Cash” means guaranteed funds including, but not limited to, the following: (1) cashier’s check, (2) money order or (3) certified check. If cash is posted as a bond, the bond will not be considered filed until the final payment is made, if paid in installments. A certificate of deposit must have a maturity date of 24 months from the date of assignment to the department. An acknowledgement of assignment from the bank must accompany the original certificate of deposit filed with the department. When a permit holder elects to post cash rather than a certificate of deposit as a bond, conversion to certificate of deposit will not be allowed. When the permit holder is a corporation, an officer of the corporation may assume personal liability as security for the payment of the sales tax. The officer will be evaluated as provided in subrule 11.10(1) as if the officer applied for a sales tax permit as an individual.

11.10(3) Amount of bond or security. When it is determined that a permit holder or applicant for a sales tax permit is required to post a bond or securities, the following guidelines will be used to determine the amount of the bond, unless the facts warrant a greater amount: If the permit holder or applicant will be or is a semimonthly depositor, a bond or securities in an amount sufficient to cover three months’ sales tax liability will be required. If the permit holder or applicant will be or is a monthly depositor, a bond or securities in an amount sufficient to cover five months’ sales tax liability will be required. If the applicant or permit holder will be or is a quarterly filer, the bond or securities which will be required is an amount sufficient to cover nine months or three quarters of tax liability. If the applicant or permit holder will be or is an annual filer, the bond or securities which will be required would be in the amount of one year’s tax liability. The department does not accept bonds for less than \$100. If the bond amount is calculated to be less than \$100, a \$100 bond is required.

This rule is intended to implement Iowa Code section 423.35.

701—11.11(422) Retailers newly liable, as of July 1, 1988, for collection of sales tax. Rescinded IAB 10/13/93, effective 11/17/93.

◊ Two or more ARCs

CHAPTER 12
FILING RETURNS, PAYMENT OF TAX, PENALTY AND INTEREST
[Prior to 12/17/86, Revenue Department[730]]

701—12.1(422) Returns and payment of tax. Every retailer collecting more than \$50 in tax in any one month shall make a monthly deposit with the department. A retailer collecting between \$50 and \$500 a month shall deposit the actual amount of tax collected during the month or an amount equal to not less than 30 percent of the amount of tax collected and paid during the preceding quarter. A retailer collecting \$500 or more a month shall deposit the actual amount of tax collected. This deposit is due by the twentieth of the month following the month in which the tax is collected and applies only to the first two months in the quarter.

On the quarterly return, every retailer shall report the gross sales for the entire quarter, listing allowable deductions and figuring tax for the entire quarter. Space is provided on the return for a deduction of tax deposited the first and second months of the quarter. The quarterly return is due on or before the last day of the month following the end of the quarter.

Effective January 1, 1983, retailers collecting \$50 a month and not more than \$4000 in tax in a semimonthly period shall deposit the actual amount of tax collected during the month or an amount equal to one-third of the amount of tax collected and paid during the preceding quarter.

Every retailer collecting more than \$4000 in tax in a semimonthly period shall make a semimonthly deposit with the department. A retailer collecting more than \$4000 in a semimonthly period shall deposit (1) the actual amount of tax collected or an amount equal to not less than one-sixth of the amount of tax collected and paid during the preceding quarter or (2) the actual amount of tax collected or an amount equal to not less than one-sixth of the amount of tax collected and paid during the same quarter of the previous year. The method of reporting selected by the retailer, either option 1 or option 2, shall remain consistent for at least four quarters. The first semimonthly deposit is for the period from the first of the month through the fifteenth of the month and is due on or before the twenty-fifth of the month. The second semimonthly deposit is for the period from the sixteenth through the end of the month and is due on or before the tenth day of the month following the month of collection. A deposit is not required for the last semimonthly period of the calendar quarter.

Retailers required to make semimonthly or monthly deposits under any of the above methods of estimating tax based upon a period when the tax rate was 4 percent shall adjust deposits for periods beginning on or after July 1, 1992, to reflect the increase in the tax rate to 5 percent as provided in Iowa Code section 422.43.

On the quarterly return, every retailer shall report the gross sales for the entire quarter listing all allowable deductions and figuring tax for the entire quarter. Space is provided on the return for a deduction of tax deposited for the previous five semimonthly deposits. The quarterly return is due on or before the last day of the month following the end of the calendar quarter.

A seasonal business retailer with gross receipts in only one quarter during the year may request, and the director may grant, permission to file and remit sales tax for only that specific quarter in which the retailer conducted business.

Effective January 1, 1980, if it is expected that the total annual tax liability of a retailer will not exceed \$120 for a calendar year, the retailer may request, and the director may grant, permission to file and remit sales tax on a calendar year basis. The returns and tax will be due and payable no later than January 31 following each calendar year in which the retailer carried on business.

Following are nonexclusive examples the department could reasonably expect to be within the guidelines for annual reporting:

1. A person selling tangible personal property or taxable services where a major portion of the business is the selling of tangible personal property or taxable services exempt from the imposition of tax; such as a wholesaler whose sales are primarily for resale, or a contractor whose business is primarily new construction.

2. A person whose business is primarily seasonal, or a person engaged in part-time selling of tangible personal property or taxable services.

3. A person whose sales are of a nontaxable service and who may, on occasion, sell tangible personal property incidental to the service.

When the due date falls on Saturday, Sunday, or a legal holiday, the return or deposit will be due the first business day following such Saturday, Sunday, or legal holiday. If a return or deposit is placed in the mails, properly addressed and postage paid, and postmarked on or before the due date for filing, no penalty will attach should the return or deposit not be received until after that date. Mailed returns should be addressed to Sales/Use Tax Processing, P.O. Box 10412, Des Moines, Iowa 50306.

This rule is intended to implement Iowa Code sections 421.14, 422.43, 422.47, 422.51, 422.52, and 423.2.

701—12.2(422,423) Remittances. The correct amount of tax collected and due shall accompany the forms prescribed by the department unless requirements for electronic transmission of remittances or deposits and related information specify otherwise. The name, address, and permit number of the sender and amount of tax for the quarterly remittance or a semimonthly or monthly deposit shall be stated unless requirements for electronic transmission of remittances or deposits and related information specify otherwise. Every return shall be signed and dated. Reporting forms and a self-addressed return envelope shall be furnished by the department to the taxpayer unless electronic transmission requirements apply; and, when feasible, the taxpayer shall use them when completing and mailing a return and remittance. All remittances shall be made payable to the Treasurer of the State of Iowa.

For tax periods starting on or after April 1, 1990, semimonthly deposits and quarterly remittances of taxpayers required to make semimonthly deposits shall be made electronically in a format and by means specified in the department. Deposit forms are not required to be filed when electronic transmission of deposits is done in the prescribed format by specified means. Quarterly returns shall be filed separately from the electronic transfer of remittances for taxpayers required to make semimonthly deposits. Deposits and remittances transmitted electronically are considered to have been made on the date that the deposit or remittance is added to the bank account designated by the treasurer of the state of Iowa. The filing of a return within the period prescribed by law and payment of the tax required to be shown thereon are simultaneous acts and if either condition is not met, a penalty shall be assessed.

This rule is intended to implement Iowa Code sections 422.16, 422.51, 422.52, 423.6, 423.13 and 423.14.

701—12.3(422) Permits and negotiated rate agreements. A person making retail sales in Iowa is required to obtain a sales tax permit from the department of revenue. Certain qualified purchasers, users, or consumers may obtain a direct pay permit which allows qualified purchasers, users, or consumers to remit tax directly to the department rather than to the retailer at the time of purchase or use. The following provisions govern the issuance of each type of permit.

12.3(1) Sales tax permits. Sales tax permits will be required of all resident and nonresident persons making retail sales at permanent locations within the state. A permit must be held for each location except that retailers conducting business at a permanent location who also make sales at a temporary location are not required to hold a separate permit for any temporary location. All tax collected from the temporary location shall be remitted with the tax collected at the permanent location. Persons who are registered retailers pursuant to rule 701—29.1(423) relating to use tax may remit sales taxes collected at a temporary location with their quarterly retailers use tax return. Retailers conducting a seasonal business shall also obtain a regular permit. However, returns will be filed on either a quarterly or annual basis depending upon the number of quarters in which sales are made. Sales tax permits will be required of all persons, except cities and counties, who have sales activity from gambling.

12.3(2) Direct pay permits. Effective January 1, 1998, qualified purchasers, users, and consumers of tangible personal property or enumerated services pursuant to Iowa Code chapters 422, 422B, and 423 may remit tax owed directly to the department of revenue instead of the tax being collected and remitted by the seller. A qualified purchaser, user, or consumer may not be granted or exercise this direct pay option except upon proper application to the department and only after issuance of the direct pay permit by the director of the department of revenue.

a. Qualifications for a direct pay permit. To qualify for a direct pay permit, all of the following criteria must be met:

(1) The applicant must be a purchaser, user, or consumer of tangible personal property or enumerated services.

(2) The applicant must have an accrual of sales and use tax liability on consumed goods of more than \$4,000 in a semimonthly period. A purchaser, user, or consumer may have more than one business location and can combine the sales and use tax liabilities on consumed goods of all locations to meet the requirement of \$4,000 in sales and use tax liability in a semimonthly period to qualify, if the records are located in a centralized location. If a purchaser, user, or consumer is combining more than one location, only one direct pay tax return for all of the combined locations needs to be filed with the department. However, local option sales and service tax should not be included in the tax base for determining qualification for a direct pay permit. If a purchaser, user, or consumer has more than one location, but not all locations wish to remit under a direct pay permit, the purchaser, user, or consumer must indicate which locations will be utilizing the direct pay permit at the time of application.

(3) The applicant must make deposits and file returns pursuant to Iowa Code section 422.52. See subrule 12.3(2), paragraph “d,” for further details.

b. Nonqualifying purchases or uses. The granting of a direct pay permit is not allowed for any of the following:

(1) Taxes imposed on the sale, furnishing, or service of gas, electricity, water, heat, pay television service, or communication service.

(2) Taxes imposed under Iowa Code section 422C.3 (sales tax on the rental receipts of qualifying rental motor vehicles), Iowa Code section 423.7 (use tax on the sale or use of motor vehicles), or Iowa Code section 423.7A (use tax on the lease price of qualifying leased motor vehicles).

c. Application and permit information. To obtain a direct pay permit, a purchaser, user, or consumer must properly complete an application form prescribed by the director of revenue and provide certification that the purchaser, user, or consumer has paid sales and use tax to the department of revenue or vendors over the last two years prior to application, an average of \$4,000 in a semimonthly period.

Upon approval, the director will issue a direct pay permit to qualifying applicants. The permit will contain direct pay permit identifying information including a direct pay permit identification number. The direct pay permit should be retained by the permit holder. When purchasing from a vendor, a permit holder should give the vendor a certificate of exemption containing the information as set forth in rule 701—15.3(422,423).

d. Remittance and reporting. Sales, use, and local option tax that is to be reported and remitted to the department will be on a semimonthly basis. Remittance of tax due under a direct pay permit will begin with the first quarter after the direct pay permit is issued to the holder. The tax to be paid under a direct pay permit must be remitted directly to the department by electronic funds transfer (EFT) only. A permit holder need not have remitted by EFT prior to obtaining a direct pay permit to qualify for such a permit. However, a permit holder must remit taxes due by EFT for transactions entered into on or after the date the permit is issued. All local option sales and service tax due must be reported and remitted at the same time as the sales and use taxes due under the direct pay permit for the corresponding tax period. However, local option sales and service tax should not be included in the tax base for determining qualification for a direct pay permit or frequency of remittance. Reports should be filed with the department on a quarterly basis. The director may, when necessary and advisable in order to secure the collection of tax due, require an applicant for a direct pay permit or a permit holder to file with the director a qualified surety bond as set forth in Iowa Code section 422.52. A permit holder who fails to report or remit any tax when due is subject to the penalty and interest provisions set forth in Iowa Code section 422.52.

e. Permit revocation and nontransferability. A direct pay permit may be used indefinitely unless it is revoked by the director. A direct pay permit is not transferable and it may not be assigned to a third party. The director may revoke a direct pay permit at any time the permit holder fails to meet the requirements for a direct pay permit, misuses the direct pay permit, or fails to comply with the provisions in Iowa Code section 422.53. If a direct pay permit is revoked, it is the responsibility of the prior holder of the permit to inform all vendors of the revocation so the vendors may begin to collect tax at the time of

purchase. A prior permit holder is responsible for any tax, penalty, and interest due for failure to notify a vendor of revocation of a direct pay permit.

f. Record-keeping requirements. The parties involved in transactions involving a direct pay permit shall have the following record-keeping duties:

(1) Permit holder. The holder of a direct pay permit must retain possession of the direct pay permit. The permit holder must keep a record of all transactions made pursuant to the direct pay permit in compliance with rule 701—11.4(422,423).

(2) Vendor. A vendor must retain a valid exemption certificate under rule 701—15.3(422,423) which is received from the direct pay permit holder and retain records of all transactions engaged in with the permit holder in which tax was not collected, in compliance with rule 701—11.4(422,423). A vendor's liability for uncollected tax is governed by the liability provisions of a seller under an exemption certificate set forth in rule 701—15.3(422,423).

12.3(3) Negotiated rate agreements. Any person who has been issued or who has applied for a direct pay permit may request the department to enter into a negotiated rate agreement with the permit holder or applicant. These agreements are negotiated on a case-by-case basis and, if approved by the department, allow a direct pay permit holder to pay the state sales, local option sales, or use tax on a basis calculated by agreement between the direct pay permit holder and the department. Negotiated rate agreements are not applicable to sales and use taxes set out in subrule 12.3(2), paragraph "b," above, and no negotiated rate agreement is effective for any period during which a taxpayer who is a signatory to the agreement is not a direct pay permit holder.

All negotiated rate agreements shall contain the following information or an explanation for its omission:

1. The name of the taxpayer who has entered into the agreement with the department.
2. The name and title of each person signing the agreement and the name, telephone or fax number, and E-mail or physical address of at least one person to be contacted if questions regarding the agreement arise.
3. The period during which the agreement is in effect and the renewal or extension rights (if any) of each party, and the effective date of the agreement.
4. The negotiated rate or rates, the classes of sales or uses to which each separate rate is applicable, any items which will be excluded from the agreement, and any circumstances which will result in a changed rate or rates or changed composition of classes to which rates are applicable.
5. Actions or circumstances which render the agreement void, or voidable at the option of either party, and the time frame in which the agreement will be voided.
6. Rights, if any, of the parties to resort to mediation or arbitration.
7. An explanation of the department's right to audit aspects of the agreement, including any right to audit remaining after the agreement's termination.
8. The conditions by which the agreement may be terminated and the effective date of the termination.
9. The methodology used to determine the negotiated rate and any schedules needed to verify percentages.
10. Any other matter deemed necessary to the parties' mutual understanding of the agreement.

This rule is intended to implement Iowa Code sections 422.45(20) and 422.53 as amended by 1997 Iowa Acts, House File 266.

701—12.4(422) Nonpermit holders. Persons not regularly engaged in selling at retail and who do not have a permanent place of business but are temporarily engaged in selling from trucks, portable roadside stands, concessionaires at state, county, district, or local fairs, carnivals and the like shall collect and remit tax on a nonpermit basis. In such cases, a nonpermit identification certificate will be issued by the department for record-keeping purposes and may be displayed in the same manner as a sales tax permit. If the department deems it necessary and advisable in order to secure the collection of tax, transient or itinerant sellers shall be required to post a bond or certificate of deposit. A cash bond or a surety bond issued by a solvent surety company authorized to do business in Iowa shall be acceptable, provided the

bonding company is approved by the insurance commissioner as to solvency and responsibility. The amount and type of bond shall be determined according to the rules promulgated by the director.

The department shall determine the due date of returns and payment of tax for temporary permit holders, giving due consideration to the type of business and frequency of sales. Persons holding nonpermit identification certificates may be required to remit tax upon demand or at the end of the event.

Persons regularly engaged in selling tangible personal property which is exempt from tax, making nontaxable transactions, or engaged in performing a service which is not enumerated in Iowa Code section 422.43 shall not be required to obtain a sales tax permit. However, if the retailer makes taxable sales or provides taxable services, the retailer will be required to hold a permit under the provisions of this rule.

This rule is intended to implement Iowa Code section 422.53.

701—12.5(422,423) Regular permit holders responsible for collection of tax. A regular permit holder may operate by selling merchandise by trucks, canvassers, or itinerant salespeople over fixed routes within the county in which the permanent place of business is located or other counties in this state. When this occurs, the regular permit holder is liable for reporting and paying tax on these sales. The person doing the selling for the regular permit holder shall be required to have a form, either in possession or in the vehicle, which authorizes that person to collect tax. This form is obtained from the department and shall contain the name, address, and permit number of the retailer according to the records of the department.

This rule is intended to implement Iowa Code sections 422.53 and 423.9.

701—12.6(422,423) Sale of business. A retailer selling the business shall file a return within the succeeding month thereafter and pay all tax due. Any unpaid tax shall be due prior to the transfer of title of any personal property to the purchaser and the tax becomes delinquent one month after the sale.

A retailer discontinuing business shall maintain the business's records for a period of five years from the date of discontinuing the business unless a release from this provision is given by the department. See 701—subrule 18.28(2) regarding possible sales and use tax consequences relating to the sale of a business.

This rule is intended to implement Iowa Code sections 422.51(2) and 422.52.

701—12.7(422) Bankruptcy, insolvency or assignment for benefit of creditors. In cases of bankruptcy, insolvency or assignment for the benefit of creditors by the taxpayer, the taxpayer shall immediately file a return with the tax being due.

This rule is intended to implement Iowa Code section 422.51(2).

701—12.8(422) Vending machines and other coin-operated devices. An operator who places machines on location shall file a return which includes gross receipts from all machines or devices operated by the retailer in Iowa during the period covered by the return. The mandatory beverage container deposit required under the provisions of Iowa Code chapter 455C shall not be considered part of the gross receipts.

This rule is intended to implement Iowa Code sections 422.42(16), 422.43, 422.51, and Iowa Code chapter 455C.

701—12.9(422) Claim for refund of tax. Refunds of tax shall be made only to those who have actually paid the tax. A person or persons may designate the retailer who collects the tax as an agent for purposes of receiving a refund of tax. A person or persons who claim a refund shall prepare the claim on the prescribed form furnished by the department.

A claim for refund shall be filed with the department, stating in detail the reasons and facts and, if necessary, supporting documents for which the claim for refund is based. See 1968 O.A.G. 879. If the claim for refund is denied, and the person wishes to protest the denial, the department will consider a protest to be timely if filed no later than 60 days following the date of denial. See rule 701—7.8(17A).

When a person is in a position of believing that the tax, penalty, or interest paid or to be paid will be found not to be due at some later date, then in order to prevent the statute of limitations from running out, a claim for refund or credit must be filed with the department within the statutory period provided for in Iowa Code section 422.73(1). The claim must be filed requesting that it be held in abeyance pending the outcome of any action which will have a direct effect on the tax, penalty or interest involved. Nonexclusive examples of such action would be: court decisions, departmental orders and rulings, and commerce commission decisions.

EXAMPLE: X, an Iowa sales tax permit holder, is audited by the department for the period July 1, 1972, to June 30, 1977. A \$10,000 tax, penalty and interest liability is assessed on materials the department determines are not used in processing. X does not agree with the department's position, but still pays the full liability even though X is aware of pending litigation involving the materials taxed in the audit.

Y is audited for the same period involving identical materials used to those taxed in the audit of X. However, Y, rather than paying the assessment, takes the department through litigation and wins. The final litigation is not completed until September 30, 1983.

X, on October 1, 1983, upon finding out about the decision of Y's case, files a claim for refund relating to its audit completed in June 1977. The claim will be totally denied as beyond the five-year statute of limitations. However, if X had filed a claim along with payment of its audit in June 1977, and requested that the claim be held in abeyance pending Y's litigation, then X would have received a full refund of their audit liability if the decision in Y's case was also applicable to X.

EXAMPLE: X, a utility company, filed a request for a rate increase with the commerce commission on June 30, 1967. The rate increase became effective January 1, 1968. However, a final decision of whether X was allowed this rate increase is not made until September 30, 1974. The rate increase was disallowed. X then had to refund to its customers all disallowed, but collected, rate increases plus sales tax. X files a claim for refund of the involved sales tax on December 30, 1974. Only the tax for the years 1970 to 1974 will be refunded. The tax for the years 1968 and 1969 will be denied as being beyond the five-year statute set forth in Iowa Code section 422.73(1). However, if X had filed a claim covering the rate increase any time before January 31, 1973, requesting it be held in abeyance pending the outcome of the commerce commission ruling, then X would have been allowed a full refund of all the sales tax that is refunded from the effective date of the rate increase, January 1, 1968, through September 30, 1974.

EXAMPLE: X is audited by the department for the period July 1, 1973, to June 30, 1978, and assessed July 31, 1978. X pays the assessment on December 31, 1978. No protest was filed and no claim for refund or credit was filed requesting it be held in abeyance. On January 31, 1980, X files a claim for refund relating to the entire audit. The claim is based on a recent court decision which makes the tax liability paid by X now refundable. However, only the tax paid from January 1, 1975, through June 30, 1978, will be allowed as this is the only portion within the five-year statute of limitations set forth in section Iowa Code 422.73(1). If the claim had been filed on or before December 31, 1979, then the entire audit period July 1, 1973, to June 30, 1978, could have been considered for refund as the claim would have been filed within one year of payment.

This rule is intended to implement Iowa Code section 422.73.

[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—12.10(423) Audit limitation for certain services.

12.10(1) Definitions. For purposes of this rule, the following definitions shall govern:

“*Landscaping*” means the same as defined in rule 701—26.61(423).

“*Lawn care*” means the same as defined in rule 701—26.61(423).

“*Tree trimming and removal*” means the same as defined in rule 701—26.66(423).

12.10(2) Audit limitation for lawn care, landscaping, and tree trimming and removal services. Notwithstanding any other provision of the Iowa Code to the contrary, the department shall not attempt to collect delinquent sales tax or use tax on a transaction involving the furnishing of lawn care, landscaping, or tree trimming and removal services which occurred more than five years prior to

the date of an audit. The date an audit will begin is when the department presents notification that the person is being contacted for an audit.

This rule is intended to implement Iowa Code section 423.31 as amended by 2008 Iowa Acts, Senate File 2428, section 23.

701—12.11 Reserved.

701—12.12(422) Extension of time for filing. Upon a proper showing of the necessity for extending the due date, the director is authorized to grant an extension of time in which to file a return. The extension shall not be granted for a period longer than 30 days. The request for the extension must be received on or before the original due date of the return. It will be granted only if the person requesting the extension shall have paid by the twentieth day of the month following the close of such quarter, 90 percent of the estimated tax due.

This rule is intended to implement Iowa Code section 422.51.

701—12.13(422) Determination of filing status.

12.13(1) Prior to January 1, 2003. Iowa Code sections 422.51(4) and 422.52 provide, based on the amount of tax collected, how often retailers file deposits or returns with the department (see rule 701—12.1(422)).

The department will determine if the retailer's current filing status is correct by reviewing the most recent four quarters of the retailer's filing history.

The following criteria will be used by the department to determine if a change in filing status is warranted.

<u>Filing Status</u>	<u>Statutory Requirement</u>	<u>Test Criteria</u>
Semimonthly	\$4,000 in tax in a semimonthly period.	Tax remitted in 3 of most recent 4 quarters exceeds \$24,000.
Monthly	\$50 in tax in a month.	Tax remitted in 3 of most recent 4 quarters exceeds \$150.
Annual	\$120 or less in tax in prior year.	Retailer remits \$120 or less in tax for last 4 quarters and requests annual filing.
Seasonal		Retailer remits tax for only 1 quarter during the previous calendar year and requests filing for 1 quarter only.
Quarterly	All other filers.	

When it is determined that a retailer's filing status is to be changed, the retailer will be notified and will be given 30 days to provide the department with a written request to prevent the change.

Retailers may request that they be allowed to file less frequently than the filing status selected by the department but exceptions will only be granted in two instances:

a. Incorrect historical data is used in the conversion. A business may meet the criteria based on initial information available, but, upon investigation, the filing history may prove that the business does not meet the dollar criteria because of adjustments, amended returns, or requests for refunds.

b. Data available may have been distorted by the fact that it reflected an unusual pattern in tax collection. The factors causing such a distortion must be documented and approved by department.

Exceptions will not be granted in instances where the retailer's request is based on a decline in business activity, reduction in employees or other potentially temporary business action which will affect current and future reporting.

Retailers will be notified in writing of approval or denial of their request for reduced filing periods.

Retailers may request that they be allowed to file more frequently than the filing status selected by the department. Approval will be granted based upon justification contained in the retailer's request.

12.13(2) January 1, 2003, and after. Effective July 1, 2002, the department and the department of management have the authority to change the above-mentioned filing thresholds established by department rule. After review of these filing thresholds, the department has determined that new thresholds are necessary and are to be implemented January 1, 2003. Accordingly, this subrule sets forth the filing thresholds for each filer based on the amount of sales tax collected.

<u>Filing Status</u>	<u>Threshold</u>	<u>Test Criteria</u>
Semimonthly	Greater than \$60,000 in annual state sales tax (more than \$2,500 in a semimonthly period).	Tax remitted in 3 of most recent 4 quarters examined exceeds \$15,000 per quarter.
Monthly	Between \$6,000 and \$60,000 in annual state sales tax (more than \$500 in a monthly period).	Tax remitted in 3 of most recent 4 quarters examined exceeds \$1,500 per quarter.
Quarterly	Between \$120 and \$6,000 in annual state sales tax.	Tax remitted in 3 of most recent 4 quarters examined exceeds \$30 per quarter.
Annual	Less than \$120 in state sales tax for the prior year.	Tax remitted in prior year is less than \$120.
Seasonal	Retailer remits tax for only 1 quarter during the previous calendar year and requests filing for 1 quarter only.	

A retailer shall be notified in writing when it is determined that a retailer's filing status will be changed. A retailer has the option of requesting, within 30 days of the date of the department's notice of a change in filing frequency, that the retailer file more or less frequently than required by the department. A request to file on a less frequent basis than assigned by the department must be in writing and submitted to the department. Once such a written request is filed by the retailer, the department will review the request and issue a written determination to the retailer.

A change in assigned filing status to file on a less frequent basis will be granted in only two instances:

a. Incorrect historical data is used in the conversion. A business may meet the criteria based on the original filing data, but, upon investigation, the filing history may prove that the business does not meet the dollar criteria because of adjustments, amended returns, or requests for refunds.

b. Data available may have been distorted by the fact that the data reflected an unusual pattern in tax collection. The factors causing such a distortion must be documented and approved by the department.

A retailer may also request to file more frequently than assigned by the department; the request may be made orally, in person, or by telephone. With the exception of those retailers who previously filed on a quarterly basis and have been changed to an annual filing frequency, any retailer seeking to file on a more frequent basis than assigned shall be required to deposit revenues by electronic funds transfer if the department allows the retailer to file more frequently.

The department and the department of management may perform review of filing thresholds every five years or as needed based on department discretion. Factors the departments will consider in determining if the filing thresholds need to be changed include, but are not limited to: tax rate changes, inflation, the need to maintain consistency with required multistate compacts, changes in law, and migration between filing brackets.

This rule is intended to implement Iowa Code sections 421.14, 422.51, and 422.52, and sections 422.54 as amended by 2002 Iowa Acts, House File 2622, section 11, and 423.13 as amended by 2002 Iowa Acts, House File 2622, section 14.

701—12.14(422,423) Immediate successor liability for unpaid tax. A retailer ceasing to do business is obligated to prepare a final return and pay all tax due within the time required by law. If a retailer ceasing to do business fails to do this, any immediate successor to the retailer who purchases the business or stock of goods is obligated to withhold from the purchase price enough of the purchase price to pay the tax, interest, or penalty which the retailer owes. Any immediate successor who intentionally fails to withhold sufficient of the purchase price to pay the delinquent tax, interest, and penalty is personally liable for the payment of the tax. However, if the immediate successor's purchase of the business or stock of goods was made in good faith that the retailer owed no tax, interest, or penalty, then the department may waive the immediate successor's liability.

12.14(1) Immediate successors having a duty to withhold. Only an immediate successor who, pursuant to a contract of sale, pays a purchase price to a retailer in return for the transfer of a going business or a stock of goods is obligated to inquire if tax, penalty, or interest is due and to withhold a portion of the purchase price if necessary. Persons who fail some aspect of this test, e.g., because they take by operation of law rather than by contract or provide no consideration, are not obligated to investigate or withhold. Nonexclusive examples of persons not so obligated are the following:

- a. A person foreclosing on a valid security interest.
- b. A person retaking possession of premises under a valid lease.
- c. A spouse electing to take under a will.
- d. A person taking by gift.
- e. Any other person taking for what would legally be considered "for value" but without the payment of a recognizable "purchase price."

Included within the meaning of the phrase "immediate successor" is a corporation resulting from the action of a sole proprietor who incorporates a business in which the sole proprietor is the only or the controlling shareholder; or a sole proprietorship established from a corporation of which the sole proprietor was the exclusive, majority, or controlling stockholder.

12.14(2) More than one immediate successor. If a retailer sells a business or stock of goods to two or more persons the following rules apply:

a. *Sale of stock of goods to two or more persons.* If a retailer sells a substantial portion of the retail business's stock of goods to another person who will in turn offer those goods for sale in a retail business, that person is an "immediate successor" and personally liable for payment of tax to the extent of tax, interest, or penalty owed or the amount of the individual purchase price, whichever is the lesser.

EXAMPLE: A sells the stock of goods from a furniture business, in unequal portions, to B, C, and D. B pays a \$5,000 purchase price for a portion of the stock of goods, C pays \$20,000 for a portion of the stock of goods, and D pays a \$30,000 purchase price for the remainder of A's stock of goods. A, at the time of the transfers, owes the department of revenue \$10,000 in sales tax, interest, and penalty. Neither B, C, nor D withholds any amount for payment of tax from the purchase price. B, C, and D individually and together are liable for payment of the tax. Each is personally liable up to the amount of the purchase price which each has paid or the amount of tax, interest, and penalty owing, whichever is the lesser. In this example, B is liable for \$5,000, the lesser amount of B's purchase price (\$5,000) and the amount of tax which A owes (\$10,000); C is liable for \$10,000, since purchase price and tax owed are equal; and D is liable for \$10,000, the lesser amount of tax owed (\$10,000) and D's purchase price (\$30,000). The department can proceed against any one, two, or all three of the immediate successors up to the amount of tax which each owes, as it chooses.

b. *Purchase of differing places of business.* If one person owns two or more places of business, each having a separate sales tax permit, each location having its own permit is a separate business and has a separate stock of goods for the purpose of determining successor liability. A person purchasing the business at one location or the stock of goods from one location would be personally liable only for the tax owed under the permit assigned to that location.

12.14(3) "Sale of a retailer's business" characterized. Usually, the sale of only the machinery or equipment used in a business without the sale or leasing of the realty of the business is not a sale of the business itself. *People v. Gabriel*, 135 P.2d 378 (Cal. App. 1943). The transfer of a retailer's machinery or equipment and business realty to a person who continues to use the machinery, equipment, and realty

for the sale of any type of tangible personal property constitutes the selling of the retailer's business, and the person to whom the business is sold is an "immediate successor" and liable for tax.

EXAMPLE: A is a furniture dealer. The furniture business falls on hard times. A sells the stock of goods (the furniture offered for sale) to B. A then sells the furniture store (business realty) to C. A also sells C the office equipment and all other tangible personal property used in the operation of the furniture store except for the stock of goods (furniture). C then uses the purchased store and the office equipment in the operation of a sporting goods store. B takes the furniture purchased from A to B's furniture store where it is sold. A owed the department \$7,000 in sales tax. Both B and C are immediate successors to A and personally liable for the sales tax.

12.14(4) *"Good faith" characterized.* An immediate successor to a retailer has purchased the retailer's business or stock of goods "in good faith" if the immediate successor demonstrates, by suitable evidence, that one of the following situations exists. The list of situations is exclusive:

a. The department has provided the immediate successor with a certified statement that no delinquent tax, interest, or penalty is unpaid; or

b. The immediate successor has taken "in good faith" a certified statement from the licensee, retailer, or seller that no delinquent tax, interest, or penalty is unpaid as of the date of purchase. Immediate successors should not rely upon oral statements from department personnel that no tax, interest, or penalty is unpaid. An immediate successor should request a written statement to this effect. For information regarding delinquent tax, interest, or penalty and tax liens write to: Collections Section Supervisor, Iowa Department of Revenue, P.O. Box 10471, Hoover State Office Building, Des Moines, Iowa 50306. A "certified statement" from a retailer is a statement the truth of which is attested to before a notary public or other officer authorized to take oaths. A certified statement has been taken from a retailer "in good faith" if the immediate successor, in the exercise of due diligence, had no reason to believe a retailer's statement was false or no reason to question the truth of the retailer's statement.

This rule is intended to implement Iowa Code section 421.28.

701—12.15(422,423) Officers and partners—personal liability for unpaid tax. If a retailer or purchaser fails to pay sales tax when due, any officer of a corporation or association, or any partner of a partnership, who has control of, supervision of, or the authority for remitting the sales tax payments and has a substantial legal or equitable interest in the ownership of the corporation or partnership is personally liable for payment of the tax, interest, and penalty if the failure to pay the tax is intentional. This personal liability is not applicable to sales tax due and unpaid on accounts receivable. The dissolution of a corporation, association, or partnership does not discharge a responsible person's liability for failure to pay tax.

12.15(1) *Personal liability—how determined.* There are various criteria which can be used to determine which officers of a corporation have control of, supervision of, or the authority for remitting tax payments. Some criteria are:

- a.* The duties of officers as outlined in the corporate bylaws,
- b.* The duties which various officers have assumed in practice,
- c.* Which officers are empowered to sign checks for the corporation,
- d.* Which officers hire and fire employees, and

e. Which officers control the financial affairs of the corporation. An officer in control of the financial affairs of a corporation may be characterized as one who has final control as to which of the corporation's bills should or should not be paid and when bills which had been selected for payment will be paid. "Final control" means a significant control over which bills should or should not be paid rather than exclusive control. The observations in this paragraph are applicable to partnerships as well as corporations.

12.15(2) *"Accounts receivable" described.* Officers and partners are not responsible for sales tax due and owing on accounts receivable. An "account receivable" is a contractual obligation owing upon an open account. An open account is one which is neither finally settled or finally closed, but is still running and "open" to future payments or the assumption of future additional liabilities. The ordinary consumer installment contract is not an "account receivable." The amount due has been finally settled

and is not open to future adjustment. The usual consumer installment contract is a “note receivable” rather than an account receivable. An account receivable purchased by a factor or paid by a credit card company is, as of the date of purchase or payment, not an account receivable. An officer or partner will be liable for the value of the account receivable purchased or paid. Officers and partners have the burden of proving that tax is not due because it is a tax on an account receivable.

12.15(3) *Beginning date of personal liability.* Officers and partners are not personally liable for state sales tax due and unpaid prior to March 13, 1986. They are liable for state sales taxes which are both due and unpaid on and after that date. See department rule 701—107.12(422B) for an explanation of officer and partner liability for unpaid local option sales tax.

701—12.16(422) Show sponsor liability. Persons sponsoring flea markets or craft, antique, coin, stamp shows, or similar events are, under certain circumstances, liable for payment of sales tax, interest, and penalty due and owing from any retailer selling property or services at the event. Included within the meaning of the term “similar event” is any show at which guns or collectibles, e.g., depression glassware or comic books, are sold or traded. To avoid liability, sponsors of these events must obtain from retailers appearing at the events proof that a retailer possesses a valid Iowa sales tax permit or a statement from the retailer, taken in good faith, that the property or service which the retailer offers for sale is not subject to sales tax. “Good faith” may demand that the sponsor inquire into the nature of the property or service sold or why the retailer believes the property or services for sale to be exempt from tax. A sponsor who fails to take these measures assumes all of the liabilities of a retailer. This includes not only the obligation to pay tax, penalty, and interest, but also to keep the records required of a retailer and to file returns.

Excluded from the requirements of this rule and from sponsor liability are organizations which sponsor events fewer than three times a year and state, county, or district agricultural fairs.

This rule is intended to implement the requirements of Iowa Code section 422.52.

701—12.17(422) Purchaser liability for unpaid sales tax. For sales occurring on and after March 13, 1986, if a purchaser fails to pay sales tax to a retailer required to collect the tax, the tax is payable by the purchaser directly to the department. The general rule is that the department may proceed against either the retailer or the purchaser for the entire amount of tax which the purchaser is, initially, obligated to pay the retailer. However, see 701—subrule 15.3(2) for a situation in which the obligation to pay the tax is imposed upon the purchaser alone.

This rule is intended to implement Iowa Code section 422.52.

701—12.18(423) Biodiesel production refund. A refund of sales or use tax is available for certain producers of biodiesel for calendar years 2012 to 2017.

12.18(1) *Qualifications for the refund.* A biodiesel producer must meet the following criteria to be eligible for the refund.

a. The producer must be engaged in the manufacture of biodiesel and have registered with the United States Environmental Protection Agency as a manufacturer in accordance with the requirements of 40 CFR Part 79.4.

b. The biodiesel produced must be for use in biodiesel blended fuel in accordance with Iowa Code section 214A.2.

c. The biodiesel must be produced in Iowa.

12.18(2) *Calculation of the refund.*

a. The refund is calculated by multiplying the total number of gallons produced by the biodiesel producer in this state during each quarter of the calendar year by the following rate:

- (1) For the calendar year 2012, three cents.
- (2) For the calendar year 2013, two and one-half cents.
- (3) For the calendar years 2014 to 2017, two cents.

b. The refund is calculated on the first 25 million gallons of biodiesel produced at each facility during the calendar year. No refund will be allowed on gallons produced in excess of 25 million at a

facility during each of the calendar years 2012 to 2017. No refund will be allowed for gallons produced at a facility on or after January 1, 2018.

12.18(3) *Claiming the tax credit.* The refund shall be computed after subtracting any amount of sales or use tax imposed and paid upon purchases made by the biodiesel producer. The biodiesel producer must file and report the amount of sales or use tax upon purchases made during each calendar year quarter from 2012 to 2017 by filing a quarterly sales or use tax return. The biodiesel producer must then file Form IA 843, Claim for Refund, for each calendar quarter and report all of the following:

- a. The amount of biodiesel produced during the quarter at each facility.
- b. The calculation of the biodiesel production refund.
- c. The amount of sales or use tax paid upon purchases during the quarter.
- d. The amount of biodiesel production refund requested.

EXAMPLE: A biodiesel producer produced 5 million gallons during the first quarter of 2012. The producer owes \$10,000 of Iowa consumers use tax based on purchases made during the first quarter of 2012. The producer will file an Iowa consumers use tax return and report \$10,000 of tax due, but this amount will not be paid with the return. The producer will also file Form IA 843, Claim for Refund, to request a refund of \$140,000 for the first quarter of 2012. This amount is calculated by multiplying 5 million gallons by three cents, or \$150,000, less the \$10,000 of Iowa consumers use tax due.

This rule is intended to implement Iowa Code section 423.4 as amended by 2014 Iowa Acts, Senate File 2344.

[ARC 9821B, IAB 11/2/11, effective 12/7/11; ARC 1665C, IAB 10/15/14, effective 11/19/14]

701—12.19(15) Sales and use tax refund for eligible businesses. For eligible businesses approved under the high quality jobs program, enterprise zone program, housing enterprise zone program, or workforce housing tax incentives program by the economic development authority, a refund of sales and use tax is available.

12.19(1) *Sales and use tax eligible for refund.* The sales and use tax for which the eligible business can receive a refund consists of the following:

a. Sales and use tax paid for gas, electricity, water, or sewer utility services, goods, wares, or merchandise, or on services rendered, furnished, or performed to or for a contractor or subcontractor and used in the fulfillment of a written contract relating to the construction or equipping of a facility of the eligible business.

b. If the eligible business is involved in a warehouse or a distribution center, sales and use tax attributable to racks, shelving and conveyor equipment.

12.19(2) *Sales and use tax ineligible for refund.* The sales and use tax for which the eligible business cannot receive a refund consists of the following:

a. Any local option sales tax paid is not eligible for the refund. The refund is limited to the state sales and use tax paid.

b. Any sales and use tax attributable to intangible property and furniture and fixtures is not eligible for the refund.

12.19(3) *Claiming the refund.* To receive the refund, the eligible business must file a claim for refund within one year of project completion. For a manufacturing facility, project completion is the first date upon which the average annualized production of finished project for the preceding 90-day period at the manufacturing facility is at least 50 percent of the initial design capacity of the facility. For all other facilities, project completion is the date of completion of all improvements necessary for the start-up, location, expansion or modernization of the business.

a. To request a refund of the sales and use tax paid for gas, electric, water or sewer utility services used during construction, the eligible business must file Form IA 843, Claim for Refund, with the department of revenue. The claim shall include the agreement number given by the Iowa economic development authority, along with copies of invoices or a schedule to support the refund amount.

b. To request a refund of the sales and use tax paid on goods, wares, or merchandise, or on services rendered to, furnished to, or performed for a contractor or subcontractor relating to the construction or equipping of a facility, the eligible business must file the Construction Contract Claim for Refund form,

along with the Iowa Contractor's Statement, with the department of revenue. It is not necessary to attach invoices to the Construction Contract Claim for Refund form, but the department reserves the right to request invoices when reviewing the refund claim.

c. To request a refund of the sales and use tax attributable to racks, shelving and conveyor equipment, the eligible business must file Form IA 843, Claim for Refund, with the department of revenue. The claim shall include the agreement number given by the Iowa economic development authority, along with copies of invoices or a schedule to support the refund amount. The combined amount of refunds attributable to sales and use tax paid on racks, shelving and conveyor equipment, along with tax credit certificates issued for sales and use tax paid on racks, shelving and conveyor equipment provided in 701—subrule 52.10(5), shall not exceed \$500,000 during a fiscal year. The requests for refunds or tax credit certificates will be processed in the order the requests are received on a first-come, first-served basis until the amount of refunds or credits authorized for issuance has been exhausted. If applications for refunds or tax credit certificates exceed the \$500,000 limitation for any fiscal year, the applications shall be considered in succeeding fiscal years.

◊ Two or more ARCs

CHAPTER 13
PERMITS

[Prior to 12/17/86, Revenue Department[730]]

701—13.1(422) Retail sales tax permit required. When used in this chapter or any other chapter relating to retail sales, the word “permit” shall mean “a retail sales tax permit.”

A person shall not engage in any Iowa business subject to tax until the person has procured a permit except as provided in 13.5(422). There is no charge for a retail sales tax permit. If a person makes retail sales from more than one location, each location from which taxable sales of tangible personal property or services will occur shall be required to hold a permit. Retail sales tax permits are issued to retailers for the purpose of making retail sales of tangible personal property or taxable services. Persons shall not make application for a permit for any other purpose. For details regarding direct pay permits, see rule 701—12.3(422).

This rule is intended to implement Iowa Code section 422.53 as amended by 1999 Iowa Acts, chapter 152.

701—13.2(422) Application for permit. An application for a permanent permit shall be made upon a form provided by the department, and the applicant shall furnish all information requested on such form.

An application for a permit for a business operating under a trade name shall state the trade name, as well as the individual owner’s name, in the case of a sole ownership by an individual, or the trade name and the name of all partners, in the case of a partnership.

The application shall be signed by the owner, in the case of an individual business; by a partner, in the case of a partnership, although all partners’ names shall appear on the application; and by the president, vice president, treasurer or other principal officer of a corporation or association, unless written authorization is given by the officers for another person to sign the application.

For electronically transmitted applications, the application form shall state that in lieu of a person’s handwritten signature, the E-mail address will constitute a valid signature.

The application shall state the date when the applicant will begin selling tangible personal property or taxable services at retail in Iowa from the location for which the application is made.

This rule is intended to implement Iowa Code sections 421.17(15) and 422.53.

701—13.3(422) Permit not transferable—sale of business. Permits shall not be transferable. A permit holder selling the business shall cancel the permit, and the purchaser of the business shall apply for a new permit in the purchaser’s own name.

This rule is intended to implement Iowa Code section 422.53.

701—13.4(422) Permit—consolidated return optional. Two types of permit holders have the option of filing a consolidated return. The first is a permit holder with multiple locations from which taxable sales are made and the second is certain affiliated corporations.

13.4(1) Permit holders with multiple locations. A permit holder procuring more than one permit may file a separate return for each permit; or, if arrangements have been made with the department, the permit holder may file one consolidated return reporting sales made at all locations for which a permit is held.

Effective July 1, 2002, in order to file a complete consolidated sales tax return, the taxpayer must file a form entitled Schedule of Consolidated Business Locations with its quarterly sales tax return, and the schedule must include all of the following items: (1) the taxpayer’s consolidated permit number; (2) the permit number for each Iowa location; (3) the amount of state sales tax by business location; and (4) the amount of state sales tax due on goods consumed that are not assigned to a specific business location. Failure by the taxpayer to file a Schedule of Consolidated Business Locations form with a quarterly sales tax return will result in the quarterly return’s being considered incomplete, and the taxpayer will be subject to the penalty provisions set forth in Iowa Code section 421.27.

13.4(2) Affiliated corporations. Any group consisting of a parent and its affiliates, which is entitled to file a consolidated return for federal income tax purposes and which makes retail sales of tangible

personal property or taxable enumerated services, may make application to the director for permission to make deposits and file a consolidated Iowa sales tax return. An application for consolidation can be made for any tax period beginning on or after January 1, 2000.

The application shall be in writing and shall be signed by an officer of the parent corporation. It shall contain the business name, address, federal identification number, and Iowa sales tax identification number of every corporation seeking the right to file a consolidated return. The application shall state the initial tax period for which the right to file a consolidated return is sought and shall be filed no later than 90 days prior to the beginning of that period. The application shall also contain any additional relevant information which the director may, in individual instances, require.

A parent corporation and each affiliate corporation that file a consolidated return are jointly and severally liable for all tax, penalty, and interest found due for the tax period for which a consolidated return is filed or required to be filed.

13.4(3) *Requirements common to returns filed under subrules 13.4(1) and 13.4(2).* Taxpayers shall file consolidated returns only on forms provided by the department. All working papers used in the preparation of the information required to complete the returns must be available for examination by the department. Undercollections of sales tax at one or more locations or by one or more affiliates may not be offset by overcollections at other locations or by other affiliates.

This rule is intended to implement Iowa Code section 422.51 as amended by 2002 Iowa Acts, Senate File 2305, section 8, and Iowa Code section 422.53.

701—13.5(422) Retailers operating a temporary business. A person not regularly engaged in selling at retail and not having a permanent place of business but is temporarily selling from trucks, portable roadside stands, concessionaires at state, county, district or local fairs, carnivals and the like shall not be required to hold a permit. These retailers shall request an identification card from the department. The card shall be in a form prescribed by the director and shall be completed and displayed by the retailer to show authorization to collect tax. The issuance of the card by the department shall be dependent upon the frequency of sales and other conditions as each individual case may warrant.

This rule is intended to implement Iowa Code section 422.53(6).

701—13.6(422) Reinstatement of canceled permit. A person who previously held and canceled a permit and wishes to reengage in business in the same county shall apply to the department for reinstatement of the permit. Upon receipt of the proper clearance for previous tax returns, a new permit shall be issued.

This rule is intended to implement Iowa Code section 422.53.

701—13.7(422) Reinstatement of revoked permit. A revoked permit shall be reinstated only on such terms and conditions as the case may warrant. Terms and conditions include payment of any tax liability which may be due to the department. See rule 13.17(422) for a description of the circumstances under which nonpayment of taxes may lead to revocation of a permit.

Pursuant to the director's statutory authority in Iowa Code section 422.53(5) to restore licenses after a revocation, the director has determined that upon the revocation of a sales tax permit the initial time, the permit holder will be required to pay all delinquent sales tax liabilities, to file returns, and to post a bond and to refrain from taxable occurrences under Iowa Code section 422.43 as required by the director prior to the reinstatement or issuance of a new sales tax permit.

As set forth above, the director may impose a waiting period during which the permit holder must refrain from taxable occurrences pursuant to the penalties of Iowa Code section 422.58(2), not to exceed 90 days to restore a permit or issue a new permit after a revocation. The department may require a sworn affidavit, subject to the penalties of perjury, stating that the permit holder has fulfilled all requirements of said order of revocation, and stating the dates on which the permit holder refrained from taxable occurrences.

Each of the following situations will be considered one offense, for the purpose of determining the waiting period to reinstate a revoked permit or issue a new permit after a revocation unless otherwise noted.

Failure to post a bond as required.

Failure to file a quarterly return or monthly deposit timely.

Failure to pay tax timely (including unhonored checks, failure to pay, and late payments).

Failure to file a quarterly return or a monthly deposit and pay tax shown on the return or deposit timely (counts as two offenses).

The administrative law judge or director of revenue may order a waiting period after the revocation not to exceed:

Five days for one through five offenses.

Seven days for six through seven offenses.

Ten days for eight through nine offenses.

Thirty days for ten offenses or more.

The administrative law judge or director of revenue may order a waiting period not to exceed:

Forty-five days if the second revocation occurs within 24 months of the first revocation.

Sixty days if the second revocation occurs within 18 months of the first revocation.

Ninety days if the second revocation occurs within 12 months of the first revocation.

Ninety days if the third revocation occurs within 36 months of the second revocation.

A revoked permit will not be reinstated if the department has received a certificate of noncompliance from the child support recovery unit in regard to the permit holder, who is an individual requesting reinstatement, until the unit furnishes the department with a withdrawal of the certificate of noncompliance.

This rule is intended to implement Iowa Code sections 422.53 and 422.58(2) and 1995 Iowa Acts, chapter 115.

701—13.8(422) Withdrawal of permit. After investigation, the department will withdraw a permit under the following conditions:

13.8(1) Upon a determination that the permit holder cannot be located in the state of Iowa and upon failure to obtain service of an order to appear and show cause, after sending the notice by registered certified mail or an attempt to personally serve the notice of the order.

13.8(2) Upon a determination that the permit holder cannot be located in the state of Iowa and upon a determination by the department that a business has been terminated or abandoned by the permit holder, without a request for cancellation signed by the permit holder.

13.8(3) The permit holder has become incapacitated or unable to respond or is deceased and has no duly appointed trustee, guardian or individual holding a power of attorney, executor or administrator.

The withdrawal shall not constitute a revocation of said license, nor shall any penalties imposed for revocation be applicable. A permit so withdrawn shall be reissued in its prior status at such time as any affected permit holder so requests. The proceedings for withdrawal will be in conformity with Iowa Code section 17A.18.

This rule is intended to implement Iowa Code section 17A.18.

701—13.9(422) Loss or destruction of permit. When it becomes necessary to replace an active permit by reason of loss or destruction, the department will furnish a duplicate permit.

This rule is intended to implement Iowa Code section 422.53.

701—13.10(422) Change of location. When a business changes locations, the same permit may be used at the old and new locations if the new location is within Iowa and the ownership of the business remains the same at the new location. Otherwise, the permit must be canceled and a new permit issued.

This rule is intended to implement Iowa Code section 422.53 as amended by 2001 Iowa Acts, House File 715.

701—13.11(422) Change of ownership. A retailer changing its business entity shall apply for a new permit under the name of the new entity. This is required but not limited to such entity changes as proprietorship to partnership, partnership to corporation or any combination thereof.

This rule is intended to implement Iowa Code section 422.53.

701—13.12(422) Permit posting. The permit need not be posted for public view at the taxpayer's place of business. However, the taxpayer must, at all times, keep the permit available for inspection upon request by any department representative.

This rule is intended to implement Iowa Code section 422.53(3).

701—13.13(422) Trustees, receivers, executors and administrators. By virtue of their appointment, trustees, receivers, executors and administrators who continue to operate, manage or control a business involving the sale of tangible personal property or taxable services or engage in liquidating the assets of a business by means of sales made in the usual course of trade shall collect and remit tax on inventory and noninventory items. In *Re Hubs Repair Shop, Inc.* 28 B.R. 858 (Bkrcty 1983).

A permit of a ward, decedent, cestui que trust, bankrupt, assignor or debtor for whom a receiver has been appointed, which is valid at the time a fiduciary relation is created, shall continue to be a valid permit for the fiduciary to continue the business for a reasonable time or to close out the business for the purpose of settling an estate or terminating or liquidating a trust.

This rule is intended to implement Iowa Code sections 422.42(1) and 422.53.

701—13.14(422) Vending machines and other coin-operated devices. An operator who places machines on location shall hold one permit for the principal place of business, whether the same is located in the state of Iowa or outside the state of Iowa.

This rule is intended to implement Iowa Code sections 422.43 and 422.53 as amended by 1986 Iowa Acts, House File 2471, and Iowa Code section 422.42.

701—13.15(422) Other amusements. Billiard and pool tables, shooting galleries and other similar undertakings operated in a regular place of business owned and managed by the operator shall not come within the provisions of the rule with respect to holding one permit for the entire state. The provision requiring a permit shall not include devices operated at fairs, circuses and carnivals which are temporarily located within the state of Iowa.

This rule is intended to implement Iowa Code chapter 422.

701—13.16(422) Substantially delinquent tax—denial of permit. The department may deny a permit to any applicant who is, at the time of application, substantially delinquent in paying any tax due which is administered by the department or the interest or penalty on the tax. If the applicant is a partnership, a permit may be denied if a partner is substantially delinquent in paying any tax, penalty, or interest regardless of whether the tax is in any way a liability of or associated with the partnership. If an applicant for a permit is a corporation, the department may deny the applicant a permit if any officer, with a substantial legal or equitable interest in the ownership of the corporation, owes any delinquent tax, penalty, or interest of the applicant corporation. In this latter instance, the corporation must, initially, owe the delinquent tax, penalty, or interest, and the officer must be personally and secondarily liable for the tax. This is in contrast to the situation regarding a partnership.

The local option sales and service tax is a tax administered by the department. Local vehicle, property, whether imposed on centrally assessed property or not, beer and liquor, and insurance premium taxes are nonexclusive examples of taxes which are not administered by the department.

The amount of tax delinquent, the number of filing periods for which a tax remains due and unpaid, and the length of time a tax has been unpaid are the principal, but nonexclusive circumstances, which the department will use to determine whether an applicant is "substantially" or insubstantially delinquent in paying a tax. The department may deny a permit for substantial delinquency. Nonexclusive factors which the department will consider in determining whether substantial delinquency will or will not result in the denial of an application for a permit are the following: whether the delinquency was inadvertent,

negligent, or intentional; the amount of tax, interest, or penalty owed in relation to the applicant's total financial resources; and whether the applicant's business is likely to survive over the long term if a license or permit is granted. This rule is applicable to tax, interest, and penalty due and payable on and after January 1, 1987.

The department will deny a permit to any applicant, who is an individual, if the department has received a certificate of noncompliance from the child support recovery unit in regard to the individual, until the unit furnishes the department with a withdrawal of the certificate of noncompliance.

This rule is intended to implement Iowa Code subsection 422.53(2) and 1995 Iowa Acts, chapter 115.

701—13.17(422) Substantially delinquent tax—revocation of permit. The department may revoke a permit if the permit holder has become substantially delinquent in paying any tax which is administered by the department or the interest or penalty on the tax. If the person holding a permit is a corporation, the department may revoke the permit if any officer, with a substantial legal or equitable interest in the ownership of the corporation, owes any delinquent tax, penalty, or interest of the permit-holding corporation. In this latter instance, the corporation must, initially, owe the delinquent tax, penalty, or interest, and the officer must be personally and secondarily liable for the tax. If the permit holder is a partnership, a permit cannot be revoked for a partner's failure to pay a tax which is not a liability of the partnership. This is in contrast to the situation regarding an application for a permit. See rule 13.16(422). Also, see rule 13.16(422) for characterizations of the terms "tax administered by the department" and "substantially delinquent" and for a description of some of the factors which the department will use in determining whether substantial delinquency will or will not result in the revocation of a permit. This rule is applicable to tax, interest, and penalty due and payable on and after January 1, 1987.

A revoked permit will not be reinstated if the department has received a certificate of noncompliance from the child support recovery unit in regard to the permit holder who is an individual requesting reinstatement, until the unit furnishes the department with a withdrawal of the certificate of noncompliance.

This rule is intended to implement Iowa Code subsection 422.53(5) and 1995 Iowa Acts, chapter 115.

CHAPTER 14
COMPUTATION OF TAX
[Prior to 12/17/86, Revenue Department[730]]

701—14.1(422) Tax not to be included in price. When a retailer pricemarks an article for retail sale and displays or advertises the same to the public with such pricemark, the price so marked or advertised shall include only the sale price of such article unless it is stated on the pricemark that the price includes tax.

For taxable transactions prior to July 1, 1992

EXAMPLE: The advertised or marked price is \$1.00. When sale is made, the purchaser pays or agrees to pay \$1.04, which represents the purchase price plus tax, which when added becomes a part of the sale price or charge.

This rule does not prohibit advertising or displaying the sale price plus tax or the price including tax, as shown in the following examples:

“This dress—\$10.00 plus tax”, or “This dress—\$10.00 plus 40 cents tax”, or “This dress—\$10.40 including tax”.

When a retailer conspicuously advertises in such manner and position so that it may be readily seen and read by the public, that the price “includes tax”, the retailer will be allowed to determine gross receipts by dividing the total of such receipts which included tax by 104 percent.

For periods on or after July 1, 1992

EXAMPLE: The advertised or marked price is \$1.00. When sale is made, the purchaser pays or agrees to pay \$1.05 which represents the purchase price plus tax, which when added becomes a part of the sale price or charge.

This rule does not prohibit advertising or displaying the sale price plus tax or the price including tax, as shown in the following examples:

“This dress—\$10.00 plus tax”, or “This dress—\$10.00 plus 50 cents tax”, or “This dress—\$10.50 including tax”.

When a retailer conspicuously advertises in such manner and position so that it may be readily seen and read by the public, that the price “includes tax”, the retailer will be allowed to determine gross receipts by dividing the total of such receipts which included tax by 105 percent.

However, where an invoice is sent to the purchaser as a part of the sale, such invoice must either show the tax separate from the purchase price or it must be stated on each invoice that tax is included in the purchase price. If the invoices state “tax included” the seller may determine gross receipts by the 104 percent or 105 percent method described above. It shall be the responsibility of the retailer who uses or has used the 104 percent or 105 percent method for reporting to provide proof that it has complied with the method of advertising or displaying the sale price, as described above.

This rule is intended to implement Iowa Code sections 422.43, 422.47, and 423.2.

701—14.2(422,423,77GA,ch1130) Retail bracket system for state sales and local option sales and service tax. When practicable, the retailer must add the sales tax or the average equivalent thereof to the sale price and collect the same from the consumer or user. Competing retailers and organizations or associations of retailers may provide uniform methods for passing state and local option sales and use tax to the consumer with the cooperation of the department.

Pursuant to the foregoing provisions, the department has adopted the following bracket system for the application of state sales and service tax:

TAX SCHEDULE

FROM	TO	TAX AMOUNT	FROM	TO	TAX AMOUNT
\$0.00	- \$0.09	= \$0.00	\$2.90	- \$3.09	= \$0.15
0.10	- 0.29	= 0.01	3.10	- 3.29	= 0.16
0.30	- 0.49	= 0.02	3.30	- 3.49	= 0.17
0.50	- 0.69	= 0.03	3.50	- 3.69	= 0.18
0.70	- 0.89	= 0.04	3.70	- 3.89	= 0.19
0.90	- 1.09	= 0.05	3.90	- 4.09	= 0.20
1.10	- 1.29	= 0.06	4.10	- 4.29	= 0.21
1.30	- 1.49	= 0.07	4.30	- 4.49	= 0.22
1.50	- 1.69	= 0.08	4.50	- 4.69	= 0.23
1.70	- 1.89	= 0.09	4.70	- 4.89	= 0.24
1.90	- 2.09	= 0.10	4.90	- 5.09	= 0.25
2.10	- 2.29	= 0.11	5.10	- 5.29	= 0.26
2.30	- 2.49	= 0.12	5.30	- 5.49	= 0.27
2.50	- 2.69	= 0.13	5.50	- 5.69	= 0.28
2.70	- 2.89	= 0.14	5.70	- 5.89	= 0.29

For sales larger than \$5.89, tax is to be computed at straight 5 percent; one-half cent or more should be treated as one cent.

The department has adopted the following combined bracket system for state and local option sales and service tax, assuming the existence of a 5 percent state and 1 percent local option sales and service tax.

COMBINED TAX SCHEDULE

FROM	TO	TAX AMOUNT	FROM	TO	TAX AMOUNT
\$0.00	- \$0.08	= \$0.00	\$2.92	- \$3.08	= \$0.18
0.09	- 0.24	= 0.01	3.09	- 3.24	= 0.19
0.25	- 0.41	= 0.02	3.25	- 3.41	= 0.20
0.42	- 0.58	= 0.03	3.42	- 3.58	= 0.21
0.59	- 0.74	= 0.04	3.59	- 3.74	= 0.22
0.75	- 0.91	= 0.05	3.75	- 3.91	= 0.23
0.92	- 1.08	= 0.06	3.92	- 4.08	= 0.24
1.09	- 1.24	= 0.07	4.09	- 4.24	= 0.25
1.25	- 1.41	= 0.08	4.25	- 4.41	= 0.26
1.42	- 1.58	= 0.09	4.42	- 4.58	= 0.27
1.59	- 1.74	= 0.10	4.59	- 4.74	= 0.28
1.75	- 1.91	= 0.11	4.75	- 4.91	= 0.29
1.92	- 2.08	= 0.12	4.92	- 5.08	= 0.30
2.09	- 2.24	= 0.13	5.09	- 5.24	= 0.31
2.25	- 2.41	= 0.14	5.25	- 5.41	= 0.32
2.42	- 2.58	= 0.15	5.42	- 5.58	= 0.33
2.59	- 2.74	= 0.16	5.59	- 5.74	= 0.34
2.75	- 2.91	= 0.17	5.75	- 5.91	= 0.35

For sales larger than \$5.91, tax is to be computed at straight 6 percent; one-half cent or more should be treated as one cent.

When practicable, the department will cooperate with retailers in applying either of the tax schedules set out in this rule. In no event will the schedules be administered in any manner that will result in the collection of substantially more than 5 percent of the amount on which state sales and service tax is to be computed or substantially more than 6 percent of the amount on which one state and local option sales and service tax is to be computed, or 7 percent if a jurisdiction imposes local option sales and service tax pursuant to Iowa Code chapter 422B and the local option school infrastructure sales and services tax pursuant to Iowa Code chapter 422E in addition to the state sales tax.

The department has adopted the following combined 7 percent bracket system for state and both previously mentioned local option sales and service taxes, assuming the existence of a 5 percent state sales tax rate and local option tax rates of 1 percent each.

COMBINED 7 PERCENT TAX SCHEDULE

FROM	TO	TAX AMOUNT	FROM	TO	TAX AMOUNT
\$0.00	- \$0.07	= \$0.00	\$2.93	- \$3.07	= \$0.21
0.08	- 0.21	= 0.01	3.08	- 3.21	= 0.22
0.22	- 0.35	= 0.02	3.22	- 3.35	= 0.23
0.36	- 0.49	= 0.03	3.36	- 3.49	= 0.24
0.50	- 0.64	= 0.04	3.50	- 3.64	= 0.25
0.65	- 0.78	= 0.05	3.65	- 3.78	= 0.26
0.79	- 0.92	= 0.06	3.79	- 3.92	= 0.27
0.93	- 1.07	= 0.07	3.93	- 4.07	= 0.28
1.08	- 1.21	= 0.08	4.08	- 4.21	= 0.29
1.22	- 1.35	= 0.09	4.22	- 4.35	= 0.30
1.36	- 1.49	= 0.10	4.35	- 4.49	= 0.31
1.50	- 1.64	= 0.11	4.50	- 4.64	= 0.32
1.65	- 1.78	= 0.12	4.65	- 4.78	= 0.33
1.79	- 1.92	= 0.13	4.79	- 4.92	= 0.34
1.93	- 2.07	= 0.14	4.93	- 5.07	= 0.35
2.08	- 2.21	= 0.15	5.08	- 5.21	= 0.36
2.22	- 2.35	= 0.16	5.22	- 5.35	= 0.37
2.36	- 2.49	= 0.17	5.36	- 5.49	= 0.38
2.50	- 2.64	= 0.18	5.50	- 5.64	= 0.39
2.65	- 2.78	= 0.19	5.65	- 5.78	= 0.40
2.79	- 2.92	= 0.20	5.79	- 5.92	= 0.41

For sales larger than \$5.92, tax is to be computed at straight 7 percent; one-half cent or more should be treated as one cent.

This rule is intended to implement Iowa Code chapters 422 and 423 as amended by 1998 Iowa Acts, chapter 1130.

701—14.3(422,423) Taxation of transactions due to rate change. The following provisions shall apply in determining whether or not a transaction is subject to an existing rate of sales or use tax or to a new rate of sales or use tax. In the examples contained in the rest of this rule, assume that a bill has been enacted into law which increases the sales and use tax rate from 4 to 5 percent and that the effective date of this bill is July 1.

14.3(1) General principles. A change in the sales tax rate applies to a sale of tangible personal property if delivery of the property under a contract of sale occurs on or after the effective date of

the legislation which changes the rate of taxation. *Harold D. Sturtz v. Iowa Department of Revenue*, 373 N.W.2d 131 (Iowa 1985). See also *Crown Iron Works v. Commissioner of Taxation*, 214 N.W.2d 462 (Minn. 1974). The intent of the parties to the contract for sale determines when delivery occurs. However, in the event the intent is not readily established from the contract, the rules set out in the Uniform Commercial Code (Iowa Code chapter 554) shall apply in order to determine the place of delivery.

In the examples below, so long as delivery under a contract for sale occurs on or after July 1, the 5 percent sales tax rate applies. It is not necessary that any other aspects of the sale, such as payment for the delivered property, occur on or after that date.

In the three examples immediately below, “delivery” is physical transfer of possession of the tangible personal property directly from the seller to the purchaser. However, see subrule 14.3(2) for examples of delivery which do not involve transfer of possession directly from the buyer to the seller, and subrule 14.3(3) which explains a type of delivery which does not involve any physical transfer of possession of property.

EXAMPLE A: A enters into a sales contract to purchase a riding lawn mower from B. This contract (offer and acceptance) is entered into on June 20. B delivers the lawn mower to A on June 28, and A pays B for the lawn mower on July 3. Since delivery, under the contract for sale, occurred prior to July 1, the sales tax in this example is computed at the rate of 4 percent.

EXAMPLE B: A wants to purchase a home computer from B. On June 28, A orders the computer from B and the parties agree that the contract of sale is made if and when B makes delivery of the home computer to A. B delivers the computer on July 10. In this example, the sales tax is at the rate of 5 percent because delivery was not made until July 10. It is the delivery after July 1, rather than the lack of the valid contract of sale prior to that date, which determines that the rate of tax shall be 5 rather than 4 percent.

EXAMPLE C: On May 1, A enters into a conditional sales contract with B to purchase a television set. The contract requires A to make monthly installment payments for 36 months, beginning June 1. The contract also requires B to deliver the television to A on or before July 15. B retains title to the television set solely for the purpose of securing payment from A. A makes the first monthly payment to B on June 1. B delivers the television to A on the last day allowable, July 15. The 5 percent rate will apply. See subrule 14.3(4) for more material regarding conditional sales.

14.3(2) Shipment by carrier. The following principles shall be used to determine the conditions under which delivery is made pursuant to a contract for sale when the retailer utilizes a carrier to ship tangible personal property to a purchaser. If the contract for sale makes no reference of an F.O.B. (free on board) or F.A.S. (free along side) point or of any other point at which title and risk of loss with regard to the tangible personal property are transferred from the retailer to the purchaser and contains no other indication of a delivery point, it shall be presumed that delivery of the property occurs when the seller transfers possession of the property to the carrier. If property is sold under a C.I.F. (cost, insurance and freight) or a C. & F. (cost and freight) contract it shall also be presumed that delivery occurs when the retailer transfers possession of the property to the carrier. If a contract for sale makes mention of an F.O.B. or F.A.S. point, it shall be presumed that the parties intended delivery of the property at the time the property reaches that point.

14.3(3) Constructive delivery. “Constructive delivery” has occurred if the retailer and the purchaser agree that title, risk of loss, and right of possession to tangible personal property have passed from the retailer to the purchaser; that is, the parties agree that a sale has occurred, but actual physical possession of the property remains with the retailer or someone other than the buyer after the sale. If parties to a contract of sale have agreed upon constructive delivery, the sale occurs at the time of constructive delivery and not at the time of transfer of physical possession of the property from buyer to seller or at an F.O.B., F.A.S., or similar type of point.

EXAMPLE: A owns an art gallery in Des Moines. Art collector B from Cedar Rapids visits the gallery. Collector B wishes to purchase a painting that is very large. However, collector B cannot immediately transport the painting back to Cedar Rapids. On June 1, A and B sign a contract for the sale of the painting. Title to the painting, risk of loss, and the right to take possession of the painting immediately

pass to B. However, the parties also agree that B can store the painting with A in return for a small monthly charge. B inquires of various parties whether or not they would be willing to transport the painting from Des Moines to Cedar Rapids. B finds no one satisfactory to do this and eventually signs a separate contract for transport with A in which A agrees to do the transporting. The transport of the painting is accomplished on September 1. The painting was delivered from A to B in Des Moines on June 1. Thus, its sale occurred on that date rather than September 1. Delivery was accomplished with the “constructive” delivery which occurred on June 1 rather than by the physical transfer of possession from A to B which occurred on September 1. Because of this, the rate of tax is 4 and not 5 percent.

14.3(4) Conditional sales. A “conditional sale” is no different from an absolute sale, except in the matter of payment. *Hansen v. Kuhn*, 284 N.W. 249, 226 Iowa 794 (1939). A conditional sale has not occurred until delivery under a contract of conditional sale has occurred. *Greenlease-Lied Motors v. Sadler*, 249 N.W. 383, 216 Iowa 302 (1933); *Universal Credit Co. v. Mammings*, 243 N.W. 513, 214 Iowa 1135 (1932); and *Firestone Tire & Rubber Co. v. Anderson*, 180 N.W. 273, 190 Iowa 439 (1920). See Example C in subrule 14.3(1) for an example of a conditional sales contract in which delivery of the property under the contract occurred long after the making of the contract and after the buyer had made several payments under the contract. As soon as delivery has occurred, tax on all gross receipts of the sale is due to the department. See rules 701—15.1(422) and 701—16.47(422) for additional material on conditional sales.

14.3(5) Use tax—changed rate of taxation on the use of tangible personal property. A changed use tax rate applies to the use of tangible personal property in Iowa when the first taxable use occurs on or after the effective date of the legislation which changes the rate of tax. In the following example, assume that the change in the use tax rate is from 4 to 5 percent and that the legislation which enacts this change is effective as of July 1.

EXAMPLE: On May 24, A and B enter into a contract for A’s purchase of a machine from B. Under the contract, delivery of the machine to A is to occur outside the state of Iowa, F.O.B., Minneapolis, Minnesota. On June 27, A takes delivery of the machine in Minneapolis. A then transports the machine into Iowa on July 2. A’s transport of the machine into Iowa constitutes a use of the machine by A in Iowa for the first time. Under these circumstances, the machine is subject to the 5 percent rate since the tax rate in effect at the time of first use, July 2, governs if property is purchased outside of Iowa. *City of Ames v. State Tax Commission*, 246 Iowa 1016, 71 N.W.2d 15 (1955).

14.3(6) Changed rate for the sales tax on enumerated services. A changed sales tax rate on enumerated services applies if services are rendered, furnished, or performed in Iowa on or after the effective date of the legislation which changes the rate. The date upon which the parties enter into a service contract is not of importance in determining whether the old rate or new rate is applicable. Nor, for the purpose of computing the sales tax, is it important to know when the product or result of the service is used by the ultimate user. This situation must be distinguished from the application of use tax to services. For use tax purposes, the date when the product or result of the service is used may be important. See subrule 14.3(7). For the purposes of this subrule and subrules 14.3(7), 14.3(8), 14.3(9) and 14.3(10), assume that the rate of tax is being raised from 4 to 5 percent and that the effective date of the legislation which increases the rate is July 1.

EXAMPLE A: On June 1, A and B enter into a service contract in which B agrees to provide testing laboratory services to A. B performs these services in Iowa on June 26. The results of these services are forwarded to A on July 8, and A observes those results and makes use of them on that latter day. Under these circumstances, the testing laboratory services were subject to service tax at the rate of 4 percent because B rendered, furnished, or performed the services on June 26, which is prior to July 1.

EXAMPLE B: On June 1, B offers to perform testing laboratory services for A. A and B agree that the offer is not accepted until B actually performs the test laboratory services. The services are performed on July 5 and the results forwarded to A on July 8. Under these circumstances, the testing laboratory services are subject to tax at the 5 percent rate. The services are subject to that rate because the services were rendered on July 5, and not because the parties entered into the contract for services on July 5. As in Example A above, if a contract had been entered into before July 1, and the services performed after that date, service tax at the 5 percent rate would still have been applicable.

EXAMPLE C: On June 7, A enters into a service contract with B for the repair of A's automobile. The contract provides that A shall make installment payments for 12 months. The automotive repairs are extensive. B begins repair of the automobile on June 9 and completes repair on June 27. Since sales tax is due when the service is rendered, furnished, or performed, the tax is 4 percent of the contract price. Installment payments made on and after July 1 do not accrue any greater rate of tax. This situation is different from a service contract entered into prior to July 1, which requires periodic payments for continuous services, as set forth under subrule 14.3(8).

EXAMPLE D: A, a civic center, contracts with B, an orchestra, to perform on July 10. The contract is made on May 26. A sells tickets of admission for B's July 10 concert. The tickets are sold in the month of June and from July 1 to and including July 9. All ticket sales in June are subject to tax at the 4 percent rate and all ticket sales in July are subject to tax at the 5 percent rate. In this example, the contract between A and B is not a taxable service contract. The taxable events are the sales of admission tickets between A and the purchasers of the tickets. The date when a ticket is delivered to a purchaser controls whether the tax rate is 4 or 5 percent.

14.3(7) *Changed rate of use tax on services.* If the product or result of a taxable service rendered, furnished, or performed outside of this state is first used in this state on or after July 1, the 5 percent use tax rate applies.

EXAMPLE: On June 14, A and B enter into a contract for repair of A's machine, the repair to be done outside of Iowa. On June 28, the machine is delivered to B who performs the taxable service of machine repair and returns the machine to A in Iowa on July 1. Under these circumstances, the product or result of the taxable machine repair service is first used by A on July 1; therefore, the 5 percent tax rate applies.

14.3(8) *Service contracts requiring periodic payments.* If parties enter into a service contract prior to July 1, and the contract requires periodic payments, payments made on or after July 1 under the contract are subject to the 5 percent sales or use tax rate.

EXAMPLE A: A and B enter into an agreement for the lease of equipment on April 1. The lease is for a term of five years and requires monthly payments. A is the lessee and B is the lessor. For all rental payments made on or after July 1, the tax rate is 5 percent.

EXAMPLE B: On May 1, A joined a private club and paid membership fees for the privilege of participating in athletic sports provided to club members. A must make periodic payments every three months. These payments are made in January, April, July, and October. Under these circumstances, A's July payment and payments made subsequently are subject to tax at the rate of 5 percent.

14.3(9) *Gas, electricity, water, heat, solid waste collection, sewer, pay television, and communication services.* Gross receipts from the sales, furnishing, or service of gas, electricity, water, heat, and communication service are subject to the sales, services, and use tax at the 5 percent rate when the date of billing the customer falls on or after July 1. The gross receipts from the services of solid waste collection and disposal, sewer, and pay television are also treated in this manner.

EXAMPLE A: A is the customer of the B water utility. A receives a bill from B on July 5. The billing date is July 1, and the bill is for water provided during the month of June. Under these circumstances, sales tax should be billed at the rate of 5 percent, because the date of billing is July 1.

EXAMPLE B: A is the customer of the B electric utility company. A receives a bill from the B company on July 2. There is no billing date set forth on the bill. The bill was mailed by the B company to A on June 28. Under these circumstances, the billing date is June 28, and the sales tax should be billed at the rate of 4 percent. Had B listed a billing date in its books and records as a receivable different than the mailing date, i.e., June 26, this latter date (June 26) would be considered the billing date.

EXAMPLE C: A is the customer of the B rural electric cooperative (REC). A is responsible for reading its meter and remitting the proper amount for electricity and sales tax to B. B, in its tariff filed with the Interstate Commerce Commission (ICC), has set forth the first date of each month as the last day for its customers to read their meters. B does not send a bill to A. Under these circumstances of customer self-billing where no bill is sent by B to A, the first date of each month is the billing date and where that date falls on July 1 and the first date of each month thereafter, the sales tax should be paid at the rate of 5 percent.

If the date set forth in the tariff had been the last day of the month, then a self-billing attributable to June 30 would require payment of sales tax at the 4 percent rate.

EXAMPLE D: A is the customer of B telephone company. A receives a bill from B company on July 3, covering intrastate long distance telephone calls in June and local service in July. The billing date on the face of the bill is June 28. Under these circumstances, all telephone services, local and intrastate long distance, should be billed sales tax at the rate of 4 percent.

If, in this example, the billing date on the bill had been July 1, the sales tax should be billed at the rate of 5 percent for all telephone services, local and intrastate long distance.

14.3(10) Vehicles subject to registration. The 5 percent use tax rate applies to motor vehicles subject to registration when the purchaser of the vehicle registers the vehicle on or after July 1.

EXAMPLE A: A purchases a motor vehicle from B and takes possession of the vehicle in Iowa on June 28. On July 1, A drives to the office of the county treasurer, applies for registration of the vehicle, and tenders the amount of Iowa use tax. Under these circumstances, because A registered the vehicle in Iowa on July 1, the use tax rate is 5 percent.

EXAMPLE B: A and B enter into a binding contract for A to purchase from B a motor vehicle on June 26. The vehicle cannot be delivered to A until July 3, and A applies to the county treasurer for registration of the vehicle on July 5. Under these circumstances, A first registered the vehicle on July 5 and Iowa use tax is imposed at the 5 percent rate.

This rule is intended to implement Iowa Code sections 422.43 and 423.2.

CHAPTER 15
DETERMINATION OF A SALE AND SALE PRICE
[Prior to 12/17/86, Revenue Department[730]]

701—15.1(422) Conditional sales to be included in gross sales. When a conditional sale agreement exists the seller shall bill the purchaser for the full amount of tax due. The purchaser is obligated to pay sales tax upon delivery of the property which is the subject of the conditional sale agreement. *Harold D. Sturtz v. Iowa Department of Revenue*, 373 N.W.2d 131 (Iowa 1985). The gross receipts shall be computed on the entire contract price except interest and finance charges when separately stated and reasonable in amount, and the seller shall remit the tax to the department at the close of the period during which delivery under the contract for the sale was made.

This rule is intended to implement Iowa Code sections 422.42(2) and 422.42(3).

701—15.2(422,423) Repossessed goods. When tangible personal property which has been repossessed either by the original seller or by a finance company is resold to final users or consumers, the gross receipts from those sales are subject to tax.

A retailer repossessing previously sold merchandise shall be entitled to claim a credit on tax paid for bad debts in the same fashion as any other retailer who has paid tax to the department upon gross receipts which ultimately constitute bad debts. See rule 15.4(422,423) for a description of the circumstances under which bad debts are and are not allowed as a credit on tax paid.

This rule is intended to implement Iowa Code sections 422.42, 422.43, 423.1, and 423.2.

701—15.3(422,423) Exemption certificates, direct pay permits, fuel used in processing, and beer and wine wholesalers.

15.3(1) General provision. The gross receipts from the sale of tangible personal property to a purchaser for any exempt purpose are not subject to tax as provided by the Iowa sales and use tax statutes. In addition, a seller of tangible personal property need not collect Iowa sales or use tax from a purchaser that possesses a valid direct pay permit issued by the department of revenue. However, the following are requirements for the exemption and noncollection of tax by a seller when a direct pay permit is involved:

a. Prior to July 1, 2004, the sales tax liability for all sales of tangible personal property was upon the seller unless the seller took in good faith from the purchaser a valid exemption certificate stating that the purchase was for an exempt purpose or the tax would be remitted directly to the department by the purchaser under a valid direct pay permit issued by the department. In addition to the provisions and requirements set forth in subrule 15.3(2), to be valid an exemption certificate issued by a purchaser to a seller in good faith under a direct pay permit must have included the purchaser's name, direct pay permit number, and date the direct pay permit was issued by the department. A seller who has taken a valid exemption certificate under a direct pay permit must keep records of sales made in accordance with rule 701—11.4(422,423). For more information regarding direct pay permits, see rule 701—12.3(422). Where tangible personal property or services have been purchased tax-free pursuant to a valid exemption certificate which was taken in good faith by the seller, and the tangible personal property or services were used or disposed of by the purchaser in a nonexempt manner, or the purchaser failed to pay tax to the department under a direct pay permit issued by the department, the purchaser was solely liable for the taxes and must remit the taxes directly to the department.

When a processor or fabricator purchases tangible personal property exempt from the sales or use tax and subsequently withdraws the tangible personal property from inventory for its own taxable use or consumption, the tax shall be reported in the period when the tangible personal property was withdrawn from inventory.

b. As of July 1, 2004, the requirement of "good faith" on the part of a seller is replaced by a different standard. For sales occurring on and after that date, the sales tax liability for all sales of tangible personal property and all sales of services is upon the seller and the purchaser unless the seller takes from the purchaser a valid exemption certificate stating under penalty of perjury that the purchase is for

a nontaxable purpose and is not a retail sale, or the seller is not obligated to collect tax due, or unless the seller takes a fuel exemption certificate. If the tangible personal property or services are purchased tax-free pursuant to a valid exemption certificate and the tangible personal property or services are used or disposed of by the purchaser in a nonexempt manner, the purchaser is solely liable for the taxes and shall remit the taxes directly to the department. The protection afforded a seller by this paragraph does not apply to a seller who fraudulently fails to collect tax or to a seller who solicits purchasers to participate in the unlawful claiming of an exemption.

c. The director is required to provide exemption certificates to assist retailers in properly accounting for nontaxable sales of tangible personal property or services to buyers for exempt purposes. These exemption certificates must be completed as to the information required on the form in order to be valid.

15.3(2) Retailer-provided exemption certificates. Retailers may provide their own exemption certificates. Those exemption certificates must contain information required by the department, including, but not limited to: the seller's name, the buyer's name and address, the buyer's nature of business (wholesaler, retailer, manufacturer, lessor, other), the reason for purchasing tax-exempt (e.g., resale or processing), the general description of the products purchased, and state sales tax or I.D. registration number. The certificate must be signed and dated by the buyer.

a. An exemption certificate or blanket exemption certificate as referred to in paragraph "b" cannot be used to make a tax-free purchase of any tangible personal property or service not covered by the certificate. For example, the certificate used to purchase a chemical consumed in processing cannot be used to purchase a generator which is going to become an integral part of other tangible personal property which will be ultimately sold at retail.

b. Any person repeatedly selling the same type of property or service to the same purchaser for resale, processing, or for any other exempt purpose may accept a blanket certificate covering more than one transaction. A seller who accepts a blanket certificate is required periodically to inquire of the purchaser to determine if the information on the blanket certificate is accurate and complete. Such an inquiry by the seller shall be deemed evidence of good faith on the part of the seller.

c. When due to extraordinary circumstances in the nature of fire, flood, or other cases of destruction beyond the taxpayer's control, a seller does not have an exemption certificate on file, the seller may show by other evidence, such as a signed affidavit by the purchaser, that the property or service was purchased for an exempt purpose.

d. The liability for the tax does not shift from the seller to the purchaser if the seller has not accepted a valid exemption certificate in good faith. If the seller has actual knowledge of information or circumstances indicating that it is unlikely that the property or services will be used by the purchaser in an exempt manner, then in order to act in good faith the seller must make further inquiry to determine the facts supporting the exemption certificate. In addition, if the nature of the business of the purchaser, as shown by the exemption certificate, indicates that it is unlikely that the property or services will be used in an exempt manner, then in order to act in good faith the seller must make further inquiry to determine the facts supporting the exemption certificate.

EXAMPLE 1. A seller is expected to inquire to discover the facts supporting the claimed exemption if the seller knows that the property or services will not be, or it is unlikely that the property or services will be, resold or used in processing by that purchaser. This further inquiry is expected even when there is nothing in the nature of the business as shown on the valid exemption certificate to cause the seller to make further inquiry.

EXAMPLE 2. A seller is expected to inquire to discover the facts supporting the claimed exemption of the sale of sawdust or a tool chest purchased by a gas station since such items are rarely resold by a gas station.

EXAMPLE 3. A seller is not expected to make further inquiry, in the absence of actual knowledge, to determine which light bulbs bought by a hardware store are for use in the store or those purchased for resale.

If the seller has met the requirements set forth above in accepting a valid exemption certificate, the seller shall be deemed to have acted in good faith and the liability for the tax shifts to the purchaser who becomes solely liable for the taxes.

e. A seller is relieved from liability for sales tax if (1) a purchaser deletes the tax reimbursement from the payment to the seller or if the purchaser makes a notation on an invoice such as “not subject to tax” or “resale” and (2) if the seller can produce written evidence to show that an attempt was made to obtain an exemption certificate to show that the transaction was exempt from tax but was unable to obtain said certificate from the purchaser.

f. The failure of a permit holder to act in good faith while giving or receiving exemption certificates may result in the revocation of the sales tax permit. Revocation is authorized under the provisions of Iowa Code section 422.53(5).

g. The purchase of tangible personal property or services which are specifically exempt from tax under the Iowa Code need not be evidenced by an exemption certificate. However, if certificates are given to support these transactions, they do not relieve the seller of the responsibility for tax if at some later time the transaction is determined to be taxable.

h. A person who is selling tangible personal property or services, but who is not making taxable sales at retail, shall not be required to hold a permit. When this person purchases tangible personal property or services for resale, the person shall furnish a certificate in accordance with these rules to the supplier stating that the property or services was purchased for the purpose of resale.

i. For information regarding the use of exemption certificates for contractors, see 701—Chapter 19.

15.3(3) *Fuel exemption certificates.*

a. Definitions.

“*Fuel*” includes, but is not limited to, heat, steam, electricity, gas, water, or any other tangible personal property consumed in creating heat, power, or steam.

“*Fuel consumed in processing*” includes fuel used in grain drying or providing heat or cooling for livestock buildings, fuel used for generating electric current, fuel consumed in implements of husbandry engaged in agricultural production, as well as fuel used in “processing” as defined in rules 701—18.29(422,423), 701—18.58(422,423), and 701—230.15(423). See rule 701—17.2(422) for a detailed description of “fuel used in processing.” See rule 701—17.3(422,423) for extensive discussion regarding electricity and steam used in processing.

“*Fuel exemption certificate*” is a certificate given by a purchaser and signed under penalty of perjury to assist a seller in properly accounting for nontaxable sales of fuel consumed in processing. The fuel exemption certificate must contain information required by the department, including, but not limited to: the seller’s name and address; the purchaser’s name and address; the type of fuel purchased, e.g., electricity, propane; a description of the purchaser’s business, e.g., farmer, manufacturer of steel products, food processor; a general description of the type of processing in which the fuel is consumed, e.g., grain drying, raising livestock, generating electricity, or manufacture of tangible personal property; and the percentage exemption claimed. The fuel exemption certificate must be signed under penalty of perjury by the purchaser and dated. The seller may demand from the purchaser additional documentation attached to the fuel exemption certificate which is reasonably necessary to support the claim of exemption for fuel consumed in processing. In the absence of separate metering, documentation reasonably necessary to support a claim for exemption will consist of either an electrical consultant’s survey or of a document prepared by the purchaser in accordance with the requirements of subrule 15.3(4). Attachment of documentation is not necessary if the purchaser has furnished the seller with documentation when filing an earlier exemption certificate and a substantial change in the purchaser’s operation had not occurred since the documentation was furnished or if fuel consumed by the purchaser in processing is separately metered and billed by the seller.

“*Substantial change*” means a change in the purchaser’s use or disposition of tangible personal property and services such that the purchaser pays less than 90 percent of the purchaser’s actual sales tax liability.

b. If fuel is purchased tax-free pursuant to a fuel exemption certificate which has been accepted by the seller and the purchaser uses or disposes of the fuel in a nonexempt manner, the purchaser is solely liable for sales tax and shall remit that tax directly to the department. A seller can, however, rely upon a fuel exemption certificate for sales occurring within five years subsequent to the date of the certificate only. For later sales, the seller must secure a new certificate of exemption from the purchaser.

c. A purchaser may apply to the department for review of any fuel exemption certificate. The department shall review the certificate and determine the correct amount of exemption within 12 months from the date of application. The department shall notify a purchaser of any determination that is different from the purchaser's claim of exemption. Failure to determine the correct amount of exemption within 12 months from the date of application shall constitute a determination on the department's part that the claim of exemption on the fuel certificate is correct as submitted. A determination regarding an exemption certificate is final unless the purchaser appeals to the director for a revision of the determination within 60 days from the date of the notice of determination. The director shall grant a hearing and upon the hearing, the director shall determine the correct exemption and notify the purchaser of the decision by mail. The decision is final unless the purchaser seeks judicial review of the director's decision under Iowa Code section 422.55 within 60 days from the date of the notice of the director's decision. The purchaser must notify the seller of any change in percentage.

d. The effective date of the legislation allowing use of an exemption certificate for fuel used in processing is January 1, 1988. However, a certificate which is complete and correct according to subrule 15.3(3), paragraph "a," and any other requirement of the director, which is signed and dated prior to January 1, 1988, shall, if accepted by a seller in good faith, protect the seller to the extent described in subrule 15.3(3), paragraph "b," for energy consumed on or after January 1, 1988. Exemption certificates filed with the seller prior to January 1, 1988, also expire five years from date of acceptance.

15.3(4) *Determining percentage of electricity used in processing.* When electricity is purchased for consumption both for processing and for taxable uses, and the use of the electricity is recorded on a single meter, the purchaser must allocate the use of the electricity according to taxable and nontaxable consumption if an exemption for nontaxable use is to be claimed. The calculations which support the allocation, if properly performed, can serve as the documentation reasonably necessary to support a claim of exemption for fuel used in processing. The following method with its alternative table may be used to determine the percentage of electricity used on the farm or in a factory which is exempt by virtue of its being used in processing. See subrule 15.3(4), paragraph "e," for alternative methods of computing exempt use, including exempt use by a new business. First, the base period for the calculations must be selected.

a. Ordinarily, the 12 months previous to the date upon which the exemption is calculated are used as the base period for determining the percentage of electricity exempt as used in processing. This immediately previous 12-month period is used because it is a span of time which is (1) recent enough to accurately reflect future electric usage; (2) extended enough to take into account variations in electrical usage resulting from changes in temperature occurring with the seasons; and (3) is not so long as to require unduly burdensome calculations. However, individual circumstances can dictate that a shorter or longer period than 12 months will be used or that some 12-month period other than that immediately previous to the date upon which the exemption certificate is filed, will be used.

EXAMPLE: Mr. Wilson is a farmer. He files an exemption certificate for the period beginning January 1, 1990. The year 1989 is one with a very mild winter, a relatively cool summer, and a very dry autumn. Mr. Wilson uses no electricity for grain drying and substantially less electricity than usual for heating and cooling his livestock buildings. Mr. Wilson must use a 12-month period which is more representative of his usual exempt electrical consumption than that of January through December 1989.

EXAMPLE: Mr. Jackson is also a farmer. He files an exemption certificate for the period beginning January 1, 1991. The year 1990 is one in which the summer is extraordinarily hot, the winter exceedingly cold, and the autumn very wet. Mr. Jackson uses far more electricity than normal to dry his grain and heat and cool his livestock buildings. He should use a 12-month period more representative of his customary exempt use of electricity than the period January through December 1990.

EXAMPLE: Company A manufactures its product in a factory which has no windows and is heavily insulated. The factory always runs 40 hours per week, 52 weeks per year. Because of these and other circumstances, Company A's electrical usage does not vary significantly from month to month, and it is easy enough to document this. Company A can calculate its percentage of exempt use of electricity based on a one-month, rather than a 12-month, period.

EXAMPLE: Company B manufactures widgets. The "economic cycle" for widget production is, on the average, 36 months long. During this economic cycle, there are times when, for months at a time, the factory will operate three shifts. At other times, for weeks at a time, the entire factory will be shut down and its personnel laid off. The only accurate way to determine exempt percentage of electricity used is to calculate electrical use over the entire economic cycle. Therefore, 36 months, rather than 12 months, would be the base period.

b. Calculating kilowatts used per hour by various electrical devices. The first step in computing percentage of exemption is to determine the number of kilowatts used per hour for each device in farm or factory. If kilowatts consumed per hour of a device's use is not listed on the device or otherwise readily obtainable, formulas can be used to determine this information.

Lights

For incandescent bulbs, add rated wattages and divide by 1,000. For fluorescent lights, add rated wattages plus an additional 20 percent of rated wattages, then divide by 1,000.

Incandescent Lights:

$$\frac{\text{Watts}}{1,000} = \text{Kilowatts Per Hour}$$

Fluorescent and Other High Intensity Lights:

$$\frac{\text{Watts} + .20 (\text{Watts})}{1,000} = \text{Kilowatts Per Hour}$$

Devices Other Than Lights

For these devices, use the wattage rating given by the manufacturer and divide by 1,000 to obtain approximate kilowatts used per hour of operation.

$$\frac{\text{Watts}}{1,000} = \text{Kilowatts Per Hour}$$

If an appliance does not list a watt rating, tables provided by Iowa State University Cooperative Extension Service can be used especially by farmers who are attempting to compute their exempt percentage of electricity used. Persons using a table are reminded to convert watts to kilowatts before proceeding to further calculations.

c. The average number of kilowatts consumed per hour of operation for any one device must next be multiplied by the total number of hours which the device is operated during the base period. A person may use intermediate calculations. For example, assume that a machine used in processing consumes 20 kilowatts per hour of operation. The machine is operated, during a 12-month base period, 40 hours per week during 50 weeks. The machine is not placed in operation when the factory is closed for two weeks vacation. Exempt use is calculated as follows:

$$\frac{\text{Kilowatts Per Hour}}{20} \times \frac{\text{Hours Operated Per Week}}{40} \times \frac{\text{Weeks Operated in 12-Month Period Equals Number of Exempt Kilowatt Hours}}{50} = 40000$$

Assume that a grain dryer uses 30 kilowatts per hour of operation. During a 12-month base period, the grain dryer is used in processing 200 hours per month, for 3 months. The calculation for total number of kilowatt hours of exempt use for the 12-month period is as follows:

$$\frac{\text{Kilowatts Per Hour}}{30} \times \frac{\text{Hours of Exempt Use Per Month}}{200} \times \frac{\text{Number of Months of Exempt Use Equals Total Number of Exempt Kilowatt Hours}}{3} = 18000$$

d. The following is a very simplified example of a worksheet for determining the percentage of electricity qualifying for exemption when a single meter records both exempt and taxable use.

	Kilowatts Per Hour of Operation	Average Hours of Operation Per 12-Month Base Period	Average Kilowatt Hours Per 12-Month Base Period	Total
All Exempt Usage				
Production Machine #1	10	1000	10000	
Production Machine #2	10	1000	10000	
Other	10	1000	10000	
Total Exempt Usage				30000(A)
All Taxable Usage				
Air Conditioners	10	3000	30000	
General Lighting	10	3000	30000	
Office Equipment	10	3000	30000	
Space Heaters	10	3000	30000	
Other	10	3000	30000	
Total Taxable Usage				150000(B)
Total—All Usages				180000(C)

$$\frac{30000}{180000} \text{ or } \frac{A}{C} = \text{Percentage of Electricity Purchase Qualifying for Exemption} = 16.60\%$$

The number actually used in the base period can be determined by reference to billings for the base period. If the number of kilowatt hours calculated to have been used does not approximate the number actually used in the base period, the calculations are deficient and should be performed again. Once the precise percentage of exemption has been calculated, that percentage must be applied during any period for which a purchaser is requesting exemption. Any substantial and permanent change in the amount of electricity consumed or in the proportion of exempt and nonexempt use of electricity is an occasion for recomputing the exempt percentage and for filing a new exemption certificate.

e. The following are nonexclusive alternatives to the above method of determining the percentage of electricity which is exempt because it is used in processing. First, if currently only one meter exists to measure both exempt and nonexempt use of electricity, the most accurate method of determining exempt and nonexempt use may be separate metering of these two uses. This possibility is especially practical

if all exempt use results from the activities of one machine, however large. If separate metering is impossible or impractical, it may be useful to employ the services of an energy consultant. If using energy consultant's service is impractical, it may be possible to secure, from the manufacturer of a machine used in processing, the number of kilowatts which a machine uses per hour of operation. Often, these manufacturer's studies give a more accurate measure of a machine's use of electricity than the formulas set out in paragraph 15.3(4) "b" above. This circumstance is especially true with regard to large electric motors.

If a business is new, and no historical data exists for use in calculating exempt and nonexempt percentages of electricity or other fuel consumed, any person calculating future exempt use must make the best projections possible. If calculating future exempt use with no past historical data to serve as a basis for the calculations, it is suggested that conservative estimates of exempt use be made. Using these conservative estimates can avoid future liability for sales tax on the part of the purchaser of the electricity. Possibly, in calculating exempt use of fuel for a new business, historical data from existing similar businesses can be used if available from persons not in direct competition to the person claiming the exemption.

Ordinarily any method of determining the percentage of electricity used in processing will involve calculating both exempt and nonexempt usage. However, in certain instances it is acceptable to calculate only exempt or nonexempt usage in one column and to list separately the equipment or devices making the exempt or nonexempt use of the electricity separate. This practice can normally be followed where electrical usage does not fluctuate dramatically and where usage is either predominantly exempt or predominantly not exempt.

15.3(5) *Applicability.* The provisions of subrule 15.3(4) explaining the determination of the percentage exemption for electricity also apply to other types of fuel such as natural gas, LP, etc., when used for exempt purposes.

15.3(6) *Special certificates of beer and wine wholesalers.* Beer or wine purchased from a wholesaler holding a Class A or F permit has been purchased for resale if the purchaser provides the wholesaler with a retail beer or wine permit or liquor license number. A wholesaler's record of account with an individual retailer is a complete and correct exemption certificate for the purposes of beer or wine sales and provides all the protection which the usual exemption certificate (see subrule 15.3(2)) provides if the record of account contains the retailer's beer or wine permit or liquor license number and all other information concerning the account is taken in good faith by the wholesaler. The words "beer," "permit," "retailer," "wholesaler," and "wine" have the same definitions for the purposes of this rule as the definitions given them in Iowa Code section 123.3.

This rule is intended to implement Iowa Code sections 422.42(3), 422.42(13), 422.42(16), 422.47, 422.53 as amended by 1997 Iowa Acts, House File 266, and 423.1(1).

[ARC 2349C, IAB 1/6/16, effective 2/10/16]

701—15.4(422,423) Bad debts. Bad debts shall be allowed as a credit on tax when all the following facts have been shown:

15.4(1) Tax has been previously paid on the gross receipts from the accounts on which the taxpayer claims credit for tax.

15.4(2) The accounts have been found to be worthless.

15.4(3) The taxpayer has records to show that the accounts have actually been charged off for income tax purposes.

Credit for bad debts shall not be allowed on merchandise which was exempt from tax when sold.

When credit on tax has been taken on account of bad debts and the debts are subsequently paid, the proceeds from the collection of such accounts shall be included in the gross receipts for the period in which payment is made.

Effective July 1, 1992, the sales and use tax rate increased from 4 percent to 5 percent.

Bad debts which occur prior to July 1, 1992, and are charged off on or after July 1, 1992, may be charged off at the tax rate of 5 percent. Bad debts which have been charged off prior to July 1, 1992,

and all or any part of the bad debt is recovered after July 1, 1992, will be subject to tax at the rate of 5 percent. All the provisions of this rule and rule 15.5(422,423) apply.

This rule is intended to implement Iowa Code sections 422.42(16), 422.46, and 423.1(10).

701—15.5(422,423) Recovery of bad debts by collection agency or attorney. When bad debts have been charged off and later recovered in whole, or in part, through the services of a collection agency or an attorney, the full amount of the debt recovered shall be included with the gross sales for the period which the collection was made. The services of an agency or attorney are services purchased by a retailer and shall not reduce the gross amount collected for the retailer by the agency or attorney.

This rule is intended to implement Iowa Code sections 422.42(16), 422.46, and 423.1(10).

701—15.6(422,423) Discounts, rebates and coupons.

15.6(1) Discounts. A discount is an abatement from the face of an account, with the remainder being the actual purchase price of the goods charged in the account. The purchaser entitled to the discount will never owe the face of the bill as a debt—this being the net of the bill after the agreed discount has been deducted. The word “discount” means “to buy at a reduction.” *Benner Tea Company v. Iowa State Tax Commission*, 252 Iowa 843, 109 N.W.2d 39 (1961).

Any discount allowed by a retailer and taken on taxable sales is a proper deduction when collecting and reporting tax. This is not the case when the retailer offers a discount to a purchaser but bills and collects tax on the gross charge rather than on the net charge. The customer must receive the benefit of the discount, for sales tax purposes, in order for the retailer to exclude it from gross receipts.

Certain retailers bill their customers on a gross and net basis, with the difference considered to be a discount for payment purposes. When a customer does not resolve the bill within the net payment period, tax shall apply on the gross charge shown on the billing.

15.6(2) Rebates. A rebate is a return of part of an amount paid for a product. Manufacturers’ rebates are not discounts and cannot be used to reduce the gross receipts received from a sale or reduce the purchase price of a product. This rule applies even though the rebate is used by the seller to reduce the selling price or is used by the purchaser as a down payment. The rebate is considered a transaction between the manufacturer and the purchaser. See 1972 O.A.G. 332.

15.6(3) Coupons. Coupons issued by the producer of a product are not discounts and cannot be used as an abatement from the face of the account. Coupons issued by the retailer which actually reduce the price of the product to the purchaser are treated as a discount as per subrule 15.6(1). *Saxon-Western Corporation v. Mahin*, 369 N.E.2d 1185 (Ill. 1979).

EXAMPLE: C acquires a 30¢ off coupon issued by manufacturer of A-B Band-aids for A-B Band-aids which can be redeemed at a store which sells the product. C goes to store D and purchases a box of A-B Band-aids which shows a price of \$1.50. C pays \$1.20 + the 30¢ coupon. D is reimbursed the 30¢ for the coupon by the manufacturer. Tax is due on the \$1.50 because C’s total gross receipts are \$1.50. The coupon is not used as a discount in this situation.

EXAMPLE: E offers a two for the price of one coupon for its super hamburger. Each hamburger normally sells for \$2.00 each. The coupon can only be redeemed at E’s retail store. F acquires the coupon and redeems it at E’s store. The purchase price for F was \$2.00 for both hamburgers. The tax is due on the \$2.00 because this amount is the gross receipts for E, even though the value of the two hamburgers would normally be \$4.00. In this situation, the sales price for the two hamburgers was \$2.00.

This rule is intended to implement Iowa Code sections 422.42(6) and 423.1(3).

701—15.7(422,423) Trading stamps are not a discount. Rescinded IAB 11/14/01, effective 12/19/01.

701—15.8(422,423) Returned merchandise. When merchandise is sold and returned by a customer who secures an allowance or a return of the full purchase price, the seller may deduct the amount allowed as full credit or refund, provided the merchandise is taxable merchandise and tax has been previously paid on the gross receipts.

An allowance shall not be made for the return of any merchandise which (1) is exempt from either sales or use tax; or (2) has not been reported in the taxpayer's gross receipts and tax previously paid.

This rule is intended to implement Iowa Code sections 422.42(6) and 423.1(3).

701—15.9(422) Goods damaged in transit. If goods shipped by a retailer have been delivered under a contract for sale to a consumer, and thereafter the goods are damaged in the course of transit to the consumer, the retailer shall be liable for tax upon the full sale price of the goods, as the sale to the consumer has been completed. *Harold D. Sturtz v. Iowa Department of Revenue*, 373 N.W.2d 131 (Iowa 1985).

If the goods have not been delivered to the consumer, the sale to the consumer has not been completed, and the retailer shall not be taxed for the amount agreed to be paid by the consumer.

EXAMPLE: A company in Chicago transports furniture in its own truck to customer B in Des Moines. Under the contract of sale, delivery of the furniture would occur in Des Moines and sales tax would ordinarily be due upon the gross receipts of the sale. However, in East Moline, Illinois, the furniture truck is involved in an accident, and B's furniture is destroyed. There was no delivery of the furniture to B, thus no sale to B and thus no sales tax is due. Had the point of delivery been Chicago, Illinois, a sale would have occurred outside this state, but no use tax would be due because B never made any "use" of the furniture in Iowa.

This rule is intended to implement Iowa Code sections 422.42 and 422.43.

701—15.10(422) Consignment sales. When a retailer receives tangible personal property on consignment from others and the consigned merchandise is sold in the ordinary course of business with other merchandise owned or services performed by the retailer, the retailer or consignee shall be making sales at retail. In these cases, the consignee shall file a return and remit tax to the department along with the returns and remittances of gross receipts from the sale of other merchandise.

Sale of tangible personal property by an agent or consignee for another person shall be exempt if the sales meet the requirements of a casual sale or any other exemptions.

This rule is intended to implement Iowa Code sections 422.42 and 423.43.

701—15.11(422,423) Leased departments. When a permit holder leases a part of the premises where the permit holder's retail business is conducted, the lessor shall immediately notify the department and supply the following information: (1) name and home office address of the lessee; (2) type of merchandise sold by the lessee or service performed; (3) date when the lessee began making sales or performing services at retail in Iowa on the leased premises; and (4) whether the lessee has secured a permit to account directly to the department for tax due or if the lessee's sales will be accounted for in the lessor's tax return. Upon request, the department shall furnish a form to the lessor on which to report this information.

If the lessor fails to notify the department that a part of the premises has been leased and does not furnish the requested information, the lessor shall be responsible for tax due as a result of sales by the lessee, unless the lessee has properly remitted the tax due.

The lessor who has leased a part of the premises shall report to the department the names and addresses of all lessees. If the lessor is accounting for the lessee's sales, the lessor shall, after the name of each lessee, show the amount of net taxable sales made by the lessee and which net taxable sales are included in the lessor's return. If the lessee is reporting the tax directly to the department, the lessor shall show the permit number of the lessee.

When the lessee has terminated selling activities, the lessor shall immediately notify the department.

This rule is intended to implement Iowa Code sections 422.68(1) and 423.23.

701—15.12(422,423) Excise tax included in and excluded from gross receipts.

15.12(1) An excise tax which is not an Iowa sales or use tax may be excluded from the gross receipts or purchase price of the sale or use of property or taxable services only if all of the following conditions exist:

a. The excise tax is imposed upon the identical sale which the Iowa sales tax is imposed upon or upon the sale which measures the taxable use or upon a use identical to the Iowa taxable use and not upon some event or activity which precedes or occurs after the sale or use.

b. The legal incidence of the excise tax falls upon the purchaser who is responsible for payment of the Iowa sales tax. The purchaser must be obligated to pay the excise tax either directly to the government in question or to another person (e.g., the retailer) who acts as a collector of the tax. See *Gurley v. Rhoden*, 421 U.S. 200, 95 S. Ct. 1605, 44 L.Ed.2d 110 (1975) for a description of the circumstances under which the legal, as opposed to the economic, burden of an excise tax falls upon the purchaser.

c. The name of the tax is specifically stated and the amount of the tax separately set out on the invoice, bill of sale, or upon another document which embodies a record of the sale.

EXAMPLE 1. The federal government imposes an excise tax upon the act of manufacturing tangible personal property within the United States. The amount of the tax is measured as a percentage of the price for the first sale of the property, which is usually to a wholesaler. However, one particular manufacturer sells its manufactured goods at retail in Iowa. Even if this tax meets the requirements for exclusion of paragraphs “*b*” and “*c*” above, it is not excludable because it does not meet the requirements of paragraph “*a*.” The tax is not imposed upon the act of sale but upon the prior act of manufacture. The tax is merely measured by the amount of the proceeds of the sale.

EXAMPLE 2. The federal government imposes an excise tax of 4 percent on a retailer’s gross receipts from sales of tangible personal property. The law allows the retailer to separately identify and bill a customer for the tax. However, if a retailer fails to pay the tax, the government cannot collect it from a purchaser and if the government assesses tax against the retailer and secures a judgment requiring the retailer to pay the tax, the retailer who has failed to collect the tax from a purchaser on the initial sale has no right of reimbursement from the purchaser. This tax is not excludable from Iowa excise tax. Its economic burden falls upon the purchaser. However, since neither the government nor the retailer has any legal right to demand payment of the tax from a purchaser, the legal incidence of the tax is not upon the purchaser; and the tax would not meet the requirements of paragraph “*b*” above.

15.12(2) As of January 1, 1988, the following federal excise taxes are includable in the gross receipts of Iowa sales tax:

a. The federal gallonage taxes on distilled spirits, wines, and beer imposed by 26 U.S.C. Sections 5001, 5041, and 5051.

b. The tax imposed by 26 U.S.C. Section 5701 with regard to cigars, cigarettes, and cigarette papers and tubes.

c. The federal tax on gasoline imposed under 26 U.S.C. Section 4081.

d. The federal tax on tires, inner tubes, and tread rubber imposed by 26 U.S.C. Section 4071.

e. The federal manufacturer’s excise tax imposed by 26 U.S.C. Section 4061 has been repealed.

15.12(3) The following excise taxes are excluded from the amount of gross receipts:

a. The federal tax imposed by 26 U.S.C. Section 4251(a) on the communication services of local telephone service, toll telephone service, and teletypewriter exchange service.

b. The federal tax imposed by 26 U.S.C. Section 4051 upon the first retail sale of automobile and truck chassis and bodies; truck trailer and semitrailer chassis and bodies and tractors of the kind chiefly used for highway transportation in combination with trailers or semitrailers.

This rule is intended to implement Iowa Code sections 422.42(6), 422.43, 423.1, and 423.2.

701—15.13(422,423) Freight, other transportation charges, and exclusions from the exemption applicable to these services. The determination of whether freight and other transportation charges shall be subject to sales or use tax is dependent upon the terms of the sale agreement.

When tangible personal property or a taxable service is sold at retail in Iowa or purchased for use in Iowa and under the terms of the sale agreement the seller is to deliver the property to the buyer or the purchaser is responsible for delivery and such delivery charges are stated and agreed to in the sale agreement or the charges are separate from the sale agreement, the gross receipts derived from the freight or transportation charges shall not be subject to tax. As of May 20, 1999, this exemption does not apply

to the service of transporting electrical energy. As of April 1, 2000, this exemption does not apply to the service of transporting natural gas.

When freight and other transportation charges are not separately stated in the sale agreement or are not separately sold, the gross receipts from the freight or transportation charges become a part of the gross receipts from the sale of tangible personal property or a taxable service and are subject to tax. Where a sales agreement exists, the freight and other transportation charges are subject to tax unless the freight and other transportation charges are separately contracted. If the written contract contains no provisions separately itemizing such charge, tax is due on the full contract price with no deduction for transportation charge, regardless of whether or not such transportation charges are itemized separately on the invoice. *Clarion Ready Mixed Concrete Company v. Iowa State Tax Commission*, 252 Iowa 500, 107 N.W.2d 553(1961); *Schemmer v. Iowa State Tax Commission*, 254 Iowa 315, 117 N.W.2d 420(1962); *City of Ames v. Iowa State Tax Commission*, 246 Iowa 1016, 71 N.W.2d 15(1959); *Dain Mfg. Company v. Iowa State Tax Commission*, 237 Iowa 531, 22 N.W.2d 786(1946).

Effective July 1, 2001, gross receipts from charges for delivery of electricity or natural gas are exempt from tax to the extent that the gross receipts from the sale, furnishing, or service of electricity or natural gas or its use are exempt from sales or use tax under Iowa Code chapters 422 and 423.

The exclusions from this exemption relating to the transportation of natural gas and electricity are applicable to all contracts for the performance of these transportation services. Below are examples which explain some of the principal circumstances in which the transport of natural gas or electricity is a service subject to tax.

Freight and transportation charges include, but are not limited to, the following charges or fees: freight; transportation; shipping; delivery; or trip charges.

EXAMPLE 1. Consumer ABC, located in Des Moines, contracts with supplier DEF, located in Waterloo, for DEF to sell gas and electricity to ABC. ABC then contracts with utility GHI to transport the energy over GHI's network (of pipes or wires) from Waterloo to ABC's facility in Des Moines. GHI's transport of ABC's energy is a taxable service. The transportation of natural gas and electricity by a utility is a taxable service of furnishing natural gas or electricity whether or not that utility or some other utility produces the natural gas or generates the electricity furnished. A utility's transportation of gas or electricity is a "transportation service" specifically excluded from the exemption set out in this rule.

EXAMPLE 2. Consumer ABC contracts with utility DEF for DEF to provide electricity from DEF's generating plant in Mason City to ABC's location in Cedar Rapids. Transport of the electricity is by way of DEF's network of long distance transmission lines. The contract between ABC and DEF states the prices to be paid for the purchase of various amounts of electricity and also sets out the amounts to be paid for transport of electricity as well and constitutes separate sales of electricity and transportation services. In these circumstances, amounts which ABC pays DEF for transport of the electricity are taxable gross receipts. This transportation service would ordinarily then be excluded from tax under the exemption set out in this rule; however, separate transportation charges for transportation of electricity are excluded from the exemption (as of May 20, 1999, and are thereafter taxable).

EXAMPLE 3. As in Example 2, consumer ABC contracts with utility DEF for the delivery of electricity from DEF's generating plant in Mason City to ABC's location in Cedar Rapids, ownership of the electricity to pass to ABC in Cedar Rapids. Also, as in Example 2, the contract between ABC and DEF states varying prices to be paid for the purchase and transportation of varying amounts of electricity and constitutes separate sales of electricity and transportation services. Transport of the electricity will be by way of GHI's transmission lines. DEF contracts with GHI for the transport of the electricity to ABC's plant in Cedar Rapids. At the time the contract is signed, GHI asks DEF for an exemption certificate stating that DEF will resell GHI's transportation service to ABC. GHI must either secure the certificate or collect Iowa sales tax from DEF. GHI is furnishing a taxable electricity transportation service to DEF which DEF will in turn furnish to ABC. DEF must collect tax from ABC.

EXAMPLE 4. In this example, the same contract exists between ABC and DEF as exists in Example 3. However, in this example, a breakdown at DEF's plant in Mason City prevents DEF from generating the electricity which it is contractually obligated to provide to ABC. DEF is forced to purchase both

electricity and its transport from JKL. The contract between DEF and JKL states the prices to be paid for the purchase of various amounts of electricity and also sets out the amounts to be paid for the transport of this electricity as well and constitutes separate sales of electricity and transportation services. JKL asks DEF for an exemption certificate stating that DEF has purchased the electricity and its transport for resale to ABC. In this case, JKL must secure an exemption certificate from DEF to avoid collecting tax on its sale and transport of the electricity for DEF.

EXAMPLE 5. Again, ABC and DEF have contracted, as they did in Example 2, for DEF to sell and transport electricity from Mason City to Cedar Rapids. However, their agreement mentions only one combined price for sale and delivery of the electricity. There is no separately contracted price for transport of the electricity, in contrast to the situation in Example 2. In this case, the entire amount which ABC pays to DEF is taxable as the entire amount paid is for the sale of tangible personal property. See Clarion Ready Mixed and Schemmer, generally, above.

EXAMPLE 6. Manufacturer EFG contracts with utility DEF for the purchase of natural gas with a separate contract for its delivery. The gas is to be transported from DEF's storage facility near Osceola to EFG's manufacturing plant in Fort Dodge by way of DEF's pipeline. Ownership of the gas passes from DEF to EFG in Fort Dodge. EFG uses 92 percent of the gas which is transported to its plant in processing the goods manufactured there. The receipts which EFG pays DEF for the transport of the gas are excluded from the transportation exemption, but they are not excluded from the processing exemption. Ninety-two percent of those receipts are exempt from tax because that is the percentage of gas used by EFG in processing. In addition, utility DEF charges manufacturer EFG \$9.95 as a delivery fee for the gas. Since the purchase of the gas has a 92 percent exemption from Iowa sales tax because of a 92 percent usage in processing, 92 percent of the delivery charge of \$9.95 is also exempt from tax.

This rule is intended to implement Iowa Code sections 422.43 and 423.2, and section 422.45 as amended by 2001 Iowa Acts, House File 705.

701—15.14(422,423) Installation charges when tangible personal property is sold at retail. When the sale of tangible personal property includes a charge for installation of the personal property sold, the current rate of tax shall be measured on the entire gross receipts from the sale. The installation charges would not be taxable if: (1) The installation service is not an enumerated service, and also (2) where a sales agreement exists, the installation charges are separately contracted. If the written contract contains no provisions separately itemizing such charges, tax is due on the full contract price with no deduction for installation charges, regardless whether or not such installation charges are itemized separately on the invoice.

If the installation services are enumerated services, the installation charges would not be taxable if: (1) The services are exempt from tax, e.g., the services are performed on or connected with new construction, reconstruction, alteration, expansion or remodeling of a building or structure; or, the services are rendered in connection with the installation of new industrial machinery or equipment. See rule 701—19.13(422, 423) and subrule 18.45(7), respectively. And also (2) where a sales agreement exists, the installation charges are separately contracted. If the written contract contains no provisions separately itemizing such charges, tax is due on the full contract price with no deduction for installation charges, regardless whether or not such installation charges are itemized separately on the invoice. If no written contract exists, the installation charges must be separately itemized on the invoice to be exempt from tax.

This rule is intended to implement Iowa Code sections 422.43 and 423.2.

701—15.15(422) Premiums and gifts. A person who gives away or donates tangible personal property shall be deemed to be a consumer of such property for tax purposes. The gross receipts from the sale of tangible personal property to such persons for such purposes shall be subject to tax.

When a retailer purchases tangible personal property, exclusive of tax, for the purpose of resale in the regular course of business and later gives it away or donates it, the retailer shall include in the return the value of the property at the retailer's cost price.

When a retailer sells tangible personal property and furnishes a premium with the property sold, the retailer is considered to be the ultimate consumer or user of the premium furnished.

This rule is intended to implement Iowa Code sections 422.42 and 422.43.

701—15.16(422) **Gift certificates.** When a retailer sells gift certificates, tax shall be added at the time the gift certificate is redeemed.

This rule is intended to implement Iowa Code sections 422.42 and 422.43.

701—15.17(422,423) **Finance charge.** Interest or other types of additional charges that result from selling on credit or under installment contracts are not subject to sales tax when such charges are separately stated and when such charges are in addition to an established cash selling price. However, if a sale is made for a lump sum, the tax is due on the total selling price if finance charges are not separately stated.

When interest and other types of additional charges are added as a condition of a sale in order to obtain title rather than as a charge to obtain credit where title to goods has previously passed, such charges will be subject to tax even though they may be separately stated. *State ex. rel. Turner v. Younkers Bros., Inc.*, 210 N.W.2d 550 (Iowa 1973); *Road Machinery Supplies of Minneapolis, Inc., v. The Commissioner of Revenue*, Minnesota Tax Court of Appeals, 1977, 2 Minn. CCH State Tax Reporter II 200-835. See rule 701—16.47(422,423) relating to conditional sales contracts.

This rule is intended to implement Iowa Code sections 422.42(2) and 423.4.

701—15.18(422,423) **Coins and other currency exchanged at greater than face value.** Any exchange, transfer, or barter of merchandise for a consideration paid in gold, silver, or other coins or currency shall be subject to tax to the extent of the agreed-upon value of the coins or currency so exchanged. This agreed-upon value constitutes the gross receipts or purchase price subject to tax. Coins or currency becomes articles of tangible personal property having a value greater than face value when they are exchanged for a price greater than face value. However, when a coin or other currency, in the course of circulation, is exchanged at its face value, the sale shall be subject to tax for the face value alone. *Losana Corp. v. Porterfield*, 14 Ohio St.2d 42, 236 N.E.2d 535 (1968).

EXAMPLE 1. Taxpayer operates a furniture store. The taxpayer offers to exchange furniture for silver coins at ten times the face value of any coins dated prior to January 1, 1965. Upon any exchange pursuant to the offer, the value of the coins for purposes of determining the tax on the exchange will be equivalent to the value as agreed upon by the parties without regard to the face value of the coins.

EXAMPLE 2. Taxpayer operates a hardware store. In the regular course of business, the taxpayer receives silver coins dated prior to January 1, 1965. Taxpayer has received the coins at face value for the sales price and only that value is subject to tax.

Also see Attorney General Opinion Griger to Bair, Director of Revenue, May 15, 1980, #80-5-13.

This rule is intended to implement Iowa Code section 422.42(6).

701—15.19(422,423) **Trade-ins.**

15.19(1) Trade-ins. When tangible personal property is traded toward the purchase price of other tangible personal property, the gross receipts shall be only that portion of the purchase price which is payable in money to the retailer if the following conditions are met:

- a. The tangible personal property is traded to a retailer, and the property traded is the type normally sold in the regular course of the retailer's business; and
- b. The tangible personal property traded to a retailer is intended by the retailer to be ultimately sold at retail; or
- c. The tangible personal property traded to a retailer is intended to be used by the retailer or another in the remanufacturing of a like item.

EXAMPLE 1. A owns a car valued at \$5,000. A trades his used car to XY car dealer for a used car valued at \$12,000. XY car dealer normally sells used cars. Use tax would be due on the \$7,000 in money A paid to XY used car dealer, as both conditions "a" and "b" have been met.

EXAMPLE 2. John Doe has a pickup truck with a value of \$2,000. John wants a boat so he offers to trade his \$2,000 pickup to ABC boat dealer for the purchase of a boat valued at \$5,000. ABC boat dealer is a new and used boat dealer. ABC boat dealer agrees to accept the \$2,000 pickup and \$3,000 cash in trade for the boat. In this example, the tax would be computed on \$5,000. The trade-in provision would not apply because condition “a” has not been met. The property traded is not the type of property normally sold by ABC new and used boat dealer in the regular course of the boat dealer’s business.

EXAMPLE 3. ABC Corporation trades 500 bushels of corn and \$500 cash to the local cooperative elevator for the purchase of various hand tools. The local cooperative elevator normally sells grain in its regular course of business for processing into bread. The trade-in provision in this example would not apply because condition “b” would not be met. The grain traded toward the purchase price of the hand tools when ultimately sold by the cooperative elevator is sold for processing and not at retail.

EXAMPLE 4. Hometown Appliance store is in the business of selling stoves, refrigerators, and other various appliances in Iowa. Hometown Appliance has a refrigerator valued at \$650. Customer A wishes to trade a used refrigerator toward the purchase price of the new refrigerator. Hometown Appliance agrees to accept A’s used refrigerator at a value of \$150 toward the purchase price of the new refrigerator. A pays Hometown Appliance \$500 in money. The trade-in provision applies as both conditions “a” and “b” have been met and tax would be due on the \$500.

Several months later, Hometown Appliance sells the used refrigerator it received from customer A to the local school district which is exempt from sales tax on its purchase. The trade-in provision on the original transaction is still applicable because both conditions “a” and “b” were met. The sale is “at retail,” even if it is a retail sale exempt from tax.

EXAMPLE 5. ABC Auto Supply is in the business of selling various types of automobile and farm implement supplies. The normal selling price for a car generator is \$80. ABC Auto Supply allows a \$20 trade-in credit to any customer who wishes to trade in an unworkable generator. At the time ABC Auto Supply accepts the unusable generator it knows that the generator will not be sold at retail; however, ABC Auto Supply does know that the generator will be sold to XYZ Company which is in the business of rebuilding generators by using existing parts plus new parts. In this example the trade-in provision would apply since conditions “a” and “c” have been met.

15.19(2) All the provisions of subrule 15.19(1) apply to the trade-in of vehicles subject to registration when the trade involves retailers of vehicles.

When vehicles subject to registration are traded among persons who are not retailers of vehicles subject to registration, the conditions set forth in 15.19(1) “a” and “b” need not be met. The purchase price is only that portion of the purchase price represented by the difference between the total purchase price of the vehicle subject to registration acquired and the amount of the vehicle subject to registration traded.

This rule applies only when a vehicle is traded for tangible personal property, regardless of whether the transaction is between a retailer and a nonretailer or two nonretailers. The vehicle traded in must be owned by the person(s) trading in the vehicle. It is presumed that the name or names indicated on the title of the vehicle dictate ownership of the vehicle as set forth in Iowa Code section 321.1.

EXAMPLE 1. John Doe has an automobile with a value of \$2,000. John and his neighbor Bill Jones, who has an automobile valued at \$3,500, decide to trade automobiles. John pays Bill \$1,500 cash. Vehicles subject to registration are subject to use tax which is payable to the county treasurer at the time of registration. In this example John would owe use tax on \$1,500 since this is the amount John paid Bill and tax is only due on the cash difference. Bill would not owe any use tax on the vehicle acquired through the trade.

EXAMPLE 2. Joe has a Ford automobile with a value of \$5,000. Joe and his friend Jim, who has a Chevrolet automobile also valued at \$5,000, decide to trade automobiles. Joe and Jim make an even trade, automobile for automobile with no money changing hands. In this example there is no tax due on either automobile because there is no exchange of money.

15.19(3) Trade for services. The trade-in provisions found in Iowa Code sections 422.42(5) “b” and 423.1(8) do not apply to taxable enumerated services. When taxable enumerated services are traded, the gross receipts would be determined based on the value of the service or other consideration.

15.19(4) Three-way trade-in transactions. In a three-way transaction, the agreement provides that a lessee sell to a third-party dealer a vehicle (or other tangible personal property) which the lessee owns. The lessor then purchases another vehicle from the third-party dealer at a reduced price and leases the vehicle to the lessee. The difference between the reduced sale price and retail price of the vehicle is not allowed as a trade-in on the vehicle for use tax purposes.

EXAMPLE. “A” enters into a three-way agreement with “B,” the lessor. Under the terms of the contract, “A” sells a 2000 Ford Taurus owned by “A” to “C,” a used-car dealer. The retail price for the Ford Taurus is \$30,000. “C” then sells the Ford Taurus to “B” for the reduced price of \$25,000. “B” then leases the Ford Taurus to “A” for a period of 12 months. The \$5,000 difference between the reduced sale price and the retail price of the vehicle is not allowed as a trade-in on the sale of the vehicle for use tax purposes.

This rule is intended to implement Iowa Code sections 422.42(5) “b” and 423.1(8). See also *Reynolds Motor Co. et al v. Iowa Dep’t. of Revenue*, Equity 72050, Dist. Ct. of Scott Cty., Iowa, August 28, 1987.

701—15.20(422,423) Corporate mergers which do not involve taxable sales of tangible personal property or services. If title to or possession of tangible personal property or ownership of services is transferred from one corporation to another pursuant to a statutory merger, the transfer is not a “sale” subject to tax if all of the following circumstances exist: (1) the merger is pursuant to statute (for example, Iowa Code section 490.1106); (2) by the terms of that statute, the title or possession of property or services transferred passes from a merging corporation to a surviving corporation and not for any consideration; and (3) the merging corporation is extinguished and dissolved the moment the merger occurs and, as a result of this dissolution, cannot receive any benefit from the merger. Transactions which are not of the type described above may involve taxable sales. See the following court cases relating to this area: *Nachazel v. Mira Co. Mfg.*, 466 N.W.2d 248 (Iowa 1991); *D. Canale & Co. v. Celauro*, 765 S.W.2d 736 (Tenn 1989); and *Commissioner of Revenue v. SCA Disposal Services*, 421 N.E.2d 766 (Mass 1981).

EXAMPLE A: Nonaffiliated Corporations A and C enter into a voluntary merger agreement governed by Iowa Code section 490.1106. A and C are separate and independent, one from the other, and neither is a subsidiary of another corporation. No officer of the one is an officer of the other. A and C voluntarily negotiate an arms-length merger agreement which results in the transfer of A’s assets to C and the dissolution of A. In return, A’s stockholders receive stock in C. A’s transfer of tangible personal property to merged company C is not subject to sales or use tax.

EXAMPLE B: Corporations B, D, and E are independent entities. They enter into a merger agreement governed by Iowa Code section 490.1106 and agree to merge into one surviving corporation which will (after the dissolution of B and D) be E. They agree that the shares of merging corporations will be converted into shares of E on an equal basis. The transfers of property by the corporations which are parties to the merger are not sales subject to Iowa tax.

EXAMPLE C: Corporation F receives all of Corporation G’s outstanding shares from G’s sole stockholder. In return, G’s sole stockholder receives stock from F. Corporation G continues to exist after the transaction as a subsidiary of Corporation F. This particular transaction involves a trade or barter of the stock shares of F and G. There is a barter of the stocks and thus a “sale” as that term is understood for the purposes of Iowa sales tax law. However, because the sale involves only intangible property (the stock shares), that sale is not taxable. The stock exchange transaction would not prevent taxation of subsequent transfers of tangible personal property or services between F and G.

EXAMPLE D: Corporation H buys all the assets of Corporation I which include machinery, equipment, finished goods, and raw materials. Corporation H pays cash for these assets. This transaction does involve the sale of tangible personal property and may be subject to Iowa sales tax. However, see 701—subrule 18.28(2) concerning a casual sale exemption applicable to the liquidation of a business.

CHAPTER 16
TAXABLE SALES

[Prior to 12/17/86, Revenue Department[730]]

701—16.1(422) Tax imposed. The Iowa retail sales tax is imposed for periods prior to July 1, 1992, at the rate of 4 percent and for periods on or after July 1, 1992, at the rate of 5 percent of the gross receipts from the sale at retail of tangible personal property and certain enumerated services. However, see rule 701—14.3(422,423) for transition provisions to determine whether the 4 or 5 percent rate applies.

The remaining rules under this chapter deal with certain specific attributes of the Iowa retail sales tax, but such rules are by no means exclusive in explaining what are taxable sales and are not exclusive in explaining which transactions constitute taxable sales. There are other transactions which constitute taxable sales under the law and which are not specifically dealt with in these rules.

This rule is intended to implement Iowa Code section 422.43.

701—16.2(422) Used or secondhand tangible personal property. The sale of used or secondhand tangible personal property in the form of goods, wares, or merchandise shall be taxable in the same manner as new property. This condition eliminates any consideration for secondhand merchandise to be treated differently than new merchandise when sold at retail for sales tax purposes.

This rule is intended to implement Iowa Code sections 422.42 and 422.43.

701—16.3(422,423) Tangible personal property used or consumed by the manufacturer thereof. When a person who is primarily engaged in the manufacture of building materials, supplies, or equipment for sale and not for the person's own use or consumption, considering the totality of the business, from time to time uses or consumes the building materials, supplies, or equipment for construction purposes, the person is deemed to be making retail sales to one's self and subject to tax on the basis of the fabricated cost of the items so used or consumed for construction purposes. If building materials, supplies, or equipment are used by a manufacturer in the performance of a construction contract, a "sale" occurs only if the materials, supplies, or equipment are used in the performance of a construction contract in Iowa. For purposes of this rule, the term "fabricated cost" means and includes the cost of all materials as well as the cost of labor, power, transportation to the plant, and other plant expenses but not installation on the job site. *Associated General Contractors of Iowa v. State Tax Commission*, 255 Iowa 673, 123 N.W.2d 922 (1963). Also see rule 701—19.4(422,423) relating to contractors and rule 701—19.5(422) relating to materials, supplies, and equipment used in construction contracts within and outside of Iowa.

This rule is intended to implement Iowa Code section 422.42(10).

701—16.4(422,423) Patterns, dies, jigs, tools, and manufacturing or printing aids.

16.4(1) Retail sales. Prior to July 1, 1997, a person engaged in the business of making and selling patterns, dies, jigs, tools and manufacturing or printing aids to be used by other persons in the manufacture of tangible personal property shall be deemed as selling such patterns, dies, jigs, tools and manufacturing or printing aids at retail. If such items are sold by a vendor in Iowa, the gross receipts from these sales shall be subject to sales tax; and, if such items are purchased from a vendor outside Iowa, the purchaser shall be subject to use tax. See 701—18.58 (422,423) for exemption for this type of equipment on and after July 1, 1997.

Design charges that are not physically incorporated into a finished product are exempt from tax if separately contracted. If no written contract exists, the design charge must be separately itemized on the invoice to be exempt from tax.

When a manufacturer purchases or fabricates from raw materials purchased, dies, patterns, jigs, tools, and manufacturing or printing aids for the account of customers who acquire title to the property upon delivery thereof or upon the completion of the fabrication thereof by the manufacturer, the manufacturer shall be regarded as purchasing the property either as an agent for, or resale to, customers. Tax shall apply to either the manufacturer as an agent of the customer or to the sale by the manufacturer to the customer.

In determining whether the manufacturer purchases the property on behalf of, or for resale to, a customer, the terms of the contract with the customer, the custom of usage of the trade and any other pertinent factors shall be considered. For example, if the customer issues a purchase order for patterns, dies, jigs, tools, and manufacturing or printing aids, or on the purchase order for the goods, itemizes or otherwise specifies the particular patterns, dies, jigs, tools, and manufacturing or printing aids, which will be required by the manufacturer to manufacture the goods desired by the customer and the manufacturer obtains the item pursuant to the customer's specific order, billing, itemizing or otherwise identifying it to the customer separately from the billing for the article manufactured therefrom, and either delivers it to the customer or holds it as bailee for the customer, it will be presumed that the manufacturer acquired the property on behalf of the customer or for immediate resale to the customer.

16.4(2) Revisions and repairs. When a person takes existing patterns, dies, jigs, tools and manufacturing or printing aids and revises them by changing or modifying such items in such a way as to create a new pattern, die, jig, tool, and manufacturing or printing aid, such person shall not be considered as making a retail sale since title never passes from the owner of the existing patterns, dies, jigs, tools and manufacturing or printing aids, and such person shall be considered to be performing a service. This service and any repair of any pattern, die, jig, tool and manufacturing or printing aid are not services enumerated in Iowa Code section 422.43. Any additional materials used and transferred to the owner in addition to the existing patterns, dies, jigs, tools and manufacturing or printing aids, in the revision or repair thereof would be taxable. *Chicago, B. & Q. R. Co. v. Iowa State Tax Commission*, 295 Iowa 178, 142 N.W.2d 407 (1966).

However, any service enumerated in Iowa Code section 422.43, which is performed in connection with this revision or repair would be subject to tax; such as when a die owner hires a welding firm to weld a broken die part on a die. The charges for the labor and materials used in connection with this service would be subject to the tax.

This rule is intended to implement Iowa Code sections 422.42(3) and 422.43.

701—16.5(422,423) Explosives used in mines, quarries and elsewhere. A person engaged in the business of selling explosives to miners, quarries or others shall be subject to sales tax on the gross receipts from the sale of such property at retail in Iowa. The purchaser shall be liable for use tax upon all purchases for use in Iowa not subject to sales tax. *Linwood Stone Products Company v. State Department of Revenue*, Iowa, 175 N.W.2d 393 (1970).

This rule is intended to implement Iowa Code sections 422.42, 422.43, 423.1, and 423.2.

701—16.6(422,423) Electrotypes, types, zinc etchings, halftones, stereotypes, color process plates and wood mounts. Electrotypes, types, zinc etchings, halftones, stereotypes, color process plates, wood mounts and art productions shall be subject to tax when sold to users or consumers. (See rule 701—18.33(422,423) for sales to printers.) The mentioned articles do not become an integral or component part of merchandise intended to be sold ultimately at retail. *Long v. Roberts & Son*, 234 Ala. 570 176 So. 213 (1937); *People ex. rel. Walker Engraving Corporation v. Groves*, 268 N.Y. 648, 193 N.E. 539 (1935).

This rule is intended to implement Iowa Code sections 422.42(3), 422.43, 423.1(1), and 423.2.

701—16.7 Rescinded, effective 7/1/78.

701—16.8(422,423) Wholesalers and jobbers selling at retail. Sales made by a wholesaler or jobber to a purchaser for use or consumption by the purchaser or in the purchaser's business and not for resale are considered retail sales and subject to tax, even though sold at wholesale prices or in wholesale quantities.

This rule is intended to implement Iowa Code sections 422.42(3), 422.43, 423.1(1), 423.1(10), and 423.2.

701—16.9(422,423) Materials and supplies sold to retail stores. Receipts from the sale of materials and supplies to retail stores for their use and not for resale shall be subject to tax. The retail store is the final buyer and ultimate consumer of such items as fuel, cash registers, adding machines, typewriters,

stationery, display fixtures and numerous other commodities which are not sold by the store to its customers.

This rule is intended to implement Iowa Code sections 422.42, 422.43, 423.1(1), and 423.2.

701—16.10(422,423) Sales to certain corporations organized under federal statutes. The sale of tangible personal property or taxable services at retail to the following corporations are sales for final use or consumption to which tax shall apply:

1. Federal savings and loan associations.
2. Federal savings and trust companies.
3. National banks.
4. Other organizations of like character.

This rule is intended to implement Iowa Code sections 422.42, 422.43, 423.1, and 423.2.

701—16.11(422,423) Paper plates, paper cups, paper dishes, paper napkins, paper, wooden or plastic spoons and forks and straws. When paper, wooden or plastic cups, plates, dishes, napkins, spoons and forks are sold with tangible personal property and expended by such use, the sale of such properties to retailers shall be considered sales for resale. The gross receipts from the sale of such items by retailers to consumers or users shall be subject to tax.

When these articles are sold in connection with service or for free distribution by retailers apart from a retail sale, the transaction shall be deemed to be a retail sale to the retailer and shall be taxable.

Sales of reusable placemats to retailers who sell meals shall be subject to tax.

EXAMPLE 1. A retailer purchases napkins, disposable forks and knives for the retailer's restaurant. The retailer provides these items free of charge, apart from the retail sale of food at the retailer's restaurant. Sale of these items to the retailer is a retail sale and is subject to tax.

EXAMPLE 2. A retailer purchases napkins, disposable knives and forks for the retailer's restaurant. The retailer sells these items with tangible personal property to the retailer's customers. The sale of these items to the retailer is considered a sale for resale and is not subject to Iowa sales tax at the time of purchase.

This rule is intended to implement Iowa Code sections 422.42(3), 422.43, 423.1(1), and 423.2.

701—16.12(422) Tangible personal property purchased for resale but incidentally consumed by the purchaser. A retailer engaged in the business of selling tangible personal property who takes merchandise from stock for personal use, consumption, or gifts shall report these items on the sales tax return and remit tax on the purchase cost of the items.

This rule does not authorize purchase for resale of items intended to be used by the retailer.

This rule is intended to implement Iowa Code sections 422.42(3), 422.43, and 422.51.

701—16.13(422) Property furnished without charge by employers to employees. When an employer furnishes tangible personal property (including meals) to employees without charge or uses merchandise for gifts or consumption, the cost to the employer of the tangible personal property or merchandise shall be subject to tax and included on the employer's return if the employer has not previously paid tax to a retailer. However, the food purchased by the employer for meals prepared for employees is not subject to tax. See *In the Matter of the Petition of Cedar Rapids Country Club for Declaratory Ruling*, (Rev. Dkt. No. 91-30-6-0541, 12-23-91).

This rule is intended to implement Iowa Code sections 422.42, 422.43, and 422.51.

701—16.14(422) Sales in interstate commerce—goods delivered into this state. When parties contract for the sale of tangible personal property in interstate commerce and the property is delivered to users or consumers in Iowa and the seller is engaged in the business of selling tangible personal property in Iowa, the transaction shall be subject to sales tax. The tax shall apply, even though the purchaser's order may specify that the goods are to be manufactured or procured outside Iowa and shipped directly from the point of origin to the purchaser. The seller shall be required to collect and remit sales tax on all such transactions.

If the above conditions are met, and the property is delivered to the purchaser in Iowa, it shall be immaterial if the contract of sale is closed by acceptance outside Iowa, if the contract is made before the property is brought into Iowa or if any other aspect of the sale occurs outside this state. *Harold D. Sturtz v. Iowa Department of Revenue*, 373 N.W.2d 131 (Iowa 1985).

16.14(1) Delivery in state. Delivery is held to have taken place in Iowa when physical possession of the tangible personal property is actually transferred to the consumer or user or their agents, other than a carrier, within the state. *Dodgen Industries v. Iowa State Tax Commission*, 160 N.W.2d 289 (Iowa 1968). For examples of delivery which do not involve physical transfer of possession to the user or consumer, see 701—subrules 14.3(2) and 14.3(3).

16.14(2) Rescinded IAB 4/15/92, effective 5/20/92.

This rule is intended to implement Iowa Code sections 422.42, 422.43, and 422.45(1).

701—16.15(422) Owners or operators of buildings. Owners or operators of buildings who purchase items to be used by them in maintaining the building are the users or consumers and shall pay sales tax to their suppliers.

16.15(1) When owners or operators of buildings remeter and bill their tenants for electric current, gas, or any other taxable service consumed by the tenants, such owners or operators shall be considered to be purchasing the electric current, gas, or other taxable service for resale. These owners or operators shall hold permits and shall be liable for the tax upon the gross receipts from the sale of such service. When the building owners or operators purchase all of the electric current, gas, or other services for resale and consume a portion in the operation of the building, they shall be liable for tax on that portion consumed, based upon the cost of the electric current or gas purchased for resale.

16.15(2) When the management of a building sells heat to other buildings or other persons and charges for such service as a sale of heat, such transactions are considered sales at retail and shall be subject to tax.

16.15(3) When heat is furnished to tenants as a service to them, incidental to the renting of the space, there shall be no tax. When heat is sold separately and billed to the tenants separately, such service shall be taxable.

16.15(4) When a building manager makes sales of tangible personal property or taxable services at retail, the manager shall be required to procure a permit and collect and remit tax.

This rule is intended to implement Iowa Code sections 422.42 and 422.43.

701—16.16(422,423) Tangible personal property made to order. When a retailer contracts to fabricate items of tangible personal property from materials available in stock or through placing orders for materials which have been selected by customers, the total receipts from the sale of such fabricated articles shall be included in the taxable receipts. The retailer shall not deduct fabrication or production charges, even though such charges are separately billed. Hellerstein, *The Scope of the Taxable Sale Under Sales and Use Tax Acts: Sales as Distinguished From Services*, 11 Tax L. Rev. 262, 269 (1956).

This rule is intended to implement Iowa Code sections 422.42, 422.43, 423.1, and 423.2.

701—16.17(422,423) Blacksmith and machine shops. When a blacksmith or machine shop operator fabricates finished articles from raw materials and sells such articles at retail, tax shall apply on the total charge which includes the fabrication labor.

This rule is intended to implement Iowa Code sections 422.42, 422.43, 423.1, and 423.2.

701—16.18(422,423) Sales of signs at retail. A person engaged in selling illuminated signs, bulletins, or other stationary signs (whether manufactured by that person or by others) to users or consumers is selling tangible personal property at retail. The gross receipts from the sales shall be taxable, even when the purchase price of the sign includes a charge for maintenance or repair service, in addition to the charge for the sign.

This rule is intended to implement Iowa Code sections 422.42, 422.43, 423.1, and 423.2.

701—16.19(422,423) Products sold by cooperatives to members or patrons. Sales by cooperatives to members or patrons shall be subject to tax. The gross receipts from the sale of tangible personal property to stockholders or members of cooperative creameries or creamery associations shall be included in the receipts on which tax is computed. See 1942 O.A.G. 101.

This rule is intended to implement Iowa Code sections 422.42, 422.43, 423.1, and 423.2.

701—16.20(422,423) Municipal utilities, investor-owned utilities, or municipal or rural electrification cooperatives or associations. Municipal utilities, investor-owned utilities, or municipal or rural electrification cooperatives or associations shall be required to collect and remit tax from the sale of electric energy to consumers. Such municipal utilities, investor-owned utilities, or municipal or rural electrification cooperatives or associations may execute resale exemption certificates to the companies from whom they purchase electric energy and may obtain resale exemption certificates from consumers to whom they sell electric energy for processing or resale.

Municipal utilities, investor-owned utilities, or municipal or rural electrification cooperatives or associations shall be required to collect and remit tax on all sales of tangible personal property to users and consumers and pay tax on the purchase of all tangible personal property which they do not resell, except as provided herein. They need not pay tax on electricity which they generate and subsequently use and consume in the operation of their facilities. *Iowa Public Service Company v. Iowa State Department of Revenue*, D.Ct. of Woodbury Cty., Iowa, No. 90018C Law (1984). Tax shall not apply to electricity consumed in processing tangible personal property intended to be sold ultimately at retail.

Electricity loss through line loss or electricity provided to municipalities or other governmental units which derive disburseable funds from appropriations or allotments of funds raised by the levying and collection of taxes and used for public purpose shall not be subject to tax.

This rule is intended to implement Iowa Code sections 422.42(5), 422.43, and 423.1.

701—16.21(422,423) Sale of pets. A retailer selling pets shall procure a permit and report tax on the gross receipts from the sale of such pets.

This rule is intended to implement Iowa Code sections 422.42, 422.43, 423.1, and 423.2.

701—16.22(422,423) Sales on layaway. The gross receipts from sales on layaway are subject to tax. A layaway sale involves two separate and distinct contracts. Under the first contract, the customer and the retailer enter into an agreement to give the customer an option to purchase a certain item of tangible personal property. Under the second contract, the sale of property takes place. During the period of the option the item is placed aside “on layaway” and is not available for sale to the general public. This option to purchase is exercised by the customer’s making one or more “layaway payments.” The customer exercises the option to buy by completing the layaway payments. The last layaway payment is also the tendered payment under the separate contract for sale of the property. The contract for sale is complete when the seller delivers the property to the buyer. See *Holland v. Brown*, 15 Utah 2d 422, 394 P.2d 77 (1964) and *Sturtz v. Iowa Department of Revenue*, 373 N.W.2d 131 (Iowa 1985). Tax must be reported during the period (e.g., the quarter or month) in which delivery under the contract for sale portion of the layaway occurs. This will nearly always be the reporting period in which physical transfer of possession passes from the retailer to the buyer.

A sale on layaway should not be confused with a “conditional sale.” The differences are these: (1) in a conditional sale physical transfer of property occurs before, rather than after, the buyer makes all periodic payments necessary to purchase the property; (2) in a conditional sale physical possession of and title to the property pass to the buyer at different times. First physical possession passes; then after all periodic payments are made title (ownership) passes to the buyer. In a layaway sale both possession and title pass at the same time after all payments are made; (3) the conditional sale is a much more common commercial arrangement than the sale on layaway.

This rule is intended to implement Iowa Code section 422.42(2).

701—16.23(422) Meal tickets, coupon books, and merchandise cards. When meal tickets, coupon books, or merchandise cards are sold by persons engaged exclusively in selling taxable commodities or services, tax shall be levied at the time such items are redeemed by the customer. Tax shall not be added at the time of actual purchase of the meal ticket, coupon book, or merchandise card.

This rule is intended to implement Iowa Code sections 422.42 and 422.43.

701—16.24(422,423) Truckers engaged in retail business. Truckers or haulers engaged in the sale of tangible personal property to ultimate users or consumers shall be deemed as making taxable sales.

This rule is intended to implement Iowa Code sections 422.42, 422.43, 423.1, and 423.2.

701—16.25(422,423) Foreign truckers selling at retail in Iowa. Foreign truckers or persons engaged in the sale of tangible personal property at retail in Iowa by means of hauling said property into the state shall be required to collect and remit tax on a nonpermit basis. To ensure the remission of tax on Iowa sales, the department has the statutory authority to require a bond deposit from sellers classified in this rule. This right shall be exercised when necessary.

This rule is intended to implement Iowa Code sections 422.43, 422.52, 422.53(7), 423.2, and 423.9.

701—16.26(422) Admissions to amusements, athletic events, commercial amusement enterprises, fairs, and games.

16.26(1) Taxable admissions. The gross receipts from amusements of every kind and character and from games of every kind and character shall be taxable, unless exempt under rule 16.26(422), 16.39(422) or 701—17.1(422).

a. Taxable amusement shall include but not be limited to the following:

(1) Fortune telling, fortune tellers, and psychics.

(2) Concessions at a fair, carnival, or like place when the charge is made or a voluntary contribution taken by the person operating the concession.

(3) Games of skill, games of chance, raffles, and bingo.

(4) Activities operated by private entities.

(5) Admissions to a fair not operated by a county or city.

(6) Athletic events occurring in Iowa sponsored by educational institutions except when sponsored by elementary and secondary educational institutions.

b. Tax shall apply to both legal and illegal amusements. The collection of tax or the issuance of a permit shall not be construed to condone or legalize any games of skill or chance or slot-operated device prohibited by law.

c. Gross receipts shall include all money taken in by the operator of any amusement, game, or device in the state of Iowa.

16.26(2) Nontaxable amusements. The following is a nonexclusive list of amusements, the gross receipts of which are exempt from sales tax:

a. Amusements, fairs, and athletic events of elementary and secondary educational institutions.

b. Certain fees paid to a city or county for participating in an athletic sport. See rule 701—18.39(422,423).

c. Admissions to a fair operated by a county or a city.

d. For periods beginning on or after July 1, 1996, the gross receipts from sales or services rendered, furnished, or performed by the state fair organized under Iowa Code chapter 173 or a county, district, or fair society organized under Iowa Code chapter 174. This exemption does not apply to individuals, entities, or others that sell tangible personal property or provide taxable enumerated services at the state, county, district fair, or fair societies organized under Iowa Code chapters 173 and 174.

EXAMPLE 1. The state fair organization sells posters in honor of the state of Iowa's sesquicentennial during the Iowa state fair and other events. The gross receipts from the sales of these posters are exempt from tax as a sale by a fair organized under Iowa Code chapter 173.

EXAMPLE 2. XYZ vendor sells children's toys and other items of tangible personal property at a booth on the fairgrounds during the Iowa state fair. The gross receipts from sales by XYZ vendor are

not exempt from Iowa sales tax under this rule. XYZ vendor is a private entity and not a state, county, district, city, or fair society organized under Iowa Code chapters 173 and 174.

EXAMPLE 3. The Black Hawk county fair society rents tables and chairs to XYZ organization for an event to be held by XYZ. The gross receipts from the rental of the tables and chairs are exempt from sales tax since the county fair is organized pursuant to Iowa Code chapter 174.

16.26(3) Fees for participation in games or other amusements.

Beginning July 1, 1993, an entry fee at a place of amusement, fair, or athletic event is not subject to tax when the sales of tickets or admission charges for observing the activity are taxable. If there is no admission but only an entry fee, the entry fee is subject to sales tax whether or not the entry fee is used for prizes. A fee shall mean and include, but not be limited to, entry fees, registration fees, or other charges made by the operator or sponsor of a game or other form of amusement for the right to participate in such game or amusement. Game or other form of amusement shall mean and include, but not be limited to, such events as golf tournaments, bowling tournaments, car races, motorcycle races, bridge tournaments, rodeos, animal shows, fishing contests, balloon races, and trap shoots.

Prior to July 1, 1993, fees which are specifically designated as prize money, whether or not paid to the operator or sponsor of the game or other form of amusement, and which are in fact returned to the participants in the form of cash for merchandise prizes, are not subject to tax if the amount or percentage designated as prize money is separately stated to the participant at the time the participation fee is established and if sales or use tax is paid on the merchandise prizes to be distributed to the participants. If the amount designated as prize money is not separately stated to the participant, the tax shall apply to the total fee, even though some of the fee may be used for prizes. The tax applies whether the fee is to cover a single event or numerous events.

Educational, religious, and charitable organizations may be exempt from the tax on the receipts from the fees charged for participation in any game or other form of amusement if exempt pursuant to Iowa Code section 422.45(3) and rule 701—17.1(422).

This rule is intended to implement Iowa Code sections 422.42, 422.43, 422.45(3) and Iowa Code section 422.45 as amended by 1996 Iowa Acts, chapter 1124.

701—16.27(422) Amusements. Rescinded IAB 11/10/93, effective 12/15/93.

701—16.28(422) Fees for participation in games or other amusements. Rescinded IAB 11/10/93, effective 12/15/93.

701—16.29(422) Rental of personal property in connection with the operation of amusements. Gross receipts from equipment rental of personal property in connection with the operation of amusements shall be taxable. Such rentals shall include all tangible personal property or equipment used by patrons in connection with the operation of commercial amusements, notwithstanding the fact that the rental of such personal property may be billed separately. See 701—26.18(422).

This rule is intended to implement Iowa Code sections 422.42 and 422.43.

701—16.30(422) Commercial amusement enterprises—companies or persons which contract to furnish show for fixed fee. Sales by commercial amusement enterprises occurring on or after May 31, 1984, shall not be subject to tax.

This rule is intended to implement Iowa Code section 422.43.

701—16.31(422) Admissions to state, county, district and local fairs. Rescinded IAB 11/10/93, effective 12/15/93.

701—16.32(422) River steamboats. River steamboats carrying passengers for pleasure rides on any river within the state or which forms a boundary line between Iowa and another state shall be an amusement enterprise. Gross receipts from the sale of such tickets sold in Iowa shall be taxable. For

an exception to this rule and an exemption applicable to tickets for admission to excursion gambling boats, see rule 701—17.25 (422,423).

This rule is intended to implement Iowa Code sections 422.42 and 422.43.

701—16.33(422) Pawnbrokers. Pawnbrokers are primarily engaged in the business of lending money for and accepting as security tangible personal property from the owner or pledger.

In case the pledger does not redeem the property pledged or pawned, such property is forfeited to the pawnbroker, to whom the title passes.

When pawnbrokers thereafter sell such articles at retail, they are making sales and shall collect and remit tax.

This rule is intended to implement Iowa Code sections 422.42 and 422.43.

701—16.34(422,423) Druggists and pharmacists. Persons licensed to practice pharmacy in Iowa and registered prescription druggists in Iowa engaged in the business of selling drugs and medicines shall not be liable for tax on the applicable exemptions prescribed under 701—Chapter 20.

Unless otherwise exempt from tax, the purchase of tangible personal property for individual use or consumption by licensed pharmacists and registered prescription druggists shall be subject to tax. Furthermore, such persons shall hold a retail sales tax permit and collect and report all tax due from consumers and users in all transactions involving taxable retail sales.

This rule is intended to implement Iowa Code sections 422.42, 422.43, 422.45(13), 423.1, 423.2, and 423.4(4).

701—16.35(422,423) Memorial stones. Persons engaged in the business of selling memorial stones are selling tangible personal property, the gross receipts from which shall be subject to tax. When the seller of a memorial stone agrees to erect a stone upon a foundation, the total gross receipts from such sale shall be taxable.

Any designs, lettering or engraving performed on a memorial stone or monument is also subject to the tax. See rule 701—26.17(422,423) and *In Re, Des Moines-Winterset Monuments, Inc.*, Docket No. 79-228-6A-DR, March 13, 1980.

This rule is intended to implement Iowa Code sections 422.42, 422.43, 423.1, and 423.2.

701—16.36(422) Communication services furnished by hotel to its guests. As a common practice, hotels in the state of Iowa purchase telephone communication service from telephone companies and furnish said services to the guests of the hotel. The hotel makes a charge for this communication service to its guests in an amount which exceeds the cost of such service to it from the telephone company. Tax shall apply to the entire charges which the hotel makes to its guests for such communication service, regardless of whether the guest's calls are local or long-distance within the state.

This rule is intended to implement Iowa Code sections 422.42 and 422.43.

701—16.37(422) Private clubs. Private clubs, such as country clubs, athletic clubs, fraternal and other similar social organizations, are retailers of tangible personal property sold by them, even though the sales are made only to members. These organizations shall procure a permit and report and pay tax on the gross receipts of all sales by such clubs.

When clubs operate amusements or amusement devices or coin-operated machines, the gross receipts therefrom shall be included with the gross receipts from other taxable sales on which tax is computed.

This rule is intended to implement Iowa Code sections 422.42 and 422.43.

701—16.38(422,423) Aircraft sales. Rescinded IAB 10/13/93, effective 11/17/93.

701—16.39(422) Athletic events. The sale of tickets or admissions to athletic events occurring in the state of Iowa sponsored by educational institutions without regard to the use of the proceeds from such

sales shall be subject to tax, except when sponsored by elementary and secondary educational institutions as set forth in Iowa Code section 422.43.

This rule is intended to implement Iowa Code section 422.43.

701—16.40(422,423) Iowa dental laboratories. Iowa dental laboratories are engaged in selling tangible personal property to Iowa dentists. Such laboratories shall hold a retail sales tax permit and collect and report all tax due from dentists in all transactions involving taxable retail sales.

Iowa dental laboratories shall not be subject to tax on those purchases of tangible personal property which (1) form a component or integral part of new work or repair work being furnished to Iowa dentists or other dentists or (2) would be exempt if purchased directly by the dentist's patient.

Iowa dental laboratories are deemed to be the final user or consumer of all tangible personal property, including tools, office supplies, equipment and any other tangible personal property not otherwise exempt. Sales tax shall be remitted to its Iowa supplier when purchasing in this state, and use tax shall be remitted directly to the department when such items are purchased from out-of-state suppliers, unless the out-of-state supplier is registered with the department and authorized to collect use tax for the state, in which case the use tax shall be paid to the registered supplier.

This rule is intended to implement Iowa Code sections 422.42, 422.43, 422.45(15), 423.1, and 423.2.

701—16.41(422,423) Dental supply houses. Dental supply houses are engaged in selling tangible personal property to dentists and dental laboratories. Such dental supply houses shall collect and report all tax due from purchasers in all transactions involving taxable retail sales. This shall not include sales of tangible personal property which (1) will form a component or integral part of new work or repair work being furnished to Iowa dentists or other dentists or (2) would be exempt if sold directly to an individual.

This rule is intended to implement Iowa Code sections 422.42, 422.43, 422.45(15), 423.1, and 423.2.

701—16.42(422) News distributors and magazine distributors. News distributors and magazine distributors engaged in intrastate sales of magazines and periodicals in Iowa to vendors who are engaged in part-time distribution of such magazines are deemed to be making sales at retail. The gross receipts from such sales shall be subject to sales tax.

This rule is intended to implement Iowa Code sections 422.42 and 422.43.

701—16.43(422,423) Magazine subscriptions by independent dealers. The gross receipts from the sale of subscription magazines or periodicals derived by independent distributors or dealers in the state of Iowa who secure such subscriptions as independent dealers or distributors shall be subject to tax.

This rule is intended to implement Iowa Code sections 422.42, 422.43, 423.1, and 423.2.

701—16.44(422,423) Sales by finance companies. A finance company who repossesses or acquires tangible personal property in connection with its finance business and sells tangible personal property at retail in Iowa shall be required to hold a permit and remit the current rate of tax on the gross receipts from such sales at retail in Iowa. *S & M Finance Company Fort Dodge v. Iowa State Tax Commission*, 162 N.W.2d 505 (Iowa 1968).

This rule is intended to implement Iowa Code sections 422.42, 422.43, 423.1, and 423.2.

701—16.45(422,423) Sale of baling wire and baling twine. Prior to July 1, 1996, the sale of baling wire and baling twine to farmers may be taxable or exempt from tax, depending upon the use which the farmer will make of the baling wire or twine. If a farmer purchases baling wire or twine for use in baling hay or straw which will be used or consumed in that farmer's own farming operation, the purchase of the baling wire or twine is taxable. If a farmer purchases baling wire or twine for use in baling hay or straw for sale to other persons, the farmer's purchase of the wire or twine is exempt from tax. Purchase

of wire or twine by commercial or custom balers employed to bale hay or straw owned by other persons is taxable. For sales on or after July 1, 1996, see 701—subrule 18.48(4).

This rule is intended to implement Iowa Code section 422.45(19) and Iowa Code section 422.45 as amended by 1996 Iowa Acts, chapter 1145.

701—16.46(422,423) Snowmobiles and motorboats. Snowmobiles and motorboats shall be subject to tax when purchased and shall not be classified as vehicles subject to registration.

This rule is intended to implement Iowa Code chapters 422 and 423.

701—16.47(422) Conditional sales contracts. Iowa Code section 422.42(2) defines sales to include “conditional sales.” A conditional sale is a sale in which the vendee receives the right to the use of the goods which are the subject matter of the sale, but the transfer of title to the vendee is conditional on the performance of some condition by the vendee, usually the full payment of the purchase price.

Conditional sales in most cases are evidenced by the facts supporting the nature of the vendor’s business, intent of the parties, and the facts supporting the control over the tangible personal property by the vendee. A conditional sales contract would exist where: the vendee/lessee has total control over the property, is responsible for all losses or damages; the transfer of the property is complete except to title which passes upon the condition of full payment; and where such full payment is performed under nearly all the vendor’s “lease” arguments, except in cases of default; and, the vendor has no intent of retaining control over the property except for purposes of selling or financing it for sale. In determining whether an agreement constitutes a conditional sale or a true lease, substance shall prevail over form, and the terminology of the written agreement will be considered only to the extent that it accurately represents the true relationship of the parties.

When a conditional sale exists, sales tax is due on the full contract price at the time delivery of the property which is the subject of the contract is made. No further tax is due on the periodic payments. Interest and finance charges shall not be considered part of the selling price if they are separately stated and reasonable in amount and are, therefore, not subject to tax. *State ex rel Turner v. Younker Bros., Inc* 210 N.W.2d 550, 562 (Iowa 1973). See rule 701—15.1(422).

This rule is intended to implement Iowa Code sections 422.42(2), 422.42(3), and 422.43.

701—16.48(422,423) Carpeting and other floor coverings. The sale of carpeting and other floor coverings to any person constitutes a sale at retail of tangible personal property and is subject to sales or use tax, unless purchased for resale or otherwise exempt from tax.

Floor coverings which are shaped to fit a particular room or area and which are attached to the supporting floor with cement, tacks, or by some other method making a permanent attachment with the building or structure are considered to be building materials and shall be taxable in the same manner as building materials which are used or consumed in the performance of a construction contract. See rule 701—19.2(422,423) and 701—subrule 19.3(3) for tax treatment. On and after July 1, 1992, the sale of carpeting is not to be treated as the sale of a “building material.” Prior to July 1, 1992, carpeting was treated the same as floor coverings. The sale of other types of floor covering continues to be the sale of a building material. See the following paragraph for sales and use tax treatment of carpeting on and after July 1, 1992. The gross receipts for the sale of rugs, mats, linoleum, and other types of floor coverings which are not attached but which are simply laid on finished floors, are not considered building materials and are subject to tax, unless purchased for resale or otherwise exempt from tax.

On and after July 1, 1992, the sale of “carpeting” to owners, contractors, subcontractors or builders is not the sale of a building material, but the sale of ordinary tangible personal property, which can be purchased for resale by owners, contractors, subcontractors or builders. “Carpeting” is any floor covering made of fabric, usually wool or synthetic fibers. For purposes of this rule, “carpeting” also includes any pads, tack strips, adhesive, and other materials other than subflooring necessary for installation of the carpeting. On and after July 1, 1992, sellers of carpeting should continue to charge purchasers sales tax unless the carpeting is purchased for resale or some other exempt purpose, in which case the purchaser must provide the seller with an exemption certificate upon demand.

On and after July 1, 1992, sales of carpeting, with installation, are taxable in the following manner:

1. If separate contracts exist for the sale of the carpeting and for the installation, only the gross receipts from the sale of the carpeting are subject to tax.
2. If the selling price of the carpeting and the installation charge are stated as one charge or lump sum, the entire charge is subject to sales tax.
3. If the invoice itemizes the installation charge separately from the selling price of the carpet, only the selling price of the carpet is subject to sales tax if the installer and the purchaser of the carpet intend that a sale of the carpet shall occur. See 701—subrule 18.31(1) for more information.

In the following examples assume that contractor A purchases carpeting from supplier B for installation in customer C's home. Whether or not A will purchase the carpeting from B for A's own consumption (and thus, A will pay the tax to B) or A will purchase the property from B for resale to C (and thus, C will pay the tax to A) depends upon any contracts existing between A, the contractor, and C, the customer.

EXAMPLE A: A contracts with C to install carpeting in C's home. Separate contracts exist between A and C for the sale of the carpeting and for its installation. Under these circumstances, A purchases the carpeting from B for resale to C. No tax is due upon the transaction between A and B; tax is due upon A's resale of the carpet to C, but not upon A's charges for carpet installation, a nontaxable service.

EXAMPLE B: A charges C one lump sum for the carpeting and installation. In this case, A collects sales tax from C on the entire lump sum. The lump sum is treated, for sales tax purposes, as the gross receipts from the sale of tangible personal property; so A purchases the carpet from B for resale and without tax.

EXAMPLE C: A and C contract for the sale of the carpet separate from its installation. A sends C one invoice for the installation and sale of the carpet with the installation charge listed on the invoice separate from the selling price of the carpet. Under these circumstances, only the selling price of the carpet listed on the invoice is subject to sales tax and A purchases the carpet from B for resale and thus, without obligation to pay sales tax to B. See 701—subrule 18.31(1) for more information.

This rule is intended to implement Iowa Code sections 422.42(9) and 423.1.

701—16.49(422,423) Bowling. The rental of automatic pinsetters by bowling alley operators is subject to the imposition of sales or use tax as they are not resold to patrons. Therefore, the operator of the alley is considered the consumer of the pinsetter rental.

The rental of bowling shoes is subject to the imposition of sales or use tax as equipment rental.

The sales of bowling score sheets to operators of bowling establishments are subject to the imposition of sales or use tax as the operators are the consumers of such score sheets.

This rule is intended to implement Iowa Code sections 422.42 and 423.1.

701—16.50(422,423) Various special problems relating to public utilities. The amount of any charge, commonly called a "late payment charge," imposed by a public utility on its customers, shall not be subject to tax if the charge is in addition to any charge for the utility's sale of its commodity or service and is imposed solely for the privilege of deferring payment of the purchase price of the commodity or service and furthermore is separately stated and reasonable in amount.

The date of the billing of charges for a public utility's sales shall be used to determine the period in which the utility shall remit tax upon the amount charged. The utility shall remit tax upon the gross receipts of any bill during the period which includes the billing date. Thus, if the date of a billing is March 31 and the due date for payment of the bill without penalty is April 20, tax upon the gross receipts contained in the bill shall be included in the return for the first quarter of the year. The same principle shall be used to determine when tax will be included in payment of a deposit.

In general, the amount of any "franchise fee" which a public utility pays to a city for the privilege of operating and which is directly or indirectly passed on to the utility's customers shall be included in gross receipts subject to tax. This will be true even if the amount of the franchise fee is computed as a percentage of other gross receipts subject to tax and is separately stated and separately charged to the immediate consumer of the commodity or service. However, if, in the future, it becomes lawful for a city

to impose a sales or use tax and such tax is imposed upon the customers of public utilities in the guise of a franchise fee, the amount of this city excise tax shall not be subject to Iowa tax if the tax imposed by the city is separately stated and separately billed. See *Chartair, Inc. v. State Tax Commission*, 411 N.Y.2d 41, 44 (N.Y. App. Div. 1978), *Ferrara v. Director, Division of Taxation*, 317 A.2d 80, 84-85 (N.J. Super. Ct. App. Div. 1974) and 730—subrule 15.12(2).

This rule is intended to implement Iowa Code sections 422.42(6), 422.43, 422.45, 423.1(3), and 423.2.

701—16.51(422,423) Sales of services treated as sales of tangible personal property.

16.51(1) Effective July 1, 1984, the sale of engraving, photography, retouching, printing and binding services is no longer the sale of enumerated services but the sale of tangible personal property. For the purposes of this subrule these services will be referred to as “property.”

a. Definitions and characterizations.

(1) “*Binding*.” Persons engaged in the business of binding any printed matter, other than for the purpose of ultimate sale at retail, are engaged in the sale of property, the gross receipts of which are subject to tax.

(2) “*Engraving*” includes the business of engraving on wood, metal, stone, or any other material.

(3) “*Photography*” is the art or process of producing images or objects upon a photosensitive surface by the chemical action of light or other radiant energy.

(4) “*Printing*” includes, but is not limited to, any type of printing, lithographing, mimeographing, photocopying and similar reproduction. The following activities are nonexclusive examples of property which are subject to tax: printing of pamphlets, leaflets, stationery, envelopes, folders, bond and stock certificates, abstracts, law briefs, business cards, matchbook covers, campaign posters and banners for the users thereof.

(5) “*Retouching*” includes the renovation or retouching of an existing likeness or design.

b. Reserved.

16.51(2) Effective May 18, 1984, the sale of vulcanizing, recapping and retreading services is no longer the sale of enumerated services, but is the sale of tangible personal property. For the purposes of this subrule these services will also be referred to as “property.”

a. “Vulcanizing” means the act or process of treating crude rubber, synthetic rubber, or other rubber-like material with a chemical and subjecting it to heat in order to increase its strength and elasticity.

b. The effective date of the statute mandating change in the treatment of vulcanizing, recapping and retreading is May 18, 1984. However, the change in the treatment of this property is retroactive to January 1, 1979. The statute provides that no tax may be assessed for a retailer’s treatment of the sale of this property as the sale of tangible personal property between the dates January 1, 1979, and May 17, 1984, inclusive. However, no refund may be claimed on any tax collected prior to May 18, 1984, if the basis for the refund claim is the argument that the sale of vulcanizing, recapping and retreading services is the sale of tangible personal property.

16.51(3) Effective July 1, 1997, sales of prepaid telephone calling cards and prepaid authorization numbers which furnish the holder with communication service are taxable as sales of tangible personal property. See rule 16.52(422,423) below for an explanation of the sales tax treatment of other types of prepaid merchandise cards.

This rule is intended to implement Iowa Code sections 422.43 and 423.1.

701—16.52(422,423) Sales of prepaid merchandise cards. Sales of prepaid merchandise cards (other than prepaid telephone calling cards, see 16.51(3) above) are not sales of tangible personal property and are not sales which are subject to Iowa tax. If a purchaser uses a prepaid merchandise card to purchase taxable tangible personal property or taxable services, sales tax is computed on the gross receipts at the time of the sale and deducted from the prepaid amount remaining on the merchandise card.

EXAMPLE: Customer A purchases a prepaid merchandise card from ABC Clothing Company in the amount of \$200.00. A purchases a sweater for \$50.00 from ABC Clothing. ABC Clothing Company will debit A's card \$52.50 ($\50.00×1.05) or \$53.00 ($\50.00×1.06) if local option tax is applicable.

This rule is intended to implement Iowa Code sections 422.42 and 422.43.

CHAPTER 17
EXEMPT SALES

[Prior to 12/17/86, Revenue Department[730]]

701—17.1(422,423) Gross receipts expended for educational, religious, and charitable purposes. Prior to July 1, 2001, net proceeds of an organization are exempt to the extent such proceeds are expended for educational, religious, or charitable purposes, except receipts from games of skill, games of chance, raffles, and bingo. Iowa Code section 422.45(3) requires that the activity from which the proceeds are derived must be from sales of educational, religious, or charitable activities and that the net proceeds be expended on these types of qualifying activities to be exempt from sales tax. For the purposes of determining if net proceeds are exempt from tax under this rule, subsequent to the sales event, the department analyzes the activities and the extent to which the net proceeds are expended on such activities. Net proceeds are exempt from sales tax to the extent that they are expended on educational, religious, or charitable activities.

17.1(1) Evaluation. For purposes of this rule, educational, religious, and charitable activities will be evaluated as follows:

a. Educational. The acquisition of knowledge tending to develop and train the individual. An activity that has as its primary purpose to educate by teaching. An activity that has as its primary objective to give educational instruction. An activity where the educational process is not merely incidental. An activity where the purpose is systematic instruction. The term educational purpose is synonymous with educational undertaking, and therefore, it can also include recreational activities as well as an activity designed to offer culture to the public. Activities which are directly related to the educational process of such as intramural sports and tests given to students or prospective students to measure intelligence, ability, or aptitude are considered educational for purposes of the exemption found in Iowa Code section 422.45(3). Municipal or civic art and science centers and libraries are also considered educational for purposes of the exemption.

EXAMPLE 1: Little Folks, a local preschool, has a chili supper to raise money for playground equipment, educational materials, and classroom furniture. The net proceeds from the supper are exempt from sales tax because the total amount of the net proceeds from the chili supper will be used for educational purposes. In addition, purchases made by the preschool may be exempt from tax if the preschool can meet the qualifications to be classified as an educational institution. See 701—17.11(422,423) for additional information regarding this exemption.

EXAMPLE 2: A local ballet company promotes the arts, provides classes and instruction on various types of dance, and sponsors and performs at numerous recitals that are free to the public. At its location, the ballet company has a gift shop in which patrons can purchase T-shirts, dance wear, and costumes. All proceeds are utilized by the ballet company to pay for its operational expenses and to perform the activities previously mentioned. The proceeds from this gift shop are exempt from Iowa sales tax to the extent they are utilized to pay for the stated educational activities.

b. Religious. The words “religious purpose” are analogous to religious worship. In the broadest of terms, it includes all forms of belief in the existence of superior beings capable of exercising power over the human race. As commonly accepted, it means the final recognition of God. It encompasses forms of worship, reference to one’s views about God, or the relationship to one’s creator. It also includes the use of property by a religious society or by a body of persons as a place for public worship.

EXAMPLE 1: A local church has a bake sale. All the net proceeds are returned to the church for religious purposes. Bake sales are generally exempt from sales tax unless the product is sold for “on-premises consumption” (see 701—20.5(422,423)), but the net proceeds are exempt from tax in any event because they are going to be used for religious purposes. However, any purchases made by the church that are not for resale are subject to sales tax. See 701—subrule 17.1(3).

EXAMPLE 2: Another local church conducts bingo games every Thursday. The net proceeds from the bingo activities will be used for religious purposes. However, bingo and other gambling activities are subject to sales tax regardless of the manner in which the proceeds are going to be used. See 17.1(5) “t.”

c. *Charitable.* The term “charitable” may be applied to almost anything that tends to promote well-doing and well-being for public good or public welfare with no pecuniary profit to the one performing the service or the giving of gifts by persons kindly disposed toward others, without obligation. An activity for the benefit of the public at large which includes relief of poverty, advancement of education or religion, promotion of health, providing a government or municipal service, and other activities, the purpose of which is to benefit the community, is considered charitable. Maintenance of public parks is a valid charitable purpose. Schools, Red Cross, Boy Scouts, and relief agencies are charitable. Profit-making organizations are not charitable, but may engage in charitable activities. An activity where net earnings go to the benefit of any private shareholder or individual sponsoring the activity is not charitable.

EXAMPLE 1: A local, nonprofit animal shelter that provides shelter, medical care, socialization, and adoption services for homeless animals sells T-shirts and sweatshirts depicting rescued animals as a fund-raiser. All the net proceeds from the sales will go to and be used by the animal shelter to defray the costs it incurs. Sales of the T-shirts and sweatshirts would be exempt from sales tax since the net proceeds would be expended on a charitable purpose. Items purchased by the shelter for resale would also be exempt from sales tax. Items purchased by the shelter that are not for resale, such as dog or cat food that will be used by the shelter, would be subject to sales tax.

EXAMPLE 2: An American Legion post conducts a pancake supper as a fund-raiser for disabled veterans. Some of the net proceeds are used to benefit disabled veterans and the remainder will be used by the American Legion post to pay rent and utilities at its location. Pursuant to subrule 17.1(2), when a portion of the net proceeds are intended to be expended for a qualifying exempt activity, then sales tax should not be collected from the consumer. In turn, the sponsoring organization of the activity, in this case the American Legion post, would not need to remit sales tax on the portion of the net proceeds that is expended for the charitable activity. However, the portion of net proceeds used by the American Legion post to pay rent and utilities is subject to sales tax due to the fact that the net proceeds were not used for a qualifying activity.

EXAMPLE 3: A nonprofit hospital operates a gift shop. All of the proceeds are used to defray costs of hospital care for indigent patients who are unable to pay for such care. Due to the fact that all of the net proceeds are used for a charitable purpose, the proceeds are exempt from sales tax. In addition, effective July 1, 1998, purchases made by the nonprofit hospital are also exempt from sales tax.

17.1(2) Entire proceeds. An Attorney General’s Opinion issued on November 2, 1967, indirectly offers a test of whether the gross receipts from an educational, charitable, or religious activity are entirely spent for such purpose. The test is whether all expenditures are so related to the activity so that the expenditure itself is for an educational, charitable, or religious purpose. The term “entire proceeds” is defined as those proceeds remaining after direct expenses have been deducted from the gross receipts derived from the activity or event. In addition to this definition, the expenses should be necessary and have an immediate bearing or relationship to the fulfillment of the activity. For example, the cost of food for a fund-raising meal would be a direct expense. However, the cost of a victory celebration because the fund-raising dinner was a success would not be a direct expense. Another example of where the direct expense rule would be violated would be where an educational institution invested proceeds from an art show into income-producing property and the remainder to purchase books for the library.

Examples of where cost of items would be a valid direct expense include, but are not limited to: 1. Cost of food, if for a fund-raising meal or the selling of food items. 2. Cost of tickets, if the receipts from the tickets are the principal receipts for the activity or event, or 3. Cost of entertainment, if the entertainment is the principal proceeds for the activity or event, such as a fund-raising dance.

For sales made on or after July 1, 1993, an exemption from sales tax shall be allowed even though the entire proceeds are not used for educational, religious, or charitable purposes. The exemption shall apply only to that portion of the proceeds used for educational, religious, or charitable purposes.

At the time of the selling event a presumption is made that sales tax will not be charged and collected from the consumer on the property or service sold. This particular exemption is dependent upon how the entire proceeds from the sale are expended, which follows the selling event. If after the event a portion

of the proceeds is expended for a noneducational, nonreligious, or noncharitable purpose, tax is due on that portion of the proceeds in the quarterly period in which that portion was expended.

17.1(3) Purchases by organizations. Organizations engaged in educational, religious, or charitable activities which sell tangible personal property or render, furnish or perform taxable services at retail in Iowa in connection with such activities shall be exempt from the payment of sales tax on their gross receipts derived from such sales, provided two requirements are met: (1) The activity must be educational, religious, or charitable and (2) the entire proceeds must be used for educational, religious, or charitable purposes.

Organizations that qualify for an exemption shall be entitled to purchase tangible personal property which they resell in connection with such activities without being charged tax on the property. They may give their suppliers a proper certificate of resale, indicating they are using the property for the exempt purpose as outlined and explaining that they do not hold a permit for the reason that their receipts from the sale of tangible personal property in connection with the activities are exempt from tax. Purchases by educational, religious, or charitable organizations which are not for resale, cannot be purchased free of sales tax. Nonprofit educational institutions should see rule 17.11(422,423) for taxable status of their purchases.

17.1(4) General information. The following is general information, important to organizations involved in educational, religious, or charitable activities:

a. There is no authority in the Iowa Code to grant a nonprofit corporation any type of blanket sales or use tax exemption on its purchases because the organization is exempted from federal or state income taxes.

b. Nonprofit corporations and educational, religious, or charitable organizations are subject to audit and should keep financial records for five years which meet acceptable accounting procedures.

c. Nonprofit corporations and educational, religious, or charitable organizations can be held responsible for the payment of sales and use taxes as would any other individual, retailer, or corporation.

d. Nonprofit corporations and educational, religious, or charitable organizations are not required to obtain a sales tax permit or any type of registration number if they are not making taxable sales. There is no provision in the Iowa Code which requires that such organizations have a special sales tax number or registration number and none are issued by the department of revenue. However, if such organizations are making sales which are subject to tax, then a sales tax permit must be obtained.

e. There is no statutory authority to require an organization or an individual to acquire an exemption letter or special certificate in order to claim an exemption under Iowa Code section 422.45(3). However, the burden of proof that an organization is entitled to an exemption lies with the organization. If an organization or individual wishes to notify the department of revenue of an upcoming event, or if an organization or individual wishes to inquire about the tax status of an activity, the department encourages contact with its main office in Des Moines, Iowa. Inquiries should be made in writing explaining in detail the event and how the proceeds therefrom are going to be used, and the time and place of the event. All inquiries should be made in advance of the event.

Under Iowa Code section 422.54, the department does have statutory authority to verify whether an individual or an organization which is making retail sales is required to file a return. Therefore, organizations or individuals may be asked to provide written information regarding the retail sales in a manner or form required by the department and return it to the nearest department of revenue field office within 30 days from the date the information was requested by the department.

Failure to complete and remit the requested information as required may result in a formal audit of the organization's or individual's records.

Inquiries regarding an individual's or an organization's sales tax exemption status relating to its fund-raising activities should be made to the department's taxpayer services section in Des Moines. Any decisions reached by the department of revenue are conditional pending an audit and verification of how the proceeds from the event were used.

f. Even though an activity or an organization has been recognized as one which could avail itself to the exemption provided by Iowa Code section 422.45(3), it can still be held responsible for sales tax

on gross receipts if the department finds, upon additional investigation, that the proceeds expended by the organization were not for educational, religious, or charitable purposes.

17.1(5) Specific information. Listed below are some common situations in which the sales tax exemption provided by section 422.45(3) may or may not be applicable:

a. Gross receipts from the sale of food and tangible personal property by individuals and organizations at bazaars, sporting events, fairs, carnivals, and centennial organizations, where the entire proceeds are expended for educational, religious, or charitable purposes, are exempt.

b. Gross receipts from sales by students where the gross receipts therefrom are expended for educational, religious, or charitable purposes or school-related functions, are exempt.

c. Gross receipts from the sales of food and tangible personal property by the Boy Scouts, Girl Scouts, YMCA, 4-H and their satellite organizations, where the entire proceeds therefrom are expended for educational, religious, or charitable purposes, are exempt.

d. Gross receipts from tickets or admissions, except to athletic events of educational institutions, to the extent net proceeds therefrom are expended for educational, religious, or charitable purposes, are exempt.

e. Gross receipts from church-related functions, such as the ladies' auxiliary, except gambling activities, where the entire proceeds are expended for educational, religious, or charitable purposes, are exempt.

f. Gross receipts from activities or events where the entire proceeds therefrom are donated to support governmental or municipal services are considered charitable, and therefore, are exempt. Also, entire proceeds expended for civic projects are exempt. An example would be proceeds from activities of the Junior Chamber of Commerce, Lions Clubs, or Kiwanis which are expended on a civic project.

g. Sales to organization members, primarily for the purpose of the selling organization, are exempt if the selling organization is educational, religious, or charitable. Examples are sales of uniforms, insignias, and equipment by Scout organizations to their members, sales of Bibles by a church to its members, and sales of choir robes by a church to its members.

h. A summer camp or ranch is generally considered a form of amusement which provides recreation to those who attend. If it is operated for profit, it is a form of commercial recreation and the gross receipts therefrom would be subject to sales tax. If it is not operated for profit, but is operated to help underprivileged children, or any child, and educates the child in some manner, the sales tax exemption would apply.

i. Rescinded IAB 11/20/96, effective 12/25/96.

j. Admissions to athletic events of educational institutions (except athletic events of elementary and secondary educational institutions) are taxable under Iowa Code section 422.43 regardless of how the proceeds are expended. Educational institutions having proceeds from athletic events should obtain an Iowa sales tax permit. See 701—subrule 16.26(2).

k. The gross receipts from admissions to and the sale of tangible personal property at centennial events are exempt from sales tax only if the entire proceeds from such sales are used for educational, religious, or charitable purposes. Whether a centennial is educational rather than a commercial amusement depends on the activities and events held at the centennial.

l. A professional golf tournament or any similar event where spectators view professional athletics is not an educational activity.

m. Generally, organizations which produce plays and concerts are not conducting educational activities unless there is evidence that the organization has as its primary objective to give educational instruction to the members of its organization, and the plays and concerts are a means to practice what is learned through the organization. However, each situation is factual and must be evaluated on its own merits.

n. The mere renting of facilities to be used by another person or organization for educational, religious, or charitable purposes is not an educational, religious or charitable activity.

o. Where proceeds are used to reimburse individuals for the cost of transporting their automobiles to an antique car show, the proceeds are not considered to be expended for educational purposes, and the gross receipts from the car show are subject to tax.

p. Activities to raise funds to send members of educational, religious, or charitable organizations to conventions and other similar events which are directly related to the purposes of the educational, religious, or charitable organization are within the exemption requirements provided in Iowa Code section 422.45(3).

q. Organizations whose function is to promote by advertising the use of a particular product which can be purchased at retail, even though educating the public, do not qualify for the exemption provided by Iowa Code section 422.45(3).

r. Sales of tangible personal property by civic and municipal art and science centers are of an educational value and the gross receipts therefrom are exempt from tax if the entire proceeds are expended for educational, religious, or charitable purposes.

s. Organizations such as the Big Ten Conference, Big Eight Conference, and the Missouri Valley Conference are, themselves, educational institutions since they are made up of member schools which are educational institutions. Any other public body made up of educational institutions could be entitled to the exemptions found in Iowa Code sections 422.45(5) and 422.45(8).

t. All proceeds from games of skill, games of chance, raffles, and bingo games as defined in Iowa Code chapter 99B are subject to sales tax regardless of who is operating the game and regardless of how the proceeds therefrom are expended except that those games operated by a county or a city are exempt from collecting the sales tax. See rule 701—18.39(422). When organizations operate such games, they are required to have a sales tax permit and a gambling license. See 195—Chapters 20 to 25 of the rules.

17.1(6) *Taxability of profits on or after July 1, 2001.* Effective July 1, 2001, gross receipts from the sale or rental of tangible personal property or services in which the profits are used by or donated to a qualifying nonprofit entity are exempt from Iowa sales or use tax. The profits must be expended on educational, religious, or charitable activities in order for the sales transactions to be exempt from sales tax. For the purposes of determining if sales transactions are exempt from tax under this rule, the department determines the extent to which the profits are expended. Sales transactions are exempt from sales tax to the extent that profits are expended on educational, religious, or charitable purposes.

This exemption does not apply to the gross receipts from games of skill, games of chance, raffles, and bingo games as defined in Iowa Code chapter 99B.

a. To qualify for exemption from tax, all of the following criteria must be met:

(1) The gross receipts and profits must be from a retail sale of tangible personal property or taxable services;

(2) The profits from the sale must be used by or donated to one of the following:

1. An entity that is exempt from federal income tax under Internal Revenue Code Section 501(c)(3);

2. A government entity; or

3. A private nonprofit educational institution;

(3) The exemption is allowed to the extent that the profits are expended for any of the following purposes:

1. Educational. For purposes of this rule, “educational” means any of the following:

- The acquisition of knowledge tending to develop and train the individual.
- An activity that has as its primary purpose to educate by teaching.
- An activity that has as its primary objective to give educational instruction.
- An activity for which the educational process is not merely incidental. An activity where the purpose is systematic instruction.

The term “educational purpose” is synonymous with “educational undertaking” and, therefore, it can include recreational activities as well as an activity designed to offer culture to the public. Activities which are directly related to the educational process such as intramural sports and tests given to students or prospective students to measure intelligence, ability, or aptitude are considered educational for purposes of the exemption found in Iowa Code section 422.45(3). Municipal or civic science centers and libraries are also considered educational for purposes of the exemption.

EXAMPLE 1: Little Folks, a local nonprofit preschool that is exempt from federal tax under IRC Section 501(c)(3), has a chili supper to raise money for playground equipment, educational materials,

and classroom furniture. The sales transactions from the supper are exempt from sales tax because the total amount of the profits from the chili supper will be used for educational purposes. In addition, purchases made by the preschool may be exempt from tax if the preschool can meet the qualifications to be classified as a private nonprofit educational institution. See 701—17.11(422,423) for additional information regarding this exemption.

EXAMPLE 2: A local nonprofit ballet company, which is exempt from federal income tax under IRC Section 501(c)(3), promotes the arts, provides classes and instruction on various types of dance, and sponsors and performs at numerous recitals that are free to the public. At its location, the ballet company has a gift shop in which patrons can purchase T-shirts, dance wear, and costumes. All profits are utilized by the ballet company to pay for its operational expenses and to perform the activities previously mentioned. The gross receipts from this gift shop are exempt from Iowa sales tax to the extent that the profits therefrom are utilized to pay for the stated educational activities.

2. Religious. The phrase “religious purpose” is analogous to “religious worship.” In the broadest of terms, it includes all forms of belief in the existence of superior beings or things capable of exercising power over the human race. It also includes the use of property by a religious society or by a body of persons as a place for public worship.

EXAMPLE 1: A local church, which is exempt from federal income tax under IRC Section 501(c)(3), has a bake sale. All of the bake sale profits are returned to the church for religious purposes. Bake sales are generally exempt from sales tax unless the product is sold for “on-premises consumption” (see 701—20.5(422,423)), but the bake sale profits are exempt from tax in any event because they are to be used for religious purposes. However, generally, any purchases made by the church that are not for resale are subject to sales tax. See 701—subrule 17.1(3).

EXAMPLE 2: Another local church, exempt from federal income tax under IRC Section 501(c)(3), conducts bingo games every Thursday. The profits from the bingo activities will be used for religious purposes. However, bingo and other gambling activities are subject to sales tax regardless of the manner in which the profits are going to be used. See 17.1(5)“t.”

3. Charitable. A charitable act is an act done out of goodwill, benevolence, and a desire to add or improve the good of humankind in general or any class or portion of humankind, with no pecuniary profit inuring to the person performing the service or giving the gift. The term “charitable” may be applied to almost anything that tends to promote well-doing and well-being for public good or public welfare with no pecuniary profit inuring to the one performing the service or the giving of gifts by persons kindly disposed toward others, without obligation. An activity for the benefit of the public at large which includes relief of poverty, advancement of education or religion, promotion of health, providing a government or municipal service, and other activities, the purpose of which is to benefit the community, is considered charitable. Maintenance of public parks is a valid charitable purpose. Schools, the Red Cross, the Boy Scouts, and relief agencies are charitable. Profit-making organizations are not charitable, but may donate to a qualifying organization that is a charitable organization or that engages in charitable activities. An activity from which the profits go to the benefit of any private shareholder or individual sponsoring the activity is not charitable. However, the casual sale exemption may apply to this type of situation. See 701—18.28(422,423) for information regarding the casual sale exemption.

EXAMPLE 1: A local, nonprofit animal shelter that is exempt from federal income tax under IRC Section 501(c)(3) provides shelter, medical care, socialization, and adoption services for homeless animals and, as a fund-raiser, sells T-shirts and sweatshirts depicting rescued animals. All of the profits from the sales will go to and be used by the animal shelter to defray the costs it incurs. Sales of the T-shirts and sweatshirts would be exempt from sales tax since the profits from the sales would be expended on a charitable purpose. Items purchased by the shelter for resale would also be exempt from sales tax. Items purchased by the shelter that are not for resale, such as dog or cat food that will be used by the shelter, would be subject to sales tax.

EXAMPLE 2: A nonprofit hospital, which has received exemption from federal income tax under IRC Section 501(c)(3), operates a gift shop. All of the profits are used to defray costs of hospital care for indigent patients who are unable to pay for such care. Due to the fact that all of the profits from the gift shop are used for a charitable purpose, the gross receipts would be exempt from sales tax. In addition,

effective July 1, 1998, purchases made by the nonprofit hospital would also be exempt from sales tax. See Iowa Code section 422.45(54).

b. Profits. Gross receipts are exempt from sales tax to the extent that the profits are used by or donated to a qualifying organization and used for a qualifying activity. Profits are the gross receipts minus qualifying expenditures. The test of what is a qualifying expenditure is whether all expenditures are so related to the activity so that the expenditure itself is for an educational, charitable, or religious purpose. The term “profits” is defined as those proceeds remaining after direct expenses have been deducted from the gross receipts derived from the activity or event. In addition to this definition, the expenses should be necessary and have an immediate bearing or relationship to the fulfillment of the activity. For example, the cost of food for a fundraising meal would be a direct expense. However, the cost of a victory celebration because the fundraising dinner was a success would not be a direct expense. Another example of when the direct expense rule would be violated is a situation in which an educational institution invests profits from an art show into income-producing property and uses the remainder of the profits to purchase books for the library.

Examples of when the cost of items would be a valid direct expense include, but are not limited to: (1) cost of food, if for a fundraising meal or the selling of food items; (2) cost of tickets, if the receipts from the tickets are the principal receipts for the activity or event; or (3) cost of entertainment, if the entertainment is the principal source of proceeds for the activity or event, such as a fundraising dance.

At the time of the selling event, a presumption is made that sales tax will not be charged to and collected from the consumer on the property or service sold. This particular exemption is dependent upon how the profits from the sale are expended, which follows the selling event. If after the event a portion of the profits is expended for a noneducational, nonreligious, or noncharitable purpose, tax is due on that portion of the gross receipts in the quarterly period in which that portion was expended.

c. Purchases. Any organization that purchases tangible personal property or services for resale, the profits from the sales of which will be used by or donated to a qualifying organization, shall not pay tax on the property or services purchased for resale. Organizations that purchase tangible personal property or services for resale may give their suppliers a proper certificate of resale, indicating that the organizations are using the property for the exempt purpose as outlined and explaining that they do not hold a permit for the reason that their receipts from the sale of tangible personal property in connection with the activities are exempt from tax. Purchases by qualifying organizations which are not for resale cannot be purchased free of sales tax. Nonprofit private educational institutions should see rule 17.11(422,423) for taxable status of their purchases.

d. General information. The following is general information that is important to organizations involved in educational, religious, or charitable activities:

(1) There is no authority in the Iowa Code to grant a nonprofit corporation any type of blanket sales or use tax exemption on its purchases because the organization is exempted from federal or state income taxes.

(2) Nonprofit corporations and educational, religious, or charitable organizations are subject to audit and should keep for three years financial records which meet acceptable accounting procedures.

(3) Nonprofit corporations and educational, religious, or charitable organizations can be held responsible for the payment of sales and use taxes as would any other individual, retailer, or corporation.

(4) Nonprofit corporations and educational, religious, or charitable organizations are not required to obtain a sales tax permit or any type of registration number if they are not making taxable sales. There is no provision in the Iowa Code which requires that such organizations have a special sales tax number or registration number and none are issued by the department of revenue. However, if such organizations are making sales that are subject to tax, then a sales tax permit must be obtained.

(5) There is no statutory authority to require an organization or an individual to acquire an exemption letter or special certificate in order to claim an exemption under Iowa Code section 422.45(3). However, the burden of proof that an organization is entitled to an exemption lies with the organization. If an organization or individual wishes to notify the department of revenue of an upcoming event, or if an organization or individual wishes to inquire about the tax status of an activity, the department encourages contact with its main office in Des Moines, Iowa. Inquiries should be made in writing

explaining in detail the event, how the profits therefrom are going to be used, and the time and place of the event. All inquiries should be made in advance of the event.

Under Iowa Code section 422.54, the department does have statutory authority to verify whether an individual or an organization which is making retail sales is required to file a return. Therefore, organizations or individuals may be asked to provide written information regarding the retail sales in a manner or form required by the department and return it to the nearest department of revenue field office within 30 days from the date the information was requested by the department.

Failure to complete and remit the requested information as required may result in a formal audit of the records of the organization or individual.

Inquiries regarding an individual's or an organization's sales tax exemption status relating to its fundraising activities should be made to the department's taxpayer services section in Des Moines. Any decisions reached by the department of revenue are conditional pending an audit and verification of how the profits from the event were used.

(6) Even though an activity or an organization has been recognized as one which could avail itself to the exemption provided by Iowa Code section 422.45(3), it can still be held responsible for sales tax on gross receipts if the department finds, upon additional investigation, that the proceeds expended by the organization were not for educational, religious, or charitable purposes.

(7) The gross receipts from sales made by a nonprofit organization that engages in the sale of any tangible personal property or enumerated services will be presumed to be taxable, unless the taxpayer can present proof that the profits are expended for an educational, religious, or charitable purpose. For example, XYZ is a certified nonprofit organization by the Internal Revenue Service under Section 501(c)(3) of the Internal Revenue Code. XYZ has an ice-skating facility and charges all patrons to use the facility. Iowa does not presume that the gross receipts from sales by XYZ are exempt just because XYZ is a nonprofit organization. Instead, there is a presumption that the gross receipts received by XYZ from its patrons would be subject to tax, unless XYZ can show that the profits are expended for a qualifying educational, religious, or charitable purpose or that XYZ qualifies for another exemption as set forth in Iowa Code section 422.45.

e. Specific information. Listed below are some common situations in which the sales tax exemption provided by Iowa Code section 422.45(3) may or may not be applicable:

(1) Gross receipts from the sales of food and tangible personal property by individuals and organizations at bazaars, sporting events, fairs, carnivals, and centennial celebrations are exempt to the extent the profits are used by or donated to a qualifying organization and are expended for educational, religious, or charitable purposes.

(2) Gross receipts from sales by students are exempt to the extent the profits therefrom are donated to a qualifying organization and are expended for educational, religious, or charitable purposes.

(3) Gross receipts from the sales of food and tangible personal property by the Boy Scouts, Girl Scouts, YMCA, 4-H and their satellite organizations are exempt to the extent that the profits are expended for educational, religious, or charitable purposes.

(4) Gross receipts from tickets or admissions, except for gross receipts from tickets or admissions to athletic events of educational institutions, which are used or donated to a qualifying organization are exempt to the extent the profits therefrom are expended for educational, religious, or charitable purposes.

(5) Gross receipts from church-related functions, such as the ladies' auxiliary, except gambling activities, are exempt to the extent the profits therefrom are donated to or used by a qualifying organization and are expended for educational, religious, or charitable purposes.

(6) Gross receipts from activities or events to the extent the profits therefrom are donated and expended to support governmental or municipal services are considered charitable and, therefore, are exempt. Also, profits from these activities, to the extent they are expended for civic projects, are exempt. An example would be profits from activities of the Junior Chamber of Commerce, Lions Club, or Kiwanis which are expended on a civic project.

(7) Sales to organization members, primarily for the purpose of the selling organization, are exempt if the selling organization is a qualifying organization to the extent the profits are expended for educational, religious, or charitable purposes. Examples are sales of uniforms, insignias, and equipment

by Scout organizations to their members, sales of Bibles by a church to its members, and sales of choir robes by a church to its members.

(8) A summer camp or ranch is generally considered a form of amusement which provides recreation to those who attend. If it is operated for profit, it is a form of commercial recreation and the gross receipts therefrom would be subject to sales tax. If it is not operated for profit, has received exemption from federal income tax under IRC Section 501(c)(3), and the profits are expended for a qualifying purpose, such as to help underprivileged children or to educate a child in some manner, the sales tax exemption would apply.

(9) Admissions to athletic events of educational institutions (except athletic events of elementary and secondary educational institutions) are taxable under Iowa Code section 422.43 regardless of how the proceeds are expended. Educational institutions receiving proceeds from athletic events should obtain an Iowa sales tax permit. See 701—subrule 16.26(2).

(10) The gross receipts from admissions to and the sale of tangible personal property at centennial events are exempt from sales tax if the organization sponsoring the event is a qualifying organization or the profits are donated to a qualifying organization and to the extent the profits from such sales are expended for educational, religious, or charitable purposes. Whether a centennial is educational rather than a commercial amusement depends on the activities and events held at the centennial.

(11) A professional golf tournament or any similar event at which spectators view professional athletics is not an educational activity. However, if the profits from the golf tournament are donated to a qualifying organization and expended for educational, religious, or charitable purposes, the sales are exempt from tax.

(12) Generally, qualifying nonprofit organizations which produce plays and concerts are not conducting educational activities unless there is evidence that the organization has as its primary objective to give educational instruction to the members of its organization, and the plays and concerts are a means to practice what is learned through the organization. However, each situation is factual and must be evaluated on its own merits.

(13) The mere renting of facilities to be used by another person or organization for educational, religious, or charitable purposes is not an educational, religious, or charitable activity.

(14) When profits from an activity are used to reimburse individuals for the cost of transporting their automobiles to an antique car show, the profits are not considered to be expended for educational purposes, and the gross receipts from the car show are subject to tax.

(15) Activities to raise funds to send members of qualifying educational, religious, or charitable organizations to conventions and other similar events which are directly related to the purposes of the qualifying educational, religious, or charitable organization are within the exemption requirements provided in Iowa Code section 422.45(3).

(16) An organization whose function is to promote by advertising the use of a particular product which can be purchased at retail does not qualify for the exemption provided by Iowa Code section 422.45(3), even though promotion by advertising may educate the public.

(17) Sales of tangible personal property by civic and municipal art and science centers are of an educational value and the gross receipts therefrom are exempt to the extent the profits are expended for educational, religious, or charitable purposes.

(18) Organizations such as the Big Ten Conference, Big 12 Conference, and the Missouri Valley Conference are, themselves, educational institutions since they are made up of member schools which are educational institutions. Any other public body made up of educational institutions could be entitled to the exemptions found in Iowa Code sections 422.45(5) and 422.45(8).

(19) All proceeds from games of skill, games of chance, raffles, and bingo games as defined in Iowa Code chapter 99B are subject to sales tax regardless of who is operating the game and regardless of how the proceeds therefrom are expended, except that those games operated by a county or a city are exempt from collecting the sales tax. See rule 701—18.39(422). When organizations operate such games, they are required to have a sales tax permit and a gambling license. See 481—Chapter 100.

This rule is intended to implement 2001 Iowa Acts, House File 736, section 2, and Iowa Code sections 422.45(5), 422.45(8), and 423.1.

701—17.2(422) Fuel used in processing—when exempt. Receipts from the sale of tangible personal property which is to be consumed as fuel in creating power, heat or steam for processing, including grain drying or for generating electric current, shall be exempt from sales tax.

The exemption provided in the case of tangible personal property consumed as fuel in creating heat applies only when such heat is directly applied in the actual processing of tangible personal property intended to be sold ultimately at retail, as distinguished from heat which is used for the purpose of heating buildings, whether such buildings be manufacturing or processing plants, warehouses or offices. *Chicago, B. & Q. R. Co. v. Iowa State Tax Commission*, 259 Iowa 178, 142 N.W.2d 407 (1966).

Fuel used in processing is exempt to creameries, dairies or ice cream factories only to the extent that the fuel is used in the actual processing of the finished product. This does not include combustible fuel used for storage after the manufacturing process is completed. For the treatment of electricity or steam used as a fuel or for any other purposes in processing by creameries, dairies, ice cream factories or other processors before, on or after July 1, 1985, see rule 17.3(422,423).

This rule is intended to implement Iowa Code section 422.42(3).

701—17.3(422,423) Processing exemptions. Carbon dioxide in a liquid, solid or gaseous form, electricity, steam, or other taxable services to be used in the processing of tangible personal property intended to be sold ultimately at retail are exempt from sales tax.

17.3(1) Services used in processing. Electricity, steam, or any other taxable service is used in processing only if the taxable service is used in any operation which subjects raw material to some special treatment which changes, by artificial or natural means, the form, context, or condition of the raw material and results in a change of the raw material into marketable tangible personal property intended to be sold ultimately at retail. The following are nonexclusive examples of what would and would not be considered electricity, steam or other taxable services used in processing:

a. The gross receipts from the sale of electricity or steam consumed as power or used in the actual processing of tangible personal property intended to be sold ultimately at retail would be exempt from tax. The gross receipts are to be distinguished from those of electricity or steam consumed for the purpose of lighting, ventilating, or heating manufacturing plants, warehouses, or offices. These latter gross receipts would be taxable.

b. The gross receipts from electricity used in the freezing of tangible personal property, ultimately to be sold at retail, to make the property marketable would be exempt from sales tax, *Fischer Artificial Ice & Cold Storage Co. v. Iowa State Tax Commission*, 81 N.W.2d 437 (Iowa 1957).

c. Electricity used merely in the refrigeration or the holding of tangible personal property for the purpose of preventing spoilage or to preserve the property in its present state would not be “used in processing” and, therefore, its gross receipts would be subject to tax, *Fischer Artificial Ice*, supra.

d. Prior to July 1, 1995, electricity or other fuel used by greenhouses and their related facilities for the purposes of growing plants is not under any circumstances fuel which is used in processing, and the gross receipts from its sales would be subject to tax. On and after July 1, 1995, electricity or other fuel used for heating or cooling of a building used in the commercial production of flowering, ornamental, or vegetable plants, is exempt from tax. See 701—subrule 18.57(2) for more information.

17.3(2) Carbon dioxide in a liquid, solid, or gaseous form, electricity, steam, and other taxable services used in processing. An expanded definition of “processing” is allowed to manufacturers of food products for human consumption using carbon dioxide in a liquid, solid, or gaseous form, electricity, steam, and other taxable services. The definition of processing applicable to persons who are not manufacturers of food products but who are using taxable services is found in subrule 17.3(1).

a. “Manufacturer” characterized. A manufacturer is a person or entity different from a merchant, dealer, or retailer. See *Commonwealth v. Thackara Mfg. Co.*, 27 A. 13 (Pa. 1893). In order for a business to be a manufacturer the principal business of that business must be manufacturing. See *Associated General Contractors v. State Tax Commission*, 123 N.W.2d 922 (Iowa 1963). Another distinction is that a merchant or retailer sells in order to earn a profit and a manufacturer sells to take profits already earned from prior activity. See *State v. Coastal Petrol Inc.*, 198 So. 610 (Ala. 1940). A person primarily engaged in selling tangible personal property in order to earn a profit and only incidentally engaged

in creating products suitable for use from raw materials is not a manufacturer. A retail grocery store, incidentally and not primarily engaged in manufacturing activities such as meat cutting or production and packaging of baked goods, is not a “manufacturer of food products for human consumption” and not entitled to claim the special processing exemption allowed to those manufacturers. Retail food stores, restaurants, and other persons incidentally engaged in food manufacturing activities can, however, continue to claim on their incidental processing activities the processing exemption allowed to persons who are not manufacturers of food products for human consumption. See subrule 17.3(1).

b. For sales occurring on and after July 1, 1985, the following activities constitute processing when performed by a manufacturer to create food products for human consumption. Any carbon dioxide in a liquid, solid, or gaseous form, electricity, steam, or other taxable services primarily used in the performance of these activities is exempt from tax.

(1) Treatment of material that changes its form, context, or condition in order to produce a marketable food product for human consumption. “Special” treatment of the material to change its form, context, or condition is not necessary. Examples of “treatment” which would not be “special” are the following: washing, sorting and grading of fruits or vegetables; the washing, sorting, and grading of eggs; and the mixing or agitation of liquids. By way of contrast, sterilization would be “special treatment.”

(2) Maintenance of quality or integrity of the food product and the maintenance or the changing of temperature levels necessary to avoid spoilage or to hold the food in marketable condition. Any carbon dioxide in liquid, solid, or gaseous form, electricity, steam, or other taxable service used in freezers, heaters, coolers, refrigerators, or evaporators used in cooling or heating which holds the food product at a temperature necessary to maintain quality or integrity or avoid spoilage of the food or to hold the food product in marketable condition is exempt from tax. It is not necessary that the taxable service be used to raise or lower the temperature of the food. Also, processing of food products for human consumption does not cease when the food product is in marketable form. Any carbon dioxide in liquid, solid, or gaseous form, electricity, steam, or other taxable service used to maintain or to change a temperature necessary to keep the product marketable is exempt from tax.

(3) Any carbon dioxide in liquid, solid, or gaseous form, electricity, steam, or other taxable service primarily used in the maintenance of environmental conditions necessary for the safe or efficient use of machinery or material used to produce the food product is exempt from tax. For example, electricity used to air-condition a room in which meat is stored is exempt from tax if the purpose of the air conditioning is to maintain the meat in a condition in which it is easy to slice rather than for the comfort of the employees who work in the room.

(4) Any carbon dioxide in liquid, solid, or gaseous form, electricity, steam, or other taxable service primarily used in sanitation and quality control activities is exempt from tax. Nonexclusive examples exempt from tax include taxable services used in pH meters, microbiology counters and incubators used to test the purity or sanitary nature of a food product. For example, electricity used in egg-candling lights would be exempt from tax. Also, electricity, steam, or any other taxable service used to power equipment which cleans and sterilizes food production equipment would be exempt from tax. Electricity used to power refrigerators used to store food samples for testing would be exempt from tax. Finally, electricity used to power “bug lights” or other insect killing equipment used in areas where food products are manufactured or stored would be exempt from tax.

(5) Any carbon dioxide in liquid, solid, or gaseous form, electricity, steam, or other taxable service used in the formation of packaging for marketable food products for human consumption is exempt from tax. For example, electricity used by a food manufacturer in plastic bottle forming machines is exempt from tax if the plastic bottles will be used to hold a marketable food product, such as milk. Any electricity, steam or other taxable service used in the heating, compounding, liquefying and forming of plastic pellets into these plastic bottles is exempt.

(6) Any carbon dioxide in liquid, solid, or gaseous form, electricity, steam, or other taxable service used in placement of the food product into shipping containers is exempt from tax. For example, electricity used by a food manufacturer to place food products into packing cases, pallets, crates, shipping cases, or other similar receptacles is exempt.

(7) Any carbon dioxide in liquid, solid, or gaseous form, electricity, steam, or other taxable service used to move material which will become a marketable food product or used to move the marketable food product itself until shipment from the building of manufacture is exempt from tax. This includes, but is not limited to, taxable services used in pumps, conveyors, forklifts, and freight elevators moving the material or food product and taxable services used in door openers which open doors for forklifts or other devices moving the material or product. Any loading dock which is attached to a building of manufacture is a part of that building. Any electricity, steam, or other taxable service used to move any food products to a loading dock is exempt from tax. If a food product is carried outside its building of manufacture by any conveyor belt system, electricity used by any portion of the system located outside the building is taxable.

17.3(3) *Measurement of taxable and nontaxable use of electricity and steam.* The exemption provided in the case of electricity or steam applies only upon the gross receipts from the sale of electricity or steam when the energy is consumed as power or is used in the processing of food products or other tangible personal property intended to be sold ultimately at retail, as distinguished from electricity or steam which is consumed for taxable purposes. When practical, electricity or steam consumed as power or used directly in processing must be separately metered and separately billed by the supplier thereof to clearly distinguish energy so consumed from electricity or steam which is consumed for purposes or under conditions where the exemption would not apply. If it is impractical to separately meter electricity or steam which is exempt from that electricity or steam upon which tax will apply, the purchaser must furnish an exemption certificate to the supplier with respect to what percentage of electricity or steam in the case of each purchaser is subject to the exemption. See 701—subrule 15.3(2). The exemption certificate must be supported by a study showing how the percentage was developed. When a certificate and study are accepted by the supplier as a basis for determining exemption, any changes in the processing method, changes in equipment or alterations in plant size or capacity affecting the percentage of exemption will necessitate the filing of a new and revised statement by the purchaser. When the electric or steam energy is separately metered, enabling the supplier to accurately apply the exemption in the case of processing energy, the purchaser need only file an exemption certificate since the supplier, under such conditions, will separately record and compute the consumption of energy which is exempt from tax apart from that energy which is subject to tax.

This rule is intended to implement Iowa Code sections 422.42(3) and 423.1.

701—17.4(422,423) Commercial fertilizer and agricultural limestone. Prior to July 1, 1987, sales of all commercial fertilizer and agricultural limestone were exempt from tax. On and subsequent to that date, sales of commercial fertilizer and agricultural limestone are exempt from tax only if the purchaser will utilize the fertilizer or limestone for the health promotion of plants which are produced as part of agricultural production for market. See subrule 17.9(3) for characterizations of “Agricultural production” and “Plants” respectively. Plant hormones are considered to be commercial fertilizer. By way of nonexclusive example, commercial fertilizer sold for application on a lawn, golf course, or cemetery would be taxable.

This rule is intended to implement Iowa Code section 422.42(3).

701—17.5(422,423) Sales to the American Red Cross, the Coast Guard Auxiliary, Navy-Marine Corps Relief Society, and U.S.O. Receipts from the sale of tangible personal property or from rendering, furnishing, or providing taxable services to the American Red Cross, Coast Guard Auxiliary, Navy-Marine Corps Relief Society, and U.S.O. shall be exempt from sales tax.

Purchases made by the Red Cross, Coast Guard Auxiliary, Navy-Marine Corps Relief Society or U.S.O. outside of Iowa for use in Iowa shall be exempt from use tax.

Department of Employment v. United States, 1966, 385 U.S. 355, 87 S.Ct. 464, 17L.Ed.2d 414.

This rule is intended to implement Iowa Code sections 422.45(1), 422.45(5), and 423.4(4).

701—17.6(422,423) Sales of vehicles subject to registration—new and used—by dealers. Receipts derived from the sale at retail in Iowa of new and used vehicles subject to registration under the motor

vehicle laws of Iowa shall be exempt from sales tax. When the vehicles are registered at the office of the county treasurer or the motor vehicle registration division, Iowa department of transportation, the tax is collected as use tax. Vehicle dealers selling tangible personal property or taxable services in Iowa, in addition to new or used vehicles, shall be required to hold a permit. Upon filing their quarterly returns, dealers shall show the amount of their gross receipts derived from the sale of new and used vehicles subject to registration and shall take appropriate deductions.

The purchaser of a new or used vehicle subject to registration shall be required to pay use tax when the vehicle is registered in Iowa under the Iowa motor vehicle law; and, the county treasurer or the motor vehicle registration division, department of transportation (whichever issues the registration) shall collect use tax.

This rule is intended to implement Iowa Code sections 422.45(4), 423.7 and 423.8.

701—17.7(422,423) Sales to certain federal corporations. The department holds that the following are some of the federal corporations immune from the imposition of sales and use tax in connection with their purchases:

1. Central Bank for Cooperatives and Banks for Cooperatives
2. Commodity Credit Corporation
3. Farm Credit Banks
4. Farmers Home Administration
5. Federal Credit Unions
6. Federal Crop Insurance Corporation
7. Federal Deposit Insurance Corporation
8. Federal Financing Bank
9. Federal Home Loan Banks
10. Federal Intermediate Credit Banks
11. Federal Land Banks and Federal Land Bank Associations
12. Federal National Mortgage Association
13. Federal Reserve Bank
14. Federal Savings & Loan Insurance Corporation
15. Production Credit Association
16. Student Loan Marketing Association
17. Tennessee Valley Authority

The federal statutes creating the above corporations contain provisions substantially identical with Section 26 of the Federal Farm Loan Act which has been construed as barring the imposition of state and local sales taxes.

This rule is intended to implement Iowa Code sections 422.45(1), 422.45(5), and 423.4(4).

701—17.8(422) Sales in interstate commerce—goods transported or shipped from this state. When tangible personal property is sold within the state and it is transported to a point outside the state, or it is transferred to a common carrier, to the mails, or to parcel post for shipment to a point without the state, sales tax shall not apply, provided the property is not returned to a point within the state except solely in the course of interstate commerce or transportation. See 701—subrule 26.2(3) for a description of an exemption applicable to services performed on the above-described property on or after May 22, 1999.

EXAMPLE: Company A sells point-of-sale computer equipment. The company is located in Des Moines, Iowa. Company A enters into a contract with company B to sell the latter company a large number of point-of-sale computers. Company B is located in Little Rock, Arkansas. A transfers possession of the computers to a common carrier in Des Moines, Iowa, for shipment to B in Little Rock. Sale of the computers is exempt from Iowa sales tax.

17.8(1) Proof of transportation. The most acceptable proof of transportation outside the state shall be:

- a. A waybill or bill of lading made out to the retailer's order calling for transport; or

b. An insurance or registry receipt issued by the United States postal department, or a post office department's receipts; or

c. A trip sheet signed by the retailer's transport agency which shows the signature and address of the person outside the state who received the transported goods.

17.8(2) Certificate of out-of-state delivery. Iowa retailers making delivery and therefore sales out of state shall use a certificate in lieu of trip sheets. The certificate shall be completed at the time of sale, identifying the merchandise delivered and signed by the purchaser upon delivery.

17.8(3) Exemption not applicable. Sales tax shall apply when tangible personal property is delivered in the state to the buyer or the buyer's agent, even though the buyer may subsequently transport that property out of the state and, also, when tangible personal property is sold in Iowa to a carrier and then delivered by the purchasing carrier to a point outside of Iowa for the carrier's use.

This rule is intended to implement Iowa Code section 422.45(46).

701—17.9(422,423) Sales of breeding livestock, fowl and certain other property used in agricultural production. The gross receipts from the sales of the following tangible personal property relating to agricultural production is exempt from tax.

17.9(1) Sales of agricultural breeding livestock. "Livestock" means domestic animals which are raised on a farm as a source of food or clothing, *Van Clief v. Comptroller of State of Md.*, 126 A.2d 865 (Md. 1956) and *In the Matter of Simonsen Mill Inc.*, Declaratory Ruling of the State Board, Docket No. 211, April 24, 1980. The term includes cattle, sheep, hogs, and goats. On and after July 1, 1995, ostriches, rheas, and emus are livestock and their sales are also exempt from tax. On and after July 1, 1997, fish and any other animals which are products of aquaculture are considered to be livestock as well. Effective March 6, 2002, and retroactively to April 1, 1995, farm deer and bison are also included in the term "livestock." "Farm deer" are defined as set forth in Iowa Code section 189A.2 and commonly include animals belonging to the cervidae family, such as fallow deer, red deer or elk and sika. However, "farm deer" does not include unmarked free-ranging elk. Sales of the foregoing are exempt from tax. Excluded from the term are horses, mules, other draft animals, dogs, cats, and other pets. Also excluded from the term are mink, fish (prior to July 1, 1997), bees, or other nondomesticated animals even if raised in captivity and even if raised as a source of food or clothing. Also excluded is any animal raised for racing. Effective May 23, 2003, the definition of "livestock" includes whitetail deer and mule deer, but not free-ranging whitetail deer and mule deer.

The sale of agricultural livestock is exempt from tax under this subrule only if the purchaser intends to use the livestock primarily for breeding at the time of purchase. The sale of agricultural livestock which is capable of, but will not be used for breeding or primarily for breeding, is not exempt from tax under this subrule. However, sales of most nonbreeding agricultural livestock to farmers would be a sale for resale and exempt from tax.

EXAMPLE 1: A breeding service purchases a prize bull from a farmer. At the time of sale the intent is to use the bull for breeding other cattle. The sale of the bull is exempt from tax even though three years later the breeding service sells the bull to a meat packer.

EXAMPLE 2: A farmer purchases dairy cows. To ensure production of milk over a sustained period of time, dairy cows must be bred to produce calves. If a farmer purchases dairy cows for the primary purpose of using them to produce milk and incidentally breeds them to ensure that this milk will be produced, the sale of the dairy cows to the farmer is not exempt from tax under this subrule. If the farmer purchases the dairy cows for the primary purpose of using them to produce calves and, incidental to that purpose, at times sells the milk which the cows produce, the sale of the dairy cows to the farmer is exempt from tax under this subrule.

17.9(2) Sales of domesticated fowl. "Domesticated fowl" means any domesticated bird raised as a source of food, either eggs or meat. The word includes, but is not limited to, chickens, ducks, turkeys, and pigeons raised for meat rather than for racing or as pets. On and after July 1, 1995, the word includes ostriches, rheas, and emus. Excluded from the meaning of the word are nondomesticated birds, such as pheasants, raised for meat or any other purpose. The purchase of any domesticated fowl for the purpose

of providing eggs or meat is exempt from tax, whether purchased by a person engaged in agricultural production or not.

17.9(3) Sales of herbicides, pesticides, insecticides, food, medication, and agricultural drainage tile (including gross receipts from the installation of agricultural drainage tile) which are to be used in disease, weed, or insect control or health promotion of plants or livestock produced as part of agricultural production for market are exempt from tax. On and after April 1, 1990, sales of adjuvants, surfactants, and other products which enhance the effects of herbicides, pesticides, or insecticides used for the reasons listed above are also exempt from tax. As used in this subrule:

a. “*Adjuvant*” is any substance which is added to a herbicide, pesticide, or insecticide to increase its potency.

b. “*Agricultural production*” is limited to what would ordinarily be considered a farming operation undertaken for profit. The term refers to the raising of crops or livestock for market on an acreage. See *Bezdek's Inc. v. Iowa Department of Revenue* (Linn Cty. Dist. Ct., May 14, 1984). Included within the meaning of the phrase “agricultural production” is any feedlot operation whether or not the land upon which a feedlot operation is located is used to grow crops to feed the livestock in the feedlot, and regardless of whether or not the livestock fed are owned by persons conducting the feedlot operation; operations growing and raising hybrid seed corn or other seed for sale to farmers; and nurseries, ranches, orchards, and dairies. On and after July 1, 1995, “agricultural production” includes the raising of flowering, ornamental, or vegetable plants in commercial greenhouse or elsewhere for sale in the ordinary course of business. On and after July 1, 1997, the phrase also includes any kind of aquaculture. The following are excluded from the meaning of “agricultural production”: commercial greenhouses (prior to July 1, 1995); logging; catfish raising (prior to July 1, 1997); production of Christmas trees; beekeeping; and the raising of mink, other nondomesticated furbearing animals, and nondomesticated fowl (other than ostriches, rheas, and emus). The above list of exclusions and inclusions within the term “agricultural production” is not exhaustive.

c. “*Food*” includes vitamins, minerals, other nutritional food supplements, and hormones sold to promote the growth of livestock.

d. “*Herbicide*” means any substance intended to prevent, destroy, or retard the growth of plants including fungi. The term shall include preemergence, postemergence, lay-by, pasture, defoliant, desiccant herbicides and fungicides.

e. “*Insecticide*” means any substance used to kill insects. Any substance used merely to repel insects is not an insecticide. Mechanical devices which are used to kill insects are not insecticides.

f. “*Livestock*.” See subrule 17.9(1) for the definition of this term. In addition, for the purposes of this subrule, the word “livestock” includes domesticated fowl.

g. “*Medication*” is not limited to antibiotics or other drugs administered to livestock.

h. “*Plants*” includes fungi such as mushrooms, crops commonly grown in this state such as corn, soybeans, oats, hay, alfalfa hay, wheat, sorghum, and rye. Also included within the meaning of the term are flowers, small shrubs, and fruit trees. Excluded from the meaning of the term are fir trees raised for Christmas trees and any trees raised to be harvested for their wood.

i. “*Pesticide*” means any substance which is used to kill rodents or smaller vermin, other than insects, such as nematodes, spiders, or bacteria. For the purposes of this subrule, a disinfectant is a pesticide. Excluded from the term “pesticide” is any substance which merely repels pests or any device, such as a rat trap, which kills pests by mechanical action.

j. “*Surfactant*” is a substance which is active on a surface.

The following are examples of taxable and nontaxable sales related to agricultural production for market:

1. The sale of any substance which is not itself an insecticide, herbicide, or pesticide used to make more effective or enhance the function of any insecticide, herbicide, or pesticide is subject to tax prior to April 1, 1990. On and after April 1, 1990, sales of adjuvants, surfactants, and other products which are used to enhance the effectiveness of any insecticide, herbicide, or pesticide used in agricultural production are exempt from tax.

2. The sale of herbicides, pesticides, insecticides, food, medication, drainage tile, and exempt products listed in “1” above to any person not engaged in agricultural production for market is exempt if the property sold will be used for an exempt purpose, e.g., disease control, on behalf of another person engaged in agricultural production for market.

17.9(4) The sale of fuel used to provide heat or cooling for livestock buildings is exempt from tax. For the purposes of this subrule, electricity is considered to be a “fuel,” and the term “livestock” includes domesticated fowl. If a building is used partially for housing livestock and partially for a nonexempt purpose, for any portions of the building which are heated or cooled, a proportional exemption from sales tax may be claimed based upon a percentage calculated from a fraction, the numerator of which is the number of square feet of the building heated or cooled and used for housing livestock, and the denominator of which is the number of square feet heated or cooled in the entire building.

17.9(5) On and after July 1, 1995, sales of fuel for heating or cooling greenhouses, buildings, or parts of buildings used for the production of flowering, ornamental, or vegetable plants intended for sale in the ordinary course of business are exempt from tax. See subrule 17.9(4) above for the formula for calculating exempt use if a building is only partly used for plant raising.

17.9(6) On and after July 1, 1997, sales of tangible personal property for use as a fuel in the raising of agricultural products by aquaculture are exempt from tax.

17.9(7) Fuel, gas, electricity, water and heat consumed in implements of husbandry.

a. An implement of husbandry is defined to mean any tool, equipment, or machine necessary to the carrying on of the business of agricultural production and without which that work could not be done. *Reaves v. State*, 50 S.W.2d 286 (Tex. Crim. App. Ct. 1932). An airplane or helicopter designed for and used primarily in spraying or dusting of plants which are raised as part of agricultural production for market is an implement of husbandry.

b. Treatment of fuel used in implements of husbandry prior to July 1, 1985, and subsequent to June 30, 1987. Prior to July 1, 1985, and subsequent to June 30, 1987, the sale of fuel used in any implement of husbandry, whether self-propelled or not, is exempt from tax if consumed while the implement is engaged in agricultural production. Thus, fuel used not only in tractors or combines but also fuel used in implements which cannot move under their own power is exempt from tax. The sale of fuel used in milk coolers and milking machines, stationary irrigation equipment, implements used to handle feed, grain and hay and to provide water for livestock, is exempt from tax even though these implements of husbandry would not, at least ordinarily, be “self-propelled.”

c. Sale of fuel used in implements of husbandry on and after July 1, 1985, to and including June 30, 1987. On and after July 1, 1985, to and including June 30, 1987, only the sale of fuel used in “self-propelled” implements was exempt from tax. A “self-propelled” implement of husbandry is one which is capable of movement from one place to another under its own power. An implement of husbandry is not self-propelled simply because it has moving parts. Tractors, combines, and motor trucks used exclusively for delivery and application of fertilizer would be nonexclusive examples of self-propelled implements of husbandry. An irrigation system, which rotates a shaft that dispenses water and a wheel or wheels which support the shaft in a circle about a wellhead which remains stationary, is not a “self-propelled” implement of husbandry.

d. For the purposes of this subrule, electricity used to power an implement of husbandry engaged in agricultural production or consumed in grain drying is considered to be a “fuel.”

e. On and after July 1, 1987, the gross receipts from the sale of gas, electricity, water, or heat used in implements of husbandry engaged in agricultural production which is not otherwise exempt under the previous provisions of this subrule, is exempt from tax. See subrule 17.9(3) for the characterization of “Agricultural production” applicable to this subrule.

17.9(8) Water, when sold to farmers who are purchasing water for both livestock production as well as for household and sanitation use, shall be subject to the imposition of the tax the same as electricity or steam in rule 17.3(422,423).

Water sold to farmers and others and used directly as drinking water for livestock or poultry products for market, shall be exempt from the imposition of tax. Water used for other purposes such as household use, sanitation, or swimming pools shall be subject to tax. When water is used in livestock production,

as well as for other purposes, the water may, when practical, be separately metered and separately billed to clearly distinguish the water consumed for livestock purposes from other purposes. When it is impractical to separately meter water which is exempt from that which is taxable, the purchaser may furnish a statement to the seller which will enable the seller to determine the percentage of water subject to the exemption. In the absence of proof to the contrary, the retailer of the water shall bill and collect tax on the first 4,000 gallons of water per month. The first 4,000 gallons of water per month will be considered to be for nonexempt use and the balance will be considered to be used as part of agricultural production.

17.9(9) Refunds regarding farm deer and bison. Effective March 6, 2002, and retroactive to April 1, 1995, refunds of tax, penalty or interest may be claimed for sale of feed and feed supplements and additives when used for consumption by farm deer or bison. To be eligible for refund, the sale must have occurred between April 1, 1995, and March 6, 2002, and the refund claim must be filed prior to October 1, 2002. Refund claims are limited to \$50,000 in aggregate and will not be allowed if not timely filed. If the amount of claims totals more than \$50,000 in aggregate, the department will prorate the \$50,000 among all the claimants in relation to the amounts of the claimants' valid claims.

This rule is intended to implement Iowa Code sections 422.42, 422.43, and 423.1 and 2003 Iowa Acts, chapter 149, sections 1 and 4.

701—17.10(422,423) Materials used for seed inoculations. All forms of inoculation, whether for promotion of better growth and healthier plants or for prevention or cure of mildew of plants or disease of seeds and bulbs, are intended for the same general purpose. Sales tax shall not be imposed on any material used for inoculation.

This rule is intended to implement Iowa Code sections 422.42(3) and 423.1(1).

701—17.11(422,423) Educational institution. Goods, wares or merchandise purchased by any private nonprofit educational institution in the state and used for educational purposes shall be exempt from sales tax. The gross receipts from the sale of textbooks and hot lunches to students shall be exempt from sales tax to the extent the profits from the sales are used for educational purposes. The sales of the yearbooks to schools which have executed contracts with yearbook companies to purchase yearbooks are considered sales for resale and are exempt from tax. The sales of yearbooks from the school to the students and others are considered an educational activity and are exempt to the extent the profits therefrom are expended for educational purposes.

Effective January 1, 2002, "educational institution" means an institution which primarily functions as a school, college, or university with students, faculty, and an established curriculum. The faculty of an educational institution must be associated with the institution and the curriculum must include basic courses which are offered every year. "Educational institution" includes an institution primarily functioning as a library.

EXAMPLE 1: ABC Child Care (ABC) is a private nonprofit organization that provides the service of caring for children newborn to six years of age. In addition, ABC teaches the children basic learning skills such as shapes, numbers, colors, and the alphabet. ABC teaches the same skills every year using the same techniques. ABC is not a private educational institution. ABC's primary purpose is to provide child care. The education of the children is a secondary activity. Consequently, ABC would not qualify for exemption from sales tax.

EXAMPLE 2: Little People's Preschool is a nonprofit private organization that teaches children from the ages of three to six years old. Little People's Preschool teaches the children basic learning skills such as shapes, numbers, colors and the alphabet by using certified faculty and accredited curriculum. Little People's Preschool is a private nonprofit educational institution and is eligible to claim the exemption.

When purchases are made by any private nonprofit educational institution and the institution is acting as an agent for the sale to any student or other person, the sales are taxable if the proceeds from the sale are not used for educational purposes.

When private nonprofit educational institutions contract with food service companies to make sales of food or other sales at the educational institution, certain sales by the food service company are taxable or exempt depending on the circumstances.

Taxable Sales

A. All cash sales of meals or foods that could not be purchased in the same form or quantity in a retail store accepting food coupons (see rule 701—20.1(422,423) to 20.6(422,423)), shall be taxable whether sold at snack bars, grills, cafeterias, restaurants, or cafes and whether or not sold to students.

B. All vending machine sales without exception.

C. Special event billings to colleges for feeding of guests not connected with the college.

D. Special event billings to colleges for feeding at banquets, parties, or social events not connected with the college.

E. Cash sales of any function where collection is made direct, whether or not to students.

F. Sales to fraternities or sororities for parties, banquets or social events not billed to college.

G. Special event feedings of commercial or social clubs such as chambers of commerce, Rotarians, Kiwanis, alumni, advertising clubs, or political groups, even though billed through the college.

Exempt Sales

A. Student board billing to include freshman days and student orientation when billed to the college and included in tuition.

B. Students and faculty casual board when billed to college.

C. Teas, conferences, and parties when given by faculty for students and billed to the college.

D. Athletic or training table feeding when billed to the college.

E. Special events sponsored by colleges for visiting dignitaries, or functions related to education and billed to the college.

F. Picnics for students on education field trips and billed to the college.

The above examples are not all-inclusive, only a general guideline.

A private nonprofit educational institution consists of a school, college, or university with students, faculty, and an established curriculum, a group of qualifying organizations acting in concert, or libraries.

This rule is intended to implement Iowa Code sections 422.42, 422.43, 422.45(3) as amended by 2001 Iowa Acts, House File 736, section 2, 422.45(7), 422.45(8) as amended by 2001 Iowa Acts, House File 736, section 3, 423.1, and 423.4.

701—17.12(422) Coat or hat checkrooms. The operation of a checkroom is not a taxable service or an admission to any amusement or athletic event; therefore, the gross receipts from this operation shall not be included in the gross receipts on which sales tax is computed.

This rule is intended to implement Iowa Code section 422.43.

701—17.13(422,423) Railroad rolling stock. Railroad rolling stock is that portion of railroad property which is incapable of being affixed or annexed on any one place but is wholly intended for movement on rails to transport persons or property whether for hire or not for hire and includes materials and parts used therefor. Locomotives, railroad cars, and materials and parts used therefor shall be exempt from tax. This exemption includes maintenance-of-way equipment which is used to transport persons or property. Also, fuel and lubricants used in railroad rolling stock are materials used in railroad rolling stock and their sales are exempt from tax. Enumerated services are not railroad rolling stock and are not exempt from tax.

This rule is intended to implement Iowa Code section 422.45(10).

701—17.14(422,423) Chemicals, solvents, sorbents, or reagents used in processing. Chemicals, solvents, sorbents, and reagents directly used and consumed, dissipated, or depleted in processing tangible personal property intended to be sold ultimately at retail shall be exempt from sales and use tax. For the purpose of this rule for periods on or after January 1, 1980, free newspapers or shoppers' guides or both are considered to be retail sales for the purpose of the processing exemption.

17.14(1) Definitions.

a. “*Chemical*” is a substance which is primarily used for producing a chemical effect. A chemical effect results from a chemical process wherein the number and kind of atoms in a molecule are changed in form (e.g., where oxygen and hydrogen are combined to make water). A chemical process is distinct from a physical process wherein only the state of matter changes (e.g., where water is frozen into ice or heated into steam).

b. “*Solvent*” is a substance (usually liquid) primarily used in dissolving something; as water is the appropriate solvent of most salts, alcohol of resins, and ether of fats.

c. “*Sorbent*” is a substance which takes up and holds either by adsorption or absorption. To be a sorbent for purpose of the exemption, a substance must be primarily used as a sorbent.

d. “*Reagent*” is a substance used for various purposes, (as in detecting, examining, or measuring other substances, in preparing materials, in developing photographs) because it takes part in one or more chemical reactions or biological processes. A reagent is also a substance used to convert one substance into another by means of the reaction which it causes. To be a reagent for purpose of the exemption, a substance must be primarily used as a reagent.

For the purpose of this rule, a catalyst is considered to be a chemical, solvent, sorbent, or reagent. A catalyst is a substance which promotes or initiates a chemical reaction, and as such is exempt from tax if consumed, dissipated, or depleted during processing of tangible personal property which is intended to be ultimately sold at retail.

17.14(2) Conditions for exemption. To qualify for this exemption, all of the following conditions must be met:

a. The item must be a chemical, solvent, sorbent, or reagent.

b. The chemical, solvent, sorbent, or reagent must be directly used and consumed, dissipated, or depleted during processing as defined in rule 701—18.29(422,423).

c. The processing must be performed on tangible personal property intended to be sold ultimately at retail.

d. The chemical, solvent, sorbent, or reagent need not become an integral or component part of the processed tangible personal property.

This rule is intended to implement Iowa Code sections 422.42(3) and 423.1(1).

701—17.15(422,423) Demurrage charges. Charges for returning tangible personal property after the agreed-upon date which are true demurrage charges supported by a written agreement do not constitute taxable sales and are exempt from tax.

This rule is intended to implement Iowa Code section 422.43.

701—17.16(422,423) Sale of a draft horse. The gross receipts from the sale of draft horses, when purchased for use and so used as a draft horse, shall not be subject to tax. For the purposes of this rule, horses commonly known as Clydesdale, Belgian, Shire, and Percheron will be considered draft horses. However, upon proper showing, other breeds will be granted the exemption by the director, but the burden of proof lies with the one seeking the exemption. *Jones v. Iowa State Tax Commission*, 74 N.W.2d 563 (Iowa 1956). These breeds are used as a draft horse when they are used to pull a load. It is not required that the load be of a commercial nature. Such horses used to pull loads in shows or for the conveyance of persons or property are being so used as draft horses.

The effective date of this rule is for periods beginning on or after July 1, 1978.

This rule is intended to implement Iowa Code sections 422.45(17) and 423.4(4).

701—17.17(422,423) Beverage container deposits. Tax shall not apply to beverage container deposits. This rule is also applicable to all mandatory beverage container deposits required under the provisions of Iowa Code chapter 455C including deposits on items sold through vending machines.

This rule is intended to implement Iowa Code chapter 455C.

701—17.18(422,423) Films, video tapes and other media, exempt rental and sale.

17.18(1) Exempt rental. The gross receipts from the rental of films, video and audio tapes or discs, records, photos, copy, scripts, or other media used for the purpose of transmitting that which can be seen, heard or read shall not be taxable if the lessee either:

a. Imposes a charge for the viewing or rental of the media and that charge will be subject to Iowa sales or use tax, or

b. The lessee broadcasts the contents of the media for public viewing or listening.

The gross receipts from lessees who are film exhibitors or who rent video tapes and discs would ordinarily be exempt from tax under this rule. The rental of media for reproduction of images into newspapers or periodicals will not be exempt from tax under this rule since neither of criteria “a” or “b” above will occur. The rental of films, video tapes and video discs for home viewing is not exempt from tax.

17.18(2) Exempt sale. Retroactive to July 1, 1984, gross receipts from the sale to persons regularly engaged in the business of leasing or renting media of motion picture films, video and audio tapes or discs, and records, or any other media which can be seen, heard, or read are exempt from tax if the ultimate leasing or renting of the media is subject to Iowa sales or use tax.

This rule is intended to implement Iowa Code sections 422.45(24) and 422.45(41).

701—17.19(422,423) Gross receipts from the sale or rental of tangible personal property or from services performed, rendered, or furnished to certain nonprofit corporations exempt from tax.

17.19(1) On and after July 1, 1988, the gross receipts from the sale or rental of tangible personal property or from services performed, rendered, or furnished to the following nonprofit corporations are exempt from tax.

a. Community health centers as defined in 42 U.S.C.A. Section 254c.

b. Migrant health centers as defined in 42 U.S.C.A. Section 254b.

17.19(2) After July 1, 1985, the gross receipts from the sale or rental of tangible personal property or from services performed, rendered or furnished to the following nonprofit corporations are exempt from tax.

a. Residential care facilities and intermediate care facilities for the mentally retarded and residential care facilities for the mentally ill licensed by the department of health under Iowa Code chapter 135C.

b. Residential facilities for mentally retarded children licensed by the department of human services under Iowa Code chapter 237 including facilities maintained by “individuals” as defined in section 237.1(7) until and including June 30, 1989. On and after July 1, 1989, all residential facilities for child foster care (not only those for mentally retarded children) licensed by the department of human services under chapter 237, other than those maintained by “individuals” as defined in Iowa Code section 237.1(7) are eligible for the exemption.

c. Rehabilitation facilities that provide accredited rehabilitation services to persons with disabilities which are accredited by the commission on accreditation of rehabilitation facilities or the accreditation council for services for mentally retarded and other developmentally disabled persons and adult day care services approved for reimbursement by the department of human services.

d. Community mental health centers accredited by the department of human services under Iowa Code chapter 225C.

17.19(3) The exemption does not apply to tax paid on the purchase of building materials by a contractor which are used in the construction, remodeling or reconditioning of a facility used or to be used for one or more of the uses set forth in subrule 17.19(2). See 1985 O.A.G. 66.

17.19(4) Taxes payable on transactions occurring between July 1, 1980, and July 1, 1985, involving the retail sale or rental of tangible personal property or from services performed, rendered, or furnished to a nonprofit corporation described in subrule 17.19(2) and which have not been paid by the nonprofit corporation are no longer due and payable after July 1, 1985, and these taxes are not to be collected notwithstanding any other provisions of the Code.

This rule is intended to implement Iowa Code section 422.45.

701—17.20(422) Raffles. Gross receipts from the sale of fair raffle tickets pursuant to Iowa Code section 99B.5 are not subject to tax.

This rule is intended to implement Iowa Code section 422.45(32).

701—17.21(422) Exempt sales of prizes. For sales occurring on and after July 1, 1987, the gross receipts from sales of tangible personal property which will be given as prizes to players in games of skill, games of chance, raffles, and bingo games as defined in and lawful under Iowa Code chapter 99B are exempt from tax. See Chapters 481—100 through 104 of Inspections and Appeals, Iowa Administrative Code, for a description of the games of skill, games of chance, raffles, and bingo games which are lawful. See rule 481—100.6(99B) for a description of the prizes which it is lawful to award. A gift certificate is not tangible personal property. If a person wins a gift certificate as a prize at the time the person redeems the gift certificate for merchandise, on and after July 1, 1987, tax remains payable at the time the gift certificate is redeemed. See rule 701—15.16(422).

This rule is intended to implement Iowa Code section 422.45(32).

701—17.22(422,423) Modular homes. On and after July 1, 1988, 40 percent of the gross receipts from the sale of a modular home is exempt from tax. A “modular home” is any structure, built in a factory, made to be used as a place for human habitation which cannot be attached or towed behind a motor vehicle and which does not have permanently attached to its body or frame any wheels or axles.

This rule is intended to implement Iowa Code section 422.45.

701—17.23(422,423) Sales to other states and their political subdivisions. On and after July 1, 1990, gross receipts from the sale of tangible personal property or from the furnishing of electrical energy, natural or artificial gas, or communication service to another state or political subdivision of another state are exempt from tax if that other state provides a similar reciprocal exemption for Iowa and its political subdivisions. The states known to provide a similar reciprocal exemption to Iowa and its subdivisions (as of October 1, 1998) are Illinois, Kentucky, North Dakota, South Dakota, and the District of Columbia.

This rule is intended to implement Iowa Code section 422.45.

701—17.24(422) Nonprofit private museums. For sales occurring on or after July 1, 1990, the gross receipts of all sales of goods, wares, merchandise, or services used for educational, scientific, historic preservation, or aesthetic purpose to a nonprofit private museum are exempt from tax. A “museum” is an institution organized for educational, scientific, historical preservation, or aesthetic purposes which is predominately devoted to the care and exhibition of a collection of objects in a room, building, or locale. This collection must be open to the public on a regular basis, and its staff must be available to answer questions regarding the collection. See the example at the end of the rule for a characterization of the phrase “open to the public on a regular basis.”

Words contained in exemption statutes are strictly construed; all doubt regarding their meaning is resolved in favor of taxation and against exemption. *Ballstadt v. Iowa Department of Revenue*, 368 N.W.2d 147 (Iowa 1985) and *Iowa Movers and Warehousemen’s Association v. Briggs*, 237 N.W.2d 759 (Iowa 1976). Furthermore, an institution is not a “museum” unless it can be included in the “ordinary and usual public concept” of a museum, regardless of the abstract definition of the term within which the institution might fit. See *Sorg v. Department of Revenue*, 269 N.W.2d 129 (Iowa 1978). Using the above principles, the department excludes from its definition of “museum” the following: aquariums, arboretums, botanical gardens, nature centers, planetariums, and zoos. Included within the meaning of “museum” are: art galleries, historical museums, museums of natural history, and museums devoted to one particular subject or one person.

EXAMPLE: The Blank County History Museum is open every Tuesday afternoon from 1 p.m. to 4:30 p.m., other than on national holidays. The museum is open periodically or at fixed intervals, so it is open “on a regular basis,” even though, each week, it is open only briefly.

This rule is intended to implement Iowa Code section 422.45(43).

701—17.25(422,423) Exempt sales by excursion boat licensees. The following sales by licensees authorized to operate excursion gambling boats are exempt from Iowa sales and use tax: (1) charges for admission to excursion gambling boats, and (2) gross receipts from gambling games authorized by the state racing and gaming commission and conducted on excursion gambling boats.

Gross receipts from charges other than those for admissions or authorized gambling games would ordinarily be taxable. The following is a nonexclusive list of taxable licensee sales: parking fees, sales of souvenirs, vending machine sales, prepared meals, liquor and other beverage sales, and gross receipts from nongambling video games and other types of games which do not involve gambling.

This rule is intended to implement Iowa Code section 99F.10(6).

701—17.26(422,423) Bedding for agricultural livestock or fowl. See subrules 17.9(1) and 17.9(2) and paragraph 17.9(3)“a” for definitions applicable to this rule. Between July 1, 1985, and June 30, 1992, inclusive, only the sale of woodchips or sawdust used in the production of agricultural livestock or fowl was exempt from tax. The sale of other materials used as bedding in the production of agricultural livestock or fowl was not exempt from tax. On and after July 1, 1992, the gross receipts from the sale of not only woodchips or sawdust but also of hay, straw, paper or any other materials used for bedding in the production of agricultural livestock or fowl is exempt from tax.

This rule is intended to implement Iowa Code section 422.45(30).

701—17.27(422,423) Statewide notification center service exemption. On and after January 1, 1995, taxable services rendered, furnished or performed by a statewide notification center established under Iowa Code section 480.3 which provides notice to operators of underground facilities who excavate in the area of these facilities are exempt from tax. This exemption is also applicable to taxable services rendered, furnished, or performed by any vendor selected by the board of directors of the statewide notification center to provide notification services.

This rule is intended to implement Iowa Code section 422.45 as amended by 1995 Iowa Acts, House File 550.

701—17.28(422,423) State fair and fair societies. For periods beginning on or after July 1, 1996, the gross receipts from sales or services rendered, furnished, or performed by the state fair organized under Iowa Code chapter 173 or a county, district or fair society organized under Iowa Code chapter 174 are exempt from sales tax. This exemption does not apply to individuals, entities, or others that sell or provide services at the state, county, district fair, or fair societies organized under Iowa Code chapters 173 and 174. See 701—subrule 16.26(2) for examples of this rule’s application.

This rule is intended to implement Iowa Code section 422.45 as amended by 1996 Iowa Acts, chapter 1124.

701—17.29(422,423) Reciprocal shipment of wines. A winery licensed or permitted pursuant to laws regulating alcoholic beverages in a state which affords this state an equal reciprocal shipping privilege may ship into this state by private common carrier, to a person 21 years or age or older, not more than 18 liters of wine per month, for consumption or use by such person. Such wine shall not be resold. Shipment of wine pursuant to this rule is not subject to sales tax under Iowa Code section 422.43 or use tax under Iowa Code section 423.2.

“Equal reciprocal shipping privilege” means allowing wineries located in this state to ship wine into another state, not for resale, but for consumption or use by a person 21 years of age or older.

This rule is intended to implement Iowa Code section 123.187 as enacted by 1996 Iowa Acts, chapter 1101.

701—17.30(422,423) Nonprofit organ procurement organizations. On and after July 1, 1998, the gross receipts from sales of tangible personal property to, or from services rendered, furnished, or performed for, a statewide, nonprofit organ procurement organization are exempt from tax.

An “organ procurement organization” is an organization which performs or coordinates the activities of retrieving, preserving, or transplanting organs, which maintains a system of locating prospective

recipients for available organs, and which is registered with the United Network for Organ Sharing and designated by the United States Secretary of Health and Human Services pursuant to 42 CFR § 485, subpt. D.

This rule is intended to implement Iowa Code section 422.45 as amended by 1998 Iowa Acts, chapter 1156.

701—17.31(422,423) Sale of electricity to water companies. On or after July 1, 1998, the gross receipts from the sale of electricity to water companies assessed for property tax pursuant to Iowa Code sections 428.24, 428.26, and 428.28, which is used solely for the purpose of pumping water from a river or well is exempt from sales tax. For the purposes of this rule, “river” means a natural body of water or waterway that is commonly known as a river. “Well,” for the purposes of this rule, means an issue of water from the earth; a mineral spring; a pit or hole sunk into the earth to reach a water supply; a shaft or hole sunk to obtain oil, water, gas, etc.; a shaft or excavation in the earth, in mining, from which run branches...*Pacific Gas and Electric Company v. Hufford*, 319 P.2d 1033, 1040 (Calif. 1957), citing Webster’s New International Dictionary, 2nd ed., unabridged. Also see rule 701—17.3(422,423) for additional information regarding the processing exemption.

This rule is intended to implement Iowa Code section 422.45 as amended by 1998 Iowa Acts, chapter 1161.

701—17.32(422) Food and beverages sold by certain organizations are exempt. Retroactively to July 1, 1988, the gross receipts from sales of food and beverages for human consumption by certain organizations that promote Iowa products and any other food or beverage sold in conjunction with the promoted Iowa product by the organization.

17.32(1) To claim the exemption, an organization must meet all of the following qualifications:

- a. The organization must be nonprofit,
- b. The organization must principally promote a food or beverage product for human consumption that is produced, grown, or raised in Iowa, and
- c. The organization must be exempt from federal income tax under Section 501(c) of the Internal Revenue Code.

17.32(2) Claim for refunds of tax, interest, or penalty paid for the period of July 1, 1988, to June 30, 1998, must be limited to \$25,000 in the aggregate and will not be allowed unless filed prior to October 1, 1998. If the amount of the claimed refunds for this period totals more than \$25,000, the department must prorate the \$25,000 among all claims. In addition, refunds of tax, interest, or penalty paid will only be refunded to the organization that actually paid the tax and did not collect the tax from the customer for the period in which the refund is requested or to an individual that paid the tax during the authorized period and had a receipt of the transaction.

EXAMPLE 1. A nonprofit association that is also exempt from federal income tax under Section 501(c) of the Internal Revenue Code promotes the sale of turkey. In October of 1997, in Winterset, Iowa, the organization sold turkey sandwiches, chips, and beverages to patrons of a festival encouraging the touring and preservation of its historic covered bridges. The association did not separately charge sales tax to the customers for the food purchased. Instead, the association remitted the sales tax on the gross receipts from the event from its own funds. The gross receipts from the sales of the turkey sandwiches would be exempt from sales tax. The association would be entitled to submit a request for refund of the tax paid on the gross receipts from the selling event by October 1, 1998.

EXAMPLE 2. A local nonprofit organization that is exempt from federal income tax under Section 501(c) of the Internal Revenue Code promotes the sale of Iowa corn. On May 8, 1998, during a festival promoting Pella, Iowa’s beautiful tulips and heritage, the association sold Iowa sweet corn on an “all you can eat” basis for one price to patrons of the festival. The organization charged its customers tax in addition to the price charged. The organization would not qualify to claim a refund for the sales tax paid on the gross receipts from the festival due to the organization’s not paying the sales tax from its own funds for the May 8, 1998, event. Instead, the organization collected the tax from its customers and remitted the tax to the department. However, a customer of the organization would be entitled to a refund

if the customer can produce a receipt of the transaction indicating the tax was paid by the customer for the period at issue.

This rule is intended to implement Iowa Code section 422.45 as amended by 1998 Iowa Acts, chapter 1091.

701—17.33(422,423) Sales of building materials, supplies and equipment to not-for-profit rural water districts. Retroactive to July 1, 1998, sales of building materials, supplies, and equipment to not-for-profit rural water districts (those organized under Iowa Code chapter 504A and as provided by Iowa Code chapter 357A), which are used by the districts for the construction of their facilities, are exempt from tax. See rule 701—19.3(422,423) for definitions of the terms “building materials,” “building supplies,” and “building equipment” which are applicable to this rule. Additionally, for the purposes of this rule, cranes, underground boring machines, water main pulling equipment, and similar machinery used by a rural water district for the construction of its facilities are “building equipment.” This rule does not exempt rentals of building equipment from tax, but a rural water district’s rentals of building equipment may be exempt from tax if the rental is on or in connection with new construction, alteration, reconstruction, remodeling, or expansion of real property or a structure. See rule 701—19.13(422,423).

This rule is intended to implement Iowa Code section 422.45 as amended by 1999 Iowa Acts, chapter 59.

701—17.34(422,423) Sales to hospices. As of July 1, 1999, gross receipts from the sale or rental of tangible personal property to or the performance of services for any freestanding nonprofit hospice facility which operates a hospice program are exempt from tax if the property or service is purchased for use in the hospice’s program. A “hospice program” is any program operated by a public agency, a private organization, or a subdivision of either, which is primarily engaged in providing care to terminally ill individuals. A “freestanding hospice facility” is any hospice program housed in a building which is dedicated only to the hospice program and which is not attached to any other building or complex of buildings. An individual is “terminally ill” if that individual has a medical prognosis that the individual’s life expectancy is six months or less if the illness runs its normal course.

This rule is intended to implement Iowa Code section 422.45 as amended by 1999 Iowa Acts, chapter 62.

701—17.35(422,423) Sales of livestock ear tags. On and after July 1, 2000, sales of livestock ear tags by a nonprofit organization, the income of which is exempt from federal taxation under Section 501(c)(6) of the Internal Revenue Code, are exempt from tax if the proceeds of those sales are used in bovine research programs selected or approved by the nonprofit organization. For the purposes of this rule, the definition of “livestock” is found in subrule 17.9(1).

This rule is intended to implement Iowa Code Supplement section 422.45 as amended by 2000 Iowa Acts, chapter 1169.

701—17.36(422,423) Sale or rental of information services. Effective May 15, 2000, and retroactive to March 15, 1995, the gross receipts from the service of the sale or rental of information services are exempt from tax. This exemption does not repeal by implication the tax on the performance of the services of investment counseling, of all financial institutions, private employment agencies, test laboratories, detective services, or any other services enumerated by statute. They remain taxable; see 701—Chapter 26, generally.

“Information services” means every business activity, process, or function by which a seller or its agent accumulates, prepares, organizes, or conveys data, facts, knowledge, procedures, and like services to a particular buyer (or its agent) of the information through any tangible or intangible medium. Information accumulated, prepared, or organized for a particular buyer, its agent, a group of buyers, or their agent, is an information service even though it may incorporate preexisting components of data or other information.

Information services include, but are not limited to, database files, mailing lists, subscription files, market research, credit reports, surveys, real estate listings, bond rating reports, abstracts of title, bad check lists, broadcasting rating services, wire services, scouting reports, white and yellow page listings, and other similar items of compiled information prepared for a particular customer. The furnishing of artwork (including musical compositions and films), drawings, illustrations, or other graphic material is not the performance of an “information service”; nor does the term include information prepared for general dissemination to the public in the form of books, magazines, newsletters, video or audio tapes, compact disks, or any other medium commonly used to communicate with large numbers of customers. The sale of a book, magazine, or similar item is not the sale of an information service, even if the item contains material of practical use (e.g., in conducting a private, for-profit business) to its purchaser.

The following specific examples illustrate the general principles set out above.

EXAMPLE A. John Doe buys a packaged set of preprinted documents and instructions which anyone may purchase and which is entitled “Legal Eagle.” Mr. Doe prepares his own will by reading the instructions, making choices and filling in the blanks on the preprinted documents. Mr. Doe has purchased tangible personal property and not an information service. His purchase is taxable.

EXAMPLE B. A taxpayer buys a book entitled “Doing Your Own Iowa Individual Income Tax,” which is written by an accountant and is available to any buyer. The taxpayer uses the book to prepare her own IA 1040. Since her purchase contains information prepared for general dissemination to the public in the form of a book, that purchase is a taxable sale of tangible personal property and not an exempt sale of an information service.

EXAMPLE C. The seller provides, for a fee, a weekly bulletin listing information on real estate of use to brokers selling homes in a certain Iowa county. The seller secures the information from a multiple listing service without applying any independent thought during the compiling of that information. The bulletin is useful only to those brokers and not to the general public. Since the bulletin is a “real estate listing” and has been prepared for a particular group of customers and not for the general public, its sale is the sale of an information service rather than the sale of tangible personal property and is thus exempt from tax.

EXAMPLE D. A-1 Corporation sells gourmet meats through the mail. A-1 rents its list of customers to whom it mails its catalog to other retailers who specialize in sales of goods or services to the wealthy. Since the list is a “mailing list” and made available only to a particular group of buyers, its rental is the performance of an exempt information service and not the taxable rental of tangible personal property.

EXAMPLE E. Company E is a tariff bureau which specializes in compiling and preparing tariff schedules. E acquires these schedules from various companies throughout the country. E then provides these schedules to common carriers who subscribe to its service. Its printed tariff schedules are published in bound and loose-leaf form; they may be updated daily. E’s providing the schedules is the performance of an exempt information service because the schedules are compiled for a particular group of customers and they are items of compiled information similar to the files, lists, reports, and other information services named above.

EXAMPLE F. Company F compiles and prints telephone directories. F purchases white and yellow page listings from various telephone companies and uses those listings to make up its directories. F’s purchases of the white and yellow page listings are purchases of an exempt information service. Any sales on F’s part of the directories to the general public would be sales of tangible personal property subject to tax.

EXAMPLE G. Company G purchases the assets of four businesses. The primary asset of each of the businesses is a database containing names, addresses, and other customer information of use to G but not to anyone other than a company similar to G. G transfers the lists to its own computers by way of paper or magnetic tape. G has purchased an exempt information service with its purchases of the four databases.

This rule is intended to implement Iowa Code Supplement section 422.45 as amended by 2000 Iowa Acts, chapter 1195, section 3.

701—17.37(422,423) Temporary exemption from sales tax on certain utilities. Effective February 5, 2001, the sales of specific energy sources are exempt from Iowa sales tax. Specified sales of energy are exempt from local option taxes as well; see rule 701—107.9(422B).

This exemption is not applicable to electricity, regardless of whether the electricity is used for heat. Electricity charges on utility bills will continue to be subject to Iowa sales and local option taxes. This exemption does not impact franchise fees. Franchise fees will continue to be imposed where applicable.

17.37(1) Definitions. The following definitions are applicable to this rule:

“Fuel” means a liquid source of energy for a residential dwelling, individual apartment unit, or condominium. “Fuel” includes propane, heating fuel, and kerosene. However, “fuel” does not include blended kerosene used as motor fuel or special fuel.

“Heat” means to increase or maintain the temperature of a residential dwelling, apartment unit, or condominium. Due to metered gases and fuels being used for other purposes in the dwelling, such as clothes dryers, gas stoves, and hot water heaters, this temporary exemption for metered gas used for heating purposes will also be extended to metered gases and fuels used for appliances in the residential dwelling, individually metered apartment unit, or individually metered condominium.

“Metered gas” means natural gas that is billed based on metered usage to provide energy to a residential dwelling, individually metered apartment unit, or individually metered condominium.

“Residential dwelling” means a structure used exclusively for human occupancy. This does not include commercial or agricultural structures, nor does it include nonresidential buildings attached to or detached from a residential dwelling, such as a detached garage or outbuilding. However, a garage attached to the residential dwelling that is used strictly for residential purposes will fall within the exemption. Also excluded from this exemption are classified commercial facilities. Classified commercial facilities include, but are not limited to, nursing homes, adult living facilities, assisted living facilities, halfway houses, charitable residential facilities, YMCA residential facilities, YWCA residential facilities, apartment units not individually metered, and group homes.

17.37(2) Metered gas exemption. Effective February 5, 2001, the gross receipts from the sale, furnishing or service of metered gas for residential customers which is used to provide energy to residential dwellings, individually metered apartment units, and individually metered condominiums, and that has a billing date of March 2001 or April 2001, are exempt from sales tax.

a. Billing date determinative. The determining factor for exemption for metered gas is the billing date for the metered gas. The exemption applies only to bills for metered gas which are dated in March 2001 or April 2001.

If a billing for the same usage period needs to be billed more than once due to loss of the original bill or some other error, the billing date of the original bill controls qualification for exemption of metered gas. For example, a utility company issues a billing for metered gas on January 8, 2001, and customer A loses the billing. Customer A calls the utility company in late February and requests that a new billing be issued. The utility company issues a replacement billing to customer A and the replacement bill has a date of March 3, 2001. The date of the original billing issued to customer A is determinative for the purpose of qualifying for the exemption. The fact that a previously taxable billing was reissued during an exemption period does not qualify the reissued billing for the exemption.

b. Qualifying usage. All metered gas billed to a residential customer during March 2001 and April 2001, which will be used as energy for a residential dwelling, individually metered apartment unit, or individually metered condominium as defined in this rule, qualifies for exemption. This exemption includes metered gas used to operate heating units, appliances, and hot water heaters.

c. Qualifying structures. Structures that include both residential and commercial usage on the same meter are subject to a proration formula to obtain the qualifying portion eligible for exemption. To qualify for proration, the structure must be used for both commercial and residential purposes. The purchaser must furnish an exemption certificate to the supplier with respect to that percentage of metered gas that is eligible for exemption. See 701—subrule 15.3(2). The exemption certificate must be in writing and detail how the percentages of exempt residential usage and taxable nonresidential usage were developed. For example, a gift shop, Miss Barb’s Bangles and Baubles, is located on the town square of Indianola, Iowa. Above the gift shop is an apartment. The gas usage of the apartment and

the gift shop are monitored by one gas meter. The metered gas usage for the apartment is exempt, but usage for the gift shop is not. As a result, a proration formula must be established to separately reflect the metered gas usage of the apartment and the gift shop. In addition, the occupant of the apartment must provide an exemption certificate to the metered gas utility company to request the exemption. Approved exemption certificates are available upon request from the department.

It is important to note that the exemption for metered gas is limited to metered gas provided to residential customers. Consequently, a building containing apartment units is not considered to be residential. Instead, if it is classified as commercial property for property tax or any other purpose it is not eligible for exemption unless each apartment has a separate meter to monitor usage.

d. Credit. A utility company that sells, furnishes or services metered gas to residential customers may bill customers sales tax even if the customer qualifies for the exemption from sales tax under this subrule in March and April 2001 if the utility company cannot adjust its billing process in time to accommodate this exemption. Subsequently, the utility company must provide a credit for tax collected from a qualifying utility customer during the exemption period and the credit is to appear on the first possible billing date after March 31, 2001.

17.37(3) Fuel exemption. Effective February 5, 2001, through March 31, 2001, the gross receipts from the sale, furnishing, or service of fuel used to heat a residential dwelling, apartment unit, or condominium is exempt from sales tax.

a. Qualifying fuel. Any fuel which is used to provide heat for a residential dwelling, apartment unit, or condominium, as defined for the purposes of this rule, is exempt from tax. The fuel must be used to heat the residential dwelling, apartment unit, or condominium.

b. Delivery date determinative. The determining factor for exemption from sales tax is the delivery date of the fuel. Payment date, billing date, or date of execution of the contract for fuel is not a factor. Prices established by contracts executed to establish a fixed price for fuel are not impacted by this exemption. The exemption for fuel applies to the furnishing of the fuel and the delivery service. Only fuel delivered in the time frame beginning February 5, 2001, through March 31, 2001, is exempt.

Consequently, contracts executed to establish a fixed price for fuel, which may also include total or partial prepayment for the fuel under the contract, are exempt only for the amount of fuel delivered beginning February 5, 2001, through March 31, 2001. For example, in September 2000, customer A executed a contract with a propane retailer for fuel which will be delivered in January, February, March and April of 2001. Customer A pays \$1,000 of the contract price to the retailer. Customer A cannot claim exemption for the entire \$1,000 previously paid. Instead, customer A may only receive exemption on the \$525 in gross receipts in fuel delivered under the contract from February 5, 2001, through March 31, 2001.

This rule is intended to implement Iowa Code section 422.45 as amended by 2001 Iowa Acts, House File 1.

701—17.38(422,423) State sales tax phase-out on energies. Beginning January 1, 2002, the state sales tax is phased out at the rate of 1 percent per year on the gross receipts from the sale, furnishing, or service of metered natural gas, electricity and fuels, including propane and heating oils, to residential customers for use as energy for residential dwellings, apartment units, and condominiums for human occupancy.

Local option taxes are not included in the phase-out of the state sales tax.

This phase-out of tax does not impact franchise fees. Franchise fees will continue to be imposed where applicable.

17.38(1) Definitions. The following definitions are applicable to this rule:

“Energy” means a substance that generates power to operate fixtures or appliances within a residential dwelling or that creates heat or cooling within a residential dwelling.

“Fuel” means a liquid source of energy for a residential dwelling, individual apartment unit, or condominium. “Fuel” includes propane, heating fuel, and kerosene. However, “fuel” does not include blended kerosene used as motor fuel or special fuel.

“Metered gas” means natural gas that is billed based on metered usage to provide energy to a residential dwelling, individual apartment unit, or individual condominium.

“*Residential dwelling*” means a structure used exclusively for human occupancy. This does not include commercial or agricultural structures, nor does it include nonresidential buildings attached to or detached from a residential dwelling, such as an outbuilding. However, a garage attached to or detached from a residential dwelling and that is used strictly for residential purposes will fall within the phase-out provisions. A building containing apartment units is not considered to be qualifying property for purposes of this rule. However, if each apartment has a separate meter, it may qualify for the phase-out if classified as qualifying property by the utility. Also excluded from the phase-out provisions are certain nonqualifying properties that include, but are not limited to, nursing homes, adult living facilities, assisted living facilities, halfway houses, charitable residential facilities, YMCA residential facilities, YWCA residential facilities, apartment units not individually metered, and group homes.

17.38(2) *Schedule for phase-out of tax.* State sales tax will be phased out at the rate of 1 percent per year based on the following schedule:

a. If the date of the utility billing or meter reading cycle of the residential customer for the sale, furnishing, or service of metered gas and electricity is on or after January 1, 2002, through December 31, 2002, or if the sale, furnishing, or service of fuel for purposes of residential energy and the delivery of the fuel occur on or after January 1, 2002, through December 31, 2002, the rate of state tax is 4 percent of the gross receipts.

b. If the date of the utility billing or meter reading cycle of the residential customer for the sale, furnishing, or service of metered gas and electricity is on or after January 1, 2003, through December 31, 2003, or if the sale, furnishing, or service of fuel for purposes of residential energy and the delivery of the fuel occur on or after January 1, 2003, through December 31, 2003, the rate of state tax is 3 percent of the gross receipts.

c. If the date of the utility billing or meter reading cycle of the residential customer for the sale, furnishing, or service of metered gas and electricity is on or after January 1, 2004, through December 31, 2004, or if the sale, furnishing, or service of fuel for purposes of residential energy and the delivery of the fuel occur on or after January 1, 2004, through December 31, 2004, the rate of state tax is 2 percent of the gross receipts.

d. If the date of the utility billing or meter reading cycle of the residential customer for the sale, furnishing, or service of metered gas and electricity is on or after January 1, 2005, through December 31, 2005, or if the sale, furnishing, or service of fuel for purposes of residential energy and the delivery of the fuel occur on or after January 1, 2005, through December 31, 2005, the rate of state tax is 1 percent of the gross receipts.

e. If the date of the utility billing or meter reading cycle of the residential customer for the sale, furnishing, or service of metered gas and electricity is on or after January 1, 2006, or if the sale, furnishing, or service of fuel for purposes of residential energy and the delivery of the fuel occur on or after January 1, 2006, the rate of state tax is 0 percent of the gross receipts.

17.38(3) *Determination of tax rate.* Determination of the rate of state tax to be imposed on a transaction depends on the type of energy that is being purchased.

a. Electricity or metered natural gas. If the energy being purchased is either electricity or natural gas, then the rate of tax is governed by either the billing date or meter reading date. For example, ABC natural gas company sends out bills with a billing date of December 31, 2002, to qualifying residential customers. However, the bills to these qualifying customers are not placed in the United States mail until January 2, 2003. Based on the foregoing facts, the state sales tax to be imposed on the bills is 4 percent. Four percent is the tax rate imposed at the time of the billing date on the gas bills sent to the customers.

If a billing for the same usage period needs to be billed more than once due to loss of the original bill or some other error, the billing date of the original bill controls qualification for the phase-out provisions of metered gas or electricity. For example, a utility company issues a billing for metered gas on December 28, 2001, to a customer and the customer loses the billing. The customer calls the utility company on January 10, 2002, to report the lost billing and to request a new billing. The utility company issues a new billing with a billing date of January 12, 2002, to the customer. The original billing date issued to the customer is determinative for the tax rate to be imposed. As a result, a 5 percent state tax rate should be imposed on the billing because the original billing date was prior to January 1, 2002.

b. Fuel and heating oil. The proper rate of tax to be imposed for the sale, furnishing or service of fuel including propane is governed by the date of delivery of the fuel to the customer. Consequently, if a farmer purchases propane for home heating by executing and paying for the propane in October 2002 but the propane is not delivered to the farmer until January 2003, the rate of state sales tax that should be imposed on the transaction is 3 percent.

17.38(4) Qualifying and nonqualifying usage. Customers that have both qualifying and nonqualifying usage on the same meter or fuel tank are subject to a proration formula to obtain the qualifying portion eligible for the phase-out provisions. In these situations the percentage of qualifying usage must be determined by the purchaser for the purposes of applying the phase-out tax. Nonqualifying usage would be subject to the full state tax rate. Consequently, a proration of the metered gas, electricity or fuel usage for the qualifying and the nonqualifying usage must be calculated by the purchaser. See 701—subrules 15.3(4) and 15.3(5) for guidance on proration of electricity, natural gas and fuels. In addition, the purchaser must furnish an exemption certificate to the supplier with respect to that percentage of metered gas or electricity that is eligible for the phase-out provisions. See 701—subrule 15.3(2). The customer may provide a calculation which includes only the usage not subject to phase-out.

The customer must notify the utility provider of the percentage of qualifying and nonqualifying usage and the customer has the burden of proof regarding the percentage. The customer is liable for any mistakes or misrepresentations made regarding the computation or for failure to notify the utility provider in writing of the percentage of qualifying or nonqualifying usage.

Security lights used by customers that are billed as a flat rate tariff will be subject to the phase-out if the customer is classified as a residential customer. However, if a customer uses security lights which are billed as a flat rate tariff and that customer is classified as a commercial customer, the gross receipts including the usage of the security lights are not subject to the phase-out of state sales tax and are subject to the full state sales tax rate, unless another exemption from state sales tax is applicable.

17.38(5) Reporting over the phase-out period. Sales/use tax returns will be filed on the same basis as they are currently filed. During each phase-out period, the entire gross receipts from sales should be reported on the return. The appropriate state sales tax rate for the tax period will be applied by claiming the phased-out portion of the tax rate as a deduction on the return.

Gross receipts for local option taxes are also to be reported in their entirety and computed by applying the appropriate local option tax rate.

The following are examples regarding how state sales and local option taxes should be reported:

EXAMPLE 1. Reporting of tax by an energy provider:

Gross receipts for a tax period in 2002	\$100,000
Phase-out (20,000 for the first year, 40,000 for the second year, etc.)	<u>20,000</u>
Taxable sales	80,000
State tax at 5% (to compute state sales tax due)	4,000
Gross receipts to be reported for local option	100,000
Local option tax rate (assuming a 1% local option tax rate)	<u>× 1%</u>
Local option tax due	1,000
Total tax due (local option and state sales tax)	\$5,000

EXAMPLE 2. Reporting of tax on an individual billing:

Monthly charge during a billing or delivery period in 2002	\$400
State tax rate	× 4%
State tax due	16
Gross receipts for local option tax	400
Local option tax rate	× 1%
Local option tax due	4
Total tax (local option and state sales tax)	\$20

This rule is intended to implement Iowa Code section 422.45 as amended by 2001 Iowa Acts, House Files 1 and 705.

701—17.39(422,423) Art centers. Effective July 1, 2001, the gross receipts from sales of goods, wares, or merchandise or from services performed, rendered, or furnished to a private nonprofit art center located in Iowa which are used in the operation of the art center are exempt from sales and use tax.

To be eligible for this exemption all of the following criteria must apply:

17.39(1) The organization seeking to claim this exemption must be a private nonprofit art center. For the purpose of this rule, an “art center” is defined as a structure that displays aesthetic objects which are the product of the conscious use of skill and creative imagination. The structure housing the art must be open to the public with regular hours and with staff available to answer visitors’ questions. “Open to the public on a regular basis” means the facility is open for visitors periodically or at fixed intervals.

17.39(2) The art center must be located in Iowa.

17.39(3) Purchases of tangible personal property or services must be for the operation of the art center.

This rule is intended to implement 2001 Iowa Acts, House File 736, section 4.

701—17.40(422,423) Community action agencies. Effective July 1, 2002, the gross receipts from sales of tangible personal property and enumerated services performed for, furnished or rendered to a community action agency and used for the purposes of a community action agency, as defined in Iowa Code section 216A.93, are exempt from tax.

This rule is intended to implement Iowa Code section 422.45 as amended by 2002 Iowa Acts, House File 2622, section 9.

701—17.41(422,423) Legislative service bureau. Effective April 22, 2002, sales by the legislative service bureau and its legislative information office of mementos and other items relating to Iowa history, historical sites, the general assembly, and the state capitol are exempt from tax. The exemption applies to a sale only if it occurs on the premises of property controlled by the legislative council, at the state capitol, or on other state property.

This rule is intended to implement Iowa Code section 422.45 and 2002 Iowa Acts, House File 2585, section 1.

[◇] Two or more ARCs

¹ Effective date of 17.3 “c” delayed by the Administrative Rules Review Committee at its July 11, 1978, meeting under the provisions of the Sixty-seventh General Assembly, S.F. 244, section 19. See amendment published 3/7/79.

CHAPTER 18
TAXABLE AND EXEMPT SALES DETERMINED BY METHOD
OF TRANSACTION OR USAGE
[Prior to 12/17/86, Revenue Department[730]]

701—18.1(422,423) Tangible personal property purchased from the United States government. Tangible personal property purchased from the United States government or any of the governmental agencies shall be exempt from sales tax, but such purchases shall be taxable to the purchaser under the provisions of the use tax law. Persons making purchases from the United States government, unless exempt from the provisions of Iowa Code section 422.44, shall report and pay use tax at the current rate on the purchase price of such purchases.

This rule is intended to implement Iowa Code sections 422.44 and 423.3.

701—18.2(422,423) Sales of butane, propane and other like gases in cylinder drums, etc. Sales of butane, propane and other like gases in cylinder drums and other similar containers purchased for cooking, heating and other purposes shall be taxable.

When gas of this type is sold and motor vehicle fuel tax is collected by the seller, tax shall not be due. If Iowa motor vehicle fuel tax is not collected by the seller at the time of the sale, tax shall be collected and remitted to the department, unless the sale is specifically exempt.

If tax is not collected by the seller at the time of sale, any tax due shall be collected by the department at the time the user of the product makes application for a refund of the motor vehicle fuel tax.

The gross receipts from the rental of cylinders, drums and other similar containers by the distributor or dealer of the gas shall be subject to tax when the title remains with the dealer. Gas converter equipment which might be sold to an ultimate consumer shall be subject to tax.

This rule is intended to implement Iowa Code sections 422.42, 422.43, 422.45(11), 423.1 and 423.2.

701—18.3(422,423) Chemical compounds used to treat water. Chemical compounds placed in water which is ultimately sold at retail should be purchased exempt from the tax. The chemical compounds become an integral part of property sold at retail. Chemical compounds placed in water which is directly used in processing are exempt from the tax, even if the water is consumed by the processor and not sold at retail.

Chemical compounds which are used to treat water that is not sold at retail or which are not used directly in processing shall be subject to tax. An example would be chlorine or other chemicals used to treat water for a swimming pool.

Special boiler compounds used by processors when live steam is injected into the mash or substance, whereby the steam liquefies and becomes an integral part of the product intended to be sold at retail and does become a part of the finished product, shall be exempt from tax.

This rule is intended to implement Iowa Code sections 422.42(3), 422.43, 423.1, and 423.2.

701—18.4(422) Mortgages and trustees. Pursuant to the provisions of a chattel mortgage, the receipts from the sale of tangible personal property at a public auction shall be taxable even if the sale is made by virtue of a court decree of foreclosure by an officer appointed by the court for that purpose.

The tax applies to inventory and noninventory goods provided the owner is in the business of making retail sales of tangible personal property or taxable services. In *Re Hubs Repair Shop, Inc.* 28 B.R. 858 (Bkrty. 1983).

This rule is intended to implement Iowa Code sections 422.42, 422.43, 423.1 and 423.2.

701—18.5(422,423) Sales to agencies or instrumentalities of federal, state, county and municipal government.

18.5(1) The gross receipts from the sale of tangible personal property or enumerated taxable services made directly by or to the United States government or to recognized agencies or departments of the United States government shall not be subject to sales tax.

The gross receipts from sales at retail made directly to patients, inmates or employees of an institution or department of the United States government shall be taxable, since they are not made directly to the government. However, sales similarly made by post exchanges and other establishments organized and controlled by federal authority shall not be subject to sales tax.

18.5(2) The gross receipts from sales to the United States government, state of Iowa, or federal bureaus, departments, or instrumentalities are not taxable. A sale to government occurs only if a government, pursuant to a contract for sale, takes title or ownership to tangible personal property as a buyer from a seller. No sale to government occurs if a government pays some portion of the cost of sale of an item of tangible personal property but title to and ownership of the property are transferred to another person as a result of the sale. See *AVCO Manufacturing Corporation v. Connelly*, 145 Conn. 161, 140 A.2d 479 (1958) and *Akron Home Medical Services, Inc. v. Lindley*, 25 Ohio St.3d 107, 495 N.E.2d 417 (1986).

EXAMPLE A: Patient A purchases a hospital bed from a drugstore. A percentage of patient A's bill is paid by federal funds from Medicaid. Patient A has purchased a hospital bed, not the federal government, and Iowa tax is due as a result of this sale.

EXAMPLE B: A is a federal government employee. A stays at a hotel while on government business and eats meals there. A pays for the hotel room (treated as the sale of tangible personal property under Iowa sales tax law) and the meals with a credit card. The credit card was issued in A's name, and the cost of the room and meals is billed to A, who pays it. The federal government later reimburses A the entire cost of the room and meals. A has purchased the room and meals, and Iowa sales tax should be charged accordingly.

EXAMPLE C: B is a federal government employee who eats at a restaurant while on government business. B uses a credit card to pay for the meal. The credit card is issued in B's name, but the cost of the meal is billed to the U.S. government which pays that cost. In this situation, the government is the purchaser of the meal on B's behalf, and the sale is exempt from tax.

See rule 701—34.12(423) for an example of the application of this subrule to the motor vehicle use tax.

18.5(3) The gross receipts from the sale of goods, wares, merchandise, or services used for public purposes to any tax-certifying or tax-levying body of the state of Iowa or governmental subdivision thereof, including the state board of regents, state department of human services, state department of transportation, and all divisions, boards, commissions, agencies, or instrumentalities of the state, federal, county, or municipal government which have no earnings going to the benefit of an equity investor or stockholder, except the sale of goods, wares, merchandise or services used by or in connection with the operation of any municipally owned public utility engaged in selling gas, electricity, pay television service, or heat to the general public, shall be exempt. The exclusion from exemption for municipally owned pay television service is applicable to sales occurring and services provided on and after July 1, 1991. On and after April 1, 1992, providing sewage service or solid waste collection and disposal service to a county or municipality on behalf of nonresidential commercial operations located within the county or municipality shall be taxable (see rules 701—26.71(422,423) and 26.72(422,423) for more information). Goods, wares, merchandise, or services used for public purposes and sold to any municipally owned solid waste facility which sells all or part of its processed waste as a fuel to a municipally owned public utility shall be exempt.

EXAMPLES:

a. A group of exempt instrumentalities, such as cities, issues bonds to finance the construction of a sewage disposal facility. X, a corporation, purchases the bonds but is not involved in the project in any other way. Since X does not enjoy the benefits of earnings of the solid waste facility, the exemption provided the instrumentalities is applicable.

b. Corporation Y, which is an instrumentality of the federal government and which Congress has allowed by statute to be subject to state sales and use taxes, purchases tangible personal property. Said purchases are subject to tax because the profits of the corporation are distributed to the stockholders thereof.

c. An instrumentality of government includes an area agency on aging as designated by the Iowa department on aging pursuant to Iowa Code section 231.32.

This tax exemption does not apply to independent contractors who deal with agencies, instrumentalities, or other entities of government. These contractors do not, by virtue of their contracting with governmental entities, acquire any immunity or exemption from taxation for themselves. Sales to these contractors remain subject to tax, even if those sales are of goods or services which a contractor will use in the performance of a contract with a governmental entity. This principle is applicable to construction contractors who create or improve real property for federal, state, county, and municipal instrumentalities or agencies thereof. The contractors shall be subject to sales and use tax on all tangible personal property they purchase regardless of the identity of their construction contract sponsor. See 701—Chapter 19. See also *NLO, Inc. v. Limbach*, 613 N.E.2d 193, 66 Ohio St.3d 389 (1993); *Bill Roberts Inc. v. McNamara*, 539 So.2d 1226 (La. 1989) reh. den. April 27, 1989; *White Oak Corporation v. Department of Revenue Services*, 503 A.2d 582, 198 Conn. 413 (1986).

This rule is intended to implement Iowa Code section 422.45(5).

701—18.6(422,423) Relief agencies.

18.6(1) Relief agency means the state, any county, city and county, city or district thereof, or any agency engaged in actual relief work. Nonexclusive examples of relief agencies are Salvation Army, Royal Neighbors, and Masonic Lodge. The sales of tangible personal property or enumerated services to relief agencies are subject to tax. A relief agency may apply to the director for refund of the amount of tax imposed and paid by it, upon the purchase of goods, wares, merchandise, or services rendered, furnished, or performed that are used for free distribution to the poor and needy.

18.6(2) Persons are determined to be in the poor and needy category when their incomes and resources are at or below poverty level. The department will use federal poverty guidelines in making this determination.

18.6(3) Listed below are some examples where the tax may or may not be refunded to the relief agency:

EXAMPLE: A relief agency purchases clothing for free distribution to a poor and needy person. The tax is refundable.

EXAMPLE: A relief agency pays the gas, light, or telephone bill for a person who is poor and needy. The tax is refundable.

EXAMPLE: An agency purchases items of clothing for residents of their living facility, and is partially reimbursed by the person using the items based upon the recipient's ability to pay. Tax on the portion of cost not recovered by the agency can be claimed as a refund of tax paid by using formula stated in 18.6(6).

18.6(4) Demolition v. repair costs. A nonprofit noneducational relief agency is not entitled to a refund of sales tax paid by contractors on building materials used in the alteration, expansion, repair, remodeling or construction of the facility since the materials were sold tax paid to the contractor who is the consumer of the material by statute. See Iowa Code section 422.42(9). However, the relief agency would be entitled to a refund of sales tax paid on the cost of the demolition of the building since the demolition of the building indirectly benefited the poor and needy. 1968 O.A.G. #841.

EXAMPLE: A relief agency, which is not part of a governmental unit, operates a home or orphanage for persons who are poor and needy or for orphan children. Food, lodging, and necessary items are furnished free-of-charge to the residents. The relief agency would be entitled to a refund of any taxes paid to operate this facility; such as, but not limited to, lights, heat, water, telephone, and repair items or services needed to maintain the facility.

18.6(5) Claims for refund must be filed quarterly with the department within 45 days after the end of the quarter for which the refund is claimed. Claims are to be submitted on forms provided by the department.

The claim shall include the following information:

- a. The total amount or amounts, valued in money, expended directly or indirectly for goods, wares, merchandise, or services rendered, furnished, or performed used for free distribution to the poor and needy.
- b. List the persons making the sales to the relief agency.
 1. Include the date of the sale.
 2. Include the total amount expended, itemizing sales tax.
 3. Include the date of payment.
 4. Include the check number, receipt number, or paid invoice verifying payment.
- c. List the total operating income received (residents, donations, etc.)
- d. List the operating income received from residents only.
- e. The claim shall be signed by an authorized agent of the relief agency.

18.6(6) When a relief agency receives part of its operating income from the poor and needy it is serving, this income will be considered in computing the tax refund paid upon sales to it of products or services used for free distribution to the poor and needy.

To reasonably approximate the correct amount of tax to be refunded, where only a portion of the tax qualifies for refund, a formula will be used by the department. The prescribed formula the department will allow is operating income received from the poor and needy served divided by total operating income received. This percentage will be multiplied by the applicable gross receipts which are considered refundable to arrive at the correct amount of tax to be refunded.

If a person requests an alternative formula, the person shall first list the reasons why an alternative formula is necessary and, secondly, shall outline the proposed formula in detail. If approval is given, the department reserves the right to withdraw the approval or require adjustments in the formula upon notice to the person. Additional refunds or assessments may be made if an audit discloses the formula is incorrect.

This rule is intended to implement Iowa Code sections 422.42(7), 422.43, 422.47, 423.1 and 423.2.

701—18.7(422,423) Containers, including packing cases, shipping cases, wrapping material and similar items. The gross receipts from the sale of containers, labels, cartons, pallets, packing cases, wrapping paper, twine, bags, bottles, shipping cases, garment hangers, and other similar articles and receptacles sold to retailers or manufacturers which are purchased for the purpose of packaging or facilitating the transportation of tangible personal property which is sold either at retail or for resale shall be exempt from the tax.

For the purpose of this rule, producers, wholesalers and jobbers are considered retailers or manufacturers.

18.7(1) Sales to other than retailers or manufacturers.

a. Containers and all other specified items delivered with tangible personal property which are sold to a final buyer or ultimate consumer shall be exempt from the tax when no separate charge is made for the container. This group includes such items as boxes, cartons, pallets, paper bags, bottles, shipping cases, wrapping paper and twine. If a separate charge is made for the container, the sale of the container is subject to the tax. The sale of wrapping paper, paper bags and like items are subject to the tax when sold at retail.

EXAMPLE: A meat locker purchases materials such as wrapping paper and tape which it uses to wrap meat for customers to whom meat is sold. The wrapping paper and tape would be exempt from tax as being purchased as a packaging material of tangible personal property sold at retail.

EXAMPLE: A meat locker purchases materials such as wrapping paper and tape which it uses to wrap meat for customers who own the meat. The meat locker only performs the service of processing the meat. The wrapping paper and tape are subject to tax as they were not purchased for packaging or for the facilitating of transportation of tangible personal property sold at retail, but were used in the rendering of a service.

b. Packing paper, lining paper, paper used to line boxes and crates, and similar items shall be exempt from the tax if delivered with tangible personal property ultimately sold at retail when no separate charge is made for the paper.

18.7(2) Labels, tags and nameplates. Sales of labels, tags, and nameplates attached to products for the benefit of the vendor such as shipping tags, price tags and instructions to cashiers are subject to the tax, unless such items are sold to manufacturers and retailers for packaging or facilitating the transportation of tangible personal property ultimately sold at retail. Labels, tags or nameplates attached to products for the benefit of the final consumer which describe contents, or which relate to the product and are affixed to the product, are exempt from tax.

18.7(3) Pallets. Pallets purchased by manufacturers or retailers which are purchased for the purpose of packaging or facilitating the transportation of tangible personal property ultimately sold at retail shall be exempt from the tax.

18.7(4) Garment hangers. Garment hangers purchased by manufacturers or retailers and used to facilitate the transportation of tangible personal property or garment hangers delivered with tangible personal property ultimately sold at retail when no separate charge is made are exempt from tax.

Garment hangers used merely to display tangible personal property are taxable.

This rule is intended to implement Iowa Code sections 422.42(3), 422.45(19) and 423.1(1).

701—18.8(422) Auctioneers.

18.8(1) An auctioneer in making a sale, whether of tangible personal property or realty, is by virtue of this employment making the sale as the agent of the principal.

18.8(2) Where an auctioneer is conducting a sale and the principal meets the requirement of the casual sale exemption found in Iowa Code section 422.42(12), the gross receipts from the sale are exempt from the tax. See 1970 O.A.G. 774.

18.8(3) When an auctioneer is conducting a sale and the principal is in the business of making sales of tangible personal property or taxable services on a recurring basis, the gross receipts from the sale are taxable.

18.8(4) Where an auctioneer is selling tangible personal property that the auctioneer owns, the sale of the tangible property owned by the auctioneer is taxable.

This rule is intended to implement Iowa Code section 422.43.

701—18.9(422) Sales by farmers. The sale of grain, livestock or any other farm or garden product by the producer thereof ordinarily constitutes a sale for resale, processing or human consumption and shall not be subject to tax.

Farmers selling tangible personal property not otherwise exempt to ultimate consumers or users shall hold a permit and collect and remit sales tax on the gross receipts from their sales.

701—18.10(422,423) Florists.

18.10(1) Florists are engaged in the business of selling tangible personal property at retail and shall be liable for payment of tax measured by the receipts from the sale of flowers, wreaths, bouquets, potted plants and other items of tangible personal property.

18.10(2) When florists conduct transactions through a florists' telephonic delivery association, the following rules shall apply when computing tax liability:

a. On all orders taken by an Iowa florist and telephoned to a second florist in Iowa for delivery in the state, the sending florist shall be liable for tax, measured at the current rate of tax on gross receipts from the total amount collected from the customer, except the cost of a telegram when a separate charge is made therefor.

b. In cases where a florist receives an order pursuant to which the florist gives telephonic instructions to a second florist located outside Iowa for delivery to a point outside Iowa, tax is not owing with respect to any receipts which the florist may realize from the transaction.

c. In cases where Iowa florists receive telephonic instructions from other florists located either within or outside of Iowa for the delivery of flowers, the receiving florist will not be held liable for tax with respect to any receipts which the florist may realize from the transaction.

d. Rescinded IAB 2/28/96, effective 4/3/96.

18.10(3) Florists engaged in selling shrubbery, trees, and similar items. See rule 18.11(422,423). This rule is intended to implement Iowa Code section 422.43.

701—18.11(422,423) Landscaping materials. The gross receipts from the sale of sod, dirt, trees, shrubbery, bulbs, sand, rock, woodchips and other similar landscaping materials, when used for landscaping and sold to final consumers, shall be subject to sales tax. For the purpose of this rule, “final consumer” ordinarily means the owner of the land to which the landscaping materials are applied, or a general building contractor when the landscaping contractor contracts with the general building contractor. When a landscaping contractor uses materials to fulfill a contract, the landscape contractor is considered the retailer of the landscaping materials and shall be obligated to collect sales tax on the selling price from the final consumer.

When the retailer of sod, dirt, trees, shrubbery, bulbs, sand, rock, woodchips and other similar landscaping materials installs these items as a part of a contract for landscaping or improving land for a lump sum, the entire gross receipts shall be subject to tax. Any retailer’s charges for “landscaping” shall be taxable. See rule 701—26.62(422) for a description of this service. However, a retailer’s charges for nontaxable services are not taxable if contracted for separately; or, if no written contract exists, the charges are itemized separately on the invoice.

EXAMPLE: A sodding contractor agrees to furnish and install 20 yards of sod for the lump sum of \$20.00 per yard. The sodding contractor must charge the customer \$20.00 sales tax (5% x \$400.00).

EXAMPLE: XYZ Company enters into a contract for the landscaping of an existing office building. XYZ Company agrees to furnish shrubs at \$25.00 each, white rock for \$5.00 per bag and woodchips for \$4.00 per bag. XYZ Company also contracts to install all of the landscaping materials for a fee of \$25.00 per hour. XYZ Company’s hourly fee is taxable if paid for the service of “landscaping” or for some other taxable service, e.g., excavation. If the service is not taxable, the charge is excluded from tax because it was separately contracted for.

The gross receipts from the sale of uncut sod and unexcavated trees, shrubs, and rock shall not be subject to sales or use tax. This is considered a sale of intangible property and not the sale of tangible personal property.

This rule does not apply to the gross receipts from the sale of plants and trees which are eligible for purchase with food coupons under rule 701—20.1(422,423).

This rule is intended to implement Iowa Code sections 422.42, 422.45(12) and 423.1.

701—18.12(422,423) Hatcheries. The gross receipts from the sale of egg-type cockerel chicks, broiler chicks and turkey poults shall be subject to tax. If sale of domestic poultry is for breeding, see rule 701—17.9(422,423).

When pullets and poults are sold for production purposes, the receipts from the sales shall be exempt from tax.

This rule is intended to implement Iowa Code sections 422.42(3), 422.43, 423.1 and 423.2.

701—18.13(422,423) Sales by the state of Iowa, its agencies and instrumentalities. The state of Iowa, its agencies and instrumentalities, are required to collect and remit tax on the gross receipts from taxable retail sales of tangible personal property and taxable services.

This rule does not apply to sales made by cities and counties in the state of Iowa which are specifically exempted from collecting tax by Iowa Code section 422.45(20).

This rule is intended to implement Iowa Code chapters 422 and 423.

701—18.14(422,423) Sales of livestock and poultry feeds. Tax shall not apply to the sale of feed for any form of animal life when the product of the animals constitutes food for human consumption. Tax shall apply on feed sold for consumption by pets.

Antibiotics, when administered as an additive to feed or drinking water, and vitamins and minerals sold for livestock and poultry shall be exempt from tax.

This rule is intended to implement Iowa Code sections 422.42(3), 422.43, 423.1 and 423.2.

701—18.15(422,423) Student fraternities and sororities. Student fraternities and sororities are not considered to be engaged in the business of selling tangible personal property at retail within the meaning of the sales tax law when they provide their members with meals and lodging for which a flat rate or lump sum is charged. A person engaged in the selling of foods and beverages to such organizations for use in the preparation of meals is making exempt sales at retail and shall not be liable for tax if the food purchases would be exempt under rule 701—20.1(422,423).

Student fraternities or sororities engaged in the business of serving meals to persons other than members for which separate charges are made, or owning and operating canteens through which tangible personal property is sold are deemed to be making taxable sales.

When student fraternities or sororities do not provide their own meals but are provided by caterers, concessionaires or other persons, such caterers, concessionaires or other persons shall be liable for the collection and remittance of tax with respect to their receipts from meals furnished. A similar liability is attached to persons engaged in the business of operating boarding houses, whether for students or other persons.

This rule is intended to implement Iowa Code sections 422.42(3), 422.43, 423.1 and 423.2.

701—18.16(422,423) Photographers and photostaters. Tax shall apply to the sale of photographs and photostat copies, whether or not produced to the special order of the customer and to charges for the making of photographs or photostat copies out of materials furnished by the customer. A deduction shall not be allowed for the expenses incurred by the photographer, such as rental of equipment or salaries or wages paid to assistants or models, whether or not the expenses are itemized in billings to customers.

Tax shall not apply to the sale of tangible personal property to photographers and photostat producers which becomes an ingredient or component part of photographs or photostat copies sold, such as mounts, frames and sensitized paper; but tax shall apply to the sale of materials to photographers or producers which is used in the processing of photographs or photostat copies.

18.16(1) *Sales of photographs to newspaper or magazine publishers for reproduction.* The sale of photographs by a person engaged in the business of making and selling photographs to newspaper or magazine publishers for reproduction shall be taxable.

18.16(2) Reserved.

This rule is intended to implement Iowa Code sections 422.42(3), 422.43, 423.1 and 423.2.

701—18.17(422,423) Gravel and stone. When a contract is entered between a contractor and a governmental body and the contract calls for a stockpile delivery along a road to be improved, it is a sale of tangible personal property to the governmental body. Transactions of this type are exempt from tax. When a contract not only provides for the sale and delivery of materials but also the conversion of the materials into realty improvements, the contractor is the ultimate consumer of the material used and shall be liable for tax. Tax shall apply on the purchase price of the material.

This rule is intended to implement Iowa Code sections 422.42(3), 422.43, 422.45(5), 423.1 and 423.2.

701—18.18(422,423) Sale of ice. The sale of ice for human consumption which may be purchased with food coupons is exempt from tax. The sale of ice used for cooling is subject to tax. See rule 701—20.1(422,423).

This rule is intended to implement Iowa Code sections 422.42(3), 422.43, 422.45(12), 423.2 and 423.4.

701—18.19(422,423) Antiques, curios, old coins or collector's postage stamps. Curios, antiques, art work, coins, collector's postage stamps and such articles sold to or by art collectors, philatelists, numismatists and other persons who purchase or sell such items of tangible personal property for use and not primarily for resale are sales at retail and shall be subject to tax.

18.19(1) Stamps, whether canceled or uncanceled, which are sold by a collector or person engaged in retailing stamps to collectors shall be taxable.

18.19(2) The distinction between stamps which are purchased by a collector and stamps which are purchased for their value as evidence of the privilege of the owner to have certain mail carried by the United States government is that which determines whether or not a stamp is taxable or not taxable. A stamp becomes an article of tangible personal property having market value when, because of the demand, it can be sold for a price greater than its face value. On the other hand, when a stamp has only face value, as evidence of the right to certain services or an indication that certain revenue has been paid, it shall not be subject to either sales or use tax.

This rule is intended to implement Iowa Code sections 422.42(3), 422.43, 423.1 and 423.2.

701—18.20(422,423) Communication services. This rule applies to sales of communication services billed prior to November 23, 2011. For communication service, telecommunication service, ancillary service and other related communication service billed on or after November 23, 2011, refer to 701—Chapter 224, Iowa Administrative Code. The gross receipts from the sale of all communication services provided in this state are subject to tax. (Communication services are not subject to use tax prior to July 1, 2001. See rule 701—31.7(423).)

18.20(1) Definitions.

a. Communication service shall mean the act of providing, for a consideration, any medium or method for, or the act of transmission and receipt of, information between two or more points. Each point must be capable of both transmitting and receiving information if “communication” is to occur. The term “communication service” includes, but is not limited to, the transmission and receipt of sound, printed materials (including letters and materials printed by teletype), other images perceived visually and data encoded in computer languages. Any separate charge for the service of transmitting and receiving information between automatic data processing equipment and remote facilities shall be subject to tax, see paragraph 18.34(3)“c.”

b. Communication service is provided “in this state” only if both the points of origination and termination of the communication are within the borders of Iowa. Communication service between any other points is “interstate” in nature and not subject to tax.

c. “Gross receipts” from the sale of communication service in this state shall mean all charges to any person which are necessary for the ultimate user to secure the service, except those charges which are in the nature of a sale for resale (see subrule 18.20(4)). Such charges shall be taxable if the charges are necessary to secure communication service in this state even though payment of the charge may also be necessary to secure other services. Any charge necessary to secure only interstate communication service shall not be subject to tax if the nature of the service is separately stated and the charge for the service separately billed. For the present, the charges imposed by the Federal Communications Commission and referred to as “access charges for interstate or foreign access services” to an “end user” shall not be subject to tax if separately stated and billed.

Charges imposed or approved by the utilities division of the department of commerce which are necessary to secure long distance service in this state, for example, “end user intrastate access charges,” are taxable. Such charges are taxable whether they result from an expense incurred from operations or are imposed by the mandate of the utilities division and unrelated to any expense actually incurred in providing the service.

If company A collects gross receipts from ultimate users for communication services performed in this state by company B, company A shall treat those gross receipts as its own, collect tax upon them, and remit the tax to the department. The situation is similar to a consignment sale of tangible personal property, and tax must be remitted by the company collecting the gross receipts from the users of the communication services.

As of April 4, 1990, the amount of a surcharge for enhanced 911 emergency telephone service shall not be subject to sales tax if the amount is no more than \$1 per month per telephone access line and the surcharge is separately identified and separately billed. An enhanced 911 emergency telephone service surcharge is one which routes a 911 call to the appropriate public safety answering point and automatically displays a name, address, and telephone number of an incoming 911 call at that answering point.

d. Paging services. A one-way paging service is not a taxable enumerated service in Iowa because one-way paging only receives information and is not capable of transmitting information. As a result, this type of pager service is not a two-way transmission.

18.20(2) This subrule is applicable to various specific circumstances involving the sale of communication services.

a. Companies which bill their subscribers for communication services on a quarterly, semiannual, annual or any other periodic basis shall include the amount of such billings in their gross receipts. The date of the billing shall determine the period for which sales tax shall be remitted. Thus, if the date of a billing is March 31, and the due date for payment of the bill without penalty is April 20, tax upon the gross receipts contained in the bill shall be included in the sales tax return for the first quarter of the year. The same principle shall be used to determine when tax will be included in payment of a sales tax deposit to the department.

b. The gross receipts from the service of transmitting messages, night letters, day letters and all other messages of similar nature between two or more points within this state are subject to sales tax.

c. Receipts from communication services performed for all divisions, boards, commissions, agencies or instrumentalities of federal, Iowa, county or municipal government, and private, nonprofit educational institutions in this state for educational purposes are exempt from tax, except sales to any tax-levying body used by or in connection with the operation of any municipally owned utility engaged in selling gas, electricity or heat to the general public are subject to tax.

18.20(3) This subrule is specifically applicable to companies and other persons providing telephone service in this state. Any reasoning contained in this subrule may also be applied to companies or other persons providing other communication services.

a. All companies must have a permit for each business office which provides communication service in this state. The companies must collect and remit tax upon the gross receipts from the operation of such offices.

b. If a minimum amount is guaranteed to a company from the operation of any coin-operated telephone, tax shall be computed on the minimum amount guaranteed or the actual taxable gross receipts collected whichever is the greater.

c. In computing tax due, the federal taxes identified as such, separately billed and payable by the customer shall be excluded from gross receipts. If the taxes are not separately billed, they shall be subject to Iowa sales tax.

d. Telegrams and like charges made to the accounts of subscribers and billed by companies providing telephone service which appear on the subscribers' toll bills are subject to tax.

e. Charges for directory assistance service rendered in this state shall be subject to tax. Charges for directory assistance service, separately stated and billed, shall not be subject to tax if the service is interstate in nature.

f. The gross receipts from the installation or repair of any inside wire which provides electrical current that allows an electronics device to function shall be subject to tax. Such gross receipts are from the enumerated service of electrical repair or installation, and are thus subject to tax. The gross receipts from "inside wire maintenance charges" for services performed under a service or warranty contract shall also be subject to tax. Depending on circumstances, such receipts are for the enumerated service of "electrical repair" or are incurred under an "optional service or warranty contract" for an enumerated service. In either event, the receipts are subject to tax. See rule 701—18.25(422,423).

g. The gross receipts from the rental of any device for home or office use or to provide a communication service to others shall be fully taxable; such receipts are for the enumerated service of "rental of tangible personal property." The gross receipts from rental include rents, royalties, and copyright and license fees. Any periodic fee for maintenance of the device which is included in the gross receipts for the rental of the device shall also be subject to tax.

h. The sale of any device, new or used, in place at the time of sale on the customer's premises or sold to the customer elsewhere is the sale of tangible personal property, and thus a sale subject to tax. The sale of an entire inventory of devices may or may not be subject to tax, depending upon whether it does or does not come within the purview of the casual sales exemption, see Iowa Code section 422.42(2)

and subrule 18.28(3). Other exemptions may be applicable as well. See Iowa Code section 422.45 and 701—Chapter 17.

i. The gross receipts for the repair or installation of inside wire or the repair or installation of any electronic device, including a telephone or telephone switching equipment shall, as a general rule, be subject to tax whether the customer or purchaser is billed by way of a flat fee or flat hourly charge covering all costs including labor and materials, or by way of a premises visit or trip charge, or by a single charge covering and not distinguishing between charges for labor and materials, or is billed by a charge with labor and material segregated, or is billed for labor only. An exception is this: If the gross receipts are for services on or in connection with new construction, reconstruction, alteration, expansion or remodeling of a building or structure, the gross receipts shall not be subject to tax. For further information concerning the conditions under which such gross receipts for repair or installation would not be subject to tax, see rule 701—19.1(422,423) and 701—subrule 26.2(1).

j. If a company bills a handling charge to a customer for sending the customer an electronic device by mail or by a delivery service, this charge shall constitute a part of the gross receipts from the sale of the device and shall be subject to tax. The gross receipts of a mandatory service rendered in connection with the sale of tangible personal property are considered by the department to be a part of the gross receipts from the sale of the property itself and thus subject to tax.

k. The purchase or rental of tangible personal property by companies providing communication services shall be subject to tax.

l. The amount of any deposit paid by a customer to a company providing communication service if returned to the customer shall not be subject to tax. Any portion of a deposit utilized by a company as payment for the sale of tangible personal property or a taxable service shall be included in gross receipts or gross taxable services and shall be subject to tax.

m. On and after July 1, 1997, the gross receipts from sales of prepaid telephone calling cards and prepaid authorization numbers are subject to tax as sales of tangible personal property.

18.20(4) When one commercial communication company furnishes another commercial communication company services or facilities which are used by the second company in furnishing communication service to its customers, such services or facilities furnished to the second company are in the nature of a sale for resale; and the charges, including any carrier access charges, shall be exempt from sales tax. The charges for services or facilities initially purchased for resale and subsequently used or consumed by the second company shall be subject to tax, and the tax shall be collected and paid by the seller unless the seller has taken a valid exemption certificate in good faith from the purchaser and other requirements of 701—subrule 15.3(2) are met.

18.20(5) Prior to July 1, 1999, charges for access to or use of what is commonly referred to as the “Internet” or charges for other contracted on-line services are the gross receipts from the performance of a taxable service if access is by way of a local or in-state long distance telephone number and if the predominant service offered is two-way transmission and receipt of information from one site to another as described in paragraph “a” of subrule 18.20(1). If a user’s billing address is located in Iowa, a service provider should assume that Internet access or contracted on-line service is provided to that user in Iowa unless the user presents suitable evidence that the site or sites at which these services are furnished are located outside this state.

On and after July 1, 1999, gross receipts from charges paid to a provider for access to an on-line computer service are exempt from tax. An “on-line computer service” is one which provides for or enables multiple users to have computer access to the Internet. Charges paid to a provider for other contracted on-line services which do not provide access to the Internet and which are communication services remain subject to Iowa tax through May 14, 2000.

On and after May 15, 2000, the furnishing of any contracted on-line service is exempt from Iowa tax if the information is made available through a computer server. The exemption applies to all contracted on-line services, as long as they provide access to information through a computer server.

18.20(6) The gross receipts paid for the performance of the service of sending or receiving any document commonly referred to as a “fax” from one point to another within this state are subject to sales tax. See 18.20(1)“a.” Gross receipts paid for the service of providing a telephone line or other

transmission path for the use of what is commonly called a “fax” machine are the gross receipts from the performance of a taxable service if the points of transmission and receipt of a fax are in this state. See 18.20(1) “a” and “b.”

EXAMPLE A. Klear Kopy Services is located in Des Moines, Iowa. Klear Kopy charges a customer \$2 to transmit a fax (via its machine) to Dubuque, Iowa. The \$2 is taxable gross receipts. Midwest Telephone Company charges Klear Kopy \$500 per month for the intrastate communications on Klear Kopy’s dedicated fax line. The \$500 is also gross receipts from a taxable communication service.

EXAMPLE B. The XYZ Law Firm is located in Des Moines, Iowa. The firm owns a fax machine and uses the fax machine in the performance of its legal work to transmit and receive various documents. The firm does not perform faxing services but will, on billings for legal services to clients, break out the amount of a billing which is attributable to expenses for faxing. For example, “bill to John Smith for August, 1997, \$1,000 for legal services performed, fax expenses which are part of this billing—\$30.” The \$30 is not gross receipts for the performance of any taxable service, the faxing service performed being only incidental to the performance of the nontaxable legal services.

EXAMPLE C. The TUV Hospital is located in Cedar Rapids, Iowa. The surgeons successfully perform delicate brain surgery on patient W. To perform that surgery it was necessary for the surgeons to consult with a number of colleagues; the consultation was via E-mail. After the operation, the TUV Hospital sent patient W a bill for \$10,000 of nontaxable hospital services. Listed as an expense is “E-mail—\$200.” The E-mail services are performed incidentally to the nontaxable hospital services; therefore, the \$200 is not taxable gross receipts.

EXAMPLE D. D is a dentist practicing in Mason City, Iowa. D subscribes to an on-line service which, in return for a monthly fee, informs its subscribers of the latest dental surgery techniques and advises them about how these techniques can be applied to individual patients. After consultation on patient E’s problem through the on-line service, D performs complex surgery on patient E. D’s bill to patient E reads as follows: “dental reconstruction—\$2,750; on-line consultation portion—\$240.” The \$240 is not taxable gross receipts, this charge being incidental to the nontaxable charge for dental work.

18.20(7) *Communication service, telecommunications service, ancillary service, and other similar communication service.*

a. *Purpose.* This subrule covers various provisions related to communication service, telecommunications service, ancillary service, and other similar communication service.

b. *Definitions.*

(1) “*Air-to-ground radio telephone service*” means a radio service in which common carriers are authorized to offer and provide radio telecommunications service for hire to subscribers in aircraft.

(2) “*Ancillary services*” means services that are associated with or incidental to the provision of a telecommunications service. The term includes, but is not limited to, detailed communications billing service, directory assistance, vertical service, and voice mail services.

(3) “*Call-by-call basis*” means any method of charging for telecommunications services where the price is measured by individual calls.

(4) “*Communications channel*” means a physical or virtual path of communications over which signals are transmitted between or among customer channel termination points.

(5) “*Communication service*” means the act of communicating using any system or the act of transmission and receipt of information between two or more points. Each point must be capable of both transmitting and receiving information if communication is to occur. The term “communication service” includes, but is not limited to, the transmission and receipt of sound, printed materials (including letters and other materials), other images perceived visually and data encoded in computer languages. Communication service also includes telecommunications service, ancillary service and other similar communication service.

(6) “*Conference bridging service*” means an ancillary service that links two or more participants of an audio or video conference call and may include the provision of a telephone number. Conference bridging service does not include telecommunications services used to reach the conference bridge.

(7) “*Customer*” means the person or entity that contracts with the seller of telecommunications services. If the end user of telecommunications services is not the contracting party, the end user of the

telecommunications service is the customer of the telecommunications service. For purposes of sourcing sales of telecommunications services, the end user of the telecommunications service is the customer of the telecommunications service when the end user is not also the contracting party. "Customer" does not include a reseller of telecommunications service or for mobile telecommunications service of a serving carrier under an agreement to serve the customer outside the home service provider's licensed service area.

(8) "*Customer channel termination point*" means the location where the customer either inputs or receives the communications.

(9) "*Detailed telecommunications billing service*" means an ancillary service of separately stating information pertaining to individual calls on a customer's billing statement.

(10) "*Directory assistance*" means an ancillary service of providing telephone number information and address information.

(11) "*End user*" means the person who utilizes the telecommunication service. In the case of an entity, "end user" means the individual who utilizes the service on behalf of the entity.

(12) "*Fixed wireless service*" means a telecommunications service that provides radio communication between fixed points.

(13) "*Home service provider*" means the same as defined in Section 124(5) of Public Law 106-252, 4 U.S.C. § 124(5) (Mobile Telecommunications Sourcing Act). The home service provider is the facilities-based carrier or reseller with which the customer contracts for the provision of mobile telecommunications services.

(14) "*Interstate*" means a telecommunications service that originates in one United States state or a United States territory or possession and terminates in a different United States state or a United States territory or possession.

(15) "*Intrastate*" means a telecommunications service that originates in one United States state or a United States territory or possession and terminates in the same United States state or a United States territory or possession.

(16) "*Mobile telecommunications service*" means commercial mobile radio service; that is, a radio communication service carried on between mobile stations or receivers and land stations and by mobile stations communicating among themselves.

(17) "*Mobile wireless service*" means a telecommunications service that is transmitted, conveyed, or routed regardless of the technology used, whereby the origination and/or termination points of the transmission, conveyance, or routing are not fixed, including, by example only, telecommunications services that are provided by a commercial mobile radio service provider.

(18) "*Paging service*" means a telecommunications service that provides transmission of coded radio signals for the purpose of activating specific pagers. This transmission may include messages and sounds.

(19) "*Pay telephone service*" means a telecommunications service provided through any pay telephone. Pay telephone service also includes coin operated telephone service paid for by inserting money into a telephone accepting direct deposits of money to operate.

(20) "*Place of primary use*" means the street address representative of where the customer's use of the telecommunications service primarily occurs, which must be the residential street address or the primary business street address of the customer. In the case of mobile telecommunications services, the place of primary use must be within the licensed service area of the home service provider.

(21) "*Postpaid calling service*" means the telecommunications service obtained by making a payment on a call-by-call basis, either through use of a credit card or payment mechanism such as a bank card, travel card, credit card or debit card, or by charge made to a telephone number which is not associated with the origination or termination of the telecommunications service. A postpaid calling service includes a telecommunications service, except a prepaid wireless calling service that would be a prepaid calling service except it is not exclusively a telecommunication service.

(22) "*Prepaid calling service*" means the right to access exclusively telecommunications services, which must be paid for in advance and which enable the origination of calls using an access number or

authorization code, whether manually or electronically dialed, and that are sold in predetermined units or dollars of which the number declines with use in a known amount.

(23) "*Prepaid wireless calling service*" means a telecommunications service that provides the right to utilize mobile wireless service as well as other non-telecommunications services, including the download of digital products delivered electronically, content and ancillary services, which must be paid for in advance that is sold in predetermined units or dollars of which the number declines with use in a known amount.

(24) "*Private communication service*" means a telecommunication service that entitles the customer to exclusive or priority use of a communications channel or group of channels between or among termination points, regardless of the manner in which such channel or channels are connected, and includes switching capacity, extension lines, stations, and any other associated services that are provided in connection with the use of such channel or channels.

(25) "*Residential telecommunications service*" means a telecommunications service or ancillary services provided to an individual for personal use at a residential address, including an individual dwelling unit, such as an apartment. In the case of institutions where individuals reside, such as schools or nursing homes, telecommunications service is considered residential if it is provided to and paid for by an individual resident rather than the institution.

(26) "*Service address*" means:

1. The location of the telecommunications equipment to which a customer's call is charged and from which the call originates or terminates, regardless of where the call is billed or paid.

2. If the location in numbered paragraph "1" of this subparagraph is not known, "service address" means the origination point of the signal of the telecommunications services first identified by either the seller's telecommunications system or in information received by the seller from its service provider, where the system used to transport such signals is not that of the seller.

3. If the locations in numbered paragraphs "1" and "2" of this subparagraph are not known, the service address means the location of the customer's place of primary use.

(27) "*Telecommunications service*" means the electronic transmission, conveyance, or routing of voice, data, audio, video, or any other information or signals to a point, or between or among points. The term includes any transmission, conveyance, or routing in which computer processing applications are used to act on the form, code, or protocol of the content for purposes of transmission, conveyance, or routing without regard to whether such service is referred to as voice-over Internet protocol services or is classified by the Federal Communications Commission as enhanced or value-added. "Telecommunications service" does not include the following:

1. Data processing and information services that allow data to be generated, acquired, stored, processed, or retrieved and delivered by an electronic transmission to a purchaser where the purchaser's primary purpose for the underlying transaction is the processed data or information;

2. Installation or maintenance of wiring or equipment on a customer's premises;

3. Tangible personal property;

4. Advertising, including but not limited to directory advertising;

5. Billing and collection services provided to third parties;

6. Internet access service;

7. Radio and television audio and video programming services, regardless of the medium, including the furnishing of transmission, conveyance, or routing of the service by the programming service provider. Radio and television audio and video programming services shall include, but not be limited to, cable service and audio and video programming services delivered by a commercial mobile radio service provider;

8. Ancillary service;

9. Digital products delivered electronically, including but not limited to software, music, video, reading materials or ring tones.

(28) "*Value-added non-voice data service*" means a service that otherwise meets the definition of telecommunications services in which computer processing applications are used to act on the form,

content, code, or protocol of the information or data primarily for a purpose other than transmission, conveyance, or routing.

(29) “*Vertical service*” means an ancillary service that is offered in connection with one or more telecommunications services, which offers advanced calling features that allow customers to identify callers and to manage multiple calls and call connections. Nonexclusive examples of vertical service include call forwarding, caller ID, three-way calling, and conference bridging services.

(30) “*Voice mail service*” means an ancillary service that enables the customer to store, send, or receive recorded messages. Voice mail service does not include any vertical services that the customer may be required to have in order to utilize the voice mail service.

c. Taxable communication service, telecommunications service, ancillary service, and other similar communication service. The sales price from the sale of communication service, telecommunications service, ancillary service, and other similar communication service is subject to the sales or use tax. The following is a nonexclusive list of services subject to the Iowa sales and use tax:

- (1) Air-to-ground radio telephone service;
- (2) Ancillary services except detailed communications billing service;
- (3) Conference bridging service;
- (4) Fixed wireless service;
- (5) Mobile wireless service;
- (6) Pay telephone service;
- (7) Postpaid calling service;
- (8) Prepaid calling service;
- (9) Prepaid wireless calling service;
- (10) Private communication service;
- (11) Residential telecommunications service.

d. Nontaxable communication service, telecommunications service, ancillary service, and other similar communication service. The following services are not subject to the Iowa sales and use tax:

- (1) Detailed communications billing service;
- (2) Internet access fees or charges;
- (3) One-way paging services that only receive information and are not capable of transmitting information;
- (4) Value-added non-voice data service;
- (5) Any charge necessary to secure only interstate communication service if the nature of the service is separately stated and the charge for the interstate service is separately billed.

e. Sourcing of telecommunications services.

(1) General sourcing principles apply to telecommunications services unless the service falls under one of the exceptions set out in paragraph “e.”

(2) Exceptions. The following telecommunications services and products are sourced in accordance with the principles set out in subparagraph (2):

1. Mobile telecommunications service is sourced to the place of primary use, unless the service is prepaid wireless calling service.

2. Prepaid calling service is sourced as provided under Iowa Code section 423.15. However, if the seller has sufficient information available, the sale of prepaid wireless calling service may be sourced to the location of the place of primary use.

3. A sale of a private telecommunications service is sourced as follows:

- Service for a separate charge related to a customer channel termination point is sourced to each level of jurisdiction in which the customer channel termination point is located.

- Service where all customer termination points are located entirely within one jurisdiction or levels of jurisdiction is sourced in the jurisdiction in which the customer channel termination points are located.

- Service for segments of a channel between two customer channel termination points located in different jurisdictions and which segments of channel are separately charged is sourced 50 percent in each level of jurisdiction in which the customer channel termination points are located.

- Service for segments of a channel located in more than one jurisdiction or levels of jurisdiction and which segments are not separately billed is sourced in each jurisdiction based on the percentage determined by dividing the number of customer channel termination points in the jurisdiction by the total number of customer channel termination points.

4. The sale of Internet access service is sourced to the customer's place of primary use.

5. The sale of an ancillary service is sourced to the customer's place of primary use.

6. A postpaid calling service is sourced to the origination point of the telecommunications signal as first identified by either (a) the seller's telecommunications system or (b) information received by the seller from its service provider, where the system used to transport the signals is not that of the seller.

7. The sale of telecommunications service sold on a call-by-call basis is sourced to (a) each level of taxing jurisdiction where the call originates and terminates in that jurisdiction or (b) each level of taxing jurisdiction where the call either originates or terminates and in which the service address is also located.

8. The sale of telecommunications services sold on a basis other than a call-by-call basis is sourced to the customer's place of primary use.

9. The sale of the following telecommunication services is sourced to each level of taxing jurisdiction as follows:

- A sale of mobile telecommunications services, other than prepaid calling service, is sourced to the customer's place of primary use as required by the federal Mobile Telecommunications Sourcing Act.

- A sale of postpaid calling service is sourced to the origination point of the telecommunications signal as first identified by either (a) the seller's telecommunications system or (b) information received by the seller from its service provider, where the system used to transport such signals is not that of the seller.

f. Bundled transaction.

- (1) A "bundled transaction" is the retail sale of two or more products where (a) the products are otherwise distinct and identifiable, and (b) the products are sold for one non-itemized price. A bundled transaction does not include the sale of any products in which the sales price varies or is negotiable based on the selection by the purchaser of the products included in the transaction.

- (2) In the case of a bundled transaction that includes any of the following: telecommunications service, ancillary service, Internet access, or audio or video programming service:

1. If the price is attributable to products that are taxable and products that are nontaxable, the portion of the price attributable to the nontaxable products will be subject to tax unless the provider can identify by reasonable and verifiable standards such portion from its books and records that are kept in the regular course of business for other purposes, including, but not limited to, non-tax purposes.

2. If the price is attributable to products that are subject to tax at different tax rates, the total price may be treated as attributable to the products subject to tax at the highest tax rate unless the provider can identify by reasonable and verifiable standards the portion of the price attributable to the products subject to tax at the lower rate from its books and records that are kept in the regular course of business for other purposes, including but not limited to non-tax purposes.

3. The provisions of this subrule shall apply unless otherwise provided by federal law.

g. Direct pay permit. The department may issue a direct pay permit that allows the holder to purchase tangible personal property or taxable services without payment of the tax to the seller. The direct pay permit holder cannot use the direct pay permit for the purchase of communication service, telecommunications service, ancillary services, or other similar communication service. The seller should charge and collect the sales or use tax from the purchaser on the taxable sales of communication service, telecommunications service, ancillary services, and other similar communication service.

h. Credit. A taxpayer subject to sales or use tax on communication service, telecommunications service, ancillary service or other similar communication service who has paid any legally imposed sales or use tax on such service to another jurisdiction outside the state of Iowa is allowed a credit against the sales or use tax imposed by the state of Iowa equal to the sales or use tax paid to the other taxing jurisdictions.

i. Sales of communication service, telecommunications service, ancillary service, or other similar communication service to the United States government or the state government of Iowa. Sales of communication service, telecommunications services, ancillary services, or other similar communication service to the United States government or its agencies or to the state of Iowa or its agencies are not subject to sales or use tax. In order to be a sale to the United States government or to the state government of Iowa, the government or agency involved must make the purchase of the services and pay directly to the vendor the purchase price of the services. Telecommunications service providers should obtain an exemption certificate from each agency for their records.

j. Retailers liable for collecting and remitting tax. Retailers that sell taxable communication service, telecommunications service, ancillary services, or other similar communication service are liable for collecting and remitting the state sales or use tax and any applicable local sales tax on the amounts of the sales.

This rule is intended to implement Iowa Code sections 34A.7(1)“c”(2), 422.42(2), 422.42(3), 422.43(9), 422.45(5), 422.45(8), 422.45 and 422.51(1) and Iowa Code Supplement section 422.45 as amended by 2000 Iowa Acts, chapter 1189, section 29.

[ARC 8021B, IAB 7/29/09, effective 9/2/09; ARC 9814B, IAB 10/19/11, effective 11/23/11]

701—18.21(422,423) Morticians or funeral directors. A mortician or funeral director is engaged in the business of selling both tangible personal property and funeral services. Examples of the former are caskets, other burial containers, flowers, and grave clothing. Examples of the latter are cremation, transportation by hearse and embalming. Tax is due only upon gross receipts from the sale of tangible personal property and taxable services, and not upon gross receipts from the sale of nontaxable services.

If a mortician or funeral director separately itemizes charges for tangible personal property, taxable services and nontaxable services, as required by the rules of the Federal Trade Commission, or Iowa Code section 523A.8(1)“b,” whichever is applicable, tax is due only upon the gross receipts from the sales of tangible personal property and taxable services. If contrary to the rules or the statute, or if the applicable rules are rescinded or the statute repealed, and the mortician or funeral director charges a lump sum to a customer covering the entire cost of the funeral without dividing the charges for sales of tangible personal property and taxable and nontaxable services, the mortician or funeral director shall report the full amount of the funeral bill less any cash advanced by the mortician or funeral director, with tax due on 50 percent of the difference. *Kistner v. Iowa State Board of Assessment and Review*, 224 Iowa 404, 280 N.W. 587 (1938). Cash advance items may include, but are not limited to, the following: cemetery or crematory services, pallbearers, public transportation, clergy honoraria, flowers, musicians, singers, nurses, obituary notices, gratuities, and death certificates.

The mortician or funeral director is considered to be purchasing caskets, outer burial containers, and grave clothing for resale, and may purchase these items from suppliers without payment of tax. The mortician or director should present the supplier with a certificate of resale as set out in rule 701—15.3(422,423). A mortician or director is considered to be the user or consumer of office furniture and equipment, funeral home furnishings, advertising calendars, booklets, motor vehicles and accessories, embalming equipment, instruments, fluid and other chemicals used in embalming, cosmetics, and grave equipment, stretchers, baskets, and other items if title or possession does not pass to the customer. *Kistner*; supra.

For purposes of this rule, the terms of morticians or funeral directors shall also include cemeteries, cemetery associations and anyone engaged in activities similar to those discussed in the rule.

This rule is intended to implement Iowa Code sections 422.42(3), 422.43, 423.1 and 423.2.

701—18.22(422,423) Physicians, dentists, surgeons, ophthalmologists, oculists, optometrists, and opticians. Physicians, dentists, surgeons, ophthalmologists, oculists, optometrists, and opticians shall not be liable for tax on services rendered such as examinations, consultations, diagnosis, surgery and other kindred services, nor on the applicable exemptions prescribed under 701—Chapter 20.

The purchase of materials, supplies, and equipment by these persons is subject to tax unless the particular item is exempt from tax when purchased by an individual for the individual’s own use. For

example, the purchase for use in the office of prescription drugs would not be subject to tax nor would the purchase of prosthetic devices such as artificial limbs or eyes.

Sales of tangible personal property to dentists, which are to be affixed to the person of a patient as an ingredient or component part of a dental prosthetic device, are exempt from tax. These include artificial teeth, and facings, dental crowns, dental mercury and acrylic, porcelain, gold, silver, alloy, and synthetic filling materials.

Sales of tangible personal property to physicians or surgeons, which are prescription drugs to be used or consumed by a patient, are exempt from tax.

Sales of tangible personal property to ophthalmologists, oculists, optometrists, and opticians, which are prosthetic devices designed, manufactured, or adjusted to fit a patient, are exempt from tax. These include prescription eyeglasses, contact lenses, frames, and lenses.

The purchase by such persons of materials such as pumice, tongue depressors, stethoscopes, which are not in themselves exempt from tax, would be subject to tax when purchased by such professions.

The purchase of equipment, such as an X-ray machine, X-ray photograph or frames for use by such persons is subject to tax. On the other hand, the purchase of an item of equipment that is utilized directly in the care of an illness, injury or disease, which item would be exempt if purchased directly by the patient, is not subject to tax.

This rule is intended to implement Iowa Code sections 422.42(3), 422.43, 422.45(13-15), 423.2 and 423.4(4).

701—18.23(422) Veterinarians. Purchase of food, drugs, medicines, bandages, dressings, serums, tonics, and the like, but not to include tools and equipment, which are used in treating livestock raised as part of agricultural production is exempt from tax. Where these same items are used in treating animals maintained as pets for hobby purposes, sales tax is due. See rule 701—18.48(422,423) for an exemption for machinery used in livestock or dairy production which may be applicable to veterinarians but should be claimed only with caution by them.

A veterinarian engaged in retail sales, in addition to furnishing professional services, must account for sales tax on the gross receipts from such sales.

This rule is intended to implement Iowa Code sections 422.42(3) and 422.43.

701—18.24(422,423) Hospitals, infirmaries and sanitariums. Hospitals, infirmaries, sanitariums, and like institutions are engaged primarily in rendering services. These facilities shall not be subject to tax on their purchases of items of tangible personal property exempt under 701—Chapter 20 when the items would be exempt if purchased by the individual and if the item is used substantially for the tax-exempt purpose. See rule 18.59(422,423) for an exemption applicable to sales of goods and furnishing of services on and after July 1, 1998, to a nonprofit hospital.

Hospitals, infirmaries, and sanitariums may be the purchasers for use or consumption of tangible personal property used or consumed in furnishing services. *Modern Dairy Co. v. Department of Revenue*, 413 Ill. 55, 108 N.E.2d 8 (1952). However, tangible personal property can be purchased for resale by these facilities and, if purchased for resale, is exempt from tax on the purchases. *Burrows Co. v. Hollingsworth*, 415 Ill. 202, 112 N.E.2d 706 (1953); *Fefferman v. Marohn*, 408 Ill. 542, 97 N.E.2d 785 (1951). Property is purchased for resale if the conditions in subrule 18.31(1) are applicable. See also 701—subrule 15.3(2) with respect to resale exemption certificates.

Depending upon the circumstances, a nonprofit facility may be a charitable institution or organization; a profit facility is not. *Northwest Community Hospital v. Board of Review of City of Des Moines*, 229 N.W.2d 738 (Iowa 1975); *Readlyn Hospital v. Hoth*, 223 Iowa 341, 272 N.W. 90 (1937). Sales by these nonprofit facilities would be exempt from tax if the requirements of Iowa Code section 422.45(3) are met. See rule 701—17.1(422,423).

This rule is intended to implement Iowa Code section 422.45 as amended by 1998 Iowa Acts, House File 2513, and chapter 423.

701—18.25(422,423) Warranties and maintenance contracts.

18.25(1) In general—definitions. “Mandatory warranty.” A warranty is mandatory within the meaning of this regulation when the buyer, as a condition of the sale, is required to purchase the warranty or guaranty contract from the seller. “Optional warranty.” A warranty is optional within the meaning of this regulation when the buyer is not required to purchase the warranty or guaranty contract from the seller.

18.25(2) Mandatory warranties. When the sale of tangible personal property or services includes the furnishing or replacement of parts or materials which are pursuant to the guaranty provisions of the sales contract, a mandatory warranty exists. If the property subject to the warranty is sold at retail, and the measure of the tax includes any amount charged for the guaranty or warranty, whether or not such amount is purported to be separately stated from the purchase price, the sale of replacement parts and materials to the seller furnishing them thereunder is a sale for resale and not taxable. Labor performed under a mandatory warranty which is in connection with an enumerated taxable service is also exempt from tax.

18.25(3) Optional warranties. For periods after June 30, 1981.

a. The sale of optional service or warranty contracts which provide for the furnishing of labor and materials and require the furnishing of any taxable service enumerated under Iowa Code section 422.43 is considered a sale of tangible personal property the gross receipts from which are subject to tax at the time of sale except as described below.

b. On and after July 1, 1995, the sale of a residential service contract regulated under Iowa Code chapter 523C is not considered to be the sale of tangible personal property, and gross receipts from the sales of these service contracts are no longer subject to tax, and the gross receipts from taxable services performed for the providers of residential service contracts are now subject to tax. See the examples below for more detailed explanation. A “residential service contract” is defined in Iowa Code subsection 523C.1(8) to be: a contract or agreement between a residential customer and a service company which undertakes, for a predetermined fee and for a specified period of time, to maintain, repair, or replace all or any part of the structural components, appliances, or electrical, plumbing, heating, cooling, or air-conditioning systems of residential property containing not more than four dwelling units.

EXAMPLE A. John Jones purchases a residential service contract for \$3,000 on July 1, 1994. He pays \$150 of Iowa state sales tax. On December 1, 1994, his furnace malfunctions. The service company which sold Mr. Jones the contract pays Smith Furnace Repair \$700 to fix the furnace. No sales tax is due on the \$700 charge.

EXAMPLE B. Bob Jones purchases a residential service contract for \$3,000 on July 1, 1995. No sales tax is owing or paid. On December 1, 1995, his furnace becomes inoperable. The service company which sold Mr. Jones the contract pays Smith Furnace Repair \$900 to fix Mr. Jones’ furnace. Sales tax of \$45 is due based on the \$900.

c. On and after July 1, 1998, if an optional service or warranty contract is a computer software maintenance or support service contract and the contract provides for the furnishing of technical support services only and not for the furnishing of any materials, then no tax is imposed on the furnishing of those services under this subrule. If a computer software maintenance or support service contract provides for the performance of nontaxable services and the taxable transfer of tangible personal property, and no separate fee is stated for either the performance of the service or the transfer of the property, then state sales tax of 5 percent shall be imposed on 50 percent of the gross receipts from the sale of the contract. If a charge for the performance of the nontaxable service is separately stated, see subrule 18.25(5) below.

18.25(4) A preventive maintenance contract is a contract which requires only the visual inspection of equipment and no repair is or shall be included. The gross receipts from the sale of a preventive maintenance contract is not subject to tax.

18.25(5) Additional charges for parts and labor furnished in addition to that covered by a warranty or maintenance contract which are for enumerated taxable services shall be subject to tax. Only parts and

not labor will be subject to tax where a nontaxable service is performed if the labor charge is separately stated.

This rule is intended to implement Iowa Code sections 422.42 and 423.2 and Iowa Code Supplement section 422.43 as amended by 1998 Iowa Acts, Senate File 2288.

701—18.26(422) Service charge and gratuity. When the purchase of any food, beverage or meals automatically and invariably results in the inclusion of a mandatory service charge to the total price for such food, beverage or meal, the amounts so included shall be subject to tax. The term “service charge” means either a fixed percentage of the total price of or a charge for food, beverage or meal.

The mandatory service charge shall be considered: (1) a required part of a transaction arising from a taxable sale and a contractual obligation of a purchaser to pay to a vendor arising directly from and as a condition of the making of the sale and (2) a fixed labor cost included in the price for food, beverage or meal even though such charge is separately stated from the charge for the food, beverage or meal.

When a gratuity is voluntarily given for food, beverage or meal it shall be considered a tip and not subject to tax.

Cohen v. Playboy Club International, Inc., 19 Ill. App. 3d 215, 311 N.E.2d 336; *Baltimore Country Club, Inc. v. Comptroller of Treasury*, 272 Md. 65, 321 A.2d 308.

This rule is intended to implement Iowa Code section 422.43.

701—18.27(422) Advertising agencies, commercial artists, and designers.

18.27(1) Nontaxable services. Tax does not apply to charges by advertising agencies, commercial artists, or designers for services rendered that do not represent services that are a part of a sale of tangible personal property, or a labor or service cost in the production of tangible personal property. Examples of such nontaxable services are: writing original manuscripts and news releases; writing copy for use in newspapers, magazines, or other advertising, or to be broadcast on television or radio, compiling statistical and other information; placing or arranging for the placing of advertising in media, such as newspapers, magazines, or other publications; billboards and other facilities used in public transportation; and delivering or causing the delivery of brochures, pamphlets, cards, and similar items. Charges for such items as supervision, consultation, research, postage, express, transportation and travel expense, if involved in the rendering of such services, are likewise not taxable.

18.27(2) Agency fee or commission. When an amount billed as an agency “fee,” “service charge,” or “commission” represents a charge or part of the charge for any of the nontaxable services described under 18.27(1), the amount so billed is not taxable. Such charge by an advertising agency will be considered to be made for nontaxable services.

18.27(3) Items taxable. The tax applies to the entire amount charged to clients for items of tangible personal property such as drawings, paintings, designs, photographs, lettering, assemblies and printed matter. This includes the cost of typography and reproduction proofs when the latter is used as part of a paste-up, “mechanical” or assembly. Whether the items of property are used for reproduction or display purposes is immaterial.

18.27(4) Preliminary art. “Preliminary art” as used herein means roughs, visualizations, comprehensives and layouts prepared for acceptance by clients before a contract is entered into or approval is given for finished art. (“Finished art” as used herein means the final art used for actual reproduction by photo-mechanical or other processes.) Tax does not apply to separate charges for preliminary art, except where the preliminary art becomes physically incorporated into the finished art as for example, when the finished art is made by inking directly over a pencil sketch or drawing, or the approved layout is used as camera copy for reproduction.

The charge for preliminary art must be billed separately to the client, either on a separate billing or separately charged for on the billing for the finished art. It must be clearly identified on the billing as preliminary art, of one or more of the types mentioned in the preceding paragraph. Proof of ordering or producing the preliminary art prior to date of contract or approval for finished art shall be evidenced by purchase orders of the buyer, or by work orders or other records of the seller.

The following situations are examples of when the sale of “finished art” is taxable:

a. Finished art which is sold to customers to be used for advertising purposes in newspapers, magazines or the like. After the advertiser contracts with the ad agency for the development of an advertising message or theme, the agency devises ideas (preliminary art) and produces the finished art. The finished art is then delivered to the advertiser or to an agent of the advertiser such as a printer or publisher who is under contract with the advertiser to publish the ad.

b. Finished art which is sold to customers, or their agents (e.g., printers), for use in producing printed material. The charge for finished art is taxable even though the art work may later be returned to the ad agency by the purchaser or the printer or used by the customer or the customer's agent to produce a nontaxable item. Since the finished art is not a part of the printed materials, the ad agency's customer is consuming the material and not buying it for resale, or using it in an exempt manner.

c. Finished art which is used to produce other tangible personal property sold by the ad agency such as letterhead stationery and business cards. The charge for such art is taxable as part of the selling price for such stationery or business cards. This is true whether or not the agency separately itemizes the charge for such stationery or business cards.

18.27(5) *Items purchased by agency, artist or designer.* An advertising agency, artist, or designer is the consumer of tangible personal property used in the operation of its business, such as stationery, ink, paint, tools, drawing tables, T-squares, pens, pencils, and other office supplies. Tax applies to the sale of such property to the agency, artist, or designer. Tax also applies where the agency, artist or designer is the consumer of taxable services.

The agency, artist, or designer is the seller of, and may purchase for resale, any item resold before use, or that becomes physically an ingredient or component part of tangible personal property sold, as, for example, illustration board, paint, ink, rubber cement, flap paper, wrapping paper, photographs, photostats, or art purchased from other artists. Tax also applies where the agency, artist, or designer is the seller at retail of taxable services.

In the event that an agency, artist, or designer is both a consumer and a retailer of such items of tangible personal property as noted in this subsection, such agency, artist or designer should:

a. Purchase such items without tax liability if the majority of the items are sold at retail and remit the tax at the time of resale or at the time such items are consumed in the operation of the business.

b. Pay tax to suppliers at the time of purchase if the majority of the items will be consumed in the operation of the business and deduct the original cost of any such items subsequently sold at retail when reporting tax on their returns.

18.27(6) *Construction.* Nothing contained in this rule shall be construed to provide for an exemption from tax for services expressly taxable in rules 701—26.17(422) and 26.39(422).

18.27(7) *Advertising agencies, commercial artists and designers as agent of client or as a nonagent.*

a. In general. A true agent relationship depends upon the facts with respect to each transaction. An agent is one who represents another, called the principal, in dealings with third persons. Advertising agencies, commercial artists, and designers may act as agents on behalf of their clients in dealing with third persons or they may act on their own behalf. To the extent advertising agencies, artists and designers act as agents of their clients in acquiring tangible personal property, they are neither purchasers of the property with respect to the supplier nor sellers of the property with respect to their principals.

b. When advertising agencies, commercial artists, and designers act as agents of their clients in purchasing property for their clients, the tax applies to the gross receipts from the sale of such property to the advertising agencies, commercial artists, and designers. Unless such advertising agencies, commercial artists and designers act as true agents, they will be regarded as the retailers of tangible personal property furnished to their clients and the tax will apply to the total amount received for such property. Further, nothing in this rule should be construed to be in variance with the opinion of the Iowa Supreme Court in *Rowe vs. Iowa State Tax Commission*, 249 Iowa 1207, 91 N.W.2d 548 (1958).

c. To establish that a particular acquisition is made in the capacity of an agent for a client, advertising agencies, commercial artists, and designers (collectively herein referred to as agency) shall act as follows:

1. The agency must clearly disclose to the supplier the name of the client for whom the agency is acting as an agent.

2. The agency must obtain, prior to the acquisition, and retain written evidence of agent status with the client.

3. The price billed to the client, exclusive of any agency fee, must be the same as the amount paid to the supplier. The agency may make no use of the property for its own account, such as commingling the property of a client with another, and the reimbursement for the property should be separately invoiced or shown separately on the invoice to the client.

d. Some charges may represent reimbursement for tangible personal property acquired by the agency as agents for its clients and compensation for performing of agency services related thereto. When an advertising agency, commercial artist, or designer establishes that it has acquired tangible personal property as agents for its clients, tax does not apply to the charge made by the agency to its client for reimbursement charges by a supplier or to the charges made for the performance of the agency's services directly related to the acquisition of personal property.

e. Advertising agencies, commercial artists, and designers acting as agents shall not issue resale certificates to suppliers.

f. Advertising agencies, commercial artists, and designers act as retailers of all items of tangible personal property produced or fabricated by their own employees when they sell to their clients. Advertising agencies, commercial artists, and designers are not agents of their clients with respect to the acquisition of materials incorporated into items of tangible personal property prepared by their employees and sold at retail to their clients.

18.27(8) Scope. The scope of this rule is not confined simply to advertising agencies, commercial artists and designers, but also applies to all other businesses whose activities would bring them within the scope of this rule (e.g., printers).

This rule is intended to implement Iowa Code sections 422.43 and 423.2.

701—18.28(422,423) Casual sales.

18.28(1) *Casual sales by persons not retailers or by retailers outside the regular course of business.* Casual sales are exempt from the Iowa sales and use taxes except for the casual sale of vehicles subject to registration, and vehicles subject only to the issuance of a certificate of title. On and after July 1, 1988, the casual sale of aircraft is also taxable. In order for a casual sale to qualify for exemption under this subrule, two conditions must be present: (1) the sale of tangible personal property or taxable services must be of a nonrecurring nature, and (2) the seller, at the time of the sale, must not be engaged for profit in the business of selling tangible goods or services taxed under Iowa Code section 422.43 or, if so engaged, the sale must be outside the regular course of the seller's business (Order of State Board of Tax Review, Martin Development Corporation, Docket No. 136, December 1, 1976, incorporating by reference Order of Department of Revenue Hearing Officer in Docket No. 75-28-6A-A, July 9, 1976). See subrule 18.28(2) for an explanation of the casual sale exemption applicable to the liquidation of a trade or business.

If either of the conditions above are lacking, no casual sale occurs. Moreover, prior to July 1, 1985, the casual sale exemption was limited to sales of tangible personal property, and casual enumerated taxable services did not qualify for the exemption. *KTVO, Inc. v. Bair*, Equity No. 385 Linn County District Court, September 5, 1975.

For the purposes of this subrule, the word "aircraft" refers to any contrivance now known or hereafter invented, which is designed or used for navigation of or flight in the air, for the purpose of transporting persons, property, or both or for crop dusting, aerial surveillance, recreational flying, or for providing some other service. By way of nonexclusive example, balloons, gliders, helicopters, and "ultra lights" are aircraft. Also included within the meaning of the word "aircraft" is any craft registered under Iowa Code section 328.20 or any successor statute thereto.

Sales of capital assets such as equipment, machinery, and furnishings which are not sold as inventory shall be deemed outside the regular course of business (including sales of capital assets during a retailer's liquidation) and the casual sales exemption shall apply as long as such sales are nonrecurring. This will include transactions exempted from state and federal income tax under Section 351 of the Internal Revenue Code.

Two separate selling events outside the regular course of business within a 12-month period shall be considered nonrecurring. Three such separate selling events within a 12-month period shall be considered as recurring. Tax shall only apply commencing with the third separate selling event. However, in the event that a sale event occurs consistently over a span of years, such sale is recurring and not casual, even though only one sales event occurs each year. *Des Moines Police Department v. Bair*, Equity No. CE3-1591, Polk County District Court, November 1, 1976.

EXAMPLE: Corporation A sells the company copy machine at retail to B. At the time of this sale, Corporation A is engaged in the business for profit of selling clothes at retail. Assuming that the sale of the copy machine constitutes a sale of a nonrecurring nature, there is a casual sale because the sale is outside the regular course of Corporation A's business.

EXAMPLE: Corporation C is engaged in the business of lending money secured by collateral. In the course of such business, Corporation C must repossess some collateral and sell it at retail for purposes of payment of loans. Such sales recur from time to time. Notwithstanding that Corporation C is presumably not engaged in the business of selling tangible goods or services for a profit, since the sales are recurring, there is no casual sale. *S & M Finance Co., Fort Dodge v. Iowa State Tax Commission*, 1968, Iowa 162 N.W.2d 505.

EXAMPLE: F, a farmer, does not sell tangible personal property at retail or engage in the performance of any taxable services. F liquidates the farming business and hires a professional auctioneer to auction off many items of tangible personal property. Assuming this liquidation event is casual, all items sold by the auctioneer at retail are casual sales notwithstanding that many different sales to numerous different buyers may occur. See rule 18.8(422).

EXAMPLE: H, an insurance agency, holds a semiannual event to sell its used office furniture. Even though H does not regularly sell tangible personal property at retail, the casual sale exemption does not apply because the selling events are recurring. *Des Moines Police Department v. Bair*, Equity No. CE3-1591, Polk County District Court, November 1, 1976.

EXAMPLE: I, a corporation, has one sales event every year whereby it auctions off capital assets which it has no use for or desires to replace. This event has been a planned function of I and is conducted regularly and consistently over a span of years. Even though this sale event occurs only once a year, it is of a recurring nature because of the pattern of repetitiveness present and, therefore, the casual sale exemption would not apply, regardless of the number of items sold at such sale event each year.

EXAMPLE: J, a corporation engaged in the sale for resale of tangible personal property, sells three capital assets used in J's trade or business consisting of a copy machine, a desk, and a computer. Each sale is made to different buyers and is unrelated to the other sales. The three sales occur in January, June, and October of the same year. The sale made in October consists of a desk. J has not established a pattern of recurring sales of capital assets prior to aforementioned sales of capital assets. Under these circumstances, the sale of the desk is not a casual sale, but the sales of the copy machine and the computer are casual and exempt.

EXAMPLE: K, a corporation, is primarily engaged in the business of road construction. From time to time, it sells used capital assets and scrap materials reclaimed from its road construction work to individuals and businesses. It does not advertise itself as a retailer of these assets and materials but sells them as a matter of courtesy to persons who cannot purchase them elsewhere. After 42 years of operation, it decides to liquidate. Pursuant to that decision, K employs two auctioneers to sell its capital assets and ceases operation after its assets are sold. K had only one capital asset sale during the 12 months immediately preceding each liquidation auction sale. The auction sales are exempt casual sales under this subrule (1) because they are nonrecurring, and (2) because K is not a retailer of the capital assets sold during its liquidation. See *Holland Bros. Construction Co., Inc. v. Iowa State Board of Tax Review*, 611 N.W.2d 495 (Iowa 2000).

EXAMPLE: L, a sole proprietorship, engaged in selling automobile parts at retail, incorporated. The assets of L are sold to the new corporation in exchange for stock and the new corporation now engages in selling automobile parts at retail. The casual sale exemption would apply, but only because of the exemption set out in subrule 18.28(2) infra, since the transfer involves a liquidation of L's business and

the sale of L's inventory to another person (the corporatin) which will continue to engage in a similar trade or business.

The above examples are not the only ones pertaining to the questions of whether a casual sale did or did not occur. However, because of the myriad of factual situations which can and do exist, it is not possible to formulate more detailed rules on this subject matter.

18.28(2) Special rules for casual sales involving the liquidation of a trade or business. When retailers sell all or substantially all of the tangible personal property held or used in the course of the trade or business for which retailers are required to hold a sales tax permit, the casual sale exemption will apply to exempt those sales only when the following circumstances exist: (1) the trade or business must be transferred to another person, and (2) the transferee must engage in a similar trade or business. The trade or business transferred refers to the place where the business is located since each taxable retail business must have a sales tax permit at each location. For purposes of this casual sale circumstance, it is irrelevant whether the retailer actually has a sales tax permit or not; rather, the relevant circumstance is that the retailer was required to have a sales tax permit. See *Holland Bros. Construction Co., Inc. v. Iowa State Board of Tax Review*, 611 N.W.2d 495 (Iowa 2000). One effect of this is that a retailer who is closing as opposed to transferring a business and is selling inventory in the process of this closing is not entitled to claim the casual sale exemption under this subrule, but see subrule 18.28(1), and the resale exemption is always potentially applicable to sales of inventory. See the examples below for further explanation.

EXAMPLE: L, a hardware store, desires to liquidate the business. L had been selling tangible personal property at retail and was required to have an Iowa retail sales tax permit. L hires a professional auctioneer and all items of inventory, equipment, and fixtures are sold to various purchasers. These items consist of all or substantially all of the tangible personal property held or used by L in the course of the business for which a sales tax permit was required to be held. L, however, does not transfer the trade or business to anyone else. Under these circumstances, the casual sales exemption does not apply to the sale of the inventory, but see subrule 18.28(1) for criteria which determine whether the casual sales exemption applies to the equipment and fixtures.

EXAMPLE: The facts are the same as those in the previous example, except that L is liquidating its business because it attempted to build a new store and its entire inventory was destroyed by fire while in storage. An auctioneer sells L's equipment and trade fixtures to various purchasers. The auctioneer's sale of the equipment and trade fixtures is an exempt casual sale of the type described in subrule 18.28(1) because (1) it is nonrecurring, and (2) it is outside the usual course of L's business. See *Holland Bros. Construction Co., Inc.*, supra.

EXAMPLE: M, a sole proprietorship, incorporated. The assets of M are sold to the new corporation for stock. The new corporation engaged in a similar business. The casual sale exemption would apply.

EXAMPLE: N, an oil company, sells all or substantially all of the tangible personal property of ten company-owned service stations which were held or used in the course of its business, for which N was required to hold a sales tax permit, by bulk sales or otherwise. The sales were made to O, P, and Q and occurred at different times during the same year, each sale being unrelated. N was required to have a sales tax permit for each service station. N transferred its trade or business (each service station) to O, P, and Q, each of whom will engage in the same business N did, i.e., operation of service stations. Even though under these circumstances, the sales by N are recurring, the casual sales exemption would apply since each trade or business was transferred to another person who did engage in a similar trade or business.

EXAMPLE: R, an operator of a restaurant, auctions off to various purchasers who are not engaged in the restaurant business all or substantially all of the tangible personal property held or used in the business for which R was required to hold a retail sales tax permit. R transfers the trade or business to S who then operates a restaurant at the same location R did. Even if S did not purchase any of the tangible personal property, under these circumstances, the casual sales exemption applies. The tangible personal property held or used in the trade or business need not be sold to the same person to whom the trade or business is sold for the exemption to apply.

EXAMPLE: T, a restaurant, sells all of its tangible personal property held or used in the course of its business for which it was required to hold a sales tax permit to U. T also sells its trade or business to U. U engages in the business of operation of a dance hall and does not continue to operate the restaurant. This subrule's casual sales exemption will not apply, but see subrule 18.28(1) for the criteria of a casual sale exemption which could apply.

The above examples are not the only ones pertaining to the questions of whether a casual sale did or did not occur. However, because of the myriad of factual situations which can and do exist, it is not possible to formulate more detailed rules on this subject matter.

18.28(3) *Casual sales of services.* Special rule for services rendered, furnished, or performed on or after July 1, 1985. The "casual sale" of an enumerated service has occurred if the following circumstances exist:

a. The service was rendered, furnished, or performed on or after July 1, 1985; and

b. The service was rendered, furnished, or performed on a nonrecurring basis by a seller who, at the time of the sale of the service, is not engaged for profit in the business of selling tangible goods or services taxed under Iowa Code section 422.43, or, if so engaged, the sale was outside the regular course of the seller's business; or

c. The sales of all, or substantially all of the services held or used by a retailer in the course of the retailer's trade or business for which the retailer is required to hold a sales tax permit, if the retailer sells or otherwise transfers the trade or business to another person who engages in a similar trade or business.

EXAMPLE: V ordinarily engages in janitorial and building maintenance or cleaning which are taxable services; see rule 701—26.60(422). Once, as a favor to customer W, V cut customer W's lawn and otherwise performed the taxable service of "lawn care" for customer W. Since this performance of lawn care was not "within V's regular course of business" and was not "recurring," gross receipts from the lawn care are not subject to tax.

EXAMPLE: Corporation X rents a piece of equipment from Y. Y does not otherwise rent equipment and does not engage in the business for profit of selling tangible goods or taxable enumerated services. A casual sale qualifying for the exemption exists.

This rule is intended to implement Iowa Code sections 422.42(12), 422.45(6) and 423.4.

701—18.29(422,423) Processing, a definition of the word, its beginning and completion characterized with specific examples of processing.

18.29(1) *Processing—a definition.* For the purpose of these rules, "processing" means an operation or a series of operations whereby tangible personal property is subjected to some special treatment by artificial or natural means which changes its form, context, or condition, and results in marketable tangible personal property. These operations are commonly associated with fabricating, compounding, germinating, or manufacturing. *Linwood Stone Products Co. v. State Department of Revenue*, 175 N.W.2d 393 (Iowa 1970).

18.29(2) *The beginning of processing.* Processing begins when the "form, context, or condition" of tangible personal property is changed with the intent of eventually transforming the property into a saleable finished product. The severance of raw material from real estate is not processing, even if this severance results in a change in the form, context, or condition of the real estate. *Linwood Stone Products Co. v. State Department of Revenue*, 175 N. W.2d 393 (Iowa 1970). Furthermore, transportation of raw material after it is severed from real estate but prior to the time the initial change in the form, context, or condition of the raw material occurs is not processing. *Southern Sioux County Rural Water System, Inc. v. Iowa Department of Revenue*, 383 N.W.2d 585 (Iowa 1986).

18.29(3) *The completion of processing.* Processing ends when the property being processed is in the form in which it is ultimately intended to be sold at retail, *Hy-Vee Food Stores v. Iowa Department of Revenue*, 379 N.W.2d 37 (Iowa App. 1985). The storage or transport of property after that property is transformed into a finished product is not a part of processing.

18.29(4) *Examples of when processing begins and ends.* The following examples are intended to clarify but not to contradict the explanation of processing set out in subrules 18.29(2) and 18.29(3).

EXAMPLE A: A company blasts limestone from the ground, bulldozers pick the limestone up and put it in trucks; these trucks transport the limestone to a crusher some distance from the quarry site. The first change in the “form” or “condition” of the limestone, while it is tangible personal property, occurs when the stone is crushed in the crusher. The blasting of the stone from the ground and its transport to the crusher would be acts preparatory to and not a part of processing. Thus, fuel used in the bulldozers and transport trucks would not be fuel used in processing, *Linwood Stone Products*, supra.

EXAMPLE B: Pumps remove water from underground wells and pump that water through pipes to a water treatment plant. At the treatment plant, the water passes initially through an aeration system which adds oxygen to it. At other points in the plant, potassium and chlorine are added to the water and iron is removed. After these acts are performed, clean, drinkable water exists. The first change, however, in the condition of the water occurs when it passes through the aeration system and oxygen is added to it. The withdrawal of the water from the ground and its transport to the aeration system would not be a part of processing. Thus, electricity used by the pumps which pump the water to the aeration system would not be used in processing. However, by way of contrast, electricity used to transport the water between, for example, the aeration system and the point where potassium is added to the water would be used in processing. *Southern Sioux Rural Water System, Inc.*, supra.

EXAMPLE C: Water is processed in a treatment plant. The last act at the plant necessary to render the water drinkable or a “finished product” is the addition of chlorine. After the addition of chlorine, the water is pumped first into wells and later into water towers where it is held for distribution. The pumping of this drinkable water from the point where the chlorine is added to the wells and the tower is not a part of processing because processing of the water ended with the addition of the chlorine; thus, electricity used in these pumps is not electricity used in processing. *Southern Sioux County Rural Water System, Inc.*, supra.

18.29(5) Integral part of the production of the product test. Certain activities may be exempt as part of processing if those activities are very closely interconnected with, or an integral part of, the operation of the processing equipment while processing is occurring. *Southern Sioux Rural Water System, Inc.*, supra. Merely because an activity is vital or essential to a processing operation does not make that activity exempt as part of processing unless the activity itself is closely interconnected with, or an integral part of, the operation of the processing equipment while processing is occurring. *Mississippi Valley Milk Producers Ass’n v. Iowa Dept. of Revenue*, 387 N.W.2d 611 (Iowa App. 1986). See the nonexclusive example below.

A manufactures nails. In A’s factory is a machine which draws steel into long rods the width of whatever nail A may wish to manufacture. After this machine draws the steel into the desired-size rods, the rods are moved to a second machine by a conveyor belt. This second machine cuts the rods into the length of nail which A desires. A second conveyor belt then transports these cut rods to a third machine which sharpens one end of the rod to a point and puts a “nail head” on the other end of the rod. The activities of the three machines are clearly processing, in that they are activities which change the form, context or condition of raw material, and as a result of those activities, marketable tangible personal property or a finished product is created. The two conveyor belts move the partially finished nails from one piece of processing equipment to another while processing is occurring. Since the activities of the conveyors are very closely interconnected with and an integral part of the operation of the various pieces of processing equipment while processing is occurring, the conveyor belts are involved in processing as well.

18.29(6) Other specific examples of processing. The Iowa Supreme Court has also stated that the following activities are processing: manufacturing ice, refrigerating cheese to age it from “green” to edible, refrigerating eggs to change their flavor, pasteurizing and subsequent refrigeration of milk, “hard” freezing of meat and butter for aging, canning vegetables and cooking foodstuffs; *Fischer Artificial Ice & Cold Storage Co. v. Iowa State Tax Commission*, 248 Iowa 497, 81 N.W.2d 437 (1957); and, *Mississippi Valley Milk Producers v. Iowa Dept. of Revenue and Finance*, 387 N.W.2d 611 (Ia. App. 1986), also crushing of “flat rock” limestone and treating limestone in kilns. *Linwood Stone Products Co. v. State Dept. of Revenue*, 175 N.W.2d 393 (Iowa 1970). See 701—subrule 17.3(2) for an expanded definition of processing with regard to food manufacturing.

18.29(7) Other department rules concerned with processing. Various sections of the Iowa Code set out activities that are defined by statute to be “processing.” The rules interpreting these statutes for the purposes of sales and use tax law are the following:

- a. 701—15.3(422,423) Exemption certificates, direct pay permits, fuel used in processing, and beer and wine wholesalers.
- b. 701—17.2(422) Fuel used in processing—when exempt.
- c. 701—17.3(422,423) Processing exemptions.
- d. 701—17.9(422,423) Sales of breeding livestock, fowl, and certain other property used in agricultural production. See 701—subrules 17.9(4), 17.9(5), 17.9(6), and 17.9(7) for processing exemptions.
- e. 701—17.14(422,423) Chemicals, solvents, sorbents, or reagents used in processing.
- f. 701—18.3(422,423) Chemical compounds used to treat water.
- g. 701—18.45(422,423) Sale or rental of computers, industrial machinery and equipment; refund of and exemption from tax paid for periods prior to July 1, 1997.
- h. 701—18.58(422,423) Sales or rentals of machinery, equipment, and computers and sales of fuel and electricity to manufacturers and sales or rentals of computers to commercial enterprises for periods on and after July 1, 1997, but before July 1, 2016.
- i. 701—26.2(422) Enumerated services exempt. See 701—subrule 26.2(2) for the processing exemption.
- j. 701—28.2(423) Processing of property defined.
- k. 701—33.3(423) Fuel consumed in creating power, heat, or steam for processing or generating electric current.
- l. 701—33.7(423) Property used to manufacture certain vehicles to be leased.
- m. For property sold as part of a contract entered into on or after July 1, 2016, computers, machinery, and equipment used for an exempt purpose under Iowa Code section 423.3(47). See rules 701—230.14(423) to 701—230.22(423).
[ARC 2349C, IAB 1/6/16, effective 2/10/16]

701—18.30(422) Taxation of American Indians.

18.30(1) Definitions.

“*American Indians*” means all persons of Indian descent who are members of any recognized tribe.

“*Settlement*” means all lands within the boundaries of the Mesquakie Indian settlement located in Tama County, Iowa and any other recognized Indian settlement or reservation within the boundaries of the state of Iowa.

18.30(2) Retail sales tax—tangible personal property. Retail sales of tangible personal property made on a recognized settlement or reservation to Indians who are members of the tribe located on that settlement or reservation, where delivery occurs on the reservation, are exempt from tax (*Bryan v. Itasca County*, 426 U.S. 373, 376-77 (1976); *Moe v. Confederated Salish & Kootenai Tribes*, 425 U.S. 463, 475-81 (1976)). Retail sales of tangible personal property made on a recognized settlement or reservation to Indians where delivery occurs off the reservation are subject to tax. Retail sales of tangible personal property made to non-Indians on a recognized settlement or reservation are subject to tax regardless of where the delivery occurs. Sales made to non-Indians are taxable even though the seller may be a member of a recognized settlement or reservation.

18.30(3) Retail sales tax—services. Sales of enumerated taxable services and sales made by municipal corporations furnishing gas, electricity, water, heat, or communication services to Indians who are members of the tribe located on the recognized settlement or reservation where delivery of the service occurs are exempt from tax (*Bryan v. Itasca County*, 426 U.S. 373, 376-77 (1976); *Moe v. Confederated Salish & Kootenai Tribes*, 425 U.S. 463, 475-81 (1976)). Sales of enumerated taxable services or sales made by municipal corporations furnishing gas, electricity, water, heat, or communication services to Indians where delivery of the services occurs off a recognized settlement or reservation are subject to tax.

18.30(4) *Off-reservation purchases.* Purchases made by Indians off a recognized settlement or reservation are subject to tax if delivery occurs off the reservation. Purchases made by Indians off a recognized settlement or reservation are not subject to tax if delivery is made on the reservation to Indians who are members of the tribe located on that reservation.

See rule 701—33.5(423) for the taxation of tangible personal property and services where the state use tax may be applicable.

This rule is intended to implement Iowa Code sections 422.42, 422.43, and 422.45(1).

701—18.31(422,423) Tangible personal property purchased by one who is engaged in the performance of a service.

18.31(1) *In general. (Effective July 1, 1990)*

a. On and after July 1, 1990, tangible personal property purchased by one who is engaged in the performance of a service is purchased for resale and not subject to tax if (1) the provider and user of the service intend that a sale of the property will occur, and (2) the property is transferred to the user of the service in connection with the performance of the service in a form or quantity capable of a fixed or definite price value, and (3) the sale is evidenced by a separate charge for the identifiable piece or quantity of property.

b. Prior to July 1, 1990, in those circumstances in which tangible personal property is purchased by one who is engaged in the performance of a service and the property is transferred to the customer in conjunction with a performance of the service in a form or quantity which is capable of any fixed or definite price value, but the actual sale of the property is not indicated by a separate charge for the identifiable item, the burden of proving that the property was purchased for resale by one engaged in the performance of a service and not subject to tax at the time of purchase is upon the person engaged in the performance of a service who asserts this.

c. Tangible personal property which is not sold in the manner set forth in “*a*” or “*b*” above is not purchased for resale and thus is subject to tax at the time of purchase by one engaged in the performance of a service. Such tangible personal property is considered to be consumed by the purchaser who is engaged in the performance of a service and the person performing the service shall pay tax upon the sale at the time of purchase.

EXAMPLE: An investment counselor purchases envelopes. These envelopes are used to send out monthly reports to the investment counselor’s clients regarding their accounts. Tax is due at the time the investment counselor purchases the envelopes if the clients are not billed for these items. Each envelope is transferred to a client in a form or quantity which is capable of a fixed or definite price value. However, there must also be an actual sale to the client (customer) of an item of personal property in order that there be a “resale” of the item.

An automobile repair shop purchases solvents which are used in cleaning automobile parts and thus in performing its automobile repair service. Tax is due at the time the automobile repair shop purchases the solvent since the solvents are not sold to the customer and, in this case, the item is not transferred to a customer in a form or quantity which is capable of a fixed or definite price value. Thus, the solvent is deemed consumed by the purchaser engaged in the performance of the service.

EXAMPLE: A retailer purchases television tubes tax-free where the retailer makes a separate charge for the tube to the customer and since the tube is transferred to the customer in a form or quantity capable of a fixed or definite price value.

EXAMPLE: A beauty or barber shop purchases shampoo and other items to be used in the performance of its service. Tax is due at the time the beauty or barber shop purchases such items from its supplier, where the customers of the beauty or barber shop are not separately billed for the item, and because it is not transferred to the customer in a form or quantity capable of a fixed or definite price value, it is being consumed by the beauty or barber shop.

EXAMPLE: A car wash purchases water, electricity, or gas used in the washing of a car. The car wash would be the consumer of the water, electricity, or gas and tax is due at the time of purchase. The items purchased by the car wash are not transferred to the customer in a form or quantity capable of a fixed or definite price value, and the customer is not billed for the item.

EXAMPLE: An accounting firm purchases plastic binders which are used to cover the reports issued to its customers. These binders would be subject to tax at the time of purchase by the firm where the customer of the firm is not billed for the item, there being no sale to the customer in such a case.

EXAMPLE: A meat locker purchases materials such as wrapping paper and tape which it uses to wrap meat for customers who provide the locker with the meat. These materials would be subject to tax at the time of purchase by the meat locker because they are not sold to the customer in a form or quantity capable of a fixed or definite price value.

EXAMPLE: A jeweler purchases materials such as main springs and crystals to be used in the performance of a service. These items are purchased by the jeweler for resale where they are transferred to the customer in a form or quantity capable of a fixed or definite price value and each item is actually sold to the customer as evidenced by a separate charge therefor.

EXAMPLE: A lawn care service applies fertilizer, herbicides, and pesticides to its customers' lawns. The following are examples of invoices to customers which are suitable to indicate a lawn care service's purchase of the fertilizer, herbicides, and pesticides for resale to those customers: "Chemicals...31 Gal...\$60"; "Fertilizer...50 lbs....\$100"; and "Materials applied to lawn...4 bushel...\$40". The following are examples of information placed upon an invoice which would not indicate a purchase for resale to the customers invoiced: "Fifty percent of the charge for this service is for materials placed on a lawn," or "Lawn chemicals...\$30" or "Fifty pounds of fertilizer was applied to this lawn."

18.31(2) *Purchases made by automobile body shops or garages with body shops (effective October 1, 1980).*

Tangible personal property purchased by body shops can be purchased for resale provided both of the following conditions are met:

1. The property purchased for resale is actually transferred to the body shop's customer by becoming an ingredient or component part of the repair work. See Iowa Code section 422.42(2) and *Cedar Valley Leasing Inc. v. Iowa Department of Revenue*, 274 N.W.2d 357 (Iowa 1979).

2. The property purchased for resale is itemized as a separate item on the invoice to the body shop's customer and is transferred to the customer in a form or quantity capable of a fixed or definite price value.

If either of the above two events is missing, there is no purchase for resale and the body shop is deemed the consumer of the item purchased.

When body shops purchase items which will be resold (see list of items in this rule) in the course of the repair activity, the vendors selling to the body shops are encouraged to accept a valid resale certificate at the time of purchase. See rule 701—15.3(422,423). Failure of the vendor to accept a valid resale certificate may subject that vendor to sales tax liability since the burden of proof would be on the vendor that a sale was made for resale. If the vendor cannot meet that burden, the vendor will be liable for the sales tax. Such burden is not met merely by a showing that the purchaser had obtained from the department an Iowa retail sales tax or retail use tax permit.

For insurance purposes, body shops are reimbursed by insurance companies for "materials" which such shops consume in rendering repair services. Some of the materials are transferred to the recipients of the repair services and some are not. Of those so transferred, such transfer is in irregular quantities and is not in a form or quantity capable of a fixed or definite price value. Therefore, body shops are generally deemed to be the consumers of materials and must pay tax on these items at the time of purchase. Nonexclusive examples of items most likely to be included in this category of "materials," whether actually transferred to customers of body shops or not, are as follows:

- Abrasives
- Accessories
- Battery water
- Body filler or putty
- Body lead
- Bolts, nuts and washers
- Brake fluid
- Buffing pads

Chamois
Cleaning compounds
Degreasing compounds
Floor dry
Hydraulic jack oil
Lubricants
Masking tape
Paint
Polishes
Rags
Rivets and cotter pins
Sand paper
Sanding discs
Scuff pads
Sealer and primer
Sheet metal
Solder
Solvents
Spark plug sand
Striping tape
Thinner
Upholstery tacks
Waxes
White sidewall cleaner

The following are nonexclusive examples of parts which can be purchased for resale since they are generally transferred to the body shop's customer during the course of the repair in a form or quantity capable of a fixed or definite price value and are generally itemized separately as parts.

Batteries
Brackets
Bulbs
Bumpers
Cab corners
Chassis parts
Doors
Door guards
Door handles
Engine parts
Fenders
Floor mats
Grills
Headlamps
Hoods
Hub caps
Radiators
Rocker panels
Shock absorbers
Side molding
Spark plugs
Tires
Trim
Trunk lids
Wheels

Window glass
Windshield ribbon
Windshields

The following are nonexclusive examples of tools and supplies which are generally not transferred to the body shop's customer during the course of the repair and therefore could not be purchased for resale. The body shop is deemed the consumer of these items since they are not transferred to a customer and therefore the body shop must pay tax to the vendor at the time of purchase.

Air compressors and parts
Body frame straightening equipment
Brooms and mops
Buffers
Chisels
Drill bit
Drop cords
Equipment parts
Fire extinguisher fluids
Floor jacks
Hand soap
Hand tools
Office supplies
Paint brushes
Paint sprayers
Sanders
Spreaders for putty
Signs
Washing equipment and parts
Welding equipment and parts

Because of the nature of their business and the formulas devised by the insurance industry to reimburse body shops for cost of "materials," it is possible for body shops, in their invoices to their customers, to separately set forth labor, resold parts, and materials. While the materials can be separately invoiced as one general item, there is no way to ascertain a definite and fixed price for each item of the materials listed in this rule and consumed by the body shops and some of such individual materials are not even transferred by body shops to their customers. Therefore, the body shops are generally the "consumers" of "materials" and do not purchase them for resale. *W. J. Sandberg Co. v. Iowa State Board of Assessments and Review*, 225 Iowa 103, 278 N.W. 643 (1938). Thus, body shops should pay tax to their suppliers on all materials purchased and consumed by them. If materials are purchased from non-Iowa suppliers who do not collect Iowa tax from body shops, such body shops should remit consumer use tax to the Department of Revenue on such materials.

Body shops must collect sales tax on the taxable service of repairing motor vehicles. See rule 701—26.5(422). However, due to the nature of the insurance formulas, it is possible for body shops to itemize that portion of their billing which would be for repair services and that portion relating to consumed "materials." It is also possible for body shops to itemize that portion of their charges for parts which they purchase for resale to their customers. Body shops do not and cannot resell the tools and supplies previously listed in this rule and are taxable on their purchases of such items.

Therefore, as long as body shops separately itemize on their invoices to their customers the amounts for labor, parts, and for "materials," body shops should collect sales tax on the labor and the parts, but not on the materials as enumerated in this rule.

EXAMPLE: A body shop repairs a motor vehicle by replacing a fender and painting the vehicle. In doing the repair work, the body shop uses rags, sealer and primer, paint, solder, thinner, bolts, nuts and washers, masking tape, sandpaper, waxes, buffing pads, chamois, solder and polishes. In its invoice to the customer, the labor is separately listed at \$300, the part (fender) is separately listed at \$300, and the category of "materials" is separately listed for a lump sum of \$100, for a total billing of \$700. The Iowa

sales tax computed by the body shop should be on \$600 which is the amount attributable to the labor and the parts. The materials consumed by the body shop were separately listed and would not be included in the tax base for “gross taxable services” as defined in Iowa Code subsection 422.42(16), which is taxable in Iowa Code section 422.43.

In this example, if the “materials” were not separately listed on the invoice, but had been included in either or both of the labor or part charges by marking up such charges, the body shop would have to collect sales tax on the full charges for parts or labor even though tax was paid on materials by the body shop to its supplier at time of purchase.

This rule is intended to implement Iowa Code sections 422.42, 422.43 and 423.2.

701—18.32(422,423) Sale, transfer or exchange of tangible personal property or taxable enumerated services between affiliated corporations.

18.32(1) *In general.* The sale, transfer or exchange of tangible personal property or taxable services among affiliated corporations, included but not limited to a parent corporation to a subsidiary corporation, for a consideration is subject to tax. A bookkeeping entry for an “account payable” qualifies as consideration as well as the actual exchange of money or its equivalent. Transactions between affiliated corporations may not be subject to tax where it can be shown that the affiliated corporations are operating as a unit within the meaning of Iowa Code sections 422.42(1) and 423.1(8).

18.32(2) *Affiliated corporations acting as a unit.* If an affiliated corporation acts as an agent for the other affiliated corporation in a transaction listed in 18.32(1) such corporation shall be considered as acting as a unit as set forth herein and such transactions may not be subject to tax.

This rule should not be equated with the unitary business concept used in corporation income tax law.

This rule is intended to implement Iowa Code sections 422.42(1) and 423.1(8).

701—18.33(422,423) Printers’ and publishers’ supplies exemption with retroactive effective date.

18.33(1) For the purposes of this rule, a “printer” is any person, a portion of whose business involves the completion of a finished, printed product for sale at retail by that person or another person. A “printer” is also any person, a portion of whose business involves the completion of a finished printed packaging material used to package products for ultimate sale at retail. The term “printer” does not include any person printing or copyrighting printed material for its own use or consumption and not for resale. A “publisher” means and includes any person who owns the right to produce, market, and distribute printed literature and information for ultimate sale at retail.

18.33(2) Effective May 4, 1995, and retroactive to July 1, 1983, the gross receipts from the sale or rental of the following to a printer or publisher are exempt from tax: acetate; antihalation backing; antistatic spray; back lining; base material used as a carrier for light sensitive emulsions; blankets; blow-ups; bronze powder; carbon tissue; codas; color filters; color separations; contacts; continuous tone separations; creative art; custom dies and die cutting materials; dampener sleeves; dampening solution; design and styling; diazo coating; dot etching; dot etching solutions; drawings; drawsheets; driers; duplicate films or prints; electronically digitized images; electrotypes; end product of image modulation; engravings; etch solutions; film; finished art or final art; fix; fixative spray; flats; flying pasters; foils; goldenrod paper; gum; halftones; illustrations; ink; ink paste; keylines; lacquer; lasering images; layouts; lettering; line negatives and positives; linotypes; lithographic offset plates; magnesium and zinc etchings; masking paper; masks; masters; mats; mat service; metal toner; models; modeling; mylar; negatives; nonoffset spray; opaque film process paper; opaquing; padding compound; paper stock; photographic materials: acids, plastic film, desensitizer emulsion, exposure chemicals, fix, developers, paper; photography, day rate; photopolymer coating; photographs; photostats; photo-display tape; phototypesetter materials; pH-indicator sticks; positives; press pack; printing cylinders; printing plates, all types; process lettering; proof paper; proofs and proof processes, all types; pumice powder; purchased author alterations; purchased composition; purchased phototypesetting; purchased stripping and paste-ups; red litho tape; reducers; roller covering; screen tints; sketches; stepped plates; stereotypes; strip types; substrate; tints; tissue overlays; toners; transparencies; tympan;

typesetting; typography; varnishes; Veloxes; wood mounts; and any other items used in a similar capacity to any of the above-enumerated items by the printer or publisher to complete a finished product for sale at retail. Expendable tools and supplies not enumerated in this subrule are subject to tax.

18.33(3) Claim for refunds of tax, interest, or penalty paid for the period of July 1, 1983, to June 30, 1995, must be limited to \$25,000 in the aggregate and will not be allowed unless filed prior to October 1, 1995. If the amount of claimed refunds for this period totals more than \$25,000, the department must prorate the \$25,000 among all claims.

701—18.34(422,423) Automatic data processing.

18.34(1) *In general.*

a. Applicability of tax. For the purposes of this rule, the tax on automatic data processing is applicable to the gross receipts of:

- (1) Sales and rentals of data processing equipment (hardware).
- (2) Sales and rentals of tangible personal property produced or consumed by data processing equipment or prewritten (canned) computer software used in data processing operations.
- (3) Certain enumerated services performed on or connected with data processing such as rental of tangible personal property, machine repair, services of machine operators, office and business machines repair, electrical installation, and any other taxable service enumerated in Iowa Code section 422.43.

b. Definitions.

(1) “*Computer*” means a programmed or programmable machine or device having information processing capabilities and includes word processing equipment, testing equipment, and programmed or programmable microprocessors and any other integrated circuit embedded in manufactured machinery or equipment.

(2) “*Hardware*” means the physical computer assembly and peripherals including, but not limited to, such items as the central processing unit, keyboards, consoles, monitors, memory, disk and tape drives, terminals, printers, plotters, modems, tape readers, document sorters, optical readers and digitizers.

(3) “*Canned software*” is prewritten computer software which is offered for general or repeated sale or rental to customers with little or no modification at the time of the transaction beyond specifying the parameters needed to make the program run. Canned software is tangible personal property. The term also includes programs offered for general or repeated sale or rental which were initially developed as custom software. Evidence of canned software includes the selling or renting of the software more than once. Software may qualify as custom software for the original purchaser or lessor but is canned software with respect to all others. Canned software includes program modules which are prewritten and later used as needed for integral parts of a complete program.

(4) “*Custom software*” is specified, designed, and created by a vendor at the specific request of a customer to meet a particular need and is considered to be a sale of a service rather than a sale of tangible personal property. It includes those services represented by separately stated charges for the modification of existing prewritten software when the modifications are written or prepared exclusively for a customer. Modification to existing prewritten software to meet the customer’s needs is custom computer programming only to the extent of the modification and only to the extent that the actual amount charged for the modification is separately stated. Examples of services that do not result in custom software include loading parameters to initialize program settings and arranging preprogrammed modules to form a complete program.

When the charges for modification of a prewritten program are not separately stated, tax applies to the entire charge made to the customer for the modified program unless the modification is so significant that the new program qualifies as a custom program. If the prewritten program before modification was previously marketed, the new program will qualify as a custom program if the price of the prewritten program was 50 percent or less of the price of the new program. If the prewritten program was not previously marketed, the new program will qualify as a custom program if the charge made to the customer for custom programming services, as evidenced by the records of the seller, was more than 50 percent of the contract price to the customer.

The department will consider the following records in determining the extent of modification to prewritten software when there is not a separate charge for the modification: logbooks, timesheets, dated documents, source codes, specifications of work to be done, design of the system, performance requirements, diagrams of programs, flow diagrams, coding sheets, error printouts, translation printouts, correction notes, and invoices or billing notices to the client.

(5) “*Storage media*” includes hard disks, compact disks, floppy disks, diskettes, diskpacks, magnetic tape, cards, or other media used for nonvolatile storage of information readable by a computer.

(6) “*Rental*” includes any lease or license agreement between a vendor and a customer for the customer’s use of hardware or software.

(7) “*Program*” is interchangeable with the term “software” for purposes of this rule.

18.34(2) Taxable sales, rentals and services.

a. Sales of equipment. Tax applies to sales of automatic data processing equipment and related equipment.

b. Rental or leasing of equipment. Where a lease includes a contract by which a lessee secures for a consideration the use of equipment which may or may not be used on the lessee’s premises, the rental or lease payments are subject to tax. See rule 701—26.18 on tangible personal property rental.

c. Canned software. The sale or rental for a consideration of any computer software which is not custom software is a transfer of tangible personal property and is taxable. Canned software may be transferred to a customer in the form of diskettes, disks, magnetic tape, or other storage media or by listing the program instructions on coding sheets.

(1) Tax applies whether title to the storage media on which the software is recorded, coded, or punched passes to the customer or the software is recorded, coded, or punched on storage media furnished by the customer. A fee for the temporary transfer of possession of canned software for the purpose of direct use to be recorded, coded, or punched by the customer or by the lessor on the customer’s premises, is a sale or rental of canned software and is taxable.

(2) Tax applies to the entire amount charged to the customer for canned software. Where the consideration consists of license fees, royalty fees, right to use fees or program design fees, whether for a period of minimum use or for extended periods, all fees includable in the purchase price are subject to tax.

d. Training materials. Persons who sell or lease data processing equipment may provide a number of training services with the sale or rental of their equipment. Training services, per se, are not subject to tax. Training materials, such as books, furnished to the trainees for a specific charge are taxable.

e. Services a part of the sale or lease of equipment. Where services, such as programming, training or maintenance services, are provided to those who purchase or lease automatic data processing and related equipment, on a mandatory basis as an inseparable part of the sale or taxable lease of the equipment, charges for the furnishing of the services are includable in the measure of tax from the sale or lease of the equipment whether or not the charges are separately stated. (Where the purchaser or lessee has the option to acquire the equipment either with the services or without the services, charges for the services may not be excluded from the measure of tax if they are taxable enumerated services.)

f. Materials and supplies. The transfer of title, for a consideration, of tangible personal property, including property on which or into which information has been recorded or incorporated is a sale subject to tax.

Generally service bureaus are consumers of all tangible personal property, including cards and forms, which they use in providing services unless a separate charge is made to customers for the materials, in which case, tax applies to the charge made for the materials.

g. Additional copies. When additional copies of records, reports, tabulation, etc., are sold, tax applies to the charges made for the additional copies. “Additional copies” are all copies in excess of those produced on multipart carbon paper simultaneously with the production of the original and on the same printer, whether the copies are prepared by rerunning the same program, by using multiple simultaneous printers, by looping a program such that the program is run continuously, by using different programs to produce the same output product, or by other means. Where additional copies are prepared, the tax will be measured by the charge made by the service bureau to the customer. If no separate charge is made

for the additional copies, tax applies to that portion of the gross receipts which the cost of the additional computer time (if any) and the cost of materials and labor cost to produce the additional copies bear to the total job cost. Charges for copies produced by means of photocopying, multilithing, or by other means are subject to tax. Tax applies to a contract where data on magnetic tape are converted into combinations of alphanumeric printing, curve plotting or line drawings, and put on microfilm or photorecording paper.

h. Mailing lists. Addressing (including labels) for mailing. Where the service bureau addresses, through the use of its automatic data processing equipment or otherwise, material to be mailed, with names and addresses furnished by the customer or maintained by the service bureau for the customer, tax does not apply to the charge for addressing. Similarly, where the service bureau prepares, through the use of its automatic data processing equipment or otherwise, labels to be affixed to material to be mailed, with names and address furnished by the customer or maintained by the service bureau for the customer, tax does not apply to the charge for producing the labels, regardless of whether the service bureau itself affixes the labels to the material to be mailed. However, tax would be due on any tangible personal property, such as labels, consumed by the service bureau. (See “*f*” above.) Mailing lists in the form of Cheshire tapes, gummed labels, and heat transfers which are attached to envelopes and placed in the mail by a service bureau constitute tangible personal property and are subject to tax.

i. Services of a machine operator. The services of a machine operator, such as a key punch operator or the operator of any other data processing equipment, when hired to operate another person’s machinery or equipment, are subject to tax when contracted for and performed by someone other than an employee of the owner of the machinery and equipment.

j. Maintenance contracts. Maintenance contracts sold in connection with the sale or lease of canned software generally provide that the purchaser will be entitled to receive storage media on which prewritten program improvements have been recorded. The maintenance contract may also provide that the purchaser will be entitled to receive certain services, including error corrections and telephone or on-site consultation services.

(1) Nonoptional maintenance contract. If the maintenance contract is required as a condition of the sale or rental of canned software, it will be considered as part of the sale or rental of the canned software, and the gross sales price is subject to tax whether or not the charge for the maintenance contract is separately stated from the charge for software.

(2) Optional maintenance contracts prior to July 1, 1998. If the maintenance contract is optional to the purchaser of canned software, then only the portion of the contract fee representing improvements delivered on storage media is subject to sales tax if the fee for other services, including consultation services and error corrections, is separately stated. If the fee for other services, including consultation services and error corrections, is not separately stated from the fee for improvements delivered on storage media, the entire charge for the maintenance contract is subject to sales tax.

(3) Optional maintenance contracts on and after July 1, 1998. If an optional software maintenance or support contract provides for technical support services only, then no tax is imposed on the gross receipts from the performance of those services. If an optional software maintenance or support contract separately states the charges which represent improvements delivered on storage media from charges which represent other services, including consultation services and error correction, then only that portion of the contract fee representing improvements delivered on the storage media is subject to sales tax. If an optional software maintenance or support contract provides for the taxable transfer of tangible personal property and the provision of nontaxable services, and there is no separately stated charge for the taxable transfer of property or for the nontaxable service, then state sales tax of 5 percent shall be imposed on 50 percent of the gross receipts from the sale of such contracts. See 701—paragraph 18.25(3)“*c*” for more information.

18.34(3) Nontaxable items and activities.

a. Custom programs. These are programs prepared to the special order of a customer. Tax does not apply to the transfer of custom programs in the form of written procedures, such as program instructions listed on coding sheets. Tax applies to the sale of material transferred to the customer in the form of typed or printed sheets if separately invoiced.

b. Processing a client's data. Generally speaking, if a person enters into a contract to process a client's data by the use of a computer program, or through an electrical accounting machine programmed by a wired plugboard, the processing of a client's data is nontaxable. Such contracts usually provide that the person will receive the client's source documents, record data in machine readable form, such as in punch cards or on magnetic tape, make necessary corrections, rearrange or create new information as the result of the processing and then provide tabulated listings or record output on other media. This service will be considered nontaxable even if the total charge is broken down into specific charges for each step. The furnishing of computer programs and data by the client for processing under direction and control of the person providing the service is nontaxable even though charges may be based on computer time. The true object of these contracts is considered to be a service, even though some tangible personal property is incidentally transferred to the client. However, tax will apply to tangible personal property separately invoiced to the client.

c. Time sharing. Charges made for the use of automatic data processing equipment, on a time-sharing basis, where access to the equipment is by means of remote facilities, are not subject to tax. Time sharing which is, in fact, a rental of equipment and the lessee exercises the right of possession or control over the equipment is subject to tax. See 18.34(2) "b" and rule 701—26.18(422).

d. Designing of systems, converting of systems, consulting, training, and miscellaneous services. These services consist of the developing of ideas, concepts and designs. Common examples of these nontaxable services are:

(1) Designing and implementing computer systems (e.g., determining equipment and personnel required and how they will be utilized).

(2) Designing storage and data retrieval systems (e.g., determining what data communications and high speed input-output terminals are required).

(3) Converting manual systems to automatic data processing systems, converting present automatic data processing systems to new systems (e.g., changing a second generation system to a third generation system).

(4) Consulting services (e.g., studies of all or part of a data processing system).

(5) Feasibility studies (e.g., studies to determine what benefits would be derived if procedures were automated).

(6) Evaluation of bids (e.g., studies to determine which manufacturer's proposal for computer equipment would be most beneficial).

(7) Providing technical help such as analysts and programmers, usually on an hourly basis.

(8) Writing (coding) and testing of programs—contract programming. These services result in the production of customized programs. This type of service is not taxable because programming requires the development or ascertainment of information, and the evaluation of data, in addition to other development skills.

Persons engaged in providing nontaxable computer services are the consumers of all tangible personal property used in such activities, and the tax must be paid on their acquisition of such property.

This paragraph, 18.34(3) "d," shall become effective for periods beginning on or after April 1, 1992.

e. Installation charges. Where installation charges are separately contracted for or where no contract exists, are separately invoiced, or do not constitute enumerated taxable services, they are exempt from tax. See rule 701—15.14(422,423).

f. Pickup and delivery charges. The tax will not apply to pickup and delivery charges which are separately contracted for or where no contract exists, are separately invoiced.

g. Rental of computer programs. Prior to July 1, 1984, the rental of computer programs was not subject to tax since the program did not constitute equipment. *KTVO, Inc. vs. Bair*, 1977, Iowa 225 N.W.2d, 111. For the rule regarding prewritten (canned) programs subsequent to that date, see 18.3(2) "c."

This rule is intended to implement Iowa Code sections 422.42, 422.45 and 423.2 and Iowa Code Supplement section 422.43 as amended by 1998 Iowa Acts, Senate File 2288.

701—18.35(422,423) Drainage tile. The sale or installation of drainage tile which is to be used in disease control, weed control, or the health promotion of plants or livestock produced as part of agricultural production for market is exempt from tax. Drainage tile, when purchased for these purposes, is therefore not subject to tax. In all other cases, drainage tile will be considered a building material and subject to tax under the provisions of Iowa Code subsection 422.42(9).

This rule is intended to implement Iowa Code sections 422.42(3), 422.42(9), and 423.2.

701—18.36(422,423) True leases and purchases of tangible personal property by lessors.

18.36(1) True leases and purchases by lessors prior to, on, and subsequent to July 1, 1978. The definition of a sale specified in Iowa Code subsection 422.42(2) does not include leases. Hence, the exemption from tax on sales for resale is inapplicable to the purchase of tangible personal property for the purpose of leasing such property to others, but not for the purpose of reselling such property. *Cedar Valley Leasing, Inc. v. Iowa Department of Revenue*, 274 N.W.2d 357 (Iowa 1979). However, even though the general rule is that the acquisition cost of tangible personal property purchased for the purpose of leasing it to others is subject to the Iowa sales or use tax, certain transactions are exempted from tax by statute. See subrule 18.36(4).

18.36(2) General. Prior to July 1, 1984, tax is due on the lease or rental payments derived from the service of equipment rental only and not from the lease or rental of other tangible personal property. See 701—subrule 26.18(1). Tax would also be due on the gross receipts received on the disposal of the tangible personal property provided no exemption exists. When property is purchased for the purpose of financing under a conditional sales contract, the property is purchased for resale, and the acquisition of the property is not subject to Iowa tax. See rule 701—16.47(422,423).

The gross receipts from the leasing of property for subletting purposes is exempt from tax as a resale of a service, but the lessee must collect tax on the gross receipts from subletting unless such subletting is otherwise exempt from tax.

a. Where a resident or nonresident lessor leases equipment to a resident or nonresident lessee and the lease contract is executed in Iowa and the equipment is delivered to the lessee in Iowa, the rental payments are subject to Iowa sales tax, even if the equipment is taken by the lessee to another state. *Williams Rentals, Inc. v. Tidwell*, 516 S.W.2d 614 (Tenn. 1974).

b. Where a nonresident lessor leases equipment to a resident or nonresident lessee and the lessee uses the equipment in Iowa, the nonresident lessor has the responsibility of collecting Iowa use tax on the lease payments, provided the lessor maintains a place of business in Iowa as provided in Iowa Code sections 423.1(6) and 423.9. Whether the lease agreement is executed in Iowa or not is irrelevant. *State Tax Commission v. General Trading Co.*, 322 U.S. 335, 64 S.Ct. 1028, 88 L.Ed 1309, (1944).

c. Where a lessee is the recipient of equipment rental services as defined in “*a*” and “*b*” above and no tax has been collected from such lessee by the lessor, the lessee should remit Iowa use tax to the department of revenue. In the event no tax is remitted, the department, in its discretion, may seek to collect the tax from the lessor or lessee. In the event that the lessee is the recipient of equipment rental services, and the lessor does not maintain a place of business in Iowa and does not collect use tax pursuant to Iowa Code section 423.10, such lessee shall remit tax on its rental payments to the department.

d. Where a resident lessor leases equipment to a nonresident lessee outside of Iowa, and the equipment is delivered to the lessee outside Iowa, the act of leasing is exempt from the Iowa sales tax on the rental payments. However, in the event the lessee brings the equipment into Iowa and uses it in Iowa, Iowa use tax applies to rental payments, but see “*g*” below.

e. Where a resident or nonresident lessor purchases tangible personal property in Iowa for subsequent lease in or out of Iowa and takes delivery of the equipment in Iowa, the lessor’s purchase is subject to Iowa sales tax. *Dodgen Industries, Inc. v. Iowa State Tax Commission*, 160 N.W.2d 289 (Iowa 1968).

f. When a resident or nonresident lessor purchases tangible personal property outside of Iowa for the purpose of leasing it in Iowa and the equipment is brought into Iowa and used by the resident or nonresident lessee in this state, the lessor is considered as having a “use” of the property in Iowa and Iowa use tax will apply to the lessor’s purchase price of the property, regardless whether or not the lessor

makes any physical use of the property in Iowa. *Union Oil Company of California v. State Board of Equalization*, 1963, 34 Cal. Rpts. 872, 386 P.2d 496.

g. If a sales or use tax has already been paid to another state on the purchase price of equipment prior to the use of that equipment in Iowa, a tax credit against the Iowa use tax on the purchase price will be given. After the equipment is brought into Iowa, if a sales or use tax is properly payable and is paid to another state on the rental payments of equipment, for the same time the Iowa tax is imposed on such rentals, a tax credit against the Iowa use tax on such rental payments will be given. *Henneford v. Silas Mason Co.*, 1937, U.S.577, 57 S.Ct. 524, 51 L.Ed. 814.

18.36(3) *Leases relating to vehicles subject to registration.*

a. Vehicles as defined in Iowa Code subsections 321.1(4), (6), (8), (9), and (10) (motor trucks, truck tractors, road tractors, trailers, and semitrailers), except when designed primarily for carrying persons, can be purchased free of use tax when purchased for lease and actually leased for use outside Iowa if the subsequent sole use in Iowa is in interstate commerce or interstate transportation.

b. Tangible personal property which by means of fabrication, compounding, or manufacturing becomes an integral part of vehicles as defined in 18.36(3)“a” when manufactured for lease and actually leased to a lessee for use outside the state of Iowa, can be purchased free of use tax provided the sole subsequent use of the vehicle in Iowa is in interstate commerce or interstate transportation. (Iowa purchases which would be subject to Iowa sales tax do not qualify for this exemption.) See rule 701—33.7(423).

The provisions of “a” and “b” are effective for periods beginning on January 1, 1973. Also see 701—Chapter 34 of the rules relating to vehicles subject to registration.

18.36(4) *Special rules for lessors on or after July 1, 1978.* If tangible personal property is purchased for leasing, the purchase of the property is exempt from tax if the following conditions are met:

- a. The person (lessor) purchasing the property is regularly engaged in the business of leasing,
- b. The period of the lease is for more than one year for sales or property occurring from July 1, 1978, to May 18, 1997, inclusive; for sales of property occurring on and after May 19, 1997, the period of the lease must be for more than five months, and
- c. The lease or rental receipts must be subject to tax under the service of equipment rental.

All three conditions must be met before the exemption applies.

If the exemption is properly claimed, it is lost when the property is made use of for any purpose other than leasing and the person claiming the exemption is liable for the tax based on the original purchase price. Tax paid on the leasing or rental payments would be allowed as a credit against the tax due on the purchase price.

In the following examples, assume, unless stated to the contrary, that the lease or rental receipts are subject to tax. The examples are written on the assumption that the period for an exempt lease is five months or longer. Thus, these examples are basically applicable to the period beginning May 19, 1997; however, the examples illustrate principles which are applicable to the purchase for lease exemption for periods longer than one year which was the requirements for exemption prior to May 19, 1997.

EXAMPLE: A restaurant makes a one-time purchase of office furniture which it leases to an insurance company for a period of four years. The purchase of office furniture by the restaurant would be subject to tax because the restaurant is not regularly engaged in the business of leasing. However, if the restaurant established a pattern of regularly purchasing office furniture or other tangible personal property for lease, the exemption would apply.

EXAMPLE: A company purchases a computer which will be leased for a period of three years, at which time the computer is returned to the company. The sole business of the company is to purchase this one computer for lease. The purchase of the computer is exempt from tax because the company is regularly engaged in the business of leasing.

EXAMPLE: A leasing company purchases three lawn mowers which will be leased to individuals for periods of time less than five months. The purchase of the lawn mowers by the leasing company would be subject to tax because the periods of the leases are for less than five months.

EXAMPLE: A leasing company purchases a computer which will be leased for a period of three years. The purchase of the computer is exempt from tax because the period of the lease is for more than five months.

EXAMPLE: A leasing company buys a computer. The company claims the exemption from tax, but the company uses the computer in its own operations. Tax is due on the original purchase price and the leasing company is liable for the tax due.

EXAMPLE: A leasing company purchases a copying machine which will be leased for a period of two years. After four months, the machine is returned to the leasing company and then the machine is immediately re-leased without being used by the leasing company for any other purpose. The exemption would apply because it was properly claimed and nothing occurred to cause loss of the exemption.

EXAMPLE: A leasing company purchases a copying machine which will be leased for a period of two years. After four months, the machine is returned and the leasing company then uses the machine in its own business. The exemption would no longer apply and the leasing company would be liable for the tax based on the original purchase price. Credit would be allowed against the tax due on the purchase price for any tax paid on the lease or rental payments. Assume the leasing company paid \$2,000 for the copying machine and charged \$200 per month plus \$10 in tax per month. Since the machine is returned and the exemption is not applicable, the leasing company would owe \$100 on the \$2,000 acquisition cost. However, the leasing company collected \$40 (four months x \$10) tax on the monthly rental charges. Allowing the credit for tax collected of \$40 against the total tax liability of \$100 leaves a net tax liability of \$60 owed by the leasing company.

EXAMPLE: A manufacturer and seller of office furniture also leases office furniture. The leases always run for a period longer than five months and the company usually has only two leases per year. The leasing operation only accounts for 1 percent of the company's total business. The company still qualifies for the exemption because it is regularly engaged in the business of leasing and the period of the lease is for more than five months.

EXAMPLE: A leasing company purchases an airplane from an aircraft dealer and leases it for a period of three years. The lease or rental payments are not taxed because of the exemption for transportation services. The leasing company would owe tax based on the acquisition cost because the lease or rental payments are not subject to tax under the service of equipment rental.

EXAMPLE: A leasing company purchases equipment and leases it to a lessee for a period of 18 months. For the first 3 months, the equipment is used by the lessee in making repairs to existing structures and the lease receipts are taxable. For the remainder of the lease period, the equipment is used in new construction of buildings and structures and the lease receipts are exempt from tax. The acquisition cost of the equipment is exempt because the exemption was properly claimed and was not subsequently lost by a use other than leasing.

EXAMPLE: A leasing company purchases from an Iowa retailer equipment on May 18, 1997, for the purpose of leasing it for a period of six months. The lease receipts will be taxable. The sales tax exemption on the acquisition cost to the lessor cannot be claimed because the sale occurred before May 19, 1997, and, at the time of the sale, no sales tax exemption applied to such acquisition cost. The exemption for acquisition cost should not be given a retroactive effect. *Jones v. Gordy*, 1935, 169 Md. 173, 180 Atl. 272.

EXAMPLE: A leasing company purchases equipment outside of Iowa on May 1, 1997. The lessee brings the equipment into Iowa on June 1, 1997, and uses it in Iowa. The lease period is nine months, and the lessee's use in Iowa is subject to Iowa use tax on the lease payments. Under these circumstances, the Iowa use tax exemption on the lessor's acquisition cost applies because it is the law in effect at the time of use in Iowa, not at the time of sale, which determines whether a use tax exemption applies. *City of Ames v. Iowa State Tax Commission*, 1955, 246 Iowa 1016, 71 N.W.2d 15; *Allis-Chalmers Mfg. Co. v. Iowa State Tax Commission*, 1958, 250 Iowa 193, 92 N.W.2d 129.

EXAMPLE: A leasing company purchases equipment not for resale and leases it to the lessee for a period of more than five months. After three months, the equipment is returned to the leasing company which then sells the equipment. Such sale is not part of the regular course of the leasing company's business. The exemption, though properly claimed, is lost because, by reason of such sale, the leasing

company made use of the property for a purpose other than leasing or renting. Had the equipment been returned to the leasing company on or after five months and one day from the commencement of the lease period, and the leasing company then sold the equipment outside the regular course of its business or used the equipment in its business, the exemption for acquisition cost would not be lost. Had the equipment been purchased for resale and leased prior to such resale, the acquisition cost to the leasing company would be exempt from tax. *Herman M. Brown Co. v. Johnson*, 1957, 248 Iowa 1143, 82 N.W.2d 134. If the equipment is traded in toward the purchase price of other equipment by the leasing company, or if the leasing company disposes of the equipment after it is fully depreciated, the exemption for acquisition cost is not lost. Where sale of equipment outside the regular course of business is made by the leasing company, see also rule 18.28(422) to determine whether the casual sale exemption applies to the receipts from such sale.

EXAMPLE: A leasing company purchases equipment which is leased to the lessee. Assume that the exemption for acquisition cost of the equipment was properly claimed. Thereafter, the lessee makes an assignment of the lease. The exemption is not lost since the assignee stands in the same position as the original lessee and such an assignment does not change the nature of the original lease period. *Berg v. Ridgway*, 1966, 258 Iowa 640, 140 N.W.2d 95.

EXAMPLE: A leasing company purchases equipment which is leased to the lessee in accordance with the criteria creating the acquisition cost exemption. The leasing company sells the lease contracts, as commercial paper, to others. The exemption for acquisition cost can still be claimed and such sales of lease contracts do not cause loss of the exemption.

EXAMPLE: A leasing company purchases equipment which is leased to the lessee in accordance with the criteria creating the acquisition cost exemption. Thereafter, the lease can no longer be performed because the property is destroyed by an act of God. The acquisition cost exemption is not lost.

EXAMPLE: A leasing company purchases equipment which is leased to the lessee in accordance with the criteria creating the acquisition cost exemption. Thereafter, the lessee is adjudged bankrupt and the equipment is returned to the leasing company and is re-leased without being used by the leasing company for any other purpose. The acquisition cost exemption is not lost since the leasing company makes no use for any purpose other than leasing or renting.

EXAMPLE: A leasing company purchases equipment which is leased to a lessee. The criteria for the acquisition cost exemption are present. The lessee then sublets the equipment to another for a period less than five months. The acquisition cost exemption is not lost.

18.36(5) *Lease or rental of all tangible personal property now subject to tax.* On and after July 1, 1984, the lease or rental of all tangible personal property is subject to tax. See rule 701—26.18(422) for information concerning additional transactions subject to tax after that effective date.

This rule is intended to implement Iowa Code sections 422.42(2), 422.43, 422.45, 423.1, and 423.4.

701—18.37(422,423) Motor fuel, special fuel, aviation fuels and gasoline.

18.37(1) *In general.* The gross receipts from the sale of motor fuel and special fuel are exempt from sales tax under Iowa Code section 422.45(11) if (1) the fuel is consumed for highway use, in watercraft, or in aircraft, (2) the Iowa fuel tax has been imposed and paid, and (3) no refund or credit of fuel tax has been made or will be allowed. However, beginning July 1, 1985, the gross receipts from the sale of special fuel for diesel engines used in commercial watercraft on rivers bordering Iowa are exempt from sales tax, even though no fuel tax has been imposed and paid, providing the seller delivers the fuel to the owner's watercraft while it is afloat. Prior to July 1, 1988, retail sales of aviation gasoline were not exempt from sales tax under Iowa Code subsection 422.45(11). See subrule 18.37(4).

18.37(2) *Refunds or credits of motor fuel and special fuel.* Claims for refund or credit of fuel taxes under the provisions of Iowa Code chapter 452A must be reduced by any sales or use tax owing the state unless a sales tax exemption is applicable. Generally, refund claims or credits are allowed where fuel is purchased tax paid and used for purposes other than to propel a motor vehicle or used in watercraft.

18.37(3) *Refunds of tax on fuel purchased in Iowa and consumed out of Iowa.* Even though fuel is purchased in Iowa, fuel tax paid in Iowa, and the fuel tax is subject to refund under the provisions of division III of Iowa Code chapter 452A relating to interstate motor vehicle operations, the refund of

the fuel tax does not subject the purchase of the fuel to sales tax. Subjecting the purchase to sales tax has the effect of imposing sales tax when fuel is consumed in interstate commerce while fuel consumed on Iowa highways in intrastate commerce is exempt from sales tax pursuant to Iowa Code subsection 422.45(11). The effect for sales tax purposes is to impose a greater tax burden on non-Iowa highway fuel consumption than Iowa highway fuel consumption thereby discriminating against interstate commerce. In addition, the effect of imposing sales tax on interstate excess purchases where intrastate highway use is not subject to the tax constitutes an export duty for purchasing fuel in Iowa and exporting it for use in another state. Such effects are in violation of the commerce clause of the United States Constitution. *Boston Stock Exchange v. State Tax Commission*, 1977, 429 U.S. 319, 97 S.Ct. 599, 50 L.Ed.2d 514 and *Coe v. Errol*, 1886, 116 U.S. 517, 6 S.Ct. 475, 29 L.Ed. 715.

18.37(4) Aviation gasoline. Tax treatment prior to July 1, 1988. Prior to July 1, 1988, all Iowa fuel tax paid on aviation gasoline used in aircraft was refundable under Iowa Code section 452A.17. Generally, aviation gasoline is not purchased for highway use or for use in watercraft, therefore, the exemption from sales and use tax found in Iowa Code subsection 422.45(11) was generally not applicable to purchases of aviation gasoline. However, Iowa Code subsection 422.52(4) provides for the collection of sales tax by way of deduction from motor fuel tax refunds allowable under Iowa Code chapter 452A. Therefore, sales tax is not assessed at the retail level but only in instances where the fuel tax paid on aviation gasoline has been refunded. If no application for a fuel tax refund relating to aviation fuel has been made, no sales tax is assessed on the aviation gasoline purchase.

18.37(5) Ethanol. For tax periods after April 30, 1981. Retail sales of ethanol are exempt from Iowa sales or use tax.

18.37(6) Tax base. The basis for computing the Iowa sales tax will be the retail selling price of the fuel less any Iowa fuel tax included in such price. Federal excise tax should not be removed from the selling price in determining the proper sales tax due. *W.M. Gurley v. Army Rhoden* supra. Also see rule 701—15.12(422,423).

This rule is intended to implement Iowa Code sections 422.31, 422.43, 422.45(11), 422.45(22), 422.52(4), 423.1, 452A.3, and 452A.17.

701—18.38(422,423) Urban transit systems. A privately owned urban transit system which is not an instrumentality of federal, state or county government is subject to sales tax on fuel purchases which are within the urban transit systems charter.

Tax shall not apply to fuel purchases, made by a privately owned urban transit company, for use outside the urban transit system charter in which a fuel tax has been imposed and paid and no refund has been or will be allowed.

Whether an urban transit company will be considered an instrumentality of federal, state or county government for the purpose of receiving sales tax exemption on its fuel purchases, which are also exempted from fuel tax and used for public purposes, depends upon consideration of the following:

1. Whether it is created by government.
2. Whether it is wholly owned by government.
3. Whether it is operated for profit.
4. Whether it is primarily engaged in the performance of some essential governmental function.
5. Whether the payment of tax will impose an economic burden upon the corporation, or that payment of tax serves to materially impair the usefulness or efficiency of the corporation or the payment of tax materially restricts the corporation in the performance of its duties.

These above enumerated considerations are not all inclusive and the presence of some and absence of others does not necessarily establish the exemption. *Unemployment compensation of North Carolina v. Wachovia Bank and Trust Company*, 2 S.E.2d 592, 595, 215 No. Car. 491 (1939); 1976 O.A.G. 823, 827, 828.

This rule is intended to implement Iowa Code subsection 422.45(1).

701—18.39(422,423) Sales or services rendered, furnished, or performed by a county or city. The gross receipts from the sales, furnishing, or service of gas, electricity, water, heat, and communication

service rendered, furnished, or performed by a county or city are subject to the tax. On and after July 1, 1985, the gross receipts from fees paid to cities and counties for the privilege of participating in any athletic sports are also subject to tax. On or after July 1, 1991, the gross receipts from any municipally owned pay television service are taxable as well. On and after April 1, 1992, the gross receipts from a county or municipality furnishing sewage service or solid waste collection and disposal service to nonresidential commercial operations are taxable (see rules 701—26.71(422,423) and 26.72(422,423) for more information).

Any other sales or services rendered, furnished, or performed by a county or city are not subject to the tax.

A “sport” is any activity or experience which involves some movement of the human body and gives enjoyment or recreation. An “athletic” sport is any sport which requires physical strength, skill, speed, or training in its performance. The following activities are nonexclusive examples of athletic sports: baseball, football, basketball, softball, volleyball, golf, tennis, racquetball, swimming, wrestling, and foot racing.

The following is a list of various fees which would be considered fees paid to a city or county for the privilege of participating in any athletic sport, and thus subject to tax under this rule. The list is not exhaustive.

1. Fees paid for the privilege of using any facility specifically designed for use by those playing an athletic sport: fees for use of a golf course, ball diamond, tennis court, swimming pool, or ice skating rink are subject to tax. These fees are subject to tax whether they allow use of the facility for a brief or extended period of time, e.g., a daily fee or season ticket for use of a swimming pool or golf course would be subject to tax. Group rental of facilities designed for playing an athletic sport would also be subject to tax.

2. Fees paid to enter any tournament or league which involves playing an athletic sport would be subject to tax. Both team and individual entry fees are taxable. Fees paid to enter any marathon or foot race of shorter duration would be subject to tax under this rule.

Not subject to tax as fees paid to a city or county for the privilege of participating in any athletic sport under this rule are the following charges. The list is not intended to be exhaustive.

1. Fees paid for lesson or instruction in how to play or to improve one’s ability to play an athletic sport are not subject to tax. Golf and swimming lesson fees are specific examples of such nontaxable charges. The fees are excluded from tax regardless of whether the person receiving the instruction is a child or an adult. Fees charged for equipment rental, regardless of whether this equipment is helpful or necessary to participation in an athletic sport, are not subject to tax. The rental of a golf cart or moveable duck blind would not be subject to tax. The rental of a recreational boat is a transportation service, the gross receipts of which are not subject to tax if provided by a city or county.

2. Sales of merchandise, e.g., food or drink, to persons watching or participating in any athletic sport are not subject to tax.

3. Fees charged to improve any facility where any athletic sport is played are not subject to tax, unless such a fee must be paid to participate in an athletic sport which can be played within the facility.

4. Fees paid by any person or organization to rent any county or city facility or any portion of any county or city park shall not be subject to tax unless the portion of the park or facility is specifically designed for the playing of an athletic sport.

EXAMPLE: A local bridge club pays a fee to use a shelter house and the surrounding grounds at a county park for a picnic. During the course of the picnic, the club members set up a net and use the surrounding grounds to play volleyball. They also improvise a softball field and play a softball game there. The fee which the bridge club has paid to rent the shelter house and surrounding grounds would not be subject to tax.

5. Fees paid for the use of a campground or hiking trail are not subject to tax.

This rule is intended to implement Iowa Code sections 422.43 and 422.45.

701—18.40(422,423) Renting of rooms. The gross receipts from the renting of any and all rooms, including but not limited to sleeping rooms, banquet rooms or conference rooms in any hotel, motel,

inn, public lodging house, rooming or tourist court, or in any place where sleeping accommodations are furnished to transient guests, whether with or without meals, are subject to the tax. The rental of a mobile home or of manufactured housing which is tangible personal property is treated as room rental rather than tangible personal property rental. The renting of all rooms would be exempt from the tax if rented by the same person for a period of more than 31 consecutive days. The renter must contract to rent for a single period of 31 days or more. The renter may not accumulate these 31 days by contracting for two or more rental transactions. The incremental manner in which the hotel, motel, inn, public lodging house, rooming or tourist court, or any place where sleeping accommodations are furnished to transient guests bills its customers does not influence the accumulation of days that is required to claim the exemption.

This rule is intended to implement Iowa Code section 422.43.

701—18.41(422,423) Envelopes for advertising.

18.41(1) Some envelopes which contain advertising are exempt from tax. Envelopes which are not primarily used for advertising are taxable. The primary use of the envelopes should control whether they will be taxable or exempt. *Iowa Movers and Warehouseman's Assn. v. Briggs*, 237 N.W.2d 759 (Iowa 1976).

EXAMPLE 1: XYZ mails coupons and advertisements to persons giving discounts on a certain item which is sold at retail. The envelope used to package these materials is exempt from tax since it is primarily used to contain advertising materials.

EXAMPLE 2: XYZ mails a monthly billing statement to its charge account customers. In addition to the billing statement, XYZ Company encloses an advertisement in the envelope. The envelope has a dual purpose: (1) the collection of accounts receivable and (2) the distribution of advertising. However, the envelope is not primarily used for advertising but for billing the customer, therefore, the exemption does not apply.

18.41(2) Because of the difficulty of administering this exemption, purchasers of envelopes may petition to the department for permission to use a formula to represent to the seller the portion of taxable and exempt gross receipts from envelope purchases.

This rule is intended to implement Iowa Code subsection 422.45(9).

701—18.42(422,423) Newspapers, free newspapers and shoppers' guides.

18.42(1) General observations. The gross receipts from the sales of newspapers, free newspapers, and shoppers' guides are exempt from tax. The gross receipts from the sales of magazines, newsletters, and other periodicals which are not newspapers are taxable. Recent cases decided by the United States Supreme Court and the Supreme Court of Iowa prohibit exempting from taxation the sale of any periodical if that exemption from taxation is based solely upon the contents of that periodical. See *Arkansas Writers' Project, Inc. v. Ragland*, 481 U.S. 221, 107 S.Ct. 1722, 95 L.Ed.2d 209 (1987) and *Hearst v. Iowa Department of Revenue & Finance*, 461 N.W.2d 295 (Iowa 1990).

18.42(2) General characteristics of a newspaper. "Newspaper" is a term with a common definition. A "newspaper" is a periodical, published at short, stated, and regular intervals, usually daily or weekly. It is printed on newsprint with news ink. The format of a newspaper is that of sheets folded loosely together without stapling. A newspaper is admitted to the U.S. mails as second-class material. Other frequent characteristics of newspapers are the following:

a. Newspapers usually contain photographs. The photographs are more often in black and white rather than color.

b. Information printed on newspapers is usually contained in columns on the newspaper pages.

c. The larger the cross section of the population which reads a periodical in the area where the periodical circulates, the more likely it is that the department will consider that periodical to be a "newspaper."

18.42(3) Characteristics of newspaper publishing companies. Companies in the business of publishing newspapers are differently structured from other companies. Often, companies publishing larger newspapers will subscribe to various syndicates or "wire services." A larger newspaper will employ a general editor and a number of subordinate editors as well, for example, sports and lifestyle

editors; business, local, agricultural, national, and world news editors; and editorial page editors. A larger newspaper will also employ a variety of reporters and staff writers. Smaller newspapers may or may not have these characteristics or may consolidate these functions.

18.42(4) Characteristics which distinguish a newsletter from a newspaper. A “newsletter” is generally distributed to members or employees of a single organization and not usually to a large cross section of the general public. It is often published at irregular intervals by a volunteer, rather than the paid individual who usually publishes a newspaper. A newsletter is often printed on sheets which are held together at one point only by a staple, rather than folded together.

This rule is intended to implement Iowa Code section 422.45(9).

701—18.43(422,423) Written contract. On and after July 1, 1985, the gross receipts from certain additional services are subject to tax. However, these newly taxable services are exempt from tax if performed pursuant to a written services contract in effect on April 1, 1985. The exemption from taxation for these services expires June 30, 1986. The services to which this “written contract” exemption is applicable are the following: cable television; campgrounds; gun repair; janitorial and building maintenance or cleaning; lawn care, landscaping and tree trimming and removal; lobbying service; pet grooming; reflexology; security and detective services; tanning beds or salons; water conditioning and softening; the rental of recreational vehicles, recreational boats or motor vehicles subject to registration which are registered for a gross weight of 13 tons or less; and fees paid to cities and counties for the privilege of participating in any athletic sports.

A “written contract” is one which is entirely in writing, so that all of its essential terms and provisions exist in writing, and oral statements are not necessary to set out any essential term or provision, such as who the parties to the contract are or what their rights and duties are under the contract. However, if it is necessary to resort to oral statements to explain the meaning of a written provision in a contract, a “written contract” can still exist. A written contract need not consist of one document or instrument only. It can consist of two or more writings, if all the necessary provisions of the contract are contained in those writings. For the purposes of this rule, the following must be stated in writing if a written contract is to exist: The nature and specification of the service to be provided, the name of the party providing the service, the name of the party receiving the service, the “consideration” (amount and method of payment) for providing the service, the signature of one or both of the parties to the contract, depending upon circumstances, and the date upon which the contract became effective.

The written contract must be in effect on April 1, 1985, if the service to which the contract pertains is to be exempt from tax. If a contract is signed by only one of the parties to it, that contract is still a “written contract” if the party which has not signed the contract acquiesces in the promises which the party who has signed the document makes within it. *McDermott v. Mahoney*, 139 Iowa 292, 115 N.W. 32, (Iowa 1908).

EXAMPLE: A security agency sends a proposed agreement to a potential customer promising to provide the services of a uniformed security guard for the customer’s business premises beginning March 15, 1985, and continuing until March 15, 1987. The agreement is signed by the security agency’s president and dated February 15, 1985. The agreement is received by the potential customer’s president, who does not sign it, but, on March 15, 1985, allows the security agency’s uniformed guard on the premises, and makes payment for those services as stipulated in the agreement. This agreement is a “written contract”; the services of the uniformed guard are not subject to tax for the period beginning July 1, 1985, and ending June 30, 1986. The services performed between July 1, 1986, and March 15, 1987, would be subject to tax.

This rule is intended to implement Iowa Code subsection 422.43(11).

701—18.44(422,423) Sale or rental of farm machinery and equipment. On and after July 1, 1987, the gross receipts from the sale or rental of farm machinery and equipment will be exempt from tax. Effective July 1, 1996, the gross receipts from the sale of property which is a container, label, carton, pallet, packing case, wrapping, baling wire, twine, bag, bottle, shipping case or other similar article or receptacle sold for use in agricultural, livestock or dairy production are not subject to sales tax.

18.44(1) Characteristics of and limitations upon farm machinery and equipment. To be eligible for exemption from or refund of tax under this rule the machinery or equipment must:

- a. Be directly and primarily used in production of agricultural products; and
- b. Be one of the following:
 - (1) A self-propelled implement; or
 - (2) An implement customarily drawn or attached to a self-propelled implement; or
 - (3) A grain dryer; or
 - (4) An auxiliary attachment which improves the performance, safety, operation, or efficiency of a qualifying implement or grain dryer if sale or first use in Iowa is on or after July 1, 1995; or
 - (5) A replacement part for any item described in subparagraph (1), (2), (3), or (4).
 - (6) Effective July 1, 1996, the gross receipts from the sale of property which is a container, label, carton, pallet, packing case, wrapping, baling wire, twine, bag, bottle, shipping case, or other similar article or receptacle sold for use in agricultural, livestock or dairy production.
- c. No vehicle subject to registration, as defined in Iowa Code subsection 423.1(7), implement customarily drawn or attached to a vehicle, auxiliary attachment, or any replacement part for a vehicle, implement, or auxiliary attachment is eligible for the exemption or refund allowed under this rule.

18.44(2) Definitions and characterizations. For the purposes of this rule, the following definitions apply.

a. Production of agricultural products means the same as the term “agricultural production” which is defined in 701—subrule 17.9(3), paragraph “a,” to mean a farming operation undertaken for profit by raising crops or livestock. Production of agricultural products begins with the cultivation of land previously cleared for planting of crops or with the purchase or breeding of livestock or domesticated fowl. Not included within the meaning of the phrase are the clearing or preparation of previously uncultivated land, the creation of farm ponds or the erection of machine sheds, confinement facilities, storage bins or other farm buildings. See *Trullinger v. Fremont County*, 223 Iowa 677, 273 N.W. 124 (1937). Machinery and equipment used for these purposes would be used for activities which are preparatory to but not a part of the production of agricultural products. The production of agricultural products ceases when an agricultural product has been transported to the point where it will be sold by the farmer or processed.

EXAMPLE. Farmer Brown uses a tractor and wagon to haul harvested corn from a field to a grain dryer located on the farm. After the corn is dried, the same tractor and wagon are used to move the grain to a storage bin, also located on the farm. Later the same tractor and wagon are used to deliver the corn from the farm to the local elevator where it is sold. After Farmer Brown deposits the corn there, the local elevator uses its own tractor and wagon to move the corn to a place of relatively permanent storage. Farmer Brown has used the tractor and wagon in the production of agricultural products and the refund or exemption would apply. The elevator has not used its tractor and wagon in such production; refund or exemption would not be lawful.

b. Farm machinery and equipment means machinery and equipment specifically designed for use in the production of agricultural products or equipment and machinery not specifically designed for this use but which are directly and primarily used in the production of agricultural products.

EXAMPLE. Farmer Jones raises livestock and the farming operation requires that fences be built to confine the livestock. Farmer Jones purchases a posthole digger that is customarily attached to a tractor and uses the digger to construct the fences used to confine the livestock. The posthole digger is not specifically designed for use in the production of agricultural products but would be directly and primarily used in the production of agricultural products. Therefore, the exemption or refund applies.

c. Self-propelled implement has the same meaning as in 701—subrule 17.9(5), paragraph “c,” where the term is defined to mean an implement which is capable of movement from one place to another under its own power. The term self-propelled implement includes but is not limited to the following items: skidloaders and tractors; and the following machinery if capable of movement under its own power: combines, corn pickers, fertilizer spreaders, hay conditioners/windrowers, sprayers, and bean buggies.

d. Implements customarily drawn or attached to self-propelled implements. The following is a nonexclusive, representative list of implements which are customarily drawn or attached to self-propelled implements: Augers, balers, blowers, combines, conveyers, cultivators, disks, drags, dryers (portable), farm wagons, feeder wagons, fertilizer spreaders, front- and rear-end loaders, harrows, hay loaders, mowers and rakes, husking machines, manure spreaders, planters, plows, rotary blade mowers, rotary hoes, sprayers and tanks, and tillage equipment.

e. Direct use in agricultural production. In determining whether farm machinery, equipment or any grain dryer is directly used in agricultural production, the fact that particular machinery or equipment is essential to the production of agricultural products because its use is required either by law or practical necessity does not, of itself, mean that the machinery or equipment is directly used in the production of agricultural products. Machinery or equipment coming into actual physical contact with the soil or crops during the operations of planting, cultivating, harvesting, and soil preparation will be presumed to be machinery or equipment used in agricultural production.

f. Grain dryer. The term grain dryer includes the heater and the blower necessary to force the warmed air into a grain storage bin. It does not include equipment used in grain storage or movement such as augers and spreaders or any other equipment that is not a grain dryer. Equipment other than a grain dryer which is used in grain drying may be exempt or subject to refund if the equipment is a self-propelled implement or customarily drawn or attached to a self-propelled implement.

g. Replacement parts, differing meanings of the term for the period ending June 30, 1988, and for the period beginning July 1, 1988.

(1) For the period beginning July 1, 1985, and ending June 30, 1988, a replacement part is refundable or exempt only if its cost is depreciable for state and federal income tax purposes. Replacement parts which are depreciable for state and federal income tax purposes include only those replacement parts which either materially add to the value of machinery or equipment or appreciably prolong its life. Replacement parts which only keep the machinery or equipment in its ordinarily efficient operating condition are not eligible for exemption or refund. Included within the meaning of replacement parts is any part the cost of which is depreciable for state and federal income tax purposes but which may also be deducted as a current expense. So long as the cost is depreciable the sale or lease of the replacement part is eligible for refund or exemption from tax. However, the person claiming the refund or exemption must show that the replacement part which was deducted as an expense could have been depreciated under state and federal income tax law.

(2) On and after July 1, 1988, the sale or lease of a replacement part is exempt from tax if the replacement part is essential to any repair or reconstruction necessary to farm machinery or equipment's exempt use in the production of agricultural products. The term "replacement part" does not include attachments and accessories which are not essential to the operation of the farm machinery or equipment. Nonexclusive examples of attachments or accessories are: cigarette lighters, radios, and add-on air-conditioning units.

18.44(3) *Taxable and nontaxable transactions.* The following are nonexclusive examples of sales and leases of farm machinery and equipment which are or are not subject to exemption and refund.

a. A lessor's purchase of farm machinery and equipment is not subject to tax, or is taxable subject to refund, if the machinery or equipment is leased to a lessee who uses it directly and primarily in the production of agricultural products and if the lessee's use of the machinery or equipment is otherwise exempt or subject to refund. To claim exemption from tax or a refund of tax paid, the lessor need not make exempt use of the machinery or equipment so long as the lessee does.

b. To claim refund or exemption, the owner or lessee of farm machinery or equipment need not be a farmer so long as the machinery and equipment is directly and primarily used in the production of agricultural products, and the owner or lessee and the equipment or machinery meet the other requirements of this rule. For example, a person who purchases an airplane designed for use in agricultural aerial spraying and so used after purchase is entitled to the benefits of this rule even though that person is not the owner or occupant of the land where the airplane is used.

c. The sale or lease, within Iowa, of any farm machinery, equipment, or replacement part for direct and primary use in agricultural production outside of Iowa is a transaction eligible for refund or exemption if those transactions are otherwise qualified under this rule.

18.44(4) Auxiliary attachments. The following is a list (not inclusive) of auxiliary attachments described in 18.44(1)“b”(4), the sale or first use in Iowa which is exempt from tax on and after July 1, 1995: auxiliary hydraulic valves, cabs, coil tine harrows, corn head pickup reels, dry till shanks, dual tires, extension shanks, fenders, fertilizer attachments and openers, fold kits, grain bin extensions, herbicide and insecticide attachments, kit wraps, no-till coulters, quick couplers, rear wheel assists, rock boxes, rollover protection systems, rotary shields, stalk choppers, step extensions, trash whips, upperbeaters, silage bags, and weights.

18.44(5) and 18.44(6) Rescinded IAB 9/7/88, effective 10/12/88.

This rule is intended to implement Iowa Code subsections 422.43(3) and 422.45(26), Iowa Code chapter 422, Division IV, and Iowa Code section 422.45 as amended by 1996 Iowa Acts, chapter 1145.

701—18.45(422,423) Sale or rental of computers, industrial machinery and equipment; refund of and exemption from tax paid for periods prior to July 1, 1997. The sale or rental of computers, industrial machinery and equipment, including pollution control equipment, used in manufacturing, in research and development, or in the processing or storage of data or information by an insurance company, financial institution, or commercial enterprise is, under certain circumstances, exempt from tax and, under other circumstances, is subject to refund of sales or use tax paid. The sale or rental of machinery, equipment, or computers directly and primarily used in the recycling or reprocessing of waste products is also exempt from tax; see subrule 18.45(8). For purposes of the organization of this rule, items that may be exempt or subject to refund of tax are referred to as specified property unless the context of the rule indicates otherwise. See subrule 18.45(1) for definition of what constitutes specified property. See rule 18.58(422,423) for the manner in which the sale or rental of machinery, equipment, and computers to manufacturers and the sale or rental of computers to commercial enterprises are treated on and after July 1, 1997.

18.45(1) Definitions. The following words are defined for the purposes of this rule in the manner set out below.

“*Commercial enterprise*” includes businesses and manufacturers conducted for profit and includes centers for data processing services to insurance companies, financial institutions, businesses, and manufacturers, but excludes professions and occupations and nonprofit organizations. A hospital that is a not-for-profit organization would not be a “commercial enterprise.” The term “professions” means a vocation or employment requiring specialized knowledge and often long and intensive academic preparation. The term “occupations” means the principal business of an individual. Included within the meaning of “occupations” is the business of farming. A professional corporation which carries on any business which is a “profession” or “occupation” is not a commercial enterprise.

“*Computer*” means stored program processing equipment and all devices fastened to it by means of signal cables or any communication medium that serves the function of a signal cable. Nonexclusive examples of devices fastened by a signal cable or other communication medium are: terminals, printers, display units, card readers, tape readers, document sorters, optical readers, and card or tape punchers. Excluded from the definition of “computer” is point-of-sale equipment. For a characterization of “point-of-sale equipment” see 701—subrule 71.1(7).

Also included within the meaning of the word “computer” is any software consisting of an operating system or executive program. Such software coordinates, supervises, or monitors the basic operating procedures of a computer. An operating system or executive program is exempt from sales tax only if purchased as part of the sale of the computer for which it operates. An operating system or executive program priced separately or sold at a later time is subject to the provisions of rule 18.34(422,423). Excluded from the meaning of the word “computer” is any software consisting of an application program. For purposes of this subrule, “operating system or executive program” means a computer program which is fundamental and necessary to the functioning of a computer. The operating system or executive program software controls the operation of a computer by managing the allocation of

all system resources, including the central processing unit, main and secondary storage, input/output devices, and the processing of programs. This is in contrast to application software which is a collection of one or more programs used to develop and implement the specific applications which the computer is to perform, and which calls upon the services of the operating system or executive program.

"Directly used." Property is "directly used" only if it is used to initiate, sustain, or terminate the transformation of any activity. In determining whether any property is "directly used," consideration should be given to the following factors:

1. The physical proximity of the property in question to the activity in which it is used;
2. The proximity of the time of use of the property in question to the time of use of other property used before and after it in the activity involved; and
3. The active causal relationship between the use of the property in question and the activity involved. The fact that a particular piece of property may be essential to the conduct of the activity because its use is required either by law or practical necessity does not, of itself, mean that the property is directly used.

"Financial institution" is a bank incorporated under Iowa Code chapter 524 or federal law; a savings and loan association incorporated under Iowa Code chapter 534 or federal law; a credit union organized under Iowa Code chapter 533 or federal law; or any corporation licensed as an industrial loan company under Iowa Code chapter 536A. Excluded from the meaning of the term are loan brokers governed by Iowa Code chapter 535C and production credit associations.

"Industrial machinery and equipment" means machinery and equipment used by a manufacturer in a manufacturing establishment. Machinery is any mechanical, electrical or electronic device designed and used to perform some function and to produce a certain effect or result. The word includes not only the basic unit of the machinery but also any adjunct or attachment necessary for the basic unit to accomplish its intended function. The word also includes all devices used or required to control, regulate or operate a piece of machinery, provided such devices are directly connected with or are an integral part of the machinery and are used primarily for control, regulation or operation of machinery. Jigs, dies, tools, and other devices necessary to the operation of or used in conjunction with the operation of what would be ordinarily thought of as machinery are also considered to be "machinery." See *Deere Manufacturing Co. v. Zeiner*, 247 Iowa 1264 78 N.W.2d 527 (1956). Machinery does not include buildings designed specifically to house or support machinery. Equipment is any tangible personal property used in an operation or activity. Nonexclusive examples of equipment are: tables on which property is assembled on an assembly line and chairs used by assembly line workers.

"Insurance company" means an insurer organized or operating under Iowa Code chapter 508, 514, 515, 518, 519, or 520 or authorized to do business in Iowa as an insurer. An insurance company must have 50 or more persons employed in Iowa, excluding licensed insurance agents. Effective April 8, 1996, an insurance company means an insurer organized or operating under Iowa Code chapter 508, 514, 515, 518, 518A, 519, or 520 or authorized to do business in this state as an insurer or licensed insurance agent under Iowa Code chapter 522. Excluded from the definition of "insurance company" are fraternal and beneficial societies governed by Iowa Code chapter 512 and health maintenance organizations governed by Iowa Code chapter 514B. This list of exclusions is not intended to be exclusive.

"Manufacturer" means any person, firm, or corporation who purchases, receives, or holds personal property for the purpose of adding to its value by any process of manufacturing, refining, purifying, combining of different materials, or by packing of meats with an intent to sell at a gain or profit. Those who are in the business of printing, newspaper publication, bookbinding, lumber milling, and production of drugs and agricultural supplies are illustrative, nonexclusive examples of manufacturers. Construction contracting; quarrying; remanufacture or rebuilding of tangible personal property (such as automobile engines); provision of health care; farming; transportation for hire; mining; and the activities of restaurateurs, hospitals, and medical doctors are illustrative, nonexclusive examples of businesses which are not manufacturers. See *Associated General Contractors of Iowa v. State Tax Commission*, 255 Iowa 673, 123 N.W.2d 922 (1963) and *River Products Co. v. Board of Review of Washington County*, 332 N.W.2d 116 (Iowa Ct. App. 1982).

“Pollution control equipment” means any disposal system or apparatus used or placed in operation primarily for the purpose of reducing, controlling or eliminating air or water pollution. The term does not include any apparatus used to eliminate “noise pollution.” Liquid, solid, and gaseous wastes are included within the meaning of the word “pollution.”

“Processing” means an operation or series of operations whereby tangible personal property is subjected to some special treatment by artificial or natural means which changes its form, context, or condition, and results in marketable tangible personal property. See rule 18.29(422,423).

“Processing or storage of data or information.” Not only a computer, but machinery or equipment may be used in the processing or storage of data or information. All computers store and process information. However, only if the “final output” for a user or consumer is stored or processed data will the computer be subject to refund or exemption of tax.

“Recycling” means any process by which waste, or materials which would otherwise become waste, are collected, separated, or processed and revised or returned for use in the form of raw materials or products. The term includes, but is not limited to, the composting of yard waste which has been previously separated from other waste. “Recycling” does not include any form of energy recovery.

“Replacement parts.” Replacement parts which are depreciable for state and federal income tax purposes include only those replacement parts which either materially add to the value of industrial machinery, equipment, or computers or appreciably prolong their lives. Replacement parts which only keep machinery, equipment, or computers in their ordinarily efficient operating condition are not eligible for exemption. Included within the meaning of replacement parts is any part the cost of which is depreciable for state and federal income tax purposes but which may also be deducted as a current expense. So long as the cost is depreciable the sale or lease of the replacement part is eligible for exemption from tax. However, the person claiming the exemption must show that the replacement part which was deducted as an expense could have been depreciated under state and federal income tax law.

“Research and development” means experimental or laboratory activity which has as its ultimate goal the development of new products, processes of manufacturing, refining, purifying, combining of different materials, or meat packing. The ultimate goal of research and development must be that of adding value to products. The term “research and development” does not include testing or inspection for quality control purposes, efficiency surveys, management studies, consumer surveys, advertising, promotions, or research in connection with literary, historical, or similar projects. Machinery, equipment, and computers are used “directly” in research and development only if they are used in actual experimental or laboratory activity that qualifies as research and development under this subrule.

“Specified property” means property that is a computer or industrial machinery and equipment including pollution control equipment and depreciable replacement parts for that property.

18.45(2) Requirements. The sale or rental of specified property is exempt from tax if:

a. The property is real property within the scope of Iowa Code section 427A.1(1) “e” or “j.” For sales occurring after January 1, 1994, the property is not required to be subject to taxation as real property (however, see subrules 18.45(4) and 18.45(8)); and

b. The property is directly and primarily used in one of the following:

1. By a manufacturer in processing tangible personal property; or

2. In research and development of new products or processes of manufacturing, refining, purifying, combining of different materials or packing of meats to be used for the purposes of adding value to products; or

3. In processing or storage of data or information by an insurance company, financial institution, or commercial enterprise.

c. To qualify for refund or exemption, a computer may be taxable as either commercial or industrial real estate. Machinery and equipment must be taxable as industrial real estate only to be similarly qualified. Research and development machinery and equipment that is not taxable as industrial real estate does not qualify for refund or exemption. See 701—subrules 71.1(5) and 71.1(6) for characterizations of “commercial” and “industrial” real estate. However, see subrule 18.45(4) for an exception to the requirement that certain property be taxable as real property.

d. The following are examples of machinery which is not directly used in manufacturing:

1. Machinery used exclusively for the efficient use of other machinery. Examples are: air cooling, air conditioning, and exhaust systems.
2. Machinery used in support operations, such as a machine shop, in which production machinery is assembled, maintained or repaired.
3. Machinery used by administrative, accounting, and personnel departments.
4. Machinery used by plant security, fire prevention, first aid, and hospital stations.
5. Machinery used in plant cleaning, disposal of scrap and waste, plant communications, lighting, safety, or heating.

e. The following is an example of property directly used in research and development: Frontier Hybrid, Inc. maintains a research and development laboratory for use in developing a corn plant which is a perennial. It purchases the following items for use in its research and development laboratory: a computer which will process data relating to the genetic structure of the various corn plants which Frontier Hybrid is testing, an electron microscope for examining the structure of corn plant genes, a “steam cleaner” for cleaning rugs in the laboratory offices, and a typewriter for use by the laboratory director’s secretary. The computer and the microscope are “directly” used in the research in which the laboratory is engaged; the steam cleaner and the typewriter only indirectly used. Therefore, purchase of the computer and microscope would be exempt from tax; purchase of the steam cleaner and typewriter would be subject to tax.

f. The following is an example of property used in processing or storage of information or data: A health insurance company has three computers. Computer A is used to monitor the temperature within the insurance company’s building. The computer transmits messages to the building’s heating and cooling systems telling them when to raise or lower the level of heating or air conditioning as needed. Computer B is used to store patient records and will recall those records on demand. Computer C is used to tabulate statistics regarding the amount of premiums paid in and the amount of benefit paid out for various classes of insured. The “final output” of Computer A is neither stored nor processed information. The final output of Computer B is stored information. The final output of Computer C is processed information. The sale, lease, or use of Computers B and C would qualify for exemption or refund.

g. The following is an example of property not used in manufacturing: A manufacturing plant located in Warren County which manufactures widgets fabricates its own patterns used in manufacturing the widgets on a metal press machine in its machine shop located in Story County. The machine shop does not sell the patterns and the metal press machine is used for no other purpose than to fabricate the patterns. The metal press machine is not used in manufacturing because there is no intent to sell the patterns used by the machine shop at a gain or profit.

18.45(3) Exceptions. The following specified property is not exempt:

a. Property assessed by the department of revenue pursuant to Iowa Code chapters 428, 433, 434 and 436 to 438, inclusive. For electric, gas, water, and other companies assessed under Iowa Code chapter 428, only property owned by the company is assessed by the department. For railroad, telephone, pipeline, and electric transmission lines companies, property leased to as well as owned by the company is assessed by the department. See 701—Chapters 71 and 77.

b. Hand tools.

c. Point-of-sale equipment. See 701—subrule 71.1(7).

18.45(4) Inclusions. Property exempt from taxation for property tax purposes under the provisions of Iowa Code chapters 404 and 427B relating to urban revitalization property and industrial machinery receiving partial exemption by ordinance is also eligible for exemption from sales and use taxes even though the property is not subject to taxation as real property. Urban revitalization property and industrial machinery receiving partial exemption by ordinance are discussed in rules 701—80.8(404) and 80.6(427B), respectively. This property must meet the other requirements in subrule 18.45(2) in order to be exempt from sales and use taxes.

18.45(5) Lessor purchases of specified property. The analysis contained in rule 18.44(422,423) regarding lessor purchases of farm machinery and equipment is applicable to explain that same problem regarding specified property. See subrule 18.44(3) for analysis.

18.45(6) Rights of refund and exemption. Rescinded IAB 10/13/93, effective 11/17/93.

18.45(7) *Designing or installing new industrial machinery or equipment.* On and after July 1, 1985, the gross receipts from the services of designing or installing new industrial machinery or equipment shall be exempt from tax. The enumerated services of electrical or electronic installation are included in this exemption. To qualify for the exemption, the sale or rental of the machinery or equipment must be subject to refund or exemption under this rule. In addition, the machinery or equipment must be “new.” For purposes of this subrule, “new” means never having been used or consumed by anyone. The exemption is not applicable to reconstructed, rebuilt or repaired or previously owned machinery or equipment. The exemption is applicable to new machinery and equipment designed or installed for rental as well as for sale. The gross receipts from design or installation must be separately identified, charged separately, and reasonable in amount for the exemption to apply. A “computer” is not considered to be machinery or equipment, and its installation or design is not eligible for this exemption.

18.45(8) *Property used in recycling or reprocessing of waste products.* On and after July 1, 1989, the gross receipts from the sale or rental of machinery, equipment, or computers directly and primarily used in the recycling or reprocessing of waste products shall be exempt from tax. Machinery or equipment used in the recycling or reprocessing of waste products includes, but is not limited to, compactors, balers, crushers, grinders, cutters, or shears directly and primarily used for this purpose. The sale of an endloader, forklift, truck, or other moving device is exempt from tax if the device is directly and primarily used in the movement of property which is an integral part of recycling or reprocessing. See 18.45(8) “c.” The sale of a bin for storage ordinarily would not be exempt from tax, storage without more not being a part of recycling or reprocessing. Certain limits for exemption placed upon industrial machinery and equipment are not applicable to machinery and equipment used in recycling or reprocessing.

For example, machinery, equipment or a computer need not meet the requirements of 18.45(2) “a” concerning specified property being real property for the exemption to apply. Furthermore, the exemption will apply even if the machinery, equipment or computer is purchased by a person other than an insurance company, financial institution or commercial enterprise. For instance, a person engaged in a profession or occupation could purchase property for direct and primary use in recycling or reprocessing of waste products and the exemption would apply.

a. By way of nonexclusive examples, recycling or reprocessing can begin when waste or material which would otherwise become waste is collected or separated. A vehicle used directly and primarily for collecting waste which will be recycled or reprocessed could be a vehicle used for an exempt purpose under this rule. Thus, the purchaser of a garbage truck could claim this exemption if the truck were directly and primarily used in recycling and not, for instance, in hauling garbage to a landfill. Machinery or equipment used to segregate waste from material to be recycled or reprocessed or used to separate various forms of materials which will be reprocessed (e.g., glass and aluminum) can also be used at the beginning of recycling or reprocessing.

b. Machinery and equipment directly and primarily used in recycling or reprocessing. See subrule 18.45(1) for the definition of “directly used” which is applicable to this subrule. The examples of machinery not directly used in manufacturing set out in 18.45(2) “d” should be studied for guidance in determining whether similar machinery is or is not used in recycling or reprocessing; e.g., machinery used in plant security (see 18.45(2) “d”⁴) is not machinery directly used in recycling or reprocessing.

c. Integral use in recycling or reprocessing. Ordinarily, any operation or series of operations which does not transform waste or material which would otherwise become waste into new raw materials or products would not be a part of recycling or reprocessing. However, activities which do not do this, but are an “integral part” of recycling or reprocessing, are themselves recycling or reprocessing. For example, an endless belt which moves aluminum cans from a machine where they are shredded to a machine where the shredded aluminum is crushed into blocks would be an endless belt used in recycling or reprocessing and the exemption applies. See subrule 18.29(5) for a discussion of when an activity is an integral part of “processing.” Some of that discussion is applicable to this subrule.

d. The end of recycling or reprocessing. Recycling or reprocessing ends when waste or a material which would otherwise become waste is in the form of raw material in which it will be used in manufacturing or in the form of a product which will be sold for use other than as a raw material in manufacturing. For instance, a corporation purchases a machine which grinds logs, stumps, pallets, and

crates and other waste wood into wood chips. After grinding, the wood chips are sold and transported to purchasers to various sites where the chips are dumped on and spread out over the ground for use in erosion control. The machine which grinds the wood chips is a machine used in recycling. The truck which transports the wood chips from the machine to the sites is not used in reprocessing because, at the time the chips are placed in the truck, they are in the form in which they will be sold for use other than as a raw material in manufacturing.

This rule is intended to implement Iowa Code section 422.45(26), Iowa Code section 422.45(27) as amended by 1996 Iowa Acts, chapter 1049, and Iowa Code section 422.45(29).

701—18.46(422,423) Automotive fluids. The gross receipts from the sales of certain automotive fluids are exempt from tax. To be considered exempt, the sale must possess the following characteristics: (1) the sale must be to a retailer who will install the automotive fluid in or apply the automotive fluid to a motor vehicle; and (2) the installation or application must be done while the retailer is providing a taxable enumerated service (e.g., automobile lubrication); or (3) the automotive fluid must be installed in or applied to a motor vehicle which the retailer intends to sell and the sale of which will be subject to Iowa use tax.

Specific but nonexclusive examples of “automotive fluids” are motor oil and other automobile lubricants, hydraulic, brake, and transmission fluids, sealants, undercoatings, antifreeze, and gasoline additives.

This rule is intended to implement Iowa Code section 422.45(33).

701—18.47(422,423) Maintenance or repair of fabric or clothing.

18.47(1) As of July 1, 1987, sales of chemicals, solvents, sorbents, or reagents consumed in the maintenance or repair of fabric or clothing are exempt from tax. See 701—subrule 17.14(1) for definitions of the terms “chemical, solvent, sorbent or reagent.” This subrule’s exemption is mainly applicable to dry-cleaning and laundry establishments; however, it is also applicable to soap or any chemical or solvent used to clean carpeting. The department presumes that a substance is “directly used” in the maintenance or repair of fabric or clothing if the substance comes in contact with the fabric or clothing during the maintenance or repair process. Substances which do not come into direct contact with fabric or clothing may, under appropriate circumstances, be directly used in the maintenance or repair of the fabric or clothing but direct use will not be presumed.

The following are examples of substances directly used and consumed in the maintenance or repair of fabric or clothing: perchloroethylene “perch” or petroleum solvents used in dry-cleaning machines and coming in direct contact with the clothing being dry-cleaned. Substances used to clean or filter the “perch” or petroleum solvents would also be exempt from tax, even though these substances do not come in direct contact with the clothing being cleaned. The sale of soap or detergents especially made for mixing with “perch” or petroleum solvents is exempt. The sale of stain removers to dry cleaners is exempt from tax.

A commercial laundry’s purchase of detergents, bleaches, and fabric softeners is exempt from tax. A commercial laundry’s purchase of water, which is a solvent, is also exempt from tax if purchased for use in the cleaning of clothing.

The purchase of starch by laundries and “sizing” by dry cleaners is not exempt from tax.

18.47(2) Also, on and after July 1, 1987, the sale of property which is a container, label, or similar article or receptacle for transfer in association with the maintenance or repair of fabric or clothing is exempt from tax. In general, the sale of any article which protects dry-cleaned or laundered clothing from dirt or helps the dry-cleaned or laundered clothing to maintain its proper shape or form in the same fashion as a container does would be exempt from tax under this subrule. By way of nonexclusive example, the sale of plastic garment bags, which protect clothing from dirt, is exempt from tax. The sale of “shirt boards” and garment hangers, both of which help clothing to maintain its proper shape, would also be exempt.

A container, label, or similar article’s sale is exempt from tax only if the item is transferred to the customer of a commercial laundry, dry cleaner, or other retailer. Thus, “bundle bags” and “meese carts,”

used to transfer or transport clothing within a dry-cleaning establishment, are not subject to the exemption because these bags and carts remain with the dry cleaner and are not transferred to a customer.

Concerning labels, the sale of which would be exempt from tax, these labels must be affixed to the dry-cleaned or laundered clothing and transferred to the customer of the dry-cleaning or laundering establishment. By way of nonexclusive example, the sale to dry cleaners, of “special attention,” “invoice” and “sorry” tags would be exempt from tax.

The sale of safety pins and other types of clips used to hang skirts and other garments from hangers would not be exempt from tax. These items do not sufficiently resemble containers or labels to the extent that their sale is exempt from tax.

This rule is intended to implement Division IV of Iowa Code chapter 422.

701—18.48(422,423) Sale or rental of farm machinery, equipment, replacement parts, and repairs used in livestock, dairy, or plant production. Sales or rental of farm machinery and equipment used in livestock or dairy production and replacement parts which occur on or after July 1, 1988, are exempt from sales and use tax. On and after July 1, 1995, machinery, equipment, and replacement parts used in the production of flowering, ornamental, or vegetable plants are exempt from tax. See rule 701—18.57(422,423).

18.48(1) Definitions and characterizations. For the purposes of this rule, the following definitions and characterizations of words apply.

a. “Machinery” means major mechanical machines or major components thereof which contribute directly and primarily to the livestock or dairy production process. Usually, a machine is a large object with moving parts which performs work by the expenditure of energy, either mechanical (e.g., gasoline or kerosene) or electrical.

b. “Equipment” is tangible personal property (other than a machine) directly and primarily used in livestock or dairy production. It may be characterized as property which performs a specialized function which, of itself, has no moving parts or if it does possess moving parts, its source of power is external to it. The following examples attempt to differentiate between machinery and equipment:

EXAMPLE A. An electric pump is used to pump milk into a bulk milk tank. The electric pump is machinery; the bulk milk tank is equipment.

EXAMPLE B. An auger places feed into a cattle feeder. If not “real property” (see 18.48(1) “c”) the auger is a piece of machinery; the cattle feeder is a piece of equipment.

c. Property used in livestock or dairy production which is neither “equipment” nor “machinery.”

(1) Real property. The ground or the earth is not machinery or equipment. A building is not machinery or equipment, *Mid-American Growers, Inc. v. Dept. of Revenue*, 493 N.E.2d 1097 (Ill. App. Ct. 1986). Therefore, tangible personal property which is sold for incorporation into the ground or a building in such a manner that it will become a part of the ground or the building is taxable. Generally, property incorporated into the ground or a building has become a part of the ground or the building if removal of the property from the ground or building will substantially damage the property, ground, or building or substantially diminish the value of the property, ground, or building. Fence posts embedded in concrete and electrical wiring, light fixtures, fuse boxes, and switches are examples of property sold for incorporation into the ground or a building, respectively. The property referred to in 18.48(1) “c”(1) can be identified by applying the following test: Assume that the property is being sold to a contractor rather than a person engaged in livestock or dairy production. If sold to a contractor, would the retailer be required to consider the property “building material” and charge the contractor sales tax upon the purchase of this building material. If this is the case, sale of the property is not exempt from Iowa tax law. Iowa department of revenue rule 701—19.3(422,423) contains a characterization of “building material” and a list of specific examples of building material.

(2) “Supplies” are neither machinery nor equipment. Tangible personal property is part of farm supplies if it is used up or destroyed by virtue of its use in livestock or dairy production or, because of its nature, can only be used once in livestock or dairy production. A light bulb is an example of a farm supply which is not machinery or equipment. The sale of some farm supplies is exempt from tax. See

701—subrule 17.9(3). See List B in subrule 18.48(7) for examples of farm supplies which could be mistaken for equipment and are not exempt from tax on other grounds.

d. “Hand tools” are tools which can be held in the hand or hands and which are powered by human effort. Hand tools specifically designed for use in livestock or dairy production are exempt from tax as “equipment.” Mechanical devices that are held in the hand and driven by electricity or some source other than human muscle power are, if otherwise qualified, exempt from tax as “farm machinery.” See subrule 18.48(7), List C, for examples of “hand tools” exempt and not exempt from tax.

e. Directly used in livestock or dairy production. To determine if machinery or equipment is “directly” used in livestock or dairy production, one must first ensure that the machinery or equipment is used during livestock or dairy production and not before that process has begun or after it has ended. Subrule 18.48(1), paragraph “g,” describes when livestock or dairy production begins and ends. If the machinery or equipment is used in livestock or dairy production, to be “directly” so used, that use must constitute an integral and essential part of production as distinguished from a use in production which is incidental, merely convenient to or remote from production. The fact that machinery or equipment is essential or necessary to livestock or dairy production does not mean that it is also “directly” used in production. Machinery or equipment may be necessary to livestock or dairy production but so remote from it that it is not directly used in that production.

(1) In determining whether machinery or equipment is used directly, consideration should be given to the following factors:

1. The physical proximity of the machinery or equipment to other machinery or equipment whose direct use is unarguable. The closer the machinery or equipment whose direct use is questioned is to the machinery or equipment whose direct use is not questioned, the more likely it is that the former is directly used in livestock or dairy production.

2. The proximity in time of the use of machinery or equipment whose direct use is questionable to the use of machinery whose direct use is not questioned. The closer in time the use, the more likely that the questioned machinery or equipment’s use is direct rather than remote.

3. The active causal relationship between the use of the machinery or equipment in question and livestock or dairy production. The fewer intervening causes between the use of the machinery or equipment and the production of the product, the more likely it is that the machinery or equipment is directly used in production.

(2) The following are examples of machinery and equipment directly used in livestock or dairy production:

1. Machinery and equipment used to transport or limit the movement of livestock and dairy animals (e.g., electric fence equipment, head gates, and loading chutes).

2. Machinery and equipment used in the conception, birth, feeding, and watering of livestock or dairy animals (e.g., artificial insemination equipment, portable farrowing pens, feed carts, and automatic watering equipment).

3. Machinery and equipment used to maintain healthful or sanitary conditions in the immediate area where livestock are kept (e.g., manure gutter cleaners, automatic cattle oilers, fans, and heaters if not real property).

4. Machinery or equipment used to test or inspect livestock or dairy animals during production.

(3) The following are nonexclusive examples of machinery or equipment which would not be directly used in livestock or dairy production.

1. Machinery or equipment used to assemble, maintain, or repair other machinery or equipment directly used in livestock or dairy production (e.g., welders, paint sprayers, and lubricators).

2. Machinery used in farm management, administration, advertising, or selling (e.g., a recordkeeping computer, calculating machine, office safe, telephone, books, and farm magazines).

3. Machinery or equipment used in the exhibit of livestock or dairy animals (e.g., blankets, halters, prods, leads, and harnesses).

4. Machinery or equipment used in safety or fire prevention, even though the machinery or equipment is required by law.

5. Machinery or equipment for employee or personal use. Machinery or equipment used for the personal comfort, convenience, or use by a farmer, the farmer's family or employees, or persons associated with the farmer are not exempt from tax. Examples of such machinery and equipment include the following: beds, mattresses, blankets, tableware, stoves, refrigerators, and other equipment used in conjunction with the operation of a farm home or of a migrant labor camp, or other facilities for farm employees.

6. Machinery and equipment used for heating, cooling, ventilation, and illumination of farm buildings generally rather than specifically in the immediate area where livestock are kept.

7. Vehicles subject to registration.

f. "Primarily" used in livestock or dairy production. Machinery or equipment is "primarily used in livestock or dairy production" if of the total time that unit of machinery or equipment is used, more than 50 percent of the time is in livestock or dairy production. If a unit of machinery or equipment is used more than 50 percent of the time for production and the balance of time for other business purposes, the exemption applies. If a unit of equipment is used 50 percent or more of the time for business purposes other than livestock or dairy production, the exemption does not apply. Any unit of machinery or equipment used more than 50 percent of the time directly in livestock or dairy production is subject to the exemption.

g. Beginning and end of livestock or dairy production. Livestock or dairy production begins with the purchase or breeding of livestock or dairy animals. Livestock and dairy production ceases when an animal or the product of an animal's body (e.g., wool or milk) has been transported to the point where it will be sold by the farmer or processed.

h. Farm machinery and equipment means machinery and equipment specifically designed for use in livestock and dairy production or equipment and machinery not specifically designed for this use but which are directly and primarily used in livestock or dairy production except for common or ordinary hand tools. See 18.48(1) "d" for a definition of "hand tools."

EXAMPLE. Farmer Jones raises livestock and fans must be used to cool the animals. Farmer Jones buys fans designed for use in a residence which he uses directly and solely to cool the livestock. The exemption applies.

i. "Self-propelled implement" has the same meaning as in 701—subrule 17.9(5), paragraph "c" where the term is defined to mean an implement which is capable of movement from one place to another under its own power. The term self-propelled implement includes but is not limited to the following items: skidloaders and tractors; and the following machinery if capable of movement under its own power: combines, corn pickers, fertilizer spreaders, hay conditioners/windrowers, sprayers, and bean buggies.

j. Implements customarily drawn or attached to self-propelled implements. The following is a nonexclusive, representative list of implements which are customarily drawn or attached to self-propelled implements: augers, balers, blowers, combines, conveyers, cultivators, disks, drags, dryers (portable), farm wagons, feeder wagons, fertilizer spreaders, front- and rear-end loaders, harrows, hay loaders, mowers and rakes, husking machines, manure spreaders, planters, plows, posthole diggers, rotary blade mowers, rotary hoes, sprayers and tanks, and tillage equipment.

k. The term "grain dryer" includes the heater and the blower necessary to force the warmed air into a grain storage bin. It does not include equipment used in grain storage or movement such as augers and spreaders or any other equipment that is not a grain dryer. Equipment other than a grain dryer which is used in grain drying may be exempt or subject to refund if the equipment is a self-propelled implement or customarily drawn or attached to a self-propelled implement.

l. The term "replacement parts essential to any repair or reconstruction necessary to farm machinery or equipment's exempt use in the production of agricultural products" does not include attachments and accessories not essential to the operation of the machinery or equipment itself (except when sold as part of the assembled unit) such as cigarette lighters, radios, canopies, air conditioning units, cabs, deluxe seats, and tools or utility boxes.

18.48(2) *Right of refund for farm machinery and equipment used in livestock or dairy production, basic requirements.* Rescinded IAB 10/13/93, effective 11/17/93.

18.48(3) *Treatment of replacement parts.* Rescinded IAB 10/13/93, effective 11/17/93.

18.48(4) *Packing material used in agricultural, livestock, or dairy production.* For sales occurring on or after July 1, 1996, the gross receipts from the sale of property which is a container, label, carton, pallet, packing case, wrapping, baling wire, twine, bag, bottle, shipping case, or other similar article or receptacle sold for use in agricultural, livestock, or dairy production are not subject to sales tax. This exemption also applies to producers of ornamental, flowering, or vegetable plants in commercial greenhouses or other places which sell such items in the ordinary course of business since that activity is considered to be agricultural.

18.48(5) Rescinded IAB 11/20/96, effective 12/25/96.

18.48(6) *Auxiliary attachments exemption.* On and after July 1, 1995, sales of auxiliary attachments which improve the performance, safety, operation, or efficiency of machinery or equipment are exempt from tax. Sales of replacement parts for these auxiliary attachments are also exempt on and after that date.

18.48(7) *Lists.* Lists (representative but not all-inclusive) of tangible personal property for which sales or use tax paid is or is not refundable.

LIST A. Property Used in Livestock and Dairy
Production Which is Usually Real Property. See
18.48(1) "c"(1). Its sale is usually taxable.

barn ventilators*	livestock feeders*
conveyers*	silos
farrowing crates*	specialized flooring*
fence posts	sprinklers
fencing wire	stanchions
furnaces*	watering tanks*
gestation stalls*	ventilators*

*These items also appear in List D. Tax paid on their sale can be refundable or their sale exempt if the items are not real property.

LIST B. Taxable Farm Supplies
Which Are Not Machinery or Equipment

burlap*	lubricants
disposable hypodermic syringes	marking chalk
ear tags	packages for one-time use
hog rings	

*Burlap is exempt when used in the form of a bag, container, wrap or other receptacle or packaging material.

LIST C. Hand Tools—Taxable and Nontaxable

axes	lanterns
brooms	milk cans*
buckets	mops
cleaning brushes	paintbrushes
dehorner (nonelectric)*	pliers
garden hoses	scrapers
grease guns	screwdrivers
hammers	shovels
hay hooks*	wheelbarrows
hog ringers*	wrenches
lamps	

*Hand tools specially designed for use in livestock or dairy production are equipment. Tax paid on the sale or use of these hand tools is refundable.

LIST D. Farm Machinery and Equipment Directly and
Primarily Used in Livestock or Dairy Production.
Tax Paid is Usually Refundable or the Sale Exempt.

artificial insemination equipment	gates*
augers*	grain augers
automatic feeding systems*	head gates
bulk feeding tanks*	heating pads and lamps
bulk milk coolers	hog feeders*
bulk milk tanks	hypodermic syringes and needles, nondisposable
cattle weaners and feeders	livestock feeding, watering and handling equipment*
cattle currying and oiling machines	loading chutes*
cattle feeders*	LP gas tanks
conveyers*	manure handling equipment*
dehorner, electric	milk coolers
electric fence equipment	milk strainers
fans*	milking machines
farrowing crates, houses and stalls*	refrigerators used to cool raw milk
feed bins*	silo unloaders
feed carts	specialized flooring*
feed elevators*	space heaters
feed grinders	sprayers
feed tanks*	squeeze chutes*
feeders	vacuum coolers
foggers	ventilators*
furnaces*	

*If not real property. See 18.48(1) "c"(1).

18.48(8) Seller's and purchaser's liability for sales tax. The seller shall be relieved of sales tax liability if the seller takes from the purchaser an exemption certificate stating that the purchase is of machinery or equipment meeting the requirements of subrule 18.48(4). An exemption certificate can take the form of a stamp imprinted onto one of the documents of sale. If items purchased tax-free pursuant to an exemption certificate are used or disposed of by the purchaser in a nonexempt manner, the purchaser is solely liable for the taxes and shall remit the tax directly to the department.

This rule is intended to implement Iowa Code section 422.45 as amended by 1996 Iowa Acts, chapter 1145.

701—18.49(422,423) Aircraft sales, rental, component parts, and services exemptions prior to, on, and after July 1, 1999.

18.49(1) Prior to July 1, 1999, sales in Iowa of aircraft subject to registration were subject to sales tax. On and after July 1, 1999, sales of aircraft in Iowa are subject to Iowa use tax rather than Iowa sales tax. See rule 701—31.6(423). Also, on and after that date, the use tax imposed on sales of aircraft in Iowa is collected by the Iowa department of transportation at the time of the aircraft's registration. Sales of certain aircraft parts in Iowa, the performance of taxable services in Iowa on or in connection with the repair, remodeling, or maintenance of aircraft, and the rental of aircraft in Iowa remain subject to Iowa sales tax on and after July 1, 1999. See subrule 18.49(3).

18.49(2) For the purposes of this subrule only, an "aircraft" is any contrivance known or hereafter invented which is designed for navigation of or flight in the air and is used in a scheduled interstate Federal Aviation Administration certified air carrier operation.

a. Exempt aircraft sales. As of July 1, 1988, and up to and including June 30, 1999, gross receipts from the sale of aircraft are exempt from tax.

b. Exempt rental of aircraft. Effective May 1, 1995, and retroactive to July 1, 1988, the taxable rental (see 701—26.74(422,423)) of aircraft, as defined in the introductory paragraph of this subrule, is exempt from tax.

c. Exempt sale or rental of aircraft parts. Effective May 1, 1995, and retroactive to July 1, 1988, gross receipts from the sale or rental of tangible personal property permanently affixed to any aircraft as a component part of that aircraft are exempt from tax. The term "component parts" includes, but is not limited to, repair or replacement parts and materials.

d. Exempt performance of services. Effective May 1, 1995, and retroactive to July 1, 1988, gross receipts from the rendering, furnishing, or performing of services in connection with the repair, remodeling, or maintenance of aircraft (including aircraft engines and component materials or parts) are exempt from tax.

18.49(3) For the purposes of this subrule only, an "aircraft" is any aircraft used in a nonscheduled interstate Federal Aviation Administration certified air carrier operation conducted under 14 CFR ch. 1, pt. 135. On and after July 1, 1998, the gross receipts from the sale or rental of tangible personal property permanently affixed or permanently attached as a component part of these aircraft, including but not limited to repair or replacement materials or parts, are exempt from tax. Also exempt, on and after that date, are the gross receipts from the performance of any service used for aircraft repair, remodeling, or maintenance when the service is performed on an aircraft, aircraft engine, or aircraft component material or part exempt under this subrule. Gross receipts from the sale or rental of aircraft are not exempt from tax under this subrule

18.49(4) For the purposes of this subrule only, an "aircraft" is any contrivance known or hereafter invented which is designed for navigation of or flight in the air. On and after July 1, 1998, and up to and including June 30, 1999, the gross receipts from the sale of an aircraft to an aircraft dealer who rents or leases the aircraft to another are exempt from tax if all of the following circumstances exist:

- a.* The aircraft is kept in the inventory of the dealer for sale at all times.
- b.* The dealer reserves the right to immediately take the aircraft from the renter or lessee when a buyer is found.
- c.* The renter or lessee is aware that the dealer will immediately take the aircraft when a buyer is found.

As soon as an aircraft, the sale of which is exempt under this subrule, is used for any purpose other than leasing or renting, or the conditions set out in paragraphs “a,” “b,” and “c” are not continuously met, the dealer claiming the exemption is liable for the tax which would have been due but for the exemption set out in this subrule. Tax will be computed on the original purchase price paid by the dealer.

See rule 701—32.13(423) for a description of the manner in which transactions described in this subrule are exempted from tax on and after July 1, 1999.

This rule is intended to implement Iowa Code section 422.45, subsections 38, 38A, 38B and 38C and Iowa Code section 423.2 as amended by 1999 Iowa Acts, chapter 168.

701—18.50(422,423) Property used by a lending organization. On and after July 1, 1988, the gross receipts from the sale of tangible personal property to a nonprofit organization organized for the purpose of lending the tangible personal property to the general public for use by the public for nonprofit purposes are exempt from tax. The exemption contained in this rule is applicable to tangible personal property only, and not to taxable services. It is applicable to the sale of that property and not to its rental to a nonprofit organization. Finally, the exemption is applicable only to property purchased by a nonprofit organization for subsequent rental to the general public. The exemption is not applicable to other property (e.g., office equipment) which the nonprofit organization might need for its ongoing existence.

This rule is intended to implement Iowa Code section 422.45(36).

701—18.51(422,423) Sales to nonprofit legal aid organizations. On and after July 1, 1988, the gross receipts from the sale or rental of tangible personal property or from services performed, rendered, or furnished to a nonprofit legal aid organization are exempt from tax.

This rule is intended to implement Iowa Code subsection 422.45(37).

701—18.52(422,423) Irrigation equipment used in farming operations. On and after July 1, 1989, the gross receipts from the sale or rental of irrigation equipment used in farming operations are exempt from tax. The term “irrigation equipment” includes, but is not limited to, circle irrigation systems and trickle irrigation systems. The term “farming operations” has the same meaning as the term “agricultural production” set out in 701—subrule 17.9(3), paragraph “a,” and as further characterized in 18.44(2) “a.”

Effective May 18, 2001, and retroactive to April 1, 1995, the gross receipts from the sale or rental of irrigation equipment, as defined above, whether installed above or below ground are exempt from tax as long as the equipment is sold or rented by a contractor or farmer and the equipment is primarily used in agricultural operations.

Contractors or farmers entitled to the exemption set forth in the previous paragraph may apply for a refund of taxes, interest or penalties paid on the sale or rental of qualifying irrigation equipment for transactions that occurred between April 1, 1995, and May 18, 2001. To be eligible for refund, refund claims must be filed with the department prior to October 1, 2001. Refund claims are limited to \$25,000 in the aggregate and will not be allowed if not timely filed. If the amount of refund claims totals more than \$25,000 in the aggregate, the department will prorate the \$25,000 among all claimants in relation to the amounts of the claimants’ valid claims.

This rule is intended to implement Iowa Code section 422.45 and 2001 Iowa Acts, House File 723.

701—18.53(422,423) Sales to persons engaged in the consumer rental purchase business. On and after July 1, 1989, the gross receipts from the sale of tangible personal property, except vehicles subject to registration, to persons regularly engaged in the consumer purchase business are exempt from tax if the property (1) is sold for the purpose of utilization in a transaction involving a “consumer rental purchase agreement” as defined in Iowa Code subsection 537.3604(8), and (2) the gross receipts from the consumer rental of the property are subject to Iowa sales or use tax.

If property exempt under this rule is made use of for any purpose other than a consumer rental purchase, the person claiming the exemption is liable for the tax that would have been due had the exemption not existed. The tax shall be computed on the original purchase price to the person claiming

the exemption. The aggregate of the tax paid on the consumer rental purchase of the property, not exceeding the amount of sales or use tax owed, shall be credited against the tax.

This rule is intended to implement Iowa Code section 422.45(18).

701—18.54(422,423) Sales of advertising material. On and after July 1, 1990, gross receipts from the sales of advertising material to any person in Iowa are exempt from tax if that person, or any agent of that person, will, after the sale, send that advertising material outside of Iowa and subsequent sole use of that material will be outside this state.

For the purposes of this rule “advertising material” is tangible personal property only, including paper. “Advertising material” is limited to the following: brochures, catalogs, leaflets, fliers, order forms, return envelopes, floppy discs, CD-ROMs, videotapes, and any similar items of tangible personal property which will be used to promote sales of property or services.

This rule is intended to implement Iowa Code section 422.45.

701—18.55(422,423) Drop shipment sales. A “drop shipment” generally involves two sales transactions and three parties. The first party is a consumer located inside Iowa. The second party is a retailer located outside the state. The third party is a supplier who may be located inside or outside of Iowa. The two sales transactions in question are the sale of property from the supplier to the out-of-state retailer, and the further sale of that property from the out-of-state retailer to the consumer in Iowa.

A “drop shipment sale” occurs when the consumer places an order for the purchase of tangible personal property with the out-of-state retailer. The retailer does not own the property ordered at the same time the consumer’s order is placed. The retailer then purchases the property from the supplier. The supplier in turn ships the property directly to the consumer in Iowa. Under Iowa law the supplier in a drop shipment sale cannot be required to collect tax (either sales or use) from the consumer, even if the requisite “nexus” to require collection exists. See the next to last paragraph of this rule for a characterization of “nexus.” The supplier transfers possession of the goods to the consumer; however, transfer of possession alone has never been held to be a “sale” for the purposes of Iowa sales and use tax law. *Sturtz v. Iowa Department of Revenue*, 373 N.W.2d 131 (Iowa 1985) and *Cedar Valley Leasing v. Iowa Department of Revenue*, 274 N.W.2d 357 (Iowa 1979).

With reference to drop shipment sales: If delivery of the goods under the contract for sale has occurred outside of Iowa, sale of the goods has occurred outside of Iowa. If delivery of the goods under the contract for sale has occurred within Iowa, the sale has occurred here. See *Sturtz* above for more information regarding sales and delivery. If the sale has occurred in Iowa and the retailer possesses the requisite nexus to require it to collect Iowa tax, the retailer is obligated to collect Iowa sales tax upon the “gross receipts” from its sale of the goods to the consumer. If the sale has occurred outside this state, and the retailer possesses the nexus to require it to collect Iowa tax, the retailer is obligated to collect Iowa retailer’s use tax upon the purchase price of the goods. If the retailer does not have nexus sufficient to require it to collect either Iowa sales or Iowa use tax, or if the retailer fails to collect either tax, the consumer is obligated to pay a consumer use tax directly to the department upon the purchase price of the goods. These rules are illustrated in the following examples.

EXAMPLE A: A consumer in Des Moines, Iowa, purchases goods from a retailer in Minneapolis, Minnesota. The Minneapolis retailer contracts with a supplier in Iowa to manufacture and ship the goods to the consumer. The retailer has nexus with Iowa, and delivery under the contract for sale has occurred in this state. In this case, the consumer is obligated to pay and the retailer is obligated to collect Iowa sales tax. The supplier is not obligated to collect any Iowa tax.

EXAMPLE B: A consumer in Des Moines, Iowa, purchases goods from a retailer in Minneapolis, Minnesota. The Minnesota retailer contracts with a supplier in Iowa to manufacture and ship the goods to the consumer. The retailer has no nexus with Iowa. Delivery under the contract of sale is in Iowa. Under these circumstances, the consumer is obligated to pay consumer’s use tax directly to the department. Neither the retailer nor the supplier is obligated to collect any Iowa tax.

EXAMPLE C: A consumer in Des Moines, Iowa, purchases goods from a retailer in Minneapolis, Minnesota. The retailer contracts with a supplier in Minneapolis to manufacture and ship the goods to

the consumer in Des Moines. The retailer has nexus with Iowa, and delivery under the contract for sale occurs in Iowa. Under these circumstances, the consumer is obligated to pay and the retailer is obligated to collect Iowa sales tax. The supplier is not obligated to collect any Iowa tax.

EXAMPLE D: A consumer in Des Moines, Iowa, purchases goods from a retailer in Minneapolis, Minnesota. The retailer contracts with a supplier in Minneapolis to manufacture and ship the goods to the consumer in Des Moines. The retailer has nexus with this state; delivery under the contract for sale is in Minnesota. Under the circumstances, the consumer is obligated to pay and the retailer is obligated to collect Iowa retailer's use tax. The supplier is not obligated to collect or pay any Iowa tax.

EXAMPLE E: A consumer in Des Moines, Iowa, purchases goods from a retailer in Minneapolis, Minnesota. The retailer contracts with a supplier in Minneapolis to manufacture and ship the goods to the consumer in Des Moines. The retailer has no nexus with this state. Delivery can occur in either Minnesota or Iowa. In this example, the consumer is obligated to pay Iowa consumer's use tax directly to the department. Neither the retailer nor the supplier is obligated to collect any Iowa tax.

EXAMPLE F: A consumer in Des Moines, Iowa, purchases goods from a retailer in Minneapolis, Minnesota. The retailer contracts with a supplier located in Madison, Wisconsin, to ship the goods to the consumer in Des Moines. The retailer has nexus with Iowa, and delivery under the contract for sale is in Iowa. Under these circumstances, the retailer is obligated to collect and the consumer obligated to pay Iowa sales tax. The supplier is not obligated to collect any Iowa tax.

EXAMPLE G: A consumer in Des Moines, Iowa, purchases goods from a retailer in Minneapolis, Minnesota. The retailer contracts with a supplier located in Madison, Wisconsin, to ship the goods to the consumer in Des Moines. The retailer has nexus with Iowa with delivery in Madison, Wisconsin. Under these circumstances, the retailer is obligated to collect and the consumer obligated to pay Iowa retailer's use tax. The supplier is not obligated to collect any Iowa tax.

EXAMPLE H: A consumer in Des Moines, Iowa, purchases goods from a retailer in Minneapolis, Minnesota. The retailer contracts with a supplier located in Madison, Wisconsin, to ship the goods to the consumer in Des Moines. The retailer has no nexus with Iowa. Delivery under the contract for sale may be in Iowa or Wisconsin. Under these circumstances, the consumer is obligated to pay Iowa consumer's use tax directly to the department. Neither the retailer nor the supplier is obligated to collect any Iowa tax.

As used in these examples, the requirement of "nexus" is discussed in *Good's Furniture House Inc. v. Iowa State Bd. of Tax Review*, 382 N.W.2d 145 (Iowa 1986); cert. den. 479 U.S. 817; *State Tax Commission v. General Trading Co.*, 10 N.W.2d 659, 233 Iowa 877 (1943) affd. 64 S.Ct. 1028, 322 U.S. 335, 88 L.Ed. 1309; and *Nelson v. Sears, Roebuck & Co.*, 292 N.W. 130, 228 Iowa 1273 (1940) reversed 61 S.Ct. 586, 312 U.S. 359, 85 L.Ed. 522, as well as other judicial decisions, and Iowa Code section 422.43(12).

This rule is intended to implement Iowa Code subsections 422.42(2) and 422.42(5).

701—18.56(422,423) Wind energy conversion property. On and after July 1, 1993, the gross receipts from the sale of property used to convert wind energy to electrical energy or the gross receipts from the sale of materials used to manufacture, install, or construct property used to convert wind energy to electrical energy shall be exempt from tax.

For the purposes of this rule, "property used to convert wind energy to electrical energy" means any device which converts wind energy to usable electrical energy including, but not limited to, wind chargers, windmills, wind turbines, pad mount transformers, substations, power lines, and tower equipment.

This rule is intended to implement Iowa Code section 422.45 as amended by 1993 Iowa Acts, chapter 161.

701—18.57(422,423) Exemptions applicable to the production of flowering, ornamental, and vegetable plants. On and after July 1, 1995, the production of flowering, ornamental, or vegetable plants by a grower in a commercial greenhouse or at another location is considered to be a part of agricultural production. The word "plants" does not include trees, shrubs, other woody perennials,

or fungus. The exemption also applies to implements, machinery, equipment, and replacement parts directly and primarily used in the production of flowering, ornamental, or vegetable plants and fuel used for providing heating or cooling for greenhouses or buildings or parts of buildings dedicated to the production of flowering, ornamental, or vegetable plants intended for sale in the ordinary course of business. The following exemptions are applicable to the production of flowering, ornamental, or vegetable plants.

18.57(1) Sales of fertilizer, limestone, herbicides, pesticides, insecticides, plant food, and medication for use in disease, weed, insect control, or other health promotion of flowering, ornamental, or vegetable plants to a commercial greenhouse are exempt from tax. For the purposes of this subrule a virus, bacteria, fungus, or insect which is purchased for use in killing insects or other pests is an “insecticide” or “pesticide.” See rules 701—17.4(422,423) and 17.9(422,423) for more information regarding these exemptions.

18.57(2) Sales of fuel to provide heating or cooling for a greenhouse or building or a part of a building dedicated to the production of flowering, ornamental, or vegetable plants held for sale in the ordinary course of business are exempt from tax. Electricity is a “fuel” for the purposes of this subrule. Fuel used in a plant production building for purposes other than heating or cooling (e.g., lighting) or for purposes other than direct use in plant production (e.g., heating or cooling office space) is not eligible for this exemption. For example, assume that there is a separate meter for electricity used only for heating or cooling. If a greenhouse is used, partially for growing plants and partially for a nonexempt purpose, a proportional exemption from sales tax may be claimed based upon a percentage calculated from a fraction, the numerator of which is the number of square feet of the greenhouse heated or cooled and used for raising plants, and the denominator of which is the number of square feet heated or cooled in the entire greenhouse. It may be necessary to alter this formula (by the use of separate metering, for example) if a greenhouse has a walk-in cooler and the cooler is used directly in plant production. Plant production has ended when a plant has grown to the point that it is of the size or weight at which it will be prepared for shipment to the destination where it will be marketed. Examples of nonexempt purposes for which a portion of a greenhouse might be used include, but are not limited to, portions used for office space, loading docks, storage of property other than plants, housing of heating and cooling equipment and portions used for packaging plants for shipment. See rule 701—15.3(422,423) regarding fuel exemption certificates and subrule 18.48(8) regarding seller’s and purchaser’s liability for sales tax.

18.57(3) Sales of gas, electricity, steam or other tangible personal property for use as a fuel in implements of husbandry used in the production of plants in a commercial greenhouse or elsewhere are exempt from tax. See 701—subrule 17.9(6), paragraph “a,” for a definition of “implements of husbandry.”

18.57(4) Sales of self-propelled implements. Sales of self-propelled implements or implements customarily drawn by or attached to self-propelled implements and replacement parts for the same are exempt from tax if the implements are used directly and primarily in the production of plants in commercial greenhouses or elsewhere. See rule 701—18.44(422,423) for an extensive explanation of this exemption. Implements exempt under this subrule include, but are not limited to, forklifts used to transport pallets of plants; wagons containing sterilized soil and tractors used to pull the same.

18.57(5) Sale of water used in the production of plants is exempt from tax. If water is not separately metered, the grower of plants must determine by use of a percentage that portion which is used for a taxable purpose and that portion which is used for an exempt purpose.

Nonexclusive examples of taxable usage would be rest rooms, sanitation, lawns, and vehicle wash.

18.57(6) For sales occurring on or after July 1, 1996, the gross receipts for the sale of property which is a container, label, carton, pallet, packing case, wrapping, baling wire, twine, bag, bottle, shipping case, or other similar article or receptacle sold for use in agricultural, livestock, or dairy production are not subject to sales tax. This exemption also applies to producers of ornamental, flowering, or vegetable plants in commercial greenhouses or other places which sell such items in the ordinary course of business since that activity is considered to be agricultural. A noninclusive list of containers and packaging materials would include boxes, trays, labels, sleeves, tape, and staples.

18.57(7) Sales of machinery and equipment used in plant production which are not self-propelled or attached to self-propelled machinery and equipment are also exempt from tax. See rule 701—18.48(422,423) for a thorough explanation of this exemption. Listed below are a number of examples of machinery and equipment which are directly and primarily used in plant production. Sales of this machinery and equipment to commercial growers are usually exempt from tax.

- Air-conditioning pads*
- Airflow control tubes
- Atmospheric CO₂ control and monitoring equipment
- Backup generators
- Bins holding sterilized soil
- Control panels = heating and cooling
- Coolers used to chill plants*
- Cooling walls* or membranes
- Equipment used to control water levels for subirrigation
- Fans = cooling and ventilating*
- Floor mesh for controlling weeds
- Germination chambers
- Greenhouse boilers*
- Greenhouse netting or mesh = used for light and heat control
- Greenhouse monorail systems*
- Greenhouse thermometers
- Handcarts used to move plants
- Lighting which provides artificial sunlight
- Overhead heating, lighting and watering systems
- Overhead tracks for holding potted plants*
- Plant tables*
- Plant watering systems*
- Portable buildings used to grow plants*
- Seeding and transplanting machines
- Soil pot and soil flat filling machines
- Steam generators for soil sterilization*
- Warning devices = excess heat or cold
- Watering booms

*If not real property. See 18.48(1) “c”(1).

18.57(8) Miscellaneous exempt and taxable sales. Sales of pots, soil, seeds, bulbs, and “starter plants” for use in plant production are not the sale of machinery or equipment, but can be sales for resale and exempt from tax if the pots and soil are sold with the final product or become the finished product. Sales of portable buildings which will be used to display plants for retail sales are taxable. Finally, sales of whitewash which will be painted on greenhouses to control the amount of sunlight entering those houses are taxable sales of a “supply” rather than exempt sales of equipment. See 18.48(1) “c”(2) relating to “supplies.” See rule 701—18.7(422,423) relating to containers, including packaging cases, shipping cases, wrapping materials, and similar items sold to retailers, and see subrule 18.57(6).

This rule is intended to implement Iowa Code sections 422.42(1), 422.42(4), 422.42(11), 422.45(39) and 422.47(4) and Iowa Code section 422.45 as amended by 1996 Iowa Acts, chapter 1145.

701—18.58(422,423) Exempt sales or rentals of computers, industrial machinery and equipment, and exempt sales of fuel and electricity on and after July 1, 1997, but before July 1, 2016. The sale or rental of machinery, equipment, or computers used by a manufacturer in processing; the sale or rental of a computer used in the processing or storage of data or information by an insurance company, financial institution, or commercial enterprise; and the sale or rental of various other types of tangible personal property are, under certain circumstances, exempt from tax as of July 1, 1997, but before July 1, 2016.

For sales that occur as part of a contract entered into on or after July 1, 2016, see rules 701—230.14(423) to 701—230.22(423).

18.58(1) Definitions. The following terms are defined for the purposes of this rule in the manner set out below.

“Commercial enterprise” includes businesses and manufacturers conducted for profit and includes centers for data processing services to insurance companies, financial institutions, businesses, and manufacturers, but excludes professions and occupations and nonprofit organizations. A hospital that is a not-for-profit organization would not be a “commercial enterprise.” The term “professions” means a vocation or employment requiring specialized knowledge and often long and intensive academic preparation. The term “occupations” means the principal business of an individual. Included within the meaning of “occupations” is the business of farming. A professional corporation which carries on any business which is a “profession” or “occupation” is not a commercial enterprise.

“Computer” means stored program processing equipment and all devices fastened to it by means of signal cables or any communication medium that serves the function of a signal cable. Nonexclusive examples of devices fastened by a signal cable or other communication medium are terminals, printers, display units, card readers, tape readers, document sorters, optical readers, and card or tape punchers. Excluded from the definition of “computer” is point-of-sale equipment. For a characterization of “point-of-sale equipment,” see 701—subrule 71.1(7). Also included within the meaning of the word “computer” is any software consisting of an operating system or executive program. Such software coordinates, supervises, or monitors the basic operating procedures of a computer. An operating system or executive program is exempt from sales tax only if purchased as part of the sale of the computer for which it operates. An operating system or executive program priced separately or sold at a later time is subject to the provisions of rule 18.34(422,423). Excluded from the meaning of the word “computer” is any software consisting of an application program. For purposes of this subrule, “operating system or executive program” means a computer program which is fundamental and necessary to the functioning of a computer. The operating system or executive program software controls the operation of a computer by managing the allocation of all system resources, including the central processing unit, main and secondary storage, input/output devices, and the processing of programs. This is in contrast to application software which is a collection of one or more programs used to develop and implement the specific applications which the computer is to perform, and which calls upon the services of the operating system or executive program.

“Contract manufacturer” is any manufacturer who falls within the definition of “manufacturer” set out subsequently in this subrule except that a contract manufacturer does not sell the tangible personal property which it processes on behalf of other manufacturers.

“Directly used.” Property is “directly used” only if it is used to initiate, sustain, or terminate an exempt activity. In determining whether any property is “directly used,” consideration should be given to the following factors:

1. The physical proximity of the property in question to the activity in which it is used;
2. The proximity of the time of use of the property in question to the time of use of other property used before and after it in the activity involved; and
3. The active causal relationship between the use of the property in question and the activity involved. The fact that a particular piece of property may be essential to the conduct of the activity because its use is required either by law or practical necessity does not, of itself, mean that the property is directly used.

“Financial institution” is a bank incorporated under any state or federal law; a savings and loan association incorporated under any state or federal law; a credit union organized under any state or federal law; or any corporation licensed as an industrial loan company under Iowa Code chapter 536A. Excluded from the meaning of the term are loan brokers governed by Iowa Code chapter 535C and production credit associations.

“Insurance company” means an insurer organized or operating under Iowa Code chapter 508, 514, 515, 518, 518A, 519, or 520 or authorized to do business in Iowa as an insurer or as a licensed insurance agent under Iowa Code chapter 522. Excluded from the definition of “insurance company” are fraternal

and beneficial societies governed by Iowa Code chapter 512 and health maintenance organizations governed by Iowa Code chapter 514B. This list of exclusions is not intended to be exclusive.

“Machinery and equipment” means machinery and equipment used by a manufacturer. Machinery is any mechanical, electrical, or electronic device designed and used to perform some function and to produce a certain effect or result. The term includes not only the basic unit of the machinery, but also any adjunct or attachment necessary for the basic unit to accomplish its intended function. The term also includes all devices used or required to control, regulate, or operate a piece of machinery, provided such devices are directly connected with or are an integral part of the machinery and are used primarily for control, regulation, or operation of machinery. Jigs, dies, tools, and other devices necessary to the operation of or used in conjunction with the operation of what would be ordinarily thought of as machinery are also considered to be “machinery.” See *Deere Manufacturing Co. v. Zeiner*, 247 Iowa 1264, 78 N.W.2d 527 (1956). Also see the definition of “replacement parts” *infra*. Machinery does not include buildings designed specifically to house or support machinery. Equipment is any tangible personal property used in an operation or activity. Nonexclusive examples of equipment are tables on which property is assembled on an assembly line and chairs used by assembly line workers.

“Manufacturer” means any person, firm, or corporation that purchases, receives, or holds personal property for the purpose of adding to its value by any process of manufacturing, refining, purifying, combining of different materials, or by packing of meats with an intent to sell at a gain or profit. Those who are in the business of printing, newspaper publication, bookbinding, lumber milling, and production of drugs and agricultural supplies are illustrative, nonexclusive examples of manufacturers. Construction contracting; remanufacture or rebuilding of tangible personal property (such as automobile engines); provision of health care; farming; transportation for hire; and the activities of restaurateurs, hospitals, medical doctors, and those who merely process data are illustrative, nonexclusive examples of businesses which are not manufacturers. See *Associated General Contractors of Iowa v. State Tax Commission*, 255 Iowa 673, 123 N.W.2d 922 (1963) and *River Products Co. v. Board of Review of Washington County*, 332 N.W.2d 116 (Iowa Ct. App. 1982). The term “manufacturer” includes a contract manufacturer. Ordinarily, the word does not include those commercial enterprises engaged in quarrying or mining. However, effective July 1, 1998, a commercial enterprise, the principal business of which is quarrying or mining, is a manufacturer with respect to activities in which it engages subsequent to quarrying or mining. These subsequent activities include, by way of nonexclusive example, crushing, washing, sizing, and blending of aggregate materials.

EXAMPLE: Company A owns and operates a gravel pit. It sells the gravel extracted from the pit to others who use the gravel for surfacing roads and as an ingredient in concrete manufacture. Company A removes overlay and raw gravel from the pit. It then transports the gravel to a plant where washing and sizing of the gravel take place. Company A is a manufacturer, but only with respect to those activities which occur after it severs the gravel from the ground.

“Pollution control equipment” means any disposal system or apparatus used or placed in operation primarily for the purpose of reducing, controlling, or eliminating air or water pollution. The term does not include any apparatus used to eliminate “noise pollution.” Liquid, solid, and gaseous wastes are included within the meaning of the word “pollution.” “Pollution control equipment” specifically includes, but is not limited to, any equipment the use of which is required or certified by an agency of this state or the United States Government. Wastewater treatment facilities and scrubbers used in smokestacks are examples of pollution control equipment. However, pollution control equipment does not include any equipment used only for worker safety (e.g., a gas mask).

“Processing” means a series of operations in which materials are manufactured, refined, purified, created, combined, transformed, or stored by a manufacturer, ultimately into tangible personal property. Processing encompasses all activities commencing with the receipt or producing of raw materials by the manufacturer and ending at the point products are delivered for shipment or transferred from the manufacturer. Processing includes, but is not limited to, refinement or purification of materials; treatment of materials to change their form, context, or condition; maintenance of the quality or integrity of materials, components, or products; maintenance of environmental conditions necessary for materials, components or products; quality control activities; construction of packaging and shipping

devices; placement into shipping containers or any type of shipping device or medium; and the movement of materials, components, or products until shipment from the manufacturer.

“Processing or storage of data or information.” All computers store and process information. However, only if the “final output” for a user or consumer is stored or processed data will the computer be eligible for exemption of tax.

“Receipt or producing of raw materials” means activities performed upon tangible personal property only. With respect to raw materials produced from or upon real estate, “production of raw materials” is deemed to occur immediately following the severance of the raw materials from the real estate.

“Recycling” means any process by which waste or materials which would otherwise become waste are collected, separated, or processed and revised or returned for use in the form of raw materials or products. The term includes, but is not limited to, the composting of yard waste which has been previously separated from other waste. “Recycling” does not include any form of energy recovery.

“Replacement parts.” A “replacement part” is any machinery, equipment, or computer part which is substituted for another part that has broken, has become worn out or obsolete, or is otherwise unable to perform its intended function. “Replacement parts” are those parts which materially add to the value of industrial machinery, equipment, or computers or appreciably prolong their lives or keep them in their ordinarily efficient operating condition. Excluded from the meaning of the term “replacement parts” are supplies, the use of which is necessary if machinery is to accomplish its intended function. Drill bits, grinding wheels, punches, taps, reamers, saw blades, lubricants, coolants, sanding discs, sanding belts, and air filters are nonexclusive examples of supplies. Sales of supplies remain taxable.

Tangible personal property with an expected useful life of 12 months or more which is used in the operation of machinery, equipment, or computers is rebuttably presumed to be a “replacement part.” Tangible personal property used in the same manner with an expected useful life of less than 12 months is rebuttably presumed to be a “supply.”

“Research and development” means experimental or laboratory activity which has as its ultimate goal the development of new products or processes of processing. Machinery, equipment, and computers are used “directly” in research and development only if they are used in actual experimental or laboratory activity that qualifies as research and development under this subrule.

18.58(2) Exempt sales. On and after July 1, 1997, sales or rentals of the following machinery, equipment, or computers (including replacement parts) are exempt from tax:

a. Machinery, equipment, and computers directly and primarily used in processing by a manufacturer.

b. Machinery, equipment, and computers directly and primarily used to maintain a manufactured product’s integrity or to maintain any unique environmental conditions required for the product.

c. Machinery, equipment and computers directly and primarily used to maintain unique environmental conditions required for other machinery, equipment, or computers used in processing by a manufacturer.

d. Test equipment directly and primarily used by a manufacturer in processing to control the quality and specifications of a product.

e. Machinery, equipment, or computers directly and primarily used in research and development of new products or processes of processing.

f. Computers used in processing or storage of data or information by an insurance company, financial institution, or commercial enterprise.

g. Machinery, equipment, and computers directly and primarily used in recycling or reprocessing of waste products.

h. Pollution control equipment used by a manufacturer. It is not necessary that the equipment be “directly and primarily” used in any kind of processing.

i. Materials used to construct or self-construct any machinery, equipment, or computer, the sale of which is exempted by paragraphs “a” through “h” above.

j. Exempt sales of fuel and electricity. Sales of fuel or electricity consumed by machinery, equipment, or computers used in any exempt manner described in paragraphs “a,” “b,” “c,” “d,” “e,”

“g,” and “h” of this subrule are exempt from tax. Sales of electricity consumed by computers used in the manner described in paragraph “f” remain subject to tax.

18.58(3) Examples of exempt items. Sales of the following nonexclusive types of machinery and equipment, previously taxable, are exempt on and after July 1, 1997, if that machinery or equipment is sold for direct and primary use in processing by a manufacturer: coolers which do not change the nature of materials stored in them; equipment which eliminates bacteria; palletizers; storage bins; property used to transport raw, semifinished, or finished goods; vehicle-mounted cement mixers; self-constructed machinery and equipment; packaging and bagging equipment (including conveyer systems); equipment which maintains an environment necessary to preserve a product’s integrity; equipment which maintains a product’s integrity directly; quality control equipment and electricity or other fuel used to power the machinery and equipment mentioned above.

18.58(4) Processing—beginning to end.

a. The beginning of processing. Processing begins with a manufacturer’s receipt or production of raw material. Thus, when a manufacturer produces its own raw material it is engaged in processing. Processing also begins when raw materials are transferred to a manufacturer’s possession by a manufacturer’s supplier.

b. The completion of processing. Processing ends when the finished product is transferred from the manufacturer or delivered for shipment by the manufacturer. Therefore, a manufacturer’s packaging, storage, and transport of a finished product after the product is in the form in which it will be sold at retail are part of the processing of the product.

c. Examples of the beginning, intervening steps, and the ending of processing. Of the following, Examples A and B illustrate when processing begins under various circumstances; Example C demonstrates the middle stages of processing; and Example D demonstrates when the end of processing takes place.

EXAMPLE A. Company A manufactures fine furniture. Company A owns a grove of walnut trees which it uses as raw material. A’s employees cut the trees, transport the logs to A’s factory, offload them there, and store the logs in a warehouse (to begin the curing of their wood) before taking them to A’s sawmill. The walnut trees are real property, *Kennedy v. Board of Assessment and Review*, 276 N.W. 205, 224 Iowa 405 (1937). Thus, no “production of raw materials” has occurred with regard to the trees until they have been severed from the soil and transformed into logs. In this example, “processing” of the logs begins when they are placed on vehicles for transport to A’s factory. However, note that even though the transport vehicles are used in processing, if they are “vehicles subject to registration,” their use is not exempt from tax. See 18.58(6)“d” infra.

EXAMPLE B. Company A from the previous example also buys mahogany logs from a supplier in Honduras. Company A uses its own equipment to offload the logs from railroad cars at its manufacturing facility and then transports, stores, and saws the logs as previously described in Example A. Processing begins when Company A offloads the logs from the railroad cars.

EXAMPLE C. Company C is a microbrewery. It uses a variety of kettles, vats, tanks, tubs, and other containers to mix, cook, ferment, settle, age, and store the beer which it brews. It also uses a variety of pipes and pumps to move the beer among the various containers involved in the activity of brewing. All stages of this brewing are part of processing whether those stages involve the transformation of the raw materials from one state to another, e.g., fermentation or aging, or simply involve holding the materials in an existing state, e.g., storage of hops in a bin or storage of the beer immediately prior to bottling. Also, any movement of the beer between containers is an activity which is a part of processing, whether this movement is an “integral part” of the production of the beer or not.

EXAMPLE D. After the brewing process is complete, Company C places its beer in various containers, stores it, and moves the beer to its customers by a common carrier that picks up the beer at C’s brewery. C’s activities of placing the beer into bottles, cans, and kegs, storing it after packaging, and moving the beer by use of a forklift to the common carrier’s pickup site are activities which are part of processing.

18.58(5) Various unrelated inclusions in and exclusions from this exemption.

a. The following are nonexclusive examples of machinery which is not directly used in processing:

(1) Machinery used exclusively for the comfort of workers. Examples are air cooling, air conditioning, and ventilation systems.

(2) Machinery used in support operations, such as a machine shop, in which production machinery is assembled, maintained, or repaired.

(3) Machinery used by administrative, accounting, and personnel departments.

(4) Machinery used by plant security, fire prevention, first aid, and hospital stations.

(5) Machinery used in plant communications and safety.

b. The following is an example of property directly used in research and development. Frontier Hybrid, Inc. maintains a research and development laboratory for use in developing a corn plant which is a perennial. It purchases the following items for use in its research and development laboratory: a computer which will process data relating to the genetic structure of the various corn plants which Frontier Hybrid is testing, an electron microscope for examining the structure of corn plant genes, a “steam cleaner” for cleaning rugs in the laboratory offices, and a typewriter for use by the laboratory director’s secretary. The computer and the microscope are “directly” used in the research in which the laboratory is engaged; the steam cleaner and the typewriter only indirectly used. Therefore, purchase of the computer and microscope would be exempt from tax; purchase of the steam cleaner and typewriter would be subject to tax.

c. The following is an example of computers used and not used in processing or storage of information or data. A health insurance company has four computers. Computer A is used to monitor the temperature within the insurance company’s building. The computer transmits messages to the building’s heating and cooling systems telling them when to raise or lower the level of heating or air conditioning as needed. Computer B is used to store patient records and will recall those records on demand. Computer C is used to tabulate statistics regarding the amount of premiums paid in and the amount of benefits paid out for various classes of insured. Computer D is used to train the insurance company’s employees to perform various additional tasks or to better perform work they can already do. Computer D uses various canned programs to accomplish this. The “final output” of Computer A is neither stored nor processed information. Therefore, Computer A does not fit the definition of an exempt computer. The final output of Computer B is stored information. The final output of Computer C is processed information. The final output of Computer D is processed information consisting of the training exercises appearing on the computer monitor. The sale, lease, or use of Computers B, C, and D would qualify for exemption.

d. The following is an example of property not used in processing. A manufacturing plant located in Warren County which manufactures widgets fabricates its own patterns used in manufacturing the widgets on a metal press machine in its machine shop located in Story County. The machine shop does not sell the patterns, and the metal press machine is used for no other purpose than to fabricate the patterns. The metal press machine is not used in processing because there is no intent to sell the patterns used by the machine shop at a gain or profit.

18.58(6) Exceptions. Sales of the following machinery, equipment, or computers are not exempt:

a. Machinery, equipment, or computers assessed by the department of revenue pursuant to Iowa Code chapters 428, 433, 434, and 436 to 438, inclusive. For electric, gas, water, and other companies assessed under Iowa Code chapter 428, only property owned by the company is assessed by the department. For railroad, telephone, pipeline, and electric transmission lines companies, property leased to, as well as owned by, the company is assessed by the department. See 701—Chapters 71 and 77.

b. Hand tools. These are tools which can be held in the hand or hands and which are powered by human effort.

c. Point-of-sale equipment. See 701—subrule 71.1(7).

d. Vehicles subject to registration, except vehicles subject to registration which are directly and primarily used in recycling or reprocessing of waste products.

e. Machinery and equipment purchased by a person engaged in processing who is not a manufacturer. Restaurants, retail bakeries, food stores, and blacksmith shops are nonexclusive examples of businesses which process tangible personal property but are not manufacturers as that word is defined for the purposes of this rule.

f. The fact that the acquisition cost of rented or purchased machinery, equipment, or computers can be capitalized for the purposes of Iowa or federal income tax law is not an indication that their sale or rental would be exempt from tax under this rule.

18.58(7) *Lessor purchases of machinery, equipment, or computers.* The analysis regarding lessor purchases of farm machinery and equipment contained in subrule 18.44(3) explains that same problem regarding machinery, equipment, and computers.

18.58(8) *Designing or installing new industrial machinery or equipment.* The gross receipts from the services of designing or installing new industrial machinery or equipment are exempt from tax. The enumerated services of electrical or electronic installation are included in this exemption. To qualify for the exemption, the sale or rental of the machinery or equipment must be subject to exemption under this rule. In addition, the machinery or equipment must be “new.” For purposes of this subrule, “new” means never having been used or consumed by anyone. The exemption is not applicable to reconstructed, rebuilt, or repaired or previously owned machinery or equipment. The exemption is applicable to new machinery and equipment designed or installed for rental as well as for sale. The gross receipts from design or installation must be separately identified, charged separately, and reasonable in amount for the exemption to apply. A “computer” is not considered to be machinery or equipment, and its installation or design is not eligible for this exemption.

18.58(9) *Property used in recycling or reprocessing of waste products.* Gross receipts from the sale or rental of machinery (including vehicles subject to registration), equipment, or computers directly and primarily used in the recycling or reprocessing of waste products are exempt from tax. “Reprocessing” is not a subcategory of “processing.” Reprocessing of waste products is an activity separate and independent from the processing of tangible personal property. Machinery or equipment used in the recycling or reprocessing of waste products includes, but is not limited to, compactors, balers, crushers, grinders, cutters, or shears directly and primarily used for this purpose. The sale of an end loader, forklift, truck, or other moving device is exempt from tax if the device is directly and primarily used in the movement of property which is an integral part of recycling or reprocessing. The sale of a bin for storage ordinarily would not be exempt from tax; storage without more activity would not be a part of recycling or reprocessing. Certain limits for exemption placed upon industrial machinery and equipment are not applicable to machinery and equipment used in recycling or reprocessing. For example, the exemption will apply even if the machinery, equipment or computer is purchased by a person other than an insurance company, financial institution or commercial enterprise. A person engaged in a profession or occupation could purchase property for direct and primary use in recycling or reprocessing of waste products and the exemption would apply.

a. By way of nonexclusive examples, recycling or reprocessing can begin when waste or material which would otherwise become waste is collected or separated. A vehicle used directly and primarily for collecting waste which will be recycled or reprocessed could be a vehicle used for an exempt purpose under this rule. Thus, the purchaser of a garbage truck could claim this exemption if the truck were directly and primarily used in recycling and not, for instance, in hauling garbage to a landfill. Machinery or equipment used to segregate waste from material to be recycled or reprocessed or used to separate various forms of materials which will be reprocessed (e.g., glass and aluminum) can also be used at the beginning of recycling or reprocessing.

b. Machinery and equipment directly and primarily used in recycling or reprocessing. See subrule 18.58(1) for the definition of “directly used” which is applicable to this subrule. The examples of machinery not directly used in processing set out in 18.58(5) “a” should be studied for guidance in determining whether similar machinery is or is not used in recycling or reprocessing; e.g., machinery used in plant security (see 18.58(5) “a”(4)) is not machinery directly used in recycling or reprocessing.

c. Integral use in recycling or reprocessing. Ordinarily, any operation or series of operations which does not transform waste or material which would otherwise become waste into new raw materials or products would not be a part of recycling or reprocessing. However, activities which do not do this, but are an “integral part” of recycling or reprocessing, are themselves recycling or reprocessing. For example, an endless belt which moves aluminum cans from a machine where they are shredded to a machine where the shredded aluminum is crushed into blocks would be an endless belt used in recycling

or reprocessing and the exemption applies. See subrule 18.29(5) for a discussion of when an activity is an integral part of “processing.” Some of that discussion is applicable to this subrule.

d. The end of recycling or reprocessing. Recycling or reprocessing ends when waste or a material which would otherwise become waste is in the form of raw material or in the form of a product. For instance, a corporation purchases a machine which grinds logs, stumps, pallets, crates, and other waste wood into wood chips. After grinding, the wood chips are sold and transported to various sites where the chips are dumped and spread out over the ground for use in erosion control. The machine which grinds the wood chips is a machine used in recycling. The truck which transports the wood chips from the machine to the sites is not used in recycling because at the time the chips are placed in the truck they are in the form in which they will be used in erosion control.

This rule is intended to implement Iowa Code Supplement section 422.45(27) as amended by 1998 Iowa Acts, Senate File 2288; Iowa Code section 422.45(29); and Iowa Code chapter 423. [ARC 2349C, IAB 1/6/16, effective 2/10/16]

701—18.59(422,423) Exempt sales to nonprofit hospitals. On and after July 1, 1998, the gross receipts from sales or rentals of tangible personal property to and from the rendering, furnishing, or performing of services for a nonprofit hospital licensed under Iowa Code chapter 135B are exempt from tax if the property or service purchased is used in the operation of the hospital. A hospital is not entitled to claim a refund for tax paid by a contractor on the sale or use of tangible personal property or the performance of services in the fulfillment of a written construction contract with the hospital. However, see the circumstances set out below in which sales of goods, wares or merchandise, or taxable services to a hospital for use in the fulfillment of a construction contract, are exempt from Iowa tax.

For the purposes of this rule, the word “hospital” means a place which is devoted primarily to the maintenance and operation of facilities for diagnosis, treatment, or care, over a period exceeding 24 hours, of two or more nonrelated individuals suffering from illness, injury, or a medical condition (such as pregnancy). The word “hospital” includes general hospitals, specialized hospitals (e.g., pediatric, mental, and orthopedic hospitals, and cancer treatment centers), sanatoriums, and other hospitals licensed under Iowa Code chapter 135B. Also included are institutions, places, buildings, or agencies in which any accommodation is primarily maintained, furnished, or offered for the care, over a period exceeding 24 hours, of two or more nonrelated aged or infirm persons requiring or receiving chronic or convalescent care. Excluded from the meaning of the term “hospital” are institutions for well children; day nursery and child care centers; foster boarding homes and houses; homes for handicapped children; homes, houses, or institutions for aged persons which limit their function to providing food, lodging, and provide no medical or nursing care, and house no bedridden person; dispensaries or first-aid stations maintained for the care of employees, students, customers, members of any commercial or industrial plan, educational institution, or convent; freestanding hospice facilities which operate a hospice program in accordance with 42 CFR § 418 and freestanding clinics which do not provide diagnosis, treatment, or care for periods exceeding 24 hours. This list of inclusions and exclusions is not exclusive. For additional information see 481—Chapter 51.

Ordinarily, goods, wares, or merchandise (such as building materials, supplies, and equipment; see rule 701—19.3(422,423) for definitions) which is purchased by a hospital and used by a contractor in the fulfillment of a written contract with the hospital cannot be purchased exempt from Iowa tax. The goods, wares, and merchandise used in the fulfillment of these construction contracts are not used in the “operation” of a hospital but in activities at least one step removed from that operation. See *Polich v. Anderson-Robinson Coal Co.*, 227 Iowa 553, 288 N.W. 650 (1939).

However, for a limited period, the gross receipts from all sales of goods, wares, or merchandise or from services rendered, furnished, or performed are exempt from tax (or a claim for refund may be filed for tax paid) if the tangible personal property or the taxable service is used in the fulfillment of a written construction contract with a hospital and all of the following circumstances exist:

1. Deliveries under contracts of sale of the goods, wares, or merchandise occurred or the taxable services were rendered, furnished, or performed between July 1, 1998, and December 31, 2001, inclusive. A claim for refund may be filed for any tax paid for this period, so long as the claim is filed prior to April

1, 2002, and the requirements of “2” and “3” below are also met. Claims for refunds of tax, interest, or penalty paid for the period of July 1, 1998, to December 31, 2001, are limited to \$25,000 in the aggregate. If the amount of the claimed refunds for this period totals more than \$25,000, the department must prorate the \$25,000 among all claimants in relation to the amounts of the claimants’ valid claims.

2. The written construction contract was entered into prior to December 31, 1999, or bonds to fund the construction were issued prior to December 31, 1999.

3. The property or services were purchased directly by the hospital or by a contractor as an agent of the hospital. For the purposes of this exemption, no hospital can retroactively designate a contractor to be its agent and by this means transform a contractor’s purchases of goods, wares, merchandise, or services into its own. Upon the department’s request, a hospital claiming that a contractor is or has been its purchasing agent must present suitable evidence of a principal-agent relationship between itself and the contractor during any period for which exempt sales or a refund is claimed. The best evidence of a principal and purchasing agent relationship is a written document setting out the terms of the relationship and the period for which the agency is in effect; however, other evidence, which is the equivalent of a written document in reliability, will be considered by the department when necessary.

This rule is intended to implement Iowa Code Supplement section 422.45 as amended by 2000 Iowa Acts, chapter 1207.

701—18.60(422,423) Exempt sales of gases used in the manufacturing process. Effective May 24, 1999, but retroactive to January 1, 1991, sales of argon and other similar gases to be used in the manufacturing process are exempt from tax. For the purposes of this rule, only inert gases are gases which are similar to argon. An “inert gas” is any gas which is normally chemically inactive. It will not support combustion and cannot be used as either a fuel or as an oxidizer. Argon, nitrogen, carbon dioxide, helium, neon, krypton, and xenon are nonexclusive examples of inert gases. Oxygen, hydrogen, and methane are nonexclusive examples of gases which are not inert. These sales are exempt only if the gas is purchased by a “manufacturer,” for used in “processing,” as those terms are defined in subrule 18.45(1), for the period prior to July 1, 1997, and as those terms are defined in subrule 18.58(1) for the period beginning July 1, 1997.

This rule is intended to implement Iowa Code section 422.45 as amended by 1999 Iowa Acts, chapter 170.

701—18.61(422,423) Exclusion from tax for property delivered by certain media. For the period beginning March 15, 1995, a taxable “sale” of tangible personal property does not occur if the substance of the transaction is delivered to the purchaser digitally, electronically, or by utilizing cable, radio waves, microwaves, satellites, or fiber optics. This exclusion from tax is not applicable to any leasing of tangible personal property, a lease not being a “sale” of tangible personal property for the purposes of Iowa sales and use tax law, *Cedar Valley Leasing, Inc. v. Iowa Department of Revenue*, 274 N.W.2d 357 (Iowa 1979). The exclusion is also not applicable to property delivered by any medium other than those listed above. Sales of items such as artwork, drawings, photographs, music, electronic greeting cards, “canned” software (see subrule 18.34(1)), entertainment properties (e.g., films, concerts, books, and television and radio programs), and all other digitized products delivered as described above are not taxable, except the exclusion does not repeal by implication the tax on the service of providing pay television. See rule 701—26.56(422). If an order for a product is placed by way of any of the media described above but the product ordered is delivered by conventional, physical means, e.g., the U.S. Postal Service or common carrier, sale of the product is not excluded from tax under this rule.

This rule is intended to implement Iowa Code Supplement section 422.43 as amended by 2002 Iowa Acts, Senate File 2321.

CHAPTER 19
SALES AND USE TAX ON CONSTRUCTION ACTIVITIES
[Prior to 12/17/86, Revenue Department[730]]

701—19.1(422,423) General information. Iowa Code section 422.43 imposes a tax upon the gross receipts from the sales of tangible personal property, consisting of goods, wares or merchandise sold at retail in this state to consumers and users. Also subject to tax are certain enumerated services. Those relating to the construction industry include carpentry; roof, shingle and glass repair; electrical repair and installation; equipment and other tangible personal property rental; excavating and grading; house and building moving; laboratory testing; landscaping; machinery operator services; machine repair of all kinds; oilers and lubricators; painting, papering, and interior decorating; pipe fitting and plumbing; wood preparations; termite, bug, roach, and pest eradicators; tin and sheet metal repair; welding; well drilling; and wrecking services. Under Iowa law, contractors are consumers or users of certain tangible personal property. Contractors may also be retailers of tangible personal property and taxable enumerated services. It should be noted that these services are exempt from taxation when performed on or in connection with new construction, reconstruction, alteration, expansion, or remodeling of a building or structure. The services of a general building contractor, architect or engineer are therefore exempt from tax when performed on or in connection with new construction, reconstruction, alteration, expansion, or remodeling. (Codified in section 422.43 of the 1979 Code.) See rule 701—26.2(422). For the purposes of this exemption, a structure is defined as that which is artificially built up or composed of parts joined together in some definite manner and which also has some obvious or apparent functional use or purpose. Nonexclusive examples of structures include: buildings; roads, whether paved or otherwise; dikes; drainage ditches; and ponds. See rule 19.11(422,423) relating to structures.

This chapter details the obligation of contractors, contractor-retailers, retailers, and repairpersons to pay or collect sales tax on the gross receipts from sales of building materials, supplies, equipment, and other tangible personal property and the obligation of these parties to collect tax or claim exemption for their performances of taxable services. How one is classified, whether as a contractor, contractor-retailer, retailer, or repairperson is the basis for determining many of those obligations. It can be very difficult for a person starting a business to determine if that business will be engaged in contracting, retailing, a combination of the two, or providing repair services. However, one status must be chosen. Any reasonable assessment of a new business's status will be honored by the department. A status, once chosen, should not be changed, unless it has become clear from an extended course of dealing that the business has become something other than what it was established to be. For instance, if a business is founded to engage in contracting and purchases construction materials based on the fact that it is a contractor, but the founder must sell construction materials at retail if the business is to survive, and after two years' operation half the revenue is from construction contracts and half from retail sales, then the business has become a contractor-retailer and henceforth should purchase construction materials based on that status. Changing the status of a business from job to job to avoid the obligation to pay or collect tax is not a lawful activity.

Iowa Code section 423.2 imposes a tax that is assessed upon tangible personal property purchased for use in this state and on taxable services which are rendered, furnished or performed in Iowa or where the product or result of such service is used in Iowa. "Use" of tangible personal property in Iowa is defined to mean and include the exercise by any person of any right or power over tangible personal property incident to the ownership of that property.

See 701—Chapters 12 and 30 of the rules regarding the filing of returns, penalty and interest.

701—19.2(422,423) Contractors are consumers of building materials, supplies, and equipment by statute. Iowa Code subsection 422.42(15) provides that sales of building materials, supplies and equipment to owners, contractors, subcontractors or builders for the erection of buildings or the alteration, repair or improvement of real property are retail sales in whatever quantity sold. This means that a contractor, subcontractor, or builder cannot claim an exemption for resale when purchasing building materials or supplies even if the contractor, subcontractor, or builder later separately itemizes

material and labor charges for construction contracts. Building materials and supplies would generally consist of items which are incorporated into real property, lose their identity as tangible personal property and cannot be removed without altering the realty, or which are consumed by the contractor during the performance of the construction contract. See subrules 19.3(1), 19.3(2) and 19.3(3). Building equipment would ordinarily consist of machinery and tools. See subrule 19.3(4). The fact that a contractor, subcontractor or builder holds an Iowa retail sales tax permit and has a tax number does not entitle that person to purchase building materials, supplies and equipment without paying sales tax to the vendor. See rule 19.3(422,423) and rule 19.4(422,423).

A contractor (general, special or subcontractor) when bidding on a contract should anticipate that sales or use taxes will increase the cost of materials by the tax. This is true even if the contract is with an entity (e.g., federal, state, or county government, or a private, nonprofit educational institution) whose purchases are exempt from sales tax. See rule 19.12(422,423). The necessary allowance should be made in figuring the bid inasmuch as the contractor will be held responsible for paying the tax on building supplies, materials and equipment. The tax should not be identified as a separate item in the formal bid since the contractor cannot charge sales tax.

Effective July 1, 1992, the sales and use tax rate increased from 4 percent to 5 percent. The right of construction contractors previously to make application to the department for a refund of the additional 1 percent sales or use tax paid on goods, wares or merchandise incorporated into an improvement to real estate in the fulfillment of a written contract fully executed prior to July 1, 1992, has been rescinded effective July 1, 2001.

This rule is intended to implement Iowa Code sections 421.14, 422.43, 422.47 as amended by 2001 Iowa Acts, House File 715, and 423.2.

701—19.3(422,423) Sales of building materials, supplies, and equipment to contractors, subcontractors, builders or owners. Suppliers or dealers who sell materials and supplies to contractors, subcontractors, builders or owners are required to collect Iowa sales tax from those persons based upon the receipts from such sales. The fact that a contractor, subcontractor, or builder holds an Iowa retail sales tax permit and has a tax number does not entitle that person to purchase building materials, supplies and equipment without paying sales tax to the vendor. See rules 19.2(422,423) and 19.4(422,423). Purchase discounts are not part of the sales price and are not part of the base for computing sales and use tax provided the retailer has not collected the tax on the full selling price. See rule 701—15.6(422,423). Materials purchased out of state for use in Iowa are subject to the Iowa use tax which is payable in the quarter the materials are delivered into the state. Tax is imposed on the contractor, subcontractor or builder even though the contract is with a governmental unit or a nonprofit educational institution. See Iowa Code section 422.45(7) and rule 19.12(422,423).

19.3(1) Building materials. The term “building materials” as used in this rule means materials used in construction work, and is not limited to materials used in constructing a building with sides and covering. The term may also include any type of materials used for improvement of the premises or anything essential to the completion of a building or structure for the use intended. *State v. James A. Head & Company, Inc.*, 306 So. 2d 5 (Ala. 1974).

19.3(2) Building supplies. The term “building supplies” as used in this rule means anything that is furnished for, and used directly in the carrying on of the work of an owner, contractor, subcontractor or builder and which is entirely consumed by said contractor. Such items do not have to enter into and become a physical part of the structure like materials, but they do become as much a part of the structure as the labor which is performed on it. *United States Fidelity & Guaranty Co. v. Feenaughty Machinery Co.*, 85 p.2d 1085, 197 Wash. 569.

19.3(3) Typical items. While not intended to be inclusive, the following is a list of typical items regarded as building materials and supplies:

Asphalt	Lubricants	Sheet metal
Bricks	Lumber	Steel
Builders' hardware	Macadam	Stone
Caulking material	Millwork	Stucco
Cement	Modular and mobile homes	Tile
Central air conditioning	Mortar	Wallboard
Cleaning compounds	Oil	Wall coping
Conduit	Paint	Water conditioners
Doors	Paper	Weather stripping
Ducts	Piping, valves, and pipe fittings	Windows
Electric wiring, connections, and switching devices	Plaster	Window screens
Fencing materials	Plates and rods used to anchor masonry foundations	Wire netting and screen
Flooring*	Plumbing supplies	Wood preserver
Glass	Polyethylene covers	
Gravel	Power poles, towers, and lines	
Insulation	Putty	
Lath	Reinforcing mesh	
Lead	Rock salt	
Lighting fixtures	Roofing	
Lime	Rope	
Linoleum*	Sand	

*Floor coverings which are shaped to fit a particular room or area and which are attached to the supporting floor with cement, tacks or tack strips or by some other method making a permanent attachment are considered to be building materials. See rule 701—16.48(422,423) for an exception concerning carpeting. Carpeting (whether attached to the floor or not) is not treated as a building material for the purposes of this chapter. Rugs, mats and linoleum types of floor coverings which are not attached but which are simply laid on finished floors are not considered to be building materials either.

19.3(4) Building equipment. The term “building equipment” as used in this rule means any vehicle, machine, tool, implement or other device used by a contractor in erecting structures for others, or reconstructing, altering, expanding or remodeling property of others which does not become a physical component part of the property upon which work is performed, and which is not necessarily consumed in the performance of such work. “Building equipment” includes, but is not limited to, such items as:

Compressors	Replacement parts for equipment
Drill presses	Scaffolds
Electric generators	Tools
Forms	Vehicles including grading, lifting and excavating vehicles
Hand tools	
Lathes	

Construction equipment purchased by a contractor which is intended for use in the performance of an Iowa construction contract is subject to the Iowa sales or use tax. However, equipment which is rented for use on or in connection with an Iowa construction contract can be rented without an obligation for Iowa sales or use taxes. Rented equipment is subject to tax on the purchase price at the time of purchase because it is not subject to the service tax of equipment rental. See rules 18.36(422,423) and 26.18(422,423) relating to equipment rental and the leasing of tangible personal property.

701—19.4(422,423) Contractors, subcontractors or builders who are retailers. In some instances, contractors, subcontractors and builders are in a dual business which includes reselling to the general public on a recurring “over-the-counter” basis, the same type of building materials and supplies which are used by them in their own construction work. A person operating in such a manner is referred to in this rule as a contractor-retailer. Any person who is engaged in the performance of construction contracts and who also sells building materials or other items at retail is obligated to examine the person’s business and determine if it is that of a contractor or a contractor-retailer (see below). A sale by a contractor-retailer of building materials, supplies and equipment which does not provide for installation of the merchandise sold is considered a retail sale and subject to sales tax. Conversely, a sale by a contractor-retailer of building supplies, materials and equipment which provides for installation of the merchandise is considered a construction contract and tax shall be paid by the contractor-retailer based upon the cost of materials at the time the materials are withdrawn from inventory for use in a construction contract performed in Iowa. When a contractor-retailer does repair work, the contractor-retailer is acting as a retailer and not a contractor and must collect tax on the price charged for materials used in the repair and on the price charged for any labor used in the repair which is a taxable service or on the entire charge if materials and labor are not separately invoiced. See rules 701—18.31(422,423) and 19.13(422,423).

The following is a list of the characteristics of the usual contractor-retailer:

1. A contractor-retailer is a business which makes frequent retail sales to the public or to other contractors and also engages in the performance of construction contracts (see rule 701—19.7(422,423)). In determining whether a business is a contractor-retailer or a retailer only, the department looks to the totality of business activity and not only to one portion of the business’s activity. Thus, the maintenance of a small retail outlet does not automatically transform a contractor-retailer into a retailer, and a large number of retail sales without a retail outlet can qualify a business as a contractor-retailer.

2. A business cannot claim the status of a contractor-retailer unless the business is in possession of a valid sales tax permit to report tax due from retail sales and from withdrawals of materials or supplies from inventory for use in construction contracts.

3. A contractor-retailer must purchase building materials, supplies, and equipment placed in its inventory for resale; the contractor-retailer should not pay sales or use tax to its suppliers for these items. Instead, the contractor-retailer should provide suppliers with valid resale exemption certificates. When a valid certificate is furnished, the vendor is relieved from the responsibility of collecting the tax if the purchaser has demonstrated that the purchaser is a contractor-retailer under the provisions of this rule. See rules 701—15.3(422,423) and 19.19(422,423) for a detailed explanation of this matter.

4. A contractor-retailer purchasing construction material which will not be placed in its inventory purchases that material subject to Iowa sales or use tax. For example, if a contractor-retailer purchases wet concrete for use in a construction project, that purchase is taxable.

5. A contractor-retailer usually has a retail outlet, but if not, frequent sales to individuals or other contractors qualify a business as a contractor-retailer.

6. Contractor-retailers do not pay tax on materials withdrawn from inventory for use in construction projects performed outside Iowa. See Iowa Code section 422.42(15).

The business records of a contractor-retailer must clearly reflect the use made of items purchased and the records must be in such form that the director can readily determine that the proper sales and use tax liability is being reported and paid.

The following examples are offered to illustrate the responsibility for paying and remitting sales tax under this rule:

EXAMPLE 1. ABC Company operates a retail outlet that sells lumber and other building materials and supplies. ABC Company is also a contractor which builds residential and commercial structures. ABC Company would be considered a contractor-retailer and would, therefore, purchase all inventory items for resale. Those items which are used in the performance of a construction contract would be subject to tax in the period that they are withdrawn from inventory. The tax would be computed on the cost of the items withdrawn from inventory. Those items which are sold over-the-counter in the retail outlets would be subject to tax at the time of sale. The tax would be computed on the over-the-counter selling price.

EXAMPLE 2. EFG Company is a mechanical contractor and has no retail outlets. EFG Company rarely sells any of its inventory to other persons or to other contractors. EFG Company would not be considered a contractor-retailer under this rule. However, EFG Company would be considered a contractor and must pay tax to its vendor at the time it purchases any building materials, supplies and equipment. However, on those rare occasions, when an inventory item is sold to another person or to another contractor, tax must be collected at the time of sale, therefore, EFG Company should have a sales tax permit. An adjustment can be made to the sales tax report by taking a credit for tax previously paid on the item sold.

EXAMPLE 3. Home Town Construction Company is owned and operated by two individuals in a rural Iowa farming community. They do not have a retail outlet but they frequently make sales of building materials which are in their inventory to local residents. Home Town Construction Company would be a contractor-retailer and could purchase all inventory items for resale. Those items which are used in the performance of a construction contract would be subject to tax in the period they are withdrawn from inventory. The tax would be computed on the cost of the items withdrawn from inventory. Those items which are sold to residents would be subject to the tax at the time of sale. The tax would be computed on the selling price of the items.

EXAMPLE 4. Down Home Construction Company is operated by two individuals in a rural Iowa farming community. They do not have a retail outlet and rarely make sales of building materials from their inventory to local residents. Down Home Construction Company would not be considered a contractor-retailer under this rule. Rather, Down Home Construction Company would be considered a contractor and must pay tax to its vendor at the time it purchases any building materials, supplies and equipment. When sales are made to local residents, tax must be collected at the time of sale; therefore, Down Home Construction Company should have a sales tax permit. However, Down Home Construction Company can adjust its sales tax report by taking a credit for tax paid to its vendor on the item sold to the local resident.

EXAMPLE 5. Intown Home Construction Company places modular homes on slabs or basement foundations, makes electrical, plumbing and other connections, and otherwise prepares the modular homes for sale as real estate. Intown also has a sales tax permit, maintains an inventory of modular homes for sale, and sells homes from the inventory as tangible personal property to owners who later convert the property to real estate. Intown is a contractor-retailer and is obligated to pay or collect sales tax, respectively, at the time a modular home is withdrawn from inventory for use as material in a construction contract or at the time a modular home is withdrawn from inventory for sale to an owner. See rule 701—17.22(422,423) for an explanation of the basis on which tax is computed.

EXAMPLE 6. Smith's Plumbing has a retail store in Davenport, but it also installs plumbing fixtures and lines in new construction and remodeling projects. Plumbing supplies that are taken from an inventory in Davenport for a new home being built in Rock Island, Illinois, are withdrawn exempt from Iowa sales tax because the construction contract is performed outside Iowa. However, those supplies may be subject to Illinois sales or use tax.

701—19.5(422,423) Building materials, supplies, and equipment used in the performance of construction contracts within and outside Iowa.

19.5(1) The use of building materials, supplies, or equipment in the performance of construction contracts by the manufacturer outside Iowa is not a sale of tangible personal property and, therefore, is not a taxable event. The use of tangible personal property as building materials, supplies, or equipment by the manufacturer in the performance of construction contracts in Iowa is a sale at retail and a taxable event. The tax is computed on the manufacturer's fabricated cost or cost of production. See rule 701—16.3(422,423) for a characterization of the term manufacturer's "fabricated cost."

19.5(2) Prior to July 1, 1987, a contractor-retailer's withdrawal of material from inventory kept in this state for use in construction contracts performed outside Iowa is subject to tax. On and after July 1, 1987, a withdrawal of materials from inventory for use in construction contracts outside this state is not a taxable event.

19.5(3) A contractor is a consumer by statute. A contractor's purchase of materials for use in a construction contract is subject to tax whether the materials are purchased for use in construction contracts performed in Iowa or outside this state.

19.5(4) A manufacturer's purchase of tangible personal property consumed as building material in the manufacturer's or the manufacturer's subcontractor's performance of construction contracts within Iowa is taxable. The tax is computed on the fabricated cost or cost of production of the materials. See rule 701—16.3(422,423) for a characterization of the term "fabricated cost." The purchase of tangible personal property consumed by a manufacturer as building material in the manufacturer's or the manufacturer's subcontractor's performance of a construction contract outside Iowa is not subject to tax.

19.5(5) See rule 701—32.8(423) for an exemption from use tax for building materials, supplies, or equipment purchased outside Iowa, brought into this state, and subsequently used in the performance of a construction contract outside this state.

This rule is intended to implement Iowa Code sections 422.42(12) and 422.42(13).

701—19.6(422,423) Prefabricated structures.

19.6(1) *Basic concepts and general rules.* A "prefabricated structure" is any structure assembled in a factory and capable of transport to the location where it will be used in the performance of a construction contract by placement on a foundation either by the buyer or a designated contractor. The term "prefabricated structure" includes a "modular home" as defined in rule 701—17.22(422,423), a mobile home whether or not sold subject to the issuance of a certificate of title, "manufactured housing" as defined in rule 701—33.10(423), sectionalized housing, precut housing packages, and panelized construction. With a few major exceptions (see 19.6(2) below regarding the "60 percent rule" and rule 701—33.10(423) regarding the taxation of manufactured housing while it is real property), the sales and use tax treatment of prefabricated structures generally follows the treatment of construction materials: Tax is due when those structures are sold to or used by owners, contractors, subcontractors, or builders. Sales of prefabricated structures which have not been erected on a foundation are considered sales of tangible personal property and thus are taxable at the time of retail sale. The usual basis for computing sales or use tax is the purchase price charged to a consumer or user by the seller of a prefabricated structure. *Custom Built Homes Co. v. Kansas State Commission of Revenue and Taxation*, 184 Kan. 31, 334 P.2d 808 (1959). Sales or use tax is due on the full purchase price when a prefabricated structure is delivered under a contract for sale or sold for use in Iowa. *Dodgen Industries Inc. v. Iowa State Tax Commission*, 160 N.W.2d 289 (Iowa 1968).

19.6(2) *Exceptions to the general rules.* There are a number of exceptions to the general rules stated above in 19.6(1). Those exceptions are applicable to modular and mobile homes and manufactured housing. They are explained as follows.

a. Modular homes. Only 60 percent of the gross receipts from the sale of a modular home are subject to Iowa tax. See rule 701—17.22(422,423). This rule is applicable only to a "modular home" as that phrase is defined in rule 701—17.22(422,423) and not to other types of prefabricated structures which do not meet the definition of the term such as sectionalized housing or panelized construction. Also, the rule is not applicable to the sale of materials used in the assembly of a modular home, only to the sale of the finished product.

b. Mobile homes and manufactured housing. Iowa use tax and not Iowa sales tax is imposed on mobile homes or manufactured housing sold subject to the issuance of a certificate of title, and, similar to 19.6(2) "a" above, use tax is imposed only upon 60 percent of the purchase price of these mobile homes or manufactured housing. See rule 701—32.3(423). All mobile homes and manufactured housing sold in Iowa or sold outside Iowa for use in this state are sold subject to Iowa use tax, whether sold for placement within or outside a mobile home park; see Iowa Code chapters 423 and 435.

19.6(3) *Tax consequences of sales of modular homes by various parties, some operating in a dual capacity.*

a. A retailer (dealer) who is not additionally a contractor or manufacturer of modular homes purchases those homes tax-free from a wholesaler or manufacturer for subsequent resale to contractors or owners. Tax must be collected when the dealer sells the modular home to an owner or contractor.

b. A contractor who is not a dealer must pay tax when purchasing a modular home for use in a construction contract or for some other purpose. A contractor's sale of a modular home to an owner or another contractor is treated as explained in Examples 2 and 4 of rule 19.4(422,423).

c. A dealer who is also a contractor will purchase homes tax-free for inclusion in its inventory. Tax is imposed when the dealer withdraws a home from inventory for sale or use in the performance of a construction contract as explained in rule 19.4(422,423).

d. A manufacturer that acts as its own dealer and sells its own modular homes at retail to contractors or owners will collect tax on the gross receipts from its sales of those modular homes to its customers. This situation is in contrast to that described in subrule 19.6(4) below in which a manufacturer uses its own modular homes in the performance of construction contracts and the tax due is computed on a sum other than gross receipts from the sale of a home.

What is stated in this subrule concerning sales of modular homes is generally applicable to the use tax on mobile homes and manufactured housing. However, one distinct difference is that mobile homes and manufactured housing are seldom, if ever, purchased by a dealer for any subsequent use in the performance of construction contracts. A dealer will often purchase a mobile home or manufactured housing for subsequent resale to a customer as tangible personal property and then will place or install the mobile home or manufactured housing on a site prepared by the customer. This is not the performance of a construction contract (see rule 19.7(422,423)), and the dealer is a retailer who installs tangible personal property and is not a construction contractor.

19.6(4) *Manufacturers who perform construction contracts.* When companies whose principal business is the manufacture of prefabricated structures use those structures in the performance of construction contracts, this use is treated as a retail sale of the structures on the manufacturer's part. See rule 701—16.3(422,423) for a detailed description of the sales tax treatment of this sort of transaction. The 60 percent rule (see 19.6(2) above) is not applicable when calculating the amount of tax owed by a manufacturer.

19.6(5) *Examples.* The following examples are intended to illustrate who must collect or remit sales or use tax when a manufacturer sells a modular home to a contractor or owner, or acts as a contractor in erecting the home. The incidence of tax depends on several factors, such as the nature of the manufacturer's business, the point of delivery, the contractual agreement for erection and whether or not a sale for resale has occurred.

EXAMPLE 1. The manufacturer is located outside Iowa. The manufacturer contracts with an Iowa customer to build a home in its factory. The manufacturer also contracts to completely erect the home, install the furnace, and do electrical and other necessary work to make the home ready for occupancy. The main source of the manufacturer's income relates to on-site construction. The manufacturer has paid a sales tax equal to Iowa tax in its state of residency. The manufacturer would be considered to be performing a construction contract in Iowa and would owe use tax in Iowa; however, a sales tax credit would be allowed for tax paid to another state.

EXAMPLE 2. The manufacturer is located outside Iowa. An Iowa unrelated builder/dealer contracts with the customer for the home and then contracts with the manufacturer for construction, delivery, and installation on the customer's foundation. The manufacturer delivers the home into Iowa on its own truck. The customer, by contractual agreement, is obligated to pay for the home on delivery of the property so the sale takes place in Iowa. In this situation, the manufacturer is involved in the sale of tangible personal property rather than the sale of real estate and must collect Iowa sales tax on 60 percent of the selling price to the Iowa builder/dealer.

EXAMPLE 3. The manufacturer is located outside Iowa. The manufacturer contracts to sell a home to a customer (owner) in Iowa. The manufacturer hires a common carrier to deliver the home to the Iowa customer. The manufacturer has no activity in Iowa that would create a "nexus" requiring the

manufacturer to collect Iowa tax. In this situation the Iowa customer is required to remit use tax on 60 percent of the purchase price of the home.

EXAMPLE 4. The manufacturer may be located in Iowa or outside Iowa. The manufacturer sells a home to a dealer in Iowa who will resell the home to the final customer. The manufacturer may deliver the home or delivery may be made by a common carrier. The manufacturer has no contractual obligation for erection. In this situation the manufacturer is making a sale for resale and is not required to collect tax. The manufacturer must have a valid resale certificate on file from the dealer. The dealer, if in Iowa, would be required to collect tax when the home is sold.

EXAMPLE 5. The manufacturer is located in Iowa. The manufacturer sells a home to a customer F.O.B. plant site. The manufacturer, under a separate invoice, agrees to transport the home to the job site and also do the setup of the home.

The manufacturer should collect tax on 60 percent of the selling price of the home irrespective of where final delivery occurs, as legal delivery occurs in Iowa. The transportation and setup charge are not taxable when separately contracted for and separately invoiced. If these charges are not separately stated and the sale contract is for a lump sum, the tax is computed on 60 percent of the lump sum selling price.

EXAMPLE 6. The manufacturer is located in Iowa. The manufacturer contracts to furnish, deliver, and perform the setup on a home in a state other than Iowa. The manufacturer withdraws the home from inventory and transports the home to the other state for setup. In this example, the Iowa manufacturer does not owe any Iowa tax because Iowa Code section 422.42(12) exempts building materials and supplies that manufacturers withdraw from inventory for construction outside Iowa.

EXAMPLE 7. The manufacturer is located in Iowa. The manufacturer sells a home to an Iowa customer and agrees, under separate contract, to transport the home to the job site and perform the setup. The manufacturer should collect tax on 60 percent of the selling price of the home. The customer also wanted a garage. The manufacturer agreed to sell the lumber, nails, and shingles to the customer who would build the garage. This sale would be considered a sale at retail and the manufacturer should collect tax on the entire selling price of these materials. The same would be true if the manufacturer sold appliances separate from the sale of the home; sales tax would be due on the entire selling price of the appliances.

EXAMPLE 8. The manufacturer may be located inside or outside Iowa. The manufacturer sells a modular home to a dealer who is a general contractor. The dealer subcontracts the work of placing the home on a foundation to various third parties, who transport the home to its site, excavate for and pour the concrete slab, and perform plumbing, electrical hookup, and all other services which are part of the construction contract for placing the modular home at its location. Since the sale of the modular home is to a dealer who is a contractor, the manufacturer will collect and the dealer will pay tax on 60 percent of the modular home's invoice price.

701—19.7(422,423) Types of construction contracts. The term “construction contract” is defined as an agreement under the terms of which an individual, corporation, partnership or other entity agrees to furnish the necessary building or structural materials, supplies, equipment or fixtures and to erect the same on the project site for a second party known as a sponsor. Nonexclusive examples of the types of construction contracts would include: lump-sum contracts; cost plus contracts; time and material contracts; unit price contracts; guaranteed maximum or upset price contracts; construction management contracts; design built contracts; and turnkey contracts.

The following is a nonexclusive list of activities and items which could fall within the meaning of a construction contract or are generally associated with new construction, reconstruction, alteration, or expansion of a building or structure. The list is provided merely for the purpose of illustration. It should not be used to distinguish machinery and equipment from real property or structures since such a determination is factual. See rules 19.10(422,423) and 19.11(422,423) for details.

Ash removal equipment (installed as distinguished from portable units).

Automatic sprinkler systems (fire protection).

Awnings and venetian blinds which become attached to real property.

Boilers (installed as distinguished from portable units).
Brick work.
Builder's hardware.
Burglar alarm and fire alarm fixtures.
Caulking materials work.
Cement work.
Central air conditioner installation.
Coal handling equipment (installed as distinguished from portable units).
Concrete work.
Conveying systems (installed as distinguished from portable units).
Drapery installation.
Electric conduit work and items relating thereto.
Electric distribution lines.
Electric transmission lines.
Floor covering which is permanently installed. See rule 701—16.48(422,423) for an exception to this regarding carpeting.
Flooring work.
Furnaces, heating boilers and heating units.
Furniture, prefabricated cabinets, counters and lockers (installed as distinguished from portable units).
Glass and glazing work.
Gravel work (excluding landscaping).
Installation of modular homes on foundations.
Lathing work.
Lead work.
Lighting fixtures.
Lime work.
Lumber and carpenter works.
Macadam work.
Millwork installation.
Mortar work.
Oil work.
Paint booths and spray booths (installed as distinguished from portable units).
Painting work.
Paneling work.
Papering work.
Passenger and freight elevators.
Piping valves and pipe fitting work.
Plastering work.
Plumbing work.
Putty work.
Refrigeration units (central plants installation as distinguished from portable units).
Reinforcing mesh work.
Road construction (concrete, bituminous, gravel, etc.).
Roofing work.
Sheet metal work.
Sign installation (other than portable sign installation).
Steel work.
Stone work.
Stucco work.
Tile work, ceiling, floor and walls.
Underground gas mains.

- Underground sewage disposal.
- Underground water mains.
- Vault doors and equipment.
- Wallboard work.
- Wall coping work.
- Wallpaper work.
- Water heater and softener installation.
- Weather stripping work.
- Wire net screen work.
- Wood preserving work.

701—19.8(422,423) Machinery and equipment sales contracts with installation. Machinery and equipment sales contracts with installation are transactions which are considered a sale of tangible personal property to a final consumer. Therefore, the individual who sells the equipment with installation must purchase the machinery and equipment tax-free as a purchase for resale. (This rule should not be confused with subrule 19.3(3) regarding building equipment.) The contract should itemize the sales tax separately. If a contractor wishes to avoid an itemization of sales and use tax on machinery and equipment which remains tangible personal property, the contractor can do so by figuring the tax as a general overhead expense and including a statement in the contract and related invoices that “sales tax is included in the contract price.”

If the sales transaction is one completed out of state and shipped in interstate commerce to a consumer or a user in Iowa, and not otherwise exempt from tax, the final purchaser is required to pay Iowa use tax on the purchase price of the machinery and equipment.

In a “mixed contract” (a construction contract mingled with a machinery and equipment sales contract), the elements of the contract should be separated for sales tax purposes. See rule 19.9(422,423).

Certain services which are enumerated in Iowa Code section 422.43 are subject to tax when performed under a contract for the installation of machinery and equipment which is not done in connection with new construction, reconstruction, alteration, expansion or remodeling of a building or structure. See rule 701—15.14(422,423) relating to installation charges. Examples of these services are: electrical installation; plumbing; welding; and pipe fitting. Other labor charges for job site installation which do not involve a taxable enumerated service are not subject to tax if the charges are separately contracted or, if no written contract exists, are separately itemized on the billing from the seller to the purchaser.

EXAMPLE: Company B contracts with Company A to furnish and install a portable conveyor unit in Company A’s new building. Company B can purchase the portable conveyor unit tax-free because the portable conveyor unit maintains its identity as tangible personal property after installation and does not become a component part of the real property. Company B would then charge tax to Company A on the sale of the portable conveyor unit. Installation charges would be part of the total gross receipts subject to tax unless they are separately contracted, or if no written contract exists, separately itemized on the billing from Company B to Company A.

701—19.9(422,423) Construction contracts with equipment sales (mixed contracts). Construction contracts with equipment sales, commonly known as mixed contracts, place a dual burden on the contractor as a contractor is a consumer of construction materials and also a retailer of the machinery and equipment. As a consumer by statute of construction building materials, supplies, and building equipment, the contractor is required to pay sales tax to the supplier at the time of purchase or remit use tax to the department if purchasing building materials, supplies, and building equipment from an out-of-state supplier. See 701—Chapter 30 of the rules regarding use taxes. Machinery and equipment must be purchased for resale by the contractor if it does not become real property. This means that the contractor does not pay tax to a supplier at the time of purchase of machinery and equipment, but instead, the contractor is responsible for collecting sales tax on the selling price from a sponsor and remitting it to the department.

EXAMPLE: Company A contracts with Company B to have Company B build a new building and install all of the production machinery and equipment for the new building. Company B must pay tax on its purchases of building materials and supplies which lose their identity as tangible personal property and become a component part of the real property. Company B also purchases some refrigeration units for the new building which maintain their identity as tangible personal property. These units must be purchased tax-free by Company B because they will be resold. Company B would then charge Company A the tax on the units which retain their identity as tangible personal property. The installation charges for the units which remain as tangible personal property would be part of the total gross receipts subject to tax unless they are separately contracted or, if no written contract exists, are separately itemized on the billing from Company B to Company A.

When a mixed construction contract is let for a lump-sum amount, the machinery and equipment furnished and installed shall be considered, for the purposes of this rule only, as being sold by the contractor for an amount equal to the cost of the machinery and equipment.

Persons required to collect sales tax in Iowa under machinery and equipment contracts or a mixed contract are required to have a sales tax or a retailer's use tax permit.

701—19.10(422,423) Distinguishing machinery and equipment from real property. A construction contract may include many activities, but it does not include a contract for the sale and installation of machinery or equipment. Machinery and equipment includes property that is tangible personal property when it is purchased and remains tangible personal property after installation. Generally, tangible personal property can be moved without causing damage or injury to itself or to the structure, it does not bear the weight of the structure, and it does not in any other manner constitute an integral part of a structure. Manufactured machinery and equipment which does not become permanently annexed to the realty remains tangible personal property after installation.

19.10(1) The following is a list of property which, under normal conditions, remains tangible personal property after installation. The list is nonexclusive and is offered for illustrative purposes only:

- a. Furniture, radio and television sets and antennas, washers and dryers, portable lamps, home freezers, portable appliances and window air conditioning units.
- b. Portable items such as casework, tables, counters, cabinets, lockers, athletic and gymnasium equipment and other related easily movable property attached to the structure.
- c. Machinery, equipment, tools, appliances, and materials used exclusively as such by manufacturers, industrial processors and others performing a processing function with the items.
- d. Office, bank and savings and loan association furniture and equipment, including office machines.
- e. Radio, television and cable television station equipment, but not broadcasting towers.
- f. Certain equipment used by restaurants and in institutional kitchens; for instance, dishwashers, stainless steel wall cabinets, stainless steel natural gas stoves, stainless steel natural gas convection ovens, and combination ovens and steamers with stands. This paragraph is not applicable to similar items used in residential kitchens. See *Petition of Taylor Industries Inc.* (Dkt No. 94-30-6-0367, 3-14-95).

19.10(2) The following is a list of property which, under normal conditions, becomes a part of realty. The list is nonexclusive and is offered for illustrative purposes only:

- a. Boilers and furnaces for space heating.
- b. Built-in household items such as kitchen cabinets, dishwashers, sinks (including faucets), fans, garbage disposals and incinerators.
- c. Buildings, and structural and other improvements to buildings, including awnings, canopies, foundations for machinery, floors (including computer room floors), walls, general wiring and lighting facilities, roofs, stairways, stair lifts, sprinkler systems, storm doors and windows, door controls, air curtains, loading platforms, central air conditioning units, building elevators, sanitation and plumbing systems, decks, and heating, cooling and ventilation systems.
- d. Fixed (year-round) wharves and docks.
- e. Improvements to land including patios, retaining walls, roads, walks, bridges, fencing, railway switch tracks, ponds, dams, ditches, wells, underground irrigation systems, drainage, storm and sanitary

sewers, and water supply lines for drinking water, sanitary purposes and fire protection. See rule 701—18.35(422,423) relating to drainage tile.

- f. Mobile and modular homes installed on foundations.
- g. Planted nursery stock.
- h. Residential water heaters, water softeners, intercoms, garage door opening equipment, pneumatic tube systems and music and sound equipment (except portable equipment).
- i. Safe deposit boxes, drive-up and walk-up windows, night depository equipment, remote TV auto teller systems, vault doors, and camera security equipment (except portable equipment).
- j. Seating in auditoriums and theaters and theater stage lights (except portable seating and lighting).
- k. Silos and grain storage bins.
- l. Storage tanks constructed on the site.
- m. Swimming pools (wholly or partially underground (except portable pools)).
- n. Truck platform scale foundations.
- o. Walk-in cold storage units becoming a component part of a building.

701—19.11(422,423) Tangible personal property which becomes structures. Items which are manufactured as tangible personal property can, by their nature, become structures. However, the determination is factual and must be made on an item-by-item basis. The following is a listing of criteria which courts have used in making such a determination:

1. The degree of architectural and engineering skills necessary to design and construct the structure.
2. The overall scope of the business and the contractual obligations of the person designing and building the structure.
3. The amount and variety of materials needed to complete the structure, including the identity of materials prior to assembly and the complexity of assembly.
4. The size and weight of the structure.
5. The permanency or degree of annexation of the structure to other real property which would affect its mobility.
6. The cost of building, moving or dismantling the structure.

EXAMPLE: A farm silo, which is a prefabricated glass-lined structure, is intended to be permanently installed. The prefabricated glass-lined structure is 70 feet high, 20 feet around, weighs 30 tons, and it is affixed to a concrete foundation weighing 60 tons which is set in the ground specifically for the purpose of supporting the silo. The assembly kit includes 105 steel sheets and 7000 bolts. The silo can be removed without material injury to the realty or to the unit itself at a cost of \$7,000. In view of its massive size, the firm and permanent manner in which it is erected on a most substantial foundation, its purpose and function, the expense and size of the task and the difficulty of removing it, it is considered a structure and not machinery or equipment. *Wisconsin Department of Revenue v. A. O. Smith Harvestore*, 240 N.W.2d 357 (Wisc. 1976).

The above criteria are intended only to be summation of factors which the department will consider in determining whether or not a project involves construction. The following cases are used as reference material:

Wisconsin Department of Revenue v. A. O. Smith Harvestore Products, Inc., 240 N.W.2d 357 (Wisc. 1976); *Prairie Tank or Construction Co. v. Department of Revenue*, 364 N.W.2d 963 (Ill. 1977); *Levine v. State Board of Equalization*, 299 P. 2d 738 (Calif. 1956); *State of Alabama v. Air Conditioning Engineers, Inc.*, 174 So 2d 315 (Ala. 1965); *A. S. Schulman Electric Company v. State Board of Equalization*, 122 Cal. Rptr 278 (Calif. 1975); *Western Pipeline Constructors, Inc. v. J.M. Dickinson*, 310 S.W.2d 455 (Tenn.); and *City of Pella Municipal Light Plant, Order of the Director of Revenue*, June 16, 1975.

701—19.12(422,423) Construction contracts with tax exempt entities. This rule applies to exempt sales of building materials, supplies, and equipment to certain persons performing construction contracts

for sponsors which are designated exempt entities and the continuing right of designated exempt entities and other persons to seek refund of taxes paid by persons performing construction contracts.

19.12(1) Definitions.

“*Construction contract*” has the same meaning as the definition of that phrase set out in rule 701—19.7(422,423).

“*Designated exempt entity*” includes only the following: a private nonprofit educational institution in this state, nonprofit private museum in this state, tax-certifying or tax-levying body or governmental subdivision of the state, including the state board of regents, state department of human services, state department of transportation, a municipally owned solid waste facility which sells all or part of its processed waste as fuel to a municipally owned public utility, and all divisions, boards, commissions, agencies, or instrumentalities of state, federal, county, or municipal government which do not have earnings going to the benefit of an equity investor or stockholder.

“*Exemption certificate*” means a certificate which is complete and correct according to the requirements of this rule. A certificate which is complete and correct according to the requirements of this rule must contain, at a minimum, the following information: the name and address of the designated exempt entity; the federal identification number of the exempt entity; the name of the construction project or the project number for which exemption is requested; and a general description of that project. The certificate shall also contain the contractor’s, subcontractor’s, builder’s, or manufacturer’s name and address. The certificate must be completed, signed, dated, and issued by an authorized official of the designated exempt entity. The certificate is valid only for the stated construction project.

“*Purchasing agent authorization letter*” means a letter from a designated exempt entity to a contractor, subcontractor, builder or manufacturer authorizing the contractor, subcontractor, builder, or manufacturer to purchase tangible personal property consisting of building materials, supplies, or equipment free from tax for a construction project of which the designated exempt entity is the sponsor. The letter shall set out the contract date or the contract letting date and give a general description of the construction contract to which it applies. The letter shall state that it is the responsibility of the contractor, subcontractor, builder, or manufacturer to keep records identifying the property purchased exempt from tax and verifying that the property purchased was used in the contract with the exempt entity. The letter shall also state that property purchased tax-free and not used in the contract with the exempt entity is subject to tax which must be paid directly to the Iowa department of revenue.

19.12(2) Exempt purchases, withdrawals from inventory, and manufacturers’ fabrication costs. This subrule and the exemptions it describes are applicable to construction contracts entered into on or after January 1, 2003.

a. Contractors, subcontractors, and builders who purchase building materials, supplies, or equipment intending to use that property in the performance of a construction contract with a designated exempt entity shall purchase the property from a retailer exempt from tax if the property is subsequently used in the performance of that contract and the contractor, subcontractor, or builder presents a purchasing agent authorization letter and an exemption certificate issued by the designated exempt entity to the retailer.

b. The withdrawal of building materials, supplies, or equipment from inventory by a contractor, subcontractor, or builder who is also a retailer is exempt from tax if the materials are withdrawn for use in construction performed for a designated exempt entity and an exemption certificate is received from the entity.

c. The “fabricated cost” (see rule 701—16.3(422,423)) of building materials, supplies, or equipment purchased and consumed by the manufacturer of such property in the performance of a construction contract for a designated exempt entity is exempt from tax if a purchasing agent authorization letter and an exemption certificate are received from the exempt entity and presented to a retailer.

d. Sales, withdrawals, or a manufacturer’s consumption of building materials, supplies, or equipment used in the performance of a construction contract for purposes other than incorporation into real property with subsequent loss of identity as tangible personal property are not eligible for this subrule’s exemption.

19.12(3) Notification to the department. A designated exempt entity shall notify the department when any purchasing agent authorization letter and exemption certificate have been issued for a construction contract project. The notification shall, so far as practicable, describe the project and identify the contractors, subcontractors, builders, and manufacturers which will be using the letters and certificates.

19.12(4) Exemption certificates taken in good faith. A retailer who accepts an exemption certificate described in this rule has all the rights and obligations of a retailer described in 701—subrules 15.3(1) and 15.3(2).

19.12(5) Contracts with designated exempt entities, businesses in economic development areas, and rural water districts organized under Iowa Code chapter 504A—eligibility for refund in the absence of eligibility for exemption. Contractors, subcontractors, and builders who enter into written construction contracts with designated exempt entities, businesses in economic development areas, or rural water districts organized under Iowa Code chapter 504A can still be required to remit sales tax on building materials, supplies, and equipment to their suppliers or to pay a corresponding use tax. Reasons for this will vary; these reasons are not intended to be all-inclusive. In the case of a contractor, subcontractor, or builder entering into a written construction contract with a designated exempt entity, the requirement to remit or pay tax can result from failure to secure an exemption certificate or purchasing agent authorization letter. In the case of a contractor, subcontractor, or builder entering into a written construction contract with businesses in economic development areas or rural water districts organized under Iowa Code chapter 504A, the requirement to remit or pay tax can result from the fact that businesses in economic development areas or rural water districts organized under Iowa Code chapter 504A are not designated exempt entities and thus not eligible to claim their exemption.

Even if no right to claim the designated exempt entity exemption exists, under the provisions of Iowa Code section 422.45(7) or 15.331A(1), a contractor is still required to provide a designated exempt entity which has not properly claimed its exemption, business or supporting business in an economic development area, or a rural water district organized under Iowa Code chapter 504A with a statement before final settlement of the contract, showing the amount of sales of goods, wares or merchandise or services rendered, furnished or performed and used in the performance of the contract, and the amount of sales and use taxes paid on these items. The department provides Form 35-002 for this purpose. If final settlement occurred before May 20, 1999, the governmental unit, private nonprofit educational institution, nonprofit private museum, business or supporting business, or rural water district organized under Iowa Code chapter 504A has six months after the final settlement to file a claim for refund on Form 35-003 for sales and use taxes paid by the contractor. If final settlement occurs on or after May 20, 1999, a period of one year after the date of final settlement is allowed for filing a claim for refund. The failure of a contractor to remit taxes on materials, supplies, and equipment used in the performance of a construction contract does not relieve the contractor of liability even though the refund was not or cannot be claimed. See *Dealers Warehouse Co. Inc. v. Department of Revenue*, Jasper County District Court, 90-3910936, December 6, 1978.

If a construction contract is a contract which includes machinery or equipment with installation (see rule 701—19.8(422,423)) or a mixed contract (see rule 701—19.9(422,423)), the machinery and equipment must be purchased tax-free because the machinery and equipment will be resold to the contract sponsor. There will be no sales tax charged on resales of machinery and equipment to sponsors which are designated exempt entities, businesses in economic development areas, or rural water districts organized under Iowa Code chapter 504A since these sales are exempt under Iowa Code sections 422.45(5) and 422.45(8). See also 261—subrule 58.4(7) for an explanation of the exemption for sales of machinery and equipment to businesses or supporting businesses in an economic development area.

This rule is intended to implement Iowa Code sections 357A.15, 422.42, 422.45 and 422.47.

701—19.13(422,423) Tax on enumerated services. The tax on the services enumerated in Iowa Code section 422.43 is basically a tax on labor. When such services are performed on or connected with new construction, reconstruction, alteration, expansion or remodeling of real property or structures, they are exempt from tax. The repair of machinery on the job site is not exempt from tax under this rule.

The distinction between a repair (see subrule 19.13(1)) and new construction, reconstruction, alteration, expansion and remodeling activities (see subrule 19.13(2)) can, oftentimes, be difficult to grasp. Therefore, the intent of the parties and the scope of the project may become the factors which determine whether certain enumerated services are taxable. An area of particular difficulty is the distinction between repair and remodeling. "Remodeling" a building or other structure means much more than making repairs or minor changes to it. Remodeling is a reforming or reshaping of a structure or some substantial portion of it to the extent that the remodeled structure or portion of the structure is in large part the equivalent of a new structure or part thereof. See *Board of Commissioners of Guadalupe County v. State*, 43 N.M. 409, 94 P.2d 515 (1939) and *City of Mayville v. Rosing*, 19 N.D. 98, 123 N.W. 393 (1909).

19.13(1) Repair is synonymous with mend, restore, maintain, replace and service. A repair contemplates an existing structure or thing which has become imperfect and constitutes the restoration to the original existing structure which has been lost or destroyed. A repair is not a capital improvement; that is, it does not materially add to the value or substantially prolong the useful life of the property.

Iowa Code section 422.42(13) defines a person engaged in the business of performing taxable services as a retailer. Since retailers may purchase building materials, supplies and equipment for resale, persons making taxable repairs (repairpersons and servicepersons) are not considered to be contractors and are not subject to the provisions of Iowa Code section 422.42(15). In addition, such persons are not considered to be owners, subcontractors or builders. So repairpersons and servicepersons will normally purchase building materials and supplies free of tax for subsequent resale to their customers; contractor-retailers will also do this. However, contractors, subcontractors or builders who may make repairs are subject to Iowa Code section 422.42(15) and must pay tax at the time building materials, supplies and equipment are purchased from their vendors even though they hold a valid sales tax permit. See rules 19.2(422,423) and 19.3(422,423). In determining who is a contractor and who is a retailer of repair services, the department looks to the "total business" of the entity in question and not to any one portion of it. Thus, the fact that a business whose overall activity is contracting has a division engaged in taxable repair services does not transform that business into a retailer providing services rather than a contractor. When contractors do repair work, they should separately itemize labor and materials charges and collect sales tax on labor charges only. A contractor's markup on a materials charge is not part of any taxable labor charge unless that markup is a disguised labor charge done with the intent to evade collecting Iowa sales tax.

When other persons making repairs sell tangible personal property at retail in connection with any taxable service enumerated in Iowa Code section 422.43, then those persons shall collect and remit tax on all gross receipts. The person making repairs shall purchase tangible personal property for resale when the property is used in the repair job and is resold to a customer. See rule 701—18.31(422,423) for an explanation of when persons performing services sell the property they use in performing those services to their customers. Nonexclusive examples of repair situations follow:

1. Repair of broken or defective glass.
2. Replacement of broken, defective or rotten windows.
3. Replacing individual or damaged roof shingles.
4. Replacing or repairing a portion of worn-out or broken kitchen cabinets.
5. Replacement of garage doors or garage door openers.
6. Replacing or repairing a portion of a broken or worn tub, shower, or faucets.
7. Replacing or repairing a portion of a broken water heater, furnace or central air conditioning compressor.
8. Restoration of original wiring in a house or building.

19.13(2) The following are examples of new construction, reconstruction, alteration, expansion and remodeling activities:

- a. The building of a garage or adding a garage to an existing building would be considered new construction.
- b. Adding a redwood deck to an existing structure would be considered new construction.

- c.* Replacing a complete roof on an existing structure would be considered new construction or alteration.
- d.* Adding a new room to an existing building would be considered new construction.
- e.* Adding a new room by building interior walls would be considered alteration.
- f.* Replacing kitchen cabinets with some modification would be considered an improvement.
- g.* Paneling existing walls would be considered an improvement.
- h.* Laying a new floor over an existing floor would be considered an improvement.
- i.* Rebuilding a structure damaged by flood, fire or other uncontrollable disaster or casualty would be considered reconstruction.
- j.* Building a new wing to an existing building would be considered an expansion.
- k.* Rearranging the interior structure of a building would be considered remodeling.
- l.* Installing manufactured housing or a modular or mobile home on a foundation. However, see rule 701—33.10(423) for a description of the special treatment of taxable installation charges when the taxable sale of manufactured housing as real estate occurs.
- m.* Replacing an entire water heater, water softener, furnace or central air conditioning unit.
- n.* Sign installation and well-drilling services are generally performed in connection with new construction.

In all the examples, the contractor is responsible for paying tax to any supplier on materials. However, there would be no tax on any enumerated services.

19.13(3) The term “on or connected with” is broad and should be used to convey generally accepted meaning. Therefore, in a specific situation, the facts relating thereto are controlling in determining whether the exemption is applicable. “On or connected with” does not connote that those things connected have to be primary or subsidiary to the construction, reconstruction, alteration, expansion or remodeling of the real property. An incidental relationship can qualify the activity for exemption if the relationship forms an intimate connection with the construction activity. For example, the service of excavating and grading relating to the clearing of land to begin construction of a building would qualify for the exemption; however, excavating and grading land without motive toward construction would not qualify for exemption even though at some later date plans to construct a building were created and a structure was actually erected.

The presence of a time relationship can also be a factor in determining the applicability of exemption. For example, tax would not apply to separate labor charges relating to the installation of production machinery and equipment in a building while remodeling of the real property was in progress. (Tax could apply to the sales price of the production machinery and equipment; see rule 701—18.45(422,423).) However, if a year after all construction activity has ended, the owner decides to install a piece of production machinery in the building, any taxable enumerated services relating thereto would be subject to tax. Further, if following construction, the land is graded for the purpose of seeding a new lawn, the exemption would be applicable. However, if the lawn does not grow and the land is regraded the following year, the exemption would not be applicable. See also 701—subrule 18.45(7) for the exemption, effective July 1, 1985, regarding the installation of new industrial machinery and equipment.

Therefore, the motive behind the activity and the course of events that could reasonably be expected to occur would be a further consideration in determining if the exemption is applicable.

A physical relationship is also a factor that should be evaluated. If a building is constructed to house machinery, any enumerated services relating to the installation of that machinery would be exempt from tax. For example, piping joining two pieces of equipment housed in separate buildings would qualify for exemption if the equipment in either building was installed while such new construction, reconstruction, alteration, expansion or remodeling to the structure was also taking place to house the equipment.

On the other hand, an incidental relationship, a time relationship and close physical proximity may not be enough to support the conclusion that a taxable service is performed in connection with new construction or reconstruction, for example. For instance, a homeowner hires a general contractor to add a new room to an existing home (which is new construction; see 19.13(2) “*d*” above). The existing home is in need of a number of the repairs described in 19.13(1); for example, it is in need of rewiring

and replacement of a broken window. The general contractor rewires the home and repairs the window in addition to building the new room. The taxable services which the general contractor performs while rewiring the home and repairing the window are not performed in connection with the construction of the new room simply because those services happen to be performed at the same time and on the same home as the new construction. If the addition of the new room were the cause of the need for the taxable service (e.g., the window was broken during construction of the new room) and not just a convenient occasion for performance of the service, that performance would be exempt from tax.

The department would like to emphasize that facts and motives are important in the determination of the taxability of services relating to construction activities. However, it should also be noted that taxes on enumerated services are applicable to repair work that is not a construction activity. Please refer to subrule 19.13(1) relating to persons who make repairs for more information.

19.13(4) Excavating includes the digging, hollowing out, scooping out, or making a hole in the earth. It also includes removal of materials or substance found beneath the surface. Grading includes a change in the earth's structure by scraping and filling to a common level or a fixed line known as a grade. The enumerated services excavating and grading are not subject to tax if performed on or connected with new construction. Removal of overburden which is directly related to road building, building of dikes, building of farm ponds, and creating drainage ditches would not be taxable as such activities would be considered on or connected with the creation of a structure. See *Maasdam v. Kirkpatrick*, 214 Iowa 1388 (1932). However the mere removal of overburden, without more, would be taxable as the enumerated service of excavating or grading under Iowa Code section 422.43.

19.13(5) Services associated with new construction or reconstruction, for example, which are not taxable include, but are not limited to, brick laying, concrete finishing, tiling, siding installation, laying of linoleum and other flooring and carpet installation. No tax can be collected on the performance of these services even when they are furnished in connection with the performance of repairs.

This rule is intended to implement Acts of the Sixty-third General Assembly, First Session, 1969, chapter 248, section 9 (this enactment is not part of the Iowa Code).

701—19.14(422,423) Transportation cost. Transportation charges and delivery charges are not subject to the Iowa sales and use tax when they are separately contracted or, if no written contract exists, are separately itemized on the billing from the seller to the purchaser. See rule 701—15.13(422,423).

701—19.15(422,423) Start-up charges. Start-up charges are not subject to the Iowa sales and use tax when they are separately contracted or, if no written contract exists, are separately itemized on the billing from the seller to the purchaser.

701—19.16(422,423) Liability of subcontractors. A subcontractor who is providing materials and labor on the actual construction of the building or structure has the same status and tax responsibilities as a general contractor under the Iowa statutes. However, where an individual or firm is hired to provide machinery and equipment to a general contractor or another subcontractor, the individual or firm is considered a material supplier rather than a subcontractor. This is true, even though the machinery and equipment are supplied with installation. Items of machinery and equipment sold by material suppliers to contractors shall be sold for resale and the contractor must provide the material supplier with a valid resale certificate.

701—19.17(422,423) Liability of sponsors. The sponsor cannot be held responsible for a tax liability incurred on building materials, supplies and equipment by a general contractor or subcontractor in the completion of a construction contract. Likewise, a general contractor cannot be held responsible for the tax liability incurred on building materials, supplies and equipment by a subcontractor in the completion of a construction contract. The tax responsibility regarding machinery and equipment contracts depends on where the sale was consummated. If the sale was consummated in Iowa, the seller is responsible for the collection and remittance of tax unless a valid exemption certificate is given by the purchaser. If the

sale was consummated outside Iowa and the seller does not remit use tax to the department, then a use tax would be due from the Iowa user.

701—19.18(422,423) Withholding. A sponsor of a contract with a nonregistered out-of-state (nonresident) contractor may be asked to withhold the final payment of the contract as a guarantee that sales and use taxes will be paid. The withholding requirement may also apply to registered out-of-state contractors at the discretion of the department. The department will issue a notice to the sponsor to support the withholding of funds. In order to seek a release of the notice, the out-of-state contractor is required to file a report with the department consisting of the following departmental forms:

1. Form 35-012 which is a listing of subcontractors to whom the out-of-state contractor has awarded a construction contract. This statement should be submitted on each project as it becomes available.

2. Form 35-013 which is a list of material suppliers both in state and out of state from whom tangible personal property has been purchased for use in completing each project or contract.

3. Form 35-001 which is a summary of the provisions of the actual contract.

All letters of release furnished by the department are subject to audit and therefore, are not unconditional release from any Iowa sales or use tax liability. All letters of release will be issued within 60 days upon receipt of the proper information unless an error or discrepancy is noted.

701—19.19(422,423) Resale certificates. Whenever machinery and equipment which will remain tangible personal property after installation is purchased for a machinery and equipment contract, by a contractor from a supplier or a material supplier, it should be purchased for resale. See rule 19.8(422,423). Resale purchases are most commonly related to machinery and equipment sales contracts with installation and mixed construction contracts. Contractor-retailers and persons making repairs may also purchase materials for resale as long as they collect tax on their retail sales and pay the tax themselves on items withdrawn from inventory for use in the performance of a construction contract. See rule 19.4 (422, 423) and subrule 19.13(1). Resale certificates can be obtained by contacting the Iowa department of revenue. See rule 701—15.3(422,423) for detailed information on resale certificates.

701—19.20(423) Reporting for use tax. An Iowa contractor can report use tax either on a consumers use tax return or as consumed goods on a sales tax return. Tax is due in the quarter the materials are delivered into Iowa. Nonresident contractors should report use tax on a consumers use tax return. Consumer use tax returns for nonresident contractors must be obtained directly from the department of revenue unless the contractor is registered with the department.

This chapter is intended to implement Iowa Code sections 422.42(3), 422.42(12), 422.42(13), 422.43, 422.45(5), 422.45(7), 422.45(8), 422.47, 422.48, and 423.2.

CHAPTER 20
FOODS FOR HUMAN CONSUMPTION, PRESCRIPTION DRUGS, INSULIN,
HYPODERMIC SYRINGES, DIABETIC TESTING MATERIALS, PROSTHETIC,
ORTHOTIC OR ORTHOPEDIC DEVICES

[Sales Tax Exemption]

[Prior to 12/17/86, Revenue Department[730]]

701—20.1(422,423) Foods for human consumption. Foods for human consumption which may be purchased with food coupons shall be exempt from tax regardless of whether the retailer from whom the foods are purchased is participating in the food coupon program. On or after July 1, 1985, candy, candy-coated items, candy products and certain beverages, which are described in subrule 20.1(3) and which may be purchased with food coupons, are taxable unless purchased on or after October 1, 1987, with food coupons issued under the federal Food Stamp Act of 1977, 7 U.S.C. §2011 et seq.

20.1(1) Foods eligible for food coupons. These foods shall include all foods which may be purchased with food coupons issued by the United States Department of Agriculture under the regulations in effect on July 1, 1974. Most products can easily be classified either as food or food products or as nonfood items. There are, however, certain items that are not readily distinguishable as food or nonfood and may present problems in judgment. The following guidelines apply to some of the more unique categories of eligible foods about which questions may arise and to those special categories of items which are eligible for purchase with food stamps. The list is not to be considered all-inclusive:

a. Garden seeds and plants. Seeds and plants for use in gardens to produce food for consumption may be purchased with food coupons. Seeds and plants eligible for purchase with food coupons include vegetable seeds and food-producing plants such as tomato and green pepper plants and fruit trees. In addition, food-producing roots, bushes, and bulbs (e.g., asparagus roots and onion sets) are eligible food items. Seeds and plants used to produce spices for use in cooking foods may also be purchased with food coupons.

b. Distilled water and ice. These items, although having some nonfood usages, are largely used as food or in food for human consumption. Unless these items are specifically labeled for nonfood use or the recipient indicates they will be used for other than human consumption, they are eligible and may be purchased with food coupons. On or after July 1, 1985, distilled water and certain other beverages, which are described in paragraph 20.1(3)“b” and which may be purchased with food coupons, are taxable unless purchased on or after October 1, 1987, with food coupons issued under the federal Food Stamp Act of 1977, 7 U.S.C. §2011 et seq.

c. Specialty foods. This category of eligible foods includes special dietary foods (e.g., diabetic and dietetic), enriched or fortified foods, infant formulas, and certain foods commonly referred to as health food items. These items are food products which are substituted for more commonly used food items in the diet, and thus they are eligible for purchase with food coupons. Examples of items in this category of eligible foods are Metrecal, Enfamil, Sustegen, wheat germ, brewer’s yeast, sunflower seeds which are packaged for human consumption, and rose hips powder which is used for preparing tea. It is not possible to formulate a comprehensive list of eligible specialty foods. The guideline to be used to determine the eligibility of specific items is the ordinary use of a product.

NOTE: If the product is primarily used as a food or in preparing food, then it is an eligible item; if it is primarily used for medicinal purposes as either a therapeutic agent or a deficiency corrector and only occasionally used as a food, the product is not an eligible item. On or after July 1, 1985, candy, candy-coated items, candy products, and certain beverages, which are described in subrule 20.1(3) and which may be purchased with food coupons, are taxable unless purchased on or after October 1, 1987, with food coupons issued under the federal Food Stamp Act of 1977, 7 U.S.C. §2011 et seq.

d. Snack foods. These products are food items and, therefore, are eligible. Typical examples of snack foods are candy, soft drinks, potato chips, and chewing gum. On or after July 1, 1985, candy, candy-coated items, candy products, and certain beverages, which are described in subrule 20.1(3) and

which may be purchased with food coupons, are taxable unless purchased on or after October 1, 1987, with food coupons issued under the federal Food Stamp Act of 1977, 7 U.S.C. §2011 et seq.

e. Others. There are certain eligible food items which are normally consumed only after being incorporated into foods and other ingredients. Since these items then become part of a food for human consumption, they are eligible items. An example is pectin. Pectin is the generic term for products marketed under various brand names and commonly used as a base in making jams and jellies. When pectin is incorporated into jams or jellies, it becomes part of a food for human consumption and, therefore, is an eligible food item. Other examples are lard and vegetable oils.

The following general classifications of food products are also exempt from tax unless taxable as prepared food—see rule 20.5(422,423):

- Bread and flour products
- Cereal and cereal products
- Cocoa and cocoa products, unless taxable in the form of candy as in paragraph 20.1(3) “a”
- Coffee and coffee substitutes
- Dietary substitutes (see paragraphs 20.1(1) “c” above and 20.1(2) “a” below)
- Eggs and egg products
- Fish and fish products
- Frozen foods
- Fruits and fruit products including fruit juices, unless taxable as a beverage as in paragraph 20.1(3) “b”
- Margarine, butter, and shortening
- Meat and meat products
- Milk and milk products including packaged ice cream products
- Spices, condiments, extracts, and artificial food coloring
- Sugar and sugar products and substitutes, unless taxable in the form of candy as in paragraph 20.1(3) “a”
- Tea
- Vegetables and vegetable products

Products which are made with ingredients identical to those which are eligible for purchase with food coupons, unless taxable as candy, candy-coated items, candy products, or beverages described in subrule 20.1(3) or prepared food as in subrule 20.5(2).

20.1(2) Products not eligible for purchase by food coupons. Various products may not be purchased with food coupons issued by the United States Department of Agriculture and, therefore, are not exempt from tax. They include, but are not limited to, the following:

a. Vitamins and minerals. Vitamins and minerals, which are marketed in various forms such as tablets, capsules, powders, and liquids, serve as supplements to food or food products rather than as foods, and, therefore, are not eligible for purchase with food coupons. Vitamins and minerals are also present in natural foodstuffs, and certain vitamins and minerals have been determined to be essential to nutrition. However, because these essential vitamins and minerals occur naturally in foods, a good diet will include a variety of foods that together will supply all nutrients needed. Therefore, a nutritionally adequate diet as provided for in the Food Stamp Act may be obtained without the use of specially formulated vitamin and mineral preparations and other specially formulated therapeutic products. Since these products serve as deficiency correctors or therapeutic agents to supplement diets deficient in essential nutrition rather than as foods, they are not eligible for purchase with food coupons. In addition to vitamin and mineral tablets or capsules, this category includes products such as cod liver oil, which is used primarily as a source of vitamins A and D. It is not possible to provide a comprehensive list of other such items which are primarily used for medicinal purposes or as health aids and which may be stocked by authorized firms.

b. Health aids. Patent medicines and other products used primarily as health aids or therapeutic agents are not foods as defined by the Food Stamp Act and, therefore, may not be purchased with food coupons. Such products include aspirin, cough drops or syrups and other cold remedies, antacids, and all patent medicines or other products used as health aids. In addition to these commonly used health

aids, any product used primarily for medicinal purposes is ineligible. An example of such products is slippery elm powder, a demulcent which is used to soothe sore throats.

c. Items not exempt. The following general classifications of products are subject to tax:

- Alcoholic beverages
- Dietary supplements (see paragraphs 20.1(1)“c” and 20.1(2)“a” above)
- Pet foods and supplies
- Household supplies
- Paper products
- Soaps and detergents
- Tobacco products
- Cosmetics
- Toiletry articles
- Tonics

Lunch counter or prepared foods for consumption on the premises of the retailer.

Additionally, on or after July 1, 1985, the following classifications of products are subject to tax even when eligible for purchase with food coupons:

Foods prepared by the retailer which may be immediately consumed off of the premises of the retailer and that are sold hot or cold.

Candy, candy-coated items, and candy products as described in 20.1(3)“a.”

Certain beverages as described in 20.1(3)“b.”

20.1(3) *Candy, candy-coated items, candy products, and certain beverages.* Even when eligible for purchase with food coupons, candy, candy-coated items, candy products, and certain beverages are taxable on or after July 1, 1985, unless purchased on or after October 1, 1987, with food coupons issued under the federal Food Stamp Act of 1977, 7 U.S.C. §2011 et seq.

a. Candy, candy-coated items, and candy products. Candy, candy-coated items and candy products are taxable on or after July 1, 1985, unless purchased on or after October 1, 1987, with food coupons issued under the federal Food Stamp Act of 1977, 7 U.S.C. §2011 et seq. Candy, candy-coated items, and candy products include those products normally considered to be “candy.”

(1) *Candy.* Candy is a prepared food made of a sugar paste or syrup or other natural or artificial sweeteners often enriched and varied with coloring and flavoring and formed into various shapes.

(2) *Candy-coated items.* Candy-coated items are products like fruit or nuts which are dipped or otherwise substantially covered with candy and which would normally be considered candy.

(3) *Candy products.* Candy products include mixtures containing both candy and noncandy items. The inclusion of candy merely as an incidental ingredient in a product does not make the item a candy product.

(4) *Taxable candy, candy-coated items, and candy products.* Candy, candy-coated items, and candy products include: preparation of fruits, nuts or other ingredients in combination with sugar, honey or other natural or artificial sweeteners in the form of bars, drops or pieces; hard or soft candies including jelly beans, taffy, licorice, and mints; dried fruit leathers or other similar products prepared with natural or artificial sweeteners; cotton candy; candy breath mints; and mixes of candy pieces, dried fruits, nuts, and similar items.

(5) *Nontaxable items and products.* Candy, candy-coated items, or candy products do not include: jams, jellies, preserves, or syrups; frostings; dried fruits; marshmallows; unsweetened or sweetened baking chocolate in bars, pieces, or chips; breakfast cereals; prepared fruit in a sugar or similar base; ice cream or other frozen desserts covered with chocolate or similar coverings; caramel or other candy-coated apples or other fruit; candy-coated popcorn; cakes, cookies, and similar products covered with chocolate or other similar coating; candy primarily intended for decorating baked goods; and granola bars. However, these and similar items are taxable if sold as prepared food under subrule 20.5(2).

b. Beverages. In addition to alcoholic beverages, other beverages are taxable on or after July 1, 1985. Beverages are not taxed if purchased on or after October 1, 1987, with coupons issued under the federal Food Stamp Act of 1977, 7 U.S.C. §2011 et seq.

(1) Taxable beverages. Taxable beverages are: effervescent and noneffervescent water sold in containers; soda and mineral bottled water; soft drinks carbonated and noncarbonated including but not limited to colas, ginger ale, near beer, and root beer; lemonade, orangeade, and all other drinks or punches with natural fruit or vegetable juice less than 15 percent by volume.

Beverage mixes and ingredients intended to be made into taxable beverages are taxable. See 20.1(3) "b"(2) for exceptions.

Beverage mixes or ingredients may be liquid or frozen, concentrated or nonconcentrated, dehydrated, powdered, granulated, sweetened or unsweetened, seasoned or unseasoned. Concentrates intended to be made into beverages which contain natural fruit or vegetable juice of less than 15 percent by volume are taxable.

(2) Nontaxable beverages are: tea, coffee, beverages that contain primary dairy products, or dairy ingredient bases, and beverages that contain natural fruit or vegetable juice of 15 percent or more by volume. However, these and similar beverages are taxable if sold as prepared food and drink under subrule 20.5(2).

Nondairy coffee "creamers" in liquid, frozen or powdered form are not beverages.

Sugar or other artificial or natural sweeteners sold separately are not taxable as beverage ingredients.

Specialty foods that are liquids or that are to be added to a liquid and that are intended to be a substitute in the diet for more commonly used food items are not beverages and are not taxable as beverages. These foods include infant formula.

This rule is intended to implement Iowa Code subsection 422.45(12).

701—20.2(422,423) Food coupon rules. Food coupon rules used in determining whether certain foods are eligible for purchase by food coupons and therefore exempt from sales tax shall be those United States Department of Agriculture regulations in effect on July 1, 1974, unless the purchase is actually made with food coupons on or after October 1, 1987, in which case the exemption applies to the purchase of all food eligible under the federal Food Stamp Act of 1977, 7 U.S.C. §2011 et seq.

20.2(1) On or after July 1, 1985, candy, candy-coated items, candy products, and certain beverages, which are described in 20.1(3) and which may be purchased with food coupons, are taxable unless purchased on or after October 1, 1987, with food coupons issued under the federal Food Stamp Act of 1977, 7 U.S.C. §2011 et seq.

20.2(2) On or after October 1, 1987, when a purchase of items eligible for purchase with food coupons is paid with food coupons and cash, the retailer may elect to collect and remit tax in one of the following manners:

a. The entire sale of eligible food items is exempt from tax when a purchase of items eligible for purchase with food coupons is paid with food coupons and cash, or

b. The part of the payment made with food coupons is to apply first to the taxable items eligible for purchase with food coupons. The election once made by the retailer applies to all sales until the retailer notifies the department in writing that the alternate manner is to be used.

701—20.3(422,423) Nonparticipating retailer in the food coupon program. A nonparticipating retailer in the food coupon program is a retailer who may sell foods that are eligible for purchase with food coupons but by the retailer's own choice or at the discretion of the United States Department of Agriculture is not participating in the food coupon program.

701—20.4(422,423) Determination of eligible foods. Pursuant to 20.1(422,423), 20.2(422,423) and 20.3(422,423), in order to be eligible for the sales tax exemption, foods must be the same foods eligible for purchase by food coupons and shall not include foods that in their original state may have been purchased by food coupons but due to changes to the foods such as additional ingredients, preparation, or any other change of state, they are no longer foods eligible for purchase by food coupons.

701—20.5(422,423) Meals and prepared food. Meals and prepared food are subject to tax using different criteria before July 1, 1985, and on or after July 1, 1985.

20.5(1) *Before July 1, 1985.* Meals prepared for immediate consumption on or off the premises of the retailer are not eligible for the sales tax exemption. A meal shall consist of a diversified selection of foods, which would not be able to be consumed without at least some articles of tableware being present and which could not be conveniently consumed while one is standing or walking about. A meal would usually consist of a larger quantity of food than that which ordinarily comprises a single sandwich. *Treasure Island Catering Company, Inc. v. State Board of Equalization*, 1941, 19 Cal.2d 181.

a. Retailers who are considered serving meals shall include those who serve meals off the premises of the retailers such as caterers.

b. Meals that may be eligible for purchase with food coupons shall not be exempt from sales tax. This shall include carryout plate lunches that are served with articles of tableware. Tableware shall include dishes, glasses, and silverware and includes paper or plastic tableware.

20.5(2) *On or after July 1, 1985.* Sales of prepared food are taxable in three situations: All food, food products, and drinks prepared for consumption on the premises of the retailer; all foods and drinks sold by caterers; all food, food products, and drinks prepared by the retailer for immediate consumption off the premises of the retailer. Sales of prepared foods may be taxed under any of the three situations. Examples given in this subrule are meant to illustrate the application of the subrules to the facts described.

a. On-premises consumption. Sales of food products and food and drinks prepared by the retailer or others on or off the premises of the retailer for consumption on the premises of the retailer are taxable. If the food is sold for consumption on the premises of the retailer, the food is presumed to have been consumed on the premises of the retailer.

“Premises of the retailer” means the total space and facilities under control of the retailer, including buildings, grounds, and parking lots that are made available or that are available for use by the retailer, for the purpose of sale of prepared food and drink or for the purpose of consumption of prepared food and drink sold by the retailer.

Availability of self-service heating or other preparation facilities or eating facilities such as tables and chairs and knives, forks, and spoons, indicates that food, food products, and drinks are sold for consumption on the premises of the retailer and are subject to tax unless sales of prepared food are clearly identifiable as being for consumption off of the premises of the retailer in which case the sale may be taxable under 20.5(2)“c.”

Types of retailers that are generally considered to be offering food for consumption on the premises include restaurants, coffee shops, cafeterias, snack shops, and concession stands including those at recreation and entertainment facilities. Other retailers that often offer food for on-premises consumption include vending machines and mobile vendors.

Separate eating facilities need not be provided for the sale of prepared food and drink to be for consumption on the premises of the retailer if the retailer operates vending machines, mobile vendors, snack shops, or concessions and on the same premises operates facilities for such activities as recreation, entertainment, education, office work, or manufacturing.

The following examples are intended to show some of the situations in which sales are taxable as food and drink prepared for consumption on the premises of the retailer.

EXAMPLE A. A movie theater owner operates a movie theater and a concession stand in the lobby of the theater. There is not a separate area set aside for eating facilities. Sales of prepared food and drink through the concession stand are taxable as sales for consumption on the premises of the retailer.

EXAMPLE B. As a convenience to employees, a manufacturer owns and operates several food and drink vending machines located on the premises of the plant. No separate seating or other facilities for eating are provided. Sales of prepared food and drink through the vending machines are taxable as sales for consumption on the premises of the retailer.

EXAMPLE C. Mobile vendor units located throughout an office are operated by the owner of the business and are stocked with snack food priced to cover the cost of the items to the employer. No separate eating facilities are provided. Sales of prepared food through the mobile vendors are taxable as sales for consumption on the premises of the retailer.

EXAMPLE D. A bakery with seating provided for eating offers baked goods prepared by the bakery for consumption on the premises and for take-out. Baked goods are neither hot nor cold. Baked goods

as well as other prepared food and drink sold for consumption on the premises are taxable. However, the baked goods sold by this bakery on a take-out basis are not taxable because they are sold neither hot nor cold.

EXAMPLE E. A separate area in an office building is set aside for vending machines with seating facilities for eating provided. The seating area and the vending machines are maintained and operated under contract by a vending company. In this case, sales of prepared food and drink through the vending machines are taxable as sales for consumption on the premises of the retailer.

b. Catered food. All sales of food, food products, and drinks on a catered basis are subject to tax.

c. Off-premises consumption. When a sale of prepared food is clearly identifiable as being for consumption off of the premises, the sale is taxable if the food is:

- (1) Hot or cold,
- (2) Prepared by the retailer, and
- (3) For immediate consumption.

“Hot or cold” means that the food is intentionally sold in a heated or cooled state. Food that is not heated or cooled is taxable if sold in combination with other heated or cooled food on a nonitemized basis. Availability of self-service heating facilities indicates intent to sell food in a heated state whether or not the food is actually heated at the time of sale.

Preparation by the retailer for immediate consumption includes, but is not limited to: cooking, mixing, sandwich making, blending, heating, or pouring. Preparation by the retailer includes customer utilization of on-premises facilities for the purpose of preparing food for immediate consumption. The division of food and drink into smaller portions is not by itself preparation by the retailer for immediate consumption off of the premises of the retailer. Food prepared for immediate consumption is food prepared to a point generally accepted as ready to be eaten without further preparation and that is sold in a manner that suggests readiness for immediate consumption. Actual immediate consumption of the food is not necessary for the sale to be taxable if the food has been prepared for immediate consumption.

Sales of foods that are often for immediate consumption off of the premises of the retailer include: delicatessen, ice cream, popcorn, and vending machine.

If a vendor does not provide seating or other eating facilities, sales of prepared food and drink by the vendor by such means as vendor-owned vending machines or mobile vendors or from snack shops or concession stands are usually for consumption off of the premises of the retailer. However, if a vendor sells prepared food at retail food establishments without separate seating or eating facilities and on the same premises operates facilities for such activities as recreation, entertainment, education, office work, or manufacturing, then the sales of prepared food can be taxable under 20.5(2) “a” depending on the type of the item sold.

The following examples are intended to show some of the situations in which sales are taxable as hot or cold food and drink prepared by the retailer for immediate consumption off of the premises of the retailer.

EXAMPLE A. The owner of a sports stadium leases concession stands at the stadium to a company that operates the stands during events at the stadium. The concession operator prepares and heats sandwiches and sells other food and drink prepared and packaged by others. No separate eating facilities are provided. All sales by the concessionaire are for immediate consumption off of the premises of the retailer. Therefore, only the sales of candy, candy-coated items, taxable beverages, as well as sandwiches and other food prepared by the retailer that are sold hot or cold are taxable.

EXAMPLE B. A convenience store without separate eating facilities sells sandwiches prepared and packaged by a wholesale distributor. Microwave ovens are available for heating the sandwiches. No separate eating facilities are available. Sales of these sandwiches are not taxable because the sandwiches are not for consumption on the premises of the retailer and because the sandwiches were not prepared by the retailer.

EXAMPLE C. An area in an office building is set aside by the owner of the building for food and drink vending machines. Separate eating facilities are provided by the owner of the building. Vending machines and accompanying microwave ovens located in the area are owned and operated by a vending service under contract with the owner of the building. The retailer prepares none of the food placed in

the machines. The vending service is the retailer. Sales of food and drink through the vending machines are for immediate consumption off of the premises of the retailer. Thus, sales of food and drink through the vending machines are not taxable unless the sales involve candy, candy-coated items, or taxable beverages.

d. Sales of food and beverages for human consumption by certain nonprofit organizations. Sales of food and beverages made by certain organizations are exempt. Retroactively to July 1, 1988, the gross receipts from sales of food and beverages for human consumption by organizations are exempt from sales tax if the organization is nonprofit, principally promotes a food or beverage product for human consumption that is produced, grown, or raised in Iowa, and is exempt from federal income tax under Section 501(c) of the Internal Revenue Code. Refunds are allowed for tax, penalty, and interest paid by such organizations on sales made between July 1, 1988, and June 30, 1998. For details, examples, and requirements on claiming a refund, see 701—17.32(422).

This rule is intended to implement Iowa Code Supplement section 422.45 as amended by 1998 Iowa Acts, chapter 1091.

701—20.6(422,423) Vending machines. Before July 1, 1985, any food item which is sold through a vending machine shall not be exempt from sales tax. On or after July 1, 1985, prepared food and drinks sold through vending machines will be taxable either if sold for consumption on the premises of the retailer under 20.5(2)“a” or if prepared by the retailer for immediate consumption off of the premises of the retailer under 20.5(2)“c.” Candy, candy-coated items, candy products, and beverages described in subrule 20.1(3) are taxable when sold through vending machines.

This rule is intended to implement Iowa Code section 422.45.

701—20.7(422,423) Prescription drugs and devices. Sales of prescription drugs and devices as defined in 20.7(1) and dispensed for human use or consumption in accordance with 20.7(2) and 20.7(3) shall be exempt from sales tax. On and after July 1, 1992, rentals of prescription devices as defined in subrule 20.7(1) below are exempt from service tax. Gross receipts from the sales of oxygen prescribed by a licensed physician or surgeon, osteopath, or osteopathic physician or surgeon for human use or consumption are exempt from tax. On and after July 1, 1992, gross receipts from the sales of any oxygen purchased for human use or consumption (whether prescribed or not) are exempt from tax.

20.7(1) Definitions of “prescription drug” for two periods of time.

a. For sales occurring between July 1, 1987, and June 30, 1993, a “prescription drug” is any of the following:

(1) A substance for which federal or state law requires a prescription before it may be legally dispensed to the public,

(2) A drug or device that under federal law is required prior to being dispensed or delivered to be labeled with the following statement: “Caution: Federal law prohibits dispensing without a prescription”, or

(3) A drug or device that is required by any applicable federal or state law or regulation to be dispensed on prescription only, or is restricted to use by a practitioner only.

b. For sales or rentals occurring on and after July 1, 1993, a “prescription drug” and “medical device” are defined as follows:

(1) A “medical device” means equipment or supplies, including orthopedic or orthotic devices, intended to be prescribed by a practitioner for human use to an ultimate user.

(2) A “prescription drug” is a drug intended to be dispensed for human consumption to an ultimate user pursuant to a prescription or medication order from a practitioner.

(3) An “ultimate user” is any individual who has lawfully obtained and possesses a prescription drug or medical device for the individual’s own use or for the use of a member of the individual’s household, or an individual to whom a prescription drug or medical device has been lawfully supplied, administered, dispensed or prescribed. The phrase does not include any entity created by law, such as a corporation or partnership.

On and after July 1, 1993, the sale or rental of a medical device or a prescription drug is exempt from tax only if the device or drug is intended to be prescribed or dispensed to an ultimate user. A drug or device is intended to be prescribed or dispensed to an ultimate user only if the drug or device is obtained by or supplied or administered to an ultimate user for placement on or in the ultimate user's body.

EXAMPLE A: A sports medicine clinic purchases a new type of device which scans the inside of the human body to disclose injured soft tissue. The device can be used only on the order of a practitioner. The device is prescribed, but since, by its very nature, the device cannot be dispensed to an ultimate user, its sale is not exempt from tax.

EXAMPLE B: Pursuant to a practitioner's prescription, a pacemaker is inserted in a patient's body. The pacemaker is dispensed to an ultimate user and its sale is exempt from tax.

EXAMPLE C: A physician prescribes a tranquilizer for a patient who is chronically nervous. The patient uses the prescription to purchase the tranquilizer at a pharmacy. The purchase is exempt from tax.

For purposes of this subrule, any medical device or drug prescribed in writing by a licensed physician, surgeon, osteopath, osteopathic physician or surgeon, or other person authorized by law to an ultimate user for human use or consumption, shall be deemed a device or drug exempt from tax if a prescription is required or permitted under Iowa state or federal law.

EXAMPLE A: A common painkiller is sold over the counter in doses of 200 milligrams per tablet. In doses of 600 milligrams per tablet, federal law requires a prescription before the drug can be dispensed. Sales of 600 milligram tablets by prescription are exempt from tax.

EXAMPLE B: A federal law permits but does not require the painkiller mentioned in Example A to be prescribed by a practitioner in dosages of 200 milligrams per tablet. A practitioner might prescribe the painkiller in the over-the-counter dosage, for example, to impress upon a patient the importance of taking the drug. Sales of 200 milligram tablets by prescription are exempt from tax.

See rules 20.8(422,423), 20.9(422,423) and 20.10(422,423) for examples of medical devices sold without a prescription but exempt from tax.

20.7(2) *Persons authorized to dispense prescription drugs or prescription devices.* In order for a prescription drug or device to qualify for an exemption, it must be dispensed by one of the following persons:

- a. Any store or other place of business where prescription drugs are compounded, dispensed or sold by a person holding a license to practice pharmacy in Iowa, and where prescription orders for prescription drugs or devices are received or processed in accordance with pharmacy laws.
- b. Persons licensed by the state board of medical examiners to practice medicine or surgery in Iowa.
- c. Persons licensed by the state board of medical examiners to practice osteopathic medicine or surgery in Iowa.
- d. Persons licensed by the state board of podiatry to engage in the practice of podiatry in Iowa.
- e. Persons licensed by the state board of dentistry to practice dentistry in Iowa.
- f. Persons licensed prior to May 10, 1963, to practice osteopathy in Iowa.
- g. Persons licensed by the optometry examiners as therapeutically certified optometrists.
- h. Persons licensed by the board of chiropractic examiners to practice chiropractic in Iowa when dispensing in accordance with Iowa Code chapter 151.
- i. Any other person authorized under Iowa law to dispense prescription drugs or devices in this state.
- j. Any person licensed in another state in a health field in which, under Iowa law, licensees in this state may legally prescribe drugs or devices.

20.7(3) *Disposition of prescription drugs and devices.* Prescription drugs or devices may be dispensed either directly from one of the persons licensed in 20.7(2) who may also prescribe drugs or devices or by a pharmacist upon receipt of a prescription from one of the persons licensed to prescribe. A prescription received by a licensed pharmacist from one of the persons licensed in 20.7(2) who may also prescribe drugs or devices shall be sufficient evidence that a drug or device is exempt from sales tax. When a person who prescribes a drug or device is also the dispenser, the drug or device will not

require a prescription by such person but the drug or device must be recorded as if a prescription would have been issued or required. If this condition is met, the gross receipts from the sale of the drug or device shall be exempt from sales tax.

20.7(4) Others required to collect sales tax. Any person other than those who are allowed to dispense drugs or devices under 20.7(2) shall be required to collect sales tax on any prescription drugs or devices.

20.7(5) Prescription drugs and devices purchased by hospitals for resale. This subrule is applicable to both nonprofit and for-profit hospitals for periods prior to July 1, 1998. On and after that date the subrule applies to for-profit hospitals only. Hospitals have purchased prescription drugs or devices for resale to patients and not for use or consumption in providing hospital services only if the following circumstances exist: (1) the drug or device is actually transferred to the patient; (2) the drug or device is transferred in a form or quantity capable of a fixed or definite price value; (3) the hospital and the patient intend the transfer to be a sale; and (4) the sale is evidenced in the patient's bill by a separate charge for the identifiable drug or device. See rule 701—18.31(422,423) for a discussion generally of sales for resale by persons performing a service. Also see rule 701—18.59(422,423) for the exemption applicable to all purchases of goods and services purchased on or after July 1, 1998, by a nonprofit hospital licensed under Iowa Code chapter 135B.

EXAMPLE A: A hospital purchases a bone saw blade and uses the blade to cut the bone of patient X during hip replacement surgery. This dulls the blade to the point that the blade cannot be used again and is discarded. The hospital bills patient X for "one bone saw blade—\$30.00". In spite of the separate charge for an identifiable piece of property, the hospital did not purchase the bone saw blade for resale. The blade was used up by the hospital, not transferred to the ownership of X. Since there was no transfer, there was no sale, thus no purchase for resale.

EXAMPLE B: A hospital buys lotion for use in massages given to patients by nurses aides. In spite of the fact that one can argue that a transfer of ownership of the lotion from hospital to patient occurred, the lotion was not purchased for resale. No real intent to sell the lotion to patients ever existed; the lotion was not transferred to patients in a quantity capable of a definite price value; and there is no separate charge for the lotion.

A hospital's purchase of a prescription drug or device for purposes other than resale will still be exempt from tax if a device or drug is intended to be prescribed to an ultimate user and the hospital's use of the drug or device is otherwise exempt under 20.7(1).

This rule is intended to implement Iowa Code section 422.45.

701—20.8(422,423) Exempt sales of nonprescription medical devices, other than prosthetic devices. A prescription is not required for sales of the medical devices mentioned in subrule 20.8(1) to be exempt from tax if those devices are purchased for human use or consumption.

20.8(1) Definitions.

"*Anesthesia trays*" includes, without limit, paracervical anesthesia trays, saddle block anesthesia trays, spinal anesthesia trays, and continuous epidural anesthesia trays.

"*Biopsy*" means the removal and examination of tissue from a living body, performed to establish a precise diagnosis.

"*Biopsy needles*" includes, without limit, needles used to perform liver, kidney, other soft tissue, bone, and bone marrow biopsies. Menghini technique aspirating needles, rosenthal-type needles, and "J" Jamshidi needles are all examples of biopsy needles.

"*Cannula*" means a tube inserted into a body duct or cavity to drain fluid, insert medication including oxygen, or to open an air passage. Examples are lariat nasal cannulas and ableson cricothyrotomy cannula.

"*Catheter*" means a tubular, flexible, surgical instrument used to withdraw fluids from or introduce fluids into a body cavity, or for making examinations. Examples are: robinson/nelaton catheters, all types of foley catheters (e.g., pediatric and irrigating), three-way catheters, suction catheters, IV catheters, angiocath catheters and male and female catheters.

"*Catheter trays.*" Universal foley catheter trays, economy foley trays, urethral catheterization trays and catheter trays with domed covers are nonexclusive examples of these trays.

“Diabetic testing materials” means all materials used in testing for sugar or acetone in the urine, including, but not limited to, Clinitest, Tes-tape, and Clinistix; also, all materials used in monitoring the glucose level in the blood, including, but not limited to, bloodletting supplies and test strips.

“Drug infusion device” means a device designed for the slow introduction of a drug solution into the human body. The term includes devices which infuse by means of pumps or gravity flow (drip infusion).

“Fistula” means an abnormal passage usually between the internal organs or between an internal organ and the surface of the body.

“Hypodermic syringe” means an instrument for applying or administering liquid into any vessel or cavity beneath the skin. This includes the needle portion of the syringe if it accompanies the syringe at the time of purchase, and it also includes replacement needles.

“Insulin” means a preparation of the active principle of the pancreas, used therapeutically in diabetes and sometimes in other conditions.

“Intraocular lens” means a lens located inside the eye.

“Kit” means a combination of medical equipment and supplies used to perform one particular medical procedure which is packaged and sold as a single item.

“Medical device,” for the purposes of this rule, means medical equipment or supplies intended to be dispensed for human use with or without a prescription to an ultimate user.

“Myelogram” means a radiographic picture of the spinal cord. A “radiographic” picture is one taken using radiation other than visible light.

“Nebulizer” means a mechanical device which converts a liquid to a spray or fog.

“Oxygen equipment” means all equipment used to deliver medicinal oxygen including, but not limited to, face masks, humidifiers, cannula, tubing, mouthpieces, tracheotomy masks or collars, regulators, oxygen concentrators and oxygen accessory racks or stands.

“Set.” See “Kit” above.

“Tray.” See “Kit” above.

20.8(2) Sales of the following medical devices are exempt from tax. If a medical device is of such a type that it can be rented as well as sold, the rental of that device is exempt as of the date that the sale of that device is exempt, except as set out in “b” below.

a. Insulin, hypodermic syringes, and diabetic testing materials.

b. As of July 1, 1992, sales of oxygen equipment; as of July 1, 1993, the rental of oxygen equipment.

c. Effective July 1, 1994, and retroactive to July 1, 1993, sales of hypodermic needles, anesthesia trays, biopsy trays and needles, cannula systems, catheter trays, invasive catheters, dialyzers, drug infusion devices, fistula sets, hemodialysis devices, insulin infusion devices, intraocular lenses, irrigation solutions, intravenous administering sets, solutions and stopcocks, myelogram trays, nebulizers, small vein infusion kits, spinal puncture trays, transfusion sets and venous blood sets are no longer taxable.

20.8(3) Component parts. Sales of any component parts of the trays, systems, devices, sets, or kits listed above are taxable unless the sale of a component part, standing alone, is otherwise exempt under these rules. For instance, the sale of a biopsy needle or an invasive catheter would be exempt from tax whether or not it was purchased for use as a component part in a biopsy tray or catheter tray, so long as the needle or catheter will be dispensed for human use to an ultimate user. Conversely, sales of catheter introducers, disposable latex gloves, rayon balls, forceps, and specimen bottles are exempt when those items are sold as part of a catheter tray, but are not exempt when those items are sold individually.

20.8(4) Sales of the medical devices mentioned in this rule may be exempt for periods other than those set out in this rule. For instance, a medical device might be prescribed by a practitioner or its sale or rental might be “covered” by Medicare or Medicaid. See subrule 20.7(1) and rule 20.10(422,423) for more information.

This rule is intended to implement Iowa Code section 422.45.

701—20.9(422,423) Prosthetic, orthotic and orthopedic devices.

20.9(1) Prosthetic devices. Sales or rental of prosthetic devices shall be exempt from sales tax. This rule is applicable to sales or rental of prosthetic devices made on or after April 1, 1988.

20.9(2) Orthotic and orthopedic devices. Sales or rental of orthotic and orthopedic devices prescribed for human use which meet the provisions of subrules 20.9(3) and 20.9(4) shall be exempt from sales tax. This rule is applicable to sales or rental of orthotic and orthopedic devices made on or after April 1, 1988.

20.9(3) Definitions.

a. “Prosthetic device” means a piece of special equipment designed to be a replacement or artificial substitute for an absent or missing part of the human body and intended to be dispensed with or without a prescription to an ultimate user. See subrule 20.7(1), paragraph “b,” for a definition and examples of the term “ultimate user.” The term “prosthetic device” includes ostomy, urological, and tracheostomy devices and supplies.

The following is a nonexclusive list of prosthetic devices:

Artificial arteries	Drainage bags	Prescription eyeglasses
Artificial breasts	Hearing aids	Stoma bags
Artificial ears	Ileostomy devices	Tracheal suction catheters
Artificial eyes	Intraocular lenses	Tracheostomy care and cleaning starter kits
Artificial heart valves	Karaya paste	Tracheostomy cleaning brushes
Artificial implants	Karaya seals	Tracheostomy tubes
Artificial larynx	Organ implants	Urinary catheters
Artificial limbs	Ostomy belts	Urinary drainage bags
Artificial noses	Ostomy clamps	Urinary irrigation tubing
Artificial teeth	Ostomy cleaners and deodorizers	Urinary pouches
Cardiac pacemakers	Ostomy pouch	
Contact lenses	Ostomy stoma caps and paste	
Cosmetic gloves	Penile implants	
Dental bridges and implants		

b. “Orthotic device” means a piece of special equipment designed to straighten a deformed or distorted part of the human body, such as corrective shoes or braces. An orthotic device is an orthopedic device.

c. “Orthopedic device” means a piece of special equipment designed to correct deformities or to preserve and restore the function of the human skeletal system, its articulations and associated structures. A hot tub or spa is not an orthopedic device.

The following is a nonexclusive list of orthopedic devices:

Abdominal belts	Clavicle splints	Nerve stimulators
Alternating pressure mattresses	Corrective braces	Orthopedic implants
Alternating pressure pads	Corrective shoes	Orthopedic shoes
Anti-embolism stockings	Crutch cushions	Patient lifts
Arch supports	Crutch handgrips	Plaster (surgical)
Arm slings	Crutch tips	Rib belts
Artificial sheepskin	Crutches	Rupture belts
Bone cement	Decubitus prevention devices	Sacroiliac supports
Bone nails	Dorsolumbar belts	Sacrolumbar belts
Bone pins	Dorsolumbar supports	Sacrolumbar supports
Bone plates	Elastic bandages	Shoulder immobilizers

Bone screws	Elastic supports	Space shoes
Bone wax	Exercise devices	Splints
Braces	Head halters	Traction equipment
Canes	Hernia belts	Transcutaneous electrical nerve stimulators (tens unit)
Casts	Iliac belts	Trapezes
Cast heels	Invalid rings	Trusses
Cervical braces	Knee immobilizers	Walkers
Cervical collars	Lumbosacral supports	Wheelchairs
Cervical pillows	Muscle stimulators	

d. "Related devices." Sales or rental of devices which are used exclusively in conjunction with prosthetic, orthotic, or orthopedic devices shall be exempt from tax. *Daw Industries, Inc. v. United States*, 714 F.2d 1140 (Fed. Cir. 1983).

e. "Medical equipment and supplies." The scope of the term medical equipment and supplies is broader than the terms prescription drugs or medical devices. While all exempt prescription drugs are medical supplies and all exempt medical devices are medical equipment, not all medical equipment and supplies are exempt medical devices or prescription drugs. The following is a nonexclusive list of items which are medical equipment or supplies, but are not prescription drugs or medical devices exempt from tax under subrules 20.7(1), 20.9(1), 20.9(2), and rule 20.8(422,423). Sales of the below-listed items would generally be taxable. However, for the period between July 1, 1992, and June 30, 1993, sales of the listed items would be exempt from tax if covered by Title XVIII or XIX of the federal Social Security Act. See rule 20.10(422,423).

Adhesive bandages	*Drug infusion devices (other than hypodermic syringes)	*Nebulizers
*Anesthesia trays	Dry aid kits for ears	*Needles (hypodermic)
Aneurysm clips	EKG paper	Overbed tables
Arterial bloodsets	Earmolds	Page turning devices
Aspirators	Electrodes (other than tens units)	Pap smear kits
Athletic supporters	Emesis basins	Paraffin baths
Atomizers	Enema units	Physicians instruments
Autolit	First-aid kits	Pigskin
Back cushions	*Fistula sets	Plasma extractors
Bathing aids	Foam slant pillows	Plasmapheresis units
Bathing caps	Gauze bandages	Plastic heat sealers
Bedpans	Gauze packings	Prescribed device repair kits and batteries
Bedside rails	Gavage containers	Respirators
Bedside tables	Geriatric chairs	Resuscitators
Bedside trays	Grooming aids	Sauna baths
Bedwetting prevention devices	Hand sealers	Security pouches
Belt vibrators	Hearing aid carriers	Servipak dialysis supplies
*Biopsy needles	Hearing aid repair kits	Shelf trays
*Biopsy trays	Heart stimulators	Shower chairs
*Blood administering sets	Heat lamps	Side rails
Blood cell washing equipment	Heat pads	Sitz bath kit
Blood pack holders	*Hemodialysis devices	
Blood pack trays		

Blood pack units	Hemolators	*Small-vein infusion kits
Blood pressure meters	Hospital beds	Specimen containers
Blood processing supplies	Hot water bottles	*Spinal puncture trays
Blood tubing	Ice bags	Sponges (surgical)
Blood warmers	Ident-a-bands	Stairway elevators
		Staples
Breast pumps	Incontinent garments	Steri-peel
Breathing machines	Incubators	Stools
*Cannula systems	Infrared lamps	*Stopcocks
Cardiac electrodes	Inhalators	(intravenous)
Cardiopulmonary equipment	*Insulin infusion devices	Suction equipment
*Catheter trays	Iron lungs	Sunlamps
Chair lifts	Irrigation apparatus	Surgical bandages
Clamps	*Irrigation solutions	Surgical equipment
Clip-on ash trays	*IV administering sets	Suspensories
Commode chairs	IV connectors	Sutures
Connectors	*IV solutions	Thermometers
Contact lens cases	*IV tubing	Toilet aids
Contact lens solution	*Kidney dialysis machines	Tourniquets
Convuluted pads	Laminar flow equipment	Transfer boards
Corrective pessaries	Latex gloves	*Transfusion sets
Cotton balls	Leukopheresis pumps	Tube sealers
Diagnostic kits	Lymphedema pumps	Underpads
Dialysis chairs	Manometer trays	Urinals
Dialysis supplies	Massagers	Vacutainers
*Dialyzers	Maternity belts	Vacuum units
Dietetic scales	Medigrade tubing	Vaporizers
Disposable diapers	Modulung oxygenators	*Venous blood sets
Disposable gloves	Moist heat pads	Vibrators
Disposable underpads	*Myelogram trays	Whirlpools
Donor chairs	Myringotomy tubes	X-ray film
Dressings		

*Sales of these medical devices are exempt as of July 1, 1993.

20.9(4) *“Prescribed”* shall mean a written prescription or an oral prescription, later reduced to writing, issued by:

- a. Persons licensed by the state board of medical examiners to practice medicine or surgery in Iowa.
- b. Persons licensed by the state board of medical examiners to practice osteopathic medicine or surgery in Iowa.
- c. Persons licensed by the state board of podiatry to engage in the practice of podiatry in Iowa.
- d. Persons licensed by the state board of dentistry to practice dentistry in Iowa.
- e. Persons licensed prior to May 10, 1963, to practice osteopathy in Iowa.
- f. Persons licensed by the optometry examiners as therapeutically certified optometrists.
- g. Persons licensed by the board of chiropractic examiners to practice chiropractic in Iowa when dispensing in accordance with Iowa Code chapter 151.

h. Any other person authorized under Iowa law to dispense prescription drugs or medical devices requiring a prescription.

i. Any person licensed in another state in a health field in which, under Iowa law, licensees in this state may legally prescribe drugs.

20.9(5) Power devices. Sales or rental of power devices especially designed to operate prosthetic, orthotic or orthopedic devices shall be exempt from tax. This exemption does not include batteries which can be used to operate a number of devices.

This rule is intended to implement Iowa Code sections 422.45(15) and 423.4(4).

701—20.10(422,423) Sales and rentals covered by Medicaid and Medicare. Between July 1, 1992, and June 30, 1993, gross receipts from the sale or rental of drugs, devices, equipment and supplies (“medications”) which are covered by Title XVIII (Medicare) or Title XIX (Medicaid) of the federal Social Security Act are exempt from tax.

A “covered sale or rental” is one for which any portion of the cost of medications is paid by the state of Iowa or the federal government as required by the Medicaid or Medicare programs. A sale or rental is “covered” even if a user of medications is required to pay a certain percentage or fixed amount of its cost. Covered sales or rentals include those for which a user of medications is reimbursed the cost of a purchase or rental; or sales or rentals for which any portion of the cost is paid by any private insurance company administering the Medicaid or Medicare programs on behalf of the state of Iowa or the federal government. The direct purchase or rental of any medications by the state of Iowa or the federal government is exempt from tax under existing law, and this rule is not applicable to it.

For an extensive list of medications, the purchase or rental of which is covered by Medicaid, see 441—Chapter 78, Iowa Administrative Code.

701—20.11(422,423) Reporting. Retailers are required to keep records of and report the actual total gross sales for each filing or reporting period. A deduction may be taken for all tax-exempt sales but a record must be kept to substantiate all deductions taken.

Certain retailers finding it difficult to maintain detailed records of their taxable and nontaxable retail sales may alleviate this difficulty by the use of a formula method which will reasonably approximate the actual taxable receipts.

Written approval must be obtained from the audit and compliance division of the department to use a formula method. If a retailer requests an alternate formula, the retailer shall first list the reasons why an alternate formula is necessary and, secondly, shall outline the proposed formula in detail. If approval is given, the department reserves the right to withdraw or require an update in procedure at any time.

The use of the formula is an authorization for reporting the most accurate amount of taxable and nontaxable gross receipts but the retailer shall be responsible for the actual tax liability. Additional assessments may be made if an audit discloses the formula is not producing the proper tax payments.

701—20.12(422,423) Exempt sales of clothing and footwear during two-day period in August. Tax is not due on the sale or use of a qualifying article of clothing or footwear if the sales price of the article is less than \$100 and the sale takes place during a period beginning at 12:01 a.m. on the first Friday in August and ending at 12 midnight of the following Saturday. For example, in the year 2000, this period begins at 12:01 a.m. on Friday, August 4, and ends at 12 midnight on Saturday, August 5. Eligible purchases of clothing and footwear are exempt from local option sales taxes as well as Iowa state sales tax.

20.12(1) Definitions. The following words and terms, when used in this rule, shall have the following meanings, unless the context clearly indicates otherwise.

“*Accessories*” include but are not limited to jewelry, handbags, purses, briefcases, luggage, wallets, watches, cufflinks, tie tacks and similar items carried on or about the human body, without regard to whether worn on the body in a manner characteristic of clothing.

“*Clothing or footwear*” means an article of wearing apparel designed to be worn on or about the human body. For the purposes of this rule, the term does not include accessories or special clothing or footwear or articles of wearing apparel designed to be worn by animals.

“*Special clothing or footwear*” is clothing or footwear primarily designed for athletic activity or protective use and which is not normally worn except when used for the athletic activity or protective use for which it is designed.

20.12(2) Exempt sales. The exemption applies to each article of clothing or footwear selling for less than \$100, regardless of how many items are sold on the same invoice to a customer. For example, if a customer purchases two shirts for \$80 each, both items qualify for the exemption even though the customer’s total purchase price (\$160) exceeds \$99.99. The exemption does not apply to the first \$99.99 of an article of clothing or footwear selling for more than \$99.99. For example, if a customer purchases a pair of pants costing \$110, sales tax is due on the entire \$110.

20.12(3) Taxable sales. This exemption does not apply to sales of the following goods or services:

a. Any special clothing or footwear that is primarily designed for athletic activity or protective use and that is not normally worn except when used for the athletic activity or protective use for which it is designed. For example, golf cleats and football pads are primarily designed for athletic activity or protective use and are not normally worn except when used for those purposes; therefore, they do not qualify for the exemption. However, tennis shoes, jogging suits, and swimsuits are commonly worn for purposes other than athletic activity and qualify for the exemption.

b. Accessories, including jewelry, handbags, purses, briefcases, luggage, umbrellas, wallets, watches, and similar items carried on or about the human body, without regard to whether they are worn on the body in a manner characteristic of clothing.

c. The rental of any clothing or footwear. For example, this exemption does not apply to rentals of formal wear, costumes, diapers, and bridal gowns, but would apply to sales of the above items.

d. Taxable services performed on the clothing or footwear, such as garment and shoe repair, dry cleaning or laundering, and alteration services. Sales tax is due on alterations to clothing, even though the alteration service may be performed, invoiced and paid for at the same time as the clothing is being purchased. If a customer purchases a pair of pants for \$90 and pays \$15 to have the pants cuffed, the \$90 charge for the pants is exempt, but tax is due on the \$15 alteration charge.

e. Purchases of items used to make, alter, or repair clothing or footwear, including fabric, thread, yarn, buttons, snaps, hooks, belt buckles, and zippers.

20.12(4) Special situations.

a. *Articles normally sold as a unit.* Articles that are normally sold as a unit must continue to be sold in that manner if the exemption is to apply; they cannot be priced separately and sold as individual items in order to obtain the exemption. For example, if a pair of shoes sells for \$150, the pair cannot be split in order to sell each shoe for \$75 to qualify for the exemption. If a suit is normally priced at \$225 and sold as a unit on a single price tag, the suit cannot be split into separate articles so that any of the components may be sold for less than \$100 in order to qualify for the exemption. However, components that are normally priced as separate articles (e.g., slacks and sport coats, and suit coats and suit pants sold separately prior to the two-day period) may continue to be sold as separate articles and qualify for the exemption if the price of an article is less than \$100.

b. *Sales of exempt clothing combined with gifts of taxable merchandise.* When exempt clothing is sold in a set that also contains taxable merchandise as a free gift and no additional charge is made for the gift, the exempt clothing may qualify for this exemption. For example, a boxed set may contain a tie and a free tie tack. If the price of the set is the same as the price of the tie sold separately, the item being sold is the tie, which is exempt from tax if sold for less than \$100 during the exemption period.

c. *Layaway sales.* A layaway sale is a transaction in which merchandise is set aside for future delivery to a customer who makes a deposit, agrees to pay the balance of the purchase price over a period of time and, at the end of the payment period, receives the merchandise. Under Iowa sales tax law, a sale of tangible personal property occurs when a purchaser takes delivery of tangible personal property in return for a consideration. Therefore, if a customer takes delivery of qualifying clothing or

footwear during the exemption period (usually by taking possession of it; see rule 701—16.22(422,423) for general information on layaway sales) that sale of eligible clothing will qualify for the exemption.

20.12(5) *Calculating taxable and exempt gross receipts—discounts, coupons, buying at a reduced price, and rebates.*

a. Discounts. A discount allowed by a retailer and taken on a taxable sale can be used to reduce the sales price of an item. If the discount reduces the sales price of an item to \$99.99 or less, the item may qualify for the exemption. For example, a customer buys a \$150 dress and a \$100 blouse from a retailer offering a 10 percent discount. After applying the 10 percent discount, the final sales price of the dress is \$135, and the blouse is \$90. The dress is taxable (it is over \$99.99), and the blouse is exempt (it is less than \$99.99). See rule 701—15.6(422,423) for a definition of the word “discount” and a description of which retailers’ reductions in price are discounts which reduce the taxable sales prices of items and which are not.

b. Coupons. When a coupon is issued by a retailer and is actually used to reduce the sales price of any taxable item, the value of the coupon is excludable from the tax as a discount, regardless of whether the retailer is reimbursed for the amount represented by the coupon. Therefore, a retailer’s coupon can be used to reduce the sales price of an item to \$99.99 or less in order to qualify for the exemption. For example, if a customer purchases a pair of shoes priced at \$110 with a coupon worth \$20 off, the final sales price of the shoes is \$90, and the shoes qualify for the exemption. A manufacturer’s coupon cannot be used to reduce the sales price of an item. See 701—subrule 15.6(3).

c. Buy one, get one free or for a reduced price or “two for the price of one” sales. The total price of items advertised as “buy one, get one free,” or “buy one, get one for a reduced price,” or “two for the price of one” cannot be averaged in order for both items to qualify for the exemption. The following examples illustrate how such sales should be handled.

EXAMPLE 1. A retailer advertises pants as “buy one, get one free.” The first pair of pants is priced at \$120; the second pair of pants is free. Tax is due on \$120. Having advertised that the second pair is free, the store cannot ring up each pair of pants for \$60 in order for the items to qualify for the exemption. However, if the retailer advertises and sells the pants for 50 percent off, selling each pair of \$120 pants for \$60, each pair of pants qualifies for the exemption.

EXAMPLE 2. A retailer advertises shoes as “buy one pair at the regular price, get a second pair for half price.” The first pair of shoes is sold for \$100; the second pair is sold for \$50 (half price). Tax is due on the \$100 shoes, but not on the \$50 shoes. Having advertised that the second pair is half price, the store cannot ring up each pair of shoes for \$75 in order for the items to qualify for the exemption. However, if the retailer advertises the shoes for 25 percent off, thereby selling each pair of \$100 shoes for \$75, each pair of shoes qualifies for the exemption.

EXAMPLE 3. A retailer advertises shirts as “buy two for the price of one” for \$140. Tax is due on \$140. Each shirt cannot be rung up as costing \$70. However, as described in examples 1 and 2 above, the \$140 cost of each shirt can be discounted to bring the price of each shirt within the exemption’s limitation.

d. Rebates. Rebates occur after the sale and do not affect the sales price of an item purchased. For example, a customer purchases a sweater for \$110 and receives a \$12 rebate from the manufacturer. The retailer must collect tax on the \$110 sales price of the sweater. See 701—subrule 15.6(2) for additional information regarding rebates.

e. Shipping and handling charges. Shipping charges separately stated and separately contracted for (as explained in rule 701—15.13(422,423)) are not part of the amount used to determine whether the sales price of an item qualifies it for exemption. Handling charges, however, are part of the amount used to make this determination if it is necessary to pay those charges in order to purchase an item.

20.12(6) *Treatment of various transactions associated with sales.*

a. Rain checks. Eligible items purchased during the exemption period using a rain check will qualify for the exemption regardless of when the rain check was issued. However, issuance of a rain check during the exemption period will not qualify an eligible item for the exemption if the item is actually purchased after the exemption period.

b. Exchanges.

(1) If a customer purchases an item of eligible clothing or footwear during the exemption period and later exchanges the item for the same item (different size, different color, etc.), no additional tax will be due even if the exchange is made after the exemption period.

EXAMPLE. A customer purchases a \$35 shirt during the exemption period. After the exemption period ends, the customer exchanges the shirt for the same shirt in a different size. Tax is not due on the \$35 price of the shirt.

(2) If a customer purchases an item of eligible clothing or footwear during the exemption period and after the exemption period has ended returns the item and receives credit on the purchase of a different item, the appropriate sales tax will apply to the sale of the newly purchased item.

EXAMPLE. A customer purchases a \$35 shirt during the exemption period. After the exemption period, the customer exchanges the shirt for a \$35 jacket. Because the jacket was not purchased during the exemption period, tax is due on the \$35 price of the jacket.

(3) If a customer purchases an item of eligible clothing or footwear during the exemption period and later during the exemption period returns the item and purchases a similar but nonexempt item, the purchase of the second item is not exempt from tax.

EXAMPLE. During the exemption period, a customer purchases a \$90 dress that qualifies for the exemption. Later, during the exemption period, the customer exchanges the \$90 dress for a \$150 dress. Tax is due on the \$150 dress. The \$90 credit from the returned item cannot be used to reduce the sales price of the \$150 item to \$60 for exemption purposes.

(4) If a customer purchases an item of eligible clothing or footwear before the exemption period and during the exemption period returns the item and receives credit on the purchase of a different item of eligible clothing or footwear, no sales tax is due on the sale of the new item if it is purchased during the exemption period and otherwise meets the qualifications for exemption.

EXAMPLE. Before the exemption period, a customer purchases a \$60 dress. Later, during the exemption period, the customer exchanges the \$60 dress for a \$95 dress. Tax is not due on the \$95 dress because it was purchased during the exemption period and otherwise meets the qualifications for the exemption.

20.12(7) Nonexclusive list of exempt items. The following is a nonexclusive list of clothing or footwear, sales of which are exempt from tax during the two-day period in August:

Adult diapers	Formal clothing—sold not rented	Raincoats and hats
Aerobic clothing	Fur coats and stoles	Religious clothing
Antique clothing	Galoshes	Riding pants
Aprons—household	Garters and garter belts	Robes
Athletic socks	Girdles	Rubber thongs—“flip-flops”
Baby bibs	Gloves—cloth, dress and leather	Running shoes without cleats
Baby clothes—generally	Golf clothing—caps, dresses, shirts and skirts	Safety shoes (adaptable for street wear)
Baby diapers	Graduation caps and gowns—sold not rented	Sandals
Baseball caps	Gym suits and uniforms	Shawls
Bathing suits	Hats	Shirts
Belts with buckles attached	Hiking boots	Shoe inserts and laces
Blouses	Hooded (sweat) shirts	Stockings
Boots—general purpose	Hosiery, including support hose	Suits
Bow ties	Jackets	Support hose
Bowling shirts	Jeans	Suspenders
Bras	Jerseys for other than athletic wear	Sweatshirts
Bridal apparel—sold not rented	Jogging apparel	Sweatsuits
Camp clothing	Knitted caps or hats	Swim trunks
Caps—sports and others	Lab coats	Tennis dresses
Chefs’ uniforms	Leather clothing	Tennis skirts
Children’s novelty costumes	Leg warmers	Ties
Choir robes	Leotards and tights	Tights
Clerical garments	Lingerie	Trousers
Coats	Men’s formal wear—sold not rented	Tuxedos (except cufflinks)—sold not rented
Corsets	Neckwear, e.g., scarves	Underclothes
Costumes—Halloween, Santa Claus, etc., sold not rented		Underpants
Coveralls		

Cowboy boots	Nightgowns and nightshirts	Undershirts
Diapers—cloth and disposable	Overshoes	Uniforms—generally
Dresses	Pajamas	Veils
Dress gloves	Pants	Vests—general, for wear with suits
Dress shoes	Panty hose	Walking shoes
Ear muffs	Prom dresses	Windbreakers
Employee uniforms other than those primarily designed for athletic activity or protective use	Ponchos	Work clothes

20.12(8) *Nonexclusive list of taxable items.* The following is a nonexclusive list of items, sales of which are taxable during the two-day period in August:

Accessories—generally	Fabric sales	Safety clothing
Alterations of clothing	Fishing boots (waders)	Safety glasses
Athletic supporters	Football pads	Safety shoes—not adaptable for street wear
Backpacks	Football pants	Shoes with cleats or spikes
Ballet shoes	Football shoes	Shoulder pads for dresses and jackets
Barrettes	Goggles	Shower caps
Baseball cleats	Golf gloves	Skates—ice and roller
Baseball gloves	Ice skates	Swim fins, masks and goggles
Belt buckles sold without belts	In-line skates	Ski boots, masks, suits and vests
Belts for weight lifting	Insoles	Special protective clothing or footwear not adaptable for street wear
Belts needing buckles but sold without them	Jewelry	Sports helmets
Bicycle shoes with cleats	Key cases and chains	Sunglasses—except prescription
Billfolds	Knee pads	Sweatbands—arm, wrist and head
Blankets	Laundry services	Tap dance shoes
Boutonnieres	Life jackets and vests	Thread
Bowling shoes—rented and sold	Luggage	Vests—bulletproof
Bracelets	Monogramming services	Weight lifting belts
Buttons	Pads—elbow, knee, and shoulder, football and hockey	Wrist bands
Chest protectors	Patterns	Yard goods
Clothing repair	Protective gloves and masks	Yarn
Coin purses	Purses	Zippers
Corsages	Rental of clothing	
Dry cleaning services	Rental of shoes or skates	
Elbow pads	Repair of clothing	
Employee uniforms primarily designed for athletic activities or protective use	Roller blades	

This rule is intended to implement Iowa Code Supplement section 422.45 as amended by 2000 Iowa Acts, House File 2351.

These rules are intended to implement Iowa Code chapters 422 and 423.

TITLE III
SALES TAX ON SERVICES
CHAPTER 26
SALES AND USE TAX ON SERVICES

[Prior to 12/12/74, appeared as Ch 5, IDR]
[Prior to 12/17/86, Revenue Department[730]]

701—26.1(422) Definition and scope. This rule provides the scope and definitions applicable to the area of services.

26.1(1) Definitions. The phrase “persons engaged in the business of” as used herein shall mean persons who offer the named service to the public or to others for a consideration whether such person offers the service continuously, part-time, seasonally or for short periods. The Iowa sales tax law imposes for periods prior to July 1, 1992, a tax of 4 percent and for periods on or after July 1, 1992, a tax at the rate of 5 percent upon the gross receipts from the rendering, furnishing or performing at retail of certain enumerated services, hereinafter described in more detail in this chapter.

26.1(2) Taxable and nontaxable services. When taxable and nontaxable services are performed as part of one transaction and the charge for the transaction is a lump-sum fee that is not itemized or separately contracted, the taxation of the fee for the entire transaction is determined by the predominant service being performed. *Iowa Movers and Warehousemen’s Association v. Briggs*, 237 N.W.2d 759 (Iowa 1976). If the predominant service being provided in the transaction is a taxable enumerated service, then the entire fee for the transaction is subject to Iowa tax. However, if the predominant service being performed is a nontaxable service, then the entire fee charged for the transaction is not subject to Iowa tax.

This rule is intended to implement Iowa Code sections 421.14, 422.43, 422.47 and 423.2.

701—26.2(422) Enumerated services exempt. Tax shall not apply on any of the following services.

26.2(1) Services on or connected with new construction, reconstruction, alteration, expansion or remodeling of a building or structure, or the services of a general building contractor, architect or engineer. *Iowa Movers and Warehousemen’s Association v. Briggs*, Equity No. 75910, Polk County District Court, May 8, 1974.

26.2(2) A taxable service which is utilized in the processing of tangible personal property for use in taxable retail sales or services.

26.2(3) A service which is performed in interstate commerce in such a manner that imposition of tax would violate the commerce clause of the United States Constitution. Services performed on tangible personal property on or after May 20, 1999, are exempt from tax if those services are performed on property which the retailer of the property transfers to a carrier for shipment to a point outside Iowa, places in the United States mail or parcel post directed to a point outside Iowa, or transports to a point outside Iowa by means of the retailer’s own vehicles and which is not thereafter returned to a point within Iowa, except solely in the course of interstate commerce or transportation. This exemption does not apply to services performed on property if the purchaser, consumer, or the agent of either a purchaser or consumer, other than a carrier, takes physical possession of the property in Iowa.

26.2(4) Services rendered, furnished or performed for an “employer” as defined in Iowa Code subsection 422.4(15).

26.2(5) Those exemptions in 701—Chapter 17 applicable to both sale of services and sale of tangible personal property, excluding those exemptions pertaining only to the sale of tangible personal property.

26.2(6) A service which is purchased for resale. A service is purchased for resale when it is subcontracted by the person who is contracted to perform the service. For example:

a. X is a printer and enters into a contract with Y to print 500 bulletins. X subcontracts the job to Z. Z prints the 500 bulletins for X. There is no tax on the contracts between X and Z since X is purchasing the printing service from Z for resale to Y.

b. B owns a used car lot. E purchases an automobile from B. As a condition of such sale, B agrees to make repairs to the automobile. However, B subcontracts such repair work to C. E has agreed to pay B for the repair services and for the sale price of the automobile. Under these circumstances, the repair

services furnished by C to B constitute a sale of such services to B for resale to E who is the consumer of these services.

c. B owns an auto repair shop and C brings an automobile in to have the air conditioner fixed. B is unable to fix the unit so the car is sent to G who is an air conditioning specialist. The sale of G's service to B is a sale for resale by B to C.

26.2(7) Services purchased which are not for resale. For periods beginning July 1, 1978, the tax on services is collectible at the time the service is complete even if not purchased by the ultimate beneficiary. For example:

a. B, a used car dealer, owns a used car lot and contracts an automobile repair job to C. B cannot purchase the repair service for resale merely because at some later date the automobile may be sold. Tax is due when the service is completed for the used car dealer. See *Iowa Auto Dealers v. Iowa Department of Revenue*, 301 N.W.2d 760 (Iowa 1981). This particular example does not apply to denote tax due after June 30, 1981. See subrule 26.2(8).

b. A operates a test laboratory business. A agrees to provide testing services to B. In the course of conducting the tests, A rents equipment from C. In computing the fee which B has agreed to pay A for testing services, A will include A's costs, including the rental A paid to C in rendering the testing services. Under these circumstances, A furnished B with testing services, and not with the equipment rental services which C furnished to A. A is the consumer of the equipment rental services which are not resold to B and B is the consumer of the testing services. See rule 701—15.3(422,423) regarding resale certificates.

26.2(8) Services are exempt from tax when used in the reconditioning or repairing of tangible personal property of the type which is normally sold in the regular course of the retailer's business and which is held for sale by the retailer. For example:

a. A owns a retail appliance store and contracts with B to repair a refrigerator that A is going to resell. A can purchase the repair service from B-tax free because A is regularly engaged in selling refrigerators and will offer the refrigerator for sale when it is repaired.

b. B, a used car dealer, owns a used car lot and contracts with C to repair a used car that B is going to sell. B can purchase the repair service from C tax-free because B is regularly engaged in selling used cars and will sell the used car after it is repaired.

c. C operates a retail farm implement dealership. C accepts a motorboat as part consideration for a piece of farm equipment. C then contracts with D to repair the motor on the boat. C does not normally sell motorboats in the regular course of C's business. Therefore, the service performed by D for C is subject to tax.

d. XYZ owns a retail radio and television store in Iowa and contracts with W to repair a television set that XYZ is going to sell. XYZ can purchase television repair service tax-free from W because XYZ is regularly engaged in selling television sets subject to sales tax. However, in this instance XYZ sells the used television and delivers it into interstate commerce with the result that the Iowa sales tax is not collectible. Regardless of this fact, the exemption is applicable, and no Iowa tax is due for the television repair services performed.

This rule is intended to implement Iowa Code sections 422.42(3), 422.42(13) and 422.43.

701—26.3(422) Alteration and garment repair. Persons engaged in the business of altering or repairing any type of garment or clothing are rendering, furnishing or performing a service, the gross receipts from which are subject to tax. Included are the services rendered, furnished or performed by tailors, dressmakers, furriers and others engaged in similar occupations. When the vendor of garments or clothing agrees to alter same without charge when an individual purchases such garments or clothing, no tax on services, in addition to the sales tax paid on the purchase price of the article, shall be charged. However, if the vendor makes an additional charge for alteration, that additional charge shall be subject to the tax on the gross receipts from the services.

701—26.4(422) Armored car. Persons engaged in the business of either providing armored car service to others or converting a vehicle into an armored car are rendering, furnishing or performing a service,

the gross receipts from which are subject to tax. “Armored car” shall mean a wheeled vehicle affording defensive protection by use of a metal covering or other elements of ordinance. The exemption for transportation services shall not apply.

701—26.5(422) Vehicle repair. Persons engaged in the business of repairing vehicles are rendering, furnishing or performing a service, the gross receipts from which are subject to tax. “Repair” shall include any type of restoration, renovation or replacement of any motor, engine, working parts, accessories, body or interior of the vehicles, but shall not include installation of new parts or accessories which are not replacements, added to the vehicles. “Vehicle” shall mean a vehicle commonly used on a highway propelled by any power other than muscular power. The exemption for transportation services shall not apply.

A fee charged for the disposal of an item in connection with the performance of an enumerated service is subject to tax if the fee for the disposal of the item is not separately contracted for or itemized in the billing for the charge in the itemized service. However, if the fee charged for disposal of an item in connection with the performance of an enumerated service is itemized or separately contracted for, then the disposal fee is not subject to sales or use tax. Items that may be subject to a disposal fee in connection with a taxable service include, but are not limited to, air filters, oil, tires, and batteries.

Also see 701—subrule 18.31(2) relating to auto body shops.

This rule is intended to implement Iowa Code section 422.43(11).

701—26.6(422) Battery, tire and allied. Persons engaged in the business of installing, repairing, maintaining, restoring or recharging batteries, and services joined and connected therewith, and persons engaged in the business of installing, repairing, or maintaining tires, and services joined or connected therewith, for any type of vehicle or conveyance are rendering, furnishing, or performing a service, the gross receipts from which are subject to tax. The exemption for transportation services shall not apply.

A fee charged for the disposal of an item in connection with the performance of an enumerated service is subject to tax if the fee for the disposal of the item is not separately contracted for or itemized in the billing for the charge in the itemized service. However, if the fee charged for disposal of an item in connection with the performance of an enumerated service is itemized or separately contracted for, then the disposal fee is not subject to sales or use tax. Items that may be subject to a disposal fee in connection with a taxable service include, but are not limited to, air filters, oil, tires, and batteries.

This rule is intended to implement Iowa Code section 422.43.

701—26.7(422) Investment counseling. Persons engaged in the business of counseling others relative to investment in or disposition of property or rights, whether real, personal, tangible or intangible, where a charge is made for counseling, are rendering, furnishing or performing services, the gross receipts from which are subject to tax. Investment counseling does not include the mere management of a business or property. Where a retailer is rendering investment counseling services and also managerial services and the managerial services are not merely incidental to the investment counseling service, nor are the investment counseling services merely incidental to the managerial services and both are substantial and contracted for but neither is specifically identifiable, the tax shall apply to 50 percent of the total gross receipts therefrom.

Prior to July 1, 1987, the gross receipts from investment services rendered, furnished, or performed by trust departments were exempt from tax. On and after July 1, 1987, the gross receipts from investment counseling rendered, furnished, or performed by a trust department are subject to tax.

This rule is intended to implement Iowa Code section 422.43.

701—26.8(422) Bank and financial institution service charges.

26.8(1) Taxation of service charges before and after July 1, 1987. Prior to July 1, 1987, only the service charges of a “bank” were subject to tax. On and after July 1, 1987, the service charges of all “financial institutions” are subject to tax. For the period of July 1, 2002, through June 30, 2003, inclusive,

the term “service charges of financial institutions” does not include any surcharge assessed with regard to a nonproprietary ATM transaction.

a. Bank defined. A “bank” is an institution empowered to do all banking business, for example, an institution having the power and right to issue negotiable notes, discount notes, and receive deposits. Bank business consists of receiving deposits payable on demand and buying and selling bills of exchange. Savings and loan associations and other financial institutions not commonly considered to be banks are not considered a bank for the purposes of this rule.

b. Financial institution defined. “Financial institutions” include and are limited to all national banks; federally chartered savings and loan associations, federally chartered savings banks, and federally chartered credit unions; banks organized under Iowa Code chapter 524; savings and loan associations and savings banks organized under Iowa Code chapter 534; and credit unions organized under Iowa Code chapter 533.

26.8(2) Service charges characterized. The gross receipts from “service charges” which relate to a depositor’s checking account are the only gross receipts subject to tax under this rule, whether the service charges are those of a bank or of a financial institution. For the purposes of this rule, the term “checking account” is characterized with reference to its common meaning rather than any technical definition. An account in a bank or financial institution is a “checking account” if withdrawals may be made from the account by a written instrument, including but not limited to, instruments such as a check, a draft, or negotiable order of withdrawal (NOW). A checking account may or may not pay interest. NOW and Super NOW accounts are specifically included within the meaning of “checking account.” Excluded from the meaning of that term are certificates of deposit. The above definition is meant to be illustrative only and not all-inclusive. In the future, other types of checking accounts may be created which are not described herein.

Since only the gross receipts of bank or financial institution service charges which relate to a “checking account” are subject to tax, the same service performed by a financial institution could be taxable or not taxable depending upon whether it was performed or not performed in relation to a checking account.

EXAMPLE: A bank’s customer loses the bank’s monthly statement. The bank sends the customer another monthly statement but assesses the customer’s account a “duplicate statement fee.” If the duplicate statement fee is assessed on a “Super NOW” account, the gross receipts of the duplicate statement fee are subject to tax. If the duplicate statement fee is assessed against a savings account, the gross receipts from the duplicate statement fee are not subject to tax.

All charges relating to a “checking account” are taxable, not only those charges relating to withdrawals from the account by check. For example, charges for withdrawals by “bank card” from a checking account would be subject to tax except for surcharges assessed with regard to nonproprietary ATM transactions during the period set out in subrule 26.8(1). Charges for withdrawals by bank card from a “savings account” would not be subject to tax.

26.8(3) Various taxable charges. The following are nonexclusive examples of bank or financial institution service charges which, if related to checking accounts, are subject to tax:

- a.* Fees for transferring funds from one account to another (if billed to a checking account).
- b.* Stop payment charges.
- c.* Debit card replacement fees.
- d.* Copy and research fees.
- e.* Bill payment fees.
- f.* Returned deposit item fees.
- g.* The fee for issuing a “certified” check. A “certified” check is drawn from a particular account.

This is in contrast to a “bank cashier’s” check. See below.

26.8(4) Bank and financial institution service charges not subject to tax. The following bank and financial institution service charges are representative of those which are usually not subject to tax by virtue of their having no relationship to checking accounts. The list is not exclusive:

- a.* Safe deposit box fees for safe deposit box rentals.
- b.* Mortgage and loan fees.

c. Fees charged by trust departments for probating estates or administering trusts, for administering agency accounts, for administering pension and profit-sharing plans, for serving as a stock transfer agent or registrar, for serving as a farm manager, and fees or commissions charged to customers for handling security transactions. However, see rule 701—26.7(422). As of July 1, 1987, some of their services may be taxable as “investment counseling.”

d. Real estate appraisal fees. Fees collected for servicing real estate loans.

e. Fees for servicing real estate loans.

f. Fees charged for contract collection and other collections not related to the maintenance of a checking account.

g. Special lockbox handling charges.

h. Escrow agent fees.

i. Charges for handling and cashing coupons or certificates kept in the bank’s possession (safekeeping charges).

j. Finance charges, including credit card charges.

k. Penalty charges (interest forfeiture) on early withdrawal for savings certificates.

l. Charges for purchasing or selling securities for customers (if not a disguise for investment counseling fees).

m. Fees charged for collecting and transferring mortgage payments for a customer (real estate collection exchange).

n. Charges for traveler’s or similar type checks, bank cashier’s checks, bank drafts, or money orders when these instruments have no relation to a customer’s checking account.

o. Exchange fees for all check exchanges.

p. Effective May 30, 2003, fees charged by financial institutions defined in Iowa Code section 527.2 to a noncustomer that are imposed for point of sale, service charge, or access to an automated teller machine.

26.8(5) Miscellaneous. Fees charged to a checking account depositor which are, in essence, penalties for a depositor’s failure to adhere to contractual obligations with a bank or financial institution are not subject to tax, being more in the nature of “penalties” than service charges. For example, charges for overdrafts and returned checks would not be subject to tax.

Bank service charges which are never assessed against the expense of maintaining a checking account are not subject to tax.

EXAMPLE: Bank B normally charges \$10 per month for individual customer’s checking accounts. However, if a customer maintains an average monthly balance of at least \$750, the bank will charge only a \$5 service fee. Customer C maintains an average balance in an account of \$1,000 during the month of February. As a result of this, Bank B charges Customer C a service charge of \$5, and Customer C never owes Bank B a service charge of \$10. Customer C owes sales tax on the \$5 rather than the \$10 amount.

This rule is intended to implement Iowa Code section 422.43 and section 422.45 as amended by 2003 Iowa Acts, chapter 179, section 126.

701—26.9(422) Barber and beauty. Persons engaged in the business of hair cutting, hair styling, hair coloring, wig care, manicuring, pedicuring, applying facial and skin preparations, and all like activities which tend to enhance the appearance of the individual are rendering, furnishing, or performing a service, the gross receipts from which are subject to tax. Each “barber, beauty or other beautification shop or establishment” shall receive only one permit and remit tax as one enterprise, when operated under a common management.

When an operator leases space and is an independent operator, the lessee shall notify the department and secure a sales tax permit whereby the lessee will be responsible directly for the sales tax due. In order to be considered independent, the lessee must also be independent from the lessor for the purposes of withholding of income tax, unemployment compensation, and social security taxes.

The lessor who has leased a part of the premises shall report to the department the names and addresses of all lessees. If the lessor is accounting for the lessee’s sales, the lessor shall, after the name

of each lessee, show the amount of net taxable sales made by the lessee on each report to the department, and which net taxable sales are included in the lessor's return. See 701—15.11(422,423).

This rule is intended to implement Iowa Code section 422.43.

701—26.10(422) Boat repair. Persons engaged in the business of repairing watercraft are rendering, furnishing or performing a service, the gross receipts from which are subject to tax. "Repair" shall include any type of restoration, renovation or replacement of any motor, engine, working part, accessory, hull or interior of the watercraft, but shall not include installation of new parts or accessories which are not replacements added to such watercraft.

701—26.11(422) Car and vehicle wash and wax. Prior to July 1, 1992, "car wash and wax" was the only type of vehicle washing and waxing which was a taxable service.

On and after July 1, 1992, all "vehicle wash and wax" is subject to tax. The gross receipts from these services shall be taxable whether they are performed by hand, machine or coin-operated devices. A "car" is any self-propelled motor vehicle designed primarily for carrying passengers (nine or fewer) excluding motorcycles and motorized bicycles. Any pickup truck, designed to carry both passengers and cargo, is a "car" for the purposes of this rule. A "vehicle" is any vehicle which is commonly used on a highway and propelled by any power other than muscular power. By way of nonexclusive example, motorcycles, motorized bicycles, all pickup trucks, tractors, and trailers are "vehicles" for the purposes of this rule.

This rule is intended to implement Iowa Code subsection 422.43(1).

701—26.12(422) Carpentry. Persons engaged in the business of repairing, as a carpenter, as the trade is known in the usual course of business, are rendering, furnishing or performing a service, the gross receipts from which are subject to tax. Such structures may be either real or personal property.

701—26.13(422) Roof, shingle and glass repair. Persons engaged in the business of repairing, restoring or renovating roofs or shingles, or restoring or replacing glass, whether such glass is personal property or affixed to real property, are rendering, furnishing or performing a service, the gross receipts from which are subject to tax.

701—26.14(422) Dance schools and dance studios. The gross receipts from services rendered, furnished or performed by dance schools or dance studios are subject to tax. A "dance school" is any institution established primarily for the purpose of teaching any one or more types of dancing. A "dance studio" is any room or group of rooms in which any one or more types of dancing are taught. If other activities such as acrobatics, exercise, baton twirling, tumbling or modeling are taught in dance schools, the gross receipts from the teaching of such activities are subject to tax.

701—26.15(422) Dry cleaning, pressing, dyeing and laundering. Persons engaged in the business of rendering, furnishing or performing dry cleaning, pressing, dyeing and laundering services, including those who engage in business by means of coin-operated washers, irons or mangles, dryers and dry cleaning machines are rendering, furnishing or performing a service, the gross receipts from which are subject to tax. *Rodee, Inc. et al. v. State Tax Commission*, Equity No. 72674, Polk County District Court, December 12, 1968.

701—26.16(422) Electrical and electronic repair and installation. Persons engaged in the business of repairing or installing electrical wiring, fixtures, switches in or on real property or repairing or installing any article of personal property powered by electric current are rendering, furnishing or performing a service, the gross receipts from which are subject to tax. For purposes of this rule only, that electrical portion of the repair and installation of personal property powered by electric current is subject to tax. "Repair" is synonymous with mend, restore, maintain, replace, or service. A "repair" contemplates an existing structure or thing which has become imperfect and constitutes the restoration to the original existing structure that which has been lost or destroyed. A "repair" is not a capital improvement, that is, it does not materially add to the value or substantially prolong the useful life of

the property. "Installation" shall include affixing electrical wiring, fixtures or switches to real property, affixing any article of personal property powered by electric current to any other article of personal property, or making any article of personal property powered by electric current operative with respect to its intended functional purpose. For purposes of 26.2(1), service tax shall not apply on electrical installation or repair when the service is on or connected with a structural change to a building or similar structure, whether the structural change be internal or external to the building or structure. The electrical repair or installation on or connected with new construction on buildings or structures would not be subject to service tax.

On and after July 1, 1984, the services of electronic repair and installation are subject to tax. "Electronic" repair and installation is that which deals with the installation of semiconductors (e.g., vacuum tubes, transistors, or integrated circuits) or with the installation or repair of machinery or equipment which functions mainly through the use of semiconductors. It is this installation or repair of semiconductors or of machines functioning mainly by the use of semiconductors which distinguishes "electronic" installation and repair from "electrical" installation and repair.

On and after July 1, 1985, gross receipts from electrical or electronic installation are exempt from tax if those gross receipts are for the installation of new industrial machinery or equipment. See 701—subrule 18.45(7) for more information regarding this matter.

This rule is intended to implement Iowa Code section 422.43.

701—26.17(422) Engraving, photography and retouching. Prior to July 1, 1984, persons engaged in the business of engraving on wood, metal, stone or any other material, taking photographs, or renovating or retouching an existing likeness or design are rendering, furnishing or performing a service, the gross receipts from which are subject to tax. "Photography" is the art or process of producing images or objects upon a photosensitive surface by the chemical action of light or other radiant energy. For treatment of these services on and subsequent to July 1, 1984, see rule 701—16.51(422,423).

701—26.18(422,423) Equipment and tangible personal property rental.

26.18(1) *Prior to July 1, 1984, only if tangible personal property was classified as "equipment" was its rental subject to tax.* Effective July 1, 1984, the rental of all tangible personal property, including equipment, is subject to tax.

a. Periods prior to July 1, 1984, equipment rental. Persons furnishing equipment to other persons for their use are rendering, furnishing, or performing a service subject to tax measured by the gross receipts or fees charged for the use of such equipment. In general usage, equipment refers to implements or tools used to produce a final product or achieve a given result. *KTVO, Inc. and KBIZ, Inc. v. Bair*, 255 N.W.2d 111 (Iowa 1977), and *State v. Bishop*, 257 Iowa 336 (1965). Not all tangible personal property is equipment and for the purpose of this rule, equipment will be considered to be an implement or a tool used to produce a final product or to achieve a given result. Thus, "equipment rental" would be applicable to such items as appliances, machinery, and utensils necessary to carry out a given task. It also includes such nonexclusive items as articles of clothing, safety shoes, police uniforms, and hard hats which contribute to the purpose of a person obtaining them for use. Whether the equipment rented functions in a state of rest or in a state of motion, it is taxable.

b. In order to determine whether a particular fee is charged for the use of equipment or for the rendering of a nontaxable service, the department looks at the substance, rather than the form, of the service being rendered. When the possession and use of equipment by the recipient is merely incidental as compared to the nontaxable service performed, all the gross receipts are derived from the furnishing of such nontaxable service and unless a separate fee or charge is made for the possession and use of equipment, no gross receipts are derived from the service of equipment rental. When the nontaxable service is merely incidental to the possession and use of the equipment by the recipient, all the gross receipts are derived from the furnishing of equipment rental and unless a separate fee or charge is made for the nontaxable service, no gross receipts are derived from the nontaxable service. When an equipment rental agreement contains separate fee schedules for rent and for nontaxable service, only the gross

receipts derived from the equipment rental service are subject to tax. This rule is not to be so construed as to be a variance with Iowa Code subsection 422.45(2) concerning transportation.

c. When equipment as defined herein is rented for a flat fee per month, per year, or for other designated periods, plus an additional fee based on quantity and capacity of production or use, the entire charge is taxable. The only exception is if the additional fee is a royalty payment. A royalty fee is not subject to tax if (a) it is separately contracted for and separately stated in the contract or on the billing, and (b) the royalty represents a true royalty. In determining whether a particular payment constitutes a true royalty, the following will be considered:

1. The intentions of the parties to the transaction.
2. The existence of a patent.
3. The relationship between the size of the royalty payment and the gross sales or manufacture of the patented equipment.
4. The primary business of the lessor.
5. Whether the royalty was paid for the technical know-how of the patented equipment.
6. Whether the royalty was paid for the privilege of using the patented equipment.

When examining the equipment rental agreement, substance will prevail over form and terminology employed by the parties to the agreement will not, in itself, be determinative of whether a true royalty exists. See *State v. Rockaway Corp.* (Ala. Civ. App. 1977), 346 So.2d 444, Cert. denied, 346 So.2d 451 (Ala. 1977).

d. The portion of this subrule relating to fees based on quantity and capacity of production use is effective for periods beginning on or after July 1, 1978.

26.18(2) *For periods beginning July 1, 1984, rental of tangible personal property.* The gross receipts from the rental of all tangible personal property shall be subject to tax. Tangible personal property is any personal property which is visible and corporeal, has substance and body or can be touched or handled. *RAMCO Inc. v. Director, Department of Revenue*, 248 N.W.2d 122 (Iowa 1976). Electromagnetic waves and other types of waves are not tangible personal property. *RAMCO Inc. supra.* Thus, the receipt of signals from a pay television company does not involve the rental of tangible personal property. See *Indiana Dept. of State Revenue, Sales Tax Division v. Cable Brazil Inc.*, 380 N.E.2d 555 (Ind. App. 1978). At common law, rental consists of consideration paid for the use or occupation of property, but not for passage of title, Black's Law Dictionary 1461 (4th Ed. 1968).

a. *Rentals not taxed under previous law.* Prior to July 1, 1984, only if tangible personal property consisted of "equipment" was its rental taxable. Equipment rental continues to be a service subject to tax under the present law. Equipment refers to implements or tools used to produce a final product or achieve a given result. *KTVO, Inc. and KBIZ, Inc. v. Bair*, 255 N.W.2d 111 (Iowa 1977) and *State v. Bishop*, 257 Iowa 336 (1965). The rental of certain tangible personal property not considered to be equipment is now subject to tax. As nonexclusive examples, clothing rental, such as tuxedos and formal gown rental, or costume rental; picture, painting, sculpture and other art work rental; plant rental to homes or businesses; and furniture rental are now subject to tax.

b. *Rental of real property distinguished from rental of tangible personal property.* If a rental contract allows the renter exclusive possession or use of a defined area of real property and, incidental to that contract, tangible personal property is provided which allows the renter to utilize the real property, if there is no separate charge for rental of tangible personal property, the gross receipts are for the rental of real property and are not subject to tax.

If a person rents tangible personal property and, incidental to the rental of the property, space is provided for the property's use, the gross receipts from the rental shall be subject to tax. It may at times be difficult to determine whether a particular transaction involves the rental of real property with an incidental use of tangible personal property or the rental of tangible personal property with an incidental use of real property.

c. *Rental of tangible personal property and rental of fixtures.* The rental of tangible personal property which shall, prior to its use by the renter under the rental contract, become a fixture shall not be subject to tax. Such a rental is the rental of real property rather than tangible personal property. In general, any tangible personal property which is connected to real property in a way that it cannot be

removed without damage to itself or to the real property is a fixture. *Equitable Life Assurance Society of the United States v. Chapman*, 282 N.W.2d 355 (Iowa 1983) and *Marty v. Champlin Refining Co.*, 36 N.W.2d 360 (Iowa 1949). The rental of a mobile home or manufactured housing, not sufficiently attached to realty to constitute a fixture, is room rental rather than tangible personal property rental and subject to tax on that basis; see *Broadway Mobile Home Sales Corp. v. State Tax Commission*, 413 N.Y.S.2d 231 (N.Y. 1979). See also rule 701—18.40(422,423).

d. Rental of tangible personal property embodying intangible personal property rights, transactions exempt and taxable. Under the law, the gross receipts from rental of tangible personal property include “royalties, and copyright and license fees.” The department interprets the legislature’s use of this phrase as evidence of the legislature’s intent to tax the rental of all property which is a tangible medium of expression for the intangible rights of royalties, copyright and license fees. Thus gross receipts from the rental of films, video disks, video cassettes, and any computer software (other than rental of custom programs, see 701—paragraph 18.34(3) “a”) which is the tangible means of expression of intangible property rights is subject to tax. The rental of such tangible property shall be subject to tax whether the property is held for rental to the general public or for rental to one or a few persons. See *Boswell v. Paramount Television Sales, Inc.*, 282 So.2d 892 (Ala. 1973). See rule 701—17.18(422,423) regarding the exemption from the requirements of this subrule for rental of films, video tapes and other media to lessees imposing a taxable charge for viewing or rental of the media or to lessees who broadcast the contents of this media for public viewing or listening.

e. Deposits. Taxability of a deposit required by an owner of rental property as a condition of the rental depends upon the type of deposit that is being required. A deposit subject to forfeiture for failure to comply with the rental agreement is not subject to tax. This type of deposit is separate from the rental payments and therefore is not taxable as part of the rental service. Such deposits may include those for reservation, late return of the rental property or damage to the rental property. Deposits not subject to forfeiture which represent part of the rental receipts are considered part of the taxable services and are subject to tax. Such deposits may include a deposit of the first rental payment which is applied to the rental receipts.

This rule is intended to implement Iowa Code sections 422.43 and 423.2.

701—26.19(422) Excavating and grading. Persons engaged in the business of excavating and grading for purposes other than new construction, reconstruction, alteration, expansion or remodeling are rendering, furnishing or performing a service, the gross receipts from which are subject to tax.

26.19(1) For purposes of this rule, “*excavation*” shall mean the digging, hauling, hollowing out, scooping out or making of a cut or hole in the earth. The word excavate ordinarily comprehends not only the digging down into the earth but also the removal of whatever material or substance is found beneath the surface. *Rochez Brothers v. Duricka*, 374 Pa. 262, 97 A.2d 825 (1953).

26.19(2) “*Grading*” shall mean, in its commonly accepted sense, a physical change of the earth’s structure by scraping and filling in the surface to reduce it to a common level; the reducing of the surface of the earth to a given line fixed as the grade, involving excavating or filling or both.

When it is determined that the enumerated service of excavating or grading is present, the situation must be further examined to determine if the new construction exemption applies. See chapter 248(9), Acts of the Sixty-third General Assembly.

701—26.20(422) Farm implement repair of all kinds. Persons engaged in the business of repairing, restoring or renovating implements, tools, machines, vehicles or equipment, but not including installation of new parts or accessories which are not replacements, used in the operation of farms, ranches or acreages on which growing crops of all kinds, livestock, poultry or fur-bearing animals are raised or used for any purpose are rendering, furnishing or performing a service, the gross receipts from which are subject to tax.

701—26.21(422) Flying service. Persons engaged in the business of teaching a course of instruction in the art of operation and flying of an airplane, and instructions in repairing, renovating, reconditioning an

airplane, or any other related service are rendering, furnishing or performing a service, the gross receipts from which are subject to tax. While not intended to be inclusive, the following is a list of taxable and nontaxable charges related to flight instruction.

Charges for instructors' services, ground instruction and ground school are taxable.

Charges for dual flying and for students learning to fly with an instructor are taxable. The instruction is taxable as a flying service. The plane rental is also taxable. This paragraph shall become effective for periods beginning on or after April 1, 1992.

Flying service shall also include all other types of flying service, except agricultural aerial application services, aerial commercial and chartered transportation services and those services exempt by 26.2(3).

This rule is intended to implement Iowa Code section 422.43.

701—26.22(422) Furniture, rug, upholstery, repair and cleaning. Persons engaged in the business of repairing, restoring, renovating or cleaning furniture, rugs or upholstery are rendering, furnishing or performing a service, the gross receipts from which are subject to tax. Wherever used, "furniture" shall include all indoor and outdoor furnishings. "Rugs" shall include all types of rugs and carpeting. "Upholstery" shall include all materials used to stuff or cover any piece of furniture.

701—26.23(422) Fur storage and repair. Persons engaged in the business of storing for preservation and future use, refurbishing, repairing and renovating, including addition of new skins and furs, are rendering, furnishing or performing a service, the gross receipts from which are subject to tax. The term "furs" shall include both natural and manufactured simulated products resembling furs.

701—26.24(422) Golf and country clubs and all commercial recreation. All fees, dues or charges paid to golf and country clubs are subject to tax. "Country clubs" shall include all clubs or clubhouses providing golf and other athletic sports for members. Persons providing facilities for recreation for a charge are rendering, furnishing or performing a service, the gross receipts from which are subject to tax. "Recreation" shall include all activities pursued for pleasure, including sports, games and activities which promote physical fitness, but shall not include admissions otherwise taxed under Iowa Code section 422.43.

Dance schools are the only schools the services of which are taxable under Iowa Code subsection 422.43(9). See rule 701—26.14(422) on dance schools and dance studios. The gross receipts from any school providing training services in any activity pursued for pleasure or recreation shall not be subject to tax, unless the school is a dance school.

If a person provides both facilities for recreation and instruction in recreational activities, charges for instruction in the recreational activities shall not be subject to tax if all of the following circumstances exist:

1. The instruction charges are contracted for separately, separately billed, and reasonable in amount when compared to the taxable charges of providing facilities for recreation.

EXAMPLE: An ice skating rink offers three membership plans. The first membership plan provides only instruction in the activity of ice skating. The second plan allows for the use of the rink's facilities, but provides for no instruction in ice skating. The third plan allows the customer to participate in a certain number of ice skating classes and also allows use of the rink's facilities without instruction. Customer charges for the first plan would not be subject to tax. Customer charges for the second plan would be subject to tax. Charges for the third plan would be subject to tax if billed in one lump-sum. If, under the third plan, charges to the customer for instruction and use are separately stated, and the charges for instruction are not unreasonable, the charges for instruction shall be exempt from tax. If it is necessary to pay for instruction to secure use of the facilities for recreation, charges for the instruction are a part of the gross receipts from commercial recreation and shall be subject to tax.

2. The persons receiving the instruction must be under the guidance and direction of a person training them in how to perform the recreational activity. If the persons receiving what purports to be "instruction" are allowed any substantial amount of time to pursue recreational activities, no instruction is taking place. The instruction should be received in what would ordinarily be thought of as a "class" with a fixed time

and place for meeting. The instruction need not be received in what would ordinarily be thought of as a “classroom,” but the instructor and the persons receiving instruction should be segregated from persons engaging in recreational activity insofar as this is possible. Instruction may still occur if complete or partial segregation is impossible.

EXAMPLE: A golf pro offers instruction to students on a golf course. The students cannot circulate around the golf course in a group with the golf pro because this would slow the play of golfers following such a group and lead to complaints. The students circulate on the course individually, and the golf pro observes the play of each student and comments upon it. Even though no segregation of the individual students into any sort of a class is possible, the students are receiving instruction from the golf pro and, therefore, no taxable event occurs.

EXAMPLE: A retailer maintains a golf driving range. There are separate tee-off positions for each customer to practice driving golf balls. There is also an instructor in driving present. The instructor cannot reserve individual tee-off positions for instruction of students because the positions are filled on a first-come-first-served basis. When students come for instruction, the instructor must make use of whatever tee-off positions are available. Even though segregation of students from other customers is impossible, instruction exists and, therefore, no taxable event occurs.

3. The “instruction” must impart to the learner a level of knowledge or skill in the recreational activity which would not be known to the ordinary person engaging in the recreational activity without instruction. Also, the person providing the instruction must have received some special training in the recreational activity taught if charges for that person’s instruction are to be exempt from tax.

This rule is intended to implement Iowa Code subsection 422.43(11).

701—26.25(422) House and building moving. Persons engaged in the business of moving houses or buildings from one location to another, whether for repair or otherwise, are rendering, furnishing or performing a service, the gross receipts from which are subject to tax. Charges for house and building moving are not considered transportation charges, and are, therefore, subject to the imposition of sales tax.

This rule is intended to implement Iowa Code section 422.43.

701—26.26(422) Household appliance, television and radio repair. Persons engaged in the business of repairing household appliances, television sets, or radio sets, but not including installation of new parts or accessories which are not replacements, are rendering, furnishing or performing a service, the gross receipts from which are subject to tax. “Repair” shall include mending or renovation of existing parts of such household appliances, television sets and radio sets, as well as replacing defective parts of such articles. “Household appliances” shall include all mechanical devices normally used in the home, whether or not used therein.

701—26.27(422) Jewelry and watch repair. Persons engaged in the business of repairing jewelry or watches are rendering, furnishing or performing a service, the gross receipts from which are subject to tax. “Jewelry or watch repair” shall include any type of mending, restoration or renovation of parts, or replacement of defective parts.

701—26.28(422) Machine operators. Persons engaged in the business of operating machines of all kinds, belonging to other persons, where a fee is charged, are rendering, furnishing or performing a service, the gross receipts from which are subject to tax. “Machine operator” is a person who exercises the privilege of managing, controlling and conducting a mechanical device or a combination of mechanical powers and devices used to perform some function and produce a certain effect or result. For example, the operation of the following machines is a taxable service: typewriters, manufacturing machinery and equipment, computers, calculators, and cash registers. This list is not all-inclusive. Telephones, automobiles and airplanes are not machines for the purpose of this rule, and the operation of these items is not the taxable service of a machine operator.

The service of machine operator is not subject to tax when performed by an employee directly for that employee's employer. In addition, to be taxable as machine operation, the operation of the machine must be the primary service that is being performed and not just incidental to the performance of the primary service being rendered.

Below are examples regarding the service of "machine operator":

EXAMPLE 1. Employee 1 is hired to perform data entry work on a computer for the employer. The services of employee 1 are that of machine operator, but are not subject to tax because employee 1 is performing the services directly for the employer.

EXAMPLE 2. ABC Company hires a person from a temporary employment agency to perform data entry work on a computer. ABC Company pays a set per-hour fee for the services of the data entry person. The service performed by the person is that of a machine operator. ABC Company must pay sales or use tax on the fee imposed by the temporary employment agency.

EXAMPLE 3. ABC Company hires telemarketing personnel from a temporary employment agency for sales calls during the holiday season. ABC Company does not owe tax on the fee charged by the temporary employment agency. The services of a telemarketer would not be taxable as those of a machine operator since the telephone is not a machine for the purpose of this rule.

This rule is intended to implement Iowa Code section 422.43.

701—26.29(422) Machine repair of all kinds. Persons engaged in the business of repairing machines of all kinds are rendering, furnishing or performing a service, the gross receipts from which are subject to tax. "Machine" shall include all devices having moving parts and operated by hand, powered by a motor, engine, or other form of energy. It is a mechanical device or combination of mechanical powers and devices used to perform some function and produce a certain effect or result. A musical instrument does not constitute a machine and therefore, musical instrument repairs are not subject to tax.

701—26.30(422) Motor repair. Persons engaged in the business of repairing motors powered by any means whatsoever are rendering, furnishing or performing a service, the gross receipts from which are subject to tax. "Repair" shall include mending or renovation of parts, replacements of defective parts or subassemblies of the motor, but shall not include installation of new parts or accessories which are not replacements.

701—26.31(422) Motorcycle, scooter and bicycle repair. Persons engaged in the business of repairing motorcycles, scooters and bicycles are rendering, furnishing or performing a service, the gross receipts from which are subject to tax. "Repair" shall include mending or renovation of parts, replacement of defective parts or subassemblies, but shall not include installation of new parts or accessories which are not replacements.

701—26.32(422) Oilers and lubricators. Persons engaged in the business of oiling, changing oils or lubricating and greasing vehicles and machines of all types having moving parts or powered by a motor or engine or other form of energy, heavy equipment vehicles or implements, whether such equipment functions in a state of rest or in a state of motion, are rendering, furnishing or performing a service, the gross receipts from which are subject to tax.

701—26.33(422) Office and business machine repair. Persons engaged in the business of repairing office and business machines are rendering, furnishing or performing a service, the gross receipts from which are subject to tax. "Repair" shall include mending and renovation of existing parts, replacement of defective parts or subassemblies, but shall not include installation of new parts or accessories which are not replacements.

701—26.34(422) Painting, papering and interior decorating. Persons engaged in the business of painting, papering and interior decorating are rendering, furnishing or performing a service, the gross receipts from which are subject to tax. "Painting" shall mean covering of both interior and exterior surfaces of tangible personal or real property with a coloring matter and mixture of a pigment or sealant,

with some suitable liquid to form a solid adherent when spread on in thin coats for decoration, protection or preservation purposes and all necessary preparations thereto, including surface preparation. The following are not within the definition of painting: automobile undercoating, the coating of railroad cars, storage tanks, or the plating of tangible personal property with metals such as but not limited to chromium, bronze, tin, galvanized metal, or platinum. "Papering" shall mean applying wallpaper or wall fabric to the interior of houses or buildings and all necessary preparations thereto including surface preparation. "Interior decoration" shall mean the service of designing or decorating the interiors of houses or buildings, counseling with respect to such designing or decoration or the procurement of furniture fixtures or home or building decorations. When any person provides interior decorating service without charge as an incident to the sale of real or personal property, no sales tax, in addition to that paid on the purchase price or any part thereof of the personal property, shall be charged.

This rule is intended to implement Iowa Code section 422.43.

701—26.35(422) Parking facilities. Persons engaged in the business of operating a parking facility for a fee are rendering, furnishing or performing a service, the gross receipts from which are subject to tax. For the purpose of this rule, a "parking facility" is any place that is built, installed or established for the purpose of parking a vehicle for a fixed interval. It is irrelevant whether the charge is by the hour, day, month or any other period of time.

This rule is intended to implement Iowa Code section 422.43.

701—26.36(422) Pipe fitting and plumbing. Persons engaged in the business of pipe fitting and plumbing are rendering, furnishing or performing a service, the gross receipts from which are subject to tax. "Pipe fitting and plumbing" shall mean the trade of fitting, threading, installing and repairing of pipes, fixtures or apparatus used for heating, refrigerating, air conditioning or concerned with the introduction, distribution and disposal of a natural or artificial substance.

701—26.37(422) Wood preparation. Persons engaged in the business of wood preparation or treatment for others are rendering, furnishing or performing a service, the gross receipts from which are subject to tax. "Wood preparation" shall include all processes whereby wood is sawed from logs into measured dimensions, planed, sanded, oiled or treated in any manner before being used to repair an existing structure or create a new structure or part thereof. But where such preparation is engaged in solely for the purpose of processing lumber or wood products for ultimate sale at retail, such "preparation" may not be deemed as rendering, furnishing or performing a service, the gross receipts from which would be subject to tax.

701—26.38(422) Private employment agency, executive search agency. Private employment agencies engaged in the business of providing listings of available employment, counseling others with respect to future employment or aiding another in any way to procure employment are rendering, furnishing or performing a service, the gross receipts from which are subject to tax. The aforementioned services are subject to tax, regardless of whether they are rendered for the prospective employee or prospective employer.

For periods commencing after June 30, 1982, the gross receipts of private employment agencies from services rendered for placing a person in employment where the person's principal place of employment is to be located outside the state of Iowa are not taxable. Principal place of employment ordinarily means the work location of the employee.

EXAMPLE: ABC Company contracts with XYZ, an Iowa employment agency, to secure an employee to work at a production plant in Illinois. XYZ Employment Agency finds a suitable employee that is hired by ABC Company. Since the employee's principal place of employment is outside the state, there is no tax due on the gross receipts of XYZ Employment Agency for securing that employment.

EXAMPLE: Hometown Sales Company contracts with ABC Employment Agency to secure a salesperson to travel Iowa, Missouri and Nebraska. Both Hometown Sales Company and ABC Employment Agency are located in Iowa. ABC Employment Agency is successful in finding a

salesperson for Hometown Sales Company. Since this salesperson will be traveling in three states the gross receipts of ABC Employment Agency from placing the employment of this salesperson are taxable as the principal place of the salesperson's employment is not outside the state of Iowa.

Executive search agencies are engaged in the business of securing employment for top-level management positions. Effective July 1, 1984, the gross receipts from services provided by executive search agencies are subject to tax. For any period prior to that date, their gross receipts are not taxable. Prior to July 1, 2002, it was necessary for an executive search agency to be "licensed" for its services to be taxable. On and after that date, the services of an unlicensed executive search agency are taxable. The exclusion from taxation for the service of placing a person in employment if that person's principal place of employment is to be located outside of Iowa which is applicable to private employment agencies is not applicable to executive search agencies. The gross receipts from the services of executive search agencies performed in Iowa are subject to tax.

The following nonexclusive elements distinguish the difference between executive search agencies and private employment agencies. These elements should be used to distinguish between taxable and nontaxable services for any period prior to July 1, 1984.

Executive Search Firm	Employment Agency
1. Top level management positions— Salaries over \$30,000.	All levels of jobs in an organization. All salary levels.
2. Serve only a few clients (5 or 6) at one time. Employers only.	Large number of clients at all times. Both possible employers and employees.
3. Send information regarding one individual to one possible employer only. Résumés never circulated to other possible employers.	Individual's résumé circulated to many possible employers.
4. Extensive analysis of the position to be filled. Extensive analysis of the individuals who are candidates. Prepare detailed professional assessment of strengths and weaknesses of individuals.	No extensive analysis of the position or the individual.
5. Make travel arrangements for interviews; conduct salary negotiations; perform follow-up studies.	Normally does not make travel arrangements for interviews; does not conduct salary negotiations; does not perform detailed follow-up studies.
6. Only paid by the company seeking the employee.	Paid by either the company or the job seeker.
7. Paid on retainer or by an hourly charge or by contract. Paid whether or not individual is hired.	Paid on a contingent-fee basis. Paid only if a referred person is hired.
8. Does not advertise available positions.	Does engage in general advertising of available positions.
9. Overall placement of individual requires extensive and sophisticated analysis of position and individual.	Overall placement of individual is not as extensive or sophisticated.

This rule is intended to implement Iowa Code section 422.43 as amended by 2002 Iowa Acts, Senate File 2305, section 6.

701—26.39(422) Printing and binding. Prior to July 1, 1984, persons engaged in the business of printing or binding any printed matter other than for the purpose of ultimate sale at retail are rendering, furnishing or performing a service, the gross receipts from which are subject to tax. "Printing" shall include any type of printing, lithographing, mimeographing, photocopying, and similar reproduction. The following activities are representative of services, the gross receipts from which are subject to tax: the printing of pamphlets, leaflets, stationery, envelopes, folders, bond and stock certificates, abstracts,

law briefs, business cards, matchbook covers, campaign posters, and banners for the users thereof. For the treatment of printing and binding on and after July 1, 1984, see rule 701—16.51(422,423).

701—26.40(422) Sewing and stitching. Persons engaged in the business of sewing and stitching are rendering, furnishing or performing a service, the gross receipts from which are subject to tax.

701—26.41(422) Shoe repair and shoeshine. Persons engaged in the business of repairing or shining any type of footwear, such as shoes, boots and sandals, are rendering, furnishing or performing a service, the gross receipts from which are subject to tax. “Repair” shall include the mending or renovation of existing parts and the replacement of defective parts, but shall not include installation of new parts or accessories which are not replacements of the footwear in any manner. “Shoeshine service” is meant to be the shining of any type of footwear.

701—26.42(422) Storage warehousing, storage locker, and storage warehousing of raw agricultural products and household goods.

26.42(1) Definitions.

a. For the purpose of this rule, raw agricultural products include, but are not limited to, corn, beans, oats, milo, fruits, vegetables, animal semen, and like items that have not been subjected to any type of processing. Grain drying is not processing.

b. A “warehouse” is defined as an enclosure not readily accessible to the public, which would normally require a roof of some sort or some type of structure designed to afford protection to the products. Placing the products on the ground, even though surrounded by a fence, would not constitute a warehouse. *Lynch v. State*, 1889, 89 Ala. 7 So. 829.

c. “Household goods” means tangible personal property located in a person’s residence, and is not inventory.

d. For the purpose of this rule, the term “principal” shall refer to the person who ships raw agricultural products or household goods to the warehouse, or the person who is billed by the warehouse for service performed. The term “purchaser” shall refer to the person who purchases the goods from the principal.

26.42(2) Taxation of household goods. Beginning April 1, 1992, the gross receipts on the storage of household goods in a warehouse are subject to tax.

a. For the purposes of this rule, storage in transit (S.I.T. storage), consists of household goods stored for less than 180 days. Permanent storage consists of household goods stored for 180 days or more.

b. Storage in transit with an origin in Iowa and a destination outside Iowa is exempt from tax.

c. Storage in transit with an origin outside the state of Iowa and a destination in Iowa is subject to tax.

d. Storage in transit with an origin and destination within Iowa is subject to tax.

26.42(3) Storage and delivery.

a. *Raw agricultural products or household goods originating inside the state and delivered inside the state.* Assuming the raw agricultural products or household goods originate in Iowa, are stored in an Iowa warehouse and, after storage, are delivered to a destination in Iowa, the tax is imposed on storage pursuant to Iowa Code section 422.43. The interstate commerce exemption in Iowa Code section 422.42, subsections 13 and 16, is not applicable.

b. *Raw agricultural products or household goods originating outside the state and delivered inside the state.* Assuming the raw agricultural products or household goods originate from a principal outside the state of Iowa, are sent to an Iowa warehouse and, after storage, are delivered to a destination in Iowa; tax on these warehouse services has been imposed since October 1, 1967, and there is no interstate commerce exemption, either under the United States Constitution, or under the statutory exemption for services performed on tangible personal property delivered into interstate commerce. The delivery, in this example, is clearly intrastate and the storage is subject to tax. *Iowa Movers and Warehousemen’s Association v. Briggs*, 237 N.W.2d 759 (Iowa 1976).

c. Raw agricultural products or household goods originating inside or outside of the state and shipped by the warehouse out of Iowa. Assuming the raw agricultural products or household goods originated either in Iowa or outside of Iowa, are shipped to an Iowa warehouse and, after storage, are sent by the warehouse directly out of Iowa or are given to a common carrier to be shipped out of Iowa, with destination being out of Iowa; the storage of the raw agricultural products or household goods is exempt.

d. Raw agricultural products or household goods originating either inside the state or outside the state and the principal or purchaser of the raw agricultural products picks them up at the Iowa warehouse. Assuming the raw agricultural products or household goods originated either in Iowa or out of Iowa, and are sent to an Iowa warehouse for storage and, upon the completion of the storage, the principal directs the warehouse to allow the purchaser of the raw agricultural products or household goods to pick them up at the Iowa warehouse; the warehouse service would be subject to Iowa sales tax.

This example involves a situation similar to the one found in *Dodgen Industries, Inc. v. Iowa State Tax Commission*, 160 N.W.2d 289 (Iowa 1968).

In that case, the court held that where the sale of goods is made by an Iowa principal, delivery of the goods physically made to the purchaser in Iowa constitutes an intrastate delivery, and the Iowa sales tax applies. Therefore, where physical delivery of goods in the form of transfer of possession is made from the Iowa warehouse directly to the principal or the purchaser, such direct delivery constitutes a delivery into intrastate commerce and the warehouse services performed on these goods would be subject to Iowa sales tax.

26.42(4) Other charges invoiced separately.

a. Transportation. The gross receipts from the sale, furnishing, or service of transportation services are exempt from the Iowa sales and use taxes under Iowa Code subsection 422.45(2). This would include delivery charges which are itemized or shown separately on the customer's invoice.

b. Handling. A charge assessed for labor and equipment used to unload rail cars, trucks, or other vehicles, place the raw agricultural products or household goods in storage and remove from storage and load rail cars, trucks, or other vehicles. Handling charges billed after October 1, 1967, are exempt as transportation charges if they are itemized or shown separately on the customer's invoice. If handling charges are not ascertainable on the invoice, the total amount thereon is deemed to be storage and, therefore, taxable.

c. Clerical. A charge assessed for special services such as, but not limited to, compiling stock reports and statements, reporting serial numbers, physical checking of raw agricultural products, and reporting by special report of receipt transactions and shipments. If such charges are predominantly related to storage, they are subject to tax. If clerical charges are predominantly related to transportation activities, they are exempt from tax.

d. Communications. A charge assessed for postage, telephone, teletype, or telegram, and for other than normal communication at the request of the customer. If such charges are predominantly related to storage, they are subject to tax. If communication charges are predominantly related to transportation activities, they are exempt from tax.

e. Car cleaning. A charge assessed for cleaning rail cars of bracing and debris as required by the Interstate Commerce Commission. This is related to transportation activities and not subject to tax.

f. Recouping. A charge assessed for handling merchandise damaged in transit so as to prevent further loss due to transit damage. This is predominantly a charge for storage and is subject to tax unless it can be shown that it is predominantly related to transportation.

g. Dunnage and bracing. A charge assessed for labor and material used in blocking and bracing in rail cars and trucks; blocking and bracing are necessary to protect or prevent movement of raw agricultural products or household goods while in transit. This charge is separate from the storage charge and is related to transportation. Therefore, it is not subject to tax.

h. Extra labor. A charge assessed for other-than-normal handling, such as shipping or receiving, during other-than-usual business hours. This charge is predominantly related to transportation and, when separately listed from storage, is not subject to tax.

i. Bonded custom charges. A charge assessed in addition to regular rates for merchandise being held under United States Custom Bond. This is considered a tariff on foreign goods entering the country and is not subject to tax.

j. Trash disposal. See rule 701—26.71(422,423).

k. Cartage. A charge assessed for transporting raw agricultural products or household goods from the storage facility to the customer's place of business or residence, or from the customer's place of business or residence to the storage facility, or from one place of business to another, or from one residence to another. This is a transportation charge and is not subject to tax.

l. Crating. This is a charge for packing and wrapping. If predominantly related to storage, it is taxable; if it is predominantly related to transportation, it is exempt.

m. Canning and bagging. A charge assessed for receiving raw agricultural products or household goods in bulk, unloading, and placing in containers, such as bottles, bags, cans, or drums. If this service is predominantly related to storage, it is subject to tax. If this service is predominantly related to transportation, it is exempt from tax.

n. Unpacking. This would be predominantly related to storage and subject to tax, unless it can be shown to be predominantly related to transportation.

26.42(5) Wrapping and packaging.

a. Wrapping and packaging services performed on raw agricultural products or household goods are taxable or exempt, depending upon whether the predominant service is storage or transportation. *Iowa Movers and Warehousemen's Association* supra.

b. Wrapping, packing and packaging predominantly for storage of merchandise is subject to tax unless the interstate commerce exemption is applicable.

c. Warehouses which sell packing materials to their customers are considered retailers of these materials and should collect sales tax. When the packaging materials are not billed separately to the customer, the warehouse will be subject to the standards set forth in rule 701—18.31(422,423) regarding tangible personal property purchased for use in performing services.

26.42(6) Transit warehouses. The department recognizes that the operations of transit warehouses present some administrative difficulties in the collection of sales taxes. Raw agricultural products or household goods are shipped to transit warehouses in bulk quantities and shipped to different locations at different times. Storage of raw agricultural products or household goods delivered in Iowa would be subject to tax, while storage of raw agricultural products or household goods placed into interstate commerce would be exempt from tax. Since it is extremely difficult under these circumstances to determine the cost of storage on raw agricultural products or household goods delivered in Iowa, the department will allow transit warehouses to compute tax on storage fees on the basis of a formula, the numerator of which is the quantity of raw agricultural products or household goods stored in the warehouse with intrastate delivery in Iowa, and the denominator of which is the total quantity of goods stored in the warehouse. This information, in most cases, must be supplied by principals storing goods in the warehouse. However, it is the responsibility of the warehouse to acquire the information needed to compute the Iowa sales tax under the formula. This information should be verified with the principal at least once every 90 days. Included in the numerator of the formula will be raw agricultural products or household goods picked up at an Iowa warehouse by a principal or purchaser, or raw agricultural products or household goods delivered to a principal or purchaser in Iowa even though the principal or purchaser may subsequently deliver the raw agricultural products or household goods to a common carrier for shipment outside Iowa.

26.42(7) Government storage. Storage of raw agricultural products or household goods is exempt from tax if the storage contract is with a tax-certifying or tax-levying body of the state of Iowa or to any instrumentality of the state, county, or municipal government, or with the federal government or its instrumentalities. Storage fees relating to raw agricultural products or household goods placed in storage by the producer and later consigned to the federal government under a loan agreement are not exempt from tax. In order for the storage to be exempt from tax, the federal government must actually own the raw agricultural products or household goods during the period the goods are stored and make payment to the warehouse for the storage.

Also refer to *Iowa Movers and Warehousemen's Association v. Briggs*, Equity No. 75910, Polk County District Court, May 8, 1974, and 237 N.W.2d 759.

This rule is intended to implement Iowa Code sections 422.43 and 423.2.

701—26.43(422,423) Telephone answering service. Persons engaged in the business of providing telephone answering service, whether by person or machine, are rendering, furnishing or performing a service, the gross receipts from which are subject to tax.

This rule is intended to implement Iowa Code section 422.43(11).
[ARC 9814B, IAB 10/19/11, effective 11/23/11]

701—26.44(422) Test laboratories. Persons engaged in the business of providing laboratory testing of any substance for any experimental, scientific or commercial purpose, except for tests on humans, are rendering, furnishing or performing a service, the gross receipts from which are subject to tax. Included within the meaning of the phrase “test laboratories” are mobile testing laboratories and field testing by test laboratories. Test laboratory services performed on animals on or after July 1, 1991, are also exempt from tax.

This rule is intended to implement Iowa Code sections 422.43 and 423.2.

¹**701—26.45(422) Termite, bug, roach, and pest eradicators.** Persons engaged in the business of eradicating or preventing the infestation by termites, bugs, roaches, and all other living pests are rendering, furnishing, or performing a service, the gross receipts from which are subject to tax. Persons who eradicate, prevent, or control the infestation of any type of pest by spraying or other means are rendering, furnishing, or performing a service, the gross receipts from which are subject to tax. Included in the performance of this taxable service are persons who eradicate, prevent, or control pest infestations in farmhouses, in outbuildings (such as machine and livestock buildings) and in other structures (such as grain bins) used in agricultural production. However, persons who spray cropland used in agricultural production to eradicate or prevent infestation of the cropland by pests are performing a service which is not taxable. See 701—subrule 17.9(3) for a definition of “agricultural production.”

¹ Effective date (7/8/98) delayed until July 16, 1998, by the Administrative Rules Review Committee at its meeting held June 9, 1998.

701—26.46(422) Tin and sheet metal repair. Persons engaged in the business of repairing tin or sheet metal, whether the same has or has not been formed into a finished product are rendering, furnishing or performing a service, the gross receipts from which are subject to tax.

701—26.47(422) Turkish baths, massage, and reducing salons. Persons engaged in the business of operating Turkish baths, reducing salons, or in the business of massaging, excluding services provided by massage therapists licensed under Iowa Code chapter 152C, are rendering, furnishing, or performing a service, the gross receipts from which are subject to tax. “Turkish baths” shall mean any type of facility wherein the individual is warmed by steam or dry heat. “Reducing salons” shall mean any type of establishment which offers facilities or a program of activities for the purpose of weight reduction. “Massaging” shall include the kneading, rubbing, or manipulating of the body to condition the body, but not include any body manipulation undertaken and incidental to the practice of one or more of the healing arts. Persons engaged in the business of operating health studios which, as a part of their operation, offer any or all of the services of Turkish baths, massages, or reducing facilities or programs shall be subject to tax upon the gross receipts from the above-named service.

This rule is intended to implement Iowa Code section 422.43(11) as amended by 1998 Iowa Acts, chapter 1163.

701—26.48(422) Vulcanizing, recapping or retreading. Prior to May 18, 1984, persons engaged in the business of recapping or retreading tires for any vehicle or vulcanizing any type of product for others are rendering, furnishing or performing a service, the gross receipts from which are subject to tax. For the

purposes of this rule, vulcanizing shall mean the act or process of treating crude rubbers, synthetic rubber, or other rubber-like material with a chemical and subjecting it to heat in order to increase its strength and elasticity. On and after May 18, 1984, the sale of vulcanizing, recapping or retreading is treated as a sale of tangible personal property. See rule 701—16.51(422,423) for the effects of this change and for certain changes in the treatment of vulcanizing, recapping or retreading for the period beginning January 1, 1979, and ending May 17, 1984.

701—26.49 Rescinded, effective 3/18/87.

701—26.50(422) Weighing. Persons engaged in the business of weighing any item of tangible personal property are rendering, furnishing or performing a service, the gross receipts from which are subject to tax.

701—26.51(422) Welding. Persons engaged in the business of welding materials whether for the purpose of mending existing articles, adding to them or creating new articles are rendering, furnishing or performing a service, the gross receipts from which are subject to tax.

701—26.52(422) Well drilling. Persons engaged in the business of well drilling who perform repair services are rendering a service, the gross receipts from which are subject to tax. Services within the ambit of subrule 26.2(1) are not subject to tax.

701—26.53(422) Wrapping, packing and packaging of merchandise other than processed meat, fish, fowl and vegetables. Persons engaged in the business of wrapping, packing and packaging of merchandise other than processed meat, fish, fowl and vegetables are rendering, furnishing or performing a service, the gross receipts from which are subject to tax. If the person “wraps, packs or packages” merchandise as a service incidental to the sale of such merchandise and does not charge for the service, no sales or use tax, in addition to that paid on the purchase price of the merchandise, need be collected or remitted. However, if a separate charge be made for “wrapping, packing or packaging,” the gross receipts therefrom are subject to tax.

701—26.54(422) Wrecking service. Persons engaged in the business of wrecking, tearing down, defacing or demolishing tangible personal or real property or any parts thereof are rendering, furnishing or performing a service, the gross receipts from which are subject to tax.

701—26.55(422) Wrecker and towing. Persons engaged in the business of towing any vehicle by means of pushing, pulling, carrying or freeing any vehicle from mud, snow or any other impediment, including hoisting incidental thereto, are rendering, furnishing or performing a service, the gross receipts from which are subject to tax. The gross receipts from service charges made when any person travels to any place to lift, extricate or tow any vehicle or to salvage any vehicle are subject to tax. Towing does not include transporting operable vehicles from one location to another where no operative aspect of such vehicle is integral to such transporting. The exemption for transportation services shall not apply.

26.55(1) “*Vehicle*” means every device in, upon, or by which any person or property is or may be transported or drawn upon a highway. “*Vehicle*” does not include:

- a. Any device moved by human power.
- b. Any device used exclusively upon stationary rails or tracks.
- c. Any steering axle, dolly, or other integral part of another vehicle, except an auxiliary axle as defined in 26.55(2) which in and of itself is incapable of commercially transporting any person or property but is used primarily to support another vehicle.
- d. Any integral part of a truck tractor or road tractor which is mounted on the frame of the truck tractor or road tractor immediately behind the cab and which may be used to transport persons and property but which cannot be drawn upon the highway by the truck tractor or another motor vehicle.

26.55(2) “*Auxiliary axle*” means a transferable axle with pneumatic tires utilized to convert any single axle to a tandem axle, or to convert any semitrailer to a full trailer with four or more wheels and which may be registered as if a vehicle.

This rule is intended to implement Iowa Code sections 422.43 and 423.1(7).

701—26.56(422) Cable and pay television. On and after July 1, 1990, persons engaged in the business of distributing the signals of one or more television broadcasting stations, or other television programming to subscribers, and using any transmission path, including a cable, for these signals are rendering the service of “pay television,” the gross receipts of which are subject to tax. Thus, the gross receipts from a service broadcasting signals from a satellite directly to a customer’s “satellite dish” or other receiving antenna would be taxable. Also taxable as the gross receipts from a “pay television service” would be the rental of any device used for decoding scrambled signals received from a communications satellite.

On and after July 1, 1985, and prior to July 1, 1990, the service of “cable television” only, rather than “pay television” was subject to tax. Thus, only if television programming was transmitted to subscribers by means of a cable during this five-year period were the gross receipts of that service subject to tax. A cable television service would include any facility using fiber optics as a transmission path for its distribution of signals to its customers. Prior to July 1, 1990, the gross receipts of a company broadcasting signals from a satellite directly to a customer’s “satellite dish” or other receiving antenna would not be subject to tax as the service of “cable television”; however, such a system could be a taxable “communication service.” See rule 701—18.20(422). The gross receipts from the installation of cable television service, separately itemized and billed, are not subject to tax.

The following television services are taxable, in any event, on and after July 1, 1990. These services are also taxable on and after July 1, 1985, if transmitted to viewers by way of a cable: the gross receipts from payments to view single events, as well as subscription payments are subject to tax. Also subject to tax are the gross receipts from any television service serving fewer than 50 subscribers or serving only customers in one or more multiple unit dwellings under common ownership, control, or management. Any person distributing signals to television screens in auditoriums or other buildings which show boxing matches and other events for viewing by a paying audience is in the business of providing a television service. Gross receipts from providing these signals to exhibitors of boxing matches or other events are subject to tax.

See 701—subrule 18.5(3) and rule 701—18.39(422,423) for a description of the special circumstance regarding taxation and nontaxation of municipally owned pay television service.

See rule 701—18.43(422,423) for an exemption applicable to cable television only for written contracts in effect on April 1, 1985.

This rule is intended to implement Iowa Code subsection 422.43(11).

701—26.57(422) Camera repair. The gross receipts from repair of any still photograph, motion picture, video, or television camera are subject to tax. Included within the term “camera repair” is the repair of any camera part which may be detached from the camera body but which can be used only with a camera and would ordinarily be considered a part of the camera. Nonexclusive examples of such accessories are: detachable lenses, flash units and motor drives.

This rule is intended to implement Iowa Code subsection 422.43(11).

701—26.58(422) Campgrounds. On and after July 1, 1985, the gross receipts from “campgrounds” are subject to tax. A “campground” is any location at which sites are provided for persons to place their own temporary shelter, such as a tent, travel trailer or motor home. Excluded from this characterization of “campground” is any hunting, fishing or other type of camp at which accommodations are provided in cabins or other permanent structures. The gross receipts from the operation of these camps were taxable prior to July 1, 1985, and remain taxable after that date. See rule 701—18.40(422,423). The gross receipts from the use of a site at a campground are subject to tax even if rented by the same person for a period of more than 31 consecutive days.

Included within the meaning of “gross receipts” from the services of a campground are any mandatory or optional charges imposed on persons using a site on the campground. These include, but are not limited to, campground entry fees, electric, water and sewer fees, fees for the use of swimming pools or showers, and fees for the privilege of keeping extra persons or extra vehicles at the campsite. The gross receipts from the use of any state park as a campground are subject to tax. The gross receipts from the use of any county or municipal park as a campground are exempt from tax.

Excluded from this characterization of the gross receipts from a campground are any charges to persons who are not residing on a site at the campground and who are, therefore, not camping there. Charges to such persons for the use of picnic areas, swimming pools, hiking trails or hayrides are not the gross receipts from a campground, but are the gross receipts from “commercial recreation” which are subject to tax and were subject to tax prior to July 1, 1985. See rule 701—26.24(422). Fees charged which allow entry for a vehicle to any state, county or municipal park (commonly called “park user fees”) shall not be subject to tax.

See rule 701—18.43(422,423) for an exemption for written contracts in effect on April 1, 1985.

This rule is intended to implement Iowa Code subsection 423.43(11).

701—26.59(422) Gun repair. On and after July 1, 1985, the gross receipts from “gun repair” are subject to tax. The term “gun repair” means the repair of any pistol, revolver or other hand gun, as well as the repair of any shoulder or hip-fired gun such as a rifle or shotgun. See *State v. Christ*, 177 N.W. 54 (Iowa 1920).

See rule 701—18.43(422,423) for an exemption for written contracts in effect on April 1, 1985.

This rule is intended to implement Iowa Code subsection 422.43(11).

701—26.60(422) Janitorial and building maintenance or cleaning. On and after July 1, 1985, gross receipts from janitorial services and building maintenance and cleaning are subject to tax. “Janitorial services” means the type of cleaning services performed by a janitor in the regular course of duty, whether such services are performed individually, under separate contract, or are included within a general contract to perform a combination of such services. The term includes, but is not limited to, contracts to perform interior window washing, floor cleaning, vacuuming and waxing, the cleaning of interior walls and woodwork, and cleaning of restrooms and furnaces. Also included within the meaning of the term is the movement of furniture and other items of personal property within a building. Persons performing either one or a number of janitorial services are engaged in a business, the gross receipts of which are subject to tax. Therefore, for example, a person engaged only in cleaning the interior windows of a building is engaged in taxable janitorial services.

The gross receipts from services which would otherwise be considered “janitorial” services are not subject to tax if those services are performed in a private residence, including an apartment or multiple housing unit, and the person paying for the services is an occupant of the residence. Such services are more in the nature of “housekeeping” than “janitorial” services and are not taxable.

Cleaning of the exterior walls or windows of any building or any other act performed upon the exterior of a building with the intent to keep the building in good upkeep or condition, other than a repair, is the service of “building maintenance.” Its gross receipts are subject to tax. Excluded from “building maintenance” is any service performed upon the exterior of a building which is a private residence and which is paid for by an occupant of the building.

Janitorial services or building maintenance performed on or in connection with new construction, reconstruction, alteration, expansion or remodeling of structure is exempt from tax. See rule 701—19.13(422,423).

See rule 701—18.43(422,423) for an exemption for written contracts in effect on April 1, 1985.

This rule is intended to implement Iowa Code subsection 422.43(11).

701—26.61(422) Lawn care. On or after July 1, 1985, persons engaged in the business of “lawn care” are performing a service, the gross receipts of which are subject to tax. “Lawn care” includes but is not limited to the following services: mowing, trimming, watering, fertilizing, reseeding, resodding, and

killing of insects, moles, other vermin, weeds, or fungi which may be threatening a lawn. Persons who mow lawns are providing a taxable service regardless of their ages.

See rule 701—18.43(422,423) for an exemption for written contracts in effect on April 1, 1985.

The term “lawn” is commonly defined as an “open space between woods or ground (as around a house or in a garden or park) that is covered with grass and is generally kept mowed” or required to be kept mowed. (Webster’s New Collegiate Dictionary (1979).) Based on this general definition of “lawn,” the following are nonexclusive examples of properties which would be subject to tax as “lawn care”: cemetery grounds, golf courses, parks, and residential or commercial properties containing one or more buildings or structures. The mowing of grass within a ditch is not the taxable service of lawn care.

This rule is intended to implement Iowa Code subsection 422.43(11).

701—26.62(422) Landscaping. On or after July 1, 1985, the gross receipts from the service of “landscaping” are subject to tax. The services performed by one who arranges and modifies the natural condition of a given parcel or tract of land so as to render the land suitable for public or private use or enjoyment is engaged in the business of “landscaping.” Any services for which registration is required as a “landscape architect” under Iowa Code section 544B.2 are not subject to tax on the service of “landscaping” if performed by a registered landscape architect and separately stated and separately billed on a charge for landscape architecture. The gross receipts from landscaping performed on or in connection with new construction, reconstruction, alteration, expansion or remodeling of a building or structure shall not be subject to tax. See rule 701—19.13(422,423).

See rule 701—18.43(422,423) for an exemption for written contracts in effect on April 1, 1985.

This rule is intended to implement Iowa Code subsection 422.43(11).

701—26.63(422) Pet grooming. On or after July 1, 1985, persons engaged in the business of pet grooming are rendering a service, the gross receipts of which are subject to tax. A “pet” is any animal which has been tamed or gentled and which is kept by its owner for pleasure or affection rather than for utility or profit. “Grooming” consists of any act performed to maintain or improve the appearance of a pet and includes, but is not limited to, washing, combing, currying, hair cutting and nail clipping. Livestock are not pets, and the gross receipts from the grooming of livestock (e.g., to prepare those livestock for exhibition at fairs or shows) are nontaxable gross receipts. The gross receipts paid to any person who is not a veterinarian for the grooming of any dog (other than a Seeing Eye dog) or cat will be presumed to be the gross receipts from “pet grooming” and subject to tax.

If pet grooming is done for veterinary purposes, the sales tax does not apply since the grooming is an integral part of the nontaxable service of veterinary care. If pet grooming is done for both veterinary and cosmetic reasons, the primary purpose for the treatment will determine if sales tax should be collected. In situations where the charge for the cosmetic treatment and the veterinary-related treatment can be invoiced separately, sales tax should be collected only on the cosmetic portion of the billing. It will be presumed that pet grooming activities such as washing, trimming, and cutting are for cosmetic purposes unless it can be shown that the treatment was primarily done for veterinary purposes.

See rule 701—18.43(422,423) for an exemption for written contracts in effect on April 1, 1985.

This rule is intended to implement Iowa Code subsection 422.43(11).

701—26.64(422) Reflexology. On and after July 1, 1985, persons engaged in the business of reflexology are rendering a service, the gross receipts of which are subject to tax. “Reflexology” is a system for the treatment of illness which assumes that certain “reflex points” exist in the feet or hands and that each of these reflex points is related to the health of one organ or portion of the body. By massaging these reflex points, a “reflexologist” seeks to alleviate nervous tension, and by this alleviation to relieve arthritis, headaches, backaches, stiff necks and other ailments.

See rule 701—18.43(422,423) for an exemption for written contracts in effect on April 1, 1985.

This rule is intended to implement Iowa Code subsection 422.43(11).

701—26.65(422) Tanning beds and tanning salons. On or after July 1, 1985, persons engaged in the business of providing tanning beds and tanning salons are performing a service, the gross receipts of which are subject to tax.

See rule 701—18.43(422,423) for an exemption for written contracts in effect on April 1, 1985.

This rule is intended to implement Iowa Code subsection 422.43(11).

701—26.66(422) Tree trimming and removal. On or after July 1, 1985, persons engaged in the business of tree trimming and removal are performing a service, the gross receipts of which are subject to tax. Persons engaged in “stump removal” are engaged in a taxable service, as are persons engaged in the removal of any other portion of a tree, such as the branches or trunk. The trimming or removal of any shrub which has a woody main stem or trunk with branches shall constitute tree trimming or removal and the gross receipts from the trimming or removal of such a shrub shall be subject to tax. Persons engaged in the business of tree trimming and removal who cut the wood from the trees which they trim or remove into sizes suitable for sale as firewood and who sell this wood for firewood are engaged in the sale of tangible personal property, and the gross receipts from the sale of this wood are subject to tax. The services of persons who trim or remove trees and sell the wood which they have cut are not services sold for resale and are subject to tax.

See rule 701—18.43(422,423) for an exemption for written contracts in effect on April 1, 1985.

This rule is intended to implement Iowa Code subsection 422.43(11).

701—26.67(422) Water conditioning and softening. On and after July 1, 1985, persons engaged in the business of water conditioning and softening are performing a service, the gross receipts of which are subject to tax. “Water softening” means the removal of minerals from water to render it more suitable for drinking and washing. “Water conditioning” means any action other than water softening taken with respect to water which renders the water fit for its intended use or more healthful or enjoyable for human consumption. The phrase “water conditioning” includes but is not limited to water filtration, water purification, deionization and reverse osmosis. The service of water purification is taxable whether performed for residential, commercial, industrial, or agricultural users.

See rule 701—18.43(422,423) for an exemption for written contracts in effect on April 1, 1985.

This rule is intended to implement Iowa Code subsection 422.43(11).

701—26.68(422) Motor vehicle, recreational vehicle and recreational boat rental. On and after July 1, 1985, the gross receipts from the rental of certain motor vehicles subject to registration, which are registered for a gross weight of 13 tons or less, recreational vehicles and recreational boats are subject to tax.

26.68(1) Use of vehicles and boats with drivers or operators. For the purposes of this rule, if the services of a driver or operator are provided as part of the fee for the use of any vehicle or boat, no rental of the vehicle or boat has occurred. Even though the person using the vehicle or boat has the right to control the driver’s or operator’s movements, the gross receipts from use of the vehicle are not subject to tax as vehicle or boat rental. If the vehicle or boat is rented from one person and the services of the driver or operator rented from another, tax will apply.

26.68(2) Rental of vehicles subject to registration.

a. “Certain long-term” leases not subject to tax. The gross receipts from the leasing of any vehicle subject to registration for a gross weight of 13 tons or less are not subject to tax if the lease is a written agreement providing for the lease of the vehicle for more than 60 days and if the lessor, at the time of the signing of the lease, is licensed under Iowa Code chapter 321F. On or after January 1, 1997, a use tax shall be imposed on the lease price of certain motor vehicles leased for a period of 12 months or more. See rule 701—31.5(423).

b. Transactions subject to Iowa sales tax. A “rental” of tangible personal property, such as a vehicle subject to registration, occurs when one person transfers possession of tangible personal property to another person for temporary possession and use, pursuant to contract, *A.C. Nelsen Auto Sales v. Turner*, 44 N.W.2d 36 (Iowa 1950) and *Ballstadt v. Iowa Department of Revenue*, 368 N.W.2d

147 (Iowa 1985). Therefore, a “rental” of a vehicle has occurred in Iowa when, pursuant to a rental contract, possession of a vehicle is transferred to a customer in this state unless paragraph “a” of this subrule is applicable. The tax is collectible when any lump-sum or periodic payment is due under the rental agreement and paid in Iowa. Transfer of possession of the vehicle must have occurred in Iowa; the contract for rental of the vehicle need not have been executed here. Sales tax is payable on transfer to a customer upon possession of a rented vehicle in Iowa regardless of whether the vehicle is subsequently used exclusively in interstate commerce or not if payment by the customer is made in Iowa.

EXAMPLE 1. Customer A signs a rental contract with and takes possession of a rental car from an office of a rental agency located in Des Moines. Thereafter, A drives the car from Des Moines to Dubuque, Iowa, and back. In Des Moines, the rental agency collects gross receipts from the rental of \$100. Such gross receipts would be subject to tax. If the customer had driven the rental car from Des Moines to Madison, Wisconsin, and back to Des Moines, the gross receipts would also be subject to tax.

EXAMPLE 2. Customer B enters into a contract to rent an automobile with a rental agency’s office located in Omaha, Nebraska. B takes possession of the car rented under the contract at the rental agency’s office in Council Bluffs, Iowa. B then drives the car from Council Bluffs to Dubuque and back. All gross receipts from the rental are subject to Iowa sales tax since delivery and payment occurred in Iowa.

EXAMPLE 3. Customer C enters into a contract to rent and takes possession of a rented automobile in Des Moines. Thereafter, C drives the vehicle to California and returns the vehicle to the rental agency’s office in Los Angeles, and there pays a total charge for the rental of \$300. No Iowa sales tax is due. Transfer of possession occurred here, but payment under the lease did not.

EXAMPLE 4. Customer D rents and takes possession of a truck in Des Moines. Before taking possession, D pays the rental agency a \$500 deposit. Rental of the truck is on a mileage and per-day basis. Customer D drives the truck to Phoenix, Arizona. There it is discovered that the mileage and per-day charges add up to \$600. Customer D pays the rental agency an additional \$100 in Phoenix. Iowa sales tax is due upon the \$500 deposit paid in Des Moines but not on the \$100 paid in Phoenix. Only the payment made under the lease in Iowa is subject to tax.

EXAMPLE 5. Customer E rents a car in Chicago, Illinois, and drives it to Des Moines. In Des Moines E pays \$200 for the use of the car. Although payment under the lease occurred in Iowa, transfer of possession of the vehicle did not take place here. This transaction is not subject to sales tax but may be subject to use tax; see rule 701—33.8(423).

26.68(3) Tax collected from customer. The person renting any vehicle subject to registration must collect from the customer and remit to the state of Iowa sales tax on each and every rental payment made in Iowa, no matter how calculated. Tax must be remitted for the period in which each rental payment is due and owing. Rental payments whether calculated in one lump sum, or on a mileage basis, or periodically are subject to tax. Also subject to tax are any charges, such as those for compulsory insurance, which are characterized as something other than rent payments but which are required to be paid as a condition of the rental. Specifically, but not exclusively excluded from the meaning of gross receipts from rental of a vehicle subject to registration are items such as optional collision damage waiver fees, optional personal accident insurance fees, and fuel. If these charges are not to be included as part of rentals, a charge must be separately stated, separately itemized, and the charge cannot be required as a condition of the rental.

Effective July 1, 2002, all airport-imposed fees charged to a customer for the rental of a vehicle are not subject to Iowa sales or use tax, if separately itemized.

26.68(4) Recreational boats. The term “recreational boats” includes, but is not limited to, sailboats, rowboats, motorboats, paddleboats, and canoes. The gross receipts from the sale of tickets on river steamboats carrying passengers for pleasure rides are not taxable as the gross receipts of “recreational boat” rental but are taxable as the gross receipts from an “amusement enterprise.” See rule 701—16.32(422).

26.68(5) Recreational vehicles. The term “recreational vehicles” includes, but is not limited to, bicycles, go-carts, golf carts and horse-drawn wagons or carriages, if rented without a driver. Rental of a recreational vehicle that is a vehicle subject to registration is also subject to tax.

This rule is intended to implement Iowa Code sections 422.45 and 423.7A and section 516D.3(6) as amended by 2002 Iowa Acts, House File 2622, section 29.

701—26.69(422) Security and detective services. On or after July 1, 1985, persons engaged in the business of providing security or detective services are performing services, the gross receipts of which are subject to tax.

26.69(1) Security service characterized. Any person who provides a service, the purpose of which is to protect property from theft, vandalism or destruction or individuals from physical attack or harassment is providing a “security service.” Persons engaged in the following services are providing a taxable security service. The list is not exclusive: rental of guard dogs, burglar and fire alarm systems; providing security guards, bodyguards and mobile patrols; and protection of computer systems against unauthorized penetration.

26.69(2) Detective services characterized. Persons engaged, for a consideration, in the service of investigation for the purpose of obtaining information regarding any one or more of the following matters are engaged in the business of providing a “detective service,” and their gross receipts shall be subject to tax. Investigation of crimes or wrongs done or threatened; the habits, conduct, movements, whereabouts, associations, transactions, or reputation or character of any person; the credibility of witnesses or other persons; the investigation or recovery of lost or stolen property or the cause, origin, or responsibility for fires, accidents, or injuries to property; the investigation of the truth or falsity of any statement or representation; the detection of deception; or the business of securing evidence to be used before authorized investigating committees, boards of award or arbitration, or in the trial of civil or criminal cases. The services of a peace officer engaged privately in security or detection work are also subject to tax.

26.69(3) Gross receipts not subject to tax. Gross receipts from the following activities are not subject to tax as the gross receipts from security or detective services.

- a. The services of a person employed full- or part-time by an employer in connection with the affairs of the employer.
- b. The services of an attorney licensed to practice in Iowa, while performing duties as an attorney.
- c. The services of a person engaged exclusively in the business of obtaining and furnishing information regarding the financial rating or standing and credit of any person.
- d. The services of a person exclusively engaged, either as an employee or an independent contractor, in making investigations and adjustments for insurance companies.
- e. The service of notice, or any other document, to a party, witness or any other person in connection with any criminal, civil or administrative litigation.
- f. The service of soliciting any debtor to pay or collecting payment for any debt.
- g. The service of securing information regarding the fitness or unfitness of any individual for prospective employment, if such information is secured by written or electronic communication only, e.g., checking of résumés.
- h. Services as a consultant, who is rendering advice or providing training with regard to security and detection matters.

26.69(4) Charges excluded from gross receipts. Mileage and other travel expenses, lodging and meal expenses, fees paid for records, and amounts paid for information do not constitute a portion of the gross receipts from security or detective services if separately identified, separately billed and reasonable in amount.

See rule 701—18.43(422,423) for an exemption for written contracts in effect on April 1, 1985.

This rule is intended to implement Iowa Code subsection 422.43(11).

701—26.70(422,423) Lobbying. Rescinded IAB 11/14/01, effective 12/19/01.

701—26.71(422,423) Solid waste collection and disposal services.**26.71(1) Definitions.**

a. “*Solid waste*” is garbage, refuse, or sludge from a water supply treatment plant or air contaminant treatment facility, and other discarded waste materials and sludges, in solid, semisolid, liquid, or contained gaseous form, resulting from nonresidential commercial operations, but does not include hazardous waste; animal waste used as fertilizer; earthen fill, boulders, rock; foundry sand used for daily cover at a sanitary landfill; sewage sludge; solid or dissolved material in domestic sewage or other common pollutants in water resources, such as silt, dissolved or suspended solids in industrial wastewater effluents or discharges which are point sources subject to permits under Section 402 of the federal Water Pollution Control Act, dissolved materials in irrigation return flows; or source, special nuclear, or by-product material defined by the federal Atomic Energy Act of 1954. On or after July 1, 1994, the term also excludes auto hulks, street sweepings, ash, construction debris, mining waste, trees, tires, lead acid batteries and used oil.

b. Rescinded IAB 10/12/94, effective 11/16/94.

c. “*Agricultural operations*.” An agricultural operation is any enterprise engaged in the raising of crops or livestock for market on an acreage. Included within the meaning of the term are feed lots; operations growing and raising hybrid seed corn or other seed for sale to farmers; nurseries; ranches; orchards and dairies. Excluded from the meaning of the term are commercial greenhouses; logging; beekeeping; catfish raising operations; those engaged in the production of Christmas trees; and those raising nondomesticated animals, such as mink, or nondomesticated fowl. The above list of inclusions and exclusions from the term “agricultural operation” is not exhaustive.

d. “*Industrial operation*.” A business is an “industrial operation” if its purchases or rentals of machinery or equipment are eligible for the Iowa sales and use tax exemption for industrial machinery and equipment. See Iowa Code subsection 422.45(27).

e. “*Mining operation*.” A mining operation is one engaged in either underground mining, strip mining, or quarrying.

f. “*Nonresidential commercial operation*.” Any operation which is an industrial, commercial, agricultural, or mining operation whether for profit or not. Included within the meaning of the term “nonresidential commercial operation” are hotels and motels. Excluded from the meaning of the term are apartment complexes, mobile home parks, or a single-family or multifamily dwelling. The word “commercial” is not to be understood in a narrow sense as referring only to a “for profit” operation, but in the broader sense of that word to refer to all organizations (for instance, churches, charities, and fraternal organizations) that are involved in the buying and selling of goods and services in the marketplace generally.

Examples of “nonresidential commercial operations” include the following: professional firms (doctors, lawyers, accountants, or dentists); restaurants; repair persons; persons selling and renting all sorts of tangible personal property; persons selling insurance of all kinds; appraisers; the skilled trades (e.g., plumbers, carpenters, and electricians); construction contractors; banks and savings and loans; barbers and beauticians; day care centers; counseling services; employment agencies; janitorial services; landscapers; painters; pest control; photography; printing; realtors; storage services; the United Way; the American Cancer Society; the Elks and Masons; churches, synagogues, and mosques; and not-for-profit hospitals which are not licensed under Iowa Code chapter 135B. This term does not include not-for-profit hospitals which meet the criteria of Iowa Code section 422.45(54). These examples are not exclusive.

26.71(2) Tax imposed. On and after April 1, 1992, gross receipts from the sale, furnishing, or service of solid waste collection and disposal are taxable.

Date of billing controls imposition of tax. Gross receipts from the sale, furnishing, or service of solid waste collection and disposal are subject to the Iowa sales tax if the date for the retailer’s billing of a customer falls on or after April 1, 1992. If a bill itself contains no billing date, the date of billing is the billing date set out in the retailer’s books and records. If a retailer’s books and records contain no billing date and the bill is sent by mail, the date of the bill is the postmark on the letter containing it.

26.71(3) Retailers obligated to collect the tax. Counties and municipalities which provide the service of solid waste collection and disposal to nonresidential commercial operations are obligated to collect Iowa sales tax upon the gross receipts from the provision of those services. A city or county providing the service of solid waste disposal is a “retailer” obligated to collect tax from these operations.

Any person who has contracted to provide solid waste collection and disposal service to a city or municipality is obligated to collect tax upon the gross receipts from that service performed for the city or county on behalf of nonresident commercial operations located within the city or county.

EXAMPLE: City D contracts with ABC Disposal Service for ABC to provide solid waste removal to persons within the boundaries of City D. In return for this service, City D pays ABC Disposal Service \$2 million per year. Some of the persons for whom ABC collects and disposes of solid waste are retail sales businesses, another is a manufacturing plant, another an apartment building, others are a quarry and turkey raising operation located within the city limits; finally, a number of persons whose garbage is collected by ABC are residents who own or rent their homes. ABC must collect tax from City D upon that portion of its business which is attributable to the service of solid waste collection and disposal which ABC provides to the city on behalf of the nonresident commercial operations located within City D. See subrule 26.71(4) for suggestions concerning formulas which ABC might use to compute the amount of tax which it is obligated to collect from City D.

26.71(4) Retailers who provide both taxable and nontaxable solid waste collection and disposal service. A retailer who is paid in one lump sum by a customer for providing both taxable and nontaxable solid waste collection and disposal service may, depending upon circumstances, collect tax upon all, none, or some of the proceeds collected from the customer. A retailer must collect tax upon all proceeds from a customer if nontaxable services rendered are only incidental to the retailer’s taxable services. If taxable services rendered are incidental to nontaxable services rendered, then a retailer need not collect tax upon any of its receipts from a customer. If a substantial portion of the service which a retailer performs is taxable and a substantial portion of the service which it performs is nontaxable, then the retailer must collect tax upon that portion of its proceeds which reflects its taxable service and exclude from tax that portion of its proceeds derived from its nontaxable service.

A retailer may, after filing a petition with and securing the approval of the department, use a formula to determine the amount of taxable and nontaxable services which it performs for any one customer. This formula can then be utilized to calculate the retailer’s taxable gross receipts.

EXAMPLE: ABC Disposal Service is providing solid waste disposal service to Company D. Company D owns 100 residential apartment units and a building containing 20 office suites. Under the contract between ABC and Company D, in return for collecting Company D’s garbage, ABC bills Company D \$750 per month. Part of this billing is, of course, for the nontaxable service of garbage collection from the residential apartment units and part for the taxable service of collecting garbage from the office building. In this instance, the ideal method of separating taxable gross receipts from nontaxable proceeds would be by a formula. A possible formula would be by weight. Assume that 1000 pounds of garbage per month is collected from the apartment building and 500 pounds from the office building. In this case, taxable gross receipts would be computed as follows:

$$\frac{500}{1000 + 500} = 1/3 = \text{Percentage of garbage collected from the taxable office building.}$$

$$750 \times 1/3 = 250 = \text{Taxable gross receipts from the $750 proceeds.}$$

Other possible bases for a formula include number of units of taxable and exempt operations or number of square feet of taxable and exempt operations if these reasonably reflect the amount of taxable and exempt service performed for any one customer. The department will approve any formula which realistically reflects the amount of taxable and nontaxable work performed for a single customer and paid in one lump sum. Any petition for use of a formula must contain an adequate description of the

petitioner's operation, the formula which will be applied to it and why this formula accurately reflects the taxable and nontaxable work performed by the petitioner.

26.71(5) Tax imposed upon disposal charges or tipping fees. Persons who transport solid waste generated by the transporter or who transport, without compensation, solid waste generated by another person shall pay the tax set out in this rule at the collection or disposal facility to which the waste is transported. The gross receipts shall be based upon the disposal charge or tipping fee imposed by the facility. Also, the amount of any disposal charge or tipping fee imposed as a part of the service of collecting and managing recyclable materials separated from solid waste by the waste generator is excluded from the gross receipts of the tax set out in this subrule.

EXAMPLE: John's Quick Lube hauls its own solid waste to the local landfill. There, once a week, John's Quick Lube pays \$50 to dump all the solid waste which it generates into the landfill, except for the used motor oil which it collects from its customers. John's Quick Lube pays the landfill operator another \$50 per week to collect this used oil and send it on to a different location for recycling into new products. In this case, John's Quick Lube is obligated to pay sales tax upon the \$50 disposal fee charged for the solid waste which enters the landfill. However, exempted from tax is the \$50 paid to the landfill operator to store and pass on the used motor oil. In addition to used motor oil, "recyclable materials" means materials such as paper, glass, metals (e.g., copper, aluminum and iron), and batteries, so long as these materials are separated from other solid waste for the purpose of recycling.

26.71(6) Exemption for a "recycling facility." The gross receipts from the service of solid waste collection and disposal provided to a recycling facility which separates or processes recyclable materials and, as a result of that separation or processing, reduces the volume of the waste collected by at least 85 percent are exempt from tax if the waste is collected and disposed of separately from other solid waste. "Recycling facilities" are those facilities where recyclable materials are separated or processed for the purpose of reusing the materials in their original form or using them in manufacturing processes that do not cause the destruction of the recyclable materials in a manner that precludes further use. Because of this, facilities that separate or process recyclable materials for use as fuel are not eligible for this exemption. An example of a qualifying recycling facility is a facility which produces insulation from used glass.

This rule is intended to implement Iowa Code section 422.43.

701—26.72(422,423) Sewage services.

26.72(1) Definitions.

- a. "Sewage service" is the service of collecting rainwater and other liquid and solid refuse or excreta for drainage or purification by means of pipes, channels, or conduits usually placed underground.
- b. "Agricultural operations." This phrase has the meaning ascribed to it in 26.71(1)"c."
- c. "Industrial operations" has the meaning ascribed to it in 26.71(1)"d."
- d. "Mining operation." This term has the meaning ascribed to it in 26.71(1)"e."
- e. "Nonresidential commercial operation." This phrase has the meaning ascribed to it in 26.71(1)"f."

26.72(2) Tax imposed. On and after April 1, 1992, gross receipts from the sale, furnishing, or service of sewage service provided to nonresidential commercial operations are taxable.

The date of billing controls the imposition of the tax. Gross receipts from sewage service are subject to Iowa sales tax if the date for the service provider's billing of a customer falls on or after April 1, 1992. If a bill itself has no billing date, the date of billing is the date set out in the provider's books and records. If a provider's books and records contain no billing date and the bill is sent by mail, the date of the bill is the postmark on the letter containing the bill.

26.72(3) Retailers obligated to collect the tax. Counties, municipalities, sanitary districts, or any other persons which provide sewage service to nonresidential commercial operations are obligated to collect Iowa sales tax upon the gross receipts from the rendering, furnishing, or performing of sewage services to those operations.

Any person who has contracted to provide sewage services to a county or municipality is obligated to collect tax upon the gross receipts from those services performed for the city or county on behalf of nonresident commercial operations located within the city or county.

See subrule 26.71(4) for an explanation of how a retailer who is providing taxable and nontaxable service to the same customer for one lump sum ought to treat the proceeds of such a transaction.

This rule is intended to implement Iowa Code section 422.43.

701—26.73(422,423) Consultant services. Rescinded IAB 6/24/92.

701—26.74(422,423) Aircraft rental. On or after April 1, 1992, the total gross receipts for rental of aircraft are subject to sales and use tax if the rental is for a period of 60 days or less. For purposes of this rule, “aircraft” means the same as the definition in Iowa Code section 328.1, subsection 4, a drone aircraft or aircraft transporting only the pilot.

This rule is intended to implement Iowa Code subsection 422.45(5).

701—26.75(422,423) Sign construction and installation. On or after April 1, 1992, the total gross receipts for the construction and installation of signs are subject to sales and use tax. For purposes of this rule, “sign” means notices erected and maintained for the purpose of providing information, notices, markers, advertising of products or services. A sign includes, but is not limited to, billboards, indoor or outdoor sign devices, and any structure erected and maintained for the purpose of conveying information.

This rule is intended to implement Iowa Code subsection 422.43(11).

701—26.76(422,423) Swimming pool cleaning and maintenance. On or after April 1, 1992, the total gross receipts for the cleaning and maintenance of a swimming pool are subject to sales and use tax.

This rule is intended to implement Iowa Code subsection 422.43(11).

701—26.77(422,423) Taxidermy. On or after April 1, 1992, the total gross receipts for the service of taxidermy are subject to sales and use tax. For purposes of this rule, “taxidermy” means the art or operation of preparing, stuffing, or mounting the skin, head, carcass, or part of a carcass of a dead animal.

This rule is intended to implement Iowa Code subsection 422.43(11).

701—26.78(422,423) Mini-storage. On or after April 1, 1992, the total gross receipts from mini-storage are subject to sales and use tax. For purposes of this rule, “mini-storage” means a commercial operation that provides individual storage units of various sizes to persons for the purpose of storing tangible personal property. In some instances mini-storage facilities are fenced and the individual units have an alarm system. Persons leasing individual units generally provide their own security lock and they have sole access to the unit. Mini-storage also includes a secured area in which vehicles, boats, recreational vehicles, and camping trailers and other types of tangible personal property are stored. Mini-storage does not include storage lockers or storage units at apartment complexes for the primary convenience of the tenant. Mini-storage space is not a warehouse. See 26.42(1) “b” for provisions on storage of raw agricultural products and household goods.

This rule is intended to implement Iowa Code subsection 422.43(11).

701—26.79(422,423) Dating services. On and after April 1, 1992, the gross receipts from the service of providing an opportunity for two individuals to meet and interact socially with the possibility of forming a relationship are subject to tax. By way of nonexclusive example: “Dating services” include the services of those who provide an opportunity for individuals to describe themselves to and meet potential partners through videotapes and 900 numbers. Also included within the meaning of the term are escort services. Excluded from the definition of “dating services” are the services of marriage matchmakers, telephone 900 numbers which provide an opportunity only for conversation as opposed to face-to-face meetings, or newspaper and magazine advertisement soliciting for companionship.

This rule is intended to implement Iowa Code subsection 422.43(11).

701—26.80(422,423) Limousine service. On and after April 1, 1992, the gross receipts from the rendering, furnishing, or performing of a limousine service are subject to Iowa sales tax. A limousine service is one which provides a large or luxurious automobile with a driver by prearrangement. A limousine driver does not cruise the streets soliciting or accepting business, so a taxi service is not a limousine service. Charges for a limousine driver, whether billed as a part of or separate from the charges for a limousine, are taxable.

This rule is intended to implement Iowa Code subsection 422.43(11).

701—26.81(422) Sales of bundled services contracts. The gross receipts from sales of bundled services contracts are subject to Iowa sales tax. For purposes of this rule, a “bundled services contract” means an agreement providing for a retailer’s performance of services, one or more of which is a taxable service enumerated in Iowa Code section 422.43 and one or more of which is nontaxable or exempt, in return for a consumer’s or user’s single payment for the performance of the services, with no separate statement to the consumer or user of what portion of that payment is attributable to any one service which is a part of the contract. If that portion of a consumer’s payment for a bundled services contract which is attributable to the performance of a taxable service or services can be segregated by contract or otherwise from that portion of the payment which is attributable to the performance of a service or services which are not taxable, then only that portion of the payment which is attributable to the performance of a taxable service or services is subject to tax.

EXAMPLE 1. Company A provides a bundled services contract which provides the following services to consumers: Internet access, interstate long distance service, intrastate long distance service, local telephone service, cable television service, and computer rental. Gross receipts from the performance of Internet access and interstate long distance services are not taxed under Iowa law. Gross receipts from the performance of the other four services are taxable. Company A offers, in six separate contracts, each service individually to customers for the price of \$25 per month. Company A’s monthly charge for its bundled services contract is \$150. Fifty dollars of the monthly charge for the bundled services contract, that portion which represents Internet access and interstate long distance services, is excluded from tax. One hundred dollars, that portion of the monthly charge representing the taxable services of intrastate and local telephone service, cable television and computer rental, is taxable.

EXAMPLE 2. Company B offers a contract for the bundled services of long distance telephone service (interstate and intrastate), local telephone service, and Internet access service. Its monthly charge for these bundled services is \$80. The bundled services contract is the only service contract which Company B offers, and there is nothing else in Company B’s notice to the customer to indicate how much of the monthly service charge is attributable to taxable services and how much is attributable to services which are not taxable. Under these circumstances, the entire amount of \$80 is subject to tax.

As of July 1, 2001, for purposes of the administration of the tax on bundled services contracts, the director of the department may enter into agreements of limited duration with individual retailers, groups of retailers, or organizations representing retailers of bundled services contracts. Once approved, such an agreement shall impose the tax rate only upon that portion of the gross receipts from a bundled services contract which is attributable to taxable services provided under the contract.

This rule is intended to implement Iowa Code Supplement section 422.43.

CHAPTER 27
AUTOMOBILE RENTAL EXCISE TAX

701—27.1(422,422C,423) Definitions and characterizations. For the purposes of this chapter, the following definitions and characterizations of words apply.

“Automobile” means a motor vehicle subject to registration in any state and designed primarily for carrying nine or fewer passengers. Excluded from the meaning of the term “automobile” are delivery trucks designed primarily to carry cargo rather than passengers and motorcycles and motorized bicycles.

“Lessor” is a person engaged in the business of renting automobiles to users. Included within the meaning of the term “lessor” are motor vehicle dealers licensed under Iowa Code chapter 322 to sell new and used automobiles who also rent automobiles to users. A person need not be engaged in a profit-making enterprise to be in the business of renting automobiles.

“Rental” is a transfer of possession or right of possession to an automobile to a user for a valuable consideration for a period of 60 days or less.

“Rental price” means the total amount of consideration valued in money for renting an automobile.

“User” is any person to whom possession or right of possession of an automobile is transferred for a valuable consideration for a period of 60 or fewer days.

701—27.2(422,422C,423) Tax imposed upon rental of automobiles. On and after July 1, 1992, a tax at the rate of 5 percent is imposed on the rental price of any automobile if the rental transaction is taxed under Iowa sales or Iowa use tax law. The tax imposed is in addition to the Iowa state sales or use tax.

See rule 701—26.68(422) for a description of automobile rentals which are subject to Iowa sales tax and rule 701—33.8(423) for a description of automobile rentals which are subject to Iowa use tax. These rules should be used with care since they involve vehicles other than an “automobile” as that word is defined for the purpose of this chapter. For instance, rule 701—26.68(422) is concerned with boats and recreational vehicles as well as automobiles and other vehicles subject to registration. Summarizing the essential content of those rules regarding automobiles:

27.2(1) Sales tax is due on the rental price of the “rental” of an automobile if possession or the right to possession of the automobile is transferred, under a rental contract, in Iowa.

27.2(2) Use tax is due on the rental price if an automobile is rented outside Iowa, used in Iowa under the rental contract, and payment of the rental price is made in Iowa at the termination of the rental agreement.

701—27.3(422,422C,423) Lessor’s obligation to collect tax. The lessor shall collect this automobile rental excise tax from the user or from any other person paying the rental price for an automobile. The lessor shall collect the tax by adding the tax to the rental price of the automobile. When collected, the tax shall be stated on any billing or invoice as a distinct item separate and apart from the rental price of the automobile and separate and apart from any state or local option sales or service tax or any state use tax.

701—27.4(422,422C,423) Administration of tax. The excise tax on automobile rental is levied in addition to the state sales and use taxes imposed by Iowa Code chapters 422 and 423. The director of revenue is required to administer this excise tax on motor vehicle rental as nearly as possible in the fashion in which the state sales tax is administered. However, as an exception to this requirement, the director is to require only the filing of quarterly reports for motor vehicle excise tax. Quarterly, the correct amount of tax collected and due shall accompany the tax form prescribed by the department. No permit, other than an Iowa sales or use tax permit, will be required to collect the tax imposed under this chapter. However, the director may require all persons responsible for collecting and remitting motor vehicle rental excise tax to register with the department. For other aspects concerning the details of administering the tax imposed under this chapter see 701—Chapters 10, 11, 12, 13 and 14.

These rules are intended to implement Iowa Code chapters 422C and 423.

[Filed 7/17/92, Notice 6/10/92—published 8/5/92, effective 9/9/92]

TITLE IV
USECHAPTER 28
DEFINITIONS

[Prior to 12/17/86, Revenue Department[730]]

701—28.1(423) Taxable use defined. A “taxable use” is the exercise of any right of ownership over tangible personal property in Iowa by any person owning the property but does not include the right to sell the property in the regular course of business or the right to process or manufacture the property into another article of tangible personal property intended to be sold ultimately at retail.

A taxable use is also an enumerated taxable service rendered, furnished or performed for use in Iowa or the product or result of such enumerated service used in Iowa. For list of enumerated services and exemptions from tax, see 701—Chapter 26.

Laws governing the return of defective vehicles by a purchaser, commonly known as “lemon laws,” are found in Iowa Code chapter 322G. Under Iowa Code chapter 322G, the return of a qualifying defective vehicle to a manufacturer is not a taxable “use.” Consequently, the transfer of the vehicle from a purchaser to a manufacturer pursuant to Iowa Code chapter 322G and the titling and registration of that vehicle by the manufacturer are not subject to Iowa use tax. For refund of use tax paid by a purchaser of a vehicle that is returned under Iowa Code chapter 322G, see 701—34.3(423).

701—28.2(423) Processing of property defined. “Processing of property” is defined to include:

28.2(1) Personal property which forms an integral or component part of the manufactured product which is intended to be sold ultimately at retail.

28.2(2) Property which is consumed as fuel in creating power, heat or steam for processing, including grain drying or generating electric current, or consumed in implements of husbandry engaged in agricultural production.

28.2(3) Property consisting of chemicals, solvents, sorbents or reagents which are directly used, consumed or dissipated in processing personal property which is intended to be sold ultimately at retail, even though such property does not become a component or integral part of the finished product. This ordinarily does not include any item of machinery, tools or equipment.

701—28.3(423) Purchase price defined. “Purchase price” means the total amount for which tangible personal property is sold, valued in money, whether paid in money or otherwise, provided that cash discounts and trade-in allowances allowed and taken on sales or purchases shall not be included.

701—28.4(423) Retailer maintaining a place of business in this state defined. “Retailer maintaining a place of business in this state” or any term similar to it includes any retailer having or maintaining within this state, directly or by a subsidiary, an office, distribution house, sales house, warehouse, or other place of business, or any representative operating within this state under the authority of the retailer or its subsidiary, irrespective of whether that place of business or representative is located here permanently or temporarily, or whether the retailer or subsidiary is admitted to do business within this state pursuant to Iowa Code chapter 490. On and after July 1, 2001, the term also includes any retailer having or maintaining tangible personal property located in Iowa and leased to a lessee of the retailer. The tax is applicable to any lease payments due on or after that date.

This rule is intended to implement Iowa Code subsection 423.1(10) as amended by 2001 Iowa Acts, House File 736.

These rules are intended to implement Iowa Code chapter 423.

CHAPTER 29
CERTIFICATES

[Prior to 12/17/86, Revenue Department[730]]

701—29.1(423) Certificate of registration. A retailer located outside the state who maintains a place of business in this state shall apply to the department for a certificate of registration to collect use tax. [See 701—30.1(423).] Each certificate of registration issued shall be assigned an individual number which shall appear immediately above the registrant's name on the certificate. When invoicing the purchase for use in Iowa, the holder of the certificate shall bill the use tax due as a separate item on the billing or invoice and indicate the registration number.

29.1(1) An application for a certificate of registration for a retailer located outside the state shall show the following:

- a. Business identification name of the person to whom the certificate is to be issued.
- b. Address of the location from which the use tax returns are to be filed.
- c. Names and addresses of all officers, in the case of a corporation; the names of all partners, in the case of a partnership; the name of the owner, in the case of an individual ownership.
- d. Date when the applicant, as a retailer maintaining a place of business in this state, will begin or has begun selling tangible personal property or rendering, furnishing or performing of enumerated taxable services in Iowa or for use in Iowa subject to use tax law.
- e. Names and addresses of all offices, warehouses or other places of business in Iowa, either owned or controlled by the applicant or its subsidiary.
- f. Names and addresses of all agents of the applicant operating in the state either permanently or temporarily.
- g. Names and addresses of all out-of-state locations from which tangible personal property will be delivered in Iowa for use in Iowa and from which billing for the merchandise will be made.
- h. Any other information the department may require.

It shall not be necessary for more than one certificate to be held in order to collect and remit all use tax due, even though shipments and billings may be made from several out-of-state locations.

29.1(2) Reserved.

701—29.2(423) Cancellation of certificate of registration. When the holder of a certificate of registration ceases to sell tangible personal property for use in Iowa, the holder shall immediately notify the department and request cancellation of the certificate of registration.

701—29.3(423) Certificates of resale, direct pay permits, or processing. When tangible personal property or service is sold in interstate commerce for delivery in Iowa, it shall be presumed that such property or service is sold for use in Iowa. The registered seller is required to collect use tax from the purchaser. If the tangible personal property or service sold for delivery in Iowa is not sold for use in Iowa and is not subject to use tax, the seller shall be required to secure a properly written certificate from the purchaser showing the exempt use to be made of the property or service. A seller may also take a valid exemption certificate and not collect use tax from a purchaser if the purchaser pays tax on the purchase directly to the department pursuant to a valid direct pay permit issued by the department.

When the registered seller repeatedly sells the same type of property or service to the same Iowa customer for resale or processing, the seller may, at the seller's risk, accept a blanket certificate covering more than one transaction. For more information regarding exemption certificates and direct pay permits, see rules 701—12.3(422) and 15.3(422,423), respectively.

Suggested forms of certificate may be obtained from the department upon request.

These rules are intended to implement Iowa Code section 422.53 as amended by 1997 Iowa Acts, House File 266, and Iowa Code chapter 423.

[Filed 11/14/97, Notice 10/8/97—published 12/3/97, effective 1/7/98]

CHAPTER 30
FILING RETURNS, PAYMENT OF TAX, PENALTY AND INTEREST
[Prior to 12/17/86, Revenue Department[730]]

701—30.1(423) Liability for use tax and denial and revocation of permit.

30.1(1) Collection responsibility is placed upon all interstate sellers who sell tangible personal property or taxable services for use in Iowa, provided the seller maintains directly or by a subsidiary, an office, distribution house, sale house, warehouse, or other place of business or any representative operating within the state either permanently or temporarily. The term “representative” includes, but is not limited to, agent, employee, and an independent contractor. The seller is required to apply for and hold a certificate of registration and file a retailer’s use tax return. The registered seller shall bill the Iowa customer, show tax as a separate item on the invoice, and indicate thereon the seller’s registration number.

Generally, the following nonexclusive factual situations would constitute sufficient nexus for the state of Iowa to require an out-of-state vendor to collect Iowa use tax:

- a. Out-of-state retailer owns or maintains within Iowa, either directly or by subsidiary, an office, distribution house, warehouse or other place of business.
- b. Out-of-state retailer has a representative located in Iowa permanently or temporarily.
 1. A representative solicits sales in Iowa as an employee of the retailer.
 2. A representative solicits sales in Iowa as an independent broker, or jobber who is under contract with the vendor.
 3. A representative acts as a consultant on behalf of a vendor and, while not taking orders, provides regular and significant services to a customer or customers in Iowa.
- c. Out-of-state retailer installs in Iowa property it sells.
- d. Out-of-state retailer is a construction contractor performing a contract, in whole or in part, in Iowa.
- e. Out-of-state retailer performs service work in Iowa.
- f. Out-of-state retailer regularly engages in delivery of its products by its own trucks in the state of Iowa.

Nelson v. Sears, Roebuck & Company, 312 U.S. 359 (1941); *General Trading Company v. State Tax Commission of the State of Iowa*, 322 U.S. 335 (1944); *Scripto v. Carson*, 362 U.S. 207 (1960); *National Geographic Society v. California Board of Equalization*, 430 U.S. 551 (1977); In Re: *Webber Furniture*, 290 N.W.2d 865 (S.D. 1980); *Standard Pressed Steel Company v. State of Washington Department of Revenue*, 419 U.S. 560 (1975).

30.1(2) The purchaser for use in this state shall pay tax to the seller, if the seller is registered with the department to collect use tax for the state. If the seller is not registered with the department to collect use tax for the state, the purchaser shall remit the tax directly to the department. A purchaser who possesses a valid direct pay permit issued by the department does not remit tax to the seller. Instead, the purchaser remits tax directly to the department. For further details regarding direct pay permits see rule 701—12.3(422).

30.1(3) The department may deny a permit to collect use tax to any applicant who is, at the time of application, substantially delinquent in paying any tax due which is administered by the department or the interest or penalty on the tax. If the applicant is a partnership, the department may deny the applicant a permit if a partner is substantially delinquent in paying any tax, penalty, or interest regardless of whether the tax is in any way a liability of or associated with the partnership. If an applicant for a permit is a corporation, the department may deny the applicant a permit if any officer, with a substantial legal or equitable interest in the ownership of the corporation, owes any delinquent tax, penalty, or interest of the applicant corporation. In this latter instance, the corporation must, initially, owe the delinquent tax, penalty, or interest and the officer must be personally and secondarily liable for the tax. This is in contrast to the situation regarding a partnership. See rule 701—13.16(422) for characterizations of the terms “tax administered by the department” and “substantially delinquent” in paying a tax. This subrule is applicable to tax, interest, and penalty due and payable on and after January 1, 1987.

The department will deny a permit to any applicant who is an individual if the department has received a certificate of noncompliance from the child support recovery unit in regard to the individual, until the unit furnishes the department with a withdrawal of the certificate of noncompliance.

30.1(4) The department may revoke the permit of any permit holder who becomes substantially delinquent in paying any tax which is administered by the department or the interest or penalty on the tax. If the permit holder is a corporation, the department may revoke the permit if any corporate officer with a substantial legal or equitable interest in the ownership of the corporation owes any delinquent tax, penalty, or interest of the applicant corporation. In this latter instance, the permit-holding corporation must, initially, owe the delinquent tax, penalty, or interest and the officer must be personally and secondarily liable for the tax. A permit may not be revoked if the permit holder is a partnership and a partner is substantially delinquent in paying tax, penalty, or interest which is not a liability of the partnership. This is in contrast to the situation regarding an application for a permit. See the preceding subrule. Also, see rule 701—13.16(422) for characterizations of the terms “tax administered by the department” and “substantially delinquent” in paying a tax. This subrule is applicable to tax, interest, and penalty due and payable on and after January 1, 1987.

The department will revoke the permit of an individual permit holder if the department has received a certificate of noncompliance from the child support recovery unit in regard to the individual, unless the unit furnishes the department with a withdrawal of the certificate of noncompliance.

This rule is intended to implement Iowa Code section 422.53 as amended by 1997 Iowa Acts, House File 266, and Iowa Code sections 423.6, 423.9, 423.10, and 423.14.

701—30.2(423) Measure of use tax. The current rate of tax shall be applied to the purchase price of:

30.2(1) Tangible personal property, less the amount of tangible personal property traded in on the purchase.

30.2(2) The use in Iowa of the product or result of enumerated services obtained outside this state or the use in Iowa of enumerated services rendered, furnished or performed in Iowa.

This rule is intended to implement Iowa Code sections 423.1(3) and 423.2.

701—30.3(421,423) Consumer’s use tax return. A person purchasing tangible personal property or taxable service from an out-of-state source for use in Iowa subject to the use tax law shall be liable for the payment of use tax. The person shall be required to file a consumer’s use tax return with the department, reporting and remitting use tax on all property or taxable service purchased for use in Iowa during the quarterly period covered by the return, unless the seller from whom the purchase is made is registered with the department and has collected use tax on the purchase. For consumer’s use tax due and unpaid on and after July 1, 1990, corporate officer and partner liability and the “good faith” exception for successor liability shall be applicable. See department rules 701—12.14(422B) and 701—12.15(422,423) for a detailed explanation of immediate successor liability and corporate and partner liability, respectively.

A person purchasing tangible personal property or a taxable service in only one quarter during the year may request, and the director may grant, permission to file and remit use tax for only that specific quarter.

If it is expected that the total annual tax liability of a consumer will not exceed \$120 for a calendar year, the consumer may request, and the director may grant, permission to file and remit use tax on a calendar year basis. The return and tax will be due and payable no later than January 31 following each calendar year.

This rule is intended to implement Iowa Code sections 421.26, 421.28, and 423.14.

701—30.4(423) Retailer’s use tax return. Every retailer collecting or owing more than \$1500 in tax in any one month shall make a monthly deposit with the department. The deposit is due by the twentieth of the month following the month in which the tax is collected and applies only to the first two months of the quarter. The monthly deposit requirement is effective April 1, 1982.

A seasonal business retailer with gross receipts in only one quarter during the year may request, and the director may grant, permission to file and remit use tax for only that specific quarter in which the retailer conducted business.

If it is expected that the total annual tax liability of a retailer will not exceed \$120 for a calendar year, the retailer may request, and the director may grant, permission to file and remit sales tax on a calendar year basis. The return and tax will be due and payable no later than January 31 following each calendar year in which the retailer carried on business.

A retailer's use tax return form shall be furnished by the department to each holder of a certificate of registration at the close of each quarterly period for use in reporting and remitting use tax due for the preceding quarterly period. The quarterly periods for the year end respectively on March 31, June 30, September 30 and December 31. One month shall be allowed immediately following the quarterly period in which to file returns and remit tax without becoming delinquent, unless the department shall otherwise provide.

On the quarterly return, every retailer shall report the gross sales for the entire quarter, listing allowable deductions and figuring tax for the entire quarter. Space is provided on the return for a deduction of tax deposited the first and second months of the quarter.

When the due date falls on Saturday, Sunday, or a legal holiday, the monthly deposit or return will be due the first business day following such Saturday, Sunday, or legal holiday. If a deposit or return is placed in the mails, properly addressed and postage paid, and postmarked on or before the due date for filing, no penalty will attach should the return not be received until after that date. Mailed returns should be addressed to Sales/Use Tax Processing, P.O. Box 10412, Des Moines, Iowa 50306.

30.4(1) If the certificate holder uses or consumes tangible personal property in the state of Iowa subject to the use tax law, the cost of such purchases made during a given monthly or quarterly period shall also be included on the retailer's use tax return.

30.4(2) If the certificate holder delivers property or products that result from more than one out-of-state location for use in Iowa and from which separate billings are made, a supplement to the return shall also be filed showing the amount of taxable sales made for each respective location.

30.4(3) Determination of filing status. Iowa Code section 423.13 provides, based on the amount of tax collected, how often certificate holders file deposits or returns with the department.

The department will determine if the certificate holder's current filing status is correct by reviewing the most recent four quarters of the certificate holder's filing history.

The following criteria will be used by the department to determine if a change in filing status is warranted.

<u>Filing Status</u>	<u>Statutory Requirement</u>	<u>Test Criteria</u>
Monthly	\$1,500 in tax per month.	Tax in 3 of most recent 4 quarters exceeds \$4,500.
Seasonal		Retailer remits tax for only one quarter during the previous calendar year and requests filing for one quarter only.
Annual	\$120 or less in tax in prior year.	Retailer remits \$120 or less in tax, for last 4 quarters and requests annual filing.
Quarterly	All other filers.	

When it is determined that a certificate holder's filing status is to be changed, the certificate holder will be notified and will be given 30 days to provide the department with a written request to prevent the change.

Certificate holders may request that they be allowed to file less frequently than the filing status selected by the department but exceptions will only be granted in two instances:

1. Incorrect historical data is used in the conversion. A business may meet the criteria based on information available to the computer, but upon investigation, the filing history may prove that the

business does not meet the dollar criteria because of adjustments, amended returns, or requests for refunds.

2. Data available may have been distorted by the fact that it reflected an unusual pattern in tax collection. The factors causing such a distortion must be documented and approved by the taxpayer services section.

Exceptions will not be granted in instances where the certificate holder's request is based on a decline in business activity, reduction in employees or other potentially temporary business action which will affect current and future reporting.

Certificate holders will be notified in writing of approval or denial of their request for reducing filing periods.

Certificate holders may request that they be allowed to file more frequently than the filing status selected by the department. Approval will be granted based upon justification contained in the certificate holder's request.

This rule is intended to implement Iowa Code sections 412.14, 423.13 and 423.14.

701—30.5(423) Collection requirements of registered retailers. A retailer registered with the department shall collect from the retailer's customers and remit to the department all use tax due on all tangible personal property or enumerated services rendered, furnished or performed in Iowa or the products or results of enumerated taxable services rendered, furnished, or performed, sold for use in Iowa, unless expressly authorized by the department to do otherwise.

This rule is intended to implement Iowa Code sections 423.9 and 423.10.

701—30.6(423) Bracket system to be used by registered vendors. A registered vendor who has occasion to sell tangible personal property or enumerated services rendered, furnished or performed in Iowa or products or results of enumerated taxable services rendered, furnished or performed may use the bracket system specified in 701—14.2(422), which was adopted under the provisions of the Iowa retail sales tax law.

The registered seller shall be required to remit tax to the department at the current rate applied to the purchase price of all taxable property or enumerated services rendered, furnished or performed in Iowa or the products or results of all enumerated taxable services sold.

This rule is intended to implement Iowa Code sections 422.68(1), 423.2 and 423.23.

701—30.7(423) Sales tax or use tax paid to another state. When a person has already paid to any other state of the United States a state sales, use, or occupational tax on specifically identified tangible personal property or taxable services on its sale or use, prior to bringing the property into Iowa, and the tax is equal to or greater than the current rate of tax imposed by the Iowa use tax law, no additional use tax shall be due the state of Iowa by such person.

If the amount of tax already paid by such person to any other state of the United States on specifically identified tangible personal property or taxable services prior to bringing the property into Iowa is less than the current rate of tax imposed by Iowa law, use tax shall be due the state of Iowa on the difference in tax paid to the foreign state and the tax due under the Iowa law.

When a person claims exemption from payment of use tax on the grounds that the tax has already been paid to any other state of the United States with respect to the sale or use of the property or service in question prior to bringing it into Iowa, the burden of proof is upon that person to show the department, county treasurer, or the motor vehicle division of the Iowa department of transportation, by document, that the tax has been paid.

Credits shall not be allowed for sales, use, or occupational tax already paid in any state of the United States against the Iowa use tax relating to the acquisition cost of property being brought into this state when such tax already paid was paid on the gross receipts of lease/rental payments of tangible personal property used in another state.

This rule is intended to implement Iowa Code section 423.25.

701—30.8(423) Registered retailers selling tangible personal property on a conditional sale contract basis. A retailer shall report and remit to the department the full amount of tax computed on the full sale price on the return for the quarterly period during which the sale was made.

This rule is intended to implement Iowa Code sections 423.1 and 423.2.

701—30.9(423) Registered vendors repossessing goods sold on a conditional sale contract basis. A registered retailer repossessing tangible personal property which has been sold on a conditional sale contract basis and remitting use tax to the department on the full purchase price may take a deduction on the retailer's use tax return for the quarterly period in which the goods were repossessed in an amount equal to the credit allowed to the purchaser for the goods returned, if the retailer has returned use tax to the purchaser on the unpaid balance.

This rule is intended to implement Iowa Code sections 423.1 and 423.2.

701—30.10(423) Penalties for late filing of a monthly tax deposit or use tax returns. Renumbered as 701—10.30(423), IAB 1/23/91.

701—30.11(423) Claim for refund of use tax. A claim for refund of use tax shall be made upon forms provided by the department. Each claim shall be filed with the department, properly executed and clearly stating the facts and reasons upon which the claim is based.

Refunds of tax shall be made only to those who have actually paid the tax. A person or persons may designate the person who collects the tax as an agent for purposes of receiving a refund of tax. Use tax paid to the county treasurer or motor vehicle division, Iowa department of public safety, on motor vehicles shall be refunded directly to the person paying the tax upon presentation of a properly documented claim.

When a person believes the tax, penalty, or interest paid or to be paid will be found not to be due at some later date, then to prevent the statute of limitations from running, a claim for refund must be filed with the department within the statutory period provided in Iowa Code section 422.73(1). The claim must be filed requesting that it be held in abeyance pending the outcome of any action which will have a direct effect on the tax involved and a possible refund. Nonexclusive examples of situations would be court decisions, departmental rulings, and commerce commission decisions. See rule 701—12.9(422) for specific examples.

This rule is intended to implement Iowa Code sections 422.73(1) and 423.23.

701—30.12(423) Extension of time for filing. Upon a proper showing of the necessity for extending the due date, the director is authorized to grant an extension of time in which to file a return. The extension shall not be granted for a period longer than 30 days. The request for the extension must be received on or before the original due date of the return, and it must be signed by the retailer or a duly authorized agent.

This rule is intended to implement Iowa Code section 423.13.

CHAPTER 31
RECEIPTS SUBJECT TO USE TAX
[Prior to 12/17/86, Revenue Department[730]]

701—31.1(423) Transactions consummated outside this state. The Iowa use tax law is complementary to the Iowa sales tax law. The general rule is that when a transaction would be subject to Iowa sales tax if consummated in Iowa, such transaction, although consummated outside the state of Iowa but involving tangible personal property sold for use in Iowa and so used in Iowa, is subject to Iowa use tax. Also, when a transaction involving taxable services is subject to Iowa sales tax if rendered, furnished or performed in Iowa, such transaction, although consummated outside the state of Iowa but the product or result of such service is used in Iowa, is subject to Iowa use tax.

701—31.2(423) Goods coming into this state. When tangible personal property is purchased outside the state of Iowa for use or consumption in this state, such sale shall be subject to use tax. Such sale is taxable regardless of the fact that the purchaser's order may specify that the goods are to be manufactured or procured by the seller at a point of origin outside the state, and the seller is required to report all such transactions and collect and remit to this state use tax on all taxable purchases.

701—31.3(423) Sales by federal government or agencies to consumers. A consumer purchasing tangible personal property or an enumerated taxable service for use in Iowa from the federal government or any of its agencies shall be liable for the payment of Iowa consumer's use tax and shall report and remit the tax due on a consumer's tax return which is furnished by the department.

701—31.4(423) Sales for lease of vehicles subject to registration—taxation and exemptions. When vehicles subject to registration are sold for subsequent lease, use tax is due in the initial instance. However, several important exemptions exist which are applicable to the sale for subsequent lease of vehicles subject to registration. The exemption applicable to sales of other leased property is not applicable to sales of vehicles subject to registration for subsequent lease. The following circumstances should be kept in mind when purchasing a vehicle subject to registration for subsequent lease:

1. The purchase of certain motor vehicles for long-term lease of more than 60 days, but less than 12 months, is not exempt from use tax. See 701—subrule 26.68(2) relating to taxation of long-term leases.

2. Effective January 1, 1997, the purchase of a vehicle subject to registration with a gross vehicle weight rating of less than 16,000 pounds, excluding motorcycles and motor bicycles, if actually leased for a period of 12 months or more is exempt from use tax. See 701—31.5(423) and 701—32.11(423) relating to taxation of long-term leases.

3. The purchase of "automobiles" for short-term, taxable lease is exempt from tax. See rule 701—32.11(423) and 701—Chapter 27 for specific information concerning this exemption.

4. See rule 701—32.9(423) for the specifics of an exemption applicable to trucks commonly known as tractors and semitrailers purchased for lease with the subsequent sole use in Iowa in interstate commerce.

5. The exemption from tax allowed for the use of tangible personal property by a person regularly engaged in the business of leasing if the period of the lease is for more than five months and the leasing of the property is subject to sales tax is not applicable to vehicles subject to registration.

701—31.5(423) Motor vehicle use tax on long-term leases. On or after January 1, 1997, a tax shall be imposed on the lease price of certain vehicles subject to registration under Iowa Code chapter 321 which are leased under long-term lease agreement.

31.5(1) Vehicles subject to long-term lease defined. Effective January 1, 1997, motor vehicles subject to registration with gross vehicle weight rating of less than 16,000 pounds, excluding motorcycles and motorized bicycles, which are actually leased for a period of 12 months or more, will be subject to a motor vehicle lease tax based upon the lease price as set forth in subrule 31.5(2). Such vehicles must be leased by a lessor licensed pursuant to Iowa Code chapter 321F. A registration receipt

for a vehicle subject to registration or issuance of a certificate of title will not be issued until the tax is paid in the initial instance. If the lease is terminated prior to the expiration of the lease period, no refund will be allowed for tax previously paid on the monthly lease payments. Effective July 1, 1997, if a lease is terminated prior to the expiration of the lease period, a refund of tax previously paid under this rule will be allowed under Iowa Code section 322G.4. This definition of vehicles subject to long-term lease and subject to the tax under this rule includes vehicles leased under fixed-term or variable-term leases. Fixed-term lease means a lease contract in which the lease term is for a certain designated period of time. A payment amount charged under a fixed-term lease can be fixed or variable. Variable-term lease means a lease contract in which the lease term may contain an initial stated lease period with additional extension options that may be exercised at the discretion of the lessee. A payment amount charged under a variable-term lease may be fixed or variable. Exercise of an extension results in an extension of the original lease period for the purpose of this rule. A fixed- or variable-term lease may also contain a provision for adjustments which may be made by the lessor at the conclusion of the lease.

Vehicles entering this state under a lease entered into on or after January 1, 1997, will be subject to tax on the date the vehicle enters Iowa for the remaining lease period. Vehicles entering this state under an optional lease period exercised under a lease entered into on or after January 1, 1997, will be subject to tax on the date the vehicle enters Iowa for the remaining option period. A credit for tax paid on the lease for the lease period at issue where incidence of the tax was on the lessor and the tax was paid by the lessor to another state will be applied to the motor vehicle lease tax due on the lease from the lessor in Iowa.

When motor vehicle lease tax has been paid on a qualifying lease under this rule, and prior to the expiration of the lease the vehicle subject to the lease is destroyed by means such as fire, accident, or vandalism, to the extent that it constitutes a total loss of the vehicle, a credit for motor vehicle lease tax paid for the period remaining on the previous lease will be allowed when another vehicle is substituted under the original lease or a new lease is executed with the intent to replace the vehicle subject to the previous lease. To initially qualify for the credit, there must be a total loss of the vehicle subject to the previous lease, a new lease must be executed or a vehicle must be substituted under the original lease. To qualify for the credit, the new lease or substituted vehicle under the original lease must meet the following: The new lease must be executed by the same lessor and lessee, for lease of a vehicle of the same or similar make, model, year and options as the vehicle subject to the previous lease, for the remaining lease period as the previous lease, for the same lease price and the lease must contain the same lease terms as the previous lease.

When a vehicle subject to a taxable lease under this rule is returned to the lessor and the lessor replaces the vehicle with a different vehicle, but a new lease is not executed, the replacement is not subject to tax. Often this type of return occurs when an original leased vehicle has numerous mechanical problems, but has not been declared a "lemon" under Iowa Code chapter 322G. Instead of requiring the lessee to go through the "lemon law" process, the lessor replaces the vehicle under the same lease contract. In this type of situation, tax would not be due because there has not been a new lease transaction subject to tax.

A fixed- or variable-term lease that is subject to the motor vehicle lease tax under this rule may contain a provision allowing adjustments to be made by the lessor at the conclusion of the lease which may affect the rental receipts for the term of that lease. Such adjustments may result in a debit, credit, or no change in the rental receipts. Such adjustments may include, but are not limited to, the condition of the vehicle, value of the vehicle, sale price of the vehicle, mileage incurred, and variable payment amount during the initial qualifying lease period. Such an adjustment may result in a corresponding debit or credit of tax due from the lessor.

If a lease is a variable-term lease with a variable payment amount, the lease payment for the initial minimum 12-month period shall be computed using the payment amount in effect on the date the lease is executed between the parties. If the payment amount then varies during that initial minimum 12-month period resulting in a debit or credit of tax previously paid for that period, such amount will be computed as an adjustment made at the conclusion of the lease. If the total of the adjusted lease payments is greater

than the originally calculated lease payments, the incremental increase is subject to lease tax and the tax is to be remitted by the lessor directly to the department.

Vehicles entering this state under a lease or lease option extending from a lease executed before January 1, 1997, will not be subject to the motor vehicle lease tax imposed under this rule. However, such vehicles will be subject to tax on the use of the vehicle in Iowa based upon the fair market value of the vehicle, payable by the lessor to the county treasurer at the time of registration or titling of the vehicle.

31.5(2) Collection and computation of tax on long-term leases. For leases entered into on or after January 1, 1997, a motor vehicle lease tax is imposed on certain vehicles subject to registration which are leased under terms as defined in subrule 31.5(1). Motor vehicle lease tax shall be paid by the owner of the vehicle to the county treasurer, Iowa department of transportation, or Iowa department of revenue. A registration receipt or certificate of title for the vehicle shall not be issued until the tax is paid in the initial instance. The amount subject to tax must be computed on each lease transaction based on the lease price. The lease price shall be computed by multiplying the number of months of the lease by the monthly lease payments, plus down payment, which shall include trade-ins and any additional costs or fees paid by the lessee. Capitalized costs paid by the lessee are generally included as part of the monthly lease payments. Capitalized costs may include, but are not limited to, rustproofing, floor mats, pin striping, management fees, reserved charges, air conditioning, stereo, mud flaps, lease acquisition fee, and finance charges. Down payment is defined for the purpose of this rule as any payment or trade-in made by the lessee for the purpose of reducing the lease price. In certain instances, there are costs associated with the lease and entering into the lease, which are not refundable, that are negotiated by the lessor and lessee, resulting in an agreement that these costs will be paid by the lessee separately and in addition to the monthly lease payments. Costs for such items, whether normally capitalized or not, which are paid separately by the lessee in order to reduce the lease price, shall be treated as a down payment and shall be added in the computation of the lease price. Trade-in is treated as a down payment and is defined for the purpose of this rule as tangible personal property which is traded by the lessee to the lessor in order to reduce the lease price. The value of the trade-in shall be added in the computation of the lease price. The lease price shall not include any manufacturer's rebate or refundable deposit.

Effective for leases entered into on or after July 1, 1997, the lease price shall not include manufacturer's rebate, refundable deposit, title fee, registration fee, vehicle lease tax imposed under this rule, federal excise taxes attributable to the sale of the vehicle to the owner or to the lease of the vehicle by the owner, optional service or warranty contracts subject to tax under Iowa Code section 422.43(6), insurance, or any finance charge imposed on these excluded items. Any item excluded from the taxable lease price shall be documented by the owner by maintaining an adequate record of the amount of each item excluded. If a lessor and lessee enter into an agreement that the tax imposed under this rule shall be paid by the lessee, either in a lump sum payment or as part of the monthly lease payments, the total cost of the tax shall not be included in the computation of the lease price for the purpose of imposing the tax under this rule. Deposit is defined for the purpose of this rule as a security which is refundable based upon the terms of the lease. The lease price shall not include a roll-over deficiency from a previously purchased or leased vehicle to the extent it can be shown that tax had been paid on the amount to be rolled over from the previously purchased or leased vehicle. For instance, lessee A has a previously purchased vehicle with an outstanding loan balance of \$4,000. Lessee B has a previously leased vehicle with a total of outstanding payments of \$4,000. As part of the previous transactions that resulted in these outstanding balances, use tax was previously paid on the \$4,000 balances by lessees A and B. Each lessee now wishes to lease a new vehicle and pay the outstanding balance owed by each as part of the monthly lease payments for the new vehicles. The balances for each lessee may be rolled over in the lease costs to be paid by the lessees. However, the amount of the balances that are rolled over are excluded from each of the computations of the lease price under this rule.

EXAMPLE 1. Iowa lessor leases a vehicle on January 20, 1997, for use in Iowa for a period of 36 months. The total lease price is \$18,814.00 which includes all capitalized costs that were negotiated as part of the lease. Incidence of the tax is upon the lessor. The lessor and lessee did not negotiate nor did they agree to include the cost of the motor vehicle lease tax as part of the lease price. The total lease

price to be reported by the lessor for computation of the tax at the time of registration or titling of the vehicle is \$18,814.00. The motor vehicle lease tax due on this lease would be \$940.70 ($\$18,814.00 \times 5\%$) payable by the lessor to the county treasurer at the time of registration or titling of the vehicle. The monthly lease payment to be paid by the lessee is \$522.61 ($\$18,814.00$ divided by 36 months).

EXAMPLE 2. Iowa lessor enters into a lease with Dave Jones on January 8, 1997, for the lease of a vehicle for use in Iowa for a period of 36 months. The monthly lease payments for the vehicle are computed to include rustproofing, floor mats, and various other capitalized costs. However, based on an agreement between Dave Jones and the lessor, costs of the mud flaps and a stereo system are not included in the monthly lease payments. Instead, the lessor and Dave Jones negotiate and agree to allow Dave Jones to pay the total for the mud flaps and stereo separately. Dave Jones executes a check payable to the lessor for the total sum of such fees. The total sum paid in the separate check issued by Dave Jones for the mud flaps and stereo is considered a down payment and must be included in the computation of motor vehicle lease tax as a cost that is part of the total lease price.

Tax due under this rule for a fixed-term lease will be due on the entire lease term contracted for between the parties. Tax on a variable-term lease shall be based on the entire initial term stated in the lease.

Tax on a qualifying lease under this rule will be due at the time the vehicle subject to the lease is required to be registered or titled. Tax on any optional lease periods will be considered due at the time the optional lease period is exercised under the lease. Tax on transactions requiring registration or titling of a vehicle in this state will be remitted to the county treasurer or department of transportation at the time of registration or titling. Tax on transactions not involving a vehicle or vehicles having to be registered or titled in this state will be remitted to the department of revenue. Such transactions include the re-lease of the same vehicle or vehicles involving the same lessor and lessee or exercise of an option under a lease by a lessee.

Incidence of motor vehicle lease tax falls upon the owner/lessor of the vehicle. Therefore, the lessee cannot invoke any exemptions from the motor vehicle lease tax.

Reporting and remittance of tax due to the Iowa department of revenue will be remitted on or before 15 days from the last day of the month that the tax becomes due. Failure to timely report or remit any of the tax when due under this rule will result in penalty and interest being imposed on the tax due pursuant to Iowa Code sections 423.18 and 423.23.

The county treasurer or the state department of transportation shall require every applicant to have a registration receipt for a vehicle subject to this tax and to submit the total lease price computed in the manner indicated in subrule 31.5(2) to be reported on a form designated by the director of revenue. Also see 701—34.9(423).

On or before the tenth day of each month, the county treasurer or the state department of transportation will remit to the department of revenue the amount of tax collected during the preceding month.

EXAMPLE 3. Licensed lessor located in Iowa contracts with Joe Smith to lease a new automobile for use in Iowa for a contract period of 12 months. Motor vehicle lease tax would be due by the lessor payable to the county treasurer at the time of registration based on the lease price for the 12-month lease period.

EXAMPLE 4. Licensed lessor located in Iowa contracts with Joe Smith to lease a used automobile for use in Iowa for a contract period of 12 months. Motor vehicle lease tax was due and paid to the county treasurer at the time of registration based on the lease price for the 12-month period. Prior to the expiration of the 12-month lease period, the lease is terminated. Upon return of the vehicle the lessor uses the vehicle for a company car. The lessor cannot receive a refund of the motor vehicle lease tax that was paid for the portion of the remaining lease period because, under the statute, refunds of motor vehicle lease tax are not allowed. In addition, the lessor would be required to pay use tax on the fair market value of the vehicle for use of that vehicle for a purpose other than for lease. See Iowa Code section 423.4(16) and 701—31.4(422,423) and 32.11(423).

EXAMPLE 5. Licensed lessor located in Iowa leases a vehicle for a 24-month period. Motor vehicle lease tax is paid on the lease price for the 24-month period. After 18 months, the lease is terminated. The lessor cannot receive a refund of the tax paid on the remaining lease period.

EXAMPLE 6. On January 20, 1997, a licensed lessor located in Iowa leases an automobile to Sally Jones for use in Iowa for a contract period of 12 months with additional 30-day lease options which can be exercised after the 12-month lease has been fulfilled. The lessor must pay motor vehicle lease tax on the lease price for the 12-month period payable to the county treasurer at the time of registration. In addition, the 30-day option periods are considered to be extensions of the original lease. As a result, the lessor must pay motor vehicle lease tax to the Iowa department of revenue on each 30-day lease option, due at the time exercised by Sally Jones. Tax must be remitted to the Iowa department of revenue on or before 15 days from the last day of the month in which the tax became due.

EXAMPLE 7. On March 17, 1997, a licensed lessor located in Iowa leases a fleet of ten automobiles to XYZ insurance company for use in Iowa for a lease period of 12 months. Motor vehicle lease tax is due on the lease price for each of the ten vehicles for the 12-month lease period payable to the county treasurer.

EXAMPLE 8. Licensed lessor located in Illinois enters into a lease with Sally Smith on January 8, 1997, to lease an automobile for a lease period of 12 months. With 4 months remaining on the lease, Sally moves to Iowa and the vehicle is titled in Iowa. Motor vehicle lease tax would be due on the date of use in Iowa based on the lease price for the remaining 4 months under the lease. The tax due would be payable by the lessor to the county treasurer at the time the vehicle is registered or titled in Iowa. However, credit would be allowed for a similar tax previously paid on the lease for the lease period at issue, paid by the lessor to another state to be applied against the Iowa lease tax due, if incidence of the tax paid to the other state also fell upon the lessor. This credit against Iowa lease tax would be allowed regardless of the tax base used by the other state for the computation of the tax previously paid. If the tax qualifies for the credit by meeting the previously mentioned criteria, credit against the Iowa tax owed may be computed by completing the following steps:

Step 1. Compute the Iowa lease tax based on the remaining lease period from the date the vehicle enters Iowa through the expiration date of the lease. See subrule 31.5(2).

Step 2. Determine the amount of tax paid to the other state for the remaining lease period. To determine this, do the following:

1. Divide the total amount of tax paid to the other state by the entire term of the lease. This will result in the amount of monthly tax paid on the lease.

2. Multiply the monthly tax paid by the months remaining on the lease term from the date the vehicle entered Iowa through the expiration date of the lease.

Step 3. Compare the amount of tax paid to the other state for the remaining period (result in Step 2) to the amount of tax due to the state of Iowa for the remaining lease period (result in Step 1). The amount of Iowa vehicle lease tax due, if any, will depend upon whether the other state will allow for a refund of the tax previously paid.

1. If the other state will refund the tax previously paid for the remaining lease period, then the amount of Iowa vehicle lease tax computed in Step 1 is due.

2. If the tax paid to the other state for the remaining lease period is greater and the other state will not refund the tax previously paid for the remaining lease period, then no additional Iowa lease tax is due.

3. If the amount of tax due to the state of Iowa for the remaining lease period is greater and the other state will not allow a refund of the tax previously paid, then the difference between the amount of tax due to the state of Iowa for the remaining lease period and the tax paid to the other state for the remaining lease period is the amount owed (result in Step 1 - result in Step 2).

EXAMPLE 9. Licensed lessor located in Minnesota enters into a lease with Joe Smith on November 21, 1997, to lease an automobile for a lease period of 12 months with 30-day option periods to be exercised at Joe Smith's discretion at the conclusion of the initial 12-month lease period. After one year and 10 days under the lease, Joe moves to Iowa. The vehicle is titled in Iowa. Motor vehicle lease tax is due and payable by the lessor to the county treasurer on a prorated basis for the days remaining on the exercised

option period. If incidence of the tax previously paid to the other state was on the lessor, credit would be allowed for a similar tax previously paid by the lessor to the other state for the lease period at issue to be applied against the Iowa lease tax due (see Example 8). If additional option periods are exercised by Joe under the lease, motor vehicle lease tax will be due at the time the option is exercised, payable by the lessor to the Iowa department of revenue. Tax must be remitted to the Iowa department of revenue on or before 15 days from the last day of the month in which the tax became due.

EXAMPLE 10. Iowa lessor enters into a lease with Sally Jones on August 11, 1996, for use of a vehicle in Iowa. The lease is for a period of 12 months. Motor vehicle lease tax is not due on this because the lease was entered into prior to January 1, 1997, the effective date of the motor vehicle lease tax.

EXAMPLE 11. Iowa lessor enters into a lease with Joe Smith on January 1, 1996, for use of a vehicle in Iowa. The lease is for a period of 12 months and contains 30-day options that may be exercised by Joe Smith at the conclusion of the initial 12-month period. On January 1, 1997, Joe Smith exercises a 30-day option. Motor vehicle lease tax is not due on the exercised option period because the option is an extension of the original lease which was entered into prior to January 1, 1997, the effective date of the motor vehicle lease tax.

Examples 12 and 13 offer guidance for computing the tax imposed in this rule for leases entered into prior to July 1, 1997.

EXAMPLE 12. Lessor and lessee located in Iowa enter into a qualifying lease agreement on March 9, 1997. The price negotiated by the parties for the lease is \$9,120, which will be paid by the lessee in 36 monthly installments. The lessor and lessee also agreed that the lessee will separately pay by personal check the total cost of each of the following items: tax, \$456; title, \$35; license, \$164; and tinted windows, \$225. The total lease price of the leased vehicle, including the items separately paid by personal check by the lessee is \$10,000. The amount to be reported to the county treasurer at the time of registration or titling of the vehicle is \$10,000. The amount of tax due from the owner/lessor of the vehicle at the time of registration or titling to the county treasurer is \$500 ($\$10,000 \times 5\% = \500).

EXAMPLE 13. Lessor and lessee located in Iowa enter into a qualifying lease agreement on June 24, 1997. The lessor and lessee agree that the lessee will provide a down payment, trade-in, and pay the tax, title, and license as a capitalized cost over the term of the lease agreement. The total lease price, including the down payment, trade-in, and capitalized costs, is \$10,000. To compute the total lease price to be reported to the county treasurer when the lease price includes tax as a negotiated capitalized cost of the lease to be paid by the lessee, the owner/lessor may multiply the total lease price of \$10,000 by the factor of 1.0526316 which results in the sum of \$10,526.32. The total of \$10,526.32 is the total lease price to be reported by the owner/lessor to the county treasurer or department of transportation at the time of registering or titling of the vehicle. The amount of tax due from the owner/lessor of the vehicle at the time of registration or titling to the county treasurer or department of transportation is \$526.32 ($\$10,526.32 \times 5\% = \526.32).

Effective July 1, 1997, the following examples may be used for guidance in computing the lease price and motor vehicle lease tax imposed under this rule.

EXAMPLE 14. Lessor and lessee located in Iowa enter into a qualifying lease agreement on July 12, 1997. The price negotiated by the parties for the lease is \$9,120, which will be paid by the lessee in 36 monthly installments. The lessor and lessee also agreed that the lessee will separately pay by personal check the total cost of each of the following items: tax, \$467.25; title, \$35; license, \$164; and tinted windows, \$225. However, effective July 1, 1997, tax, title fees, and license fees are not to be included in the computation of the lease price. As a result, the amount to be reported to the county treasurer at time of registration or titling of the vehicle is \$9,345 ($\$9,120$ - the total monthly payments + \$225 - cost of the tinted windows = \$9,345). The amount of tax due from the owner/lessor of the vehicle at the time of registration or titling to the county treasurer is \$467.25 ($\$9,345 \times 5\% = \467.25).

EXAMPLE 15. Lessor and lessee located in Iowa enter into a qualifying lease agreement on August 11, 1997. The lessor and lessee agree that the lessee will provide a down payment, trade-in, and pay the tax, title, license, pin striping, and cost of an upgraded stereo system as capitalized costs over the term of the lease agreement. The total lease price, including the down payment, trade-in, and capitalized costs, but excluding the tax, title, and license to be paid by the lessee in the monthly lease payments, is

\$10,000. The total of \$10,000 is the total lease price to be reported by the owner/lessor to the county treasurer or department of transportation at the time of registering or titling of the vehicle. The amount of tax due from the owner/lessor of the vehicle at the time of registration or titling to the county treasurer or department of transportation is \$500 ($\$10,000 \times 5\% = \500).

701—31.6(423) Sales of aircraft subject to registration. On and after July 1, 1999, taxable sales in Iowa of aircraft subject to registration under Iowa Code section 328.20 are subject to Iowa use tax and not Iowa sales tax. This use tax is to be collected by the Iowa department of transportation at the time of the aircraft's registration. The sale of an aircraft subject to registration is not subject to local option sales tax, either that imposed by Iowa Code chapter 422B or that imposed by Iowa Code chapter 422E. For the purposes of this rule, an "aircraft" is any contrivance now known, or hereafter invented, used or designed for navigation of or flight in the air, for the purpose of transporting persons or property, or both. See rule 701—32.13(423) for exemptions applicable to aircraft subject only to use tax.

This rule is intended to implement Iowa Code section 423.2 as amended by 1999 Iowa Acts, chapter 168.

701—31.7(423) Communication services. On and after July 1, 2001, the purchase price of communication service furnished or delivered to consumers or users within Iowa is subject to use tax. For the purposes of Iowa use tax law, communication service is defined to be tangible personal property. Tax will be imposed if the billing for the communication service is dated on or after July 1, 2001. See rule 701—18.20(422,423) for an explanation of the sales tax on communication services and for an explanation of excise tax on communication services generally.

This rule is intended to implement Iowa Code subsection 423.1(12) as amended by 2001 Iowa Acts, House File 736.

These rules are intended to implement Iowa Code sections 421.6, 421.17, 423.4(16), and 423.25 and Iowa Code section 423.7A as amended by 1997 Iowa Acts, Senate File 222.

CHAPTER 32
RECEIPTS EXEMPT FROM USE TAX
[Prior to 12/17/86, Revenue Department[730]]

701—32.1(423) Tangible personal property and taxable services subject to sales tax. The gross receipts from the sale of tangible personal property which are subject to the imposition of sales tax under Iowa Code chapter 422 shall be exempt from use tax if the sales tax has been paid to the department or to a retailer. This shall not apply to vehicles subject to registration or the purchase of a taxable service enumerated in Iowa Code section 422.43 prior to July 1, 1994. On and after that date the rendering, furnishing, or performing of a service taxable under Iowa Code chapter 422 shall be exempt from use tax if the sales tax has been paid to the department or to a retailer. Prior to, on, and after July 1, 1994, either a sales tax or a use tax, but not both, shall be imposed upon the use in Iowa of services rendered, furnished, or performed in this state.

This rule is intended to implement Iowa Code subsection 423.4(1).

701—32.2(423) Sales tax exemptions applicable to use tax. When an exemption is allowed for sales tax purposes to any sale of tangible personal property the same shall apply for use tax, except for the exemptions provided in Iowa Code section 422.45, subsections 4 and 6, as they relate to vehicles subject to registration. On and after July 1, 2001, if any exemption from sales tax is allowed when a service is rendered, furnished, or performed, including the service of tangible personal property rental, the same exemption shall apply to any service subject to use tax.

This rule is intended to implement Iowa Code subsection 423.4(3) and subsection 423.4(4) as amended by 2001 Iowa Acts, House File 715.

701—32.3(423) Mobile homes and manufactured housing. A use tax is not to be imposed on any mobile home or manufactured housing if the tax has been previously imposed pursuant to Iowa Code section 423.2 and paid. In order for the exemption to be allowed, the purchaser of the mobile home or manufactured housing has the responsibility to provide the county treasurer with documentation verifying that the Iowa use tax was previously paid. On or after July 1, 2008, all taxable mobile homes or manufactured housing is subject to a use tax in an amount equal to 20 percent of the mobile home's or manufactured housing's purchase price (80 percent of the home's or housing's purchase price is exempt from use tax). Prior to July 1, 2008, all taxable mobile homes or manufactured housing was subject to a use tax in an amount equal to 60 percent of the mobile home's or manufactured housing's purchase price (40 percent of the home's or housing's purchase price is exempt from use tax). The trade-in allowance provided in Iowa Code section 423.1(6) "b" is considered a reduction in the purchase price if (1) the property traded for the mobile home or manufactured housing is a type of property normally sold in the regular course of business of the retailer selling the home or housing, and (2) the retailer intends ultimately to sell the traded property at retail or to use the traded property in the manufacture of a like item.

EXAMPLE 1: In January of 2008, a manufactured housing dealer receives from the factory a new manufactured home that has a sales price of \$20,000. The dealer sells it and takes the purchaser's old manufactured home worth \$5,000 in trade. The dealer keeps the traded-in manufactured home as an office. The Iowa use tax is computed as follows:

Sales price	\$20,000
Less trade-in.	<u>\$ 5,000</u>
Buyer's price	\$15,000
Amount subject to tax	\$12,000
(\$20,000 × 60%)	
Use tax at 5%	\$ 600

The trade-in allowance does not apply since the traded-in manufactured home will not be ultimately sold at retail or used to manufacture a like item.

EXAMPLE 2: Same date and facts as given in Example 1 with the exception that the dealer lists the trade-in for sale.

Sales price	\$20,000
Less trade-in.	<u>\$ 5,000</u>
Buyer's price	\$15,000
Amount subject to tax	\$ 9,000
(\$15,000 × 60%)	
Use tax at 5%	\$ 450

The trade-in allowance applies since the traded-in manufactured home will be ultimately sold at retail.

EXAMPLE 3: In September of 2008, a manufactured housing dealer receives from the factory a new manufactured home that has a sales price of \$40,000. The dealer sells it and takes the purchaser's old manufactured home worth \$10,000 in trade. The dealer intends to resell the used manufactured home. The Iowa use tax is computed as follows:

Sales price	\$40,000
Less trade-in.	<u>\$10,000</u>
Buyer's price	\$30,000
Amount subject to tax	\$ 6,000
(\$30,000 × 20%)	
Use tax at 5%	\$ 300

The trade-in allowance does apply since the traded-in manufactured home will be ultimately sold at retail or used to manufacture a like item. Because the transaction occurs after July 1, 2008, only 20 percent of the purchase price is subject to the 5 percent use tax.

This rule is intended to implement Iowa Code section 423.6 as amended by 2008 Iowa Acts, House File 2700, section 64.

701—32.4(423) Exemption for vehicles used in interstate commerce. Trailers and semitrailers used initially in Iowa on and after July 1, 1986, and registered under Iowa Code chapter 326, are exempt from tax. These trailers and semitrailers are not subject to the record-keeping requirement and other requirements of the next paragraph. See rule 32.10(423) for an additional exemption for vehicles operated but not registered under Iowa Code chapter 326.

For trailers and semitrailers registered under Iowa Code chapter 326 and initially used in Iowa between July 1, 1985, and June 30, 1986, inclusive, and for any other vehicle registered under chapter 326, including those purchased for lease, and truck and road tractors, a use tax is not to be imposed provided that the vehicle is used in interstate commerce, accrues at least 25 percent of its mileage outside of Iowa and is registered for a gross weight of 13 tons or more. Mileage records must be maintained for each vehicle by the vehicle owner on a fiscal year basis which begins on July 1 and ends on June 30. For trailers and semitrailers, the requirements of this paragraph and the subsequent paragraph are not applicable if the trailer is registered as of July 1, 1986, or is initially registered on or after that date. These trailers and semitrailers are treated as if they have been used initially and registered in Iowa on or after July 1, 1986, and the first paragraph of this rule is applicable to their use. The vehicle will be subject to use tax if the required mileage outside Iowa is not attained during each fiscal year. For purposes of determining eligibility for this exemption, mileage accrued in the year before the first full fiscal year of operation must be added to the mileage accrued during the first full fiscal year of operation and mileage accrued in the year after the last full fiscal year of operation must be added to the mileage accrued during

the last full fiscal year of operation. The vehicle owner is responsible for maintaining mileage records that prove eligibility for the exemption.

For assessments issued pursuant to this rule on and after July 1, 1998, if a vehicle meets the requirement that 25 percent of the miles operated accrue in states other than Iowa in each year of the first four-year period of operation, the exemption from use tax shall continue until the vehicle is sold or transferred. If a vehicle is found not to have met the exemption requirements of this paragraph in its first four years of operation, or the exemption was revoked, the value of the vehicle upon which use tax shall be imposed is the book or market value, whichever is less, at the time the exemption requirements first were not met or at the time the exemption was revoked. However, if exemption from use tax is claimed for a vehicle under this paragraph and that vehicle is, subsequently, never used in an exempt fashion, then the purchase price of the vehicle is the value upon which any assessed tax shall be computed.

EXAMPLE: Company A purchases a vehicle stating that its future use will be in interstate commerce; 25 percent of its miles traveled accrue outside the state of Iowa. In fact, the vehicle is never driven outside the state of Iowa. Use tax is computed on the purchase price of the vehicle paid by Company A.

EXAMPLE

	Iowa Miles	Non-Iowa Miles	Total	Percent Non-Iowa
1/1/86-6/30/86	45,000	5,000	50,000	10%
7/1/86-6/30/87	305,000	145,000	450,000	32%
	350,000	150,000	500,000	30%

In this example, the vehicle was acquired on January 1, 1986, and traveled 50,000 miles through June 30, 1986, of which 5,000 miles were outside Iowa. From July 1, 1986, through June 30, 1987, the vehicle traveled 450,000 miles of which 145,000 miles were outside Iowa. The use tax exemption is applicable in this situation even though the vehicle traveled only 10 percent of its mileage outside Iowa in the year of acquisition since it traveled 30 percent of its mileage outside Iowa in the year of acquisition plus its first full fiscal year of operation.

This rule is intended to implement Iowa Code section 423.4(10) as amended by 1998 Iowa Acts, House File 2541.

701—32.5(423) Exemption for transactions if sales tax paid. As of July 1, 1986, the use of tangible personal property is exempt from tax if the gross receipts from the sale of that property are subject to Iowa sales tax and if the sales tax has been paid either to a retailer or to the department. The exemption does not include vehicles subject to registration or subject only to the issuance of a certificate of title.

This rule is intended to implement Iowa Code subsection 423.4(1).

701—32.6(423) Exemption for ships, barges, and other waterborne vessels. On and after July 1, 1986, tax will not be imposed upon the use, within Iowa, of any ship, barge, or other waterborne vessel if that use is primarily for the transportation of property or cargo for hire on the rivers bordering this state. This exemption is also applicable to tangible personal property used as material in the construction of or as a part for the repair of any such ship, barge, or waterborne vessel. The use must be on a river or rivers bordering Iowa, not on any river or rivers bounded on both banks by Iowa territory. The exemption does not apply for a use for any purpose other than the purpose described in this rule.

This rule is intended to implement Iowa Code subsection 423.4(10).

701—32.7(423) Exemption for containers. The use of containers in the collection, recovery, or return of empty beverage containers which are subject to the Iowa deposit law (Iowa Code chapter 455C) is exempt from tax on and after July 1, 1986.

This rule is intended to implement Iowa Code subsection 423.1(1).

701—32.8(423) Exemption for building materials used outside this state. The use in Iowa by a contractor-retailer, manufacturer, or manufacturer's subcontractor of building materials, supplies, or

equipment in the performance of construction contracts outside this state, the sale or use of which is not treated as a retail sale in this state under rule 701—19.5(422), is not subject to use tax.

This rule is intended to implement Iowa Code subsection 423.1(10).

701—32.9(423) Exemption for vehicles subject to registration. The use of vehicles, as defined in Iowa Code section 321.1, subsections 4, 6, 8, 9, and 10, except vehicles that are designed primarily for carrying persons, is exempt from tax if the vehicles are purchased for lease and actually leased to a lessee for use outside the state of Iowa and the subsequent sole use in Iowa is in interstate commerce or interstate transportation. Such vehicles are commonly known as motor trucks, truck tractors, road tractors, trailers, or semitrailers. The exemption is retroactive to January 1, 1973.

This rule is intended to implement Iowa Code subsection 423.4(7).

701—32.10(423) Exemption for vehicles operated under Iowa Code chapter 326. Vehicles operated under Iowa Code chapter 326 initially in Iowa on and after July 1, 1990, are exempt from tax. To claim the exemption to which this rule is applicable, it is not necessary that a vehicle be registered under Iowa Code chapter 326. The vehicle may be registered under some statute other than chapter 326; the exemption still applies. For details regarding vehicles registered under Iowa Code chapter 326 and in interstate commerce, see 701—32.4(423).

This rule is intended to implement Iowa Code section 423.4(10).

701—32.11(423) Exemption for vehicles purchased for rental or lease.

32.11(1) On and after July 1, 1992, the use of a vehicle subject to registration in any state is exempt from tax if the following conditions exist:

a. The vehicle is purchased for rental by a person regularly engaged in the business of renting vehicles, or is registered and titled for rental use by a motor vehicle dealer licensed under Iowa Code chapter 322; and

b. The vehicle is held for rental for a period of 120 days or more and actually rented for periods of 60 days or less by a person regularly engaged in the business of renting vehicles, including a motor vehicle dealer licensed under Iowa Code chapter 322 who rents automobiles to users; and

c. All rentals are subject to taxation under Iowa Code chapter 422C. See 701—Chapter 27 for information concerning rentals.

32.11(2) Long-term lease. On or after January 1, 1997, the use of a vehicle subject to registration in this state is exempt from tax if the following conditions exist:

a. The vehicle subject to registration is purchased for lease and titled by a lessor licensed pursuant to Iowa Code chapter 321; and

b. The vehicle has a gross vehicle weight rating of less than 16,000 pounds; and

c. The vehicle is actually leased for a period of 12 months or more; and

d. The lease is subject to taxation under Iowa Code section 423.7A. See rule 701—31.5(423) regarding long-term leases.

A lessor may maintain the exemption from use tax under Iowa Code section 423.4(16) for a 12-month qualifying lease that terminates at the conclusion of or prior to the contracted expiration date, if the lessor does not use the vehicle for any purpose other than for lease. Unless an exemption applies, once the vehicle is used by the lessor for a purpose other than for lease, the exemption from use tax under Iowa Code section 423.4(16) no longer applies and use tax is due on the fair market value of the vehicle, payable to the Iowa department of revenue (e.g., if the vehicle is used by the lessor as a company car). If a vehicle is subsequently leased and subject to tax, tax will be due and owing on any subsequent lease transaction. However, if a lessor exclusively maintains the vehicle for sale, then use tax is due on the purchase price of the vehicle at the time of sale and the tax is due and payable under the provisions of Iowa Code chapter 423.

This rule is intended to implement Iowa Code section 423.4(16) as amended by 1996 Iowa Acts, chapter 1125.

701—32.12(423) Exemption for vehicles previously purchased for rental. The use of motor vehicles subject to registration and previously purchased for rental is exempt from tax if the following circumstances exist:

1. The motor vehicle was registered and titled between July 1, 1982, and July 1, 1992, inclusive;
2. The motor vehicle was registered and titled to a motor vehicle dealer licensed under Iowa Code chapter 322;
3. The motor vehicle was rented to a “user” as that term is defined in Iowa Code section 422C.2 and 701—27.1(422,422C,423);
4. The dealer kept the vehicle on the inventory of vehicles for sale at all times;
5. The vehicle was to be immediately taken from the user when a buyer was found; and
6. The user was aware of this fact.

This rule is intended to implement Iowa Code chapter 423.

701—32.13(423) Exempt use of aircraft on and after July 1, 1999. On and after July 1, 1999, “aircraft” are subject only to use tax. See rule 701—31.6(423). As of that same date, the use of the following aircraft is exempt from tax:

32.13(1) Aircraft used in a scheduled interstate Federal Aviation Administration certified air carrier operation.

32.13(2) The use of an aircraft by an aircraft dealer who rents or leases the aircraft to another is exempt from tax if all of the following circumstances exist:

- a.* The aircraft is kept in the inventory of the dealer for sale at all times.
- b.* The dealer reserves the right to immediately take the aircraft from the renter or lessee when a buyer is found.
- c.* The renter or lessee is aware that the dealer will immediately take the aircraft when a buyer is found.

As soon as an aircraft is used for any purpose other than leasing or renting, or the conditions set out in paragraphs “a,” “b,” and “c” are not continuously met, the dealer claiming the exemption is liable for the tax which would have been due but for the exemption set out in this subrule. Tax will be computed on the original purchase price paid by the dealer.

See rule 701—18.49(422,423) for a description of various aircraft parts and of services performed on aircraft which are exempt from sales and use tax.

This rule is intended to implement Iowa Code section 423.4 as amended by 1999 Iowa Acts, chapter 168.

CHAPTER 33
RECEIPTS SUBJECT TO USE TAX DEPENDING ON
METHOD OF TRANSACTION
[Prior to 12/17/86, Revenue Department[730]]

701—33.1(423) Gifts and prizes. Rescinded IAB 9/4/91, effective 10/9/91.

701—33.2(423) Federal manufacturer's or retailer's excise tax. See rule 701—15.12(422,423) for the principles used to determine when federal excise tax is included in or excluded from the “purchase price” upon which Iowa use tax is based. The rule also contains a list of federal excise taxes which are currently includable in or excludable from the purchase price.

701—33.3(423) Fuel consumed in creating power, heat or steam for processing or generating electric current. Tangible personal property purchased outside the state and consumed in creating power, heat or steam for processing tangible personal property or for generating electric current intended to be sold ultimately at retail shall be exempt from use tax. If the property purchased to be consumed as fuel in creating power, heat or steam for processing is also used in the heating of the factory or office, ventilation of the building, lighting of the premises or for any use other than that of direct processing, that portion of the property so used shall be subject to use tax.

When buying tangible personal property, part of which is exempt as fuel under the provisions of the law, from an out-of-state seller registered to collect use tax for the state, the purchaser shall furnish to such registered seller a written certificate certifying the cost of the property which is to be used for processing and shall, therefore, be exempt. The certificate shall also show the cost of the property which is not to be used in processing and, therefore, taxable in order that the registered seller may properly bill the amount of use tax due. See 701—17.3(422).

701—33.4(423) Repair of tangible personal property outside the state of Iowa. A person who owns tangible personal property in the state of Iowa and sends such property or causes such property to be sent outside the state for the purpose of having it repaired and brings such property back into Iowa, shall be liable for the payment of use tax on the full charge if the service is enumerated.

When the repair is not an enumerated service subject to tax and is invoiced as a separate item from the materials furnished and used in the repair, tax shall be computed only on the charge made for the tangible personal property furnished by the repairer.

701—33.5(423) Taxation of American Indians.

33.5(1) Definitions.

“*American Indians*” means all persons of Indian descent who are members of any recognized tribe.

“*Settlement*” means all lands within the boundaries of the Mesquakie Indian settlement located in Tama County, Iowa, and any other recognized Indian settlement or reservation within the boundaries of the state of Iowa.

33.5(2) Use tax. Out-of-state purchases made by Indians which are purchased for use on a recognized settlement or reservation where delivery occurs on a recognized settlement or reservation to Indians who are members of the tribe located on that settlement or reservation are exempt from tax. Out-of-state purchases made by Indians where delivery occurs off a recognized settlement or reservation are subject to tax even though purchased for use on a recognized settlement or reservation.

33.5(3) Use tax—vehicles subject to registration. Vehicles subject to registration with county treasurers are exempt from use tax if delivery of the vehicle is made on a recognized settlement or reservation to Indians who are members of the tribe located on that settlement or reservation. Vehicles subject to registration with county treasurers are subject to use tax if delivery of the vehicle is made off a recognized settlement or reservation.

See rule 701—18.31(422,423) for the taxation of tangible personal property and services where the state sales tax may be applicable.

This rule is intended to implement Iowa Code sections 423.1, 423.2, and 423.7.

701—33.6(422,423) Exemption for property used in Iowa only in interstate commerce. In determining whether property used in interstate commerce is exempt from Iowa use tax, the following four circumstances will be considered. Any person claiming that use of property in Iowa is exempt from tax by virtue of its use in interstate commerce must prove that:

1. The use does not have a substantial nexus with Iowa; or
2. Iowa use tax is not fairly apportioned; or
3. Imposition of Iowa use tax results in discrimination against interstate commerce; or
4. The use tax imposed is not fairly related to services provided by Iowa and which aid the retailer or user.

See *Complete Auto Transit, Inc. v. Brady*, 430 U.S. 274, 51 L.Ed.2d 326, 97 S.Ct. 1076 (1977) and *D. H. Holmes Company, Ltd. v. McNamara*, 100 L.Ed.2d 21, 108 S.Ct. 1619 (1988). The second prong, fair apportionment, will be satisfied where the tax credit, authorized by Iowa Code section 423.25, is granted. *D. H. Holmes*, 100 L.Ed.2d at 28.

701—33.7(423) Property used to manufacture certain vehicles to be leased. Tangible personal property which by means of fabrication, compounding, or manufacturing becomes an integral part of vehicles defined in Iowa Code section 321.1, subsections 4, 6, 8, 9, and 10, is exempt from use tax provided the vehicle is manufactured for lease and actually leased to a lessee for use outside the state of Iowa and the subsequent sole use in Iowa is in interstate commerce or interstate transportation. Such vehicles are commonly known as motor trucks, truck tractors, road tractors, trailers, and semitrailers.

The exemption provided in this rule shall not be applicable to any vehicle designed primarily for the purpose of carrying persons.

Should a vehicle, which has been manufactured for lease and actually leased to a lessee for use outside the state of Iowa, have a “taxable moment” (as set forth in rule 33.6(422,423)) subsequent to the lease, tax would be owing and computed at the rate of 3 percent of the cost of the materials used in the manufacture of the vehicle.

The tax shall be paid on or before the last day of the month following the close of the quarter in which a taxable moment took place.

Sales of tangible personal property used as described in this rule and otherwise subject to Iowa retail sales tax imposed pursuant to Iowa Code section 422.43 are not exempt from the sales tax under the provisions of this rule.

The exemption provided in this rule shall be retroactive to January 1, 1973.

701—33.8(423) Out-of-state rental of vehicles subject to registration subsequently used in Iowa. If a vehicle is rented outside this state (such rental occurs when possession of the vehicle is transferred to a customer pursuant to a rental contract) and used within Iowa under the rental contract, rental payments are subject to Iowa use tax if those rental payments are made in Iowa at the termination of the rental agreement. See rule 701—30.7(423) regarding credit for taxes previously paid to another state.

EXAMPLE 1. Customer W signs a rental contract and takes possession of a rental car in Los Angeles. W drives the car to Des Moines and then pays a total charge for the rental of \$300. This \$300 payment is subject to Iowa use tax assuming that no tax was previously paid to another state.

EXAMPLE 2. Customer X rents and takes possession of a truck in Phoenix, Arizona. There customer X pays a \$500 deposit to the rental agency. Rental of the truck is on a mileage and per-day basis. Customer X then drives the truck to Des Moines. The mileage and per-day charges add up to \$600. Customer X pays the rental agency an additional \$100. This \$100 is subject to Iowa use tax.

701—33.9(423) Sales of mobile homes, manufactured housing, and related property and services.

33.9(1) *Sales of mobile homes, manufactured housing, and related property and services for one package price.* This rule is applicable only to mobile homes and manufactured housing sold as tangible personal property rather than in the form of real property. If, at the time of the sale, a mobile home or manufactured housing is real property, this rule is not applicable to it. If a mobile home dealer buys a mobile home, incorporates that mobile home into real estate in the manner required by and described

in Iowa Code section 435.26, and then sells the mobile home to a consumer, the sale of that mobile home, the sale of any services used to transform the mobile home from tangible personal property to real property, and the sale of any tangible personal property with the mobile home (such as furniture) are governed by 701—Chapter 19 which deals with building contracts and building contractors. Sales of manufactured housing in the form of real estate are governed by rule 701—33.10(423).

When a customer purchases a mobile home or manufactured housing from a dealer, it is usually the customer's wish that the dealer prepare the mobile home or manufactured housing so that it is ready for the customer to move into it. To render a mobile home or manufactured housing "ready to move into" a dealer will sell, with the home or housing, certain tangible personal property and will also perform or arrange for other parties to perform various services.

With respect to any one particular mobile home or manufactured house which a dealer may sell, a dealer may provide any combination of the following services or provide the following services and sell the below-listed property to any person purchasing the home or house:

1. Connect the electricity.
2. Connect the water.
3. Connect sewer system lines.
4. Sell and install skirting. Skirting is used to fill the space between the bottom of the mobile home or manufactured house and the ground. It gives the home or house an appearance more like a conventional home because it covers up this space.
5. Build and install steps for a door.
6. Build a deck.
7. Do minor repair.
8. Install and sell a foundation upon which to place the mobile home or manufactured housing.
9. Sell furniture or appliances (e.g., air conditioners, refrigerators, and stoves) for use in the mobile home or manufactured housing. Install the appliance (e.g., an air conditioner) if necessary.

A dealer selling a mobile home or manufactured housing on a "ready-to-move-into" basis usually sells that home or housing and the services and additional property necessary to render them livable for one "package price." The dealer and customer do not bargain separately for the sale of the various articles of tangible personal property (e.g., the mobile home or manufactured house and appliances) or the services (e.g., electrical installation) which are part of this package price; nor is the dealer's package price broken down to indicate any of the expenses which are components of the package price either in the dealer's sales contract or on any sales invoice.

The package price of any one particular mobile home or manufactured house will vary depending upon how many services the dealer will provide, or how much tangible personal property the dealer will sell in addition to the home or house. In many cases, a dealer will contract with a third party to perform the services promised in the dealer's contract to a customer. For example, the dealer will contract with a third party to hook up the home or house purchaser's electricity, install window air conditioning or will contract with a third party to build a deck or perform minor repairs on the mobile home or manufactured house.

In the situation described above, the "purchase price" of a mobile home or manufactured house is the entire package price charged for the home or house, additional personal property for use in and around the home or house, and services performed to render the home or house livable. The entire amount of the package price, reduced by 40 percent prior to July 1, 2008, or by 80 percent on or after July 1, 2008, as explained in rule 701—32.3(423), is used to calculate the amount of use tax due resulting from the sale of the mobile home or manufactured house. No part of the package price is subject to Iowa sales tax; rather it is subject to Iowa use tax.

33.9(2) *Sales of property and rendition of service under separate contract.* If the personal property and services listed in subrule 33.9(1) are purchased under separate contract and not as part of one package price with a mobile home or manufactured house, either from a mobile home dealer or from another party, the price paid for those items of property or services will not be a part of the purchase price of the home or house. Because the price of the property or services is not part of the "purchase price" of a home or house, that price will not be reduced by 40 percent prior to July 1, 2008, or by 80 percent on or after July

1, 2008, as required under rule 701—32.3(423), in computing the use tax due upon the sale of a mobile home. Also, if sold in Iowa, the property would be subject to Iowa sales tax. The same is true of services rendered in Iowa.

If separately contracted for, the gross receipts from the following services sold are subject to Iowa sales tax under Iowa Code subsection 422.43(11):

- a. Electrical hookup and air conditioning installation (electrical installation).
- b. Water and sewer system hookup (plumbing).
- c. Skirting installation and building and installation of steps and decks (carpentry).
- d. Nearly all “minor repairs” would be taxable.

The sale, under separate contract, of skirting, steps, decks, furniture, appliances, and other tangible personal property to customers purchasing mobile homes or manufactured housing would be sales of tangible personal property, the gross receipts of which are subject to Iowa sales rather than use tax.

The installation of a concrete slab on which to place the mobile home or manufactured housing would not be a service taxable to the home or housing owner since this installation involves “new construction” and the service performed upon this new construction is thus exempt from tax. The person installing the concrete slab would be treated as a construction contractor and would pay sales tax upon any tangible personal property purchased and used in the construction of the slab.

33.9(3) *Dealer purchases of tangible personal property and services for resale.* Regardless of whether the tangible personal property and services connected with the purchase of a mobile home or manufactured housing have been purchased as part of a package price or whether their purchase has been separately contracted for, a dealer’s or other retailer’s purchase of the tangible personal property or service for subsequent resale to a mobile home or manufactured housing purchaser is a purchase “for resale” and thus exempt from Iowa sales or use tax.

This rule is intended to implement Iowa Code section 423.6 as amended by 2008 Iowa Acts, House File 2700, section 64.

701—33.10(423) Tax imposed on the use of manufactured housing as tangible personal property and as real estate. As of July 1, 1999, tax is imposed on the use of “manufactured housing” in Iowa. On and after that date the term “manufactured housing” or “manufactured home” is intended, generally, to replace the term “mobile home” when referring to prefabricated housing which is subject only to use tax and not to sales tax even though there are some differences in the law’s treatment of mobile homes and manufactured housing.

33.10(1) Definition. “Manufactured housing” is basically housing which is factory built to specifications required by federal law (42 U.S.C. § 5403) and which is required by federal law to display a seal from the United States Department of Housing and Urban Development. It may be further characterized as (1) a structure built on a permanent chassis, (2) transportable in one or more sections, and (3) designed to be used as a dwelling with or without a permanent foundation. See the definition of “manufactured home” found in 24 Code of Federal Regulations § 3280.2 for additional characteristics of what is and is not “manufactured housing” for the purposes of Iowa use tax law.

33.10(2) Tax treatment of manufactured housing which is similar to the tax treatment of mobile homes:

a. Manufactured housing is subject only to Iowa use tax and not Iowa sales tax. The sale of manufactured housing in Iowa is defined by the applicable statute as a use of the housing in this state.

b. The use tax on manufactured housing is paid by the owner of the housing directly to the appropriate county treasurer. The law does not require any dealer or retailer in manufactured housing to collect use tax from a purchaser and remit the tax to any governmental body, although the law does not prevent a dealer from doing this as a courtesy to buyers.

c. Prior to July 1, 2008, only 60 percent of the purchase price of either a mobile home or manufactured housing is subject to use tax. On or after July 1, 2008, only 20 percent of the purchase price of either a mobile home or manufactured housing is subject to use tax. See rule 701—32.3(423). The use of manufactured housing previously subject to tax and upon which the tax has been paid is exempt from further tax.

d. The taxation of manufactured housing which is sold in the form of tangible personal property is similar to the taxation of mobile homes which are sold in the form of tangible personal property. See rule 701—33.9(423).

33.10(3) Taxable use of manufactured housing in the form of real estate. Unlike mobile homes, the use of which can be taxed only when the homes are in the form of tangible personal property, under certain conditions, the use of manufactured housing in the form of real estate can be subject to tax. On and after July 1, 1999, if a developer has placed a manufactured home on a foundation in a lot in Iowa and hooked up the necessary utilities and completed the necessary landscaping to convert the home from tangible personal property to realty, the sale of the manufactured home to a user is a taxable use of the home on the user's part.

EXAMPLE. Alpha and Omega Development Corp. buys land with enough space for 100 lots for manufactured housing and for the streets necessary to provide access to the lots. Alpha and Omega then buys 100 manufactured houses. It lawfully buys these houses exempt from use tax based on the assertion that they have been purchased for subsequent resale. Alpha and Omega then develops the land, installing water, sewer and electric lines, placing the manufactured homes on foundations, and otherwise taking steps to convert the homes from tangible personal property to real estate.

Alpha and Omega then sells the homes on the lots to various customers. Each purchase of a home by a customer is a taxable use of the home on that customer's part, and the customer is obligated to pay the appropriate county treasurer the amount of Iowa use tax due.

a. When tax is due on the use of manufactured housing in the form of real estate, the basis for computing the tax is the "installed purchase price" of the manufactured housing. The "installed purchase price" is the amount charged by a building contractor to a homebuyer to convert manufactured housing from tangible personal property into real estate. Prior to July 1, 2008, use tax is due on 60 percent of the amount of the installed purchase price. On or after July 1, 2008, use tax is due on 20 percent of the amount of the installed purchase price. See rule 701—32.3(423).

b. Included within the meaning of the term "installed purchase price" are amounts charged to a buyer of a manufactured home to build and install a foundation on which to place a home; amounts charged to hook up electric, water, gas, sewer system, and other lines for necessary utilities; amounts charged to sell and install "skirting" (see subrule 33.9(1)); amounts charged to build and install any steps for a door; and amounts separately charged for any appliances or other items which become a part of the housing after installation, e.g., dishwashers and whirlpool tubs.

c. Excluded from the meaning of the term "installed purchase price" is any amount charged for the purchase of land on which to place a manufactured house; any amount charged for landscaping in connection with the installation of a manufactured house; any amount charged to build and install any deck or similar appurtenance to a manufactured home; and any amounts charged for the sale of furniture or appliances which remain tangible personal property after installation, e.g., furniture, room air conditioners, and refrigerators. This list of inclusions and exclusions is not exclusive. Furthermore, the purchase of furniture or appliances which remain tangible personal property is subject to Iowa sales or use tax, including consumers' use tax.

d. The exemption in favor of taxable services performed on or in connection with new construction (see rule 701—19.13(422,423)) is not applicable when calculating the amount of any installed purchase price.

This rule is intended to implement Iowa Code section 423.6 as amended by 2008 Iowa Acts, House File 2700, section 64.

These rules are intended to implement Iowa Code sections 422.45(2), 422.45(18), 423.1(3), 423.2, 423.4(4) and Iowa Code section 423.4(12) as amended by 1999 Iowa Acts, chapter 188.

CHAPTER 34
VEHICLES SUBJECT TO REGISTRATION
[Prior to 12/17/86, Revenue Department[730]]

701—34.1(422,423) Definitions.

34.1(1) A “*vehicle subject to registration*” shall mean any vehicle subject to registration pursuant to Iowa Code section 321.18. This includes every motor vehicle, trailer and semitrailer when driven or moved upon a highway with certain exceptions as stated in Iowa Code section 321.18. This also includes new and used motor vehicles for the purpose of the administration of Iowa Code chapters 422 and 423; a modular home shall not be considered a vehicle subject to registration, but rather a modular home shall be subject to the provisions of Iowa Code chapters 422 and 423 pertaining to sales and use tax on sales of tangible personal property.

34.1(2) “*Dealers*” shall be persons licensed to sell vehicles subject to registration.

34.1(3) “*Taxable price*” shall be the total delivered price of the vehicle less cash discounts, trade-in allowances, fees imposed by the dealer for document processing, commonly known as “doc fees,” and any manufacturer’s cash rebate to a purchaser which is applied to the purchase price of a vehicle. The total delivered price shall include all accessories, additional equipment, services, freight and manufacturer’s tax, valued in money, whether paid in money or otherwise. Gasoline, separately itemized, shall not be subject to use tax.

34.1(4) *Taxable moment.* Rescinded IAB 9/4/91, effective 10/9/91.

This rule is intended to implement Iowa Code sections 422.42(3), 422.43, 423.1(1), 423.2, 423.4(4) and 423.7.

701—34.2(423) County treasurer shall collect tax. It shall be the duty of the county treasurer to collect use tax, when applicable, on vehicles subject to registration. The departmental rules adopted shall apply in the collection of use tax on vehicles subject to registration registered in their respective counties.

701—34.3(423) Returned vehicles and tax refunded by manufacturers. When a vehicle subject to registration is sold and later returned to the seller with the entire purchase price refunded, the purchaser is entitled to a refund of the use tax paid. To obtain a refund the purchaser must be able to show that the entire purchase price was returned and provide proof that the use tax had been paid. See rule 701—30.11(423) for details on claims for refund.

If a vehicle manufacturer has refunded to any purchaser, lessee, or lessor of a vehicle any amount required to be refunded by Iowa Code chapter 322G (Lemon Law), and a portion of that refund is use tax paid by the purchaser, lessee, or lessor, then the department shall refund to the manufacturer the amount of use tax which the manufacturer has refunded to the purchaser, lessee, or lessor. The manufacturer must send the department a written request for a refund, which contains adequate proof that the tax was paid when the vehicle was purchased and that the manufacturer refunded the tax to the purchaser, lessee, or lessor who paid it.

This rule is intended to implement Iowa Code sections 322G.4(2), 423.1, and 423.7.

701—34.4(423) Use tax collections required. The county treasurer or state motor vehicle registration division shall, before issuing a registration for a vehicle subject to registration, collect use tax due. The issuing office shall remit the tax in its monthly report to the department unless requirements for electronic transmission of remittances and related information specify otherwise.

For reports for months starting on or after April 1, 1990, remittances are to be made electronically in a format and by means specified by the department of revenue. Monthly reports are to be made separately from electronic transmission of the remittance. Remittances transmitted electronically are considered to have been made on the date that the remittance is added to the bank account designated by the treasurer of the state of Iowa. The filing of a monthly report and the remittance of the tax are simultaneous acts both of which shall occur for either condition to be met.

This rule is intended to implement Iowa Code section 423.7.

701—34.5(423) Exemptions. An affidavit of exemption may be required if there is reason to believe that the exemption being requested is not within the provisions of one of the exemptions set forth by law or it is believed that the person requesting the exemption will not use the vehicle for one of the exempt purposes. The burden of proof whether an exemption applies shall be upon the person claiming the exemption.

An original registration in Iowa may be issued for a vehicle subject to registration without the collection of use tax only in the following situations, unless exceptions are noted:

34.5(1) When the applicant for an Iowa registration for a vehicle subject to registration has paid to another state a state sales, use or occupational tax on that unit, credit shall be allowed against the Iowa tax due in the amount paid. Credit shall not be allowed when such tax is paid upon equipment rental receipts. If tax paid is equal to or greater than the Iowa tax due, no further tax shall be collected. If tax paid is less than the Iowa tax due, the difference shall be collected by Iowa.

34.5(2) When the consumer applies for registration of a “homemade vehicle subject to registration” built from parts purchased at retail, upon which the consumer paid a tax to the seller, and never before registered. The term “homemade vehicle subject to registration” shall include such things as homemade automobiles, trucks, trailers, motorcycles and motorbikes, but shall not include those vehicles subject to registration which are made by a manufacturer engaged in the business for the purpose of sales or rental.

34.5(3) When a nonresident of Iowa applies for a “nonresident-in-transit” registration for a motor vehicle purchased in Iowa but which the person intends to permanently register in a state other than Iowa.

34.5(4) When vehicles are purchased by any federal or state governmental agency or tax-certifying or tax-levying body of Iowa or governmental subdivision thereof. The exemption shall not apply to vehicles purchased and used in connection with the operation of or by a municipally owned public utility engaged in selling gas, electricity or heat to the general public and, therefore, shall be subject to use tax.

34.5(5) When the purchaser of a vehicle subject to registration in Iowa remits use tax on the taxable price, then moves the vehicle to a foreign state where it is registered in that state and subsequently returns the same vehicle to Iowa where it is again registered. The same purchaser shall have maintained ownership of the vehicle throughout the respective moves from and back to Iowa.

34.5(6) When a vehicle subject to registration is inherited, the county treasurer may require the registrant to set forth the facts before such exemption is granted.

34.5(7) When an applicant for an Iowa registration has moved from another state with intent of changing residency to Iowa and if the vehicle subject to registration was purchased for use in the state from which the applicant moved and was not, at or near the time of such purchase, purchased for use in Iowa.

34.5(8) Vehicles purchased for lease and used outside the state of Iowa. When certain vehicles defined as “motor trucks, truck tractors, road tractors, trailers, or semitrailers” in Iowa Code section 321.1, except vehicles designed primarily for carrying persons, are purchased for the purpose of leasing to a lessee for use outside the state of Iowa, and actually leased to a lessee for use outside Iowa, such vehicles shall be exempt from use tax provided the subsequent sole use in Iowa is in interstate transportation or interstate commerce.

Should a “use,” as defined in Iowa Code subsection 423.1(1) occur in Iowa, subsequent to the leasing to a lessee outside the flow of interstate transportation or interstate commerce, use tax would be owing. The tax, if found to be due, shall be computed on the purchase price.

The tax, if due, shall be paid on or before the last day of the month following the close of the quarter in which a “use” in Iowa, outside the flow of interstate transportation or interstate commerce, did occur. The tax should be paid directly to the Iowa department of revenue.

34.5(9) Vehicles which are transferred from a business which was a sole proprietorship or partnership to a corporation for the purpose of continuing the business if all of the stock of the corporation is owned by the sole proprietor and the sole proprietor’s spouse or by all the partners if the business was a partnership are exempt from tax. This exemption is also applicable if vehicles are transferred from a corporation to a sole proprietorship or partnership formed for the purpose of continuing the business when carried on by the same person or persons who were stockholders of the corporation.

a. This exemption contains the following provisions:

(1) If the business transferring the vehicle is a sole proprietorship or partnership, the vehicle must be transferred to a new corporation. For the purposes of this subrule, a corporation is a “new” corporation if, at the time of transfer, the corporation has been incorporated for one calendar year or less.

(2) The new corporation must have been formed for the purpose of continuing the business of the sole proprietorship or partnership. The activities of the new corporation must, therefore, be the same as the sole proprietorship or the partnership.

(3) The new corporation must be owned 100 percent by the sole proprietor, the sole proprietor’s spouse or all the partners, in the case of a partnership, which is transferring the vehicle.

(4) The exemption is equally available when vehicles are transferred from a corporation to a sole proprietorship or to a partnership.

(5) In such cases, the newly formed sole proprietorship or partnership must have been formed to continue the business of the corporation. Therefore, the activities of the new entity must be the same as the corporation.

(6) The new sole proprietorship or partnership must have owned all the stock in the transferring corporation when the corporation existed.

b. Effective July 1, 2001, this exemption is also applicable to transfers to and from limited liability companies. The rules regarding transfers to a “new” corporation are also applicable to a transfer to a limited liability company. In addition, for a limited liability company to claim the exemption, the creation of the limited liability company must be by the same person or persons who owned the transferor entity.

c. Effective May 30, 2003, the gross receipts from the transfer of a vehicle subject to registration from one corporation to another corporation are exempt if the following two criteria are met:

(1) The corporations involved in the transfer must be primarily engaged in the business of leasing vehicles subject to registration; and

(2) The corporations are part of the same controlled group for federal income tax purposes.

34.5(10) Purchases of vehicles subject to registration by persons who will rebuild those vehicles into ambulances, rescue, or fire vehicles (as defined in Iowa Code chapter 321) are exempt from tax. These purchases are exempt only if the person purchasing the vehicle for rebuilding into an ambulance, rescue, or fire vehicle is a licensed wholesaler of new motor vehicles. This exemption is applicable only to purchases of vehicles which will be rebuilt into ambulances, rescue, or fire vehicles.

34.5(11) Purchases of vehicles by a licensed vehicle recycler under Iowa Code chapter 321H are exempt from tax. These purchases are exempt as long as the recycler sells only those parts or vehicles for which the recycler is licensed.

34.5(12) Purchase of vehicles by a person regularly engaged in the business of renting vehicles or a vehicle that is registered and titled for rental use by a motor vehicle dealer licensed under Iowa Code chapter 322 for the purpose of short-term automobile rental (see Iowa Code chapter 27) or, effective January 1, 1997, vehicles subject to registration purchased for a long-term vehicle lease of 12 months or more and titled by a lessor licensed pursuant to Iowa Code chapter 321 (see 701—rules 31.5(423) and 32.11(423)).

This rule is intended to implement Iowa Code sections 422.45(5), 423.4(4), 423.4(9) and 423.4(16) and 2003 Iowa Acts, chapter 179, section 127.

701—34.6(423) Vehicles subject to registration received as gifts or prizes. Persons receiving motor vehicles subject to registration as gifts or prizes are not obligated to pay use tax on the purchase price of those vehicles.

This rule is intended to implement Iowa Code sections 423.1(2) and 423.2.

701—34.7(423) Titling of used foreign vehicles by dealers. Licensed auto dealers shall not be required under the motor vehicle “title” law to register used foreign motor vehicles but shall be required to secure a title for such units by remitting required fees and submitting a completed application for title to the county treasurer of the dealer’s residence within 15 days of the vehicle’s arrival in this state. When applying for a title on such foreign-used vehicles, dealers shall execute and file a dealer’s resale affidavit,

in duplicate, with the office issuing the title. The original shall be forwarded to the department along with the monthly use tax report, and the copy shall be retained by the issuing office.

If a dealer acquires a vehicle registered in another state which allows for reciprocity for Iowa vehicle registrations and titles, by allowing Iowa dealers to assign that state's certificates of title and registrations, the dealer is not required to obtain a new registration or a new certificate of title. Instead, the Iowa dealer need only assign the foreign state's certificate of title or registration to another person to effectuate a transfer of the vehicle.

This rule is intended to implement Iowa Code sections 423.1(15) and 423.10.

701—34.8(423) Dealer's retail sales tax returns. Sales of new or used motor vehicles and trailers, as defined, are expressly exempt from sales tax, as the law imposes use tax on new or used motor vehicles and trailers. If the dealer holds a sales tax permit, the dealer shall include on the sales tax return the gross receipts from sales of new or used motor vehicles and trailers and then take appropriate deductions in the section provided on the return.

701—34.9(423) Affidavit forms. Forms of affidavit required to establish purchase price, lease price, or exemption shall be furnished by the department and shall be available upon request.

The affidavit for the total delivered purchase price or lease price of a motor vehicle or trailer shall be established by the application for certificate of title and registration and a manufacturer's statement of origin. Before a motor vehicle or trailer, purchased outside the state, is registered, the county treasurer must be satisfied that the information stated in the affidavit is true and correct.

Affidavits of exemption which are not correct in both substance and form shall not be accepted by the county treasurer, the motor vehicle division or the department in lieu of use tax. In case of doubt, the county treasurer or motor vehicle division shall collect tax. Claim for refund may be filed by the taxpayer if the taxpayer believes tax has been erroneously collected.

Rules 34.1(422,423) to 34.9(423) are intended to implement Iowa Code chapter 423 and Iowa Code section 423.7A as amended by 1996 Iowa Acts, chapter 1125.

701—34.10(423) Exempt and taxable purchases of vehicles for taxable rental. If a vehicle subject to registration is purchased for rental, and the gross receipts from that rental will be taxable, the purchase price of this vehicle is not exempt from use tax except under the circumstances set out in rules 701—32.11(423) and 32.12(423).

The purchase for rental is not a purchase of tangible personal property for resale because a lease or rental of tangible personal property is not a sale: *Cedar Valley Leasing, Inc. v. Iowa Department of Revenue*, 274 N.W.2d 357 (Iowa 1979); and the exemption allowed from tax for the use in Iowa of tangible personal property to be rented is not applicable to the use tax on motor vehicles because excluded from that exemption are vehicles subject to registration. See Iowa Code sections 422.45(18), 423.4(4), 423.4(14), 423.4(15), and 423.4(16).

This rule is intended to implement Iowa Code sections 422.45(2), 422.45(18), 423.4(4), and 423.4(16) as amended by 1996 Iowa Acts, chapter 1125, and Iowa Code chapter 422C.

701—34.11(423) Manufacturer's refund of use tax to a consumer, lessor, or lessee of a defective motor vehicle. The department shall refund to a motor vehicle manufacturer any Iowa use tax which the manufacturer has refunded to a consumer, lessee, or lessor of a defective motor vehicle as required by Iowa Code section 322G.4, if the manufacturer presents a written request for refund and suitable proof that the use tax was paid at the time of purchase or lease and that the manufacturer refunded the use tax paid. Suitable proof of payment at time of purchase is a copy of a title showing payment of the use tax.

This rule is intended to implement Iowa Code section 322G.4.

701—34.12(423) Government payments for a motor vehicle which do not involve government purchases of the same. If a dealer or other seller transfers title to a vehicle under a contract of sale to a buyer, payment by a government of all or part of the purchase price of the vehicle is not a sale of that

vehicle to the government making the payment, and the entire purchase price of the vehicle is subject to use tax.

EXAMPLE: A disabled veteran is purchasing a van. The veteran makes an application with the Veterans Administration (V.A.) to help purchase the van for \$30,695. The application is approved and the V.A. prepares a check for \$12,456. The check is paid to the order of the seller of the van. It is also the usual custom for a veteran to apply for a grant to pay some or all of the remainder of the price. If this grant is approved, a check is issued in the name of the veteran. The veteran then either assigns the check to the dealer or deposits the check and writes a personal check to the dealer for the remaining amount due. Under these circumstances, the van is sold to the veteran and not the U.S. government. The purchase price upon which tax is computed is \$30,695.

This rule is intended to implement Iowa Code section 423.7.

701—34.13(423) Transfers of vehicles resulting from corporate mergers and other types of corporate transfers. Corporate mergers often involve the transfer of title to large numbers of vehicles from a merging corporation to a surviving corporation. These transfers generally do not involve the “purchase” of these vehicles, though other transfers of vehicles between corporations may involve purchases of vehicles and thus be subject to use tax. See rule 701—15.20(422,423) for examples of property transfers between corporations which involve mergers without purchases and those nonmerger transactions which involve purchases or transfers that may result in an obligation to pay use tax.

701—34.14(423) Refund of use tax paid on the purchase of a motor vehicle. If, as the result of an error, use tax had been paid which was not due under Iowa Code chapter 423, the use tax paid can be refunded to the purchaser. A claim for refund must be filed with the department within three years after the tax payment became due, or one year after the payment of tax was made, whichever is later.

This rule is intended to implement Iowa Code section 423.23.

701—34.15(423) Registration by manufacturers. Use tax on a vehicle registered in Iowa by the manufacturer of that vehicle from an MSO (manufacturer’s statement of origin) is calculated on the base value of 50 percent of the retail list price of the vehicle because such a manufacturer is required to pay use tax only on the manufacturer’s cost of materials used to manufacture the vehicle. However, it is important to note that this 50 percent exemption is provided only to manufacturers of the vehicle; it is not extended to subsidiaries of the manufacturer. A subsidiary of a manufacturer is required to pay Iowa use tax on 100 percent of that subsidiary’s purchase price of the vehicle at the time of the registration of the vehicle.

This rule is intended to implement Iowa Code section 423.2.

701—34.16(423) Rebates. Manufacturer’s rebates can be used to reduce the taxable purchase price of a vehicle.

34.16(1) To qualify as a manufacturer’s rebate for the reduction in the taxable price, all of the following elements must be present:

- a.* A rebate must be a return to the purchaser of an amount that the purchaser would otherwise have paid;
- b.* The rebate must be in the form of cash;
- c.* The rebate must be offered by a manufacturer which is any person or entity that fabricates, assembles, or combines materials and parts to create a vehicle subject to registration in Iowa;
- d.* The rebate must be given as part of a transaction between the manufacturer and the purchaser and must meet both of the following:

- (1) The rebate must originate from an entity acting in the capacity of a manufacturer of such vehicles when the rebate is offered. The rebate cannot be offered by a vehicle manufacturer engaging in other activities, such as a manufacturer acting in the capacity of a credit card issuer or a financing program;

(2) The purchaser must be in the process of purchasing the vehicle at the time the rebate is given. The rebate cannot be given to a customer in a situation similar to the credit card rebate program, in which the customer earns the right to the rebate over a period of time. Purchase of the vehicle must occur simultaneously with the receipt of the rebate, and the rebate cannot be allowed unless the customer purchases the vehicle; and

e. The rebate must be applied to the base purchase price of the vehicle.

34.16(2) Reserved.

This rule is intended to implement Iowa Code section 423.1(8).

701—34.17(321,423) Repossession of a vehicle. A vehicle may be taken from a purchaser by the holder of the security interest in the vehicle or someone acting on the holder's interest, if the purchaser defaults on the terms of the purchase agreement. To be recognized as valid for use tax purposes, the repossession must be regulated under the terms of the Uniform Commercial Code and there must be a valid lien on the title of the vehicle. To be recognized as valid for use tax purposes, repossession of a vehicle can be made by dealers, by financial institutions, and by individuals. The taxable result of repossession depends on the identity of the person doing the repossessing and the manner in which the person doing the repossessing conducts the transaction.

34.17(1) Licensed vehicle dealer. If a licensed vehicle dealer repossesses a vehicle and anticipates reselling the vehicle, then the dealer can use the dealer's resale exemption, and no use tax is due at the time of the registration of the vehicle by the dealer.

34.17(2) Financial institution or private individual. A financial institution or a private individual may be a licensed dealer entitled to receive an exemption from use tax based on the dealer's license when registering a repossessed vehicle. Repossessions of vehicles that will be resold by a financial institution or an individual that does not have a dealer's license can be effectuated using a foreclosure affidavit. Use tax liabilities which arise as a result of such affidavits are as follows:

a. If the financial institution or individual uses the foreclosure affidavit to take title to the vehicle and register the vehicle, use tax is due based on the outstanding loan amount on the vehicle.

b. If the foreclosure affidavit is used merely to retain possession of the vehicle until a buyer is found, no tax is due on the repossession. No tax is due because a transfer of title does not occur.

Use tax liabilities which arise as a result of repossessions of mobile homes are handled in the same manner as vehicles.

This rule is intended to implement Iowa Code sections 321.48 and 423.2.

701—34.18(423) Federal excise tax. There are many types of federal excise taxes. The type of tax and time in which the federal excise tax is imposed determine if the federal tax is to be included in the taxable sales price for Iowa tax purposes. Federal excise tax imposed on manufacturers rather than at the time of the sale may not be deducted from the sale price. Instead, this type of federal excise tax remains as part of the taxable price for the purpose of computing Iowa tax. Another type of federal excise tax is imposed at the time of the sale. Federal luxury tax is imposed at the time of the sale of certain vehicles, trucks, buses, trailers, chassis, bodies, and parts and is to be collected by the retailer and remitted directly to the Internal Revenue Service. Federal excise tax which is imposed at the time of sale is excluded from the sale price for the purpose of computing Iowa tax. However, to be excluded from the sale price for the purpose of computing Iowa tax, this type of federal tax must be separately billed or itemized.

This rule is intended to implement Iowa Code section 423.1(8).

701—34.19(423) Claiming an exemption from Iowa tax. Tax on the taxable transfer of a vehicle is due and owing to the county treasurer at the time the vehicle is registered. If the purchase of the vehicle is not subject to tax, the county treasurer has the discretion to require the owner of the vehicle to complete an affidavit form setting forth the basis for exemption. The burden of proof that an exemption is proper is upon the person claiming the exemption.

This rule is intended to implement Iowa Code section 423.4.

701—34.20(423) Affidavit forms. Affidavit forms are used to establish purchase price or exemption. These forms are furnished by the department and are available upon request. The total delivered purchase price of a vehicle or trailer is established by the application for certificate of title and registration and a manufacturer's statement of origin (MSO). Before a vehicle or trailer that has been purchased outside of Iowa can be registered, the county treasurer must be satisfied that the information stated in the affidavit is accurate.

Affidavits of exemption which are not correct in substance and form will not be accepted in lieu of use tax by the county treasurer, department of transportation (DOT), motor vehicle division, or the department of revenue. When a claimed exemption is in doubt, the county treasurer or DOT will collect the tax. Claims for refund of tax may be filed by a taxpayer if the taxpayer believes the tax was collected in error. See 701—34.14(423) for information on refunds.

This rule is intended to implement Iowa Code section 423.4.

701—34.21(423) Insurance companies. Insurance companies title and register vehicles when vehicles are damaged to the extent of being a total loss. Generally, in this type of transaction, the insurance company pays the insured for the vehicle that is totally damaged and, subsequently, the insurance company takes title to the damaged vehicle. In this situation, there is a transfer of the vehicle title from the insured to the insurance company for consideration (money paid by the insurance company to the insured for the totaled vehicle). Accordingly, Iowa use tax is due on the vehicle when the insurance company titles the vehicle. However, insurance companies are entitled to obtain a limited vehicle dealer's license for the purchase of damaged or repossessed vehicles (see 701— 34.17(423) regarding repossession). If an insurance company has a dealer's license, then the dealer may purchase and register the vehicle without being required to pay Iowa use tax on the vehicle.

This rule is intended to implement Iowa Code section 423.21.

TITLE V
INDIVIDUALCHAPTER 38
ADMINISTRATION

[Prior to 12/17/86, Revenue Department[730]]

701—38.1(422) Definitions.

38.1(1) When the word “*department*” appears herein, the word refers to and is synonymous with the “Iowa department of revenue”; the word “*director*” is the “director of revenue” or the director’s authorized assistants and employees.

The administration of the individual income tax is a responsibility of the department. The department is charged with the administration of the individual income tax, fiduciary tax, withholding of tax and individual estimate declarations, subject always to the rules, regulations and direction of the director.

38.1(2) The term “*computed tax*” means the amount of tax remaining before deductions of the personal exemption credit and other credits in Iowa Code chapter 422, division II, and before the computation of the school district surtax and the emergency medical services income surtax.

38.1(3) The word “*taxpayer*” includes under this division:

- a. Every resident of the state of Iowa.
- b. Every part-year resident of the state of Iowa.
- c. Every estate and trust resident of this state whose income is in whole or in part subject to the state income tax.
- d. Nonresident individuals, estates and trusts (those with a situs outside of Iowa) receiving taxable income from property in Iowa or from business, trade, or profession or occupation carried on in this state.

38.1(4) The term “*fiduciary*” shall mean one who acts in place of or for the benefit of another in accordance with the meaning of the term defined in Iowa Code section 422.4. The term includes, but is not limited to, the executor or administrator of an estate, a trustee, guardian or conservator, or a receiver.

38.1(5) The term “*employer*” means those who have a right to exercise control as to the performance of services as defined in Iowa Code section 422.4.

38.1(6) The term “*employee*” means and includes every individual who is a resident, or who is domiciled in Iowa, or any nonresident, or corporation performing services within the state of Iowa, the performance of which services constitutes, establishes, and determines the relationship between the parties as that of employer and employee. This includes officers of corporations, individuals, including elected officials performing services for the United States government or any agency or instrumentality thereof, or the state of Iowa, or any county, city, municipality or political subdivision thereof.

38.1(7) The term “*wages*” means any remuneration for services performed by an employee for an employer, including the cash value of all such remuneration paid in any medium or form other than cash. Wages have the same meaning as provided by the Internal Revenue Code as made applicable to Iowa income tax.

Wages subject to Iowa income tax withholding consist of all remuneration, whether in cash or other form, paid to an employee for services performed for the employer. For this purpose, the word “wages” includes all types of employee compensation, such as salaries, fees, bonuses, and commissions. It is immaterial whether payments are based on the hour, day, week, month, year or on a piecework or percentage plan.

Wages paid in any form other than money are measured by the fair market value of the goods, lodging, meals, or other consideration given in payment for services.

Where wages are paid in property other than money, the employer should make necessary arrangements to ensure that the tax is available for payment. Vacation allowances and back pay, including retroactive wage increases, are taxed as ordinary wages.

Tips or gratuities paid directly to an employee by a customer and not accounted for to the employer are not subject to withholding. However, the recipients must include them in their personal income tax returns.

Amounts paid specifically, either as advances or reimbursements, for traveling or other bona fide ordinary and necessary expenses incurred or reasonably expected to be incurred in the business of the employer are not wages and are not subject to these taxes. Traveling and other reimbursed expenses must be identified either by making a separate payment or by specifically indicating the separate amounts where both wages and expense allowance are combined in a single payment.

Wages are to be considered as paid when they are actually paid or when they are constructively paid, that is, when they are credited to the account of, or set apart for the wage earner so that they may be drawn upon by the wage earner at any time, although not then actually reduced to possession.

38.1(8) The term “*responsible party*” shall have the same meaning as withholding agent as defined in Iowa Code section 422.4. A withholding agent includes an officer or employee of a corporation or association, or a member or employee of a partnership, who has the responsibility to perform acts covered by Iowa Code section 422.16. As of July 1, 1993, withholding agent also includes a member or a manager of a limited liability company who has the responsibility to perform acts covered by Iowa Code section 422.16 as amended by 1994 Iowa Acts, Senate File 2057. An individual who is a “responsible party” by law cannot shift that responsibility to someone else by attempting to delegate the responsibility to another corporate officer or employee.

Every business which is an employer must have some person who has the duty of withholding and paying those taxes which the law requires an employer to withhold and pay. There may be more than one person, but there must be at least one. The fact that any individual may not have been the only responsible person would not excuse that person from the responsibility of paying withholding taxes. Any withholding agent as defined in this subrule, who knowingly violates the statutory provisions of Iowa Code section 422.16, will be held liable for the tax due: *Pacific National Insurance Co. v. United States*, 1970, 9th Cir., 422 F.2d 26, cert. denied, 398 U.S. 937; *R. E. Dougherty v. United States*, 1971, 327 F. Supp. 202; *Gefen v. United States*, 5th Cir. 1968, 400 F.2d 476.

38.1(9) *Domicile*. Rescinded IAB 5/10/95, effective 6/14/95.

This rule is intended to implement Iowa Code sections 422.3, 422.4 and 422.16.

701—38.2(422) Statute of limitations.

38.2(1) *Periods of audit.*

a. The department has three years after a return has been filed or three years after the return became due, including any extensions of time for filing, whichever time is the later, to determine whether any additional tax other than that shown on the return is due and owing. This three-year statute of limitations does not apply in the instances specified in paragraphs “*b*,” “*c*,” “*d*,” “*e*,” “*f*” and “*g*.”

b. If a taxpayer fails to include in the taxpayer’s return items of gross income as defined in the Internal Revenue Code as amended, as will under that Code extend the statute of limitations for federal tax purposes to six years, the correct amount of tax due may be determined by the department within six years from the time the return is filed, or within six years after the return became due, including any extensions of time for filing, whichever time is the later.

c. If a taxpayer files a false or fraudulent return with intent to evade tax, the correct amount of tax due may be determined by the department at any time after the return has been filed.

d. If a taxpayer fails to file a return, the periods of limitations so specified in Iowa Code section 422.25 do not begin to run until the return is filed with the department.

e. While the burden of proof of additional tax owing under the six-year period or the unlimited period is upon the department, a prima facie case of omission of income, or of making a false or fraudulent return, shall be made upon a showing of a federal audit of the same income, a determination by federal authorities that the taxpayer omitted items of gross income or made a false or fraudulent return, and the payment by the taxpayer of the amount claimed by the federal government to be the correct tax or the admission by the taxpayer to the federal government of liability for that amount.

f. In addition to the periods of limitation set forth in paragraph “*a*,” “*b*,” “*c*,” “*d*,” or “*e*,” the department has six months after notification by the taxpayer of the final disposition of any matter between the taxpayer and the Internal Revenue Service with respect to any particular tax year to make an examination and determination. Final disposition of any matter between the taxpayer and

the Internal Revenue Service triggers the extension of the statute of limitations for the department to make an examination and determination, and the extension runs until six months after the department receives notification and a copy of the federal document showing the final disposition or final federal adjustments from the taxpayer. *Van Dyke v. Iowa Department of Revenue and Finance*, 547 N.W.2d 1. This examination and determination is limited to those matters between the taxpayer and the Internal Revenue Service which affect Iowa taxable income. *Kelly-Springfield Tire Co. v. Iowa State Board of Tax Review*, 414 N.W.2d 113 (Iowa 1987). The notification shall be in writing in any form sufficient to inform the department of final disposition, and attached to the notification shall be a photo reproduction or carbon copy of the federal document which shows the final disposition and any schedules necessary to explain the federal adjustments. The notification and copy of the federal document shall be mailed, under separate cover, to the Examination Section, Compliance Division, P.O. Box 10456, Des Moines, Iowa 50306. Any notification and copy of the federal document which is included in, made a part of, or mailed with a current year Iowa individual income tax return will not be considered as proper notification for the purposes of beginning the running of the six-month period.

g. In lieu of the period of limitation for any prior year for which an overpayment of tax or an elimination or reduction of an underpayment of tax due for that prior year results from the carryback to such prior year of a net operating loss or net capital loss, the period shall be the period of limitation for the taxable year of the net operating loss or net capital loss which results in such carryback.

38.2(2) Waiver of statute of limitations. When the taxpayer and the department enter into an agreement to extend the period of limitation, interest continues to accrue on any deficiency or overpayment during the period of the waiver. The taxpayer may claim a refund during the period of the waiver.

38.2(3) Amended returns filed within 60 days of the expiration of the statute of limitations for assessment. If a taxpayer files an amended return on or after April 1, 1995, within 60 days prior to the expiration of the statute of limitations for assessment, the department has 60 days from the date the amended return is received to issue an assessment for applicable tax, interest, or penalty.

This rule is intended to implement Iowa Code section 422.25.

701—38.3(422) Retention of records.

38.3(1) Every individual subject to the tax imposed by Iowa Code section 422.5 (whether or not the individual incurs liability for the tax) and every withholding agent subject to the provisions of Iowa Code section 422.16 shall retain those books and records as required by Section 6001 of the Internal Revenue Code and federal income tax regulation 1.6001-1(e) including the federal income tax return and all supporting federal schedules. For taxpayers using an electronic data interchange process or technology also see 701—subrule 11.4(4).

38.3(2) In addition, records relating to other deductions or additions to federal adjusted income and Iowa tax credits shall be retained so long as the contents may be material in the administration of the Iowa Code under the statutes of limitations for audit specified in Iowa Code section 422.25.

This rule is intended to implement Iowa Code sections 422.25 and 422.70.

[ARC 9104B, IAB 9/22/10, effective 10/27/10]

701—38.4(422) Authority for deductions. Whether and to what extent deductions shall be allowed depends upon specific legislative acts, and only where there is a clear provision can any particular deduction be allowed. Therefore, a deduction will be allowed only if the taxpayer can establish the validity and correctness of such deduction.

This rule is intended to implement Iowa Code sections 422.7 and 422.9.

701—38.5(422) Jeopardy assessments.

38.5(1) A jeopardy assessment may be made in a case where a return has been filed, and the director believes for any reason that collection of the tax will be jeopardized by delay; or in a case where a taxpayer fails to file a return, whether or not formally called upon to do so, in which case the department

is authorized to estimate the income of the taxpayer upon the basis of available information, and to add penalty and interest.

38.5(2) A jeopardy assessment is due and payable when the notice of the assessment is served upon the taxpayer. Proceedings to enforce the payment of the assessment by seizure or sale of any property of the taxpayer may be instituted immediately.

This rule is intended to implement Iowa Code section 422.30.

701—38.6(422) Information deemed confidential. Iowa Code sections 422.20 and 422.72 apply generally to the director, deputies, auditors, agents, present or former officers and employees of the department. Disclosure of information from a taxpayer's filed return or report or other confidential state information by department of revenue personnel to a third person is prohibited under the above sections. Other persons having acquired information disclosed in a taxpayer's filed return or report or other confidential state information will be bound by the same rules of secrecy under these sections as any member of the department and will be subject to the same penalties for violations as provided by law. See rule 701—6.3(17A).

This rule is intended to implement Iowa Code sections 422.16, 422.20, and 422.72.

701—38.7(422) Power of attorney. For information regarding power of attorney, see rule 701—7.34(421).

[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—38.8(422) Delegations to audit and examine. Pursuant to statutory authority, the director delegates to authorized assistants and employees the power to examine returns and make audits; and to determine the correct amount of tax due, subject to review by or appeal to the director.

This rule is intended to implement Iowa Code section 422.70.

701—38.9(422) Bonding procedure. The director may, when necessary and advisable in order to secure the collection of the tax required to be deducted and withheld or the amount actually deducted, whichever is greater, require an employer or withholding agent to file with the director a bond issued by a surety company authorized to conduct business in Iowa and approved by the insurance commissioner as to solvency and responsibility in an amount the director may fix, or in lieu of bond, securities approved by the director in an amount the director may prescribe and keep in the custody of the department. Pursuant to the statutory authorization in Iowa Code section 422.16, the director has determined that the following procedures will be instituted with regard to bonds. However, the bonding procedures were applicable only to nonresident employers or withholding agents for withholding taxes due prior to January 1, 1987. The penalty for failure of a withholding agent to file a bond, described in subrule 38.9(4) applies to taxes required to be withheld on or after January 1, 1990.

38.9(1) When required.

a. New applications by withholding agents. A new withholding agent applicant will be requested to post a bond or security if (1) it is determined upon a complete investigation of the applicant's financial status that the applicant would be unable to timely remit the tax, or (2) the new applicant held a withholding agent's identification number for a prior business and the remittance record of the tax under the prior identification number falls within one of the conditions in paragraph "b" below, or (3) the department experienced collection problems while the applicant was engaged in business under the prior identification number.

b. Existing withholding agents. Existing withholding agents shall be requested to post a bond or security when they have had two or more delinquencies in remitting the withholding tax during the last 24 months if filing returns on a quarterly basis or have had four or more delinquencies during the last 24 months if filing returns on a monthly basis. The simultaneous late filing of the return and the late payment of the tax will count as one delinquency. However, the late filing of the return or the late payment of the tax will not count as a delinquency if the withholding agent can satisfy one of the conditions set forth in Iowa Code section 421.27.

c. Waiver of bond. If a withholding agent has been requested to post a bond or security or if a withholding agent applicant has been requested to post a bond or security, upon the filing of the bond or security, if the withholding agent maintains a good filing record for a period of two years, the withholding agent may request that the department waive the continued bond or security requirement.

38.9(2) Type of security or bond. When it is determined that a withholding agent or withholding agent applicant is required to post collateral to secure the collection of the withholding tax, the following types of collateral will be considered as sufficient: surety bonds, securities or certificates of deposit. When the withholding agent is a corporation, an officer or employee of the corporation may assume personal liability as security for the payment of the withholding tax. The officer or employee will be evaluated as provided in 38.9(1) "a" as if the officer or employee applied as the withholding agent as an individual.

38.9(3) Amount of bond or security. When it is determined that a withholding agent or withholding agent applicant is required to post a bond or securities, the following guidelines will be used to determine the amount of the bond, unless the facts warrant a greater amount: If the withholding agent or applicant will be or is a monthly depositor, a bond or securities in an amount sufficient to cover five months' withholding tax liability will be required. If the applicant or withholding agent will be or is a quarterly filer, the bond or securities which will be required is an amount sufficient to cover nine months or three quarters of tax liability.

38.9(4) Penalty for failure of a withholding agent to file bond. If the withholding agent is requested by the department to file a bond to secure collection of the state withholding tax and fails to file the bond, the withholding agent is subject to a penalty. The penalty for failure to file a bond is 15 percent of the tax the withholding agent is required to withhold on an annual basis. However, the penalty cannot exceed \$5000.

This rule is intended to implement Iowa Code section 422.16.

701—38.10(422) Indexation. Iowa Code section 422.5 provides for the adjustment of the tax brackets by a cumulative inflation factor to be determined by the director. The requirement that provided that the state general fund balance on June 30 of the prior calendar year had to be \$60 million or more before there was indexation of the tax rate brackets for the current year was repealed for tax years beginning on or after January 1, 1996.

This rule is intended to implement Iowa Code sections 422.4 and 422.21.
[ARC 1303C, IAB 2/5/14, effective 3/12/14]

701—38.11(422) Appeals of notices of assessment and notices of denial of taxpayer's refund claims. A taxpayer may appeal to the director at any time within 60 days from the date of the notice of assessment of tax, additional tax, interest, or penalties. For assessments issued on or after January 1, 1995, if a taxpayer fails to timely appeal a notice of assessment, the taxpayer may pay the entire assessment and file a refund claim within the period provided by law for filing such claims. In addition, a taxpayer may appeal to the director at any time within 60 days from the date of notice from the department denying changes in filing methods, denying refund claims, or denying portions of refund claims. See rule 701—7.8(17A) for information on filing appeals or protests.

This rule is intended to implement Iowa Code sections 421.10 and 422.28.
[ARC 0251C, IAB 8/8/12, effective 9/12/12]

701—38.12(422) Indexation of the optional standard deduction for inflation. Effective for tax years beginning on or after January 1, 1990, the optional standard deduction is indexed or increased by the cumulative standard deduction factor computed by the department of revenue. The cumulative standard deduction factor is the product of the annual standard deduction factor for the 1989 calendar year and all standard deduction factors for subsequent annual calendar years. The annual standard deduction factor is an index, to be determined by the department of revenue by October 15 of the calendar year, which reflects the purchasing power of the dollar as a result of inflation during the fiscal year ending in that calendar year preceding the calendar year for which the annual standard deduction factor is to apply. For tax years beginning on or after January 1, 1996, the department shall use the annual percentage change,

but not less than 0 percent, in the gross domestic product price deflator computed for the second quarter of the calendar year by the Bureau of Economic Analysis of the United States Department of Commerce and shall add all of that percentage change to 100 percent, rounded to the nearest one-tenth of 1 percent. The annual standard deduction factor shall not be less than 100 percent.

This rule is intended to implement Iowa Code section 422.4.
[ARC 7761B, IAB 5/6/09, effective 6/10/09]

701—38.13(422) Reciprocal tax agreements. Effective for tax years beginning on or after January 1, 2002, the department of revenue may, when the action has been approved by the general assembly and the governor, and when it is cost-efficient, administratively feasible, and of mutual benefit to Iowa and another state, enter into a reciprocal tax agreement with a tax administration agency of the other state. Under this agreement, income earned from personal services in Iowa by residents of the other state will be exempt from Iowa income tax if the other state provides an identical exemption from its state income tax for income earned in the other state from personal services by Iowa residents. For purposes of this rule, “income earned from personal services” includes wages, salaries, commissions, tips, deferred compensation, pensions, and annuities which were earned from personal services in Iowa by a resident of another state that had a reciprocal tax agreement with Iowa at the time the wages, salaries, commissions, tips, deferred compensation, pensions, or annuities were earned. See rule 701—40.45(422) for the treatment of deferred compensation, pensions, or annuities received by a nonresident of Iowa related to the documented retirement of a participant in a deferred compensation plan, a pensioner or an annuitant. The provisions of rule 701—40.45(422) supersede the definition of “income earned from personal services” under any reciprocal agreement as it relates to deferred compensation, pensions, or annuities.

38.13(1) Reciprocal tax agreement with Illinois. Pursuant to the authority of Iowa Code subsection 422.8(5), the department of revenue entered into a reciprocal tax agreement with tax administration officials of Illinois in November 1972 which went into effect for taxable years which began after December 31, 1972. The Iowa-Illinois reciprocal tax agreement cannot be terminated by the Iowa department of revenue unless the termination is authorized by a constitutional majority of each house of the general assembly and is approved by the governor. The Iowa-Illinois reciprocal tax agreement includes the following terms:

a. No Illinois or Iowa employer is required to withhold Illinois income tax from compensation paid to an Iowa resident for personal services in Illinois.

b. No Illinois or Iowa employer is required to withhold Iowa income tax from compensation paid to an Illinois resident for personal services in Iowa.

c. Every Iowa employer who is subject to the jurisdiction of Illinois is liable to the state of Illinois for withholding of Illinois income tax from compensation paid to Illinois residents.

d. Every Illinois employer who is subject to the jurisdiction of Iowa is liable to the state of Iowa for the withholding of Iowa income tax from compensation paid to Iowa residents.

e. The Illinois department of revenue will encourage Illinois employers who are not subject to the jurisdiction of Iowa to withhold and remit Iowa income tax from wages paid to Iowa residents employed in Illinois.

f. The Iowa department of revenue will encourage Iowa employers who are not subject to the jurisdiction of Illinois to withhold and remit Illinois income tax from compensation paid to Illinois residents from employment in Iowa.

g. For purposes of the agreement, “compensation” means wages, salaries, commissions, tips, deferred compensation, pensions, and annuities and any other remuneration paid for personal services. In the case of deferred compensation, pensions, and annuities, those incomes are deemed to have been earned at the time of employment. Therefore, if an Illinois resident receives a pension or annuity from employment in Iowa at the time the reciprocal agreement was in effect, the pension or annuity income is not taxable to Iowa since it is “compensation” covered by the reciprocal agreement. See rule 701—40.45(422) for the treatment of deferred compensation, pensions, or annuities received by an Illinois resident related to the documented retirement of a participant in a deferred compensation

plan, a pensioner or an annuitant. The provisions of rule 701—40.45(422) supersede the definition of “compensation” under the reciprocal agreement with Illinois. “Compensation” does not include unemployment compensation benefits which an Illinois resident receives due to employment in Iowa.

h. No Iowa resident is required to pay Illinois income tax or file an Illinois return from compensation paid from personal services in Illinois.

i. No Illinois resident is required to pay Iowa income tax or to file an Iowa return on compensation for personal services in Iowa.

j. For purposes of the agreement, the term “Iowa resident” means an individual who is a resident under the laws of the state of Iowa, and the term “Illinois resident” means an individual who is a resident as defined in the Illinois Income Tax Act.

38.13(2) *Reciprocal tax agreements with states other than Illinois.* The Iowa department of revenue has not entered into reciprocal tax agreements with any state except the state of Illinois. See subrule 38.13(1).

This rule is intended to implement Iowa Code section 422.8 as amended by 2002 Iowa Acts, House File 2116, and section 422.15.

[ARC 1665C, IAB 10/15/14, effective 11/19/14]

701—38.14(422) Information returns for reporting income payments to the department of revenue. Effective January 1, 1993, every person, every corporation, or agent of a person or corporation, lessees or mortgagors of real or personal property, fiduciaries, employers, and all officers and employees of the state or of any political subdivision of the state, having control, receipt, custody, or disposal of any of the income items described in subrule 38.14(1), shall file information returns with the department of revenue by the last day of February following the end of the year in which the payments were made. For purposes of this rule, “every person” is every individual who is a resident of this state. For purposes of this rule, “every corporation” includes all corporations that have a place of business in this state.

38.14(1) *Incomes to be included in information returns.* The entities described in rule 701—38.14(422) are required to file information returns to the department of revenue on income payments of interest (other than interest coupons payable to the bearer), rents, salaries, wages, premiums, annuities, compensation, remunerations, emoluments, unemployment compensation, royalties, patronage dividends, or other fixed or determinable annual or periodic gains, profits, and income to the extent that the amount of income is great enough so that an information return on the income is required to be filed with the Internal Revenue Service (IRS) under provisions of the Internal Revenue Code. However, no reporting is required for payments of deferred compensation, pensions, and annuities to nonresidents of Iowa. In addition, no reporting is required for any type of income payment where information on the income payment is available to the department from the Internal Revenue Service.

38.14(2) *Information on income payments available from the Internal Revenue Service.* The department can obtain information from the Internal Revenue Service on many income payments made to individuals in the tax year. The following is a list of federal reporting forms and the types of information available on those forms from the Internal Revenue Service for residents of Iowa:

- a.* 1065 K-1.
1. Dividends.
 2. Interest.
 3. Tax withheld.
 4. Royalties.
 5. Ordinary income or (loss).
 6. Real estate income or (loss).
 7. Other rental income or (loss).
 8. Other portfolio income or (loss).
 9. Guaranteed payments.

- b.* K-1 1041.
 - 1. Dividends.
 - 2. Interest.
 - 3. Other taxable income or (loss).
 - 4. Tax withheld.

- c.* K-1 1120-S.
 - 1. Dividends.
 - 2. Interest.
 - 3. Tax withheld.
 - 4. Royalties.
 - 5. Ordinary income.
 - 6. Real estate.
 - 7. Other rental.
 - 8. Other portfolio.

- d.* 1099-S.
 - 1. Real estate sales.

- e.* 1099-B.
 - 1. Aggregate profit and loss.
 - 2. Realized profit and loss.

- f.* 1098.
 - 1. Mortgage interest.

- g.* 1099-G.
 - 1. Tax withheld.
 - 2. Taxable grant.
 - 3. Unemployment compensation.
 - 4. Agricultural subsidies.

- h.* 1099-DIV.
 - 1. Dividends.
 - 2. Tax withheld.
 - 3. Capital gains.
 - 4. Cash liquid distribution.
 - 5. Noncash liquid distribution.
 - 6. Investment expense.
 - 7. Ordinary dividends.

- i. 1099-INT.
 - 1. Interest.
 - 2. Tax withheld.
 - 3. Savings bonds.
 - 4. Interest forfeiture.
 - 5. Tax-exempt interest.

This rule is intended to implement Iowa Code section 422.15.
[ARC 7761B, IAB 5/6/09, effective 6/10/09]

701—38.15(422) Relief of innocent spouse for substantial understatement of tax attributable to other spouse. Married taxpayers are generally jointly and severally liable for the total tax, penalty, and interest from a joint return or from a return where the spouses file separately on the combined return form. However, a married person who meets the criteria for an innocent spouse established in Section 6015 of the Internal Revenue Code may be relieved of liability for an understatement of tax that is attributable to erroneous items of the other spouse.

38.15(1) Filing status for return with an innocent spouse. For state income tax purposes, a married taxpayer filing a return with a spouse can qualify as an innocent spouse only if the taxpayers file a joint return or file separately on the combined return form. A married taxpayer who files a separate return that has been accepted by the state will not be eligible for innocent spouse status.

38.15(2) Scope of relief for Iowa income tax purposes. An understatement of the tax is the excess of the tax required to be shown over the tax actually shown on the return. An erroneous item is any item resulting in an understatement or deficiency in Iowa taxes to the extent that the item is omitted from, or improperly reported or characterized on, an Iowa tax return, including Iowa deductions and tax credits that would not be included on a federal return.

38.15(3) Presumption and burden of proof when requesting innocent spouse relief.

a. Presumption. The department shall presume that a final determination letter or other document issued by the Internal Revenue Service approving a request for innocent spouse relief for the relevant tax years shows that the innocent spouse granted relief by that document qualifies for innocent spouse relief for Iowa income tax purposes for those tax years. If the person seeking innocent spouse relief does not provide the department with a final determination letter or other document issued by the Internal Revenue Service approving a request for innocent spouse relief within the time frame set forth in subrule 38.15(4), the department shall presume that the person seeking innocent spouse relief does not meet the criteria to qualify for innocent spouse relief for Iowa income tax purposes and shall deny the request. The burden is on the person seeking innocent spouse relief to rebut this presumption with other evidence.

b. Request without Internal Revenue Service approval. If the department denies a claim for innocent spouse relief, the person seeking innocent spouse relief may protest the department's determination under 701—Chapter 7. The department will evaluate the protest by applying the criteria set forth in Section 6015 of the Internal Revenue Code and the related regulations. The department will defer to federal court cases, letter rulings, and revenue rulings in interpreting Section 6015 of the Internal Revenue Code and the related regulations. The provisions of Sections 6015(c) and 6015(f) of the Internal Revenue Code regarding relief for separation of liabilities and equitable relief, respectively, are applicable for Iowa income tax purposes for tax years beginning on or after January 1, 2002. The burden is on the person seeking innocent spouse relief to show that the person meets the federal criteria for innocent spouse relief.

38.15(4) Time period for requesting innocent spouse relief. For tax periods beginning on or after January 1, 2004, innocent spouse relief must be requested within two years after the date the department initiates collection action against the person claiming innocent spouse relief. However, an extended time period to request equitable relief for innocent spouses under Section 6015(f) of the Internal Revenue

Code can be granted under the provisions of Internal Revenue Service Notice 2011-70, which became effective July 25, 2011.

This rule is intended to implement Iowa Code section 422.21 as amended by 2002 Iowa Acts, House File 2116.

[ARC 1303C, IAB 2/5/14, effective 3/12/14; ARC 2393C, IAB 2/3/16, effective 3/9/16]

701—38.16(422) Preparation of taxpayers' returns by department employees. A department employee can assist a taxpayer in the preparation and completion of the taxpayer's individual income tax returns and other state tax returns during the employee's hours of employment for the department in either of the following situations:

1. At the time the department employee is conducting an audit of the taxpayer.
2. When the department employee is requested to prepare a taxpayer's individual income tax return or other tax returns by the taxpayer, the taxpayer's spouse, or the taxpayer's authorized representative.

This rule is intended to implement Iowa Code section 421.17.

701—38.17(422) Resident determination. For Iowa individual income tax purposes, an individual is a "resident" if: (1) the individual maintains a permanent place of abode within the state, or (2) the individual is domiciled in the state. An individual who is determined to be a "resident" of Iowa is subject to Iowa income tax on all the individual's income for the taxable year, no matter whether the income is earned within Iowa or outside of Iowa, except when an item of income is specifically exempted from taxation by a provision of federal or Iowa law.

38.17(1) Permanent place of abode. The establishment of a permanent place of abode requires the maintenance of a place of abode over a sufficient period of time to create a well-settled physical connection with a given locality. Significant factors, among others, to be considered in determining whether an individual maintains such a permanent place of abode are: (1) the amount of time the individual spends in the locality; (2) the nature of the individual's place of abode; (3) the individual's activities in the locality; and (4) the individual's intentions with regard to the length and nature of the individual's stay.

There is a rebuttable presumption that an individual is maintaining a "permanent place of abode" if the individual maintains a place of abode within this state and spends more than 183 days of the tax year within this state. The term "place of abode" includes a house, apartment, condominium, mobile home, or other dwelling place maintained or occupied by the individual whether or not owned or rented by the individual. Situations where presence in the state for 183 days of the tax year may not cause an individual to be considered to be maintaining a "permanent place of abode" would include situations where presence in the state is not voluntary, such as confinement to a correctional facility or an extended hospital stay.

38.17(2) Domicile. An individual is "domiciled" in this state if the individual intends to permanently or indefinitely reside in Iowa and intends to return to Iowa whenever the individual may be absent from this state. Individuals who have moved into this state are domiciled in Iowa if the following three elements exist: (1) a definite abandonment of a former domicile; (2) actual removal to, and physical presence in this state; and (3) a bona fide intention to change domicile and to remain in this state permanently or indefinitely. *Julson v. Julson*, 255 Iowa 301, 122 N.W.2d 329, 331 (1963).

Every person has one and only one domicile. Domicile, for purposes of determining when an individual is "domiciled in this state," is largely a matter of intention which must be freely and voluntarily exercised. The intention to change one's domicile must be present and fixed and not dependent upon the happening of some future or contingent event. Because it is essentially a matter of intent, precedents are of slight assistance and the determination of the place of domicile depends upon all the facts and circumstances in each case.

Once an individual is domiciled in Iowa, that status is retained until such time as the individual takes positive action to become domiciled in another state or country, relinquishes the rights and privileges of residency in Iowa, and meets the criteria set forth from *Julson v. Julson*, 255 Iowa 301, 122 N.W.2d,

329, 331 (1963). The director may require an individual claiming domicile outside the state of Iowa to provide documentation supporting establishment of another domicile. Absence from the state for 183 days of the tax year or for any other extended period of time does not alone show abandonment of an Iowa domicile.

a. There is a rebuttable presumption that an individual is domiciled in Iowa if the individual meets the following factors:

- (1) Maintains a residence or place of abode in Iowa, whether owned, rented, or occupied, even if the individual is in Iowa less than 183 days of the tax year, and either
- (2) Claims a homestead credit or military tax exemption on a home in Iowa, or
- (3) Is registered to vote in Iowa, or
- (4) Maintains an Iowa driver's license, or
- (5) Does not reside in an abode in any other state for more days of the tax year than the individual resides in Iowa.

b. There is a rebuttable presumption that an individual is not domiciled in Iowa if the individual meets all of the following factors:

- (1) Does not claim a homestead credit or military exemption on a home in Iowa,
- (2) Is not registered to vote in Iowa,
- (3) Does not maintain an Iowa driver's license,
- (4) Is in Iowa less than 183 days of the tax year; and
- (5) The individual maintains a place of abode outside of Iowa where the individual resides for at least 183 days of the tax year.

c. In addition to the factors listed for the above rebuttable presumptions for "permanent place of abode" or "domicile," some of the nonexclusive factors to consider in determining whether an individual is a resident of Iowa are as follows:

- (1) Maintains a place of abode in Iowa, whether owned, rented, or occupied.
- (2) Maintains an Iowa driver's license.
- (3) Maintains active membership in an Iowa church, club, or professional organization and participates as a result of such membership.
- (4) Documents, such as tax forms, legal documents, and correspondence, initiated during tax periods, use an Iowa address. Legal documents could include wills, deeds, or other contracts.
- (5) Immediate family members residing in Iowa who are claimed as dependents or rely, in whole or in part, on the taxpayer for their support.
- (6) Vehicles registered in Iowa.
- (7) Location of employment or active participation in a business within Iowa.
- (8) Active checking or savings accounts or use of safe deposit boxes located in Iowa.
- (9) Claims a benefit on the federal income tax return based upon an Iowa home being the principal place of residence. Examples include mortgage interest on principal residence and travel expenses while away from the principal place of residence.
- (10) Receives a number of services in Iowa from doctors, dentists, attorneys, CPAs or other professionals.

Unless shown to the contrary, married persons are presumed to have the same residence. Ordinarily, the residence of a minor is that of the person who has permanent custody over the minor.

An individual may qualify as a part-year resident of Iowa by: (1) not maintaining a permanent place of abode; and (2) not having a domicile in Iowa for the entire tax year. In determining part-year resident status, whether an individual is in or out of Iowa for 183 days may not be a factor.

38.17(3) *Resident determination for individuals on active duty military service.* The Soldiers and Sailors Civil Relief Act provides in 50 U.S.C. Appx § 574(1) that members of the armed forces of the United States shall not be deemed to have lost a residence or domicile in any state, solely by being absent from that state in compliance with military or naval orders, or to have acquired a residence or domicile in another state while being absent from the state of residence. Thus, residents of Iowa who enter military service will retain their Iowa residence during the tenure of their military service or until they take positive action to change their state of residence.

For tax years beginning prior to January 1, 2011, residents of Iowa in military service will have Iowa income tax withheld from their military pay except when the military pay is earned in a combat zone and is totally or partially exempt from both federal and state income tax. An Iowa resident in military service can change state of residence for purposes of withholding of state income tax by completing Form DD2058 and designating a state other than Iowa as the individual's new state of residence. The military payroll officer of the service person will accept the DD2058 form and stop withholding Iowa income tax from the service person's military pay and start withholding the state income tax of the state of new residence of the service person (assuming the new state of residence has an income tax and assuming the new state of residence requires withholding of income tax from wage payments to its residents in military service). However, the completion of the DD2058 form by the "former Iowa resident" will not be considered as a valid change of residence for Iowa income tax purposes unless the service person was physically residing in the new state of residence at the time the DD2058 form was completed and the service person took other actions to show intent to change state of residence. Other actions to show intent to change state of residence would include: (1) registering to vote in the new state; (2) purchasing real property in the new state; (3) titling and registering vehicles in the new state; (4) notifying the state of previous residence of the state of residence change; (5) preparing a new last will and testament which indicates the new residence; and (6) complying with the tax laws of the state of new residence. For tax years beginning on or after January 1, 2011, see rule 701—40.76(422) regarding the exemption of active duty pay for both resident and nonresident members of the armed forces, armed forces military reserve, or the national guard.

Military personnel who are residents of other states and who come to Iowa as a result of military or naval orders, but who later decide to become legal or actual residents of Iowa, or military personnel who purchase residential property in Iowa and claim homestead credits or the military exemption for the property for property tax purposes are presumed to be residents of Iowa for income tax purposes.

Military personnel who are not residents of the state of Iowa and who receive military pay for service in Iowa shall not be considered to have received this income for services performed within Iowa or from sources within Iowa. These nonresidents of Iowa will be taxable on nonmilitary wages for personal services in Iowa they receive while stationed in Iowa. These individuals will also be taxable to Iowa on incomes they receive from businesses, trades, professions, or occupations operated in Iowa during the time they are stationed in Iowa as well as on nonmilitary incomes from any other sources within Iowa.

Since military nonresidents of Iowa cannot be taxed on their military pay while they are stationed in Iowa, the military pay cannot be considered for purposes of Iowa's taxation of nonresidents in accordance with the Servicemembers Civil Relief Act, Public Law 108-189. The military pay of the nonresident of Iowa must be excluded from the computation of the nonresident credit set forth in rule 701—42.5(422). This exclusion from the computation of the nonresident credit applies to military pay of nonresident servicemembers who are in an active duty status as defined under Title 10 of the United States Code.

For tax years beginning before January 1, 2009, spouses of military personnel who earn wages and other incomes from Iowa sources are taxed on these incomes similarly to other nonresidents of Iowa. Spouses of Iowa resident military personnel who were nonresidents of Iowa at the time of the marriages with the Iowa residents will not be considered to be residents of Iowa until they actually reside in Iowa with their husbands or wives. For tax years beginning on or after January 1, 2009, spouses who earn wages from Iowa sources are not subject to Iowa income tax on these wages if one spouse who is present in Iowa is a member of the armed forces, the other spouse is present in Iowa solely to be with the military spouse, and the spouse who is a member of the armed forces maintains a domicile in another state. This treatment for tax years beginning on or after January 1, 2009, is required by the Military Spouses Residency Relief Act, Public Law No. 111-97.

38.17(4) Examples of resident determination.

a. Fred and Mary were domiciled in Iowa when Fred retired in 1994. They have a house in Iowa and a condominium in Florida. Prior to 1994, Fred and Mary spent approximately four months in Florida and the remaining eight months in Iowa. Fred owned a small business when he retired and was retained as a consultant and remained a member of the board of directors after retirement. Fred and Mary have friends and family in both Iowa and Florida. They are also involved in the activities of the

local country club as well as other civic and service organizations in both locations. When Fred retired, he and Mary decided to spend more time in Florida, especially during the winter months. They usually leave for Florida in late October and return to Iowa in early April. They have transferred their automobile registrations to Florida and they have acquired Florida driver's licenses. They have registered to vote in Florida and have voted in Florida elections. They visit doctors and dentists in both locations as the need arises. They maintain bank accounts in both locations and have mail sent to the location at which they are physically residing. Fred and Mary usually return to Iowa for the Thanksgiving and Christmas holidays and Fred returns once a month to attend board meetings. They do not claim a homestead credit or military tax exemption on their Iowa home, but they do use their Iowa address on most of their legal documents and on their federal tax return. They also travel and vacation during the winter months and oftentimes leave Florida to vacation.

Fred and Mary would be considered Iowa residents because they have retained a permanent abode in Iowa.

b. Susan takes an apartment in Des Moines when her employer assigns her to the region office of a large accounting firm for a temporary period. She spends more than 183 days in Iowa, but she returns to her apartment in Ohio once a month to visit her friends and to check her mail. She intends to return to Ohio when her assignment in Des Moines is terminated. She has retained her Ohio driver's license and she is registered to vote in Ohio.

Susan would not be considered to be an Iowa resident because she has not established a "permanent" place of abode in Iowa, even though she is present in Iowa for more than 183 days. Also, she has not had a definite abandonment of her former domicile. Susan would be taxed on her Iowa income as a nonresident. However, if Susan was assigned to Des Moines on a permanent basis, she may be considered an Iowa resident even though she retains her apartment in Ohio.

c. John is an over-the-road truck driver and his job takes him out of Iowa for approximately 240 days a year. He is married and his wife, Mary, lives in Marshalltown, Iowa. His two school-age children attend school in that community and Mary also has a part-time job as a nurse for the neighborhood clinic. John gets home for most weekends and for the holidays. He is registered to vote in Iowa and utilizes the Iowa homestead and military tax exemptions. He does not own any other real property except a lakeside cabin in Minnesota, where the family vacations during the summer.

John would be considered an Iowa resident even though he is not present in the state for more than 183 days because John intends to return to Iowa whenever he is absent and has not taken any steps to establish residency in any other state.

d. Wilber, who is a resident of Idaho, has a heart attack while vacationing in Iowa. He is hospitalized in the University Hospitals in Iowa City. While there, the doctors also discover that he has a rare blood disorder and Wilber is confined to the hospital for nearly nine months, during which time he receives treatment.

Wilber's presence in Iowa is for a medical emergency. When an individual suffers a medical emergency while present in this state for other purposes and cannot be realistically moved from the state or in situations where an individual is confined to an institution as a result of seeking treatment, the time spent in Iowa would not count toward the 183-day rule. Also, Wilber's hospital room would not be considered a permanent place of abode.

e. Chuck and Linda both worked for a major manufacturing company in Iowa and both of them decided to take advantage of an early retirement package offered by their employer. They do not have any children, but Chuck has a brother who lives in Davenport, Iowa, and Linda has a sister who lives in Phoenix, Arizona. After retirement, Chuck and Linda sell their house and purchase a motor home. They spend their time traveling the United States and Canada. They do not have a place of abode in any state as they live in their new vehicle. They do not spend more than 183 days in any state during the year. They retained their Iowa driver's licenses and their motor home is registered in Iowa. They also have bank accounts in both Iowa and Arizona, and they have their mail sent to Chuck's brother as well as Linda's sister. They show Iowa as their state of residence for federal income tax purposes. They are not registered to vote in any state.

Chuck and Linda would be considered residents of Iowa. They have not shown an intention to change domicile and remain in another state permanently or indefinitely.

This rule is effective for tax years beginning on or after January 1, 1995.

This rule is intended to implement Iowa Code sections 422.3, 422.4 and 422.16.

[ARC 8702B, IAB 4/21/10, effective 5/26/10; ARC 9103B, IAB 9/22/10, effective 10/27/10; ARC 9822B, IAB 11/2/11, effective 12/7/11; ARC 1303C, IAB 2/5/14, effective 3/12/14]

701—38.18(422) Tax treatment of income repaid in current tax year which had been reported on prior Iowa individual income tax return. For tax years beginning on or after January 1, 1992, if a taxpayer repays in the current tax year an amount of income that had been reported on the taxpayer's Iowa individual income tax return for a prior year that had been filed with the department and the taxpayer would have been eligible for a tax benefit under similar circumstances under Section 1341 of the Internal Revenue Code, the taxpayer will be eligible for a tax benefit on the Iowa return for the current tax year. The tax benefit will be either the reduced tax on the Iowa return for the current tax year due to the deduction of the repaid income or the reduction in tax on the Iowa return or returns for the prior year(s) due to the exclusion of the repaid income. The reduction in tax from the return for the prior year may be claimed as a refundable credit on the return for the current tax year.

EXAMPLE A: A taxpayer reported \$7,000 in unemployment benefits on the taxpayer's 1994 Iowa return that the taxpayer had received in 1994. In early 1995 the taxpayer was notified that \$4,000 of the unemployment benefits had to be repaid. The benefits were repaid by the end of 1995. The taxpayer claimed a deduction on the 1995 Iowa return for the amount of unemployment benefits repaid during 1995 which had been reported on the taxpayer's 1994 Iowa return as that action gave the taxpayer a greater reduction in Iowa income tax liability than the taxpayer would have received from a reduction in tax on the 1994 return by recomputing the liability by excluding the repaid income.

EXAMPLE B: A taxpayer had received a \$5,000 bonus in 1994 which was reported on the taxpayer's 1994 Iowa return. In 1995 the taxpayer's employer advised the employee that the bonus was awarded in error and to be repaid. The \$5,000 bonus was repaid to the employer by the end of 1995. The taxpayer claimed a credit of \$440 on the 1995 Iowa return for repayment of the bonus in 1995. This represented the reduction in tax for 1994 from recomputing the tax liability for that year without the \$5,000 bonus. This provided the taxpayer a greater tax benefit than the taxpayer would have received from claiming a deduction on the 1995 Iowa return from repayment of the bonus.

This rule is intended to implement Iowa Code section 422.5 as amended by 1996 Iowa Acts, Senate File 2168.

701—38.19(422) Indication of dependent child health care coverage on tax return. For tax years beginning on or after January 1, 2008, but before January 1, 2010, an individual who is an Iowa resident as of December 31 of the tax year who files an Iowa individual income tax return may report on the return the presence or absence of health care coverage for each dependent child as of December 31 of the tax year for which the exemption credit described in 701—subrule 42.2(1), paragraph "c," is claimed. For tax years beginning on or after January 1, 2008, but before January 1, 2010, it is not mandatory that a taxpayer indicate on the tax return the presence or absence of health care coverage for each dependent, and there is no penalty if this information is not provided on the tax return. For tax years beginning on or after January 1, 2010, it is mandatory that a taxpayer indicate on the tax return the presence or absence of health care coverage for each dependent. The Iowa return will not be considered complete until the indication of the presence or absence of health care coverage for each dependent is made on the return.

38.19(1) Definition of health care coverage. Health care coverage includes the following:

- a. Private health care coverage provided through an employer, a relative's employer, or through a union.
- b. Private health care coverage purchased by an individual from a private company.
- c. Government health care coverage provided through the state Medicaid program set forth in Iowa Code chapter 249A, or the HAWK-I (healthy and well kids in Iowa) program set forth in Iowa Code chapter 514I.

d. Government health care coverage provided by the military including the Civilian Health and Medical Program of the Uniformed Services (TRICARE/CHAMPUS) and the Civilian Health and Medical Program of the Department of Veterans Affairs (CHAMPVA).

e. Government health care coverage provided by the United States Department of Health and Human Services to eligible American Indians under the Indian Health Service program.

38.19(2) Notification to the taxpayer. If the taxpayer indicates on the return that a dependent child does not have health care coverage and the taxpayer's income reflected on the tax return is within the eligibility requirements for either the Medicaid program or the HAWK-I program, the department will send a letter to the taxpayer indicating that the dependent may be eligible for health care coverage under either the Medicaid or HAWK-I program. The letter will also provide the address for a Web site which has an online application for health care coverage under either the Medicaid or HAWK-I program which can be completed and sent to the Iowa department of human services. The letter will also include the telephone number to call to request a paper application. The taxpayer must submit the application to the Iowa department of human services within 90 days of receipt of the enrollment information from the department of revenue. The department of human services will make the final determination on whether the taxpayer is eligible under the Medicaid or HAWK-I program. A dependent child must be under the age of 21 to be eligible for the Medicaid program, and a dependent child must be under the age of 19 to be eligible for the HAWK-I program.

38.19(3) Reporting requirements. The department, in cooperation with the department of human services, must submit an annual report to the governor and the general assembly which will include the following:

a. Number of Iowa families, by income level, who claim the personal exemption credit for dependent children described in 701—subrule 42.2(1), paragraph “c.”

b. The number of Iowa families, by income level, who claim the personal exemption credit and whether they indicated the presence or absence of health care coverage for their dependent children.

c. The number of Iowa families, by income level, claiming the personal exemption credit who received enrollment information from the department of revenue and who subsequently applied and were enrolled in either the Medicaid or HAWK-I program.

This rule is intended to implement Iowa Code section 422.12M as amended by 2009 Iowa Acts, Senate File 389, section 15.

CHAPTER 39
FILING RETURN AND PAYMENT OF TAX
[Prior to 12/17/86, Revenue Department[730]]

701—39.1(422) Who must file.

39.1(1) Residents of Iowa.

a. Tax years beginning on or after January 1, 1993. For each taxable year, every resident of Iowa, except any resident claimed as a dependent on another person's return, whose net income is greater than \$13,500 in the case of married persons filing jointly, filing separately on a combined return or filing separate returns, heads of household and surviving spouses or greater than \$9,000 in the case of single persons must make, sign, and file a return. Each resident who is claimed as a dependent on another person's return and whose net income is \$4,000 or more, or whose net income is \$5,000 or more for tax years beginning on or after January 1, 2001, must make, sign, and file a return. For purposes of this subrule, the portion of a lump-sum distribution subject to separate federal tax, along with the partial exclusion of pension and other retirement benefits described in rule 701—40.47(422), is included in net income to determine if a person must file a return. In addition, for tax years beginning on or after January 1, 2007, the phase-out exclusion for social security benefits described in 701—subrule 40.23(3) for residents who are younger than 65 years of age on December 31 of the tax year is included in net income to determine if a person must file a return.

b. Tax years beginning on or after January 1, 2007, but before January 1, 2009, for residents 65 years of age or older. For these taxable years, every resident of Iowa, except any resident claimed as a dependent on another person's return, who is at least 65 years of age or older on December 31 of the tax year, whose net income is greater than \$24,000 in the case of married persons filing jointly, filing separately on a combined return or filing separate returns, heads of household and surviving spouses or greater than \$18,000 in the case of single persons must make, sign, and file a return. For married persons filing jointly, filing separately on a combined return or filing separate returns, only one spouse is required to be 65 years of age or older on December 31 of the tax year. Each resident who is claimed as a dependent on another person's return and whose net income is \$5,000 or more must make, sign, and file a return.

For purposes of this subrule, the portion of a lump-sum distribution subject to separate federal tax, the partial exclusion of pension and other retirement benefits described in rule 701—40.47(422), and the phase-out exclusion for social security benefits described in 701—subrule 40.23(3) are included in net income to determine if a person must file a return.

c. Tax years beginning on or after January 1, 2009, for residents 65 years of age or older. For each taxable year, every resident of Iowa, except any resident claimed as a dependent on another person's return, who is at least 65 years of age or older on December 31 of the tax year, whose net income is greater than \$32,000 in the case of married persons filing jointly, filing separately on a combined return or filing separate returns, heads of household and surviving spouses or greater than \$24,000 in the case of single persons must make, sign, and file a return. For married persons filing jointly, filing separately on a combined return or filing separate returns, only one spouse is required to be at least 65 years of age or older on December 31 of the tax year. Each resident who is claimed as a dependent on another person's return and whose net income is \$5,000 or more must make, sign, and file a return.

For purposes of this subrule, the portion of a lump-sum distribution subject to separate federal tax, the partial exclusion of pension and other retirement benefits described in rule 701—40.47(422), and the phase-out exclusion for social security benefits described in 701—subrule 40.23(3) are included in net income to determine if a person must file a return.

39.1(2) Nonresidents of Iowa.

a. Tax years beginning on or after January 1, 1993. For each taxable year, every nonresident of Iowa must make, sign, and file an Iowa return if the nonresident has a net income of \$1,000 or more from Iowa sources and meets one or more of the following conditions: (1) has a net income from all sources that is greater than \$13,500 in the case of married persons filing jointly, filing separately on a combined return or filing separate returns, heads of household and surviving spouses, (2) has a net

income from all sources greater than \$9,000 in the case of single persons, or (3) is claimed as a dependent on another person's return and has a net income from all sources of \$4,000 or more or has a net income from all sources of \$5,000 or more if the tax year begins on or after January 1, 2001. For purposes of this paragraph, the portion of a lump-sum distribution subject to separate federal tax that is allocable to Iowa is included in net income to determine if the nonresident has sufficient net income from Iowa sources to make and file a return. In determining net income from all sources, the portion of a lump-sum distribution subject to separate federal tax, along with the partial exclusion of pension and other retirement benefits described in rule 701—40.47(422), is included in net income to determine if a person must file a return. In addition, for tax years beginning on or after January 1, 2007, the phase-out exclusion for social security benefits described in 701—subrule 40.23(3) for nonresidents who are under 65 years of age on December 31 of the tax year is included in determining net income from all sources to determine if a person must file a return.

b. Tax years beginning on or after January 1, 2007, but before January 1, 2009, for nonresidents 65 years of age or older. For these taxable years, every nonresident of Iowa must make, sign, and file an Iowa return if the nonresident has a net income of \$1,000 or more from Iowa sources and meets one or more of the following conditions: (1) has a net income from all sources that is greater than \$24,000 in the case of married persons filing jointly, filing separately on a combined return or filing separate returns, heads of household and surviving spouses, (2) has a net income from all sources greater than \$18,000 in the case of single persons, or (3) is claimed as a dependent on another person's return and has a net income from all sources of at least \$5,000. For married persons filing jointly, filing separately on a combined return or filing separate returns, only one spouse is required to be 65 years of age or older on December 31 of the tax year. For purposes of this subrule, the portion of a lump-sum distribution subject to separate federal tax that is allocable to Iowa is included in net income to determine if the nonresident has sufficient net income from Iowa sources to make and file a return. In determining net income from all sources, the portion of a lump-sum distribution subject to separate federal tax, the partial exclusion of pension and other retirement benefits described in rule 701—40.47(422), and the phase-out exclusion for social security benefits described in 701—subrule 40.23(3) are included in net income to determine if a person must file a return.

c. Tax years beginning on or after January 1, 2009, for nonresidents 65 years of age or older. For these taxable years, every nonresident of Iowa must make, sign, and file an Iowa return if the nonresident has a net income of \$1,000 or more from Iowa sources and meets one or more of the following conditions: (1) has a net income from all sources that is greater than \$32,000 in the case of married persons filing jointly, filing separately on a combined return or filing separate returns, heads of household and surviving spouses, (2) has a net income from all sources greater than \$24,000 in the case of single persons, or (3) is claimed as a dependent on another person's return and has a net income from all sources of at least \$5,000. For married persons filing jointly, filing separately on a combined return or filing separate returns, only one spouse is required to be 65 years of age or older on December 31 of the tax year. For purposes of this subrule, the portion of a lump-sum distribution subject to separate federal tax that is allocable to Iowa is included in net income to determine if the nonresident has sufficient net income from Iowa sources to make and file a return. In determining net income from all sources, the portion of a lump-sum distribution subject to separate federal tax, the partial exclusion of pension and other retirement benefits described in rule 701—40.47(422), and the phase-out exclusion for social security benefits described in 701—subrule 40.23(3) are included in net income to determine if a person must file a return.

d. Nonresidents with net incomes of less than \$1,000 that are subject to Iowa alternative minimum tax. For tax years beginning on or after January 1, 2000, every nonresident of Iowa who has a net income from Iowa sources of less than \$1,000 must make, sign, and file a return if the nonresident is subject to Iowa alternative minimum tax.

39.1(3) Part-year residents of Iowa.

a. Tax years beginning on or after January 1, 1993. For each taxable year, every part-year resident of Iowa must make, sign, and file a return if the individual has a net income of \$1,000 or more from Iowa sources and meets one or more of the following conditions: (1) has a net income from all sources that is

greater than \$13,500 in the case of married persons filing jointly, filing separately on a combined return form or filing separate returns, heads of household and surviving spouses, (2) has a net income from all sources that is greater than \$9,000 in the case of a single person, or (3) is claimed as a dependent on another person's return and had a net income from all sources of \$4,000 or more or has a net income from all sources of \$5,000 or more if the tax year begins on or after January 1, 2001. For purposes of this paragraph, the portion of a lump-sum distribution that is allocable to Iowa is included in net income to determine if the person has sufficient net income from Iowa sources to make and file a return. In determining net income from all sources, the portion of a lump-sum distribution subject to separate federal tax, along with the partial exclusion of pension and other retirement benefits described in rule 701—40.47(422), is included in net income to determine if a person must file a return. In addition, for tax years beginning on or after January 1, 2007, the phase-out exclusion for social security benefits described in 701—subrule 40.23(3) for part-year residents who are younger than 65 years of age on December 31 of the tax year is included in determining net income from all sources to determine if a person must file a return.

b. Tax years beginning on or after January 1, 2007, but before January 1, 2009, for nonresidents 65 years of age or older. For these taxable years, every part-year resident of Iowa must make, sign, and file an Iowa return if the part-year resident has a net income of \$1,000 or more from Iowa sources and meets one or more of the following conditions: (1) has a net income from all sources that is greater than \$24,000 in the case of married persons filing jointly, filing separately on a combined return or filing separate returns, heads of household and surviving spouses, (2) has a net income from all sources greater than \$18,000 in the case of single persons, or (3) is claimed as a dependent on another person's return and has a net income from all sources of at least \$5,000. For married persons filing jointly, filing separately on a combined return or filing separate returns, only one spouse is required to be 65 years of age or older on December 31 of the tax year. For purposes of this subrule, the portion of a lump-sum distribution subject to separate federal tax that is allocable to Iowa is included in net income to determine if the part-year resident has sufficient net income from Iowa sources to make and file a return. In determining net income from all sources, the portion of a lump-sum distribution subject to separate federal tax, the partial exclusion of pension and other retirement benefits described in rule 701—40.47(422), and the phase-out exclusion for social security benefits described in 701—subrule 40.23(3) are included in net income to determine if a person must file a return.

c. Tax years beginning on or after January 1, 2009, for part-year residents 65 years of age or older. For these taxable years, every part-year resident of Iowa must make, sign, and file an Iowa return if the part-year resident has a net income of \$1,000 or more from Iowa sources and meets one or more of the following conditions: (1) has a net income from all sources that is greater than \$32,000 in the case of married persons filing jointly, filing separately on a combined return or filing separate returns, heads of household and surviving spouses, (2) has a net income from all sources greater than \$24,000 in the case of single persons, or (3) is claimed as a dependent on another person's return and has a net income from all sources of at least \$5,000. For married persons filing jointly, filing separately on a combined return or filing separate returns, only one spouse is required to be 65 years of age or older on December 31 of the tax year. For purposes of this subrule, the portion of a lump-sum distribution subject to separate federal tax that is allocable to Iowa is included in net income to determine if the part-year resident has sufficient net income from Iowa sources to make and file a return. In determining net income from all sources, the portion of a lump-sum distribution subject to separate federal tax, the partial exclusion of pension and other retirement benefits described in rule 701—40.47(422), and the phase-out exclusion for social security benefits described in 701—subrule 40.23(3) are included in net income to determine if a person must file a return.

d. Part-year residents with net incomes of less than \$1,000 that are subject to Iowa alternative minimum tax. For tax years beginning on or after January 1, 2000, every part-year resident of Iowa who has a net income from Iowa sources of less than \$1,000 must make, sign, and file a return if the part-year resident is subject to Iowa alternative minimum tax.

39.1(4) Returns of the handicapped. If a taxpayer is physically or mentally unable to make a return, the return shall be made by a duly authorized agent, guardian or other person charged with the care of

the person or property of such taxpayer. A power of attorney must accompany a return made by an agent or guardian.

39.1(5) *Minimum income requirement.* See rules 701—40.1(422) to 40.52(422) and any subsequent rules in Chapter 40 for the computation of net income to determine if a taxpayer meets the minimum filing requirements described in subrules 39.1(1), 39.1(2), and 39.1(3).

39.1(6) *Final return.* If a taxpayer has died during the year, see paragraph 39.4(2) “d.”

39.1(7) *Returns filed for refund.* A taxpayer whose Iowa source net income or all source net income is less than the amount for which the filing of an Iowa individual income tax return is required must file a return to receive a refund of Iowa income tax withheld or Iowa estimated tax paid in the tax year or to receive a refund from an Iowa refundable tax credit. Refundable tax credits include the child and dependent care credit, the early childhood development tax credit, the research activities credit, the motor vehicle fuel tax credit, the claim of right credit (if elected in accordance with rule 701—38.18(422)), the assistive device credit, the historic preservation and cultural and entertainment district tax credit, the ethanol blended gasoline tax credit, the investment tax credit for value-added agricultural products or biotechnology-related processes, the soy-based cutting tool oil tax credit, the wage-benefit tax credit, the soy-based transformer fluid tax credit, the E-85 gasoline promotion tax credit, the biodiesel blended fuel tax credit, the ethanol promotion tax credit, and the E-15 plus gasoline promotion tax credit.

This rule is intended to implement Iowa Code sections 422.5 and 422.13.
[ARC 1303C, IAB 2/5/14, effective 3/12/14]

701—39.2(422) Time and place for filing.

39.2(1) *Returns of individuals.* A return of income must be filed on or before the due date. The due date is the last day of the fourth month following the close of the taxpayer’s taxable year, whether the return be made on the basis of the calendar year or for a fiscal year, or the last day of the period covered by an extension of time granted by the department. When the due date falls on Saturday, Sunday or a legal holiday, the return will be due the first business day following the Saturday, Sunday or legal holiday. If a return is placed in the mails, properly addressed and postage paid, in ample time to reach the department on or before the due date for filing, no penalty will attach should the return not be received until after that date. Mailed returns should be addressed to Income Tax Return Processing, Department of Revenue, Hoover State Office Building, Des Moines, Iowa 50319.

Farmers and fishermen have the same filing due date as other individual taxpayers, however, those farmers and fishermen who have elected not to file a declaration of estimated tax shall file their returns and pay the tax due, on or before March 1, to avoid penalty for underpayment of estimated tax.

39.2(2) *Extension of time for filing returns for tax years beginning prior to January 1, 1986.* Rescinded IAB 11/24/04, effective 12/29/04.

39.2(3) *Extension of time for filing returns for tax years beginning on or after January 1, 1986, but before January 1, 1991.* Rescinded IAB 11/24/04, effective 12/29/04.

39.2(4) *Extension of time for returns for tax years beginning on or after January 1, 1991.* The taxpayer is required to file the taxpayer’s individual income tax return on or before the due date of the return with payment in full of the amount required to be shown due with the return. However, in any instance where the taxpayer is unable to file the return by the due date because of illness or death in the taxpayer’s immediate family, unavoidable absence of the taxpayer, or other legitimate reason, the director may grant a six-month extension of time to file the return.

If the taxpayer has paid at least 90 percent of the tax required to be shown due by the due date and has not filed a return by the due date, the director will consider that the taxpayer has requested an extension of time to file the return and will automatically grant an extension of up to six months to file the return. The taxpayer does not have to file an application for extension form with the department to get the automatic extension to file the return within the six-month period after the due date and not be subject to penalty. However, if the taxpayer wants to make a tax payment to ensure that at least 90 percent of the tax has been paid on or before the due date, the payment should be made with the Iowa tax voucher form. This form can be requested from the Taxpayer Services Section, P.O. Box 10457, Des Moines, Iowa 50306, or by telephone at (515)281-3114.

To determine whether or not at least 90 percent of the tax was “paid” on or before the due date, the aggregate amount of tax credits applicable on the return plus the tax payments made on or before the due date are divided by the tax required to be shown due on the return. The tax required to be shown on the return is the sum of the income tax, lump-sum tax, minimum tax, school district income surtax, and the emergency medical services income surtax. The tax credits applicable are the credits set out in Iowa Code chapter 422, division II, and section 422.111. The tax payments to be considered for purposes of determining if 90 percent of the tax was paid are the withholding tax payments, estimate payments, and the payments made with the Iowa income tax voucher form to ensure that 90 percent of the tax was paid timely.

If the aggregate of the tax credits and the tax payments are equal to or greater than 90 percent of the tax required to be shown due, the taxpayer will have met the “90 percent” test and no penalty will be assessed. However, the taxpayer will still be subject to statutory interest on any tax due when the return is filed.

Any tax elections, such as the election to carry forward a net operating loss occurring in the tax year, will be considered to be valid in instances when the return is filed within the six-month extended period after the due date. The fact that the taxpayer has paid less than 90 percent of the tax required to be shown due will not invalidate any tax elections made on the return, if the return is filed within the six-month extended period.

a. Extensions for taxpayers with tax homes outside the United States and Puerto Rico. Taxpayers with tax homes outside the United States and Puerto Rico may, in some situations, be granted additional time to file their federal income tax returns beyond the six-month period after the federal due date. In some cases, this additional time is needed to meet residency time requirements in a foreign country so the taxpayer will be eligible for the foreign income exclusion which is also applicable to filing Iowa income tax returns. In cases where the taxpayer’s tax home is outside the United States and the taxpayer has been granted additional time to file the federal income tax return which is greater than six months from the due date, the taxpayer will be deemed to have the same additional time to file the Iowa return and not be subject to penalty for late filing if 90 percent of the tax required to be shown due on the return was paid by the due date. Taxpayers with tax elections filing returns under these circumstances will be considered to have made these elections timely. However, the taxpayers should attach to their Iowa return documentation showing they were granted additional time after the six-month period from the due date to file their federal returns.

b. Payment of interest on refunds from income tax returns filed in the six-month period after the due date. The following information applies only to Iowa individual income tax returns that are filed for tax years beginning on or after January 1, 1999. In the case of Iowa returns that have overpayments of income tax that are filed in the six-month period after the due date and where at least 90 percent of the tax shown due was paid by the due date, interest at the statutory rate will be paid on the overpayments determined on the returns, starting on the first day of the second month after the end of the six-month extended period and ending in the month in which the refund is issued.

For taxpayers filing Iowa individual income tax returns for calendar-year tax years, the six-month extended period starts May 1 of the year following the end of the tax year and ends on October 31 of the year following the end of the tax year. However, if April 30 falls on a Sunday as it does in the year 2000 for 1999 Iowa individual returns filed in that year, the due date is moved to Monday, May 1. The extended period in this instance starts on Tuesday, May 2, 2000, and ends on October 31, 2000.

EXAMPLE. A husband and wife file their 1999 Iowa return on September 15, 2000. This return has an overpayment of tax of \$200. Because the return is filed in the six-month period after the May 1, 2000, due date, and because the refund is issued in January 2001, interest accrues on the overpayment for the months of December 2000 and January 2001.

This rule is intended to implement Iowa Code section 422.21 and Iowa Code Supplement section 422.25.

701—39.3(422) Form for filing.

39.3(1) Use of and completeness of prescribed forms. Returns shall, in all cases, be made by residents and nonresidents on forms supplied by the department of revenue. Taxpayers not supplied with the proper forms shall make application for the forms to the department, in ample time to have their returns made, verified and filed on or before the due date. Each taxpayer shall carefully prepare a return so as to fully and clearly set forth the data required. For lack of a prescribed form, a statement made by a taxpayer disclosing gross income and the deductions from gross income may be accepted as a tentative return, and if verified and filed within the prescribed time, will relieve the taxpayer from liability to penalties, provided that without unnecessary delay a tentative return is replaced by a return made on the proper form. Each question shall be answered and each direction complied with in the same manner as if the forms and instructions were embodied in these regulations. Individual resident taxpayers shall enter the name of the school district of residence on the return. If the school district is not supplied, the return shall be deemed incomplete.

A return not signed by the taxpayer or the taxpayer's agent or guardian, shall not be deemed completely executed and filed as required by law.

Failure to receive the proper form does not relieve the taxpayer from the obligation of making any return required by statute.

39.3(2) Optional method of filing. The front and back page of the Iowa individual income tax return, if properly completed, may be filed as an optional return, if a complete facsimile or photocopy of the federal return and supporting schedules are attached.

39.3(3) Copy of federal income tax return to be filed by nonresident. A nonresident taxpayer must file a copy of their federal income tax return for the current tax year with their Iowa income tax return. The copy shall include full and complete copies of all farm, business, capital gains and other schedules that were filed with the federal return.

39.3(4) Amended returns. If it becomes known to the taxpayer that the amount of income reported to be federal net income or Iowa taxable income was erroneously stated on the Iowa return, or changed by an Internal Revenue Service audit, or otherwise, the taxpayer shall file an amended Iowa return along with supporting schedules, to include the amended federal return if applicable. A copy of the federal revenue agent's report and notification of final federal adjustments provided by the taxpayer will be acceptable in lieu of an amended return. The assessment or refund of tax shall be dependent on the statute of limitations as set forth in 701—subrule 38.2(1) and rule 701—43.3(422).

39.3(5) Voter's registration forms in income tax booklets and income tax return instructions. Effective for tax years beginning on or after January 1, 1989, income tax return booklets and income tax return instructions shall include two voter registration forms. The voter registration forms to be inserted into the income tax return instruction forms and booklets are to be designed by the voter registration commission. However, effective July 1, 1992, the voter registration forms are to be inserted in the income tax return booklets and income tax return instructions only for odd-numbered tax years. Thus, the voter registration forms will not be included in the income tax return booklets for the 1992 tax year but are to be included in the booklets for 1993.

Effective July 1, 2004, the requirement that voter registration forms be included in the income tax booklets and income tax instructions has been eliminated. The official Web site of the department includes the official electronic state of Iowa voter registration form and a link to the Iowa secretary of state's official Web site.

This rule is intended to implement Iowa Code sections 422.13, 422.21 and 422.22 and Iowa Code sections 48A.24 and 421.17 as amended by 2004 Iowa Acts, Senate File 2296.

701—39.4(422) Filing status.

39.4(1) Single taxpayers. The term "single person" includes, for income tax purposes, an unmarried person, a person legally separated under a decree of divorce or separate maintenance or any other person not properly classified under subrules 39.4(2) through 39.4(8).

39.4(2) Married taxpayers. A taxpayer is considered married for the entire year if on the last day of the tax year the taxpayer is (a) married and living together with the taxpayer's spouse, (b) married and

living apart from the spouse, but not legally separated under a decree of divorce or separate maintenance, (c) living together with the spouse in a common law marriage that is recognized by the state where the common law marriage exists or (d) widowed but the spouse died during the year.

39.4(3) Common law marriage. A common law marriage is a social relationship between a man and a woman that meets all the necessary requisites of a marriage except that it was not solemnized, performed or witnessed by an official authorized by law to perform marriages. The necessary elements of a common law marriage are: (a) a present intent of both parties freely given to become married, (b) a public declaration by the parties or a holding out to the public that they are husband and wife, (c) continuous cohabitation together as husband and wife (this means consummation of the marriage), and (d) both parties must be capable of entering into the marriage relationship. No special time limit is necessary to establish a common law marriage. Iowa recognizes, for income tax purposes, all valid common law marriages.

39.4(4) Married filing jointly. Married taxpayers who file a joint return with the Internal Revenue Service may file a joint return with the Iowa department of revenue.

39.4(5) Married filing separately on the same form. Married taxpayers may file separately on the same form. This return is also known as the combined return. If a married taxpayer files a combined return with his or her spouse, any refund will be issued in both names.

39.4(6) Married filing separately. Married taxpayers, each having income in his or her own right, may file separate returns if they do not wish to file separately on the same form.

39.4(7) Head of household. The term “head of household” shall have the same meaning as defined in the Internal Revenue Code. An individual who is claiming “surviving spouse” status for federal income tax purposes may not claim “head of household” on the Iowa individual income tax return.

39.4(8) Surviving spouse. The term “surviving spouse” shall have the same meaning as defined in the Internal Revenue Code. Individuals who qualify and file as a qualifying widow(er) with a dependent child on the federal return may file using the same filing status on the Iowa return.

This rule is intended to implement Iowa Code section 422.12.

701—39.5(422) Payment of tax.

39.5(1) Payment of tax for wage earners. Withholding of tax on wage earners is required under Iowa Code section 422.16. See 701—Chapter 46.

39.5(2) Payment of tax on income not subject to withholding. Those taxpayers with income not subject to withholding which will produce a tax liability of \$200 or more shall file and pay a declaration of estimated tax. See 701—Chapter 49.

39.5(3) Full estimated payment on original due date. When an extension is requested as provided by Iowa Code section 422.21, the total amount of estimated tax must be paid on or before the due date for filing the return.

39.5(4) Balance of tax due. If the computation on the tax return shows additional tax due, it shall be paid in full with the filing of the return.

39.5(5) Payment of tax by uncertified checks. The department will accept uncertified checks in payment of income taxes, provided the checks are collectible for their full amount without any deduction for exchange or other charges. The date on which the department receives the check will be considered the date of payment, so far as the taxpayer is concerned, unless the check is returned dishonored. If one check is remitted to cover two or more individuals' taxes, the remittance must be accompanied by a letter of transmittal stating: (a) the name of the drawer of the check; (b) the amount of the check; (c) the amount of any cash, money order or other instrument included in the same remittance; (d) the name of each individual whose tax is to be paid by the remittance; and (e) the amount of payment on account of each individual.

39.5(6) Procedure with respect to dishonored checks. If any check is returned unpaid, all expenses incidental to the collection thereof will be charged to the taxpayer. If any taxpayer whose check has been returned by the depository bank uncollected should fail at once to make that check good, the director will proceed to collect the tax as though no check has been given. A taxpayer who tenders a certified check in payment for taxes is not relieved from obligation until the check has been paid.

39.5(7) *Penalty and interest.* In computing penalty and interest for failing to file a timely return or to pay the tax, refer to 701—Chapter 44.

39.5(8) *Five thousand dollar exemption.* Rescinded IAB 11/24/04, effective 12/29/04.

39.5(9) *Seven thousand five hundred dollar exemption.* Rescinded IAB 11/24/04, effective 12/29/04.

39.5(10) *Thirteen thousand five hundred dollar exemption.* For tax years beginning on or after January 1, 1993, all taxpayers, except single taxpayers described in subrule 39.4(1), whose net income as computed under Iowa Code section 422.7, plus the amount of a lump-sum distribution for which the taxpayer has elected to be separately taxed for federal income tax purposes, the partial exclusion of pension and other retirement benefits described in rule 701—40.47(422), and the phase-out exclusion for social security benefits described in 701—subrule 40.23(3), is \$13,500 or less are exempt from paying Iowa individual income tax subject to the following conditions:

a. In the case of married taxpayers, the incomes of both spouses are considered in order to determine if the taxpayers qualify for exemption from tax. However, in the case of married taxpayers where one spouse has a net operating loss and the taxpayers file separate Iowa returns or separately on the combined return form, the taxpayers cannot receive the benefit of the exemption from tax if the spouse with the loss elects to carry back or carry forward that loss.

b. An individual claimed as a dependent on another person's return with an income of at least \$5,000 (\$4,000 for tax years beginning in 1993 but before 2001) but not more than \$13,500 will be exempt from Iowa tax if:

(1) The person on whose return the dependent is claimed is filing as a single individual and has a net income of \$9,000 or less, or

(2) The person on whose return the dependent is claimed and the person's spouse have a combined net income of \$13,500 or less.

(3) The person on whose return the dependent is claimed is filing as a head of household or as a surviving spouse and has a net income of \$13,500 or less.

c. If the payment of tax would reduce the net income to less than \$13,500, the tax shall be reduced to an amount which would allow the taxpayer to retain a net income of \$13,500. Example: If a taxpayer's net income was \$13,600 and the computed tax after personal exemptions and other credits was \$300, the payment of \$300 would reduce the income below \$13,500; therefore, the amount of tax is reduced to \$100 so the taxpayer can retain a net income of \$13,500.

39.5(11) *Nine thousand dollar exemption.* For tax years beginning on or after January 1, 1993, single taxpayers described in subrule 39.4(1) whose net income as computed under Iowa Code section 422.7, plus the amount of a lump-sum distribution for which the taxpayer has elected to be separately taxed for federal income tax purposes, the partial exclusion of pension and other retirement benefits described in rule 701—40.47(422), and the phase-out exclusion for social security benefits described in 701—subrule 40.23(3), is \$9,000 or less are exempt from paying Iowa individual income tax subject to the following conditions:

a. An individual claimed as a dependent on another person's return with an income of at least \$5,000 (\$4,000 for tax years beginning in 1993 but before 2001) but not more than \$9,000 will be exempt from tax if:

(1) The person on whose return the dependent is claimed has a net income of \$9,000 or less, or

(2) The person on whose return the dependent is claimed and the person's spouse have a combined net income of \$13,500 or less.

(3) The person on whose return the dependent is claimed is filing as a head of household or as a surviving spouse and has a net income of \$13,500 or less.

b. If the payment of tax would reduce the net income to less than \$9,000, the tax is reduced to an amount which will allow the taxpayer to retain a net income of \$9,000.

39.5(12) *Exemptions for taxpayers 65 years of age or older for tax years beginning on or after January 1, 2007, but before January 1, 2009.*

a. All taxpayers except single taxpayers described in subrule 39.4(1) who are 65 years of age or older on December 31 of the tax year and whose net income as computed under Iowa Code section 422.7, plus the amount of a lump-sum distribution for which the taxpayer has elected to be separately taxed for

federal income tax purposes, the partial exclusion of pension and other retirement benefits described in rule 701—40.47(422), and the phase-out exclusion for social security benefits described in 701—subrule 40.23(3) is \$24,000 or less are exempt from paying Iowa individual income tax subject to the conditions set forth below:

(1) In the case of married taxpayers, the incomes of both spouses are considered in order to determine if the taxpayers qualify for exemption from tax. For purposes of this subrule, only one spouse is required to be 65 years of age or older by December 31 of the tax year. However, in the case of married taxpayers when one spouse has a net operating loss and the taxpayers file separate Iowa returns or separately on the combined return, the taxpayers cannot receive the benefit of the exemption from tax if the spouse with the loss elects to carry back or carry forward that loss.

(2) An individual claimed as a dependent on another person's return with an income of at least \$5,000, but not more than \$24,000, will be exempt from Iowa tax if:

1. The person on whose return the dependent is claimed is filing as a single individual and has a net income of \$9,000 or less (\$18,000 or less if the person is 65 years of age or older); or

2. The person on whose return the dependent is claimed and the person's spouse have a combined net income of \$13,500 or less (\$24,000 or less of the combined income of the person and the person's spouse if at least one spouse is 65 years of age or older); or

3. The person on whose return the dependent is claimed is filing as a head of household or as a surviving spouse and has a net income of \$13,500 or less (\$24,000 or less if the person is 65 years of age or older).

(3) If the payment of tax would reduce the net income to less than \$24,000, the tax shall be reduced to an amount which would allow the taxpayer to retain a net income of \$24,000.

EXAMPLE: If a taxpayer's net income was \$24,100 and the computed tax after personal exemptions and other credits was \$300, the payment of \$300 would reduce the income below \$24,000; therefore, the amount of tax is reduced to \$100 in order for the taxpayer to retain a net income of \$24,000.

b. Single taxpayers described in subrule 39.4(1) whose net income, as computed under Iowa Code section 422.7, plus the amount of a lump-sum distribution for which the taxpayer has elected to be separately taxed for federal income tax purposes, the partial exclusion of pension and other retirement benefits described in rule 701—40.47(422), and the phase-out exclusion for social security benefits described in 701—subrule 40.23(3) is \$18,000 or less are exempt from paying Iowa individual income tax subject to the conditions set forth in paragraphs “*c*” and “*d*” below:

c. An individual claimed as a dependent on another person's return with an income of at least \$5,000, but not more than \$18,000, will be exempt from tax if:

(1) The person on whose return the dependent is claimed has a net income of \$9,000 or less (\$18,000 or less if the person is 65 years of age or older); or

(2) The person on whose return the dependent is claimed and the person's spouse have a combined net income of \$13,500 or less (\$24,000 or less of the combined income of the person and the person's spouse if at least one spouse is 65 years of age or older); or

(3) The person on whose return the dependent is claimed is filing as a head of household or as a surviving spouse and has a net income of \$13,500 or less (\$24,000 or less if the person is 65 years of age or older).

d. If the payment of tax would reduce the net income to less than \$18,000, the tax is reduced to an amount which will allow the taxpayer to retain a net income of \$18,000.

39.5(13) *Exemptions for taxpayers 65 years of age or older for tax years beginning on or after January 1, 2009.*

a. All taxpayers except single taxpayers described in subrule 39.4(1) who are at least 65 years of age or older on December 31 of the tax year and whose net income as computed under Iowa Code section 422.7, plus the amount of a lump-sum distribution for which the taxpayer has elected to be separately taxed for federal income tax purposes, the partial exclusion of pension and other retirement benefits described in rule 701—40.47(422), and the phase-out exclusion for social security benefits described in 701—subrule 40.23(3) is \$32,000 or less are exempt from paying Iowa individual income tax subject to the conditions set forth below:

(1) In the case of married taxpayers, the incomes of both spouses are considered in order to determine if the taxpayers qualify for exemption from tax. For purposes of this subrule, only one spouse is required to be 65 years of age or older by December 31 of the tax year. However, in the case of married taxpayers when one spouse has a net operating loss and the taxpayers file separate Iowa returns or separately on the combined return form, the taxpayers cannot receive the benefit of the exemption from tax if the spouse with the loss elects to carry back or carry forward that loss.

(2) An individual claimed as a dependent on another person's return with an income of at least \$5,000, but not more than \$32,000, will be exempt from Iowa tax if:

1. The person on whose return the dependent is claimed is filing as a single individual and has a net income of \$9,000 or less (\$24,000 or less if the person is 65 years of age or older); or

2. The person on whose return the dependent is claimed and the person's spouse have a combined net income of \$13,500 or less (\$32,000 or less of the combined income of the person and the person's spouse if at least one spouse is 65 years of age or older); or

3. The person on whose return the dependent is claimed is filing as a head of household or as a surviving spouse and has a net income of \$13,500 or less (\$32,000 or less if the person is 65 years of age or older).

(3) If the payment of tax would reduce the net income to less than \$32,000, the tax shall be reduced to an amount which would allow the taxpayer to retain a net income of \$32,000.

EXAMPLE: If a taxpayer's net income was \$32,100 and the computed tax after personal exemptions and other credits was \$300, the payment of \$300 would reduce the income below \$32,000; therefore, the amount of tax is reduced to \$100 in order for the taxpayer to retain a net income of \$32,000.

b. Single taxpayers described in subrule 39.4(1) whose net income, as computed under Iowa Code section 422.7, plus the amount of a lump-sum distribution for which the taxpayer has elected to be separately taxed for federal income tax purposes, the partial exclusion of pension and other retirement benefits described in rule 701—40.47(422), and the phase-out exclusion for social security benefits described in 701—subrule 40.23(3) is \$24,000 or less are exempt from paying Iowa individual income tax subject to the conditions set forth in paragraphs “*c*” and “*d*” below:

c. An individual claimed as a dependent on another person's return with an income of at least \$5,000, but not more than \$24,000, will be exempt from tax if:

(1) The person on whose return the dependent is claimed has a net income of \$9,000 or less (\$24,000 or less if the person is 65 years of age or older); or

(2) The person on whose return the dependent is claimed and the person's spouse have a combined net income of \$13,500 or less (\$32,000 or less of the combined income of the person and the person's spouse if at least one spouse is 65 years of age or older); or

(3) The person on whose return the dependent is claimed is filing as a head of household or as a surviving spouse and has a net income of \$13,500 or less (\$32,000 or less if the person is 65 years of age or older).

d. If the payment of tax would reduce the net income to less than \$24,000, the tax is reduced to an amount which will allow the taxpayer to retain a net income of \$24,000.

This rule is intended to implement Iowa Code section 422.5 as amended by 2006 Iowa Acts, Senate File 2408, and sections 422.16, 422.17, 422.21, 422.24, and 422.25.

[ARC 1303C, IAB 2/5/14, effective 3/12/14]

701—39.6(422) Minimum tax.

39.6(1) *Minimum tax for tax years beginning on or after 1982, but before 1985.* Rescinded IAB 11/24/04, effective 12/29/04.

39.6(2) *Minimum tax for tax years beginning on or after January 1, 1985, but before January 1, 1987.* Rescinded IAB 11/24/04, effective 12/29/04.

39.6(3) *Minimum tax for tax years beginning on or after January 1, 1987.*

a. *Method for computation of the minimum tax.* For tax years beginning on or after January 1, 1987, the minimum tax is imposed only to the extent that the minimum tax exceeds the taxpayer's regular income tax liability. The minimum tax rate is 75 percent of the maximum regular tax rate for individual

income tax. For tax years beginning on or after January 1, 1987, through December 31, 1997, the tax rate is 7.5 percent of the taxpayer's minimum taxable income. For tax years beginning on or after January 1, 1998, the tax rate is 6.7 percent of the taxpayer's minimum taxable income. Minimum taxable income is computed as follows:

	Iowa Taxable Income
Plus:	<u>*Applicable Adjustments and **Tax Preference Items (from Form IA 6251)</u>
	Subtotal
Less:	<u>***Applicable Exemption Amount</u>
	Minimum Taxable Income

(1) *The federal adjustments that are also applicable in computing state minimum taxable income are:

1. Depreciation of property placed in service after 1986.
2. Circulation and research and experimental expenditures paid or incurred after 1986.
3. Mining, exploration, and development costs paid or incurred after 1986.
4. Long-term contracts entered into after 2-28-86.
5. Pollution control facilities placed in service after 1986.
6. Installment sales of certain property.
7. Basis adjustment.
8. Certain loss limitations.
9. Tax shelter farm loss.
10. Passive activity loss.
11. Adjustments related to beneficiaries of estates and trusts.

(2) **The federal tax preference items which are also applicable in computing state minimum taxable income are:

1. Accelerated depreciation of real property placed in service before 1987.
2. Accelerated depreciation on leased personal property placed in service before 1987.
3. Amortization of certified pollution control facilities placed in service before 1987.
4. Appreciated property charitable deduction.
5. Incentive stock options.
6. Reserves for losses on bad debts of financial institutions.

For tax periods ending on or after September 10, 2001, any federal adjustments or tax preference items that are determined based on a percentage of taxpayer's federal adjusted gross income may have to be adjusted for Iowa alternative minimum tax purposes. These adjustments and preferences for Iowa alternative minimum tax purposes are based on federal adjusted gross income as adjusted by the disallowance of the additional first-year depreciation allowance authorized in Section 168(k) of the Internal Revenue Code as described in rule 701—40.60(422).

(3) ***Exemption amounts are: \$17,500 for a married person filing a separate return or separately on the combined return form or for an estate or trust; \$26,000 for a single person or a head of household or qualifying widow(er); \$35,000 for a married couple filing a joint return. However, the applicable exemption amounts will be reduced, but not below zero, by 25 percent of the amount by which the minimum taxable income of the taxpayer determined without the exemption amount exceeds the following amounts: \$75,000 for a married taxpayer filing separate returns or separately on the combined return or for an estate or a trust; \$112,500 for a single person, a head of household, or a surviving spouse (qualifying widow(er)); \$150,000 for a married couple that files a joint state return.

The following two examples illustrate how the minimum tax is computed for tax years beginning on or after January 1, 1987:

EXAMPLE 1. Taxpayers A had an Iowa income tax liability of \$9,375 from a taxable income of \$100,000 in 1987. The A's were filing a joint return and had tax preferences of \$60,000 from an appreciated property charitable deduction. The A's minimum tax liability is shown below:

	Iowa Taxable Income	\$100,000
Plus:	Tax Preference Items and Adjustments	<u>60,000</u>
	Subtotal	160,000
Less:	Exemption Amount	<u>35,000</u>
	Minimum Taxable Income	\$125,000
		<u>× .075</u>
	Computed Minimum Tax	\$ 9,375
Less:	Regular Tax	<u>8,648</u>
	Minimum Tax Liability	\$ 727

Since the A's minimum tax liability exceeded their regular tax by \$727, they had a minimum tax liability of \$727 in 1987.

EXAMPLE 2. Ms. B was a single taxpayer in 1987. She had a regular income tax liability of \$9,375 on taxable income of \$100,000. She had an adjustment of \$50,000 from a passive activity loss. Ms. B's minimum tax liability is shown below:

	Iowa Taxable Income	\$100,000
Plus:	Tax Preference Items and Adjustments	<u>50,000</u>
	Subtotal	\$150,000
Less:	Exemption Amount	<u>35,000</u>
	Subtotal	\$115,000
Plus:	Reduction in Exemption Amount (25% of \$37,500)	<u>9,375</u>
	Minimum Taxable Income	\$124,375
		<u>× .075</u>
	Computed Minimum Tax	\$ 9,328
Less:	Regular Tax	<u>8,648</u>
	Minimum Tax Liability	\$ 680

Ms. B had a minimum tax liability of \$680 in 1987 because the minimum tax exceeded the regular tax for 1987 by \$680.

b. Net operating loss computed for a year beginning after 1982 which is carried back or carried forward to the current taxable year. In the case of a net operating loss computed for a tax year beginning after December 31, 1982, which is carried back or carried forward to the current tax year, the net operating loss shall be reduced by the amount of tax preferences and adjustments arising in the current tax year.

c. Net operating loss deduction for tax years beginning after December 31, 1986. The deduction for a net operating loss for a tax year beginning after December 31, 1986, which is carried back or carried forward to another tax year shall not exceed 90 percent of the minimum taxable income computed for the tax year without the net operating loss. The computation of minimum taxable income is described in paragraph "a" of this subrule.

d. Apportionment of minimum tax for nonresidents and part-year residents and nonresident and part-year resident estates or trusts. In the case of resident taxpayers, including estates or trusts domiciled in Iowa for the entire tax year, the taxpayers are subject to 100 percent of the minimum tax computed as described in paragraph "a" of this subrule. In the case of nonresidents of Iowa including nonresident estates and trusts and individuals, including estates and trusts domiciled in Iowa for less than the entire tax year, the minimum tax computed according to paragraph "a" of this subrule less applicable credits against tax is allocated to Iowa as shown below:

$$\text{State Minimum Tax Less Credits} \times \frac{\text{Iowa Source Net Income Plus Tax Preferences, Adjustments and Losses Attributable to Iowa}}{\text{Total Net Income Plus All Tax Preferences, Adjustments and Losses}}$$

For purposes of this computation, only those adjustments, tax preferences, and losses shown on Form IA 6251 are applicable for determining which items shall be included in the numerator and the denominator.

e. Allocation of the state minimum tax between married couples filing separate returns or separately on the combined return form. Married taxpayers electing to file separate returns or separately on the combined return form must allocate the minimum tax between them in the proportion that each spouse's respective preference items, adjustments, and losses relate to the preference items, adjustments and losses of both spouses.

This rule is intended to implement Iowa Code section 422.5 as amended by 2003 Iowa Acts, Senate File 442.

701—39.7(422) Tax on lump-sum distributions. For tax years beginning on or after January 1, 1982, Iowa Code section 422.5 provides that in addition to the tax computed on the taxable income, a tax shall also be imposed on the amount of a lump-sum distribution for which the taxpayer has elected under Section 402(e) of the Internal Revenue Code to be separately taxed for federal income tax purposes for the tax year. The rate of this tax is 25 percent of the separate federal tax imposed on the amount of the lump-sum distribution.

39.7(1) Exemption amounts.

a. An exemption of \$9,000 for single taxpayers and an exemption of \$13,500 for all other taxpayers. To be eligible for the \$9,000 or less exemption for single taxpayers and the \$13,500 or less exemption for all other taxpayers as provided in Iowa Code section 422.5, subsection 3, the total amount of a lump-sum distribution subject to the separate federal tax must be included in the net income. If this net income (including the lump-sum distribution income) is less than \$9,000 for single taxpayers and less than \$13,500 for all other taxpayers, then no tax (other than Iowa minimum tax) is due. The Iowa tax on lump-sum distributions and the computed tax may be limited to the amount of income tax that exceeds \$9,000 for single taxpayers and \$13,500 for all other taxpayers (including the lump-sum distribution income).

EXAMPLE: If the net income of a single taxpayer including a lump-sum distribution was \$9,030 and the computed tax and lump-sum tax was \$50 after personal exemptions and out-of-state credit, the payment of \$50 tax would reduce the income below \$9,000; therefore, the amount of tax due is reduced to \$30 in order for the taxpayer to retain a net income of \$9,000.

b. An exemption of \$18,000 for single taxpayers and an exemption of \$24,000 for other taxpayers who are 65 years of age or older. These exemption amounts apply for tax years beginning on or after January 1, 2007, but before January 1, 2009. To be eligible for the \$18,000 or less exemption for single taxpayers and the \$24,000 or less exemption for all other taxpayers as provided in 2007 Iowa Code section 422.5, subsection 3A, the total amount of a lump-sum distribution subject to the separate federal tax must be included in the net income. If this net income (including the lump-sum distribution income) is less than \$18,000 for single taxpayers and less than \$24,000 for all other taxpayers, then no tax (other than Iowa minimum tax) is due. The Iowa tax on lump-sum distributions and the computed tax may be limited to the amount of income tax that exceeds \$18,000 for single taxpayers and \$24,000 for all other taxpayers (including the lump-sum distribution income).

EXAMPLE: If the net income of a single taxpayer including a lump-sum distribution was \$18,200 and the computed tax and lump-sum tax was \$300 after personal exemptions and out-of-state credit, the payment of \$300 tax would reduce the income below \$18,000; therefore, the amount of tax due is reduced to \$200 in order for the taxpayer to retain a net income of \$18,000.

For married persons filing jointly, filing separately on a combined return or filing separate returns, only one spouse is required to be 65 years of age or older on December 31 of the tax year.

c. An exemption of \$24,000 for single taxpayers and an exemption of \$32,000 for all other taxpayers who are 65 years of age or older. These exemption amounts apply for tax years beginning on or after January 1, 2009. To be eligible for the \$24,000 or less exemption for single taxpayers and the \$32,000 or less exemption for all other taxpayers as provided in Iowa Code section 422.5, subsection 3B, the total amount of a lump-sum distribution subject to the separate federal tax must be included in the net income. If this net income (including the lump-sum distribution income) is less than \$24,000 for single taxpayers and less than \$32,000 for all other taxpayers, then no tax (other than Iowa minimum tax) is due. The Iowa tax on lump-sum distributions and the computed tax may be limited to the amount of income tax that exceeds \$24,000 for single taxpayers and \$32,000 for all other taxpayers (including the lump-sum distribution income).

EXAMPLE: If the net income of a single taxpayer including a lump-sum distribution was \$24,300 and the computed tax and lump-sum tax was \$500 after personal exemptions and out-of-state credit, the payment of \$500 tax would reduce the income below \$24,000; therefore, the amount of tax due is reduced to \$300 in order for the taxpayer to retain a net income of \$24,000.

For married persons filing jointly, filing separately on a combined return or filing separate returns, only one spouse is required to be 65 years of age or older on December 31 of the tax year.

39.7(2) Nonresidents. A nonresident is liable for tax on a lump-sum distribution or a portion of a lump-sum distribution attributable to services performed within Iowa. If a distribution to a nonresident is attributable to services performed both within and outside Iowa, the tax must be allocated in the ratio of the income from services performed within Iowa to the total income from all services performed relating to the lump-sum distribution unless it can be shown that another method of proration would result in a more equitable amount of tax on the distribution.

39.7(3) Penalty and interest. In computing penalty and interest for failing to file a timely return or to pay the lump-sum tax, refer to 701—Chapter 44.

39.7(4) Personal exemption credits. Personal and dependent exemption credits may be applied against the separate lump-sum tax to the extent that the credits are not fully applied against the computed tax on income reported under Iowa Code section 422.7.

39.7(5) Out-of-state tax credit. When computing an out-of-state tax credit for a year in which tax on a lump-sum distribution has been computed separately, the amount of the lump-sum distribution on which the separate tax has been computed must be included on the Iowa gross income.

This rule is intended to implement Iowa Code section 422.5 as amended by 2006 Iowa Acts, Senate File 2408.

[ARC 1303C, IAB 2/5/14, effective 3/12/14]

701—39.8(422) State income tax limited to taxpayer's net worth immediately before the distressed sale. Taxpayers whose net incomes include gains or losses from distressed sales may limit their state income tax liabilities for the tax years in which the distress sales occurred to their net worths immediately before the distressed sales. The state income tax liability of a taxpayer is the aggregate of the taxpayer's income tax plus the taxpayer's minimum tax plus the taxpayer's lump-sum tax. For purposes of this provision, a distressed sale is the forfeiture of an installment real estate contract, the transfer of real or personal property securing a debt to a creditor in cancellation of that debt, or from the sale or exchange of property as a result of actual notice of foreclosure. Proof of forfeiture of the installment real estate contract, proof of transfer of property to a creditor in cancellation of a debt, or a copy of the notice of foreclosure will constitute documentation of the distressed sale and must be made a part of the return. A copy of the balance sheet showing the taxpayer's net worth immediately before the distressed sale must also be provided with the return.

The balance sheet supporting the taxpayer's net worth must include the taxpayer's personal assets and liabilities as well as the assets of the taxpayer's farm or other business. In the case of married taxpayers, except in the case of a husband and wife who lived apart at all times during the tax year, the assets and liabilities of both spouses must be considered in determining the taxpayers' net worth immediately before the distressed sale.

This rule is intended to implement Iowa Code section 422.5.

701—39.9(422) Special tax computation for all low-income taxpayers except single taxpayers. For tax years beginning on or after January 1, 1987, a special tax computation is available for determining the state income tax liability for all low-income taxpayers except single taxpayers described in subrule 39.4(1). Under this provision, the taxpayer multiplies the net income for the tax year in excess of \$13,500 for tax years beginning on or after January 1, 1993, by the maximum individual income tax rate. The tax amount computed by this procedure is then compared to the tax amount on the individual’s taxable income from the tax tables or the tax-rate schedule. The taxpayer is subject to the lesser of the two tax amounts. In the case of married taxpayers electing to file separate returns or separately on the combined return form, the incomes of both spouses must be considered for purposes of determining the tax liability from the special tax computation. For purposes of this rule, the partial exclusion of pension and other retirement benefits described in rule 701—40.47(422) and the phase-out exclusion for social security benefits described in 701—subrule 40.23(3) must be included in the net income amounts when determining the tax liability from the special tax computation. The tax liability calculated from the special tax computation is allocated between the spouses in the ratio of each spouse’s net income to the combined net income of both spouses. In determining the special tax computation for taxpayers who are 65 years of age or older for tax years beginning on or after January 1, 2007, see rule 701—39.15(422).

For example, a married couple’s net income in 1987 was \$8,200. The taxpayers elected to file separately on the combined return form for 1987. One spouse had a net income of \$6,000, the second spouse had a net income of \$2,200. There was no federal income tax withheld on the wages earned by either of the taxpayers. The spouse with the net income of \$6,000 had a regular income tax liability of \$105. The spouse with the net income of \$2,200 had a regular income tax liability of \$4. The special tax computation of these taxpayers is shown below:

	Taxpayers’ combined net income	\$8,200
	(\$6,000 + \$2,200)	
Less:	Income not subject to special tax	<u>7,500</u>
	Income subject to special tax	700
		<u>× 9.98%</u>
	Special tax liability for 1987	\$ 70

The taxpayers’ special tax liability for 1987 was \$70. The special tax is imposed since it is less than the taxpayers’ regular tax liability of \$109. This special tax liability is allocated to each spouse on the following basis:

$\frac{\$6,000}{\$8,200} \times 70 = \$51$	$\frac{\$2,200}{\$8,200} \times 70 = \$19$
--	--

The special tax computation for low-income taxpayers is not available to married taxpayers filing separate state returns or to married taxpayers filing separately on the combined return form in instances where one of the spouses has a net operating loss described in Iowa Code section 422.9, subsection 3, and the spouse elects to carry back or carry forward the net operating loss. Also, the special tax computation for low-income taxpayers is not available if the taxpayer is required to annualize the taxpayer’s income as described in rule 701—41.9(422).

This rule is intended to implement Iowa Code section 422.5.

701—39.10(422) Election to report excess income from sale or exchange of livestock due to drought in the next tax year. For tax years beginning on or after January 1, 1990, a taxpayer may elect to report excess income from the sale or exchange of livestock due to drought on the Iowa return for the next tax year if the taxpayer qualified for similar treatment of the excess income under Section 451(e) of the Internal Revenue Code. This election is available only to a taxpayer on the cash receipts and disbursements method of accounting whose principal trade or business is farming as described in Section

6420(c)(3) of the Internal Revenue Code. For purposes of this rule the election applies to all livestock held for sale or exchange, whether raised or purchased for resale. This election also applies to livestock used for draft, breeding, dairy, or sporting purposes which were held less than two years in the case of cattle and horses and less than one year in the case of other livestock. For purposes of this election, livestock does not include poultry.

The area in which the livestock was sold or exchanged must have been declared a disaster area due to drought. However, the sale or exchange can take place before or after the area is declared a disaster area as long as the same disaster (the drought) caused the livestock sale. In order for the election to report excess income in the following tax year to be valid, the election must be made by the due date of the return, including extensions. Additional information about computing the excess income as well as information needed on the statement for making the election is described in Treasury Regulation §1.451-7.

This rule is intended to implement Iowa Code section 422.5.

701—39.11(422) Forgiveness of tax for an individual whose federal income tax was forgiven because the individual was killed outside the United States due to military or terroristic action. For tax years ending on or after August 2, 1990, an individual's Iowa income tax is forgiven if the person's federal income tax was forgiven because the individual was killed in a combat zone, the individual was missing in action and presumed dead, or the individual was killed outside the United States due to terrorist or military action while the person was a military or civilian employee of the United States. The Iowa income tax is forgiven on the return for the tax year in which the individual was killed or was missing and was presumed dead, and is forgiven on the return for the tax year prior to the year of death. In a situation where the person that was killed was married at the time of death, no tax will be due on the return filed for the year of death if a joint state return or a married filing separately on the combined state return is filed for that tax year. In the case of the return for the tax year prior to the year of death for the person killed in military or terrorist action, all the tax will be forgiven on the return if the person was married at the time of death and a joint state return or a married filing separate state return was filed for this prior year. However, if the person that was killed had filed a return using the married filing separately on the combined return form status, only the state income tax attributable to the person that was killed will be forgiven. The department will not honor an amended return for the prior year to change the filing status from separately on the combined return form to joint return so all the state income tax for both spouses will be forgiven.

When a state income tax return or claim for refund is filed for forgiveness of tax for an individual who was killed in military or terrorist action, a notation should be entered at the top of the return "Forgiveness of Tax—Killed in Military Action" or "Forgiveness of Tax—Killed in Terrorist Action" depending on how the individual was killed. In addition, a copy of the death certificate, or other evidence of the person's death or evidence establishing that the individual is missing in action and presumed dead, should be attached to the claim for refund or the tax return. A refund claim for forgiveness of tax will be honored only if the claim is made within the statute of limitations for refund provided in Iowa Code subsection 422.73(2).

This rule is intended to implement Iowa Code sections 422.5 and 422.73.

701—39.12(422) Tax benefits for persons in the armed forces deployed outside the United States.

39.12(1) For tax years ending after August 2, 1990, a number of state tax benefits are authorized for persons in the armed forces who serve in an area designated by the President and the Congress as a combat zone. Similar state tax benefits are also authorized for persons who serve in an area designated by the President and the Congress as a qualified hazardous duty area for tax years beginning on or after January 1, 1999. In addition, uniform state tax benefits are authorized for persons in the armed forces of the United States who were deployed outside the United States in an operation designated by the Secretary of Defense as a contingency operation as defined in 10 U.S.C. § 101(a)(13), or which became a contingency operation by the operation of law. Persons who were deployed in a contingency operation who ceased to participate in such operation on or after May 21, 2003, are considered to be eligible

individuals for purposes of being granted additional time to perform certain acts with the department to the extent the period for performing an act did not expire prior to May 21, 2003, or a later date if the person ceased to participate in the contingency operation on a date after May 21, 2003. Those persons who were serving in support of the armed forces personnel in a combat zone or those persons who were serving in support of armed forces personnel in a qualified hazardous duty area are also eligible for the state tax benefits. The eligible individuals are given the same additional time period to file state income tax returns and perform other acts related to the department of revenue as would constitute timely filing of returns or timely performance of other acts as described in Section 7508(a) of the Internal Revenue Code. "Other acts related to the department of revenue" includes filing claims for refund for any type of tax administered by the department, making tax payments other than withholding payments, filing appeals on tax matters, filing returns for taxes other than income tax, and performing other acts such as making timely contributions to individual retirement accounts. The additional time period for filing returns and performing other acts applies to the spouse of the person who was in the combat zone or the qualified hazardous duty area or the spouse of a person who was serving in support of persons in the combat zone or the hazardous duty area to the extent the spouse files jointly or separately on the combined return with the person who was in the combat zone or the hazardous duty area, or when the spouse is a party with the person who was serving in support of persons in the combat zone or hazardous duty area to any tax matter with the department for which the additional time period is allowed. The additional time period for filing state returns and performing other acts is 180 days after the person leaves the combat zone or hazardous duty area or ceases to participate in the contingency operation which is the same time period as allowed in federal income tax law. However, a person who was hospitalized because of illness or injury in the combat zone or the hazardous duty area has up to five years to file returns or perform certain acts with this department after leaving the combat zone or hazardous duty area.

39.12(2) For tax years beginning on or after January 1, 1995, certain persons performing peacekeeping duties in a location designated by Congress as a qualified hazardous duty area or other individuals performing military duties overseas in support of the persons in the hazardous duty area are eligible for the tax benefits described above. See rule 701—39.14(422) for additional information on the Bosnia-Herzegovina hazardous duty area.

39.12(3) For tax years beginning on or after January 1, 2008, the additional time to file returns and perform other acts related to the department of revenue described in subrule 39.12(1) is available to all active duty military service members in the armed forces, all armed forces military reservists, and all national guard personnel who are deployed outside the United States. These armed forces, armed forces reserve and national guard personnel are not required to be deployed outside the United States in a combat zone, qualified hazardous duty area, or contingency operation to be allowed the additional time to file Iowa returns and perform other acts related to the department of revenue.

This rule is intended to implement Iowa Code sections 422.3 and 422.21 as amended by 2009 Iowa Acts, Senate File 253.

[ARC 8589B, IAB 3/10/10, effective 4/14/10]

701—39.13(422) Electronic filing of Iowa individual income tax returns. Rescinded IAB 3/10/10, effective 4/14/10.

701—39.14(422) Tax benefits for persons serving in support of the Bosnia-Herzegovina hazardous duty area. For tax years beginning on or after January 1, 1995, a number of state tax benefits are authorized for individuals serving in a location designated by the President and Congress as a qualified hazardous duty area or other persons serving in support of the individuals in the hazardous duty area. Public Law No. 104-117 was enacted by Congress on March 20, 1996, and designated Bosnia, Herzegovina, Croatia, and Macedonia as a qualified hazardous duty area so that troops performing peacekeeping duties in the area would be eligible for tax benefits for federal income tax purposes on the same basis they would have been eligible for the same benefits if they had served in a combat zone under prior law.

For Iowa tax purposes, persons serving peacekeeping duties in the hazardous duty area or other persons serving overseas in support of the persons in the hazardous duty area will be eligible for the same tax benefits that were previously only available to persons serving military duties in a combat zone. The tax benefits that are available for persons serving in the hazardous duty area or persons serving overseas in support of the persons in the hazardous duty area are described in rule 39.12(422).

This rule is intended to implement Iowa Code section 422.3 as amended by 1996 Iowa Acts, Senate File 2168.

701—39.15(422) Special tax computation for taxpayers who are 65 years of age or older.

39.15(1) *Tax years beginning on or after January 1, 2007, but before January 1, 2009.* A special tax computation is available for determining the state income tax liability for certain taxpayers, except single taxpayers described in subrule 39.4(1), who are 65 years of age or older. For married persons filing jointly, filing separately on a combined return or filing separate returns, only one spouse is required to be 65 years of age or older on December 31 of the tax year. Under this provision, the taxpayer multiplies the net income for the tax year in excess of \$24,000 by the maximum individual income tax rate. The tax amount computed by this procedure is then compared to the tax amount on the individual's taxable income from the tax tables or the tax-rate schedule. The taxpayer is subject to the lesser of the two tax amounts. In the case of married taxpayers electing to file separate returns or separately on the combined return, the incomes of both spouses must be considered for purposes of determining the tax liability from the special tax computation. The tax liability calculated from the special tax computation is allocated between the spouses in the ratio of each spouse's net income to the combined net income of both spouses. For purposes of this rule, the partial exclusion of pension and other retirement benefits described in rule 701—40.47(422) and the phase-out exclusion for social security benefits described in 701—subrule 40.23(3) must be included in the net income amounts when determining the tax liability from the special tax computation.

EXAMPLE: A married couple had gross income, which included pensions, of \$27,000 for 2007, and they elected to file separately on a combined return. One spouse had gross income of \$15,000, and the other spouse had gross income of \$12,000. Only one spouse was 65 years of age as of December 31, 2007. Each spouse was able to claim a \$6,000 pension exclusion in accordance with rule 701—40.47(422). The one spouse with a net income of \$9,000 had a regular tax liability of \$229, and the other spouse with a net income of \$6,000 had a regular tax liability of \$70 for a total regular tax liability in the amount of \$299. The special tax computation of these taxpayers is shown below:

Taxpayers' combined net income after pension exclusion	\$15,000
Pension Exclusion	<u>\$12,000</u>
Total Income	\$27,000
Less: Income not subject to special tax	<u>\$24,000</u>
Income subject to special tax	\$3,000
Maximum Individual Income Tax Rate	<u>8.98%</u>
Special Tax Liability for 2007	\$269

Since the taxpayers' special tax liability for 2007 was \$269, this tax was imposed since it was less than the taxpayers' regular tax liability of \$299. This special tax liability is allocated to each spouse on the following basis:

$$\frac{\text{Spouse 1}}{\$27,000} \times \$269 = \$149 \quad \frac{\text{Spouse 2}}{\$27,000} \times \$269 = \$120$$

The special tax computation for low-income taxpayers is not available to married taxpayers filing separate state returns or to married taxpayers filing separately on the combined return form in instances

where one of the spouses has a net operating loss described in Iowa Code section 422.9, subsection 3, and the spouse elects to carry back or carry forward the net operating loss. Also, the special tax computation for low-income taxpayers is not available if the taxpayer is required to annualize the taxpayer's income as described in rule 701—41.9(422).

39.15(2) *Tax years beginning on or after January 1, 2009.* A special tax computation is available for determining the state income tax liability for certain taxpayers, except single taxpayers described in subrule 39.4(1), who are 65 years of age or older. For married persons filing jointly, filing separately on a combined return or filing separate returns, only one spouse is required to be 65 years of age or older on December 31 of the tax year. Under this provision, the taxpayer multiplies the net income for the tax year in excess of \$32,000 by the maximum individual income tax rate. The tax amount computed by this procedure is then compared to the tax amount on the individual's taxable income from the tax tables or the tax-rate schedule. The taxpayer is subject to the lesser of the two tax amounts. In the case of married taxpayers electing to file separate returns or separately on the combined return, the incomes of both spouses must be considered for purposes of determining the tax liability from the special tax computation. The tax liability calculated from the special tax computation is allocated between the spouses in the ratio of each spouse's net income to the combined net income of both spouses. For purposes of this rule, the partial exclusion of pension and other retirement benefits described in rule 701—40.47(422) and the phase-out exclusion for social security benefits described in 701—subrule 40.23(3) must be included in the net income amounts when determining the tax liability from the special tax computation.

The special tax computation for low-income taxpayers is not available to married taxpayers filing separate state returns or to married taxpayers filing separately on the combined return form in instances when one of the spouses has a net operating loss described in Iowa Code section 422.9, subsection 3, and the spouse elects to carry back or carry forward the net operating loss. Also, the special tax computation for low-income taxpayers is not available if the taxpayer is required to annualize the taxpayer's income as described in rule 701—41.9(422).

This rule is intended to implement Iowa Code section 422.5 as amended by 2006 Iowa Acts, Senate File 2408.

CHAPTER 40
DETERMINATION OF NET INCOME
[Prior to 12/17/86, Revenue Department[730]]

701—40.1(422) Net income defined. Net income for state individual income tax purposes shall mean federal adjusted gross income as properly computed under the Internal Revenue Code and shall include the adjustments in 701—40.2(422) to 701—40.9(422). The remaining provisions of this rule and 701—40.12(422) to 701—40.79(422) shall also be applicable in determining net income.

This rule is intended to implement Iowa Code section 422.7.

[ARC 8605B, IAB 3/10/10, effective 4/14/10; ARC 9103B, IAB 9/22/10, effective 10/27/10; ARC 9820B, IAB 11/2/11, effective 12/7/11]

701—40.2(422) Interest and dividends from federal securities. For individual income tax purposes, the state is prohibited by federal law from taxing dividends from corporations owned or sponsored by the federal government, or interest derived from obligations of the United States and its possessions, agencies, and instrumentalities. Therefore, if the federal adjusted gross income of an individual, taxable by Iowa, includes dividends or interest of this type, an adjustment must be made by deducting the amount of the dividend or interest. If the inclusion of an amount of income or the amount of a deduction is based upon federal adjusted gross income and federal adjusted gross income includes dividends from corporations owned or sponsored by the federal government, or interest derived from obligations of the United States and its possessions, agencies, and instrumentalities, a recomputation of the amount of income or deduction must be made excluding dividends or interest of this type from the calculations.

A federal statute exempts stocks and obligations of the United States Government, as well as the interest on the obligations, from state income taxation (see 31 USCS Section 3124(a)).

“Obligations of the United States” are those obligations issued “to secure credit to carry on the necessary functions of government.” *Smith v. Davis* (1944) 323 U.S. 111, 119, 89 L.Ed. 107, 113, 65 S.Ct. 157, 161. The exemption is aimed at protecting the “borrowing” and “supremacy” clauses of the United States Constitution. *Society for Savings v. Bowers* (1955) 349 U.S. 143, 144, 99 L.Ed.2d 950, 955, 75 S.Ct. 607, 608; *Hibernia v. City and County of San Francisco* (1906) 200 U.S. 310, 313, 50 L.Ed. 495, 496, 26 S.Ct. 265, 266.

Tax-exempt credit instruments possess the following characteristics:

1. They are written documents,
2. They bear interest,
3. They are binding promises by the United States to pay specified sums at specified dates, and
4. They have Congressional authorization which also pledges the faith and credit of the United States in support of the promise to pay. *Smith v. Davis*, supra.

Smith v. Davis, supra.

A governmental obligation that is secondary, indirect, or contingent, such as a guaranty of a nongovernmental obligor’s primary obligation to pay the principal amount of and interest on a note, is not an obligation of the type exempted under 31 USCS Section 3124(1). *Rockford Life Ins. Co. v. Department of Revenue*, 107 S.Ct. 2312 (1987).

The following list contains widely held United States Government obligations, but is not intended to be all-inclusive.

This noninclusive listing indicates the position of the department with respect to the income tax status of the listed securities. It is based on current federal law and the interpretation thereof by the department. Federal law or the department’s interpretation is subject to change. Federal law precludes all states from imposing an income tax on the interest income from direct obligations of the United States Government. Also, preemptive federal law may preclude state taxation of interest income from the securities of federal government-sponsored enterprises and agencies and from the obligations of U.S. territories. Any profit or gain on the sale or exchange of these securities is taxable.

40.2(1) Federal obligations and obligations of federal instrumentalities the interest on which is exempt from Iowa income tax.

a. *United States Government obligations:* United States Treasury—Principal and interest from bills, bonds, and notes issued by the United States Treasury exempt under 31 U.S.C. Section 3124[a].

1. Series E, F, G, H, and I bonds
2. United States Treasury bills
3. U.S. Government certificates
4. U.S. Government bonds
5. U.S. Government notes
6. Original issue discount (OID) on a United States Treasury obligation
- b. Territorial obligations:*
 1. Guam—Principal and interest from bonds issued by the Government of Guam (48 USCS Section 1423[a]).
 2. Puerto Rico—Principal and interest from bonds issued by the Government of Puerto Rico (48 USCS Section 745).
 3. Virgin Islands—Principal and interest from bonds issued by the Government of the Virgin Islands (48 USCS Section 1403).
 4. Northern Mariana Islands—Principal and interest from bonds issued by the Government of the Northern Mariana Islands (48 USCS Section 1681(c)).
- c. Federal agency obligations:*
 1. Commodity Credit Corporation—Principal and interest from bonds, notes, debentures, and other similar obligations issued by the Commodity Credit Corporation (15 USCS Section 713a-5).
 2. Banks for Cooperatives—Principal and interest from notes, debentures, and other obligations issued by Banks for Cooperatives (12 USCS Section 2134).
 3. Farm Credit Banks—Principal and interest from systemwide bonds, notes, debentures, and other obligations issued jointly and severally by Banks of the Federal Farm Credit System (12 USCS Section 2023).
 4. Federal Intermediate Credit Banks—Principal and interest from bonds, notes, debentures, and other obligations issued by Federal Intermediate Credit Banks (12 USCS Section 2079).
 5. Federal Land Banks—Principal and interest from bonds, notes, debentures, and other obligations issued by Federal Land Banks (12 USCS Section 2055).
 6. Federal Land Bank Association—Principal and interest from bonds, notes, debentures, and other obligations issued by the Federal Land Bank Association (12 USCS Section 2098).
 7. Financial Assistance Corporation—Principal and interest from notes, bonds, debentures, and other obligations issued by the Financial Assistance Corporation (12 USCS Section 2278b-10[b]).
 8. Production Credit Association—Principal and interest from notes, debentures, and other obligations issued by the Production Credit Association (12 USCS Section 2077).
 9. Federal Deposit Insurance Corporation (FDIC)—Principal and interest from notes, bonds, debentures, and other such obligations issued by the Federal Deposit Insurance Corporation (12 USCS Section 1825).
 10. Federal Financing Bank—Interest from obligations issued by the Federal Financing Bank. Considered to be United States Government obligations (12 USCS Section 2288, 31 USCS Section 3124[a]).
 11. Federal Home Loan Bank—Principal and interest from notes, bonds, debentures, and other such obligations issued by any Federal Home Loan Bank and consolidated Federal Home Loan Bank bonds and debentures (12 USCS Section 1433).
 12. Federal Savings and Loan Insurance Corporation (FSLIC)—Principal and interest from notes, bonds, debentures, and other such obligations issued by the Federal Savings and Loan Insurance Corporation (12 USCS Section 1725[e]).
 13. Federal Financing Corporation—Principal and interest from notes, bonds, debentures, and other such obligations issued by the Federal Financing Corporation (12 USCS Section 2288(b)).
 14. Financing Corporation (FICO)—Principal and interest from any obligation of the Financing Corporation (12 USCS Sections 1441[e][7] and 1433).
 15. General Services Administration (GSA)—Principal and interest from General Services Administration participation certificates. Considered to be United States Government obligations (31 USCS Section 3124[a]).

16. Housing and Urban Development (HUD).
 - Principal and interest from War Housing Insurance debentures (12 USCS Section 1739[d]).
 - Principal and interest from Rental Housing Insurance debentures (12 USCS Section 1747g[g]).
 - Principal and interest from Armed Services Mortgage Insurance debentures (12 USCS Section 1748b[f]).
 - Principal and interest from National Defense Housing Insurance debentures (12 USCS Section 1750c[d]).
 - Principal and interest from Mutual Mortgage Insurance Fund debentures (12 USCS Section 1710[d]).
17. National Credit Union Administration Central Liquidity Facility—Income from notes, bonds, debentures, and other obligations issued on behalf of the National Credit Union Administration Central Liquidity Facility (12 USCS Section 1795k[b]).
18. Resolution Funding Corporation—Principal and interest from obligations issued by the Resolution Funding Corporation (12 USCS Sections 1441[f][7] and 1433).
19. Student Loan Marketing Association (Sallie Mae)—Principal and interest from obligations issued by the Student Loan Marketing Association. Considered to be United States Government obligations (20 USCS Section 1087-2[1], 31 USCS Section 3124[a]).
20. Tennessee Valley Authority—Principal and interest from bonds issued by the Tennessee Valley Authority (16 USCS Section 831n-4[d]).
21. United States Postal Service—Principal and interest from obligations issued by the United States Postal Service (39 USCS Section 2005[d][4]).
22. Treasury Investment Growth Receipts.
23. Certificates on Government Receipts.

40.2(2) Taxable securities. There are a number of securities issued under the authority of an Act of Congress which are subject to the Iowa income tax. These securities may be guaranteed by the United States Treasury or supported by the issuing agency's right to borrow from the Treasury. Some may be backed by the pledge of full faith and credit of the United States Government. However, it has been determined that these securities are not direct obligations of the United States Government to pay a specified sum at a specified date, nor are the principal and interest from these securities specifically exempted from taxation by the respective authorizing Acts. Therefore, income from such securities is subject to the Iowa income tax. Examples of securities which fall into this category are those issued by the following agencies and institutions:

- a. *Federal agency obligations:*
 1. Federal or State Savings and Loan Associations
 2. Export-Import Bank of the United States
 3. Building and Loan Associations
 4. Interest on federal income tax refunds
 5. Postal Savings Account
 6. Farmers Home Administration
 7. Small Business Administration
 8. Federal or State Credit Unions
 9. Mortgage Participation Certificates
 10. Federal National Mortgage Association
 11. Federal Home Loan Mortgage Corporation (Freddie Mac)
 12. Federal Housing Administration
 13. Federal National Mortgage Association (Fannie Mae)
 14. Government National Mortgage Association (Ginnie Mae)
 15. Merchant Marine (Maritime Administration)
 16. Federal Agricultural Mortgage Corporation (Farmer Mac)
- b. *Obligations of international institutions:*
 1. Asian Development Bank
 2. Inter-American Development Bank

3. International Bank for Reconstruction and Development (World Bank)

c. *Other obligations:*

Washington D.C. Metro Area Transit Authority

Interest from repurchase agreements involving federal securities is subject to Iowa income tax. *Nebraska Department of Revenue v. John Loewenstein*, 513 US 123 (1994). *Everett v. State Dept. of Revenue and Finance*, 470 N.W.2d 13 (Iowa 1991).

For tax years beginning on or after January 1, 1987, interest from Mortgage Backed Certificate Guaranteed by Government National Mortgage Association (“Ginnie Maes”) is subject to Iowa income tax. See *Rockford Life Insurance Company v. Illinois Department of Revenue*, 96 L.Ed.2d 152.

For the treatment of interest or dividends from regulated investment companies (mutual funds) that invest in obligations of the type discussed in this rule, see rule 701—40.52(422).

This rule is intended to implement Iowa Code section 422.7.

[ARC 7761B, IAB 5/6/09, effective 6/10/09; ARC 1101C, IAB 10/16/13, effective 11/20/13]

701—40.3(422) Interest and dividends from foreign securities and securities of state and other political subdivisions. Interest and dividends from foreign securities and from securities of state and other political subdivisions are to be included in Iowa net income. Certain types of interest and dividends, because of specific exemption, are not includable in income for federal tax purposes. To the extent such income has been excluded for federal income tax purposes, unless the item of income is specifically exempted from state taxation by the laws or constitution of Iowa or of the United States, it must be added to Iowa taxable income.

The following is a noninclusive listing of bonds issued by the state of Iowa and its political subdivisions, interest on which is exempt from both federal and state income taxes.

1. Board of regents: Bonds issued under Iowa Code sections 262.41, 262.51, 262.60, 262A.8, and 263A.6.
2. Urban renewal: Bonds issued under Iowa Code section 403.9(2).
3. Municipal housing law - low-income housing: Bonds issued under Iowa Code section 403A.12.
4. Subdistricts of soil conservation districts, revenue bonds: Bonds issued under Iowa Code section 161A.22.
5. Aviation authorities, revenue bonds: Bonds issued under Iowa Code section 330A.16.
6. Rural water districts: Bonds and notes issued under Iowa Code section 357A.15.
7. County health center: Bonds issued under Iowa Code section 331.441(2) “c”(7).
8. Iowa finance authority, water pollution control works and drinking water facilities financing: Bonds issued under Iowa Code section 16.131(5).
9. Iowa finance authority, beginning farmer loan program: Bonds issued under Iowa Code section 16.64.
10. Iowa finance authority, Iowa comprehensive petroleum underground storage tank fund: Bonds issued under Iowa Code section 455G.6(14).
11. Iowa finance authority, E911 program notes and bonds: Bonds issued under Iowa Code section 34A.20(6).
12. Quad Cities interstate metropolitan authority bonds: Bonds issued under Iowa Code section 28A.24.
13. Prison infrastructure revenue bonds: Bonds issued under Iowa Code sections 12.80(3) and 16.177(8).
14. Community college residence halls and dormitories bonds: Bonds issued under Iowa Code section 260C.61.
15. Community college bond program bonds: Bonds issued under Iowa Code section 260C.71(6).
16. Interstate bridges bonds: Bonds issued under Iowa Code section 313A.36.
17. Iowa higher education loan authority: Obligations issued by the authority pursuant to Iowa Code section 261A.27.
18. Vision Iowa program: Bonds issued pursuant to Iowa Code section 12.71(8).
19. School infrastructure program bonds: Bonds issued under Iowa Code section 12.81(8).

20. Honey Creek premier destination park bonds: Bonds issued under Iowa Code section 463C.12(8).

21. Iowa utilities board and Iowa consumer advocate building project bonds: Bonds issued under Iowa Code section 12.91(9).

22. Iowa jobs program revenue bonds: Bonds issued under Iowa Code section 12.87(8).

Interest from repurchase agreements involving obligations of the type discussed in this rule is subject to Iowa income tax. *Nebraska Department of Revenue v. John Loewenstein*, 513 US 123 (1994). *Everett v. State Dept. of Revenue and Finance*, 470 N.W.2d 13 (Iowa 1991).

For the treatment of interest or dividends from regulated investment companies (mutual funds) that invest in obligations of the type discussed in this rule, see rule 701—40.52(422).

Gains and losses from the sale or other disposition of bonds issued by the state of Iowa or its political subdivisions, as distinguished from interest income, shall be taxable for state income tax purposes.

This rule is intended to implement Iowa Code section 422.7 as amended by 2014 Iowa Acts, House File 2438.

[ARC 8605B, IAB 3/10/10, effective 4/14/10; ARC 1101C, IAB 10/16/13, effective 11/20/13; ARC 1665C, IAB 10/15/14, effective 11/19/14]

701—40.4(422) Certain pensions, annuities and retirement allowances. Rescinded IAB 11/24/04, effective 12/29/04.

701—40.5(422) Military pay.

40.5(1) Rescinded IAB 6/3/98, effective 7/8/98.

40.5(2) For income received for services performed prior to January 1, 1969, and for services performed for tax periods beginning on or after January 1, 1977, but before January 1, 2011. An Iowa resident who is on active duty in the armed forces of the United States, as defined in Title 10, United States Code, Section 101, shall include all income received for such service performed prior to January 1, 1969, and for services performed during tax periods beginning on or after January 1, 1977, but before January 1, 2011. For tax years beginning on or after January 1, 2011, see rule 701—40.76(422). However, the taxability of this active duty military income shall be terminated for any income received for services performed effective the day after either of the two following conditions:

a. When universal compulsory military service is reinstated by the United States Congress. “Compulsory military service” is defined to be the actual act of drafting individuals into the military service and not just the registration of individuals under the Military Selective Service Act (50 App. U.S.C. 453); or

b. When a state of war is declared to exist by the United States Congress.

Federal active duty does not include a member of the national guard when called for training by order of the governor through order of the adjutant general. These members are in the service of the state and not on active duty of the United States. Federal active duty also does not include members of the various military reserve programs. A taxpayer must be on active federal duty to qualify for exemption. National guard and reservists who undergo voluntary training are not on active duty in a federal status. National guard and reservist pay does not qualify for the military exemption and such pay is taxable by the state of Iowa.

Compensation received from the United States Government by nonresident members of the armed forces who are temporarily present in the state of Iowa pursuant to military orders is exempt from Iowa income tax.

This rule is intended to implement Iowa Code section 422.5.

[ARC 9822B, IAB 11/2/11, effective 12/7/11]

701—40.6(422) Interest and dividend income. This rule applies to interest and dividends from foreign securities and securities of state and other political subdivisions. Interest and dividends from foreign securities and from securities of state and other political subdivisions are to be included in Iowa taxable income. Certain types of interest and dividends, because of specific exemption, are not included in income for federal tax purposes. To the extent such income has been excluded for federal income

tax purposes, unless the term of income is specifically exempted from state taxation by the laws or constitutions of Iowa or of the United States, it must be added to Iowa taxable income.

This rule is intended to implement Iowa Code section 422.7.

701—40.7(422) Current year capital gains and losses. In determining short-term or long-term capital gain or loss the provisions of the Internal Revenue Code are to be followed.

This rule is intended to implement Iowa Code section 422.7.

701—40.8(422) Gains and losses on property acquired before January 1, 1934. When property was acquired prior to January 1, 1934, the basis as of January 1, 1934, for determining capital or other gains or losses is the higher of cost, adjusted for depreciation allowed or allowable to January 1, 1934, or fair market value as of that date.

If, as a result of this provision, a basis is to be used for purposes of Iowa individual income tax which is different from the basis used for purposes of federal income tax, appropriate adjustment must be made and detailed schedules supplied in the computation of Iowa taxable income.

This rule is intended to implement Iowa Code section 422.7.

701—40.9(422) Work opportunity tax credit and alcohol and cellulosic biofuel fuels credit. Where an individual claims the work opportunity tax credit under Section 51 of the Internal Revenue Code or the alcohol and cellulosic biofuel fuels credit under Section 40 of the Internal Revenue Code, the amount of credit allowable must be used to increase federal taxable income. The amount of credit allowable used to increase federal adjusted gross income is deductible in determining Iowa net income. The work opportunity tax credit applies to eligible individuals who begin work before January 1, 2012. The adjustment for the alcohol and cellulosic biofuel fuels credit is applicable for tax years beginning on or after January 1, 1980.

This rule is intended to implement 2011 Iowa Code Supplement section 422.7 as amended by 2012 Iowa Acts, Senate File 2328.

[ARC 0337C, IAB 9/19/12, effective 10/24/12]

701—40.10(422) Exclusion of interest or dividends. Rescinded IAB 11/24/04, effective 12/29/04.

701—40.11(422) Two-earner married couple deduction. Rescinded IAB 11/24/04, effective 12/29/04.

701—40.12(422) Income from partnerships or limited liability companies. Residents engaged in a partnership or limited liability company, even if located or doing business outside the state of Iowa, are taxable upon their distributive share of net income of such partnership or limited liability company, whether distributed or not, and are required to include such distributive share in their return. A nonresident individual who is a member of a partnership or limited liability company doing business in Iowa is taxable on that portion of net income which is applicable to the Iowa business activity whether distributed or not. See 701—Chapter 45.

This rule is intended to implement Iowa Code sections 422.7, 422.8, and 422.15.

701—40.13(422) Subchapter “S” income. Where a corporation elects, under Sections 1371-1379 of the Internal Revenue Code, to distribute the corporation’s income to the shareholders, the corporation’s income, in its entirety, is subject to individual reporting whether or not actually distributed. Both resident and nonresident shareholders shall report their share of the corporation’s net taxable income on their respective Iowa returns. *Isaacson v. Iowa State Tax Commission*, 183 N.W.2d 693, Iowa Supreme Court, February 9, 1971. Residents shall report their distributable share in total while nonresidents shall report only their portion of their distributable share which was earned in Iowa. For tax years beginning on or after January 1, 1996, residents should refer to 701—Chapter 50 to determine if they qualify to compute Iowa taxable income by allocation and apportionment. See 701—Chapter 54 for allocation and apportionment of corporate income.

This rule is intended to implement Iowa Code sections 422.7, 422.8, 422.15, and 422.36.

701—40.14(422) Contract sales. Interest derived as income from a land contract is intangible personal property and is assignable to the recipient's domicile. Gains received from the sale or assignment of land contracts are considered to be gains from real property in this state and are assignable to this state. As to nonresidents, see 701—40.16(422).

This rule is intended to implement Iowa Code sections 422.7 and 422.8.

701—40.15(422) Reporting of incomes by married taxpayers who file a joint federal return but elect to file separately for Iowa income tax purposes. Married taxpayers who have separate incomes and have filed jointly for federal income tax purposes can elect to file separate Iowa returns or to file separately on the combined Iowa return form. Where married persons file separately, both must use the optional standard deduction if either elects to use it, or both must claim itemized deductions if either elects to claim itemized deductions. The provisions of Treasury Regulation § 1.63-1 are equally applicable regarding the election to use the standard deduction or itemized deductions for Iowa income tax purposes. The spouses' election to file separately for Iowa income tax purposes is subject to the condition that incomes received by the taxpayers and the deductions for business expenses are allocated between the spouses as the incomes and deductions would have been allocated if the taxpayers had filed separate federal returns. Any Iowa additions to net income and any deductions to net income which pertain to taxpayers filing separately for Iowa income tax purposes must also be allocated accurately between the spouses. Thus, if married taxpayers file a joint federal return and elect to file separate Iowa returns or separately on the combined Iowa return, the taxpayers are required to compute their separate Iowa net incomes as if they had determined their federal adjusted gross incomes on separate federal returns with the Iowa adjustments to net income.

However, the fact that the taxpayers file separately for Iowa income tax purposes does not mean that the spouses will be subject to limitations that would apply if the taxpayers had filed separate federal returns. Instead, tax provisions that are applicable for taxpayers filing joint federal returns are also applicable to the taxpayers when they file separate Iowa returns unless the tax provisions are superseded by specific provisions in Iowa income tax law.

For example, married taxpayers that file separate federal returns cannot take the child and dependent care credit (in most instances) and cannot take the earned income credit. Taxpayers that file a joint federal return and elect to file separately for Iowa income tax purposes can take the child and dependent care credit and the earned income credit on their Iowa returns assuming they meet the qualifications for claiming these credits on the joint federal return.

The following paragraphs and examples are provided to clarify some issues and provide some guidance for taxpayers who filed a joint federal income tax return and elect to file separate Iowa returns or separately on the combined Iowa return form.

1. Election to expense certain depreciable business assets. When married taxpayers who have filed a joint federal return elect to file separate Iowa returns or separately on the combined Iowa return form, the taxpayers may claim the same deduction for the expensing of depreciable business assets as they were allowed on their joint federal return of up to \$100,000 (for the tax year beginning on or after January 1, 2003, and which is adjusted annually for inflation for subsequent tax years) as authorized under Section 179 of the Internal Revenue Code. In a situation where one spouse is a wage earner and the second spouse has a small business, the second spouse may claim the same deduction for expensing depreciable assets of up to \$100,000 (for the tax year beginning on or after January 1, 2003) that was allowable on the taxpayers' joint federal return. The fact that a spouse elects to file a separate Iowa return or separately on the combined return form after filing a joint federal return does not mean the spouse is limited to the same deduction for expensing of depreciable business assets of up to \$50,000 (for the tax year beginning on or after January 1, 2003) that would have applied if the spouse had filed a separate federal return.

In situations where a married couple has ownership of a business, the deduction for the expensing of depreciable assets which is allowable on the spouses' joint federal return should be allocated between the spouses in the same ratio as incomes and losses from the business are reported by the spouses. Subrule 40.15(4) sets out criteria for allocation of incomes and losses of businesses in which married couples have an ownership interest.

2. Capital losses. Except for the Iowa capital gains deduction for limited amounts of net capital gains from certain types of assets described in rule 701—40.38(422), the federal income tax provision for reporting capital gains and losses and for the carryover of capital losses in excess of certain amounts are applicable for Iowa individual income tax purposes. When married taxpayers file a joint federal income tax return and elect to file separate Iowa returns or separately on the combined return form, the spouses must allocate capital gains and losses between them on the basis of the ownership of the assets that were sold or exchanged. That is, the spouses must allocate the capital gains and losses between them on the separate Iowa returns as the capital gains and losses would have been allocated if the taxpayers had filed separate federal returns instead of a joint federal return. However, each spouse is not subject to the \$1,500 capital loss limitation on the separate Iowa return which is applicable to a married taxpayer that files a separate federal return. Instead, the spouses are collectively subject to the same \$3,000 capital loss limitation for married taxpayers filing joint federal returns which is authorized under Section 1211(b) of the Internal Revenue Code. In circumstances where both spouses have net capital losses, each of the spouses can claim a capital loss of up to \$1,500 on the separate Iowa return. In a situation where one spouse has a net capital loss of less than \$1,500 and the other spouse has a capital loss greater than \$1,500, the first spouse can claim the entire capital loss, while the second spouse can claim the portion of the net capital loss on the joint federal return that was not claimed by the first spouse. In no case can the net capital losses claimed on separate Iowa returns by married taxpayers exceed the \$3,000 maximum capital loss that is allowed on the joint federal return. In a circumstance where one spouse has a net capital loss and the other spouse has a net capital gain, the amounts of capital gains and losses claimed by the spouses on their separate Iowa returns must conform with the net capital gain amount or net capital loss amount claimed on the joint federal return for the taxpayers. The following examples illustrate how capital gains and losses are to be allocated between spouses filing separate Iowa returns or separately on the combined Iowa return form for married taxpayers who filed joint federal returns.

EXAMPLE 1. A married couple filed a joint federal return which showed a net capital loss of \$3,000. All of the capital loss was attributable to the husband, as the wife had no capital gains or losses. Therefore, when the taxpayers filed separate Iowa returns, the husband's return showed a \$3,000 capital loss and the wife's return showed no capital gains or losses.

EXAMPLE 2. A married couple filed a joint federal return showing a net capital loss of \$3,000, which was the maximum loss they could claim, although they had aggregate capital losses of \$8,000. The husband had a net capital loss of \$6,000 and the wife had a net capital loss of \$2,000. When the taxpayers filed their separate Iowa returns each spouse claimed a net capital loss of \$1,500, since each spouse had a capital loss of up to \$1,500. The husband had a net capital loss carryover of \$4,500 and the wife had a net capital loss carryover of \$500.

EXAMPLE 3. A married couple filed a joint federal return showing a net capital loss of \$2,500. The husband had a net capital gain of \$7,500 and the wife had a net capital loss of \$10,000. The wife claimed a net capital loss of \$10,000 on her separate Iowa return, while the husband reported a net capital gain of \$7,500 on his separate Iowa return.

EXAMPLE 4. A married couple filed a joint federal return showing a net capital loss of \$3,000. The wife had a net capital loss of \$800 and the husband had a net capital loss of \$2,500. The wife claimed a \$800 net capital loss on her separate Iowa return. The husband claimed a net capital loss on his separate Iowa return of \$2,200 which was the portion of the net capital loss claimed on the joint federal return that was not claimed by the wife. The husband had a net capital loss carryover of \$300.

3. Unemployment compensation benefits. When a husband and wife have filed a joint federal return and elect to file separate Iowa returns or separately on the Iowa combined return form, the spouses are to report the same amount of unemployment compensation benefits on their Iowa returns as was reported for federal income tax purposes as provided in Section 85 of the Internal Revenue Code. When unemployment compensation benefits are received in the tax year the benefits are to be reported by the spouse or spouses who received the benefits as a result of employment of the spouse or spouses. Nonresidents of Iowa, including nonresidents covered by the reciprocal agreement with Illinois, are to report unemployment compensation benefits on the Iowa income tax return as Iowa source income to the extent the benefits pertain to the individual's employment in Iowa. In a situation where the

unemployment compensation benefits are the result of employment in Iowa and in one or more other states, the unemployment compensation benefits should be allocated to Iowa on the basis of the individual's Iowa salaries and wages for the employer to the total salaries and wages for the employer. However, to the extent that unemployment compensation benefits pertain to a person's employment in Iowa for a railroad and the benefits are paid by the railroad retirement board, the benefits are totally exempt from Iowa income tax pursuant to 45 U.S.C. Section 352(e).

40.15(1) *Income from property in which only one spouse has an ownership interest but which is not used in business.* If ownership of property not used in a business is in the name of only one spouse and each files a separate state return, income derived from such property may not be divided between husband and wife but must be reported by only that spouse possessing the ownership interest.

40.15(2) *Income from property in which both husband and wife have an ownership interest but which is not used in a business.* A husband and wife who file a joint federal return and elect to file separate Iowa returns must each report the share of income from jointly or commonly owned real estate, stocks, bonds, bank accounts, and other property not used in a business in the same manner as if their federal adjusted gross incomes had been determined separately. The rules for determining the manner of reporting this income depend upon the nature of the ownership interest and, in general, may be summarized as follows:

a. Joint tenants. A husband and wife owning property as joint tenants with the right of survivorship, a common example of which is a joint savings account, should each report on separate returns one-half of the income from the savings account held by them in joint tenancy.

b. Tenants in common. Income from property held by husband and wife as tenants in common is reportable by them in proportion to their legally enforceable ownership interests in the property.

40.15(3) *Salary and wages derived from personal or professional services performed in the course of employment.* A husband and wife who file a joint federal return and elect to file separate Iowa returns must report on each spouse's state return the salary and wages which are attributable to services performed pursuant to each individual's employment. The income must be reported on Iowa separate returns in the same manner as if their federal adjusted gross incomes had been determined separately. The manner of reporting wages and salaries by spouses is dependent upon the nature of the employment relationship and is subject to the following rules:

a. Interspousal employment—salary or wages paid by one spouse to the other. Wages or compensation paid for services or labor performed by one spouse with respect to property or business owned by the other spouse may be reported on a separate return if the amount of the payment is reasonable for the services or labor actually performed. It is presumed that the compensation or wages paid by one spouse to the other is not reasonable nor allowable for purposes of reporting the income separately unless a bona fide employer-employee relationship exists. For example, unless actual services are rendered, payments are actually made, working hours and standards are set and adhered to, unemployment compensation and workers' compensation requirements are met, the payments may not be separately reported by the salaried spouse.

b. Wages and salaries received by a husband or wife pursuant to an employment agreement with an employer other than a spouse. Wages or compensation paid for services or labor performed by a husband or wife pursuant to an employment agreement with some other employer is presumed income of only that spouse that is employed and must be reported separately only by that spouse.

40.15(4) *Income from a business in which both husband and wife have an ownership interest.* Income derived from a business the ownership of which is in both spouses' names, as evidenced by record title or by the existence of a bona fide partnership agreement or by other recognized method of establishing legal ownership, may be allocated between spouses and reported on separate individual state income tax returns provided that the interest of each spouse is allocated according to the capital interest of each, the management and control exercised by each, and the services performed by each with respect to such business. Compliance with the conditions contained in paragraphs "a" or "b" of this subrule and consideration of paragraphs "c," "d," and "e" of this subrule must be made in allocating income from a business in which both husband and wife have an ownership interest.

a. Allocation of partnership income. Allocation of partnership income between spouses is presumed valid only if partnership information returns, as required for income tax purposes, have

currently been filed with respect to the federal self-employment tax law. An oral understanding does not constitute a bona fide partnership implied merely from a common ownership of property.

b. Allocation of income derived from a business other than a partnership in which both husband and wife claim an ownership interest. In the case of a business owned by a husband and wife who filed a joint federal income tax return in which one of them claimed all of the income therefrom for federal self-employment tax purposes, it will be presumed for purposes of administering the state income tax law, unless expressly shown to the contrary by the taxpayer, that the spouse who claimed that income for federal self-employment tax purposes did, thereby, with the consent of the other spouse, claim all right to such income and that therefore such income must be included in the state income tax return of the spouse who claimed it for federal self-employment tax purposes if the husband and wife file separate state income tax returns.

c. Capital contribution. In determining the weight to be attributed to the capital contribution of each spouse to a business, consideration may be given only to that invested capital which is legally traceable to each individual spouse. Capital existing under the right, dominion, and control of one spouse which is invested in the business is presumed to be a capital contribution of that spouse. Sham transactions which do not affect real changes of ownership in capital between spouses in that such transactions do not legally disturb the right, dominion, and control of the assignor or the donor over the capital must be disregarded in determining capital contribution of the recipient spouse.

d. Management and control. Participation in the control and management of a business must be distinguished from the regular performance of nonmanagerial services. Contribution of management and control with respect to the business must be of a substantial nature in order to accord it weight in making an allocation of income. Substantial participation in management does not necessarily involve continuous or even frequent presence at the place of business, but it does involve genuine consultation with respect to at least major business decisions, and it presupposes substantial acquaintance with an interest in the operations, problems, and policies of the business, along with sufficient maturity and background of education or experience to indicate an ability to grasp business problems that are appreciably commensurate with the demands of the enterprise concerned. Vague or general statements as to family discussions at home or elsewhere will not be accepted as a sufficient showing of actual consultation.

e. Services performed. The amount of services performed by each spouse is a factor to be considered in determining proper allocation of income from a business in which each spouse has an ownership interest. In order to accord weight to services performed by an individual spouse, the services must be of a beneficial nature in that they make a direct contribution to the business. For example, for a business operation, whether it is a retail sales enterprise, farming operation or otherwise, in which both husband and wife have an ownership interest, the services contributed by the spouses must be directly connected with the business operation. Services for the family such as planting and maintaining family gardens, domestic housework, cooking family meals, and routine errands and shopping, are not considered to be services performed or rendered as an incident of or a contribution to the particular business; such activities by a spouse must be disregarded in determining the allocable income attributable to that spouse.

This rule is intended to implement Iowa Code section 422.7.
[ARC 8356B, IAB 12/2/09, effective 1/6/10]

701—40.16(422) Income of nonresidents. Except as otherwise provided in this rule all income of nonresidents derived from sources within Iowa is subject to Iowa income tax.

Net income received by a nonresident taxpayer from a business, trade, profession, or occupation in Iowa must be reported.

Income from the sale of property, located in Iowa, including property used in connection with the trade, profession, business or occupation of the nonresident, is taxable to Iowa even though the sale is consummated outside of Iowa, and provided that the property was sold before subsequent use outside of Iowa. Any income from the property prior to its sale is also Iowa taxable income.

Income received from a trust or an estate, where the income is from Iowa sources, is taxable, regardless of the situs of the estate or trust. Dividends received in lieu of, or in partial or full payment of, an amount of wages or salary due for services performed in Iowa by a nonresident shall be considered taxable Iowa income. Annuities, interest on bank deposits and interest-bearing obligations, and dividends are not allocated to Iowa except to the extent to which they are derived from a business, trade, profession, or occupation carried on within the state of Iowa by the nonresident.

Interest received from the sale of property, on an installment contract even though the gain from the sale of the property is subject to Iowa taxation, is not allocable to Iowa if the property is not part of the nonresident's trade, profession, business or occupation. As to residents, see 701—40.14(422).

40.16(1) *Nonresidents exempt from paying tax.* See 701—subrules 39.5(10) and 39.5(11) for the net income exemption amounts for nonresidents.

These provisions for reducing tax in 701—subrule 39.5(10), paragraph “c,” and 701—subrule 39.5(11), paragraph “b,” do not apply to the Iowa minimum tax which must be paid irrespective of the amount of Iowa income that an individual has.

40.16(2) *Compensation for personal services of nonresidents.* The Iowa income of a nonresident must include compensation for personal services rendered within the state of Iowa. The salary or other compensation of an employee or corporate officer who performs services related to businesses located in Iowa, or has an office in Iowa, are not subject to Iowa tax, if the services are performed while the taxpayer is outside of Iowa. However, the salary earned while the nonresident employee or officer is located within the state of Iowa would be subject to Iowa taxation. The Iowa taxable income of the nonresident shall include that portion of the total compensation received from the employer for personal services for the tax year which the total number of working days that the individual was employed within the state of Iowa bears to the total number of working days within and without the state of Iowa.

Compensation paid by an Iowa employer for services performed wholly outside of Iowa by a nonresident is not taxable income to the state of Iowa. However, all services performed within Iowa, either part-time or full-time, would be taxable to the nonresident and must be reported to this state.

Compensation received from the United States Government by a nonresident member of the armed forces is explained in 701—40.5(422).

Income from commissions earned by a nonresident traveling salesperson, agent or other employee for services performed or sales made and whose compensation depends directly on the volume of business transacted by the nonresident will include that proportion of the compensation received which the volume of business transacted by the employee within the state of Iowa bears to the total volume of business transacted by the employee within and without the state. Allowable deductions will be apportioned on the same basis. However, where separate accounting records are maintained by a nonresident or the employer of the business transacted in Iowa, then the amount of Iowa compensation can be reported based upon separate accounting.

Nonresident actors, singers, performers, entertainers, wrestlers, boxers (and similar performers), must include as Iowa income the gross amount received for performances within this state.

Nonresident attorneys, physicians, engineers, architects (and other similar professions), even though not regularly employed in this state, must include as Iowa income the entire amount of fees or compensation received for services performed in this state.

If nonresidents are employed in this state at intervals throughout the year, as would be the case if employed in operating trains, planes, motor buses, or trucks and similar modes of transportation, between this state and other states and foreign countries, and who are paid on a daily, weekly or monthly basis, the gross income from sources within this state is that portion of the total compensation for personal services which the total number of working days employed within the state bears to the total number of working days both within and without the state. If paid on a mileage basis, the gross income from sources within this state is that portion of the total compensation for services which the number of miles traveled in Iowa bears to the total number of miles traveled both within and without the state. If paid on some other basis, the total compensation for personal services must be apportioned between this state and other states and foreign countries in such a manner as to allocate to Iowa that portion of the total compensation which is reasonably attributable to personal services performed in this state. Any alternative method of allocation

is subject to review and change by the director. However, pursuant to federal law, nonresidents who earn compensation in Iowa and one or more other states for a railway company, an airline company, a merchant marine company, or a motor carrier are only subject to the income tax laws of their state of residence, and the compensation would not be considered gross income from sources within Iowa.

40.16(3) *Income from business sources within and without the state.* When income is derived from any business, trade, profession, or occupation carried on partly within and partly without the state only such income as is fairly and equitably attributable to that portion of the business, trade, profession, or occupation carried on in this state, or to services rendered within the state shall be included in the gross income of a nonresident taxpayer. In any event, the entire amount of such income both within and without the state is to be shown on the nonresident's return.

40.16(4) *Apportionment of business income from business carried on both within and without the state.*

a. If a nonresident, or a partnership or trust with a nonresident member, transacts business both within and without the state, the net income must be so apportioned as to allocate to Iowa a portion of the income on a fair and equitable basis, in accordance with approved methods of accounting.

b. The amount of net income attributable to the manufacture or sale of tangible personal property shall be that portion which the gross sales made within the state bears to the total gross sales. The gross sales of tangible personal property are in the state if the property is delivered or shipped to a purchaser within this state, regardless of the F.O.B. point or other conditions of the sale.

c. Income derived from business other than the manufacture or sale of tangible personal property shall be attributed to Iowa in that portion which the Iowa gross receipts bear to the total gross receipts. Gross receipts are attributable to this state in the portion which the recipient of the service receives benefit of the service in this state.

d. If the taxpayer believes that the gross sales or gross receipts methods subjects the taxpayer to taxation on a greater portion of net income than is reasonably attributable to the business within this state the taxpayer may request the use of separate accounting or another alternative method which the taxpayer believes to be proper under the circumstances. In any event, the entire income received by the taxpayer and the basis for a special method of allocation shall be disclosed in the taxpayer's return.

40.16(5) *Income from intangible personal property.* Business income of nonresidents from rentals or royalties for the use of, or the privilege of using in this state, patents, copyrights, secret processes and formulas, goodwill, trademarks, franchises, and other like property is income from sources within the state.

Income of nonresidents from intangible personal property such as shares of stock in corporations, bonds, notes, bank deposits and other indebtedness is not taxable as income from sources within this state except where such income is derived from a business, trade, profession, or occupation carried on within this state by the nonresident. If a nonresident buys or sells stocks, bonds, or other such property, so regularly, systematically and continuously as to constitute doing business in this state, the profit or gain derived from such activity is taxable as income from a business carried on within Iowa.

Following are examples to illustrate when intangible income may or may not be subject to the allocation provisions of Iowa Code section 422.8 and rules 701—40.15(422) and 701—42.5(422):

EXAMPLE A - An Illinois resident is a laborer at a factory in Davenport. A \$50 payroll deduction is made each week from the laborer's paycheck to the company's credit union. The Illinois resident will earn \$600 in interest income from the Iowa credit union account in 1983. The interest income would not be included in the net income allocated to Iowa since the interest income is not derived from the taxpayer's business or utilized for business purposes.

EXAMPLE B - A Nebraska resident is a self-employed plumber, who has a plumbing business in Council Bluffs. The plumber has an interest-bearing checking account in an Iowa bank which the plumber uses to pay bills for the plumbing business. The plumber will earn \$200 in interest income from the checking account in 1982. The plumber will have a net income of \$25,000 from the plumbing business which will be reported on the plumber's 1982 Iowa return. The interest income earned by this nonresident would be taxable to Iowa since it is derived from the business and is utilized in the business.

EXAMPLE C - An Illinois resident has a farm in Illinois. The Illinois resident has an account in an Iowa savings and loan association and invests earnings from the Illinois farm in the Iowa savings and loan account. In 1982, the Illinois farmer will earn \$1,000 in interest income from the account in the Iowa savings and loan. The interest income is not included in the net income allocable to Iowa since the interest income is not derived from the taxpayer's trade or business.

EXAMPLE D - An Illinois resident has Iowa farms. The Illinois resident invests the profits from the farms in a savings account in an Iowa bank. Several times a year, the taxpayer transfers part of the funds from the savings account to the taxpayer's checking account to purchase machinery to be used in the farming operations. The interest income would not be included in income allocated to Iowa since the interest income is not derived from the taxpayer's trade or business nor is the savings account utilized as a business account.

EXAMPLE E - An Illinois resident is a physician, whose practice is in Iowa. The physician has a business checking account in an Iowa bank that is used to pay the bills relating to the physician's practice. In the same bank, the physician has a personal savings account where all the physician's receipts for a given month are deposited. On the first working day of the month, funds are transferred from the savings account to the checking account to pay the bills that have accrued during the month. The interest income from the savings account would be included in net income allocated to Iowa since it is derived from and utilized in the business.

EXAMPLE F - A nonresident has a farm in Iowa which is the nonresident's principal business, although this person is an Illinois resident. The nonresident has an interest-bearing checking account in an Iowa bank. This checking account is used to pay personal expenditures as well as to pay expenses incurred in operation of the farm. In 1982, the taxpayer will earn \$550 in interest from the checking account. The interest would be included in net income allocated to Iowa since the interest is derived from the business, generated from a business account, and utilized in the business.

Income of a nonresident beneficiary from an estate or trust, distributed or distributable to the beneficiary out of income from intangible personal property of the estate or trust, is not income from sources in this state and is not taxable to the nonresident beneficiary unless the property is so used by the estate or trust as to create a business, trade, profession, or occupation in this state.

Whether or not the executor or administrator of an estate or the trustee of a trust is a resident of this state is immaterial, insofar as the taxation of income of beneficiaries from the estate or trust are concerned.

EXAMPLE G - A nonresident is a partner in a family investment partnership in which the other partners are members of the same family. The other partners are residents of Iowa. The partnership invests in mutual funds, interest-bearing securities and stocks which produce interest, dividend and capital gain income for the partnership. The partners who are Iowa residents make occasional decisions in Iowa on what investments should be made by the partnership. The distributive share of interest, dividend and capital gain income reported by the nonresident would not be included in net income allocated to Iowa since it was not derived from a business carried on within the state.

40.16(6) *Distributive shares of nonresident partners.* When a partnership derives income from sources within this state as determined in 40.16(3) to 40.16(5), the nonresident members of the partnership are taxable only upon that portion of their distributive share of the partnership income which is derived from sources within this state.

40.16(7) *Interest and dividends from government securities.* Interest and dividends from federal securities subject to the federal income tax under the Internal Revenue Code are not to be included in determining the Iowa net income of a nonresident, but any interest and dividends from securities and from securities of state and other political subdivisions exempt for federal income tax under the Internal Revenue Code are to be included in the Iowa net income of a nonresident to the extent that same are derived from a business, trade, profession, or occupation carried on within the state of Iowa by the nonresident.

40.16(8) *Gains or losses from sales or exchanges of real property and tangible personal property by a nonresident of Iowa.* If a nonresident realizes any gains or losses from sales or exchanges of real property or tangible personal property within the state of Iowa, such gains or losses are subject to the

Iowa income tax and shall be reported to this state by the nonresident. Gains or losses attributable to Iowa will be determined as follows:

1. Gains or losses from sales or exchanges of real property located in this state are allocable to this state.

2. Capital gains and losses from sales or exchanges of tangible personal property are allocable to this state if the property had a situs in this state at the time of the sale.

In determining whether a short-term or long-term capital gain or a capital loss is involved in a sale or exchange, and determining the amount of a gain from the sale of real or tangible property in Iowa, the provisions of the Internal Revenue Code are to be followed.

40.16(9) *Capital gains or losses from sales or exchanges of ownership interests in Iowa business entities by nonresidents of Iowa.* Nonresidents of Iowa who sell or exchange ownership interests in various Iowa business entities will be subject to Iowa income tax on capital gains and capital losses from those transactions for different entities as described in the following paragraphs:

a. Capital gains from sales or exchanges of stock in C corporations and S corporations. When a nonresident of Iowa sells or exchanges stock in a C corporation or an S corporation, that shareholder is selling or exchanging the stock, which is intangible personal property. The capital gain received by a nonresident of Iowa from the sale or exchange of capital stock of a C corporation or an S corporation is taxable to the state of the personal domicile or residence of the owner of the capital stock unless the stock attains an independent business situs apart from the personal domicile of the individual who sold the capital stock. The stock may acquire an independent business situs in Iowa if the stock had been used as an integral part of some business activity occurring in Iowa in the year in which the sale or exchange of the stock had taken place. Whether the stock has attained an independent business status is determined on a factual basis.

For example, a situation in which capital stock owned by a nonresident of Iowa was used as collateral to secure a loan to remodel a retail store in Iowa, regardless of the ownership of the store, would meet the test for the stock being used as an integral part of some business activity in Iowa.

Assuming that the gain from the sale or exchange of stock is attributable to Iowa, the next step is to determine how much of the gain is attributable to Iowa. This is computed on the basis of the Iowa allocation and apportionment rules applicable to the separate business the stock has become an integral part of for the year in which the sale or exchange occurred. For example, if the business was subject to Iowa income tax on 40 percent of its income in the year of the sale or exchange, then 40 percent of the capital gain would be attributable or taxable by Iowa.

However, the fact that the gain from the sale or exchange of stock is taxable or partially taxable to Iowa does not mean that the dividends received by the nonresident in the year of sale are taxable to Iowa. Dividends from stock used in an Iowa specific business activity would not be taxable to Iowa except under special circumstances. An illustration of these special circumstances would be when the dividends are from capital stock from a business where the purchase and sale of stock constitute a regular business in Iowa. In this situation the dividends would be taxable to Iowa. See subrule 40.16(5).

b. Capital gains from sales or exchanges of interests in partnerships. When a nonresident of Iowa sells or exchanges the individual's interest in a partnership, the nonresident is actually selling an intangible since the partnership can continue without the nonresident partner and the assets used by the partnership are legally owned by the partnership and an individual retains only an equitable interest in the assets of the partnership by virtue of the partner's ownership interest in the partnership. However, because of the unique attributes of partnerships, the owner's interest in a partnership is considered to be localized or "sourced" at the situs of the partnership's activities as a matter of law. *Arizona Tractor Co. v. Arizona State Tax Com'n.*, 566 P.2d 1348, 1350 (Ariz. App. 1997); Iowa Code chapter 486 (unique attributes of a partnership defined). Therefore, if a partnership conducts all of its business in Iowa, 100 percent of the gain on the sale or exchange of a partnership interest would be attributable to Iowa. On the other hand, if the partnership conducts 100 percent of its business outside of Iowa, none of the gain would be attributable to Iowa for purposes of the Iowa income tax. In the situation where a partnership conducts business both in and out of Iowa, the capital gain from the sale or exchange of an interest in the

partnership would be allocated or apportioned in and out of Iowa based upon the partnership's activities in and out of Iowa in the year of the sale or exchange.

Note that if a partnership is a publicly traded partnership and is taxed as a corporation for federal income tax purposes, any capital gains realized on the sale or exchange of a nonresident partner's interest in the partnership will receive the same tax treatment as the capital gain from the sale or exchange of an interest in a C corporation or an S corporation as specified in paragraph "a" of this subrule.

c. Capital gains from sales or exchanges of sole proprietorships. When a nonresident sells or exchanges the individual's interest in a sole proprietorship, the nonresident is actually selling or exchanging tangible and intangible personal property used in this business because the sole proprietor is the legal and equitable owner of all such assets. Therefore, the general source or situs rules governing the gain from the sale or exchange of tangible property and intangible property by a nonresident individual control. Thus, if the sole proprietorship is located in Iowa, the gain from the sale or exchange of the proprietorship by a nonresident would be taxable to Iowa.

d. Capital gains from sales or exchanges of interests in limited liability companies. Limited liability companies are hybrid business entities containing elements of both a partnership and a corporation. If a limited liability company properly elected to file or would have been required to file a federal partnership tax return, a capital gain from the sale or exchange of an ownership interest in the limited liability company by a nonresident member of the company would be taxable to Iowa to the same extent as if the individual were selling a similar interest in a partnership as described in paragraph "b" of this subrule. However, if the limited liability company properly elected or would have been required to file a federal corporation tax return, a nonresident member who sells or exchanges an ownership interest in the limited liability company would be treated the same as if the nonresident were selling a similar interest in a C corporation or an S corporation as described in paragraph "a" of this subrule.

e. Taxation of corporate liquidations. As a matter of Iowa law, the proceeds from corporate liquidating distributions are not considered to be the proceeds from the sale or exchange of corporate stock. Rather, such proceeds represent the transfer back to the shareholder of that shareholder's pro-rata share of the actual assets of the corporation in which each shareholder held only an equitable ownership interest prior to the dissolution. *Lynch v. State Board of Assessment and Review*, 228 Iowa 1000, 1003-1004, 291 N.W. 161 (1940). The amount of such gain is calculated by subtracting the distribution realized from the shareholder's basis in the stock. *Id.* Thus, any gain realized by the shareholder upon such distribution is considered a capital gain from a sale or exchange of the assets by the shareholder for purposes of sourcing the shareholder's liquidating distribution gain. Consequently, the gain, whether it is from a distribution of cash or other property, is controlled by the general source or situs rules in subrule 40.16(8) governing the taxation of the sale or exchange of tangible personal property by a nonresident and subrule 40.16(10) governing the sale or exchange of intangible personal property by a nonresident.

f. Capital losses realized by a nonresident of Iowa from the sale or exchange of an ownership interest in an Iowa business entity. In a situation where a nonresident of Iowa sells the ownership interest in an Iowa business entity and has a capital loss from the transaction, the nonresident can claim the loss on the Iowa income tax return under the same circumstances that a capital gain would have been reported as described in paragraphs "a" through "e" of this subrule. The federal income tax provisions for netting Iowa source capital gains and losses are applicable as well as the federal provisions for limiting the net capital loss in the tax year to \$3,000, with the carryover of the portion of net capital losses that exceed \$3,000.

40.16(10) Capital gains and losses from sales or exchanges of intangible personal property other than ownership interests in business entities. Capital gains and losses realized by a nonresident of Iowa from the sale or exchange of intangible personal property (other than interests in business entities) are taxable to Iowa if the intangible property was an integral part of some business activity occurring regularly in Iowa prior to the sale or exchange. In the case of an intangible asset which was an integral part of a business activity of a business entity occurring regularly within and without Iowa, a capital

gain or loss from the sale or exchange of the intangible asset by a nonresident of Iowa would be reported to Iowa in the ratio of the Iowa business activity to the total business activity for the year of the sale.

This rule is intended to implement Iowa Code sections 422.5, 422.7, and 422.8.

[**ARC 7761B**, IAB 5/6/09, effective 6/10/09; **ARC 8702B**, IAB 4/21/10, effective 5/26/10; **ARC 9103B**, IAB 9/22/10, effective 10/27/10]

701—40.17(422) Income of part-year residents. A taxpayer who was a resident of Iowa for only a portion of the taxable year is subject to the following rules of taxation:

1. For that portion of the taxable year for which the taxpayer was a nonresident, the taxpayer shall allocate to Iowa only the income derived from sources within Iowa.

2. For that portion of the taxable year for which the taxpayer was an Iowa resident, the taxpayer shall allocate to Iowa all income earned or received whether from sources within or without Iowa.

A taxpayer moving into Iowa may adjust the Iowa-source gross income on Schedule IA 126 by the amount of the moving expense to the extent allowed by Section 217 of the Internal Revenue Code. Any reimbursement of moving expense shall be included in Iowa-source gross income. A taxpayer moving from Iowa to another state or country may not adjust the Iowa-source gross income by the amount of moving expense, nor should any reimbursement of moving expense be allocated to Iowa.

This rule is intended to implement Iowa Code sections 422.5, 422.7, and 422.8.

701—40.18(422) Net operating loss carrybacks and carryovers. Net operating losses shall be allowed or allowable for Iowa individual income tax purposes and will be computed using a method similar to the method used to compute losses allowed or allowable for federal income tax purposes. In determining the applicable amount of Iowa loss carrybacks and carryovers, the adjustments to net income set forth in Iowa Code section 422.7 and the deductions from net income set forth in Iowa Code section 422.9 must be considered.

40.18(1) Treatment of federal income taxes.

a. Refund of federal income taxes due to net operating loss carrybacks or carryovers shall be reflected in the following manner:

(1) Accrual basis taxpayers shall accrue refunds of federal income taxes to the year in which the net operating loss occurs.

(2) Cash basis taxpayers shall reflect refunds of federal income taxes in the return for the year in which the refunds are received.

(3) Refunds reported in the year in which the net operating loss occurs which contain both business and nonbusiness components shall be analyzed and separated accordingly. The amount of refund attributable to business income shall be that amount of federal taxes paid on business income which are being refunded.

b. Federal income taxes paid in the year of the loss which contain both business and nonbusiness components shall be analyzed and separated accordingly. Federal income taxes paid in the year of the loss shall be reflected as a deduction to business income to the extent that the federal income tax was the result of the taxpayer's trade or business. Federal income taxes paid which are not attributable to a taxpayer's trade or business shall also be allowed as a deduction but will be limited to the amount of gross income which is not derived from a trade or business.

40.18(2) Nonresidents doing business within and without Iowa. If a nonresident does business both within and without Iowa, the nonresident shall make adjustments reflecting the apportionment of the operating loss on the basis of business done within and without the state of Iowa, according to rule 701—40.16(422). The apportioned income or loss shall be added or deducted, as the case may be, to any amount of other income attributable to Iowa for that year.

40.18(3) Loss carryback and carryforward. The net operating loss attributable to Iowa as determined in rule 701—40.18(422) shall be subject to the federal 2-year carryback and 20-year carryover provisions if the net operating loss was for a tax year beginning after August 5, 1997, or subject to the federal 3-year carryback and the 15-year carryforward provisions if the net operating loss was for a tax year beginning prior to August 6, 1997. However, in the case of a casualty or theft loss for an individual taxpayer or for a net operating loss in a presidentially declared disaster area incurred

by a taxpayer engaged in a small business or in the trade or business of farming, the net operating loss is to be carried back 3 taxable years and forward 20 taxable years if the loss is for a tax year beginning after August 5, 1997. The net operating loss or casualty or theft loss shall be carried back or over to the applicable year as a reduction or part of a reduction of the taxable income attributable to Iowa for that year. However, a net operating loss shall not be carried back to a year in which the taxpayer was not doing business in Iowa. If the election under Section 172(b)(3) of the Internal Revenue Code is made, the Iowa net operating loss shall be carried forward 20 taxable years if the net operating loss is for a tax year beginning after August 5, 1997, or the net operating loss shall be carried forward 15 taxable years if the loss is for a tax year beginning before August 6, 1997. A copy of the federal election made under Section 172(b)(3) of the Internal Revenue Code must be attached to the Iowa individual return filed with the department.

40.18(4) *Loss not applicable.* No part of a net loss for a year for which an individual was not subject to the imposition of Iowa individual income tax shall be included in the Iowa net operating loss deduction applicable to any year prior to or subsequent to the year of the loss.

40.18(5) *Special adjustments applicable to net operating losses.* Section 172(d) of the Internal Revenue Code provides for certain modifications when computing a net operating loss. These modifications refer to, but are not limited to, such things as considerations of other net operating loss deductions, treatment of capital gains and losses, and the limitation of nonbusiness deductions. Where applicable, the modifications set forth in Section 172 of the Internal Revenue Code shall be considered when computing the net operating loss carryover or carryback for Iowa income tax purposes.

40.18(6) *Distinguishing business or nonbusiness items.* In computing a net operating loss, nonbusiness deductions may be claimed only to the extent of nonbusiness income. Therefore, it is necessary to distinguish between business and nonbusiness income and expenses. For Iowa net operating loss purposes, an item will retain the same business or nonbusiness identity which would be applicable for federal income tax purposes.

40.18(7) *Examples.* The computation of a net operating loss deduction for Iowa income tax purposes is illustrated in the following examples:

a. Individual A had the following items of income for the taxable year:

Gross income from retail sales business	\$125,000
Interest income from federal securities	2,000
Salary from part-time job	12,500

Individual A's federal return showed the following deductions:

Business deductions (retail sales)	\$150,000
Itemized (nonbusiness) deductions:	
Interest	\$400
Real estate tax	600
Iowa income tax	800
	\$ 1,800

Individual A paid \$3,000 federal income tax during the year which consisted of \$2,500 federal withholding (business) and a \$500 payment (nonbusiness) which was for the balance of the prior year's federal tax liability.

The federal computations are as follows:

	<u>Per Return</u>	<u>Computed NOL</u>
Income:		
Retail Sales	\$125,000	\$125,000
Interest income-federal securities	2,000	2,000
Salary	12,500	12,500
Subtotal	<u>\$139,500</u>	<u>\$139,500</u>
Deductions:		
Business	\$150,000	\$150,000
Itemized deductions	1,800	1,800
(Loss) per federal	<u>(\$ 12,300)</u>	
Computed net operating loss		<u>(\$ 12,300)</u>

Since the nonbusiness deductions do not exceed the nonbusiness income, the loss per the federal return and the computed net operating loss are the same.

The Iowa computations are as follows:

	<u>Per Return</u>	<u>Computed NOL</u>
Income:		
Retail sales	\$125,000	\$125,000
Salary	12,500	12,500
Subtotal	<u>\$137,500</u>	<u>\$137,500</u>
Deductions:		
Business	\$150,000	\$150,000
Federal tax deductions	3,000	2,500
Itemized deductions	1,000	-
(Loss) per return	<u>(\$ 16,500)</u>	
Computed Iowa NOL		<u>(\$ 15,000)</u>

NOTE: Itemized (nonbusiness deductions) are eliminated due to the lack of nonbusiness income. The only nonbusiness income, interest from federal securities, is not taxable for Iowa income tax purposes under Iowa Code section 422.7. The only federal tax deduction allowable is that related to business activity.

b. Individual B had the following items of income for the taxable year:

Gross income from restaurant business	\$300,000
Wages	12,000
Business long-term capital gain @100%	1,000
Municipal bond interest (nonbusiness)	1,000
Federal tax refund of prior year taxes	500
Iowa tax refund of prior year taxes	100

Individual B's federal return showed the following deductions:

Business deductions from restaurant	\$333,000
Itemized deductions:	

Interest (nonbusiness)	\$590	
Real estate tax (nonbusiness)	780	
Iowa income tax*	520	
Alimony (nonbusiness)	600	
Union dues (business)	100	2,590

*Iowa estimated payments totaled \$220 of which \$70 related to nonbusiness income and \$150 related to business capital gains and business profits. \$300 in Iowa tax was withheld from his wages.

Individual B paid \$2,000 in federal income taxes during the tax year. \$1,500 of this amount was withholding on wages and \$500 was a federal estimated payment based on capital gains and projected business profits.

In the previous year 75 percent of B's income was from business sources and 25 percent was from nonbusiness sources.

The federal computations are as follows:

	<u>Per Return</u>	<u>Computed NOL</u>
Income:		
Retail sales	\$300,000	\$300,000
Wages	12,000	12,000
Capital gains	500(a)	1,000(a)
Iowa refund	100	100
Subtotal	\$312,600	\$313,100
Deductions:		
Business	\$333,000	\$333,000
Itemized deductions	2,590	575(b)
(Loss) per federal	(\$ 22,990)	
Computed net operating loss		(\$ 20,475)

(a) Capital gains are reduced by 50 percent in computing adjusted gross income, but must be reported in full in computing a net operating loss.

(b) Itemized deductions are limited to business deductions consisting of \$100 for union dues, \$450 for Iowa tax on business income, and nonbusiness deductions to the extent of nonbusiness income which amounts to \$25. The only nonbusiness income is 25 percent of the \$100 Iowa refund.

The Iowa computations are as follows:

	<u>Per Return</u>	<u>Computed NOL</u>
Income:		
Retail sales	\$300,000	\$300,000
Wages	12,000	12,000
Capital gains	500	1,000
Municipal bond interest	1,000	1,000
Federal refund	500	500
Subtotal	\$314,000	\$314,500

Deductions:		
Business	\$333,000	\$333,000
Federal tax	2,000	2,000
Itemized deductions	<u>2,070(c)</u>	<u>1,225(d)</u>
(Loss) per return	<u>(\$ 23,070)</u>	
Computed Iowa NOL		<u>(\$ 21,725)</u>

(c) Iowa income tax is not an itemized deduction for Iowa income tax purposes.

(d) Itemized deductions are limited to business deductions of \$100 for union dues and nonbusiness deductions to the extent of nonbusiness income of \$1,125. Nonbusiness income includes \$1,000 of municipal bond interest and 25 percent (\$125) of the federal tax refund.

40.18(8) *Net operating losses for nonresidents and part-year residents for tax years beginning on or after January 1, 1982.* For tax years beginning on or after January 1, 1982, nonresidents and part-year residents may carryback/carryforward only those net operating losses from Iowa sources. Nonresidents and part-year residents may not carryback/carryforward net operating losses which are from all sources.

Before the Iowa net operating loss of a nonresident or part-year resident is available for carryback/carryforward to another tax year, the loss must be decreased or increased by a number of possible adjustments depending on which adjustments are applicable to the taxpayer for the year of the loss. Iowa Net Operating Loss (NOL) Worksheet (41-123) may be used to make the adjustments to the net operating loss and compute the net operating loss deduction available for carryback/carryforward.

If the net operating loss was increased by an adjustment for an individual retirement account or H.R.10 retirement plan, the net operating loss should be decreased by the amount of the adjustment. The net operating loss should also be decreased by the amount of any capital loss or by the capital gain deduction to the extent the capital loss or capital gain deduction was from the sale or exchange of an asset from an Iowa source.

In a situation where the nonresident or part-year resident taxpayer received a federal income tax refund in the year of the NOL, the refund should reduce the loss in the ratio of the Iowa source income to the all source income for the tax year in which the refund was generated.

The net operating loss should be increased by any federal income tax paid in the loss year for a prior year in the ratio of the Iowa income for the prior year to the all source income for the prior year. Federal income tax withheld from wages or other compensation received in the loss year may be used to increase the Iowa net operating loss to the extent the tax is withheld from wages or other compensation earned in Iowa.

Federal estimate tax payments would be allocated to Iowa and increase the net operating loss on the basis of the Iowa income not subject to withholding to total income not subject to withholding. In any case where this method of allocation of federal estimate payments to Iowa is not considered to be equitable, the taxpayer may allocate the payments using another method as long as this method is disclosed on the taxpayer's Iowa individual income tax return for the year of the loss. However, the burden of proof is on the taxpayer to show that an alternate method of allocation is equitable.

Nonbusiness deductions included in the itemized deductions paid during the year of the net operating loss may be used to increase the NOL to the extent of nonbusiness income which is reported to Iowa in computation of the net operating loss. In most instances of net operating losses for nonresidents, no itemized deductions will be allowed in computing the net operating loss deduction. This is because most nonresidents will have no nonbusiness income reported to Iowa. Business deductions included in the federal itemized deductions may be used to increase the net operating loss deduction to the extent the deductions pertain to a business, trade, occupation or profession conducted in Iowa.

EXAMPLE A. A nonresident taxpayer had the following all source income and Iowa source income for 1982:

Category	All Source Income	Iowa Source Income
Wages	\$20,000	\$20,000
Interest	5,000	0
Rental income	5,000	5,000
Business loss	(50,000)	(10,000)
Iowa net income (loss)	<u>(\$20,000)</u>	<u>\$15,000</u>

The nonresident taxpayer did not have an Iowa net operating loss available for carryback/carryforward for Iowa income tax purposes because the taxpayer’s Iowa source income was not negative. The taxpayer’s all source loss of (\$20,000) does not qualify for carryback/carryforward on the Iowa return. However, since the taxpayer’s all source income is negative, the taxpayer will not have an Iowa income tax liability for the year of the all source loss.

EXAMPLE B. A nonresident taxpayer received a federal refund of \$1,000 in 1983. The refund was from the taxpayer’s 1981 federal return where the taxpayer’s Iowa income was 20% of the total income. \$2,000 of federal income tax was withheld from the taxpayer’s Iowa wages in 1982. The taxpayer had \$10,000 in itemized deductions in 1982. However, the taxpayer had no Iowa nonbusiness income in 1982. In addition, no Iowa business deductions were included in the itemized deductions available on the federal return. The individual had the following all source income and Iowa source income in 1982:

Category	All Source Income	Iowa Source Income
Wages	\$60,000	\$10,000
Interest	3,000	0
Rental income	5,000	5,000
Farm income loss	(30,000)	(30,000)
Capital gain	2,000	2,000
Total incomes	<u>\$40,000</u>	<u>(\$13,000)</u>

The taxpayer’s Iowa source loss of (\$13,000) was decreased by \$200 of the federal refund since 20% of the refund was considered to be from Iowa income. The loss was decreased by \$3,000 which was the capital gain deduction of the Iowa source asset sold in 1982. The loss was increased by the federal income tax withheld of \$2,000 from Iowa wages. Because there is no Iowa source nonbusiness income nor Iowa source business deductions, the taxpayer’s itemized deductions will not affect the net operating loss deduction.

Shown below is a recap of the net operating loss deduction for the nonresident taxpayer.

Iowa source net loss	(\$13,000)
Iowa portion of federal refund	200
Federal tax withheld on Iowa wages	(2,000)
Capital gain deduction	<u>3,000</u>
Total	<u>(\$11,800)</u>

The taxpayer’s net operating loss deduction available for carryback/carryforward to another tax year is (\$11,800).

After all adjustments are made to the Iowa net operating loss to compute the net operating loss deduction available for carryback/carryforward, the NOL deduction is applied to the carryback/carryforward tax year as described in paragraph “a” and paragraph “b” below:

a. *Application of net operating losses to tax years beginning prior to January 1, 1982.* In cases where a net operating loss deduction for a nonresident or part-year resident for a tax year beginning on

or after January 1, 1982, is applied to a tax year beginning prior to January 1, 1982, the net operating loss deduction is applied to the taxable income for the carryback/carryforward year unless the NOL deduction is greater than the taxable income. If the NOL deduction is greater than the taxable income, the taxable income is increased by any Iowa source capital loss or any Iowa source capital gain deduction before the NOL deduction is applied against the taxable income.

EXAMPLE 1. A nonresident taxpayer has an Iowa net operating loss deduction of (\$15,000) from the taxpayer's 1982 Iowa return. The taxpayer is carrying the NOL deduction back to 1979 where taxpayer's Iowa taxable income was \$14,000. The taxpayer had a net capital loss of \$3,000 in 1979. Because the taxpayer's 1979 taxable income of \$14,000 was \$1,000 less than the NOL deduction, the taxable income was increased by \$1,000 of the net capital loss so there would be no carryover of the NOL to 1980. However, since the NOL deduction erased all the taxable income for 1979, the taxpayer would be granted a refund of all the Iowa income tax paid for the carryback year of 1979, plus applicable interest.

b. Application of net operating losses to tax years beginning on or after January 1, 1982. In situations where a net operating loss of a nonresident or part-year resident for a tax year beginning on or after January 1, 1982, is carried back/carried forward for application to a tax year beginning on or after January 1, 1982, the net operating loss deduction is applied to the Iowa source income of the taxpayer for the carryback/carryforward year. The Iowa source income is the income on line 25 of Section B of Schedule IA-126 for the 1982 and 1983 Iowa returns and line 26 of Section B of Schedule IA-126 for the 1984 Iowa return and the incomes on similar corresponding lines of Section B of Schedule IA-126 for tax years after 1984. In situations where the net operating loss deductions are larger than the Iowa source incomes, the Iowa source incomes are increased by any Iowa source capital gains or capital losses that are applicable, not to exceed the NOL deduction.

The Iowa source net income after reduction by the NOL deduction is divided by the all source income for the taxpayer. The resulting percentage is the adjusted Iowa income percentage. This percentage is subtracted from 100 percent to arrive at the revised nonresident/part-year resident credit for the taxpayer. The taxpayer's overpayment as a result of the net operating loss is the amount by which the revised nonresident/part-year credit exceeds the nonresident/part-year credit prior to application of the net operating loss deduction.

EXAMPLE 1. A nonresident taxpayer had a net operating loss deduction of \$11,800 for the 1996 tax year. When the 1996 Iowa return was filed, the taxpayer elected to carry the loss forward to the 1997 tax year. The taxpayer's all source net income and Iowa source net income for 1997 were as shown below. The net operating loss carryforward from 1996 is deducted only from the Iowa source income for 1997:

Category	All Source Income	Iowa Source Income
Wages	\$ 60,000	\$ 20,000
Interest	3,000	0
Rental income	10,000	3,000
Farm income	25,000	25,000
Capital gain	2,000	2,000
Net operating loss carryforward	—	(11,800)
Iowa net income	\$100,000	\$ 38,200

The Iowa source income of \$38,200 after reduction by the NOL carryforward is divided by the all source income of \$100,000 which results in an Iowa income percentage of 38.2. This percentage is subtracted from 100 percent to arrive at the nonresident/part-year resident credit percentage of 61.8. When the tax after credit amount of \$7,364 is multiplied by the nonresident/part-year credit percentage of 61.8, this results in a credit of \$4,551. This credit is \$869 greater than the nonresident/part-year credit of \$3,682 would have been for 1997 without application of the net operating loss deduction which was carried forward from 1996.

40.18(9) Net operating loss carryback for a taxpayer engaged in the business of farming. Notwithstanding the net operating loss carryback periods described in subrule 40.18(3), a taxpayer who is engaged in the trade or business of farming as defined in Section 263A(e)(4) of the Internal Revenue Code and has a loss from farming as defined in Section 172(b)(1)(F) of the Internal Revenue Code for a tax year beginning on or after January 1, 1998, this loss from farming is a net operating loss which the taxpayer may carry back five taxable years prior to the year of the loss. Therefore, if a taxpayer has a net operating loss from the trade or business of farming for the 1998 tax year, the net operating loss from farming can be carried back to the taxpayer's 1993 Iowa return and can be applied to the income shown on that return. The farming loss is the lesser of (1) the amount that would be the net operating loss for the tax year if only income and deductions from the farming business were taken into account, or (2) the amount of the taxpayer's net operating loss for the tax year. Thus, if a taxpayer has a \$10,000 loss from a grain farming business and the taxpayer had wages in the tax year of \$7,000, the taxpayer's loss for the year is only \$3,000. Therefore, the taxpayer has a net operating loss from farming of \$3,000 that may be carried back five years.

However, if a taxpayer has a net operating loss from the trade or business of farming for a taxable year beginning in 1998 or for a taxable year after 1998 and makes a valid election for federal income tax purposes to carry back the net operating loss two years, or three years if the loss was in a presidentially declared disaster area or related to a casualty or theft loss, the net operating loss must be carried back two years or three years for Iowa income tax purposes. A copy of the federal election made under Section 172(i)(3) for the two-year or three-year carryback in lieu of the five-year carryback may be attached to the Iowa return or the amended Iowa return to show why the carryback was two years or three years instead of five years.

This rule is intended to implement Iowa Code sections 422.5 and 422.7 and Iowa Code Supplement section 422.9(3).

701—40.19(422) Casualty losses. Casualty losses may be treated in the same manner as net operating losses and may be carried back three years and forward seven years in the event said casualty losses exceed income in the loss year.

This rule is intended to implement Iowa Code section 422.7.

701—40.20(422) Adjustments to prior years. When Iowa requests for refunds are filed, they shall be allowed only if filed within three years after the tax payment upon which a refund or credit became due, or one year after the tax payment was made, whichever time is the later. Even though a refund may be barred by the statute of limitations, a loss shall be carried back and applied against income on a previous year to determine the correct amount of loss carryforward.

This rule is intended to implement Iowa Code section 422.73.

701—40.21(422) Additional deduction for wages paid or accrued for work done in Iowa by certain individuals. For tax years beginning on or after January 1, 1984, but before January 1, 1989, a taxpayer who operates a business which is considered to be a small business as defined in subrule 40.21(2) is allowed an additional deduction for 50 percent of the first 12 months of wages paid or accrued during the tax years for work done in Iowa by employees first hired on or after January 1, 1984, or after July 1, 1984, where the taxpayer first qualifies as a small business under the expanded definition of a small business effective July 1, 1984, and meets one of the following criteria.

A handicapped individual domiciled in this state at the time of hiring.

An individual domiciled in this state at the time of hiring who meets any of the following conditions:

1. Has been convicted of a felony in this or any other state or the District of Columbia.
2. Is on parole pursuant to Iowa Code chapter 906.
3. Is on probation pursuant to Iowa Code chapter 907 for an offense other than a simple misdemeanor.
4. Is in a work release program pursuant to Iowa Code chapter 247A.

An individual, whether or not domiciled in this state at the time of the hiring, who is on parole or probation and to whom the interstate probation and parole compact under Iowa Code section 913.40 applies.

For tax years beginning on or after January 1, 1989, the additional deduction for wages paid or accrued for work done in Iowa by certain individuals is 65 percent of the wages paid for the first 12 months of employment of the individuals, not to exceed \$20,000 per individual. Individuals must meet the same criteria to qualify their employers for this deduction for tax years beginning on or after January 1, 1989, as for tax years beginning before January 1, 1989.

For tax years ending after July 1, 1990, a taxpayer who operates a business which does not qualify as a small business specified in subrule 40.21(2) may claim an additional deduction for wages paid or accrued for work done in Iowa by certain convicted felons provided the felons are described in the four numbered paragraphs above and the following unnumbered paragraph and provided the felons are first hired on or after July 1, 1990. The additional deduction is 65 percent not to exceed \$20,000 for the first 12 months of wages paid for work done in Iowa.

The qualifications mentioned in subrules 40.21(1), 40.21(4), 40.21(5) and 40.21(6) and in subrule 40.21(3), paragraphs “f” and “g,” apply to the additional deduction for work done in Iowa by a convicted felon in situations where the taxpayer is not a small business as well as in situations where the taxpayer is a small business.

The additional deduction applies to any individual hired on or after July 1, 2001, whether or not domiciled in Iowa at the time of hiring, who is on parole or probation and to whom either the interstate probation and parole compact under Iowa Code section 907A.1 or the compact for adult offenders under Iowa Code chapter 907B applies. The amount of additional deduction for hiring this individual is equal to 65 percent of the wages paid, but the additional deduction is not to exceed \$20,000 for the first 12 months of wages paid for work done in Iowa.

40.21(1) The additional deduction shall not be allowed for wages paid to an individual who was hired to replace an individual whose employment was terminated within the 12-month period preceding the date of first employment. However, if the individual being replaced left employment voluntarily without good cause attributable to the employer or if the individual was discharged for misconduct in connection with the individual’s employment as determined by the department of workforce development, the additional deduction shall be allowed.

The determination of whether an individual left employment voluntarily without good cause attributable to the employer or if the individual was discharged for misconduct is a factual determination which must be made on a case-by-case basis.

40.21(2) The term “small business” means a business entity organized for profit including but not limited to an individual proprietorship, partnership, joint venture, association or cooperative. It includes the operation of a farm, but not the practice of a profession. The following conditions apply to a business entity which is a small business for purposes of the additional deduction for wages:

a. The small business shall not have had more than 20 full-time equivalent employee positions during each of the 26 consecutive weeks within the 52-week period immediately preceding the date on which an individual for whom an additional deduction for wages is taken was hired. Full-time equivalent position means any of the following:

1. An employment position requiring an average work week of 40 or more hours;
2. An employment position for which compensation is paid on a salaried full-time basis without regard to hours worked; or
3. An aggregation of any number of part-time positions which equal one full-time position. For purposes of this subrule each part-time position shall be categorized with regard to the average number of hours worked each week as a one-quarter, half, three-quarter, or full-time position, as set forth in the following table:

<u>Average Number of Weekly Hours</u>	<u>Category</u>
More than 0 but less than 15	¼
15 or more but less than 25	½
25 or more but less than 35	¾
35 or more	1 (full-time)

b. The small business shall not have more than \$1 million in annual gross revenues, or after July 1, 1984, \$3 million in annual gross revenues or as the average of the three preceding tax years. “Annual gross revenues” means total sales, before deducting returns and allowances but after deducting corrections and trade discounts, sales taxes and excise taxes based on sales, as determined in accordance with generally accepted accounting principles.

c. The small business shall not be an affiliate or subsidiary of a business which is dominant in its field of operation. “Dominant in its field of operation” means having more than 20 full-time equivalent employees and more than \$1 million of annual gross revenues, or after July 1, 1984, \$3 million of annual gross revenues or as the average of the three preceding tax years. “Affiliate or subsidiary of a business dominant in its field of operations” means a business which is at least 20 percent owned by a business dominant in its field of operation, or by partners, officers, directors, majority stockholders, or their equivalent, of a business dominant in that field of operation.

d. “Operation of a farm” means the cultivation of land for the production of agricultural crops, the raising of poultry, the production of eggs, the production of milk, the production of fruit or other horticultural crops, grazing or the production of livestock. Operation of a farm shall not include the production of timber, forest products, nursery products, or sod and operation of a farm shall not include a contract where a processor or distributor of farm products or supplies provides spraying, harvesting or other farm services.

e. “The practice of a profession” means a vocation requiring specialized knowledge and preparation including but not limited to the following: medicine and surgery, podiatry, osteopathy, osteopathic medicine and surgery, psychology, psychiatry, chiropractic, nursing, dentistry, dental hygiene, optometry, speech pathology, audiology, pharmacy, physical therapy, occupational therapy, mortuary science, law, architecture, engineering and surveying, and accounting.

40.21(3) Definitions.

a. The term “*handicapped person*” means any person who has a physical or mental impairment which substantially limits one or more major life activities, has a record of such impairment, or is regarded as having such an impairment.

The term handicapped does not include any person who is an alcoholic or drug abuser whose current use of alcohol or drugs prevents the person from performing the duties of employment or whose employment, by reason of current use of alcohol or drugs, would constitute a direct threat to the property or the safety of others.

b. The term “*physical or mental impairment*” means any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: neurological; musculoskeletal; special sense organs; respiratory, including speech organs; cardiovascular; reproductive; digestive; genitourinary; hemic and lymphatic; skin and endocrine; or any mental or psychological disorder, such as intellectual disability, organic brain syndrome, emotional or mental illness, and specific learning disabilities.

c. The term “*major life activities*” means functions such as caring for one’s self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working.

d. The term “*has a record of such impairment*” means has a history of, or has been misclassified as having, a mental or physical impairment that substantially limits one or more major life activities.

e. The term “*is regarded as having such an impairment*” means:

1. Has a physical or mental impairment that does not substantially limit major life activities but that is perceived as constituting such a limitation;

2. Has a physical or mental impairment that substantially limits major life activities only as a result of the attitudes of others toward such impairment; or

3. Has none of the impairments defined as physical or mental impairments, but is perceived as having such an impairment.

f. The term “*successfully completing a probationary period*” includes those instances where the employee quits without good cause attributable to the employer during the probationary period or was discharged for misconduct during the probationary period.

g. The term “*probationary period*” means the period of probation for newly hired employees, if the employer has a written probationary policy. If the employer has no written probationary policy for newly hired employees, the probationary period shall be considered to be six months from the date of hire.

40.21(4) If a newly hired employee has been certified as either a vocational rehabilitation referral or an economically disadvantaged ex-convict for purposes of qualification for the work opportunity tax credit under Section 51 of the Internal Revenue Code, that employee shall be considered to have met the qualifications for the additional wage deduction.

A vocational rehabilitation referral is any individual certified by a state employment agency as having a physical or mental disability which, for the individual constitutes or results in a substantial handicap to employment. In addition, the individual must have been referred to the employer after completion or while receiving rehabilitation services pursuant to either a state or federal approved vocational rehabilitation program.

For all other newly hired employees, the employer has the burden of proof to show that the employees meet the qualifications for the additional wage deduction.

40.21(5) The taxpayer shall include a schedule with the filing of its tax return showing the name, address, social security number, date of hiring and wages paid of each employee for which the taxpayer claims the additional deduction for wages.

40.21(6) If the employee for which an additional deduction for wages was allowed fails to successfully complete a probationary period and the taxpayer has already filed an Iowa individual income tax return taking the additional deduction for wages, the taxpayer shall file an amended return adding back the additional deduction for wages. The amended return shall state the name and social security number of the employee who failed to successfully complete a probationary period.

This rule is intended to implement 2011 Iowa Code Supplement section 422.7 as amended by 2012 Iowa Acts, Senate File 2247.

[ARC 7761B, IAB 5/6/09, effective 6/10/09; ARC 0337C, IAB 9/19/12, effective 10/24/12]

701—40.22(422) Disability income exclusion.

40.22(1) Effective for tax years beginning on or after January 1, 1984, a taxpayer who is permanently and totally disabled and has not attained age 65 by the end of the tax year or reached mandatory retirement age can exclude a maximum of \$100 per week of payments received in lieu of wages. In order for the payments to qualify for the exclusion, the payments must be made under a plan providing payment of such amounts to an employee for a period during which the employee is absent from work on account of permanent and total disability.

40.22(2) In the case of a married couple where both spouses meet the qualifications for the disability exclusion, each spouse may exclude \$5,200 of income received on account of disability.

40.22(3) There is a reduction in the exclusion, dollar for dollar, to the extent that a taxpayer’s federal adjusted gross income (determined without this exclusion and without the deduction for the two-earner married couple) exceeds \$15,000. In the case of a married couple, both spouses’ incomes must be considered for purposes of determining if the disability income exclusion is to be reduced for income that exceeds \$15,000. The taxpayers’ disability income exclusion is eliminated when the taxpayers’ federal adjusted gross income is equal to or exceeds \$20,200. The deduction of the taxpayers’ disability income exclusion because the taxpayers’ federal adjusted gross income is greater than \$15,000 is illustrated in the following example:

A married couple is filing their 1984 Iowa return. The husband retired during the year and received \$8,000 in disability income during the 40-week period in 1984 that he was retired. The husband's other income in 1984 was \$2,500 and the wife's income was \$7,500.

Of the \$8,000 in disability payments received by the husband in the 40-week period he was retired in 1984, only \$4,000 is eligible for the exclusion. This is because the maximum amount that can be excluded on a weekly basis as a result of the disability exclusion is \$100.

However, the \$4,000 that qualifies for the exclusion must be reduced to the extent that the taxpayer's federal adjusted gross income exceeds \$15,000. In this example, the taxpayer's federal adjusted gross income is \$18,000, which exceeds \$15,000 by \$3,000. Therefore, the amount eligible for exclusion of \$4,000 must be reduced by \$3,000. This gives the taxpayers an exclusion of \$1,000.

40.22(4) For purposes of the disability income exclusion, "permanent and total disability" means the individual is unable to engage in any substantial gainful activity by reason of a medically determinable physical or mental impairment which (a) can be expected to last for a continuous period of 12 months or more or (b) can be expected to result in death. A certificate from a qualified physician must be attached to the individual's tax return attesting to the taxpayer's permanent and total disability as of the date the individual claims to have retired on disability. The certificate must include the name and address of the physician and contain an acknowledgment that the certificate will be used by the taxpayer to claim the exclusion. In an instance where an individual has been certified as permanently and totally disabled by the Veterans Administration, Form 6004 may be attached to the return instead of the physician's certificate. Form 6004 must be signed by a physician on the VA disability rating board.

40.22(5) Mandatory retirement age is the age at which the taxpayer would have been required to retire under the employer's retirement program.

40.22(6) The disability income exclusion is not applicable to federal income tax for tax years beginning after 1983. There are many revenue rulings, court cases and other provisions which were relevant to the disability income exclusion for the tax periods when the exclusion was available on federal returns. These provisions, court cases and revenue rulings concerning the disability income exclusion are equally applicable to the disability income exclusion on Iowa returns for tax years beginning on or after January 1, 1984.

This rule is intended to implement Iowa Code section 422.7.

701—40.23(422) Social security benefits. For tax years beginning on or after January 1, 1984, but before January 1, 2014, social security benefits received are taxable on the Iowa return. Although Tier 1 railroad retirement benefits were taxed similarly as social security benefits for federal income tax purposes beginning on or after January 1, 1984, these benefits are not subject to Iowa income tax. 45 U.S.C. Section 231m prohibits taxation of railroad retirement benefits by the states.

The following subrules specify how social security benefits are taxed for Iowa individual income tax purposes for tax years beginning on or after January 1, 1984, but prior to January 1, 1994; for tax years beginning on or after January 1, 1994, but prior to January 1, 2007; and for tax years beginning on or after January 1, 2007, but prior to January 1, 2014:

40.23(1) *Taxation of social security benefits for tax years beginning on or after January 1, 1984, but prior to January 1, 1994.* For tax years beginning on or after January 1, 1984, but prior to January 1, 1994, social security benefits are taxable on the Iowa return to the same extent as the benefits are taxable for federal income tax purposes. When both spouses of a married couple receive social security benefits and file a joint federal income tax return but separate returns or separately on the combined return form, the taxable portion of the benefits must be allocated between the spouses. The following formula should be used to compute the amount of social security benefits to be reported by each spouse on the Iowa return:

$$\text{Taxable Social Security Benefits on the Federal Return} \times \frac{\text{Total Social Security Benefit Received by Husband (or Wife)}}{\text{Total Social Security Benefits Received by Both Spouses}}$$

The example shown below illustrates how taxable social security benefits are allocated between spouses:

A married couple filed a joint federal income tax return for 1984. They filed separately on the combined return form for Iowa income tax purposes. During the tax year the husband received \$6,000 in social security benefits and the wife received \$3,000 in social security benefits. \$2,000 of the social security benefits was taxable on the federal return.

The \$2,000 in taxable social security benefits is allocated to the spouses on the following basis:

$$\begin{array}{r} \text{Husband} \\ \$2,000 \times \frac{\$6,000}{\$9,000} = \$1,333.40 \end{array} \qquad \begin{array}{r} \text{Wife} \\ \$2,000 \times \frac{\$3,000}{\$9,000} = \$666.60 \end{array}$$

In situations where taxpayers have received both social security benefits and Tier 1 railroad retirement benefits and are taxable on a portion of those benefits, the formula which follows should be used to determine the social security benefits to be included in net income:

$$\begin{array}{r} \text{Taxable Social Security Benefits} \\ \text{and Railroad Retirement} \\ \text{Benefits on Federal Return} \end{array} \times \frac{\begin{array}{r} \text{Total Social Security Benefit} \\ \text{Received} \end{array}}{\begin{array}{r} \text{Total Social Security Benefits and} \\ \text{Railroad Retirement Benefits} \\ \text{Received} \end{array}}$$

40.23(2) *Taxation of social security benefits for tax years beginning on or after January 1, 1994, but prior to January 1, 2007.* For tax years beginning on or after January 1, 1994, but prior to January 1, 2007, although up to 85 percent of social security benefits received may be taxable for federal income tax purposes, no more than 50 percent of social security benefits will be taxable for state individual income tax purposes. Thus, in the case of Iowa income tax returns for 1994 through 2006, social security benefits will be taxed as the benefits were taxed from 1984 through 1993 as described in subrule 40.23(1).

The amount of social security benefits that is subject to tax is the lesser of one-half of the annual benefits received in the tax year or one-half of the taxpayer's provisional income over a specified base amount. The provisional income is the taxpayer's modified adjusted gross income plus one-half of the social security benefits and one-half of the railroad retirement benefits received. Although railroad benefits are not taxable, one-half of the railroad retirement benefits received may be used to determine the amount of social security benefits that is taxable for state income tax purposes. Modified adjusted gross income is the taxpayer's federal adjusted gross income, plus interest that is tax-exempt on the federal return, plus any of the following incomes:

1. Savings bond proceeds used to pay expenses of higher education excluded from income under Section 135 of the Internal Revenue Code.
2. Foreign source income excluded from income under Section 911 of the Internal Revenue Code.
3. Income from Guam, American Samoa, and the Northern Mariana Islands excluded under section 931 of the Internal Revenue Code.
4. Income from Puerto Rico excluded under Section 933 of the Internal Revenue Code.

A taxpayer's base amount is: (a) \$32,000 if married and a joint federal return was filed, (b) \$0 if married and separate federal returns were filed by the spouses and (c) \$25,000 for individuals who filed federal returns and used a filing status other than noted in (a) and (b).

The IA 1040 booklet and instructions for 1994 through 2006 will include a worksheet to compute the amount of social security benefits that is taxable for Iowa income tax purposes. An example of the social security worksheet follows. Similar worksheets will be used for computing the amount of social security benefits that is taxable for years 1995 through 2006. An example of the social security worksheet follows:

1. Enter amount(s) from box 5 of all of Form(s) SSA-1099. If a joint return was filed, enter totals from box 5 of Form(s) SSA-1099 for both spouses. Do not include railroad retirement benefits from RRB-1099 here. See line 3. 1. _____
2. Divide line 1 amount above by 2. 2. _____
- *3. Add amounts of the following incomes from Form 1040: wages, taxable interest income, dividend income, taxable state and local income tax refunds, alimony, business income or loss, capital gain or loss, capital gain distributions, other gains, taxable IRA distributions, taxable pensions and annuities, incomes from Schedule E, farm income or loss, unemployment compensation, other income and 1/2 of railroad retirement benefits from RRB 1099. 3. _____
4. Enter amount from Form 1040, line 8b for interest that is federally tax-exempt. 4. _____
5. Add lines 2, 3 and 4. 5. _____
6. Enter total adjustment to income from Form 1040. 6. _____
7. Subtract line 6 from line 5. 7. _____
8. Enter on line 8 one of the following amounts based on the filing status used on Form 1040: Single, Head of Household, or Qualifying Widow(er), enter \$25,000. Married filing jointly, enter \$32,000. Married filing separately, enter \$0 (\$25,000 if you did not live with spouse any time in 1994). 8. _____
9. Subtract line 8 from line 7. If zero or less enter 0. If line 9 is zero, none of the social security benefits are taxable. If line 9 is more than zero, go to line 10. 9. _____
10. Divide line 9 amount above by 2. 10. _____
11. Taxable social security benefits enter smaller of line 2 or line 10 here and on line 14 IA 1040. 11. _____

*If applicable, include on line 3 the following incomes excluded from federal adjusted gross income: foreign earned income, income excluded by residents of Puerto Rico, American Samoa, and Guam and proceeds from savings bonds used for higher education.

Married taxpayers who filed a joint federal return and are filing separate Iowa returns or separately on the combined return form can allocate taxable social security benefits between them with the following formula.

$$\text{Taxable Social Security Benefits From Worksheet} \times \frac{\text{Total Social Security Benefit Received by Husband (or Wife)}}{\text{Total Social Security Benefits Received by Both Spouses}}$$

40.23(3) *Taxation of social security benefits for tax years beginning on or after January 1, 2007, but prior to January 1, 2014.* For tax years beginning on or after January 1, 2007, but prior to January 1, 2014, the amount of social security benefits subject to Iowa income tax will be computed as described in subrule 40.23(2), but will be further reduced by the following percentages:

Calendar years 2007 and 2008	32%
Calendar year 2009	43%
Calendar year 2010	55%
Calendar year 2011	67%
Calendar year 2012	77%
Calendar year 2013	89%

The Iowa individual income tax booklet and instructions for 2007 through 2013 will include a worksheet to compute the amount of social security benefits that is taxable for Iowa income tax purposes. An example of the social security worksheet follows:

1. Enter amount(s) from box 5 of Form(s) SSA-1099. If a joint return was filed, enter totals from box 5 of Form(s) SSA-1099 for both spouses. Do not include railroad retirement benefits from RRB-1099 here. See line 3. 1. _____
2. Divide line 1 amount above by 2. 2. _____
- *3. Add amounts of the following incomes from Form 1040: wages, taxable interest income, dividend income, taxable state and local income tax refunds, alimony, business income or loss, capital gain or loss, capital gain distributions, other gains, taxable IRA distributions, taxable pensions and annuities, incomes from Schedule E, farm income or loss, unemployment compensation, other income and 1/2 of railroad retirement benefits from RRB 1099. 3. _____
4. Enter amount from Form 1040, line 8b for interest that is federally tax-exempt. 4. _____
5. Add lines 2, 3 and 4. 5. _____
6. Enter total adjustment to income from Form 1040. 6. _____
7. Subtract line 6 from line 5. 7. _____
8. Enter on line 8 one of the following amounts based on the filing status used on Form 1040: Single, Head of Household, or Qualifying Widow(er), enter \$25,000. Married filing jointly, enter \$32,000. Married filing separately, enter \$0 (\$25,000 if you did not live with spouse anytime during the year). 8. _____
9. Subtract line 8 from line 7. If zero or less enter 0. If line 9 is zero, none of the social security benefits are taxable. If line 9 is more than zero, go to line 10. 9. _____
10. Divide line 9 amount above by 2. 10. _____
11. Taxable social security benefits before phase-out exclusion. Enter smaller of line 2 or line 10. 11. _____
12. Multiply line 11 by applicable exclusion percentage. 12. _____
13. Taxable social security benefits. Subtract line 12 from line 11. 13. _____

*If applicable, include on line 3 the following incomes excluded from federal adjusted gross income: foreign earned income, income excluded by residents of Puerto Rico, American Samoa, and Guam and proceeds from savings bonds used for higher education and employer-provided adoption benefits.

Married taxpayers who filed a joint federal return and are filing separate Iowa returns or separately on the combined return form can allocate taxable social security benefits between them with the following formula.

$$\text{Taxable Social Security Benefits From Worksheet} \times \frac{\text{Total Social Security Benefit Received by Spouse 1 (or Spouse 2)}}{\text{Total Social Security Benefits Received by Both Spouses}}$$

The amount on line 12 of this worksheet is the phase-out exclusion of social security benefits which must be included in net income in determining whether an Iowa return must be filed in accordance with rules 701—39.1(422) and 701—39.5(422), and this amount must also be included in net income in calculating the special tax computation in accordance with rule 701—39.15(422).

40.23(4) *Taxation of social security benefits for tax years beginning on or after January 1, 2014.* For tax years beginning on or after January 1, 2014, no social security benefits are taxable on the Iowa return. However, the 100 percent phase-out exclusion of social security benefits must still be included in net income in determining whether an Iowa return must be filed in accordance with rules 701—39.1(422) and

701—39.5(422), and the 100 percent phase-out exclusion of social security benefits must also be included in net income in calculating the special tax computation in accordance with rule 701—39.15(422).

This rule is intended to implement Iowa Code section 422.7 as amended by 2006 Iowa Acts, Senate File 2408.

701—40.24(99E) Lottery prizes. Prizes awarded under the Iowa Lottery Act are Iowa earned income. Therefore, individuals who win lottery prizes are subject to Iowa income tax in the aggregate amount of prizes received in the tax year, even if the individuals were not residents of Iowa at the time they received the prizes.

This rule is intended to implement Iowa Code section 99E.19.

701—40.25(422) Certain unemployment benefits received in 1979. Rescinded IAB 11/24/04, effective 12/29/04.

701—40.26(422) Contributions to the judicial retirement system. Rescinded IAB 11/24/04, effective 12/29/04.

701—40.27(422) Incomes from distressed sales of qualifying taxpayers. For tax years beginning on or after January 1, 1986, taxpayers with gains from sales, exchanges, or transfers of property must exclude those gains from net income, if the gains are considered to be distressed sale transactions.

40.27(1) Qualifications that must be met for transactions to be considered distressed sales. There are a number of qualifications that must be met before a transaction can be considered to be a distressed sale. The transaction must involve forfeiture of an installment real estate contract, the transfer of real or personal property securing a debt to a creditor in cancellation of that debt, or from the sale or exchange of property as a result of actual notice of foreclosure. The following three additional qualifications need to have been met.

a. The forfeiture, transfer, or sale or exchange was done for the purpose of establishing a positive cash flow.

b. Immediately before the forfeiture, transfer, or sale or exchange, the taxpayer's debt-to-asset ratio exceeded 90 percent as computed under generally accepted accounting principles.

c. The taxpayer's net worth at the end of the tax year was less than \$75,000.

In determining the taxpayer's debt-to-asset ratio immediately before the forfeiture, transfer, or sale or exchange and at the end of the tax year, the taxpayer must include any asset transferred within 120 days prior to the transaction or within 120 days prior to the end of the tax year without adequate and full consideration in money or money's worth.

Proof of forfeiture of the installment real estate contract, proof of transfer of property to a creditor in cancellation of a debt, or a copy of the notice of foreclosure constitutes documentation of the distressed sale and must be made a part of the return. Balance sheets showing the taxpayer's debt-to-asset ratio immediately before the distressed sale transaction and the taxpayer's net worth at the end of the tax year must also be included with the income tax return. The balance sheets supporting the debt-to-asset ratio and the net worth must list the taxpayer's personal assets and liabilities as well as the assets and liabilities of the taxpayer's farm or other business.

For purposes of this provision, in the case of married taxpayers, except in the instance when the husband and wife live apart at all times during the tax year, the assets and liabilities of both spouses must be considered in determining the taxpayers' net worth or the taxpayers' debt-to-asset ratio.

40.27(2) Losses from distressed sale transactions of qualifying taxpayers. Losses from distressed sale transactions meeting the qualifications described above were disallowed prior to the time that the provision for disallowing these losses was repealed in the 1990 session of the General Assembly. Taxpayers whose Iowa income tax liabilities were increased because of disallowance of losses from distressed sales transactions may file refund claims with the department to get refunds of the taxes paid due to disallowance of the losses. Refund claims will be honored by the department to the extent that

the taxpayers provide verification of the distressed sale losses and the claims are filed within the statute of limitations for refund given in Iowa Code subsection 422.73(2).

This rule is intended to implement Iowa Code section 422.7.

701—40.28(422) Losses from passive farming activities. Rescinded IAB 2/18/04, effective 3/24/04.

701—40.29(422) Intangible drilling costs. For tax years beginning on or after January 1, 1986, but before January 1, 1987, intangible drilling and development costs which pertain to any well for the production of oil, gas, or geothermal energy, and which are incurred after the commencement of the installation of the production casing for the well, are not allowed as an expense in the tax year when the costs were paid or incurred and must be added to net income. Instead of expensing the intangible drilling and development costs which are incurred after the commencement of the installation of the production casing for a well, the expenses must be amortized over a 26-month period, beginning in the month in which the costs are paid or incurred if the costs were incurred for a well which is located in the United States, the District of Columbia, and those continental shelf areas which are adjacent to United States territorial waters and over which the United States has exclusive rights with respect to the exploration and exploitation of natural resources as provided in Section 638 of the Internal Revenue Code.

In the case of intangible drilling and development costs which are incurred for oil or gas wells outside the United States, those costs must be recovered over a ten-year straight-line amortization period beginning in the year the costs are paid or incurred. However, in lieu of amortization of the costs, the taxpayer may elect to add these costs to the basis of the property for cost depletion purposes.

For tax years beginning on or after January 1, 1987, the intangible drilling costs, which are an addition to income subject to amortization, are the intangible drilling costs described in Section 57(a)(2) of the Internal Revenue Code. These intangible drilling costs are an item of tax preference for federal minimum tax purposes for tax years beginning after December 31, 1986.

This rule is intended to implement Iowa Code section 422.7.

701—40.30(422) Percentage depletion. For tax years beginning on or after January 1, 1987, the percentage depletion that is an addition to net income is the depletion described in Section 57(a)(1) of the Internal Revenue Code only to the extent the depletion applies to an oil, gas, or geothermal well. This depletion is an item of tax preference for federal minimum tax purposes for tax years beginning after December 31, 1986.

This rule is intended to implement Iowa Code section 422.7.

[ARC 7761B, IAB 5/6/09, effective 6/10/09]

701—40.31(422) Away-from-home expenses of state legislators. For tax years beginning on or after January 1, 1987, state legislators whose personal residences in their legislative districts are more than 50 miles from the state capitol may claim the same deductions for away-from-home expenses as are allowed on their federal income tax returns under Section 162(h)(1)(B) of the Internal Revenue Code. These individuals may claim deductions for meals and lodging per “legislative day” in the amount of per diem allowance for federal employees in effect for the tax year. The portion of this per diem allowance which is equal to the daily expense allowance authorized for state legislators in Iowa Code section 2.10 may be claimed as an adjustment to income. The balance of the per diem allowance for federal employees must be allocated between lodging expenses and meal expenses and is deductible as a miscellaneous itemized deduction. However, only 50 percent of the amount attributable to meal expenses may be deducted for tax years beginning on or after January 1, 1994.

State legislators whose personal residences in their legislative districts are 50 miles or less from the state capitol may claim a deduction for meals and lodging of \$50 per “legislative day.” However, in lieu of either of the deduction methods previously described in this rule, any state legislator may elect to itemize adjustments to income for amounts incurred for meals and lodging for the “legislative days” of the state legislator.

This rule is intended to implement Iowa Code section 422.7.

[ARC 7761B, IAB 5/6/09, effective 6/10/09]

701—40.32(422) Interest and dividends from regulated investment companies which are exempt from federal income tax. For tax years beginning on or after January 1, 1987, interest and dividends from regulated investment companies which are exempt from federal income tax under the Internal Revenue Code are subject to Iowa income tax. See rule 701—40.52(422) for a discussion of the Iowa income tax exemption of some interest and dividends from regulated investment companies that invest in certain obligations of the state of Iowa and its political subdivisions the interest from which is exempt from Iowa income tax. To the extent that a loss on the sale or exchange of stock in a regulated investment company was disallowed on an individual's federal income tax return pursuant to Section 852(b)(4)(B) of the Internal Revenue Code because the taxpayer held the stock six months or less and because the regulated investment company had invested in federal tax-exempt securities, the loss is allowed for purposes of computation of net income.

This rule is intended to implement Iowa Code section 422.7.

701—40.33(422) Partial exclusion of pensions and annuities for retired and disabled public employees. Rescinded IAB 11/24/04, effective 12/29/04.

701—40.34(422) Exemption of restitution payments for persons of Japanese ancestry. For tax years beginning on or after January 1, 1988, restitution payments authorized by P.L. 100-383 to individuals of Japanese ancestry who were interned during World War II are exempt from Iowa income tax to the extent the payments are included in federal adjusted gross income. P.L. 100-383 provides for a payment of \$20,000 for each qualifying individual who was alive on August 10, 1988. In cases where the qualifying individuals have died prior to the time that the restitution payments were received, the restitution payments received by the survivors of the interned individuals are also exempt from Iowa income tax.

This rule is intended to implement Iowa Code section 422.7.

701—40.35(422) Exemption of Agent Orange settlement proceeds received by disabled veterans or beneficiaries of disabled veterans. For tax years beginning on or after January 1, 1989, proceeds from settlement of a lawsuit against the manufacturer or distributor of a Vietnam herbicide received by a disabled veteran or the beneficiary of a disabled veteran for damages from exposure to the herbicide are exempt from Iowa income tax to the extent the proceeds are included in federal adjusted gross income. For purposes of this rule, Vietnam herbicide means a herbicide, defoliant, or other causative agent containing a dioxin, including, but not limited to, Agent Orange used in the Vietnam conflict beginning December 22, 1961, and ending May 7, 1975.

This rule is intended to implement Iowa Code section 422.7.

701—40.36(422) Exemption of interest earned on bonds issued to finance beginning farmer loan program. Interest earned on or after July 1, 1989, from bonds or notes issued by the agricultural development authority to finance the beginning farmer loan program is exempt from the state income tax.

This rule is intended to implement Iowa Code sections 175.17 and 422.7.

701—40.37(422) Exemption of interest from bonds issued by the Iowa comprehensive petroleum underground storage tank fund board. Interest received from bonds issued by the Iowa comprehensive petroleum underground storage tank fund board is exempt from state individual income tax. This is effective for interest received from these bonds on or after May 5, 1989, but before July 1, 2009.

This rule is intended to implement Iowa Code section 455G.6.

701—40.38(422) Capital gain deduction or exclusion for certain types of net capital gains. For tax years beginning on or after January 1, 1998, net capital gains from the sale of the assets of a business described in subrules 40.38(2) to 40.38(8) are excluded in the computation of net income for qualified individual taxpayers. This includes net capital gains from the sales of real property, sales of assets of a

business entity, sales of certain livestock of a business, sales of timber, liquidation of assets of certain corporations, and certain stock sales which are treated as acquisition of assets of a corporation. "Net capital gains" means capital gains net of capital losses because Iowa's starting point for computing net income is federal adjusted gross income. A business includes any activity engaged in by a person or caused to be engaged in by a person with the object of gain, benefit, or advantage, either direct or indirect. Subrule 40.38(1) describes the criteria for material participation which are required for the exclusion of certain capital gains related to the sale of real property and the sale of assets of business entities. Subrule 40.38(9) describes situations in which the capital gain deduction otherwise allowed is not allowed for purposes of computation of a net operating loss or for computation of the taxable income for a tax year to which a net operating loss is carried.

40.38(1) *Material participation in a business if the taxpayer has been involved in the operation of the business on a regular, continuous, and substantial basis for ten or more years at the time assets of the business are sold or exchanged.* If the taxpayer has regular, continuous and substantial involvement in the operations of a business which meets the criteria for material participation in an activity under Section 469(h) of the Internal Revenue Code and the federal tax regulations for material participation in 26 CFR §1.469-5 and §1.469-5T, for the ten years prior to the date of the sale or exchange of the assets of a business, the taxpayer shall be considered to have satisfied the material participation requirement for this subrule. In determining whether a particular taxpayer has material participation in a business, participation of the taxpayer's spouse in a business must also be taken into account. The spouse's participation in the business must be taken into account even if the spouse does not file a joint state return with the taxpayer or if the spouse has no ownership interest in the business. The activities of other family members, employees, or consultants are not attributed to the taxpayer to determine material participation.

a. Work done in connection with an activity shall not be treated as participation in the activity if such work is not of a type that is customarily done by an owner and one of the principal purposes for the performance of such work is to avoid the disallowance of any loss or credit from such activity.

b. Work done in an activity by an individual in the individual's capacity as an investor is not considered to be material participation in the business or activity unless the investor is directly involved in the day-to-day management or operations of the activity or business. Investor-type activities include the study and review of financial statements or reports on operations of the activity, preparing or compiling summaries or analyses of finances or operations of the activity for the individual's own use, and monitoring the finances or operations of the activity in a nonmanagerial capacity.

c. A taxpayer is most likely to have material participation in a business if that business is the taxpayer's principal business. However, for purposes of this subrule, it is possible for a taxpayer to have had material participation in more than one business in a tax year.

d. A highly relevant factor in material participation in a business is how regularly the taxpayer is present at the place where the principal operations of a business are conducted. In addition, a taxpayer is likely to have material participation in a business if the taxpayer performs all functions of the business. The fact that the taxpayer utilizes employees or contracts for services to perform daily functions in a business will not prevent the taxpayer from qualifying as materially participating in the business, but the services will not be attributed to the taxpayer.

e. Generally, an individual will be considered as materially participating in a tax year if the taxpayer satisfies or meets any of the following tests:

(1) The individual participates in the business for more than 500 hours in the taxable year.

EXAMPLE. Joe and Sam Smith are brothers who formed a computer software business in 2001 in Altoona, Iowa. In 2011, Joe spent approximately 550 hours selling software for the business and Sam spent about 600 hours developing new software programs for the business. Both Joe and Sam would be considered to have materially participated in the computer software business in 2011.

(2) The individual's participation in the business constitutes substantially all of the participation of all individuals in the business for the tax year.

EXAMPLE. Roger McKee is a teacher in a small town in southwest Iowa. He owns a truck with a snowplow blade. He contracts with some of his neighbors to plow driveways. He maintains and drives

the truck. In the winter of 2011, there was little snow so Mr. McKee spent only 20 hours in 2011 clearing driveways. Roger McKee is deemed to have materially participated in the snowplowing business in 2011.

(3) The individual participates in the business for more than 100 hours in the tax year, and no other individual spends more time in the business activity than the taxpayer.

(4) The individual participates in two or more businesses, excluding rental businesses, in the tax year and participates for more than 500 hours in all of the businesses and more than 100 hours in each of the businesses, and the participation is not material participation within the meaning of one of the tests in subparagraphs 40.38(1)“e”(1) to (3) and (5) to (7). Thus, the taxpayer is regarded as materially participating in each of the businesses.

EXAMPLE. Frank Evans is a full-time CPA. He owns a restaurant and a record store. In 2011, Mr. Evans spent 400 hours working at the restaurant and 150 hours at the record store and other individuals spent more time in the business activity than he did. Mr. Evans is treated as a material participant in each of the businesses in 2011.

(5) An individual who has materially participated (determined with regard to subparagraphs 40.38(1)“e”(1) to (4)) in a business for five of the past ten years will be deemed a material participant in the current year.

EXAMPLE. Joe Bernard is the co-owner of a plumbing business. He retired in 2008 after 35 years in the business. Since Joe’s retirement, he has retained his interest in the business. Joe is considered to be materially participating in the business for the years through 2013 or for the five years after the year of retirement. Thus, if the plumbing business is sold before the end of 2013, the sale will qualify for the Iowa capital gain deduction on Joe’s 2013 Iowa return because he was considered to be a material participant in the business according to the federal rules for material participation.

(6) An individual who has materially participated in a personal service activity for at least three years will be treated as a material participant for life. A personal service activity involves the performance of personal services in the fields of health, law, engineering, architecture, accounting, actuarial science, performing arts, consulting or any other trade or business in which capital is not a material income-producing factor.

EXAMPLE. Gerald Williams is a retired attorney, but he retains an interest in the law firm he was involved in for over 40 years. Because the law firm is a personal service activity, Mr. Williams is considered to be a material participant in the law firm even after his retirement from the firm.

(7) An individual who participates in the business activity for more than 100 hours may be treated as materially participating in the activity if, based on all the facts and circumstances, the individual participates on a regular, continuous, and substantial basis. Management activities of a taxpayer are not considered for purposes of determining if there was material participation if either of the following applies: any person other than the taxpayer is compensated for management services, or any person provides more hours of management services than the taxpayer.

f. The following paragraphs provide clarification regarding material participation:

(1) A retired or disabled farmer is treated as materially participating in a farming activity for the current year if the farmer materially participated in the activity for five of the last eight years before the farmer’s retirement or disability. That is, the farmer must have been subject to self-employment tax in five of the eight years before retirement or disability and had to have been either actively farming so the income was reported on Schedule F or materially participating in a crop-share activity for five of the last eight years prior to retirement or disability. The farmer must be receiving old-age benefits under Title II of the Social Security Act to be considered a retired farmer.

EXAMPLE. Fred Smith was 80 years old in 2011 when he sold 200 acres of farmland he had owned since 1951. Mr. Smith retired in 2001 when he began receiving old-age benefits under Title II of the Social Security Act. In the last eight years before retirement, Mr. Smith was paying self-employment tax on his farm income which was reported on Schedule F for each of those eight years. In the years before he sold the farmland, Mr. Smith was leasing the farmland on a cash-rent basis, whereby Mr. Smith would not be considered to be materially participating in the farming activity. Because Mr. Smith had material participation in the farmland in the eight years before retirement, Mr. Smith was considered to

have met the material participation requirement, so the capital gain qualified for the Iowa capital gain deduction.

(2) A surviving spouse of a farmer is treated as materially participating in the farming activity for the current tax year if the farmer met the material participation requirements at the time of death and the spouse actively participates in the farming business activity. That is, the spouse participates in the making of management decisions relating to the farming activity or arranges for others to provide services (such as repairs, plowing, and planting). However, if the surviving spouse was retired at the time of the farmer's death and the deceased spouse materially participated in the farming activity for five of the last eight years prior to the deceased spouse's retirement, then the surviving spouse is deemed to be materially participating, even if the surviving spouse did not actively participate in the farming activity. See IRS Technical Service Memorandum 200911009, March 13, 2009.

(3) Limited partners of a limited partnership. The limited partners will not be treated as materially participating in any activity of a limited partnership except in a situation where the limited partner would be treated as materially participating under the material participation tests in subparagraphs 40.38(1) "e"(1), (5) and (6) above as if the taxpayer were not a limited partner for the tax year.

(4) Cash farm lease. A farmer who rents farmland on a cash basis will not generally be considered to be materially participating in the farming activity. The burden is on the landlord to show there was material participation in the cash-rent farm activity.

(5) Farm landlord involved in crop-share arrangement. A farm landlord is subject to self-employment tax on net income from a crop-share arrangement with a tenant. The landlord is considered to be materially participating with the tenant in the crop-share activity if the landlord meets one of the four following tests:

TEST 1. The landlord does any three of the following: (1) Pays or is obligated to pay for at least half the direct costs of producing the crop; (2) Furnishes at least half the tools, equipment, and livestock used in producing the crop; (3) Consults with the tenant; and (4) Inspects the production activities periodically.

TEST 2. The landlord regularly and frequently makes, or takes part in making, management decisions substantially contributing to or affecting the success of the enterprise.

TEST 3. The landlord worked 100 hours or more spread over a period of five weeks or more in activities connected with crop production.

TEST 4. The landlord has done tasks or performed duties which, considered in their total effect, show that the landlord was materially and significantly involved in the production of the farm commodities.

(6) Conservation reserve payments (CRP). Farmers entering into long-term contracts providing for less intensive use of highly erodible or other specified cropland can receive compensation for conversion of such land in the form of an "annualized rental payment." Although the CRP payments are referred to as "rental payments," the payments are considered to be receipts from farm operations and not rental payments from real estate.

If an individual is receiving CRP payments and is not considered to be retired from farming, the CRP payments are subject to self-employment tax. If individuals actively manage farmland placed in the CRP program by directly participating in seeding, mowing, and planting the farmland or by overseeing these activities and the individual is paying self-employment tax, the owner will be considered to have had material participation in the farming activity.

(7) Rental activities or businesses. For purposes of subrules 40.38(1) and 40.38(2), the general rule is that a taxpayer may have material participation in the rental activity unless covered by a specific exception in this subrule (for example, the exceptions for farm rental activities in subparagraphs 40.38(1) "f"(4), (5) and (6)). Rental activity or rental business is as the term is used in Section 469(c) of the Internal Revenue Code. Rental activity or rental business does not typically involve day-to-day involvement since gross income from this activity represents amounts paid mainly for the use of the property. Examples of qualifying involvement in operations of the property that are considered material participation activities if performed on a regular, continuous and substantial basis include advertising, interviewing potential tenants, preparing leases, collecting rent, handling security deposits, receiving questions and complaints from tenants, and performing routine maintenance.

EXAMPLE. Ryan Stanley is an attorney who has owned two duplex units since 1998 and has received rental income from these duplexes since 1998. Mr. Stanley is responsible for the maintenance of the duplexes and may hire other individuals to perform repairs and other upkeep on the duplexes. However, no person spends more time in operating, managing and maintaining the duplexes than Mr. Stanley, and Mr. Stanley spends more than 100 hours per year in operating, managing and maintaining the duplexes. The duplexes are sold in 2011, resulting in a capital gain. Mr. Stanley can claim the capital gain deduction on the 2011 Iowa return since he met the material participation requirements for this rental activity.

(8) Like-kind exchanges and involuntary conversions. Material participation can be tacked on in cases of replacement property acquired under a like-kind exchange under Section 1031 of the Internal Revenue Code or an involuntary conversion under Section 1033 of the Internal Revenue Code.

EXAMPLE. Dustin James owned Farm A, and he materially participated in the operation of Farm A for 10 years. Mr. James executed a like-kind exchange for Farm B, and he materially participated in the operation of this farm for 4 years until he retired. Mr. James sold Farm B 2 years after he retired. Although he only materially participated in the operation of Farm B for 4 of the last 8 years before he retired, the operation of Farm A can be tacked on for purposes of the material participation test. Mr. James meets the material participation test since he participated in farming activity for the last 14 years before he retired.

(9) Record-keeping requirements. Taxpayers are required to provide proof of services performed and the hours attributable to those services. Detailed records should be maintained by the taxpayer, on as close to a daily basis as possible at or near the time of the performance of the activity, to verify that the material participation test has been met. However, material participation can be established by any other reasonable means, such as approximating the number of hours based on appointment books, calendars, or narrative summaries. Records prepared long after the activity, in preparation of an audit or proceeding, are insufficient to establish participation in an activity.

40.38(2) Net capital gains from the sale of real property used in a business. Net capital gains from the sale of real property used in a business are excluded from net income on the Iowa return of the owner of a business to the extent that the owner had held the real property in the business for ten or more years and had materially participated in the business for at least ten years. For purposes of this provision, material participation is defined in Section 469(h) of the Internal Revenue Code and described in detail in subrule 40.38(1). It is not required that the property be located in Iowa for the owner to qualify for the deduction.

a. Meaning of the term “held” for purposes of this rule. For capital gains reported for tax years ending prior to January 1, 2006, the term “held” is defined as “owned.” *James and Linda Bell*, Decision of the Administrative Law Judge, Docket No. 01DORF013, January 15, 2002, and *David V. and Julie K. Gorsche v. Iowa State Board of Tax Review*, Case No. CVCV 8379, Polk County District Court, May 5, 2011. Therefore, the property held by the taxpayer must have been owned by the taxpayer for ten or more years to meet the time held requirement for the capital gain deduction for tax years ending prior to January 1, 2006. For capital gains reported for tax years ending on or after January 1, 2006, the term “held” is determined using the holding period provisions set forth in Section 1223 of the Internal Revenue Code and the federal regulations adopted pursuant to Section 1223. Therefore, as long as the holding period used to compute the capital gain is ten years or more, the time held requirement for the capital gain deduction will be met for tax years ending on or after January 1, 2006.

b. Sale to a lineal descendant. For purposes of taxation of capital gains from the sale of real property of a business by a taxpayer, there is no waiver of the ten-year material participation requirement when the property is sold to a lineal descendant of the taxpayer as there is for capital gains from sales of businesses described in subrule 40.38(3).

c. In situations in which real property was sold by a partnership, subchapter S corporation, limited liability company, estate, or trust and the capital gain from the sale of the real property flows through to the owners of the business entity for federal income tax purposes, the owners may exclude the capital gain from their net incomes if the real property was held for ten or more years and the owners had materially participated in the business for ten years prior to the date of sale of the real property, irrespective of whether the type of business entity changed during the ten-year period prior to the date of sale. That is,

if the owner of the business had held and materially participated in the business in the entire ten-year period before the sale, the fact that the business changed from one type of entity to another during the period does not disqualify the owner from excluding capital gains from the sale of real estate owned by the business during that whole ten-year period.

d. Installments received in the tax year from installment sales of businesses are eligible for the exclusion of capital gains from net income if all relevant criteria were met at the time of the installment sale. *Herbert Clausen and Sylvia Clausen v. Iowa Department of Revenue and Finance*, Law No. 32313, Crawford County District Court, May 24, 1995. For example, if a taxpayer received an installment payment in 2011 from the sale of a business that occurred in 2007, the installment received in 2011 would qualify for the exclusion if the taxpayer had held the business for ten or more years and had materially participated in the business for a minimum of ten years at the time of the sale in 2007.

e. Capital gains from the sale of real property by a C corporation do not qualify for the capital gain deduction except under the specific circumstances of a liquidation described in subrule 40.38(7).

f. Capital gains from the sale of real property held for ten or more years for speculation but not used in a business do not qualify for the capital gain deduction.

g. The following noninclusive examples illustrate how this subrule applies:

EXAMPLE 1. ABC Company, an S corporation, owned 1,000 acres of land. John Doe is the sole shareholder of ABC Company and had materially participated in ABC Company and held ABC Company for more than ten years at the time that 500 acres of the land were sold for a capital gain of \$100,000 in 2011. The capital gain recognized in 2011 by ABC Company and which passed to John Doe as the shareholder of ABC Company is exempt from Iowa income tax because Mr. Doe met the material participation and time held requirements.

EXAMPLE 2. John Smith and Sam Smith both owned 50 percent of the stock in Smith and Company, which was an S corporation that held 1,000 acres of farmland. Sam Smith had managed all the farming operations for the corporation from the time the corporation was formed in 1990. John Smith was an attorney who lived and practiced law in Denver, Colorado. John Smith was the father of Sam Smith. In 2011, Smith and Company sold 200 acres of the farmland for a \$50,000 gain. \$25,000 of the capital gain passed through to John Smith and \$25,000 of the capital gain passed through to Sam Smith. The farmland was sold to Jerry Smith, who was another son of John Smith. Both John Smith and Sam Smith had owned the corporation for at least ten years at the time the land was sold, but only Sam Smith had materially participated in the corporation for the last ten years. Sam Smith could exclude the \$25,000 capital gain from the land sale because he had met the time held and material participation requirements. John Smith could not exclude the \$25,000 capital gain since, although he had met the time held requirement, he did not meet the material participation requirement. Although the land sold by the corporation was sold to John Smith's son, a lineal descendant of John Smith, the capital gain John Smith realized from the land sale does not qualify for exemption for state income tax purposes. There is no waiver of the ten-year material participation requirement for a taxpayer's sale of real estate from a business to a lineal descendant of the taxpayer as is described for the sale of business assets in subrule 40.38(3).

EXAMPLE 3. Jerry Jones had owned and had materially participated in a farming business for 15 years and raised row crops in the business. There were 500 acres of land in the farming business; 300 acres had been held for 15 years, and 200 acres had been held for 5 years. If Mr. Jones sold the 200 acres of land that had been held only 5 years, any capital gain from the sale of this land would not be excludable since the land was part of the farming business but had been held for less than 10 years. If the 300 acres of land that had been held for 15 years had been sold, the capital gain from that sale would qualify for exclusion.

EXAMPLE 4. John Pike owned a farming business for more than ten years. In this business, Mr. Pike farmed a neighbor's land on a crop-share basis throughout the period. Mr. Pike bought 80 acres of land in 2004 and farmed that land until the land was sold in 2011 for a capital gain of \$20,000. The capital gain was taxable on Mr. Pike's Iowa return since the farmland had been held for less than ten years although the business had been operated by Mr. Pike for more than ten years.

EXAMPLE 5. Joe and John Perry were brothers in a partnership for six years which owned 80 acres of land. The brothers dissolved the partnership in 2005, formed an S corporation, and included the land

in the assets of the S corporation. The land was sold in 2011 to Brian Perry, who was the grandson of John Perry. The Perry brothers realized from the land sale a capital gain of \$15,000, which was divided equally between the brothers. Joe Perry was able to exclude the capital gain he had received from the sale as he had held the land and had materially participated in the business for at least ten years at the time the land was sold. John Perry was unable to exclude the capital gain because, although he had owned the land for ten years, he had not materially participated in the business for ten years when the land was sold. The fact that the land was sold to a lineal descendant of John Perry is not relevant because the sale involved only real property held in a business and not the sale of all, or substantially all, of the tangible personal property and intangible property of the business.

EXAMPLE 6. Todd Myers had a farming business which he had owned and in which he had materially participated for 20 years. There were two tracts of farmland in the farming business. In 2011, he sold one tract of farmland in the farming business that he had held for more than 10 years for a \$50,000 capital gain. The farmland was sold to a person who was not a lineal descendant. During the same year, Mr. Myers had \$30,000 in long-term capital losses from sales of stock. In this situation, on Mr. Myers' 2011 Iowa return, the capital gains would not be applied against the capital losses. Because the capital losses are unrelated to the farming business, Mr. Myers does not have to reduce the Iowa capital gain deduction by the capital losses from the sales of stock.

EXAMPLE 7. Jim Casey had owned farmland in Greene County, Iowa, since 1987, and had materially participated in the farming business. In 1998, Mr. Casey entered into a like-kind exchange under Section 1031 of the Internal Revenue Code for farmland located in Carroll County, Iowa. Mr. Casey continued to materially participate in the farming business in Carroll County. The farmland in Carroll County was sold in 2005, resulting in a capital gain. For federal tax purposes, the holding period for the capital gain starts in 1987 under Section 1223 of the Internal Revenue Code. Because Mr. Casey held the farmland in Carroll County for less than ten years, based on Iowa law at the time of the sale, the capital gain from the sale does not qualify for the Iowa capital gain deduction. The deduction is not allowed even though the holding period for federal tax purposes is longer than ten years because the capital gain was reported for a tax year ending prior to January 1, 2006. If the farmland was sold in 2006, the gain would qualify for the capital gain deduction since the capital gain would have been reported for a tax year ending on or after January 1, 2006.

EXAMPLE 8. Jane and Ralph Murphy, a married couple, owned farmland in Iowa since 1975. Ralph died in 1994 and, under his will, Jane acquired a life interest in the farm. The farmland was managed by their son Joseph after Ralph's death. Jane died in 1998, and Joseph continued to materially participate and manage the farm operation. Joseph sold the farmland in 2006 and reported a capital gain. For federal tax purposes under Section 1223 of the Internal Revenue Code, the holding period for the capital gain starts in 1994, when Ralph died. Because the holding period for the capital gain was ten years or more under Section 1223 of the Internal Revenue Code, Joseph is entitled to the capital gain deduction under Iowa law since he materially participated for ten or more years and the capital gain was reported for a tax year ending on or after January 1, 2006.

40.38(3) *Net capital gains from the sale of assets of a business by an individual who had held the business for ten or more years and had materially participated in the business for ten or more years.* Net capital gains from the sale of the assets of a business are excluded from an individual's net income to the extent that the individual had held the business for ten or more years and had materially participated in the business for ten or more years. In addition to the time held and material participation qualifications for the capital gain deduction, the owner of the business must have sold substantially all of the tangible personal property or the service of the business in order for the capital gains to be excluded from taxation.

a. For purposes of this subrule, the phrase "substantially all of the tangible personal property or the service of the business" means that the sale of the assets of a business during the tax year must represent at least 90 percent of the fair market value of all of the tangible personal property and service of the business on the date of sale of the business assets. Thus, if the fair market value of a business's tangible personal property and service was \$400,000, the business must sell tangible personal property and service of the business that had a fair market value of 90 percent of the total value of those assets to achieve the 90 percent or more standard. However, this does not mean that the amount raised from the

sale of the assets must be \$360,000 in order for the 90 percent standard to be met, only that the assets involved in the sale of the business must represent 90 percent of the total value of the business assets.

b. If the 90 percent of assets test is met, capital gains from other assets of the business can also be excluded. Some of these assets include, but are not limited to, stock of another corporation, bonds, including municipal bonds, and interests in other businesses. If the 90 percent test has been met, all of the individual assets of the business do not have to have been held for ten or more years on the date of sale for the capital gains from the sale of these assets to be excluded in computing the taxpayer's net income. This statement is made with the assumption that the taxpayer has owned the business and materially participated in the business for ten or more years prior to the sale of the assets of the business.

c. In most instances, the sale of merchandise or inventory of a business will not result in capital gains for the seller of a business, so the proceeds from the sale of these items would not be excluded from taxation.

d. For the purposes of this subrule, the term "service of the business" means intangible assets used in the business or for the production of business income which, if sold for a gain, would result in a capital gain for federal income tax purposes. Intangible assets that are used in the business or for the production of income include, but are not limited to, the following items: (1) goodwill, (2) going concern value, (3) information base, (4) patent, copyright, formula, design, or similar item, (5) client lists, and (6) any franchise, trademark, or trade name. The type of business that owns the intangible asset is immaterial, whether the business is a manufacturing business, a retail business, or a service business, such as a law firm or an accounting firm.

e. When the business held by the taxpayer for a minimum of ten years is sold to an individual or individuals who are all lineal descendants of the taxpayer, the taxpayer is not required to have materially participated in the business for ten years prior to the sale of the business in order for the capital gain to be excluded in the computation of net income. The term "lineal descendant" means children of the taxpayer, including legally adopted children and biological children, stepchildren, grandchildren, great-grandchildren, and any other lineal descendants of the taxpayer.

f. In situations in which substantially all of the tangible personal property or the service of the business was sold by a partnership, subchapter S corporation, limited liability company, estate, or trust and the capital gains from the sale of the assets flow through to the owners of the business entity for federal income tax purposes, the owners can exclude the capital gains from their net incomes if the owners had held the business for ten or more years and had materially participated in the business for ten years prior to the date of sale of the tangible personal property or service, irrespective of whether the type of business entity changed during the ten-year period prior to the sale. The criteria for material participation in a business may be found in subrule 40.38(1).

g. Installments received in the tax year from installment sales of businesses are eligible for the exclusion if all relevant criteria were met at the time of the installment sale. *Herbert Clausen and Sylvia Clausen v. Iowa Department of Revenue and Finance*, Law No. 32313, Crawford County District Court, May 24, 1995. For example, if a taxpayer received an installment payment in 2011 from the sale of a business that occurred in 2007, the installment received in 2011 would qualify for the exclusion if, at the time of the sale in 2007, the taxpayer had held the business for ten or more years and had materially participated in the business for a minimum of ten years.

h. Sale of capital stock of a corporation to a lineal descendant or to another individual does not constitute the sale of a business for purposes of the capital gain deduction, whether the corporation is a C corporation or an S corporation.

i. Capital gains from the sale of an ownership interest in a partnership, limited liability company or other entity are not eligible for the capital gain deduction. *Ranniger v. Iowa Department of Revenue and Finance*, Iowa Supreme Court, No. 11, 06-0761, March 21, 2008.

j. The sale of one activity of a business or one distinct part of a business may not constitute the sale of a business for purposes of this rule unless the activity or distinct part is a separate business entity such as a partnership or sole proprietorship which is owned by the business or unless the activity or distinct part of a business represents the sale of at least 90 percent of the fair market value of the tangible personal property or service of the business.

In order to determine whether the sale of the business assets constitutes the sale of a business for purposes of excluding capital gains recognized from the sale, refer to 701—subrule 54.2(1) relating to a unitary business. If activities or locations comprise a unitary business, then 90 percent or more of that unitary business must be sold to meet the requirement for capital gains from the sale to be excluded from taxation. If the activity or location constitutes a separate, distinct, nonunitary business, then 90 percent of the assets of that location or activity must be sold to qualify for the exclusion of the capital gain. The burden of proof is on the taxpayer to show that a sale of assets of a business meets the 90 percent standard.

k. The following noninclusive examples illustrate how this subrule applies:

EXAMPLE 1. Joe Rich is the sole owner of Eagle Company, which is an S corporation. In 2011, Mr. Rich sold all the stock of Eagle Company to his son, Mark Rich, and recognized a \$100,000 gain on the sale of the stock. This capital gain would be taxable on Joe Rich's 2011 Iowa return since the sale of stock of a corporation did not constitute the sale of the tangible personal property and service of a business.

EXAMPLE 2. Randall Insurance Agency, a sole proprietorship, is owned solely by Peter Randall. In 2011, Peter Randall received capital gains from the sale of all tangible assets of the insurance agency. In addition, Mr. Randall had capital gains from the sale of client lists and goodwill to the new owners of the business. Since Mr. Randall had held the insurance agency for more than ten years and had materially participated in the insurance agency for more than ten years at the time of the sale of the tangible property and intangible property of the business, Mr. Randall can exclude the capital gains from the sale of the tangible assets and the intangible assets in computing net income on his 2011 Iowa return.

EXAMPLE 3. Joe Brown owned and materially participated in a sole proprietorship for more than ten years. During the 2011 tax year, Mr. Brown sold two delivery trucks and had capital gains from the sale of the trucks. At the time of sale, the trucks were valued at \$30,000, which was about 10 percent of the fair market value of the tangible personal property of the business. Mr. Brown could not exclude the capital gains from the sale of the trucks on his 2011 Iowa return as the sale of those assets did not involve the sale of substantially all of the tangible personal property and service of Mr. Brown's business.

EXAMPLE 4. Rich Bennet owned a restaurant and a gift shop that were in the same building and were part of a sole proprietorship owned only by Mr. Bennet, who had held and materially participated in both business activities for over ten years. Mr. Bennet sold the gift shop in 2011 for \$100,000 and had a capital gain of \$40,000 from the sale. The total fair market value of all tangible personal property and intangible assets in the proprietorship at the time the gift shop was sold was \$250,000. Mr. Bennet could not exclude the capital gain on his 2011 Iowa return because he had not sold at least 90 percent of the tangible and intangible assets of the business.
